**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

### ● **What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?**

The Investment Manager monitors compliance with the characteristic to maintain a higher overall sustainability score than the MSCI AC Asia Pacific ex Japan (Net TR) index by reference to the weighted average sustainability score of the Fund in Schroders' proprietary tool compared against the weighted average sustainability score of the MSCI AC Asia Pacific ex Japan (Net TR) index in Schroders' proprietary tool over the previous six-month period, based on month-end data. The overall sustainability score aggregates the effect of sustainability indicators including but not limited to greenhouse gas emissions, water usage, and salaries compared to the living wage.

The Investment Manager monitors compliance with the characteristic to invest at least 50% of its assets in sustainable investments by reference to (i) the sustainability score of each asset in Schroders' proprietary tool and / or (ii) whether an asset is deemed sustainable on an exceptional basis by Schroders.

Compliance with this is monitored daily via our automated compliance controls. The Fund also applies certain exclusions, with which the Investment Manager monitors compliance on an ongoing basis via its portfolio compliance framework.

● ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

In respect of the proportion of the Fund's portfolio that is invested in sustainable investments, each sustainable investment either (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool and/ or (ii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. The environmental or social objectives of the sustainable investments that the Fund partially intends to make may include, but are not limited to, increasing environmental and/or social benefits such as greater water access or fair pay and reducing environmental, and/or social costs such as carbon emissions or food waste. For example, greater water access as measured by Schroders' proprietary tool are the estimated societal benefits of the provision of clean drinking water to human health.

● ***How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?***

The Investment Manager's approach to investing in issuers that do not cause significant harm to any environmental or social sustainable investment objective includes the following:

- Firm-wide investment exclusions apply to Schroders funds. These relate to international conventions on cluster munitions, anti-personnel mines, and chemical and biological weapons and thermal coal mining. Further information and a list of excluded controversial weapons companies is available at <https://www.schroders.com/en/global/individual/about-us/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/group-exclusions/>
- The Fund excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal.
- The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. Schroders' determination of whether a company has been involved in such a breach considers relevant principles such as those contained in the UN Global Compact (UNGC) principles, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. The 'global norms' breach list may be informed by assessments performed by third party providers and by proprietary research, where relevant to a particular situation.
- The Fund may also apply certain other exclusions in addition to those summarised above.

Further information on all of the Fund's investment exclusions is to be found under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

● ***How have the indicators for adverse impacts on sustainability factors been taken into account?***

When seeking to identify significant harm, Schroders' approach to taking into account the Principal Adverse Impacts (PAI) indicators involves a quantitative and a qualitative assessment. Where it is not considered appropriate or feasible to set quantitative thresholds, the Investment Manager engages, where relevant, investee companies deemed not to satisfy the quantitative thresholds would generally be excluded, unless on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area.

This framework is subject to ongoing review, particularly as the availability and quality of the data evolves.

Our approach includes:

1. **Quantitative:** this includes indicators where specific thresholds have been established:

- Via the application of exclusions. This approach is relevant to **PAI 4** (Exposure to companies active in the fossil fuel sector), **PAI 5** (Share of non-renewable energy consumption and production) and **PAI 14** (Exposure to controversial weapons). Further, the following PAIs are assessed as part of Schroders 'global norms' breach list exclusion (which seeks to exclude companies where significant harm is occurring):
  - **PAI 7** (Activities negatively affecting biodiversity-sensitive areas)
  - **PAI 8** (Emissions to water)
  - **PAI 9** (Hazardous waste and radioactive waste ratio)

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- **PAI 10** (Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development Guidelines for Multinational Enterprises)
- **PAI 11** (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises)
- **PAI 14** in Table 3 (Number of identified cases of severe human rights issues and incidents)
- Via the application of an alert system flag if the relevant indicator(s) exceeds a threshold. These quantitative thresholds to assess significant harm are established centrally by our Sustainable Investment team and monitored systematically. This approach applies to indicators where we have segmented the population into harm groups to establish a threshold, such as carbon related PAI metrics, **PAI 1** (GHG emissions), **PAI 2** (Carbon footprint) and **Voluntary PAI 4 in Table 2** (Investing in companies without carbon emission reduction initiatives). **PAI 3** (GHG intensity of investee companies) operates in a similar way but the threshold is based on a revenue metric. A threshold for **PAI 6** (Energy consumption intensity per high impact climate sector) is established based on the above-mentioned carbon measures. A similar approach has been taken for **PAI 15** (GHG intensity). **PAI 16** (Investee countries subject to social violations) also operates in the same way but based on data availability regarding social violations. Through this process the relevant issuer(s) that is/are deemed not to satisfy the quantitative thresholds is/are flagged to the Investment Manager for consideration, whose response may involve selling the holdings(s) or maintaining the position if on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area. Investee companies deemed to cause significant harm are excluded from the Fund.
- 2. **Qualitative:** This includes PAI indicators where Schroders' believes that the data available does not enable us to make a quantitative determination regarding whether significant harm is done so as to warrant excluding an investment. In such cases, the Investment Manager engages wherever possible with the company or companies held, in accordance with the priorities documented in Schroders' Engagement Blueprint and/or voting policy. This approach applies to indicators such as **PAI 12** (Unadjusted gender pay gap) and **PAI 13** (Board gender diversity), where we engage and may use our voting rights where we consider appropriate. Both board gender diversity and disclosure of gender pay gap information are captured in our Engagement Blueprint.

● ***How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

Companies on Schroders' 'global norms' breach list cannot be categorised as sustainable investments. Schroders' determination of whether a company should be included on such list considers the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, among other relevant principles. The 'global norms' breach list is informed by third party providers and proprietary research, where relevant.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## **Does this financial product consider principal adverse impacts on sustainability factors?**

☒ Yes.

The Investment Manager's approach to considering principal adverse impacts on sustainability factors differs depending on the relevant indicator. Some indicators are considered via the application of exclusions, some are considered via the investment process (where data is available via Schroders PAI dashboard and via other external data sources) and some via engagement. Further details on how these have been considered during the reference period are detailed below.

PAIs are considered as part of pre-investment through the application of exclusions. These include:

- Controversial weapons: PAI 14 (Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)).
- Schroders' 'global norms' breach list, which covers: PAI 7 (Activities negatively affecting biodiversity-sensitive areas), PAI 8 (Emissions to water), PAI 9 (Hazardous waste and radioactive waste ratio), PAI 10 (Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises), PAI 11 (Lack

of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises) and PAI 14 in Table 3 (Number of identified cases of severe human rights issues and incidents).

- Companies that derive revenues above certain thresholds from activities related to thermal coal: PAI 4 (Exposure to companies active in the fossil fuel sector) and PAI 5 (Share of non-renewable energy consumption and production).

Compliance with these thresholds is monitored via the Investment Manager's portfolio compliance framework.

PAIs are also considered through integration in the investment process through the bottom-up stock analysis at a company level. The Asian Equities investment team uses a proprietary tool which provides a framework for analysing a company's relationship with its stakeholders and the sustainability of its business model and covers PAIs 1, 2, 3 and 6 (Greenhouse gas emissions). PAI indicators may be further reviewed via the Schroders PAI dashboard.

PAIs are also considered post-investment through engagement where the Investment Manager engages in line with the approach and expectations set out in Schroders Engagement Blueprint, which outlines our approach to active ownership.

The Investment Manager may engage with selected issuers held by the Fund on PAIs. For example, we aim to engage with several issuers on net zero carbon emissions targets (PAI 1,2,3), procuring renewable energy (PAI 5) and further topics of engagement may include board gender diversity which relates to PAI 13.

Where issuers are flagged on lack of data availability on PAIs, the Investment Manager may engage with issuers where the primary focus is to increase reporting, quality and availability of PAI data.

Our approach is subject to ongoing review, particularly as the availability, and quality, of PAI data evolves. The Management Company's statement on principal adverse impacts on sustainability factors is available at <https://api.schroders.com/document-store/id/ffcb39bb-96cb-4e56-9461-deba9a493e85>. The Fund level information is disclosed or will be disclosed (as applicable) in the Fund's annual report.

☐ No

## What investment strategy does this financial product follow?

**The investment strategy** guides investment decisions based on factors such as investment objectives and risk tolerance.

The sustainable investment strategy used by the Investment Manager is as follows:

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies in Asia Pacific markets (excluding Japan) or companies which derive a significant proportion of their revenues or profits from the Asia Pacific region.

The Fund maintains a higher overall sustainability score than the MSCI AC Asia Pacific ex Japan (Net TR) index, based on the Investment Manager's rating system.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria.

The Investment Manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the webpage <https://www.schroders.com/en-lu/lu/individual/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/disclosures-and-statements/>

The Fund may invest directly in China H-Shares and may invest less than 30% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through:

- Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect;
- the Qualified Foreign Investor (QFI) Scheme;
- shares listed on the STAR Board and the ChiNext; and
- Regulated Markets.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash.

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Investment Manager applies sustainability criteria when selecting investments for the Fund.

The investable universe is assessed using a number of proprietary tools, as well as external rating services. Companies being considered for investment are assessed on a stakeholder-based approach against criteria including, but not limited to (1) good governance practices; (2) impact on the environment and local communities; and (3) fair and equitable treatment of employees, suppliers and customers.

In the portfolio construction process, companies that fall into the bottom quintile based on the Investment Manager's overall sustainability score will not be eligible for inclusion in the first instance.

However, if, based on proprietary analysis and ongoing engagement with a company, the Investment Manager believes that the company is taking concrete steps to transition out of business segments that have not met the sustainability criteria or to improve their relevant areas of weakness, the company may be deemed eligible for investment.

The Investment Manager ensures that at least 90% of the portion of the Fund's Net Asset Value composed of investments in companies is rated against the sustainability criteria. As a result of the application of sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments.

For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of equity and equity related securities of companies in Asia Pacific markets or companies which derive a significant proportion of their revenues or profits from the Asia Pacific region.

● ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

The following binding elements are applied throughout the investment process:

- The Fund maintains a higher overall sustainability score than the MSCI AC Asia Pacific ex Japan (Net TR) index based on the Investment Manager's rating criteria.
- The Fund invests at least 50% of its assets in sustainable investments and such investments do not cause significant environmental or social harm.
- Exclusions are applied to direct investments in companies. The Fund applies certain exclusions relating to international conventions on cluster munitions, antipersonnel mines, and chemical and biological weapons. The Fund also excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal. The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. Further, the Fund may apply other exclusions as listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>. The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria.
- The Investment Manager ensures that at least 90% of the portion of the Fund's Net Asset Value composed of investments in companies is rated against the sustainability criteria.
- As a result of the application of sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments.

● ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

As a result of the application of the Fund's sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments. For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy.

● ***What is the policy to assess good governance practices of the investee companies?***

In order to assess good governance practices, a central Good Governance Test is applied. This test is based on a data-driven quantitative framework, which uses a scorecard to assess companies across the categories of sound management structures, employee relations, remuneration of staff, and tax compliance. Schroders has defined a number of criteria across these pillars.

Compliance with the test is monitored centrally and companies which do not pass this test cannot be held by the Fund, unless the Investment Manager has agreed that the issuer demonstrates good governance based on additional insights beyond that quantitative analysis.

**Good governance** practices include sound management structures, employee relations, remuneration of staff and tax compliance.

**Asset allocation** describes the share of investments in specific assets.

## **What is the asset allocation planned for this financial product?**

The planned composition of the Fund's investments that are used to meet its environmental or social characteristics are summarised below.

**#1 Aligned with E/S characteristics** includes the minimum proportion of the Fund's assets used to attain the environmental or social characteristics, which is equal to 80%. The Fund commits to maintain a higher overall sustainability score than the MSCI AC Asia Pacific ex Japan (Net TR) index, and so the Fund's investments that are scored by Schroders' proprietary sustainability tool are included within the minimum proportion stated in #1 on the basis that they will contribute to the Fund's sustainability score (whether such individual investment has a

positive or a negative score). Also included within #1 is the minimum proportion of assets that are invested in sustainable investments, as indicated in #1A. The minimum proportions stated apply in normal market conditions. The actual proportion stated in #1 is expected to be higher.

The Fund will invest at least 50% of its assets in sustainable investments. Each sustainable investment (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool and/ or (ii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. A sustainable investment is classified as having an environmental or social objective depending on whether the relevant issuer has a higher score in Schroders' proprietary tool relative to its applicable peer group for its environmental indicators or its social indicators. In each case, indicators are comprised of both "costs" and "benefits".

**#2 Other** includes cash which is treated as neutral for sustainability purposes. #2 also includes investments that are not scored by Schroders' proprietary sustainability tool and so do not contribute towards the Fund's sustainability score. As #1 states a minimum proportion that is in practice expected to be higher, the proportion stated in #2 is expected to be lower.

Minimum safeguards are applied where relevant to Money Market Investments and other investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders' credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders' proprietary tool, which supports the analysis of a counterparty's management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders' proprietary tool would lead to further analysis and potential exclusion by Schroders' credit risk team.

#1 The minimum proportion stated applies in normal market conditions.

### ● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

The Fund may use derivatives that are scored in Schroders' proprietary tool to meet the environmental and/or social characteristics promoted by the Fund, as such derivatives would contribute to the Fund's sustainability score (whether such individual investment has a positive or a negative score).

## To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

There is no minimum extent to which the Fund's investments (including transitional and enabling activities) with an environmental objective are aligned with the Taxonomy. Taxonomy alignment of this Fund's investments has therefore not been calculated and has as a result been deemed to constitute 0% of the Fund's portfolio.

In future it is expected that the Fund will assess and report on the extent to which its underlying investments are in economic activities that qualify as environmentally sustainable under the Taxonomy, along with information relating to the proportion of enabling and transitional activities. This Prospectus will be updated once it is possible in the Investment Manager's opinion to accurately disclose to what extent the Fund's investments are in Taxonomy-aligned environmentally sustainable activities, including the proportions of investments in enabling and transitional activities selected for the Fund.

### ● Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents x% of the total investments<sup>2</sup>.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

### ● What is the minimum share of investments in transitional and enabling activities?

As per the above, at the date of this Prospectus the share of investments by the Fund in transitional and enabling activities is currently deemed to constitute 0% of the Fund's portfolio.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

<sup>2</sup> As there is no Taxonomy-alignment, there is no impact on the graph if sovereign bonds are excluded (i.e. the percentage of Taxonomy-aligned investments remains 0%) and the Management Company therefore believes that there is no need to mention this information.

alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

### What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

The Fund commits to invest at least 1% of its assets in sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

### What is the minimum share of socially sustainable investments?

The Fund commits to invest at least 1% of its assets in sustainable investments with a social objective.

### What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

**#2 Other** includes cash which is treated as neutral for sustainability purposes. #2 also includes investments that are not scored by Schroders’ proprietary sustainability tools and so do not contribute towards the Fund’s sustainability score.

Minimum safeguards are applied where relevant to Money Market Investments and other investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders’ credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders’ proprietary tool, which supports the analysis of a counterparty’s management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders’ proprietary tool would lead to further analysis and potential exclusion by Schroders’ credit risk team.

### Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

**Reference benchmarks** are indexes to measure whether the financial product attains the

- **How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?**

This question is not applicable for the Fund.

- ***How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?***  
This question is not applicable for the Fund.
- ***How does the designated index differ from a relevant broad market index?***  
This question is not applicable for the Fund.
- ***Where can the methodology used for the calculation of the designated index be found?***  
This question is not applicable for the Fund.

## **Where can I find more product specific information online?**

More product-specific information can be found on the webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** **Schroder International Selection Fund Sustainable Euro Credit**

**Legal entity identifier:** **5493003OZ3JFD52K6J04**

## Environmental and/or social characteristics

| Does this financial product have a sustainable investment objective?                                                     |                                                                                                                                                                                                                                                       |

|                                                                                                                          | <input type="checkbox"/> It promotes E/S characteristics, but <b>will not make any sustainable investments</b>                                                                                                                                        |

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## What environmental and/or social characteristics are promoted by this financial product?

The Fund maintains a higher overall sustainability score than the ICE Bank of America Euro Corporate index, based on the Investment Manager's rating system. This benchmark (which is a broad market index) does not take into account the environmental and social characteristics promoted by the Fund.

The sustainability score is measured by Schroders' proprietary tool that provides an aggregate estimate of the social and environmental costs and benefits that an issuer may create. It does this by scoring the issuer against a list of indicators – scores may be positive (for example, when an issuer pays more than average living wages) or negative (for example, when an issuer emits carbon). It does this using third party data as well as Schroders' own estimates and assumptions and the outcome may differ from other sustainability tools and measures.

The result is expressed as an aggregate score of the sustainability indicators for each issuer, specifically a notional percentage (positive or negative) of sales or GDP of the relevant underlying issuer. For example, a score of +2% would mean that for every \$100 of sales the issuer generates, it would provide a net positive contribution to society and/or the environment of \$2. The sustainability score of the Fund is derived from the scores of all eligible issuers in the Fund's portfolio measured by Schroders' proprietary tool.

The Fund invests at least 55% of its assets in sustainable investments, which are investments that the Investment Manager expects to contribute towards the advancement of one or more environmental and/or social objective (s).

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

### ● **What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?**

The Investment Manager monitors compliance with the characteristic to maintain a higher overall sustainability score than the ICE Bank of America Euro Corporate index by reference to the weighted average sustainability score of the Fund in Schroders' proprietary tool compared against the weighted average sustainability score of the ICE Bank of America Euro Corporate index in Schroders' proprietary tool over the previous six month period, based on month-end data. The overall sustainability score aggregates the effect of sustainability indicators including but not limited to greenhouse gas emissions, water usage, and salaries compared to the living wage.

The Investment Manager monitors compliance with the characteristic to invest at least 55% of its assets in sustainable investments by reference to (i) the sustainability score of each asset in Schroders' proprietary tool and/or (ii) whether the asset is classified as a green, social and/or sustainable bond and / or (iii) whether an asset is deemed sustainable on an exceptional basis by Schroders. Compliance with these

requirements are monitored daily via our automated compliance controls. The Fund also applies certain exclusions, with which the Investment Manager monitors compliance on an ongoing basis via its portfolio compliance framework.

● ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

In respect of the proportion of the Fund's portfolio that is invested in sustainable investments, each sustainable investment either (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool and/or (ii) is classified as a green, social and/or sustainable bond using a third-party data source and/ or (iii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. The environmental or social objectives of the sustainable investments that the Fund partially intends to make may include, but are not limited to, increasing environmental and/or social benefits such as greater water access or fair pay and reducing environmental, and/or social costs such as carbon emissions or food waste. For example, greater water access as measured by Schroders' proprietary tool are the estimated societal benefits of the provision of clean drinking water to human health. The environmental or social objectives of green, social and/or sustainable bonds may include, but are not limited to, climate change mitigation, renewable energy initiatives, natural resource conservation, access to finance and affordable housing projects.

● ***How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?***

The Investment Manager's approach to investing in issuers that do not cause significant harm to any environmental or social sustainable investment objective includes the following:

- Firm-wide investment exclusions apply to Schroders funds. These relate to international conventions on cluster munitions, anti-personnel mines, and chemical and biological weapons and thermal coal mining. Further information and a list of excluded controversial weapons companies is available at <https://www.schroders.com/en/global/individual/about-us/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/group-exclusions/>
- The Fund excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal.
- The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. Schroders' determination of whether a company has been involved in such a breach considers relevant principles such as those contained in the UN Global Compact (UNGC) principles, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. The 'global norms' breach list may be informed by assessments performed by third party providers and by proprietary research, where relevant to a particular situation.
- The Fund may also apply certain other exclusions in addition to those summarised above.

Further information on all of the Fund's investment exclusions is to be found under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>.

● ***How have the indicators for adverse impacts on sustainability factors been taken into account?***

When seeking to identify significant harm, Schroders' approach to taking into account the Principal Adverse Impacts (PAI) indicators involves a quantitative and a qualitative assessment. Where it is not considered appropriate or feasible to set quantitative thresholds, the Investment Manager engages, where relevant. Investee companies deemed not to satisfy the quantitative thresholds would generally be excluded, unless on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area.

This framework is subject to ongoing review, particularly as the availability and quality of the data evolves.

Our approach includes:

1. **Quantitative:** this includes indicators where specific thresholds have been established:

- Via the application of exclusions. This approach is relevant to **PAI 4** (Exposure to companies active in the fossil fuel sector), **PAI 5** (Share of non-renewable energy consumption and production) and **PAI 14** (Exposure to controversial weapons). Further, the following PAIs are assessed as part of Schroders 'global norms' breach list exclusion (which seeks to exclude companies where significant harm is occurring):

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- **PAI 7** (Activities negatively affecting biodiversity-sensitive areas)
- **PAI 8** (Emissions to water)
- **PAI 9** (Hazardous waste and radioactive waste ratio)
- **PAI 10** (Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development Guidelines for Multinational Enterprises)
- **PAI 11** (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises)
- **PAI 14** in Table 3 (Number of identified cases of severe human rights issues and incidents)
- Via the application of an alert system flag if the relevant indicator(s) exceeds a threshold. These quantitative thresholds to assess significant harm are established centrally by our Sustainable Investment team and monitored systematically. This approach applies to indicators where we have segmented the population into harm groups to establish a threshold, such as carbon related PAI metrics, **PAI 1** (GHG emissions), **PAI 2** (Carbon footprint) and **Voluntary PAI 4 in Table 2** (Investing in companies without carbon emission reduction initiatives). **PAI 3** (GHG intensity of investee companies) operates in a similar way but the threshold is based on a revenue metric. A threshold for **PAI 6** (Energy consumption intensity per high impact climate sector) is established based on the above-mentioned carbon measures. A similar approach has been taken for **PAI 15** (GHG intensity). **PAI 16** (Investee countries subject to social violations) also operates in the same way but based on data availability regarding social violations. Through this process the relevant issuer(s) that is/are deemed not to satisfy the quantitative thresholds is/are flagged to the Investment Manager for consideration, whose response may involve selling the holdings(s) or maintaining the position if on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area. Investee companies deemed to cause significant harm are excluded from the Fund.
- 2. **Qualitative:** This includes PAI indicators where Schroders' believes that the data available does not enable us to make a quantitative determination regarding whether significant harm is done so as to warrant excluding an investment. In such cases, the Investment Manager engages wherever possible with the company or companies held, in accordance with the priorities documented in Schroders' Engagement Blueprint and/or voting policy. This approach applies to indicators such as **PAI 12** (Unadjusted gender pay gap) and **PAI 13** (Board gender diversity), where we engage and may use our voting rights where we consider appropriate. Both board gender diversity and disclosure of gender pay gap information are captured in our Engagement Blueprint.

● ***How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

Companies on Schroders' 'global norms' breach list cannot be categorised as sustainable investments. Schroders' determination of whether a company should be included on such list considers the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, among other relevant principles. The 'global norms' breach list is informed by third party providers and proprietary research, where relevant.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

*The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.*

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## **Does this financial product consider principal adverse impacts on sustainability factors?**

☒ Yes.

The Investment Manager's approach to considering principal adverse impacts on sustainability factors differs depending on the relevant indicator. Some indicators are considered via the application of exclusions, some are considered via the investment process (where data is available via Schroders PAI dashboard and via other external data sources) and some are considered via engagement. Further details are provided below.

PAIs are considered as part of pre-investment through the application of exclusions. These include:

- Controversial weapons: PAI 14 (Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).
- Schroders' 'global norms' breach list, which covers: PAI 7 (Activities negatively affecting biodiversity-sensitive

areas), PAI 8 (Emissions to water), PAI 9 (Hazardous waste and radioactive waste ratio), PAI 10 (Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises), PAI 11 (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises) and PAI 14 in Table 3 (Number of identified cases of severe human rights issues and incidents).

- Companies that derive revenues above certain thresholds from activities related to thermal coal: PAI 4 (Exposure to companies active in the fossil fuel sector) and PAI 5 (Share of non-renewable energy consumption and production).

Compliance with these thresholds is monitored via the Investment Manager's portfolio compliance framework. PAIs are also considered through integration in the investment process as Schroders' proprietary tool incorporates several PAIs as a component of its scoring methodology. In assessing an issuer's overall environmental score PAI 1, 2, 3, 4, 5, and 6 (Greenhouse gas emissions) are included. All PAI indicators are monitored via Schroders PAI dashboard.

PAIs are also considered post-investment through engagement where the Investment Manager engages in line with the approach and expectations set out in Schroders Engagement Blueprint, which outlines our approach to active ownership. The Investment Manager may engage with selected issuers held by the Fund on PAIs 1, 2, 3 and 4. We aim to engage with several issuers on net zero carbon emissions targets (PAI 1,2), procuring renewable energy (PAI 5).

Our approach is subject to ongoing review, particularly as the availability, and quality, of PAI data evolves. The Management Company's statement on principal adverse impacts on sustainability factors is available at <https://api.schroders.com/document-store/id/ffcb39bb-96cb-4e56-9461-deba9a493e85>. The Fund level information is disclosed or will be disclosed (as applicable) in the Fund's annual report.

☐ No

## What investment strategy does this financial product follow?

**The investment strategy** guides investment decisions based on factors such as investment objectives and risk tolerance.

The sustainable investment strategy used by the Investment Manager is as follows:

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities denominated in or hedged to Euro issued by companies and other non-sovereign bond issuers, governments, government agencies and supra-nationals worldwide.

In security analysis, the Fund compares issuers in the context of their sector and country peers.

The Fund maintains a higher overall sustainability score than ICE Bank of America Euro Corporate index, based on the Investment Manager's rating system.

The Fund invests at least 10% of its assets in green, social and/or sustainable bonds.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria.

The Investment Manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the webpage <https://www.schroders.com/en-lu/lu/individual/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/disclosures-and-statements/>

The Fund may invest:

- up to 30% of its assets directly or indirectly (including via credit default swaps and credit default swap indices) in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds);
- up to 20% of its assets in sovereign government bonds;
- up to 20% of its assets in asset-backed securities and mortgage-backed securities; and
- up to 20% of its assets in convertible bonds including up to 10% of its assets in contingent convertible bonds.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash.

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Investment Manager applies environmental, social and governance criteria when selecting investments for the Fund. The strategy applies screens to combine best-in-class companies with investments in issuers demonstrating good or improving sustainability credentials. This is achieved by:

- The exclusion of issuers with certain exposure to specific activities that the Investment Manager considers environmentally destructive or socially damaging, violate human rights and/or have demonstrated gross misconduct.

- The inclusion of issuers that the Investment Manager considers are well placed to deliver stable and improving sustainability trajectories relative to their industry peers. As part of the selection process, the Investment Manager also considers companies' commitment to sustainable themes such as responsible finance, waste management, climate change mitigation, education, health and wellbeing, and circular packaging.

The sustainability assessment of investments duly considers environmental, social and governance factors, which are reflected in the selection process. The Investment Manager notably considers companies' commitment to sustainable practices such as responsible finance, preservation of natural capital and biodiversity, climate change, education, health and wellbeing, good governance, among others.

The Investment Manager may also engage with companies to encourage transparency and advance transition to sustainability practices. We focus on sustainability themes to influence long-term value and alpha generation. These themes include climate change, natural capital and biodiversity, human rights, human capital management, diversity and inclusion, and corporate governance.

The Fund may also invest strategically in green, social and sustainable bonds. The selection of green, social and sustainable bonds entails assessing the overall sustainability of the issuer and analysing the use of proceeds. A green bond is a fixed or floating rate security that finances an environmental objective. A social bond is a fixed or floating rate security that finances a social objective. A sustainable bond is a fixed or floating rate security that finances both environmental and social objectives.

The Investment Manager may also engage with companies to encourage transparency, the transition to a circular economy with lower carbon emissions intensity and responsible social behaviour that promotes sustainable growth and alpha generation.

The primary sources of information used to perform the sustainability analysis are Schrodgers' proprietary sustainability tools and research, and the Investment Manager's third-party research, NGO reports and expert networks. The Investment Manager also performs its own analysis of information provided by the companies, including information provided in company sustainability reports and other relevant company material.

The Investment Manager ensures that at least 90% of the portion of the Fund's Net Asset Value composed of investments in companies is rated against the sustainability criteria. As a result of the application of sustainability criteria, at least 25% of the Fund's potential investment universe is excluded from the selection of investments in 2025, increasing to 30% from 2026.

For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of fixed and floating rate securities denominated in various currencies and issued by companies worldwide. The universe (for the purpose of this test only) does not include fixed or floating rate securities issued by public or quasi-public issuers.

### ● ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

The following binding elements are applied throughout the investment process:

- The Fund maintains a higher overall sustainability score than the ICE Bank of America Euro Corporate index based on the Investment Manager's rating criteria.
- The Fund invests at least 55% of its assets in sustainable investments and such investments do not cause significant environmental or social harm.
- Exclusions are applied to direct investments in companies. The Fund applies certain exclusions relating to international conventions on cluster munitions, antipersonnel mines, and chemical and biological weapons. The Fund also excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal. The Fund excludes companies that are assessed by Schrodgers to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schrodgers' 'global norms' breach list. Further, the Fund may apply other exclusions as listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schrodgers.com/en-lu/lu/individual/fund-centre>. The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria.
- The Investment Manager ensures that at least 90% of the portion of the Fund's Net Asset Value composed of investments in companies is rated against the sustainability criteria.
- As a result of the application of sustainability criteria, at least 25% of the Fund's potential investment universe is excluded from the selection of investments.

### ● ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

As a result of the application of the Fund's sustainability criteria, at least 25% of the Fund's potential investment universe is excluded from the selection of investments. For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy.

**Good governance** practices include sound management structures, employee relations, remuneration of staff and tax compliance.

**Asset allocation** describes the share of investments in specific assets.

● **What is the policy to assess good governance practices of the investee companies?**

In order to assess good governance practices, a central Good Governance Test is applied. This test is based on a data-driven quantitative framework, which uses a scorecard to assess companies across the categories of sound management structures, employee relations, remuneration of staff, and tax compliance. Schroders has defined a number of criteria across these pillars.

Compliance with the test is monitored centrally and companies which do not pass this test cannot be held by the Fund, unless the Investment Manager has agreed that the issuer demonstrates good governance based on additional insights beyond that quantitative analysis.

**What is the asset allocation planned for this financial product?**

The planned composition of the Fund’s investments that are used to meet its environmental or social characteristics are summarised below.

**#1 Aligned with E/S characteristics** includes the minimum proportion of the Fund’s assets used to attain the environmental or social characteristics, which is equal to 80%. The Fund commits to maintain a higher overall sustainability score than the ICE Bank of America Euro Corporate index, and so the Fund’s investments that are scored by Schroders’ proprietary sustainability tool are included within the minimum proportion stated in #1 on the basis that they will contribute to the Fund’s sustainability score (whether such individual investment has a positive or a negative score). Also included within #1 are any green, social or sustainable bonds that are not scored by Schroders’ proprietary sustainability tool. The minimum proportion of assets that are invested in sustainable investments, is indicated in #1A. The minimum proportions stated apply in normal market conditions. The actual proportion stated in #1 is expected to be higher.

The Fund will invest at least 55% of its assets in sustainable investments. Each sustainable investment (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders’ proprietary tool and/ or (ii) is classified as a green, social and/or sustainable bond using a third-party data source and/ or (iii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. With the exception of any green or social bonds, which will be classified as having an environmental or social objective respectively, a sustainable investment is classified as having an environmental or social objective depending on whether the relevant issuer has a higher score in Schroders’ proprietary tool relative to its applicable peer group for its environmental indicators or its social indicators. In each case, indicators are comprised of both “costs” and “benefits.”

**#2 Other** includes cash which is treated as neutral for sustainability purposes. #2 also includes other investments that are not scored by Schroders’ proprietary sustainability tool and so do not contribute towards the Fund’s sustainability score. As #1 states a minimum proportion that is in practice expected to be higher, the proportion stated in #2 is expected to be lower.

Minimum safeguards are applied where relevant to investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders’ credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders’ proprietary tool, which supports the analysis of a counterparty’s management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders’ proprietary tool would lead to further analysis and potential exclusion by Schroders’ credit risk team.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

#1 The minimum proportion stated applies in normal market conditions.

### ● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

Single name credit default swaps are used as a proxy for direct investments which would otherwise be held by the Fund in line with its sustainability criteria. Such derivatives are therefore used to attain the Fund's sustainability score in Schroders proprietary tool which is one of the binding elements of the Fund. The Fund may use other derivatives that are scored in Schroders' proprietary tool to meet the environmental and/or social characteristics promoted by the Fund, as such derivatives would contribute to the Fund's sustainability score (whether such individual investment has a positive or a negative score).

### **To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?**

There is no minimum extent to which the Fund's investments (including transitional and enabling activities) with an environmental objective are aligned with the Taxonomy. Taxonomy alignment of this Fund's investments has therefore not been calculated and has as a result been deemed to constitute 0% of the Fund's portfolio.

In future it is expected that the Fund will assess and report on the extent to which its underlying investments are in economic activities that qualify as environmentally sustainable under the Taxonomy, along with information relating to the proportion of enabling and transitional activities. This Prospectus will be updated once it is possible in the Investment Manager's opinion to accurately disclose to what extent the Fund's investments are in Taxonomy-aligned environmentally sustainable activities, including the proportions of investments in enabling and transitional activities selected for the Fund.

### ● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>?**

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

- **What is the minimum share of investments in transitional and enabling activities?**  
As per the above, at the date of this Prospectus the share of investments by the Fund in transitional and enabling activities is currently deemed to constitute 0% of the Fund's portfolio.

**What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?**  
The Fund commits to invest at least 1% of its assets in sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

<sup>2</sup> As there is no Taxonomy-alignment, there is no impact on the graph if sovereign bonds are excluded (i.e. the percentage of Taxonomy-aligned investments remains 0%) and the Management Company therefore believes that there is no need to mention this information.

## What is the minimum share of socially sustainable investments?

The Fund commits to invest at least 1% of its assets in sustainable investments with a social objective.

## What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

**#2 Other** includes cash which is treated as neutral for sustainability purposes. #2 also includes investments that are not scored by Schroders’ proprietary sustainability tools and so do not contribute towards the Fund’s sustainability score.

Minimum safeguards are applied where relevant to investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders’ credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders’ proprietary tool, which supports the analysis of a counterparty’s management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders’ proprietary tool would lead to further analysis and potential exclusion by Schroders’ credit risk team.

## Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- *How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?*

This question is not applicable for the Fund.

- *How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?*

This question is not applicable for the Fund.

- *How does the designated index differ from a relevant broad market index?*

This question is not applicable for the Fund.

- *Where can the methodology used for the calculation of the designated index be found?*

This question is not applicable for the Fund.

## Where can I find more product specific information online?

More product-specific information can be found on the webpage: <https://www.schroders.com/en-lu/lu/individual/fund-centre>

Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** **Schroder International Selection Fund Global Credit Income Short Duration**

**Legal entity identifier:** **5493006ZQNNBQCGW4K92**

## Environmental and/or social characteristics

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### Does this financial product have a sustainable investment objective?

| <input checked="" type="radio"/> <input type="radio"/> <b>Yes</b>                                                        | <input checked="" type="radio"/> <input type="radio"/> <b>No</b>                                                                                                                                                                                      |

## What environmental and/or social characteristics are promoted by this financial product?

The Fund maintains a higher overall sustainability score than the Bloomberg Multiverse 1-5 year TR ex-Treasury A+ to B- EUR hedged index, based on the Investment Manager's rating system. This benchmark (which is a broad market index) does not take into account the environmental and social characteristics promoted by the Fund.

The sustainability score is measured by Schroders' proprietary tool that provides an aggregate estimate of the social and environmental costs and benefits that an issuer may create. It does this by scoring the issuer against a list of indicators – scores may be positive (for example, when an issuer pays more than average living wages) or negative (for example, when an issuer emits carbon). It does this using third party data as well as Schroders' own estimates and assumptions and the outcome may differ from other sustainability tools and measures.

The result is expressed as an aggregate score of the sustainability indicators for each issuer, specifically a notional percentage (positive or negative) of sales or GDP of the relevant underlying issuer. For example, a score of +2% would mean that for every \$100 of sales the issuer generates, it would provide a net positive contribution to society and/or the environment of \$2. The sustainability score of the Fund is derived from the scores of all eligible issuers in the Fund's portfolio measured by Schroders' proprietary tool.

The Fund invests at least 10% of its assets in sustainable investments, which are investments that the Investment Manager expects to contribute towards the advancement of one or more environmental and/or social objective (s).

### What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?

The Investment Manager monitors compliance with the characteristic to maintain a higher overall sustainability score than the Bloomberg Multiverse 1-5 year TR ex-Treasury A+ to B- EUR hedged index by reference to the weighted average sustainability score of the Fund in Schroders' proprietary tool compared against the weighted average sustainability score of the Bloomberg Multiverse 1-5 year TR ex-Treasury A+ to B- EUR hedged index in Schroders' proprietary tool over the previous six month period, based on month-end data. The overall sustainability score aggregates the effect of sustainability indicators including but not limited to greenhouse gas emissions, water usage, and salaries compared to the living wage.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

The Investment Manager monitors compliance with the characteristic to invest at least 10% of its assets in sustainable investments by reference to (i) the sustainability score of each asset in Schroders' proprietary tool and/or (ii) whether the asset is classified as a green, social and/or sustainable bond and / or (iii) whether an asset is deemed sustainable on an exceptional basis by Schroders. Compliance with this is monitored daily via our automated compliance controls. The Fund also applies certain exclusions, with which the Investment Manager monitors compliance on an ongoing basis via its portfolio compliance framework.

● ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

In respect of the proportion of the Fund's portfolio that is invested in sustainable investments, each sustainable investment either (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool and/or (ii) is classified as a green, social and/or sustainable bond using a third-party data source and/ or (iii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. The environmental or social objectives of the sustainable investments that the Fund partially intends to make may include, but are not limited to, increasing environmental and/or social benefits such as greater water access or fair pay and reducing environmental, and/or social costs such as carbon emissions or food waste. For example, greater water access as measured by Schroders' proprietary tool are the estimated societal benefits of the provision of clean drinking water to human health. The environmental or social objectives of green, social and/or sustainable bonds may include, but are not limited to, climate change mitigation, renewable energy initiatives, natural resource conservation, access to finance and affordable housing projects.

● ***How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?***

The Investment Manager's approach to investing in issuers that do not cause significant harm to any environmental or social sustainable investment objective includes the following:

- Firm-wide investment exclusions apply to Schroders funds. These relate to international conventions on cluster munitions, anti-personnel mines, and chemical and biological weapons and thermal coal mining. Further information and a list of excluded controversial weapons companies is available at <https://www.schroders.com/en/global/individual/about-us/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/group-exclusions/>
- The Fund excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal.
- The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. Schroders' determination of whether a company has been involved in such a breach considers relevant principles such as those contained in the UN Global Compact (UNGC) principles, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. The 'global norms' breach list may be informed by assessments performed by third party providers and by proprietary research, where relevant to a particular situation. In exceptional circumstances a derogation may be applied in order to allow the Fund to continue to hold a company on Schroders' 'global norms' breach list, for example where the stated investment strategy of the Fund may otherwise be compromised. Any such company cannot be categorised as a sustainable investment.
- The Fund may also apply certain other exclusions in addition to those summarised above.

Further information on all of the Fund's investment exclusions is to be found under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>.

● ***How have the indicators for adverse impacts on sustainability factors been taken into account?***

When seeking to identify significant harm, Schroders' approach to taking into account the Principal Adverse Impacts (PAI) indicators involves a quantitative and a qualitative assessment. Where it is not considered appropriate or feasible to set quantitative thresholds, the Investment Manager engages, where relevant. Investee companies deemed not to satisfy the quantitative thresholds would generally be excluded, unless on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area.

This framework is subject to ongoing review, particularly as the availability and quality of the data evolves.

Our approach includes:

1. **Quantitative:** this includes indicators where specific thresholds have been established:

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- Via the application of exclusions. This approach is relevant to **PAI 4** (Exposure to companies active in the fossil fuel sector), **PAI 5** (Share of non-renewable energy consumption and production) and **PAI 14** (Exposure to controversial weapons). Further, the following PAIs are assessed as part of Schroders' 'global norms' breach list exclusion (which seeks to exclude companies where significant harm is occurring):
  - **PAI 7** (Activities negatively affecting biodiversity-sensitive areas)
  - **PAI 8** (Emissions to water)
  - **PAI 9** (Hazardous waste and radioactive waste ratio)
  - **PAI 10** (Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development Guidelines for Multinational Enterprises)
  - **PAI 11** (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises)
  - **PAI 14** in Table 3 (Number of identified cases of severe human rights issues and incidents)
- Via the application of an alert system flag if the relevant indicator(s) exceeds a threshold. These quantitative thresholds to assess significant harm are established centrally by our Sustainable Investment team and monitored systematically. This approach applies to indicators where we have segmented the population into harm groups to establish a threshold, such as carbon related PAI metrics, **PAI 1** (GHG emissions), **PAI 2** (Carbon footprint) and **Voluntary PAI 4 in Table 2** (Investing in companies without carbon emission reduction initiatives). **PAI 3** (GHG intensity of investee companies) operates in a similar way but the threshold is based on a revenue metric. A threshold for **PAI 6** (Energy consumption intensity per high impact climate sector) is established based on the above-mentioned carbon measures. A similar approach has been taken for **PAI 15** (GHG intensity). **PAI 16** (Investee countries subject to social violations) also operates in the same way but based on data availability regarding social violations. Through this process the relevant issuer(s) that is/are deemed not to satisfy the quantitative thresholds is/are flagged to the Investment Manager for consideration, whose response may involve selling the holdings(s) or maintaining the position if on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area. Investee companies deemed to cause significant harm are excluded from the Fund.
- 2. **Qualitative:** This includes PAI indicators where Schroders' believes that the data available does not enable us to make a quantitative determination regarding whether significant harm is done so as to warrant excluding an investment. In such cases, the Investment Manager engages wherever possible with the company or companies held, in accordance with the priorities documented in Schroders' Engagement Blueprint and/or voting policy. This approach applies to indicators such as **PAI 12** (Unadjusted gender pay gap) and **PAI 13** (Board gender diversity), where we engage and may use our voting rights where we consider appropriate. Both board gender diversity and disclosure of gender pay gap information are captured in our Engagement Blueprint.

● **How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Companies on Schroders' 'global norms' breach list cannot be categorised as sustainable investments. Schroders' determination of whether a company should be included on such list considers the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, among other relevant principles. The 'global norms' breach list is informed by third party providers and proprietary research, where relevant.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

*The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.*

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## Does this financial product consider principal adverse impacts on sustainability factors?

☒ Yes.

The Investment Manager's approach to considering principal adverse impacts on sustainability factors differs depending on the relevant indicator. Some indicators are considered via the application of exclusions, some are considered via the investment process (where data is available via Schroders PAI dashboard and via other external data sources) and some are considered via engagement. Further details are provided below.

PAIs are considered as part of pre-investment through the application of exclusions. These include:

- Controversial weapons: PAI 14 (Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)).
- Schroders' 'global norms' breach list, which covers: PAI 7 (Activities negatively affecting biodiversity-sensitive areas), PAI 8 (Emissions to water), PAI 9 (Hazardous waste and radioactive waste ratio), PAI 10 (Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises), PAI 11 (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises) and PAI 14 in Table 3 (Number of identified cases of severe human rights issues and incidents).
- Companies that derive revenues above certain thresholds from activities related to thermal coal: PAI 4 (Exposure to companies active in the fossil fuel sector) and PAI 5 (Share of non-renewable energy consumption and production).

Compliance with these thresholds is monitored via the Investment Manager's portfolio compliance framework.

PAIs are also considered through integration in the investment process as Schroders' proprietary tool incorporates several PAIs as a component of its scoring methodology. In assessing an issuer's overall environmental score PAI 1, 2, 3, 4, 5, and 6 are included. All PAI indicators are monitored via Schroders PAI dashboard.

PAIs are also considered post-investment through engagement where the Investment Manager engages in line with the approach and expectations set out in Schroders Engagement Blueprint, which outlines our approach to active ownership. The Investment Manager may engage with selected issuers held by the Fund on PAIs 1, 2, 3 and 4. We aim to engage with several issuers on net zero carbon emissions targets (PAI 1,2) and procuring renewable energy (PAI 5).

Our approach is subject to ongoing review, particularly as the availability, and quality, of PAI data evolves. The Management Company's statement on principal adverse impacts on sustainability factors is available at <https://api.schroders.com/document-store/id/ffcb39bb-96cb-4e56-9461-deba9a493e85>. The Fund level information is disclosed or will be disclosed (as applicable) in the Fund's annual report.

☐ No

## What investment strategy does this financial product follow?

**The investment strategy** guides investment decisions based on factors such as investment objectives and risk tolerance.

The sustainable investment strategy used by the Investment Manager is as follows:

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate investment grade and high yield securities issued by governments, government agencies, supra-nationals and companies worldwide, including emerging market countries. The Fund's strategy will have an overall duration of less than four years but this does not preclude the Fund from investing in securities with a duration above four years. The Investment Manager believes the short duration strategy should limit the overall level of interest rate risk.

The Fund may invest:

- in excess of 50% of its assets directly or indirectly (including via credit default swaps and credit default swap indices) in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds);
- up to 40% of its assets in asset-backed securities and mortgage-backed securities (including in agency mortgage-backed securities and with a maximum of 20% of the Fund's assets in non-agency mortgage-backed securities and in asset-backed securities);
- up to 15% of its assets in convertible bonds (including contingent convertible bonds); and
- up to 10% of its assets in open-ended Investment Funds.

The Investment Manager also aims to mitigate losses by diversifying the Fund's asset allocation away from areas of the market identified as having a high risk of material negative return or principal risk.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, warrants and Money Market Investments, and hold cash.

The Fund maintains a higher overall sustainability score than Bloomberg Multiverse 1-5 year TR ex-Treasury A+ to B- EUR hedged index, based on the Investment Manager's rating system.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability-Related Disclosure" on the Fund's webpage, accessed via <https://www.schroders.com/en-lu/lu/individual/fund-centre>

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently. The Fund may also invest in derivatives to create long and short exposure to the underlying assets of these derivatives.

The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund. The Investment Manager applies sustainability criteria when selecting investments for the Fund.

The strategy applies structural sustainability themes and screens to combine best-in-class companies with investments in issuers demonstrating good or improving sustainability credentials. This is achieved by:

- The exclusion of issuers with certain exposure to specific activities that the Investment Manager considers environmentally destructive or socially damaging, violate human rights and/or have demonstrated gross misconduct.
- The inclusion of issuers that the Investment Manager considers are well placed to deliver stable and improving sustainability trajectories relative to their industry peers. As part of the selection process, the Investment Manager also considers companies' commitment to sustainable themes such as climate change mitigation, economic inclusion and health and wellbeing.

The selection of green, social and sustainable bonds entails assessing the overall sustainability of the issuer and analysing the use of. A green bond is a fixed or floating rate security that finances an environmental objective. A social bond is a fixed or floating rate security that finances a social objective. A sustainable bond is a fixed or floating rate security that finances both environmental and social objectives.

The primary sources of information used to perform the analysis are Schroders' proprietary sustainability tools and research, and the Investment Manager's third-party research, NGO reports and expert networks. The Investment Manager also performs its own analysis of information provided by the companies, including information provided in company sustainability reports and other relevant company material.

More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the webpage <https://www.schroders.com/en-lu/lu/individual/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/disclosures-and-statements/>

The Fund maintains a higher overall sustainability score than its investment universe, based on the Investment Manager's rating system.

The Investment Manager ensures that at least:

- 90% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and
  - 75% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,
- is rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.

● ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

The following binding elements are applied throughout the investment process:

- The Fund maintains a higher overall sustainability score than the Bloomberg Multiverse 1-5 year TR ex-Treasury A+ to B- EUR hedged index based on the Investment Manager's rating criteria.
- The Fund invests at least 10% of its assets in sustainable investments and such investments do not cause significant environmental or social harm.
- Exclusions are applied to direct investments in companies. The Fund applies certain exclusions relating to international conventions on cluster munitions, antipersonnel mines, and chemical and biological weapons. The Fund also excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal. The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. Further, the Fund may apply other exclusions as listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>. The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria.

The Investment Manager ensures that at least:

- 90% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and
- 75% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,

is rated against the sustainability criteria.

● ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

This question is not applicable for the Fund.

**Good governance** practices include sound management structures, employee relations, remuneration of staff and tax compliance.

● **What is the policy to assess good governance practices of the investee companies?**

In order to assess good governance practices, a central Good Governance Test is applied. This test is based on a data-driven quantitative framework, which uses a scorecard to assess companies across the categories of sound management structures, employee relations, remuneration of staff, and tax compliance. Schroders has defined a number of criteria across these pillars.

Compliance with the test is monitored centrally and companies which do not pass this test cannot be held by the Fund, unless the Investment Manager has agreed that the issuer demonstrates good governance based on additional insights beyond that quantitative analysis.

**Asset allocation** describes the share of investments in specific assets.

**What is the asset allocation planned for this financial product?**

The planned composition of the Fund’s investments that are used to meet its environmental or social characteristics are summarised below.

**#1 Aligned with E/S characteristics** includes the minimum proportion of the Fund’s assets used to attain the environmental or social characteristics, which is equal to 60%. The Fund commits to maintain a higher overall sustainability score than the Bloomberg Multiverse 1-5 year TR ex-Treasury A+ to B- EUR hedged index, and so the Fund’s investments that are scored by Schroders’ proprietary sustainability tool are included within the minimum proportion stated in #1 on the basis that they will contribute to the Fund’s sustainability score (whether such individual investment has a positive or a negative score). Also included within #1 are any green, social or sustainable bonds that are not scored by Schroders’ proprietary sustainability tool. The minimum proportion of assets that are invested in sustainable investments is indicated in #1A. The minimum proportions stated apply in normal market conditions. The actual proportion stated in #1 is expected to be higher.

The Fund will invest at least 10% of its assets in sustainable investments. Each sustainable investment (i) demonstrates a net positive effect across a range of environmental or social objectives as scored by Schroders’ proprietary tool and/ or (ii) is classified as a green, social and/or sustainable bond using a third-party data source and/ or (iii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. With the exception of any green or social bonds, which will be classified as having an environmental or social objective respectively, a sustainable investment is classified as having an environmental or social objective depending on whether the relevant issuer has a higher score in Schroders’ proprietary tool relative to its applicable peer group for its environmental indicators or its social indicators. In each case, indicators are comprised of both “costs” and “benefits”.

**#2 Other** includes cash which is treated as neutral for sustainability purposes. #2 also includes other investments that are not scored by Schroders’ proprietary sustainability tool and so do not contribute towards the Fund’s sustainability score. As #1 states a minimum proportion that is in practice expected to be higher, the proportion stated in #2 is expected to be lower.

Minimum safeguards are applied where relevant to investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders’ credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders’ proprietary tool, which supports the analysis of a counterparty’s management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders’ proprietary tool would lead to further analysis and potential exclusion by Schroders’ credit risk team.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.

- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

#1 The minimum proportion stated applies in normal market conditions.

### ● *How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?*

Single name credit default swaps are used as a proxy for direct investments which would otherwise be held by the Fund in line with its sustainability criteria. Such derivatives are therefore used to attain the Fund's sustainability score in Schroders proprietary tool which is one of the binding elements of the Fund. The Fund may use other derivatives that are scored in Schroders' proprietary tool to meet the environmental and/or social characteristics promoted by the Fund, as such derivatives would contribute to the Fund's sustainability score (whether such individual investment has a positive or a negative score).

### **To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?**

There is no minimum extent to which the Fund's investments (including transitional and enabling activities) with an environmental objective are aligned with the Taxonomy. Taxonomy alignment of this Fund's investments has therefore not been calculated and has as a result been deemed to constitute 0% of the Fund's portfolio.

In future it is expected that the Fund will assess and report on the extent to which its underlying investments are in economic activities that qualify as environmentally sustainable under the Taxonomy, along with information relating to the proportion of enabling and transitional activities. This Prospectus will be updated once it is possible in the Investment Manager's opinion to accurately disclose to what extent the Fund's investments are in Taxonomy-aligned environmentally sustainable activities, including the proportions of investments in enabling and transitional activities selected for the Fund.

### ● *Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>?*

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

- **What is the minimum share of investments in transitional and enabling activities?**  
As per the above, at the date of this Prospectus the share of investments by the Fund in transitional and enabling activities is currently deemed to constitute 0% of the Fund's portfolio.

**What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?**  
The Fund commits to invest at least 1% of its assets in sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

<sup>2</sup> As there is no Taxonomy-alignment, there is no impact on the graph if sovereign bonds are excluded (i.e. the percentage of Taxonomy-aligned investments remains 0%) and the Management Company therefore believes that there is no need to mention this information.

## What is the minimum share of socially sustainable investments?

The Fund commits to invest at least 1% of its assets in sustainable investments with a social objective.

## What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

**#2 Other** includes cash which is treated as neutral for sustainability purposes. #2 also other includes investments that are not scored by Schroders’ proprietary sustainability tools and so do not contribute towards the Fund’s sustainability score.

Minimum safeguards are applied where relevant to investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders’ credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders’ proprietary tool, which supports the analysis of a counterparty’s management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders’ proprietary tool would lead to further analysis and potential exclusion by Schroders’ credit risk team.

## Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- *How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?*

This question is not applicable for the Fund.

- *How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?*

This question is not applicable for the Fund.

- *How does the designated index differ from a relevant broad market index?*

This question is not applicable for the Fund.

- *Where can the methodology used for the calculation of the designated index be found?*

This question is not applicable for the Fund.

## Where can I find more product specific information online?

More product-specific information can be found on the webpage: <https://www.schroders.com/en-lu/lu/individual/fund-centre>

Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** **Schroder International Selection Fund Global Equity Income Plus**

**Legal entity identifier:** **549300UPXPBL5GB7UE22**

## Environmental and/or social characteristics

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### Does this financial product have a sustainable investment objective?

| <input checked="" type="radio"/> <input type="radio"/> <b>Yes</b>                                                        | <input checked="" type="radio"/> <input type="radio"/> <b>No</b>                                                                                                                                                                                      |

## What environmental and/or social characteristics are promoted by this financial product?

The Fund maintains a higher overall sustainability score than the MSCI All Country World (Net TR) index, based on the Investment Manager's rating system. This benchmark (which is a broad market index) does not take into account the environmental and social characteristics promoted by the Fund.

The sustainability score is measured by Schroders' proprietary tool that provides an aggregate estimate of the social and environmental costs and benefits that an issuer may create. It does this by scoring the issuer against a list of indicators – scores may be positive (for example, when an issuer pays more than average living wages) or negative (for example, when an issuer emits carbon). It does this using third party data as well as Schroders' own estimates and assumptions and the outcome may differ from other sustainability tools and measures.

The result is expressed as an aggregate score of the sustainability indicators for each issuer, specifically a notional percentage (positive or negative) of sales or GDP of the relevant underlying issuer. For example, a score of +2% would mean that for every \$100 of sales the issuer generates, it would provide a net positive contribution to society and/or the environment of \$2. The sustainability score of the Fund is derived from the scores of all eligible issuers in the Fund's portfolio measured by Schroders' proprietary tool.

The Fund invests at least 25% of its assets in sustainable investments, which are investments that the Investment Manager expects to contribute towards the advancement of one or more environmental and/or social objective (s).

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

### What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?

The Investment Manager monitors compliance with the characteristic to maintain a higher overall sustainability score than the MSCI All Country World (Net TR) index by reference to the weighted average sustainability score of the Fund in Schroders' proprietary tool compared against the weighted average sustainability score of the MSCI All Country World (Net TR) index in Schroders' proprietary tool over the previous six-month period, based on month-end data. The overall sustainability score aggregates the effect of sustainability indicators including but not limited to greenhouse gas emissions, water usage, and salaries compared to the living wage.

The Investment Manager monitors compliance with the characteristic to invest at least 25% of its assets in sustainable investments by reference to (i) the sustainability score of each asset in Schroders' proprietary tool and / or (ii) whether an asset is deemed sustainable on an exceptional basis by Schroders.

Compliance with this is monitored daily via our automated compliance controls. The Fund also applies certain exclusions, with which the Investment Manager monitors compliance on an ongoing basis via its portfolio compliance framework.

● ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

In respect of the proportion of the Fund's portfolio that is invested in sustainable investments, each sustainable investment either (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool and/ or (ii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. The environmental or social objectives of the sustainable investments that the Fund partially intends to make may include, but are not limited to, increasing environmental and/or social benefits such as greater water access or fair pay and reducing environmental, and/or social costs such as carbon emissions or food waste. For example, greater water access as measured by Schroders' proprietary tool are the estimated societal benefits of the provision of clean drinking water to human health.

● ***How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?***

The Investment Manager's approach to investing in issuers that do not cause significant harm to any environmental or social sustainable investment objective includes the following:

- Firm-wide investment exclusions apply to Schroders funds. These relate to international conventions on cluster munitions, anti-personnel mines, and chemical and biological weapons and thermal coal mining. Further information and a list of excluded controversial weapons companies is available at <https://www.schroders.com/en/global/individual/about-us/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/group-exclusions/>
- The Fund excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal.
- The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. Schroders' determination of whether a company has been involved in such a breach considers relevant principles such as those contained in the UN Global Compact (UNG) principles, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. The 'global norms' breach list may be informed by assessments performed by third party providers and by proprietary research, where relevant to a particular situation. In exceptional circumstances a derogation may be applied in order to allow the Fund to continue to hold a company on Schroders' 'global norms' breach list, for example where the stated investment strategy of the Fund may otherwise be compromised. Any such company cannot be categorised as a sustainable investment.
- The Fund may also apply certain other exclusions in addition to those summarised above.

Further information on all of the Fund's investment exclusions is to be found under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

● ***How have the indicators for adverse impacts on sustainability factors been taken into account?***

When seeking to identify significant harm, Schroders' approach to taking into account the Principal Adverse Impacts (PAI) indicators involves a quantitative and a qualitative assessment. Where it is not considered appropriate or feasible to set quantitative thresholds, the Investment Manager engages, where relevant. Investee companies deemed not to satisfy the quantitative thresholds would generally be excluded, unless on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area.

This framework is subject to ongoing review, particularly as the availability and quality of the data evolves.

Our approach includes:

1. **Quantitative:** this includes indicators where specific thresholds have been established:
  - Via the application of exclusions. This approach is relevant to **PAI 4** (Exposure to companies active in the fossil fuel sector), **PAI 5** (Share of non-renewable energy consumption and production) and **PAI 14** (Exposure to controversial weapons). Further, the following PAIs are assessed as part of Schroders 'global norms' breach list exclusion (which seeks to exclude companies where significant harm is occurring):
    - **PAI 7** (Activities negatively affecting biodiversity-sensitive areas)

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- **PAI 8** (Emissions to water)
- **PAI 9** (Hazardous waste and radioactive waste ratio)
- **PAI 10** (Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development Guidelines for Multinational Enterprises)
- **PAI 11** (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises)
- **PAI 14** in Table 3 (Number of identified cases of severe human rights issues and incidents)
- Via the application of an alert system flag if the relevant indicator(s) exceeds a threshold. These quantitative thresholds to assess significant harm are established centrally by our Sustainable Investment team and monitored systematically. This approach applies to indicators where we have segmented the population into harm groups to establish a threshold, such as carbon related PAI metrics, **PAI 1** (GHG emissions), **PAI 2** (Carbon footprint) and **Voluntary PAI 4 in Table 2** (Investing in companies without carbon emission reduction initiatives). **PAI 3** (GHG intensity of investee companies) operates in a similar way but the threshold is based on a revenue metric. A threshold for **PAI 6** (Energy consumption intensity per high impact climate sector) is established based on the above-mentioned carbon measures. A similar approach has been taken for **PAI 15** (GHG intensity). **PAI 16** (Investee countries subject to social violations) also operates in the same way but based on data availability regarding social violations. Through this process the relevant issuer(s) that is/are deemed not to satisfy the quantitative thresholds is/are flagged to the Investment Manager for consideration, whose response may involve selling the holdings(s) or maintaining the position if on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area. Investee companies deemed to cause significant harm are excluded from the Fund.
- 2. **Qualitative:** This includes PAI indicators where Schroders' believes that the data available does not enable us to make a quantitative determination regarding whether significant harm is done so as to warrant excluding an investment. In such cases, the Investment Manager engages wherever possible with the company or companies held, in accordance with the priorities documented in Schroders' Engagement Blueprint and/or voting policy. This approach applies to indicators such as **PAI 12** (Unadjusted gender pay gap) and **PAI 13** (Board gender diversity), where we engage and may use our voting rights where we consider appropriate. Both board gender diversity and disclosure of gender pay gap information are captured in our Engagement Blueprint.

● **How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Companies on Schroders' 'global norms' breach list cannot be categorised as sustainable investments. Schroders' determination of whether a company should be included on such list considers the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, among other relevant principles. The 'global norms' breach list is informed by third party providers and proprietary research, where relevant.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## Does this financial product consider principal adverse impacts on sustainability factors?

☒ Yes.

The Investment Manager's approach to considering principal adverse impacts on sustainability factors differs depending on the relevant indicator. Some indicators are considered via the application of exclusions, some are considered via the investment process (where data is available via Schroders PAI dashboard and via other external data sources) and some are considered via engagement. Further details are provided below.

PAIs are considered as part of pre-investment through the application of exclusions. These include:

- Controversial weapons: PAI 14 (Exposure to controversial weapons, such as anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- Schrodgers' 'global norms' breach list, which covers: PAI 7 (Activities negatively affecting biodiversity-sensitive areas), PAI 8 (Emissions to water), PAI 9 (Hazardous waste and radioactive waste ratio), PAI 10 (Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises), PAI 11 (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises) and PAI 14 in Table 3 (Number of identified cases of severe human rights issues and incidents).
- Companies that derive revenues above certain thresholds from activities related to thermal coal: PAI 4 (Exposure to companies active in the fossil fuel sector) and PAI 5 (Share of non-renewable energy consumption and production).

Compliance with these thresholds is monitored via the Investment Manager's portfolio compliance framework.

PAIs are also considered and integrated into the investment process through the stakeholder analysis that is central to the appraisal and selection of companies deemed suitable for the Fund. The process examines the impact of companies' operations and activities across seven stakeholder groups in order to determine the long-term sustainable growth attributes of the companies being analysed, and PAIs directly contribute to this assessment. In assessing an issuer's overall environmental score, PAIs 1, 2, 3 (Greenhouse gas emissions) and 7 (Activities negatively affecting biodiversity-sensitive areas) are included. In assessing an issuer's overall social score, PAIs 12 (Unadjusted gender pay gap) and 13 (Board gender diversity) are included. All PAI indicators are monitored via Schrodgers' PAI dashboard.

PAIs are also considered post-investment through engagement where the Investment Manager engages in line with the approach and expectations set out in the Schrodgers Engagement Blueprint, which outlines our approach to active ownership.

Where issuers are flagged on lack of data availability for any PAIs, the Investment Manager may engage with issuers where the primary focus is to increase reporting.

Our approach is subject to ongoing review, particularly as the availability, and quality, of PAI data evolves. The Management Company's statement on principal adverse impacts on sustainability factors is available at <https://api.schrodgers.com/document-store/id/ffcb39bb-96cb-4e56-9461-deba9a493e85>. The Fund level information is disclosed or will be disclosed (as applicable) in the Fund's annual report.

☐ No

## What investment strategy does this financial product follow?

**The investment strategy** guides investment decisions based on factors such as investment objectives and risk tolerance.

The sustainable investment strategy used by the Investment Manager is as follows:

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide. To enhance the dividend yield of the Fund, the Investment Manager will, sell short dated call options over individual securities held by the Fund. This may at times adversely affect the capital growth of fund.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund maintains a higher overall sustainability score than MSCI All Country World (Net TR) index, based on the Investment Manager's rating system.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schrodgers.com/en-lu/lu/individual/fund-centre>

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Investment Manager evaluates issuers against a range of environmental, social and governance factors in order to decide whether an issuer is eligible for the Fund's portfolio. This analysis is performed by global sector specialists and local analyst teams and is supported by Schrodgers' dedicated Sustainable Investment team. The Investment Manager uses Schrodgers' proprietary sustainability tools to provide a baseline assessment that contributes to the overall ESG appraisal of a company. Additionally, meetings with company management inform the Investment Manager's view, providing further insights on corporate culture and senior management commitment to corporate social responsibility. While it is not necessary for every investment selected to exhibit positive ESG characteristics, the Investment Manager will seek to ensure that in aggregate, the portfolio demonstrates a positive score relative to the benchmark specified in the investment policy.

More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the webpage

<https://www.schrodgers.com/en-lu/lu/individual/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/disclosures-and-statements/>

The Fund maintains a higher overall sustainability score than its investment universe, based on the Investment Manager's rating system.

The Investment Manager ensures that at least:

- 90% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and

– 75% of the portion of the Fund’s NAV composed of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries, is rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.

● **What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?**

The following binding elements are applied throughout the investment process:

- The Fund maintains a higher overall sustainability score than the MSCI All Country World (Net TR) index based on the Investment Manager’s rating criteria.
- The Fund invests at least 25%\* of its assets in sustainable investments and such investments do not cause significant environmental or social harm.
- Exclusions are applied to direct investments in companies. The Fund applies certain exclusions relating to international conventions on cluster munitions, antipersonnel mines, and chemical and biological weapons. The Fund also excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal. The Fund excludes companies that are assessed by Schroders to have breached one or more ‘global norms’ thereby causing significant environmental or social harm; these companies comprise Schroders’ ‘global norms’ breach list. In exceptional circumstances a derogation may be applied in order to allow the Fund to continue to hold a company on Schroders’ ‘global norms’ breach list, for example where the stated investment strategy of the Fund may otherwise be compromised. Any such company cannot be categorised as a sustainable investment. Further, the Fund may apply other exclusions as listed under “Sustainability-Related Disclosure” on the Fund’s webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>. The Fund invests in companies that have good governance practices, as determined by the Investment Manager’s rating criteria.

The Investment Manager ensures that at least:

- 90% of the portion of the Fund’s NAV composed of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and
  - 75% of the portion of the Fund’s NAV composed of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,
- is rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.

● **What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?**

This question is not applicable for the Fund.

● **What is the policy to assess good governance practices of the investee companies?**

In order to assess good governance practices, a central Good Governance Test is applied. This test is based on a data-driven quantitative framework, which uses a scorecard to assess companies across the categories of sound management structures, employee relations, remuneration of staff, and tax compliance. Schroders has defined a number of criteria across these pillars.

Compliance with the test is monitored centrally and companies which do not pass this test cannot be held by the Fund, unless the Investment Manager has agreed that the issuer demonstrates good governance based on additional insights beyond that quantitative analysis.

**Good governance** practices include sound management structures, employee relations, remuneration of staff and tax compliance.

## What is the asset allocation planned for this financial product?

**Asset allocation** describes the share of investments in specific assets.

The planned composition of the Fund’s investments that are used to meet its environmental or social characteristics are summarised below.

**#1 Aligned with E/S characteristics** includes the minimum proportion of the Fund’s assets used to attain the environmental or social characteristics, which is equal to 70%. The Fund commits to maintain a higher overall sustainability score than the MSCI All Country World (Net TR) index, and so the Fund’s investments that are scored by Schroders’ proprietary sustainability tool are included within the minimum proportion stated in #1 on the basis that they will contribute to the Fund’s sustainability score (whether such individual investment has a

positive or a negative score). Also included within #1 is the minimum proportion of assets that are invested in sustainable investments, as indicated in #1A. The minimum proportions stated apply in normal market conditions. The actual proportion stated in #1 is expected to be higher.

The Fund will invest at least 25% of its assets in sustainable investments. Each sustainable investment (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool and/ or (ii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. A sustainable investment is classified as having an environmental or social objective depending on whether the relevant issuer has a higher score in Schroders' proprietary tool relative to its applicable peer group for its environmental indicators or its social indicators. In each case, indicators are comprised of both "costs" and "benefits".

**#2 Other** includes cash which is treated as neutral for sustainability purposes. #2 also includes investments that are not scored by Schroders' proprietary sustainability tool and so do not contribute towards the Fund's sustainability score. As #1 states a minimum proportion that is in practice expected to be higher, the proportion stated in #2 is expected to be lower.

Minimum safeguards are applied where relevant to Money Market Investments and other investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders' credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders' proprietary tool, which supports the analysis of a counterparty's management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders' proprietary tool would lead to further analysis and potential exclusion by Schroders' credit risk team.

#1 The minimum proportion stated applies in normal market conditions.

### ● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

The Fund may use derivatives that are scored in Schroders' proprietary tool to meet the environmental and/or social characteristics promoted by the Fund, as such derivatives would contribute to the Fund's sustainability score (whether such individual investment has a positive or a negative score).

## To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

There is no minimum extent to which the Fund's investments (including transitional and enabling activities) with an environmental objective are aligned with the Taxonomy. Taxonomy alignment of this Fund's investments has therefore not been calculated and has as a result been deemed to constitute 0% of the Fund's portfolio.

In future it is expected that the Fund will assess and report on the extent to which its underlying investments are in economic activities that qualify as environmentally sustainable under the Taxonomy, along with information relating to the proportion of enabling and transitional activities. This Prospectus will be updated once it is possible in the Investment Manager's opinion to accurately disclose to what extent the Fund's investments are in Taxonomy-aligned environmentally sustainable activities, including the proportions of investments in enabling and transitional activities selected for the Fund.

### ● Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents x% of the total investments<sup>2</sup>.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

### ● What is the minimum share of investments in transitional and enabling activities?

As per the above, at the date of this Prospectus the share of investments by the Fund in transitional and enabling activities is currently deemed to constitute 0% of the Fund's portfolio.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

<sup>2</sup> As there is no Taxonomy-alignment, there is no impact on the graph if sovereign bonds are excluded (i.e. the percentage of Taxonomy-aligned investments remains 0%) and the Management Company therefore believes that there is no need to mention this information.

alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

### What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

The Fund commits to invest at least 1% of its assets in sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

### What is the minimum share of socially sustainable investments?

The Fund commits to invest at least 1% of its assets in sustainable investments with a social objective.

### What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

**#2 Other** includes cash which is treated as neutral for sustainability purposes. #2 also includes investments that are not scored by Schroders’ proprietary sustainability tools and so do not contribute towards the Fund’s sustainability score.

Minimum safeguards are applied where relevant to Money Market Investments and other investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders’ credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders’ proprietary tool, which supports the analysis of a counterparty’s management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders’ proprietary tool would lead to further analysis and potential exclusion by Schroders’ credit risk team.

### Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

**Reference benchmarks** are indexes to measure whether the financial product attains the

- *How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?*

This question is not applicable for the Fund.

- ***How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?***  
This question is not applicable for the Fund.
- ***How does the designated index differ from a relevant broad market index?***  
This question is not applicable for the Fund.
- ***Where can the methodology used for the calculation of the designated index be found?***  
This question is not applicable for the Fund.

## **Where can I find more product specific information online?**

More product-specific information can be found on the webpage: <https://www.schroders.com/en-lu/lu/individual/fund-centre>

Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** **Schroder International Selection Fund Sustainable Global Multi Credit**

**Legal entity identifier:** **549300N4PLUJQQE2N097**

## Environmental and/or social characteristics

| Does this financial product have a sustainable investment objective?                                                     |                                                                                                                                                                                                                                                       |

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## What environmental and/or social characteristics are promoted by this financial product?

The Fund maintains a higher overall sustainability score than the Bloomberg Multiverse (TR) ex Treasury A+ to B- index, USD Hedged, based on the Investment Manager's rating system. This benchmark (which is a broad market index) does not take into account the environmental and social characteristics promoted by the Fund.

The sustainability score is measured by Schroders' proprietary tool that provides an aggregate estimate of the social and environmental costs and benefits that an issuer may create. It does this by scoring the issuer against a list of indicators – scores may be positive (for example, when an issuer pays more than average living wages) or negative (for example, when an issuer emits carbon). It does this using third party data as well as Schroders' own estimates and assumptions and the outcome may differ from other sustainability tools and measures.

The result is expressed as an aggregate score of the sustainability indicators for each issuer, specifically a notional percentage (positive or negative) of sales or GDP of the relevant underlying issuer. For example, a score of +2% would mean that for every \$100 of sales the issuer generates, it would provide a net positive contribution to society and/or the environment of \$2. The sustainability score of the Fund is derived from the scores of all eligible issuers in the Fund's portfolio measured by Schroders' proprietary tool.

The Fund invests at least 50% of its assets in sustainable investments, which are investments that the Investment Manager expects to contribute towards the advancement of one or more environmental and/or social objective (s).

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

### What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?

The Investment Manager monitors compliance with the characteristic to maintain a higher overall sustainability score than the Bloomberg Multiverse (TR) ex Treasury A+ to B- index, USD Hedged by reference to the weighted average sustainability score of the Fund in Schroders' proprietary tool compared against the weighted average sustainability score of the Bloomberg Multiverse (TR) ex Treasury A+ to B- index, USD Hedged in Schroders' proprietary tool over the previous six month period, based on month-end data. The overall sustainability score aggregates the effect of sustainability indicators including but not limited to greenhouse gas emissions, water usage, and salaries compared to the living wage.

The Investment Manager monitors compliance with the characteristic to invest at least 50% of its assets in sustainable investments by reference to (i) the sustainability score of each asset in Schroders' proprietary tool and/or (ii) whether the asset is classified as a green, social and/ or sustainable bond and / or (iii) whether an asset is deemed sustainable on an exceptional basis by Schroders. Compliance with this is

monitored daily via our automated compliance controls. The Fund also applies certain exclusions, with which the Investment Manager monitors compliance on an ongoing basis via its portfolio compliance framework.

● ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

In respect of the proportion of the Fund's portfolio that is invested in sustainable investments, each sustainable investment either (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool and/or (ii) is classified as a green, social and/or sustainable bond using a third-party data source and/ or (iii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. The environmental or social objectives of the sustainable investments that the Fund partially intends to make may include, but are not limited to, increasing environmental and/or social benefits such as greater water access or fair pay and reducing environmental, and/or social costs such as carbon emissions or food waste. For example, greater water access as measured by Schroders' proprietary tool are the estimated societal benefits of the provision of clean drinking water to human health. The environmental or social objectives of green, social and/or sustainable bonds may include, but are not limited to, climate change mitigation, renewable energy initiatives, natural resource conservation, access to finance and affordable housing projects.

● ***How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?***

The Investment Manager's approach to investing in issuers that do not cause significant harm to any environmental or social sustainable investment objective includes the following:

- Firm-wide investment exclusions apply to Schroders funds. These relate to international conventions on cluster munitions, anti-personnel mines, and chemical and biological weapons and thermal coal mining. Further information and a list of excluded controversial weapons companies is available at <https://www.schroders.com/en/global/individual/about-us/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/group-exclusions/>
- The Fund excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal.
- The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. Schroders' determination of whether a company has been involved in such a breach considers relevant principles such as those contained in the UN Global Compact (UNGC) principles, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. The 'global norms' breach list may be informed by assessments performed by third party providers and by proprietary research, where relevant to a particular situation.
- The Fund may also apply certain other exclusions in addition to those summarised above.

Further information on all of the Fund's investment exclusions is to be found under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

● ***How have the indicators for adverse impacts on sustainability factors been taken into account?***

When seeking to identify significant harm, Schroders' approach to taking into account the Principal Adverse Impacts (PAI) indicators involves a quantitative and a qualitative assessment. Where it is not considered appropriate or feasible to set quantitative thresholds, the Investment Manager engages, where relevant. Investee companies deemed not to satisfy the quantitative thresholds would generally be excluded, unless on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area.

This framework is subject to ongoing review, particularly as the availability and quality of the data evolves.

Our approach includes:

1. **Quantitative:** this includes indicators where specific thresholds have been established:

- Via the application of exclusions. This approach is relevant to **PAI 4** (Exposure to companies active in the fossil fuel sector), **PAI 5** (Share of non-renewable energy consumption and production) and **PAI 14** (Exposure to controversial weapons). Further, the following PAIs are assessed as part of Schroders 'global norms' breach list exclusion (which seeks to exclude companies where significant harm is occurring):

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- **PAI 7** (Activities negatively affecting biodiversity-sensitive areas)
- **PAI 8** (Emissions to water)
- **PAI 9** (Hazardous waste and radioactive waste ratio)
- **PAI 10** (Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development Guidelines for Multinational Enterprises)
- **PAI 11** (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises)
- **PAI 14** in Table 3 (Number of identified cases of severe human rights issues and incidents)
- Via the application of an alert system flag if the relevant indicator(s) exceeds a threshold. These quantitative thresholds to assess significant harm are established centrally by our Sustainable Investment team and monitored systematically. This approach applies to indicators where we have segmented the population into harm groups to establish a threshold, such as carbon related PAI metrics, **PAI 1** (GHG emissions), **PAI 2** (Carbon footprint) and **Voluntary PAI 4 in Table 2** (Investing in companies without carbon emission reduction initiatives). **PAI 3** (GHG intensity of investee companies) operates in a similar way but the threshold is based on a revenue metric. A threshold for **PAI 6** (Energy consumption intensity per high impact climate sector) is established based on the above-mentioned carbon measures. A similar approach has been taken for **PAI 15** (GHG intensity). **PAI 16** (Investee countries subject to social violations) also operates in the same way but based on data availability regarding social violations. Through this process the relevant issuer(s) that is/are deemed not to satisfy the quantitative thresholds is/are flagged to the Investment Manager for consideration, whose response may involve selling the holdings(s) or maintaining the position if on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area. Investee companies deemed to cause significant harm are excluded from the Fund.
- 2. **Qualitative:** This includes PAI indicators where Schroders' believes that the data available does not enable us to make a quantitative determination regarding whether significant harm is done so as to warrant excluding an investment. In such cases, the Investment Manager engages wherever possible with the company or companies held, in accordance with the priorities documented in Schroders' Engagement Blueprint and/or voting policy. This approach applies to indicators such as **PAI 12** (Unadjusted gender pay gap) and **PAI 13** (Board gender diversity), where we engage and may use our voting rights where we consider appropriate. Both board gender diversity and disclosure of gender pay gap information are captured in our Engagement Blueprint.

● **How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Companies on Schroders' 'global norms' breach list cannot be categorised as sustainable investments. Schroders' determination of whether a company should be included on such list considers the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, among other relevant principles. The 'global norms' breach list is informed by third party providers and proprietary research, where relevant.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## Does this financial product consider principal adverse impacts on sustainability factors?

☒ Yes.

The Investment Manager's approach to considering principal adverse impacts on sustainability factors differs depending on the relevant indicator. Some indicators are considered via the application of exclusions, some are considered via the investment process (where data is available via Schroders PAI dashboard and via other external data sources) and some are considered via engagement. Further details are provided below.

- PAIs are considered as part of pre-investment through the application of exclusions. These include:
- Controversial weapons: PAI 14 (Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)).
  - Schroders' 'global norms' breach list, which covers: PAI 7 (Activities negatively affecting biodiversity-sensitive

areas), PAI 8 (Emissions to water), PAI 9 (Hazardous waste and radioactive waste ratio), PAI 10 (Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises), PAI 11 (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises) and PAI 14 in Table 3 (Number of identified cases of severe human rights issues and incidents).

- Companies that derive revenues above certain thresholds from activities related to thermal coal: PAI 4 (Exposure to companies active in the fossil fuel sector) and PAI 5 (Share of non-renewable energy consumption and production).

Compliance with these thresholds is monitored via the Investment Manager's portfolio compliance framework. PAIs are also considered through integration in the investment process as Schroders' proprietary tool incorporates several PAIs as a component of its scoring methodology. In assessing an issuer's overall environmental score PAI 1, 2, 3, 4, 5, and 6 (Greenhouse gas emissions) are included. All PAI indicators are monitored via Schroders PAI dashboard.

PAIs are also considered post-investment through engagement where the Investment Manager engages in line with the approach and expectations set out in Schroders Engagement Blueprint, which outlines our approach to active ownership. The Investment Manager may engage with selected issuers held by the Fund on PAIs 1, 2, 3 and 4. We aim to engage with several issuers on net zero carbon emissions targets (PAI 1,2), procuring renewable energy (PAI 5).

Our approach is subject to ongoing review, particularly as the availability, and quality, of PAI data evolves. The Management Company's statement on principal adverse impacts on sustainability factors is available at <https://api.schroders.com/document-store/id/ffcb39bb-96cb-4e56-9461-deba9a493e85>. The Fund level information is disclosed or will be disclosed (as applicable) in the Fund's annual report.

☐ No

## What investment strategy does this financial product follow?

**The investment strategy** guides investment decisions based on factors such as investment objectives and risk tolerance.

The sustainable investment strategy used by the Investment Manager is as follows:

The Fund is actively managed and invests at least two-thirds of its assets in investment grade and sub-investment grade fixed and floating rate securities (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies) issued by governments, government agencies, supra-nationals and companies worldwide, including emerging market countries.

The Fund maintains a higher overall sustainability score than Bloomberg Multiverse (TR) ex Treasury A+ to B- index, USD Hedged, based on the Investment Manager's rating system.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria.

The Investment Manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the webpage <https://www.schroders.com/en-lu/lu/individual/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/disclosures-and-statements/>

The Fund may invest:

- in excess of 50% of its assets directly or indirectly (including via credit default swaps and credit default swap indices) in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds);
- up to 20% of its assets in asset-backed and mortgage backed securities; and
- up to 15% of its assets in contingent convertible bonds and convertible bonds (of which up to 10% may be invested in convertible bonds).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash.

The Fund may also invest in derivatives to create long and short exposure to the underlying assets of these derivatives.

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Investment Manager applies sustainability criteria when selecting investments for the Fund.

The strategy applies structural sustainability themes and screens to combine companies that the Investment Manager considers are best-in-class with investments in issuers demonstrating good or improving sustainability credentials. This is achieved by:

- The exclusion of issuers with certain exposure to specific activities that the Investment Manager considers environmentally destructive, socially damaging, violate human rights and/or have demonstrated gross misconduct.

– The inclusion of issuers that the Investment Manager considers are well placed to deliver stable and improving sustainability trajectories relative to their industry peers. As part of the selection process, the Investment Manager also considers companies' commitment to sustainable themes such as climate change mitigation, economic inclusion and health and wellbeing.

The Investment Manager may also engage with companies to encourage transparency, the transition to a circular economy with lower carbon emissions intensity and responsible social behaviour that promotes sustainable growth and alpha generation.

The Fund may also invest strategically in green, social and sustainable bonds. The selection of green, social and sustainable bonds entails assessing the overall sustainability of the issuer and analysing the use of proceeds. A green bond is a fixed or floating rate security that finances an environmental objective. A social bond is a fixed or floating rate security that finances a social objective. A sustainable bond is a fixed or floating rate security that finances both environmental and social objectives.

The primary sources of information used to perform the analysis are Schroders' proprietary sustainability tools and research, and the Investment Manager's third-party research, NGO reports and expert networks. The Investment Manager also performs its own analysis of information provided by the companies, including information provided in company sustainability reports and other relevant company material.

The Investment Manager ensures that at least 90% of the portion of the Fund's Net Asset Value composed of investments in companies is rated against the sustainability criteria. As a result of the application of sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments.

For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of fixed and floating rate securities issued by companies worldwide. However, the universe (for the purpose of this test only) does not include fixed or floating rate securities issued by public or quasi-public issuers.

### ● **What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?**

The following binding elements are applied throughout the investment process:

- The Fund maintains a higher overall sustainability score than the Bloomberg Multiverse (TR) ex Treasury A+ to B- index, USD Hedged based on the Investment Manager's rating criteria.
- The Fund invests at least 50% of its assets in sustainable investments and such investments do not cause significant environmental or social harm.
- Exclusions are applied to direct investments in companies. The Fund applies certain exclusions relating to international conventions on cluster munitions, antipersonnel mines, and chemical and biological weapons. The Fund also excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal. The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. Further, the Fund may apply other exclusions as listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria.

- The Investment Manager ensures that at least 90% of the portion of the Fund's Net Asset Value composed of investments in companies is rated against the sustainability criteria.
- As a result of the application of sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments.

### ● **What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?**

As a result of the application of the Fund's sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments. For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy.

### ● **What is the policy to assess good governance practices of the investee companies?**

In order to assess good governance practices, a central Good Governance Test is applied. This test is based on a data-driven quantitative framework, which uses a scorecard to assess companies across the categories of sound management structures, employee relations, remuneration of staff, and tax compliance. Schroders has defined a number of criteria across these pillars.

Compliance with the test is monitored centrally and companies which do not pass this test cannot be held by the Fund, unless the Investment Manager has agreed that the issuer demonstrates good governance based on additional insights beyond that quantitative analysis.

**Good governance** practices include sound management structures, employee relations, remuneration of staff and tax compliance.

## What is the asset allocation planned for this financial product?

**Asset allocation** describes the share of investments in specific assets.

The planned composition of the Fund's investments that are used to meet its environmental or social characteristics are summarised below.

**#1 Aligned with E/S characteristics** includes the minimum proportion of the Fund's assets used to attain the environmental or social characteristics, which is equal to 80%. The Fund commits to maintain a higher overall sustainability score than the Bloomberg Multiverse (TR) ex Treasury A+ to B- index, USD Hedged, and so the Fund's investments that are scored by Schroders' proprietary sustainability tool are included within the minimum proportion stated in #1 on the basis that they will contribute to the Fund's sustainability score (whether such individual investment has a positive or a negative score). Also included within #1 are any green, social or sustainable bonds that are not scored by Schroders' proprietary tool. The minimum proportion of assets that are invested in sustainable investments is indicated in #1A. The minimum proportions stated apply in normal market conditions. The actual proportion stated in #1 is expected to be higher.

The Fund will invest at least 50% of its assets in sustainable investments. Each sustainable investment (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool and/ or (ii) is classified as a green, social and/or sustainable bond using a third-party data source and/ or (iii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. With the exception of any green or social bonds, which will be classified as having an environmental or social objective respectively, a sustainable investment is classified as having an environmental or social objective depending on whether the relevant issuer has a higher score in Schroders' proprietary tool relative to its applicable peer group for its environmental indicators or its social indicators. In each case, indicators are comprised of both "costs" and "benefits".

**#2 Other** includes cash which is treated as neutral for sustainability purposes. #2 also includes other investments that are not scored by Schroders' proprietary sustainability tool and so do not contribute towards the Fund's sustainability score. As #1 states a minimum proportion that is in practice expected to be higher, the proportion stated in #2 is expected to be lower.

Minimum safeguards are applied where relevant to investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders' credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders' proprietary tool, which supports the analysis of a counterparty's management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders' proprietary tool would lead to further analysis and potential exclusion by Schroders' credit risk team.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

#1 The minimum proportion stated applies in normal market conditions.

● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

Single name credit default swaps are used as a proxy for direct investments which would otherwise be held by the Fund in line with its sustainability criteria. Such derivatives are therefore used to attain the Fund's sustainability score in Schroders' proprietary tool which is one of the binding elements of the Fund. The Fund may use other derivatives that are scored in Schroders' proprietary tool to meet the environmental and/or social characteristics promoted by the Fund, as such derivatives would contribute to the Fund's sustainability score (whether such individual investment has a positive or a negative score).

**To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?**

There is no minimum extent to which the Fund's investments (including transitional and enabling activities) with an environmental objective are aligned with the Taxonomy. Taxonomy alignment of this Fund's investments has therefore not been calculated and has as a result been deemed to constitute 0% of the Fund's portfolio.

In future it is expected that the Fund will assess and report on the extent to which its underlying investments are in economic activities that qualify as environmentally sustainable under the Taxonomy, along with information relating to the proportion of enabling and transitional activities. This Prospectus will be updated once it is possible in the Investment Manager's opinion to accurately disclose to what extent the Fund's investments are in Taxonomy-aligned environmentally sustainable activities, including the proportions of investments in enabling and transitional activities selected for the Fund.

● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>?**

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- **What is the minimum share of investments in transitional and enabling activities?**  
As per the above, at the date of this Prospectus the share of investments by the Fund in transitional and enabling activities is currently deemed to constitute 0% of the Fund's portfolio.

### What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

The Fund commits to invest at least 1% of its assets in sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

<sup>2</sup> As there is no Taxonomy-alignment, there is no impact on the graph if sovereign bonds are excluded (i.e. the percentage of Taxonomy-aligned investments remains 0%) and the Management Company therefore believes that there is no need to mention this information.

## What is the minimum share of socially sustainable investments?

The Fund commits to invest at least 1% of its assets in sustainable investments with a social objective.

## What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

**#2 Other** includes cash which is treated as neutral for sustainability purposes. #2 also includes other investments that are not scored by Schroders’ proprietary sustainability tools and so do not contribute towards the Fund’s sustainability score.

Minimum safeguards are applied where relevant to investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders’ credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders’ proprietary tool, which supports the analysis of a counterparty’s management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders’ proprietary tool would lead to further analysis and potential exclusion by Schroders’ credit risk team.

## Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- *How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?*

This question is not applicable for the Fund.

- *How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?*

This question is not applicable for the Fund.

- *How does the designated index differ from a relevant broad market index?*

This question is not applicable for the Fund.

- *Where can the methodology used for the calculation of the designated index be found?*

This question is not applicable for the Fund.

## Where can I find more product specific information online?

More product-specific information can be found on the webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** **Schroder International Selection Fund Sustainable Multi-Factor Equity**

**Legal entity identifier:** **5493007XNHSEG8Q50Z18**

## Environmental and/or social characteristics

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Does this financial product have a sustainable investment objective?**

| <input checked="" type="radio"/> <input checked="" type="radio"/>                                                      | <input type="checkbox"/> <b>Yes</b>                                                                                      | <input checked="" type="radio"/> <input type="radio"/>                                                                                                                                                                                                | <input checked="" type="checkbox"/> <b>No</b>                                                                                                     |

## What environmental and/or social characteristics are promoted by this financial product?

The Fund maintains a higher overall sustainability score than the MSCI AC World (Net TR) index, based on the Investment Manager's rating system. It also maintains a carbon intensity at least 50% lower than the MSCI AC World (Net TR) Index, based on the Weighted Average Carbon Intensity (WACI). This benchmark (which is a broad market index) does not take into account the environmental and social characteristics promoted by the Fund.

The sustainability score is measured by Schroders' proprietary tool that provides an aggregate estimate of the social and environmental costs and benefits that an issuer may create. It does this by scoring the issuer against a list of indicators – scores may be positive (for example, when an issuer pays more than average living wages) or negative (for example, when an issuer emits carbon). It does this using third party data as well as Schroders' own estimates and assumptions and the outcome may differ from other sustainability tools and measures.

The result is expressed as an aggregate score of the sustainability indicators for each issuer, specifically a notional percentage (positive or negative) of sales or GDP of the relevant underlying issuer. For example, a score of +2% would mean that for every \$100 of sales the issuer generates, it would provide a net positive contribution to society and/or the environment of \$2. The sustainability score of the Fund is derived from the scores of all eligible issuers in the Fund's portfolio measured by Schroders' proprietary tool.

Carbon intensity is a measure of a portfolio's exposure to carbon-intensive companies. It is expressed as the carbon emissions per million dollars of revenue and displayed as metric tons CO<sub>2</sub>e / \$M revenue. The carbon intensity is measured using data from a third party provider. Where a data point is not available, the provider may make use of estimated data.

The Fund invests at least 50% of its assets in sustainable investments, which are investments that the Investment Manager expects to contribute towards the advancement of one or more environmental and/or social objective (s).

### What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?

The Investment Manager monitors compliance with the characteristic to maintain a higher overall sustainability score than the MSCI AC World (Net TR) index by reference to the weighted average sustainability score of the Fund in Schroders' proprietary tool compared against the weighted average sustainability score of the MSCI AC World (Net TR) index in Schroders' proprietary tool over the previous

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

six-month period, based on month-end data. The overall sustainability score aggregates the effect of sustainability indicators including but not limited to greenhouse gas emissions, water usage, and salaries compared to the living wage.

The Investment Manager monitors compliance with the characteristic to invest at least 50% of its assets in sustainable investments by reference to (i) the sustainability score of each asset in Schroders' proprietary tool and / or (ii) whether an asset is deemed sustainable on an exceptional basis by Schroders.

Compliance with this is monitored daily via our automated compliance controls. The Fund also applies certain exclusions, with which the Investment Manager monitors compliance on an ongoing basis via its portfolio compliance framework.

The Investment Manager monitors compliance with the characteristic to maintain at least 50% lower carbon intensity than the MSCI AC World (Net TR) index by reference to the Weighted Average Carbon Intensity (WACI) in metric tons CO<sub>2</sub>e/\$M revenue based on quarterly holdings using data from a third-party provider.

● ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

In respect of the proportion of the Fund's portfolio that is invested in sustainable investments, each sustainable investment either (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool and/ or (ii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. The environmental or social objectives of the sustainable investments that the Fund partially intends to make may include, but are not limited to, increasing environmental and/or social benefits such as greater water access or fair pay and reducing environmental, and/or social costs such as carbon emissions or food waste. For example, greater water access as measured by Schroders' proprietary tool are the estimated societal benefits of the provision of clean drinking water to human health.

● ***How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?***

The Investment Manager's approach to investing in issuers that do not cause significant harm to any environmental or social sustainable investment objective includes the following:

- Firm-wide investment exclusions apply to Schroders funds. These relate to international conventions on cluster munitions, anti-personnel mines, and chemical and biological weapons and thermal coal mining. Further information and a list of excluded controversial weapons companies is available at <https://www.schroders.com/en/global/individual/about-us/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/group-exclusions/>
- The Fund excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal.
- The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. Schroders' determination of whether a company has been involved in such a breach considers relevant principles such as those contained in the UN Global Compact (UNGC) principles, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. The 'global norms' breach list may be informed by assessments performed by third party providers and by proprietary research, where relevant to a particular situation.
- The Fund may also apply certain other exclusions in addition to those summarised above.

Further information on all of the Fund's investment exclusions is to be found under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

● ***How have the indicators for adverse impacts on sustainability factors been taken into account?***

When seeking to identify significant harm, Schroders' approach to taking into account the Principal Adverse Impacts (PAI) indicators involves a quantitative and a qualitative assessment. Where it is not considered appropriate or feasible to set quantitative thresholds, the Investment Manager engages, where relevant. Investee companies deemed not to satisfy the quantitative thresholds would generally be excluded, unless on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area.

This framework is subject to ongoing review, particularly as the availability and quality of the data evolves.

Our approach includes:

1. **Quantitative:** this includes indicators where specific thresholds have been established:

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- Via the application of exclusions. This approach is relevant to **PAI 4** (Exposure to companies active in the fossil fuel sector), **PAI 5** (Share of non-renewable energy consumption and production) and **PAI 14** (Exposure to controversial weapons). Further, the following PAIs are assessed as part of Schroders' 'global norms' breach list exclusion (which seeks to exclude companies where significant harm is occurring):
  - **PAI 7** (Activities negatively affecting biodiversity-sensitive areas)
  - **PAI 8** (Emissions to water)
  - **PAI 9** (Hazardous waste and radioactive waste ratio)
  - **PAI 10** (Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development Guidelines for Multinational Enterprises)
  - **PAI 11** (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises)
  - **PAI 14** in Table 3 (Number of identified cases of severe human rights issues and incidents)
- Via the application of an alert system flag if the relevant indicator(s) exceeds a threshold. These quantitative thresholds to assess significant harm are established centrally by our Sustainable Investment team and monitored systematically. This approach applies to indicators where we have segmented the population into harm groups to establish a threshold, such as carbon related PAI metrics, **PAI 1** (GHG emissions), **PAI 2** (Carbon footprint) and **Voluntary PAI 4 in Table 2** (Investing in companies without carbon emission reduction initiatives). **PAI 3** (GHG intensity of investee companies) operates in a similar way but the threshold is based on a revenue metric. A threshold for **PAI 6** (Energy consumption intensity per high impact climate sector) is established based on the above-mentioned carbon measures. A similar approach has been taken for **PAI 15** (GHG intensity). **PAI 16** (Investee countries subject to social violations) also operates in the same way but based on data availability regarding social violations. Through this process the relevant issuer(s) that is/are deemed not to satisfy the quantitative thresholds is/are flagged to the Investment Manager for consideration, whose response may involve selling the holdings(s) or maintaining the position if on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area. Investee companies deemed to cause significant harm are excluded from the Fund.
- 2. **Qualitative:** This includes PAI indicators where Schroders' believes that the data available does not enable us to make a quantitative determination regarding whether significant harm is done so as to warrant excluding an investment. In such cases, the Investment Manager engages wherever possible with the company or companies held, in accordance with the priorities documented in Schroders' Engagement Blueprint and/or voting policy. This approach applies to indicators such as **PAI 12** (Unadjusted gender pay gap) and **PAI 13** (Board gender diversity), where we engage and may use our voting rights where we consider appropriate. Both board gender diversity and disclosure of gender pay gap information are captured in our Engagement Blueprint.

● ***How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

Companies on Schroders' 'global norms' breach list cannot be categorised as sustainable investments. Schroders' determination of whether a company should be included on such list considers the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, among other relevant principles. The 'global norms' breach list is informed by third party providers and proprietary research, where relevant.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

*The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.*

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## Does this financial product consider principal adverse impacts on sustainability factors?

☒ Yes.

The Investment Manager's approach to considering principal adverse impacts on sustainability factors differs depending on the relevant indicator. Some indicators are considered via the application of exclusions, some are considered via the investment process (where data is available via Schroders PAI dashboard and via other external data sources) and some are considered via engagement. Further details are provided below.

PAIs are considered as part of pre-investment through the application of exclusions. These include:

- Controversial weapons: PAI 14 (Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons))
- Schroders' 'global norms' breach list, which covers: PAI 7 (Activities negatively affecting biodiversity-sensitive areas), PAI 8 (Emissions to water), PAI 9 (Hazardous waste and radioactive waste ratio), PAI 10 (Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises), PAI 11 (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises) and PAI 14 in Table 3 (Number of identified cases of severe human rights issues and incidents).
- Companies that derive revenues above certain thresholds from activities related to thermal coal: PAI 4 (Exposure to companies active in the fossil fuel sector) and PAI 5 (Share of non-renewable energy consumption and production)

Compliance with these thresholds is monitored via the Investment Manager's portfolio compliance framework. PAIs are also considered through integration in the investment process. Schroders' proprietary tool incorporates several PAIs as a component of its scoring methodology and we monitor all PAI indicators through our dedicated PAI dashboard. Our proprietary sustainability framework, which is applied within our Fund's quantitative investment process, considers several key aspects:

- Greenhouse Gas Emissions: We assess the emissions of investment companies, including their carbon footprint, to evaluate their impact on climate change. This is related to PAIs 1, 2, 3, and 4.
- Fossil Fuel Sector Exposure: We analyse the exposure of companies to the fossil fuel sector, considering their involvement in activities related to fossil fuels. This is related to PAIs 1, 2, 3, and 4.
- Biodiversity and Environmental Impact: We evaluate activities that have a negative impact on biodiversity-sensitive areas, as well as emissions to water and hazardous waste. These factors are related to PAIs 7, 8, and 9.
- Gender Pay Gap and Board Diversity: We consider the unadjusted gender pay gap and the diversity of boards within the companies we invest in. These aspects are related to PAIs 12 and 13.

PAIs are also considered post-investment through engagement where the Investment Manager engages in line with the approach and expectations set out in the Schroders Engagement Blueprint, which outlines our approach to active ownership. For example, the Investment Manager may engage with investee companies on their plans around and disclosure of net zero targets which relates to PAIs 1, 2 and 3. Other topics for engagement may include board gender diversity, related to PAI 13.

Our approach is subject to ongoing review, particularly as the availability, and quality, of PAI data evolves. The Management Company's statement on principal adverse impacts on sustainability factors is available at <https://api.schroders.com/document-store/id/ffcb39bb-96cb-4e56-9461-deba9a493e85>. The Fund level information is disclosed or will be (as applicable) in the Fund's annual report.

☐ No

## What investment strategy does this financial product follow?

**The investment strategy** guides investment decisions based on factors such as investment objectives and risk tolerance.

The sustainable investment strategy used by the Investment Manager is as follows:

The Fund is actively managed and invests at least two thirds of its assets in equity and equity-related securities of companies worldwide that meet the Investment Manager's sustainability criteria and which also focus on a range of equity factors (also commonly known as investment styles).

Companies will be simultaneously assessed on these equity factors using a fully integrated systematic, bottom-up investment approach.

Relevant equity factors may include the following:

- Low volatility – involves evaluating indicators such as share price movement and historical performance to determine those securities that the Investment Manager believes will experience smaller price movements than the global equity markets on average.
- Momentum – involves evaluating trends in stocks, sectors or countries within the relevant equity market.
- Quality – involves evaluating indicators such as a company's profitability, stability and financial strength.
- Value – involves evaluating indicators such as cash flows, dividends and earnings to identify securities that the Investment Manager believes have been undervalued by the market.
- Sustainability – involves evaluating challenges and opportunities companies face from social, environmental and governance considerations.

The Fund follows a systematic approach, which scores all companies in a broad universe, including the MSCI AC World (Net TR) index, against the above equity factors to create a broadly diversified portfolio. The systematic process seeks to maximise the Fund's expected exposure to the aggregated score against the equity factors, subject to consideration of active risk and transaction costs, while applying additional controls to manage concentration risk across securities, sectors and industries, and unexpected bias towards or away from the benchmark. The Investment Manager reviews the systematic output on regular basis and adjusts to ensure that the desired risk characteristics have been delivered and that the portfolio is appropriate against the equity factors.

The Fund maintains a higher overall sustainability score than the MSCI AC World (Net TR) index, based on the Investment Manager's rating system. It also maintains a carbon intensity at least 50% lower than the MSCI AC World (Net TR) index based on the Weighted Average Carbon Intensity (WACI).

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria.

The Fund may invest in companies that the Investment Manager believes will improve their sustainability practices within a reasonable timeframe, typically up to two years.

The Investment Manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the webpage <https://www.schroders.com/en-lu/lu/individual/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/disclosures-and-statements/>

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash.

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

The Investment Manager applies sustainability criteria when selecting investments for the Fund.

The Investment Manager generally excludes companies with some exposure to business segments it views as harmful to society, such as tobacco, gambling and weapons. To reduce the Fund's carbon risk, the Investment Manager also generally excludes companies with some exposure to thermal coal and oil from tar sands.

The Investment Manager also uses a quantitative assessment to identify companies with sustainable business practices. Sustainability is assessed by considering the overall environmental and social benefits and costs of a company's operations and the strength of its governance practices.

The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data.

The Investment Manager ensures that at least 90% of the portion of the Fund's Net Asset Value composed of investments in companies is rated against the sustainability criteria. The Fund's sustainability criteria ensures that the portfolio's overall sustainability profile is improved when compared to the Fund's benchmark. For example, in terms of carbon intensity, the Fund's overall carbon intensity will be at least 50% lower than that of the Fund's benchmark.

For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of equity and equity-related securities of companies worldwide.

● ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

The following binding elements are applied throughout the investment process:

- The Fund maintains a higher overall sustainability score than the MSCI AC World (Net TR) index based on the Investment Manager's rating criteria. It also maintains a carbon intensity at least 50% lower than the MSCI AC World index.
- The Fund invests at least 50% of its assets in sustainable investments and such investments do not cause significant environmental or social harm.
- Exclusions are applied to direct investments in companies. The Fund applies certain exclusions relating to international conventions on cluster munitions, antipersonnel mines, and chemical and biological weapons. The Fund also excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal. The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. Further, the Fund may apply other exclusions as listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>. The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria.
- The Investment Manager ensures that at least 90% of the portion of the Fund's Net Asset Value composed of investments in companies is rated against the sustainability criteria.

● ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

This question is not applicable for the Fund.

**Good governance** practices include sound management structures, employee relations, remuneration of staff and tax compliance.

**Asset allocation** describes the share of investments in specific assets.

- **What is the policy to assess good governance practices of the investee companies?**

In order to assess good governance practices, a central Good Governance Test is applied. This test is based on a data-driven quantitative framework, which uses a scorecard to assess companies across the categories of sound management structures, employee relations, remuneration of staff, and tax compliance. Schroders has defined a number of criteria across these pillars.

Compliance with the test is monitored centrally and companies which do not pass this test cannot be held by the Fund, unless the Investment Manager has agreed that the issuer demonstrates good governance based on additional insights beyond that quantitative analysis.

## What is the asset allocation planned for this financial product?

The planned composition of the Fund’s investments that are used to meet its environmental or social characteristics are summarised below.

**#1 Aligned with E/S characteristics** includes the minimum proportion of the Fund’s assets used to attain the environmental or social characteristics, which is equal to 80%. The Fund commits to maintain a higher overall sustainability score than the MSCI AC World (Net TR) index, and so the Fund’s investments that are scored by Schroders’ proprietary sustainability tool are included within the minimum proportion stated in #1 on the basis that they will contribute to the Fund’s sustainability score (whether such individual investment has a positive or a negative score). Also included within #1 is the minimum proportion of assets that are invested in sustainable investments, as indicated in #1A. The minimum proportions stated apply in normal market conditions. The actual proportion stated in #1 is expected to be higher.

The Fund will invest at least 50% of its assets in sustainable investments. Each sustainable investment (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders’ proprietary tool and/ or (ii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. A sustainable investment is classified as having an environmental or social objective depending on whether the relevant issuer has a higher score in Schroders’ proprietary tool relative to its applicable peer group for its environmental indicators or its social indicators. In each case, indicators are comprised of both “costs” and “benefits”.

**#2 Other** includes cash which is treated as neutral for sustainability purposes, such as Money Market Investments. #2 also includes investments that are not scored by Schroders’ proprietary sustainability tool and so do not contribute towards the Fund’s sustainability score. As #1 states a minimum proportion that is in practice expected to be higher, the proportion stated in #2 is expected to be lower.

Minimum safeguards are applied where relevant to Money Market Investments and other investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders’ credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders’ proprietary tool, which supports the analysis of a counterparty’s management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders’ proprietary tool would lead to further analysis and potential exclusion by Schroders’ credit risk team.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

#1 The minimum proportion stated applies in normal market conditions.

● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

The Fund may use derivatives that are scored in Schroders' proprietary tool to meet the environmental and/or social characteristics promoted by the Fund, as such derivatives would contribute to the Fund's sustainability score (whether such individual investment has a positive or a negative score).

**To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?**

There is no minimum extent to which the Fund's investments (including transitional and enabling activities) with an environmental objective are aligned with the Taxonomy. Taxonomy alignment of this Fund's investments has therefore not been calculated and has as a result been deemed to constitute 0% of the Fund's portfolio.

In future it is expected that the Fund will assess and report on the extent to which its underlying investments are in economic activities that qualify as environmentally sustainable under the Taxonomy, along with information relating to the proportion of enabling and transitional activities. This Prospectus will be updated once it is possible in the Investment Manager's opinion to accurately disclose to what extent the Fund's investments are in Taxonomy-aligned environmentally sustainable activities, including the proportions of investments in enabling and transitional activities selected for the Fund.

● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>?**

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What is the minimum share of investments in transitional and enabling activities?**

As per the above, at the date of this Prospectus the share of investments by the Fund in transitional and enabling activities is currently deemed to constitute 0% of the Fund’s portfolio.

**What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?**

The Fund commits to invest at least 1% of its assets in sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

<sup>2</sup> As there is no Taxonomy-alignment, there is no impact on the graph if sovereign bonds are excluded (i.e. the percentage of Taxonomy-aligned investments remains 0%) and the Management Company therefore believes that there is no need to mention this information.

## What is the minimum share of socially sustainable investments?

The Fund commits to invest at least 1% of its assets in sustainable investments with a social objective.

## What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

**#2 Other** includes cash which is treated as neutral for sustainability purposes. #2 also includes investments that are not scored by Schroders’ proprietary sustainability tools and so do not contribute towards the Fund’s sustainability score.

Minimum safeguards are applied where relevant to Money Market Investments and other investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders’ credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders’ proprietary tool, which supports the analysis of a counterparty’s management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders’ proprietary tool would lead to further analysis and potential exclusion by Schroders’ credit risk team.

## Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?**

This question is not applicable for the Fund.

- **How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?**

This question is not applicable for the Fund.

- **How does the designated index differ from a relevant broad market index?**

This question is not applicable for the Fund.

- **Where can the methodology used for the calculation of the designated index be found?**

This question is not applicable for the Fund.

## Where can I find more product specific information online?

More product-specific information can be found on the webpage: <https://www.schroders.com/en-lu/lu/individual/fund-centre>

Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** **Schroder International Selection Fund Sustainable US Dollar High Yield**

**Legal entity identifier:** **549300XZ2TNRMX4VI765**

## Environmental and/or social characteristics

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| Does this financial product have a sustainable investment objective?                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| <input checked="" type="radio"/> <input checked="" type="radio"/> Yes                                                                                                                                                                                                                                                                                                                                                                                                                                            | <input checked="" type="radio"/> <input type="radio"/> No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <input type="checkbox"/> It will make a minimum of <b>sustainable investments with an environmental objective: ___%</b> <div> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy           <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy         </div> <input type="checkbox"/> It will make a minimum of <b>sustainable investments with a social objective ___%</b> | <input checked="" type="checkbox"/> It <b>promotes Environmental/Social (E/S) characteristics</b> and while it does not have as its objective a sustainable investment, it will have a minimum proportion of <b>50.00%</b> of sustainable investments <div> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy           <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy           <input checked="" type="checkbox"/> with a social objective         </div> <input type="checkbox"/> It promotes E/S characteristics, but <b>will not make any sustainable investments</b> |

## What environmental and/or social characteristics are promoted by this financial product?

The Fund maintains a higher overall sustainability score than the Bloomberg US High Yield index, based on the Investment Manager's rating system. This benchmark (which is a broad market index) does not take into account the environmental and social characteristics promoted by the Fund.

The sustainability score is measured by Schroders' proprietary tool that provides an aggregate estimate of the social and environmental costs and benefits that an issuer may create. It does this by scoring the issuer against a list of indicators – scores may be positive (for example, when an issuer pays more than average living wages) or negative (for example, when an issuer emits carbon). It does this using third party data as well as Schroders' own estimates and assumptions and the outcome may differ from other sustainability tools and measures.

The result is expressed as an aggregate score of the sustainability indicators for each issuer, specifically a notional percentage (positive or negative) of sales or GDP of the relevant underlying issuer. For example, a score of +2% would mean that for every \$100 of sales the issuer generates, it would provide a net positive contribution to society and/or the environment of \$2. The sustainability score of the Fund is derived from the scores of all eligible issuers in the Fund's portfolio measured by Schroders' proprietary tool.

The Fund invests at least 50% of its assets in sustainable investments, which are investments that the Investment Manager expects to contribute towards the advancement of one or more environmental and/or social objective (s).

### ● **What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?**

The Investment Manager monitors compliance with the characteristic to maintain a higher overall sustainability score than the Bloomberg US High Yield index by reference to the weighted average sustainability score of the Fund in Schroders' proprietary tool compared against the weighted average sustainability score of the Bloomberg US High Yield index in Schroders' proprietary tool over the previous six month period, based on month-end data. The overall sustainability score aggregates the effect of sustainability indicators including but not limited to greenhouse gas emissions, water usage, and salaries compared to the living wage.

The Investment Manager monitors compliance with the characteristic to invest at least 50% of its assets in sustainable investments by reference to (i) the sustainability score of each asset in Schroders' proprietary tool and/or (ii) whether the asset is classified as a green, social and/or sustainable bond and / or (iii) whether an asset is deemed sustainable on an exceptional basis by Schroders. Compliance with this is

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

monitored daily via our automated compliance controls. The Fund also applies certain exclusions, with which the Investment Manager monitors compliance on an ongoing basis via its portfolio compliance framework.

● ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

In respect of the proportion of the Fund's portfolio that is invested in sustainable investments, each sustainable investment either (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool and/or (ii) is classified as a green, social and/or sustainable bond using a third-party data source and/ or (iii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. The environmental or social objectives of the sustainable investments that the Fund partially intends to make may include, but are not limited to, increasing environmental and/or social benefits such as greater water access or fair pay and reducing environmental, and/or social costs such as carbon emissions or food waste. For example, greater water access as measured by Schroders' proprietary tool are the estimated societal benefits of the provision of clean drinking water to human health. The environmental or social objectives of green, social and/or sustainable bonds may include, but are not limited to, climate change mitigation, renewable energy initiatives, natural resource conservation, access to finance and affordable housing projects.

● ***How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?***

The Investment Manager's approach to investing in issuers that do not cause significant harm to any environmental or social sustainable investment objective includes the following:

- Firm-wide investment exclusions apply to Schroders funds. These relate to international conventions on cluster munitions, anti-personnel mines, and chemical and biological weapons and thermal coal mining. Further information and a list of excluded controversial weapons companies is available at <https://www.schroders.com/en/global/individual/about-us/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/group-exclusions/>
- The Fund excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal.
- The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. Schroders' determination of whether a company has been involved in such a breach considers relevant principles such as those contained in the UN Global Compact (UNGC) principles, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. The 'global norms' breach list may be informed by assessments performed by third party providers and by proprietary research, where relevant to a particular situation.
- The Fund may also apply certain other exclusions in addition to those summarised above.

Further information on all of the Fund's investment exclusions is to be found under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

● ***How have the indicators for adverse impacts on sustainability factors been taken into account?***

When seeking to identify significant harm, Schroders' approach to taking into account the Principal Adverse Impacts (PAI) indicators involves a quantitative and a qualitative assessment. Where it is not considered appropriate or feasible to set quantitative thresholds, the Investment Manager engages, where relevant. Investee companies deemed not to satisfy the quantitative thresholds would generally be excluded, unless on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area.

This framework is subject to ongoing review, particularly as the availability and quality of the data evolves.

Our approach includes:

1. **Quantitative:** this includes indicators where specific thresholds have been established:

- Via the application of exclusions. This approach is relevant to **PAI 4** (Exposure to companies active in the fossil fuel sector), **PAI 5** (Share of non-renewable energy consumption and production) and **PAI 14** (Exposure to controversial weapons). Further, the following PAIs are assessed as part of Schroders 'global norms' breach list exclusion (which seeks to exclude companies where significant harm is occurring):

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- **PAI 7** (Activities negatively affecting biodiversity-sensitive areas)
- **PAI 8** (Emissions to water)
- **PAI 9** (Hazardous waste and radioactive waste ratio)
- **PAI 10** (Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development Guidelines for Multinational Enterprises)
- **PAI 11** (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises)
- **PAI 14** in Table 3 (Number of identified cases of severe human rights issues and incidents)
- Via the application of an alert system flag if the relevant indicator(s) exceeds a threshold. These quantitative thresholds to assess significant harm are established centrally by our Sustainable Investment team and monitored systematically. This approach applies to indicators where we have segmented the population into harm groups to establish a threshold, such as carbon related PAI metrics, **PAI 1** (GHG emissions), **PAI 2** (Carbon footprint) and **Voluntary PAI 4 in Table 2** (Investing in companies without carbon emission reduction initiatives). **PAI 3** (GHG intensity of investee companies) operates in a similar way but the threshold is based on a revenue metric. A threshold for **PAI 6** (Energy consumption intensity per high impact climate sector) is established based on the above-mentioned carbon measures. A similar approach has been taken for **PAI 15** (GHG intensity). **PAI 16** (Investee countries subject to social violations) also operates in the same way but based on data availability regarding social violations. Through this process the relevant issuer(s) that is/are deemed not to satisfy the quantitative thresholds is/are flagged to the Investment Manager for consideration, whose response may involve selling the holdings(s) or maintaining the position if on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area. Investee companies deemed to cause significant harm are excluded from the Fund.
- 2. **Qualitative:** This includes PAI indicators where Schroders' believes that the data available does not enable us to make a quantitative determination regarding whether significant harm is done so as to warrant excluding an investment. In such cases, the Investment Manager engages wherever possible with the company or companies held, in accordance with the priorities documented in Schroders' Engagement Blueprint and/or voting policy. This approach applies to indicators such as **PAI 12** (Unadjusted gender pay gap) and **PAI 13** (Board gender diversity), where we engage and may use our voting rights where we consider appropriate. Both board gender diversity and disclosure of gender pay gap information are captured in our Engagement Blueprint.

● ***How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

Companies on Schroders' 'global norms' breach list cannot be categorised as sustainable investments. Schroders' determination of whether a company should be included on such list considers the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, among other relevant principles. The 'global norms' breach list is informed by third party providers and proprietary research, where relevant.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

*The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.*

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## **Does this financial product consider principal adverse impacts on sustainability factors?**

☒ Yes.

The Investment Manager's approach to considering principal adverse impacts on sustainability factors differs depending on the relevant indicator. Some indicators are considered via the application of exclusions, some are considered via the investment process (where data is available via Schroders PAI dashboard and via other external data sources) and some are considered via engagement. Further details are provided below.

PAIs are considered as part of pre-investment through the application of exclusions. These include:

- Controversial weapons: PAI 14 (Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)).

- Schroders' 'global norms' breach list, which covers: PAI 7 (Activities negatively affecting biodiversity-sensitive areas), PAI 8 (Emissions to water), PAI 9 (Hazardous waste and radioactive waste ratio), PAI 10 (Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises), PAI 11 (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises) and PAI 14 in Table 3 (Number of identified cases of severe human rights issues and incidents).
- Companies that derive revenues above certain thresholds from activities related to thermal coal: PAI 4 (Exposure to companies active in the fossil fuel sector) and PAI 5 (Share of non-renewable energy consumption and production).

Compliance with these thresholds is monitored via the Investment Manager's portfolio compliance framework.

PAIs are also considered through integration in the issuer analysis as part of the investment process. Schroders' proprietary tool is used which incorporates several PAIs as a component of its scoring methodology. For example, PAI 1 (GHG emissions), PAI 2 (Carbon footprint) and PAI 3 (GHG intensity of investee companies), are included as part of a company's overall environmental score, which is used as part of our issuers analysis within the investment process. All PAI indicators are monitored via Schroders PAI dashboard

PAIs are also considered post-investment through engagement where the Investment Manager engages in line with the approach and expectations set out in Schroders Engagement Blueprint, which outlines our approach to active ownership. The Investment Manager may engage with selective investee companies on a range on environmental related topics, such as climate alignment, targets, and transition plans. These relate to environmental PAIs including PAI 1 (GHG emissions), PAI 2 (Carbon footprint) and PAI 3 (GHG intensity of investee companies). Where issuers are flagged on lack of data availability, the Investment Manager may engage with issuers where the primary focus is to increase reporting, quality and availability of PAI data.

Our approach is subject to ongoing review, particularly as the availability, and quality, of PAI data evolves. The Management Company's statement on principal adverse impacts on sustainability factors is available at <https://api.schroders.com/document-store/id/ffcb39bb-96cb-4e56-9461-deba9a493e85>. The Fund level information is disclosed or will be disclosed (as applicable) in the Fund's annual report.

☐ No

## What investment strategy does this financial product follow?

**The investment strategy** guides investment decisions based on factors such as investment objectives and risk tolerance.

The sustainable investment strategy used by the Investment Manager is as follows:

The Fund is actively managed and invests at least two-thirds of its assets directly or indirectly (including via credit default swaps and credit default swap indices) in fixed and floating rate securities that have a below investment grade credit rating (as measured by Standard and Poor's or any equivalent of other credit rating agencies) issued by governments, government agencies, supra-nationals and companies worldwide denominated in USD, or other currencies hedged to USD, including emerging market countries.

The Fund maintains a higher overall sustainability score than Bloomberg US High Yield index, based on the Investment Manager's rating system.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria.

The Investment Manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the webpage <https://www.schroders.com/en-lu/lu/individual/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/disclosures-and-statements/>

The Fund may invest:

up to 20% of its assets in convertible bonds including up to 15% of its assets in contingent convertible bonds;

up to 20% of its assets in emerging markets countries; and

up to 10% of its assets in asset-backed securities and mortgage-backed securities.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash.

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Investment Manager applies sustainability criteria when selecting investments for the Fund.

The strategy applies structural sustainability themes and screens to combine companies that the Investment Manager considers are best-in-class with investments in issuers demonstrating good or improving sustainability credentials. This is achieved by:

The exclusion of issuers with certain exposure to specific activities that the Investment Manager considers environmentally destructive or socially damaging, violate human rights and/or have demonstrated gross misconduct.

The inclusion of issuers that the Investment Manager considers are well placed to deliver stable and improving sustainability trajectories relative to their industry peers. As part of the selection process, the Investment Manager also considers companies' commitment to sustainable themes such as climate change mitigation, economic inclusion and health and wellbeing.

The Investment Manager may also engage with companies to encourage transparency, the transition to a circular economy with lower carbon emissions intensity and responsible social behaviour that promotes sustainable growth and alpha generation.

The Fund may also strategically invest in green, social and sustainable bonds. The selection of green, social and sustainable bonds entails assessing the overall sustainability of the issuer and analysing the use of proceeds. A green bond is a fixed or floating rate security that finances an environmental objective. A social bond is a fixed or floating rate security that finances a social objective. A sustainable bond is a fixed or floating rate security that finances both environmental and social objectives.

The primary sources of information used to perform the analysis are Schroders' proprietary sustainability tools and research, and the Investment Manager's third-party research, NGO reports and expert networks. The Investment Manager also performs its own analysis of information provided by the companies, including information provided in company sustainability reports and other relevant company material.

The Investment Manager ensures that at least 90% of the portion of the Fund's Net Asset Value composed of investments in companies is rated against the sustainability criteria. As a result of the application of sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments.

For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of fixed and floating rate securities issued by companies worldwide. The universe (for the purpose of this test only) does not include fixed or floating rate securities issued by public or quasi-public issuers.

● ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

The following binding elements are applied throughout the investment process:

- The Fund maintains a higher overall sustainability score than the Bloomberg US High Yield index based on the Investment Manager's rating criteria.
- The Fund invests at least 50% of its assets in sustainable investments and such investments do not cause significant environmental or social harm.
- Exclusions are applied to direct investments in companies. The Fund applies certain exclusions relating to international conventions on cluster munitions, antipersonnel mines, and chemical and biological weapons. The Fund also excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal. The Fund excludes companies that are assessed by Schroders to have breached one or more "global norms" thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. Further, the Fund may apply other exclusions as listed under "Sustainability-Related Disclosures" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>
- The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria.
- The Investment Manager ensures that at least 90% of the portion of the Fund's Net Asset Value composed of investments in companies is rated against the sustainability criteria.
- As a result of the application of sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments.

● ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

As a result of the application of the Fund's sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments. For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy.

● ***What is the policy to assess good governance practices of the investee companies?***

In order to assess good governance practices, a central Good Governance Test is applied. This test is based on a data-driven quantitative framework, which uses a scorecard to assess companies across the categories of sound management structures, employee relations, remuneration of staff, and tax compliance. Schroders has defined a number of criteria across these pillars.

Compliance with the test is monitored centrally and companies which do not pass this test cannot be held by the Fund, unless the Investment Manager has agreed that the issuer demonstrates good governance based on additional insights beyond that quantitative analysis.

**Good governance** practices include sound management structures, employee relations, remuneration of staff and tax compliance.

## What is the asset allocation planned for this financial product?

**Asset allocation** describes the share of investments in specific assets.

The planned composition of the Fund's investments that are used to meet its environmental or social characteristics are summarised below.

**#1 Aligned with E/S characteristics** includes the minimum proportion of the Fund's assets used to attain the environmental or social characteristics, which is equal to 80%. The Fund commits to maintain a higher overall sustainability score than the Bloomberg US High Yield Index, and so the Fund's investments that are scored by Schroders' proprietary sustainability tool are included within the minimum proportion stated in #1 on the basis that they will contribute to the Fund's sustainability score (whether such individual investment has a positive or a negative score). Also included within #1 are any green, social or sustainable bonds that are not scored by Schroders' proprietary sustainability tool. The minimum proportion of assets that are invested in sustainable investments is indicated in #1A. The minimum proportions stated apply in normal market conditions. The actual proportion stated in #1 is expected to be higher.

The Fund will invest at least 50% of its assets in sustainable investments. Each sustainable investment (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool and/ or (ii) is classified as a green, social and/or sustainable bond using a third-party data source and/ or (iii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. With the exception of any green or social bonds, which will be classified as having an environmental or social objective respectively, a sustainable investment is classified as having an environmental or social objective depending on whether the relevant issuer has a higher score in Schroders' proprietary tool relative to its applicable peer group for its environmental indicators or its social indicators. In each case, indicators are comprised of both "costs" and "benefits".

**#2 Other** includes cash which is treated as neutral for sustainability purposes. #2 also includes other investments that are not scored by Schroders' proprietary sustainability tool and so do not contribute towards the Fund's sustainability score. As #1 states a minimum proportion that is in practice expected to be higher, the proportion stated in #2 is expected to be lower.

Minimum safeguards are applied where relevant to investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders' credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders' proprietary tool, which supports the analysis of a counterparty's management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders' proprietary tool would lead to further analysis and potential exclusion by Schroders' credit risk team.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

#1 The minimum proportion stated applies in normal market conditions.

● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

Single name credit default swaps are used as a proxy for direct investments which would otherwise be held by the Fund in line with its sustainability criteria. Such derivatives are therefore used to attain the Fund's sustainability score in Schroders' proprietary tool which is one of the binding elements of the Fund. The Fund may use other derivatives that are scored in Schroders' proprietary tool to meet the environmental and/or social characteristics promoted by the Fund, as such derivatives would contribute to the Fund's sustainability score (whether such individual investment has a positive or a negative score).

## **To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?**

There is no minimum extent to which the Fund's investments (including transitional and enabling activities) with an environmental objective are aligned with the Taxonomy. Taxonomy alignment of this Fund's investments has therefore not been calculated and has as a result been deemed to constitute 0% of the Fund's portfolio.

In future it is expected that the Fund will assess and report on the extent to which its underlying investments are in economic activities that qualify as environmentally sustainable under the Taxonomy, along with information relating to the proportion of enabling and transitional activities. This Prospectus will be updated once it is possible in the Investment Manager's opinion to accurately disclose to what extent the Fund's investments are in Taxonomy-aligned environmentally sustainable activities, including the proportions of investments in enabling and transitional activities selected for the Fund.

● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>?**

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- What is the minimum share of investments in transitional and enabling activities?**

As per the above, at the date of this Prospectus the share of investments by the Fund in transitional and enabling activities is currently deemed to constitute 0% of the Fund’s portfolio.

**What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?**

The Fund commits to invest at least 1% of its assets in sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

<sup>2</sup> As there is no Taxonomy-alignment, there is no impact on the graph if sovereign bonds are excluded (i.e. the percentage of Taxonomy-aligned investments remains 0%) and the Management Company therefore believes that there is no need to mention this information.

## What is the minimum share of socially sustainable investments?

The Fund commits to invest at least 1% of its assets in sustainable investments with a social objective.

## What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

**#2 Other** includes cash which is treated as neutral for sustainability purposes. #2 also includes other investments that are not scored by Schroders’ proprietary sustainability tools and so do not contribute towards the Fund’s sustainability score.

Minimum safeguards are applied where relevant to investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders’ credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders’ proprietary tool, which supports the analysis of a counterparty’s management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders’ proprietary tool would lead to further analysis and potential exclusion by Schroders’ credit risk team.

## Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- *How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?*

This question is not applicable for the Fund.

- *How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?*

This question is not applicable for the Fund.

- *How does the designated index differ from a relevant broad market index?*

This question is not applicable for the Fund.

- *Where can the methodology used for the calculation of the designated index be found?*

This question is not applicable for the Fund.

## Where can I find more product specific information online?

More product-specific information can be found on the webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

- **What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?**

In respect of the proportion of the Fund's portfolio that is invested in sustainable investments, each sustainable investment either (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool and/ or (ii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. The environmental or social objectives of the sustainable investments that the Fund partially intends to make may include, but are not limited to, increasing environmental and/or social benefits such as greater water access or fair pay and reducing environmental, and/or social costs such as carbon emissions or food waste. For example, greater water access as measured by Schroders' proprietary tool are the estimated societal benefits of the provision of clean drinking water to human health.

- **How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?**

The Investment Manager's approach to investing in issuers that do not cause significant harm to any environmental or social sustainable investment objective includes the following:

- Firm-wide investment exclusions apply to Schroders funds. These relate to international conventions on cluster munitions, anti-personnel mines, and chemical and biological weapons and thermal coal mining. Further information and a list of excluded controversial weapons companies is available at <https://www.schroders.com/en/global/individual/about-us/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/group-exclusions/>
- The Fund excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal.
- The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. Schroders' determination of whether a company has been involved in such a breach considers relevant principles such as those contained in the UN Global Compact (UNGC) principles, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. The 'global norms' breach list may be informed by assessments performed by third party providers and by proprietary research, where relevant to a particular situation. In exceptional circumstances a derogation may be applied in order to allow the Fund to continue to hold a company on Schroders' 'global norms' breach list, for example where the stated investment strategy of the Fund may otherwise be compromised. Any such company cannot be categorised as a sustainable investment.
- The Fund may also apply certain other exclusions in addition to those summarised above.

Further information on all of the Fund's investment exclusions is to be found under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

- **How have the indicators for adverse impacts on sustainability factors been taken into account?**

When seeking to identify significant harm, Schroders' approach to taking into account the Principal Adverse Impacts (PAI) indicators involves a quantitative and a qualitative assessment. Where it is not considered appropriate or feasible to set quantitative thresholds, the Investment Manager engages, where relevant. Investee companies deemed not to satisfy the quantitative thresholds would generally be excluded, unless on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area.

This framework is subject to ongoing review, particularly as the availability and quality of the data evolves.

Our approach includes:

1. **Quantitative:** this includes indicators where specific thresholds have been established:

- Via the application of exclusions. This approach is relevant to **PAI 4** (Exposure to companies active in the fossil fuel sector), **PAI 5** (Share of non-renewable energy consumption and production) and **PAI 14** (Exposure to controversial weapons). Further, the following PAIs are assessed as part of Schroders 'global norms' breach list exclusion (which seeks to exclude companies where significant harm is occurring):
  - **PAI 7** (Activities negatively affecting biodiversity-sensitive areas)
  - **PAI 8** (Emissions to water)
  - **PAI 9** (Hazardous waste and radioactive waste ratio)

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- **PAI 10** (Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development Guidelines for Multinational Enterprises)
- **PAI 11** (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises)
- **PAI 14** in Table 3 (Number of identified cases of severe human rights issues and incidents)
- Via the application of an alert system flag if the relevant indicator(s) exceeds a threshold. These quantitative thresholds to assess significant harm are established centrally by our Sustainable Investment team and monitored systematically. This approach applies to indicators where we have segmented the population into harm groups to establish a threshold, such as carbon related PAI metrics, **PAI 1** (GHG emissions), **PAI 2** (Carbon footprint) and **Voluntary PAI 4 in Table 2** (Investing in companies without carbon emission reduction initiatives). **PAI 3** (GHG intensity of investee companies) operates in a similar way but the threshold is based on a revenue metric. A threshold for **PAI 6** (Energy consumption intensity per high impact climate sector) is established based on the above-mentioned carbon measures. A similar approach has been taken for **PAI 15** (GHG intensity). **PAI 16** (Investee countries subject to social violations) also operates in the same way but based on data availability regarding social violations. Through this process the relevant issuer(s) that is/are deemed not to satisfy the quantitative thresholds is/are flagged to the Investment Manager for consideration, whose response may involve selling the holdings(s) or maintaining the position if on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area. Investee companies deemed to cause significant harm are excluded from the Fund.
- 2. **Qualitative:** This includes PAI indicators where Schroders' believes that the data available does not enable us to make a quantitative determination regarding whether significant harm is done so as to warrant excluding an investment. In such cases, the Investment Manager engages wherever possible with the company or companies held, in accordance with the priorities documented in Schroders' Engagement Blueprint and/or voting policy. This approach applies to indicators such as **PAI 12** (Unadjusted gender pay gap) and **PAI 13** (Board gender diversity), where we engage and may use our voting rights where we consider appropriate. Both board gender diversity and disclosure of gender pay gap information are captured in our Engagement Blueprint.

● **How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Companies on Schroders' 'global norms' breach list cannot be categorised as sustainable investments. Schroders' determination of whether a company should be included on such list considers the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, among other relevant principles. The 'global norms' breach list is informed by third party providers and proprietary research, where relevant.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## Does this financial product consider principal adverse impacts on sustainability factors?

☒ Yes.

The Investment Manager's approach to considering principal adverse impacts on sustainability factors differs depending on the relevant indicator. Some indicators are considered via the application of exclusions, some are considered via the investment process (where data is available via Schroders PAI dashboard and via other external data sources) and some via engagement. Further details are provided below.

PAIs are considered as part of pre-investment through the application of exclusions. These include:

- Controversial weapons: PAI 14 (Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)).
- Schroders' 'global norms' breach list which covers: PAI 7 (Activities negatively affecting biodiversity-sensitive areas), PAI 8 (Emissions to water), PAI 9 (Hazardous waste ratio), PAI 10 (Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises), PAI 11 (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises) and PAI 14 in Table 3 (Number of identified cases of severe human rights issues and incidents).

- Companies that derive revenues above certain thresholds from activities related to thermal coal: PAI 4 (Exposure to companies active in the fossil fuel sector) and PAI 5 (Share of non-renewable energy consumption and production).

Compliance with these thresholds is monitored via the Investment Manager's portfolio compliance framework.

PAIs are also considered through integration in the investment process. As part of the issuer level due diligence process, via company analysis from meetings with management teams and on desk analysis of annual reports and statements, several PAIs are considered. These are considered alongside PAIs from Schroders' proprietary tool which incorporates several PAIs as a component of its scoring methodology.

PAIs are also considered post-investment through engagement where the Investment Manager engages in line with the approach and expectations set out in Schroders Engagement Blueprint, which outlines our approach to active ownership. Engagements may cover a range of topics, including human rights in the technology sector and climate and net zero commitments for held companies within the consumer discretionary sector. These engagements relate to PAIs 16 (Social Violations) and 1, 2, 3 and 5 (GHG emissions, Carbon Footprint, GHG intensity of investee company and Share of non-renewable energy consumption and production).

Our approach is subject to ongoing review, particularly as the availability, and quality, of PAI data evolves. The Management Company's statement on principal adverse impacts on sustainability factors is available at <https://api.schroders.com/document-store/id/ffcb39bb-96cb-4e56-9461-deba9a493e85>. The Fund level information is disclosed or will be disclosed (as applicable) in the Fund's annual report.

☐ No

## What investment strategy does this financial product follow?

**The investment strategy** guides investment decisions based on factors such as investment objectives and risk tolerance.

The sustainable investment strategy used by the Investment Manager is as follows:

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of Swiss companies.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash.

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Fund maintains a positive absolute sustainability score, based on the Investment Manager's rating system

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.

Companies in the investment universe are assessed on their governance, environmental and social profile. The Investment Manager performs due diligence on potential holdings and this can include meetings with company management. The Investment Manager aims to identify the impact a business has on society whilst assessing relationships with key stakeholders such as employees, suppliers and regulators. This research is supported by quantitative analysis gained from Schroders' proprietary sustainability tools which are key inputs to assessing how existing and potential investments are meeting the Fund's sustainability criteria.

The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data.

More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the webpage

<https://www.schroders.com/en-lu/lu/individual/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/disclosures-and-statements/>

The Fund maintains a higher overall sustainability score than its investment universe, based on the Investment Manager's rating system.

The Investment Manager ensures that at least:

- 90% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and

- 75% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,

is rated against the sustainability criteria.

For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.

● **What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?**

The following binding elements are applied throughout the investment process:

- The Fund maintains a positive absolute sustainability score based on the Investment Manager's rating criteria.
- The Fund invests at least 25% of its assets in sustainable investments and such investments do not cause significant environmental or social harm.
- Exclusions are applied to direct investments in companies. The Fund applies certain exclusions relating to international conventions on cluster munitions, antipersonnel mines, and chemical and biological weapons. The Fund also excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal. The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. In exceptional circumstances a derogation may be applied in order to allow the Fund to continue to hold a company on Schroders' 'global norms' breach list, for example where the stated investment strategy of the Fund may otherwise be compromised. Any such company cannot be categorised as a sustainable investment. Further, the Fund may apply other exclusions as listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

The Fund maintains a higher overall sustainability score than its investment universe, based on the Investment Manager's rating system.

- The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria.

The Investment Manager ensures that at least:

- 90% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and
- 75% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,

is rated against the sustainability criteria.

● **What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?**

This question is not applicable for the Fund.

● **What is the policy to assess good governance practices of the investee companies?**

In order to assess good governance practices, a central Good Governance Test is applied. This test is based on a data-driven quantitative framework, which uses a scorecard to assess companies across the categories of sound management structures, employee relations, remuneration of staff, and tax compliance. Schroders has defined a number of criteria across these pillars.

Compliance with the test is monitored centrally and companies which do not pass this test cannot be held by the Fund, unless the Investment Manager has agreed that the issuer demonstrates good governance based on additional insights beyond that quantitative analysis.

**Good governance** practices include sound management structures, employee relations, remuneration of staff and tax compliance.

**Asset allocation** describes the share of investments in specific assets.

## What is the asset allocation planned for this financial product?

The planned composition of the Fund's investments that are used to meet its environmental or social characteristics are summarised below.

**#1 Aligned with E/S characteristics** includes the minimum proportion of the Fund's assets used to attain the environmental or social characteristics, which is equal to 70%. The Fund commits to maintain a positive absolute sustainability score, and so the Fund's investments that are scored by Schroders' proprietary sustainability tool are included within the minimum proportion stated in #1 on the basis that they will contribute to the Fund's sustainability score (whether such individual investment has a positive or a negative score). Also included within #1 is the minimum proportion of assets that are invested in sustainable investments, as indicated in #1A. The minimum proportions stated apply in normal market conditions. The actual proportion stated in #1 is expected to be higher.

The Fund will invest at least 25% of its assets in sustainable investments. Each sustainable investment (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool and/ or (ii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. A sustainable investment is classified as having an

environmental or social objective depending on whether the relevant issuer has a higher score in Schroders' proprietary tool relative to its applicable peer group for its environmental indicators or its social indicators. In each case, indicators are comprised of both "costs" and "benefits".

**#2 Other** includes cash which is treated as neutral for sustainability purposes. #2 also includes investments that are not scored by Schroders' proprietary sustainability tool and so do not contribute towards the Fund's sustainability score. As #1 states a minimum proportion that is in practice expected to be higher, the proportion stated in #2 is expected to be lower.

Minimum safeguards are applied where relevant to Money Market Investments other investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders' credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders' proprietary tool, which supports the analysis of a counterparty's management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders' proprietary tool would lead to further analysis and potential exclusion by Schroders' credit risk team.

#1 The minimum proportion stated applies in normal market conditions.

### ● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

The Fund may use derivatives that are scored in Schroders' proprietary tool to meet the environmental and/or social characteristics promoted by the Fund, as such derivatives would contribute to the Fund's sustainability score (whether such individual investment has a positive or a negative score).

### **To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?**

There is no minimum extent to which the Fund's investments (including transitional and enabling activities) with an environmental objective are aligned with the Taxonomy. Taxonomy alignment of this Fund's investments has therefore not been calculated and has as a result been deemed to constitute 0% of the Fund's portfolio.

In future it is expected that the Fund will assess and report on the extent to which its underlying investments are in economic activities that qualify as environmentally sustainable under the Taxonomy, along with information relating to the proportion of enabling and transitional activities. This Prospectus will be updated once it is possible in the Investment Manager's opinion to accurately disclose to what extent the Fund's investments are in Taxonomy-aligned environmentally sustainable activities, including the proportions of investments in enabling and transitional activities selected for the Fund.

● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>?**

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

**1. Taxonomy-alignment of investments including sovereign bonds\***

**2. Taxonomy-alignment of investments excluding sovereign bonds\***

This graph represents x% of the total investments<sup>2</sup>.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● **What is the minimum share of investments in transitional and enabling activities?**

As per the above, at the date of this Prospectus the share of investments by the Fund in transitional and enabling activities is currently deemed to constitute 0% of the Fund's portfolio.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

<sup>2</sup> As there is no Taxonomy-alignment, there is no impact on the graph if sovereign bonds are excluded (i.e. the percentage of Taxonomy-aligned investments remains 0%) and the Management Company therefore believes that there is no need to mention this information.

## What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

The Fund commits to invest at least 1% of its assets in sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

## What is the minimum share of socially sustainable investments?

The Fund commits to invest at least 1% of its assets in sustainable investments with a social objective.

## What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

**#2 Other** includes cash which is treated as neutral for sustainability purposes. #2 also includes investments that are not scored by Schroders' proprietary sustainability tools and so do not contribute towards the Fund's sustainability score.

Minimum safeguards are applied where relevant to Money Market Investments and other investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders' credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders' proprietary tool, which supports the analysis of a counterparty's management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders' proprietary tool would lead to further analysis and potential exclusion by Schroders' credit risk team.

## Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?**

This question is not applicable for the Fund.

- **How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?**

This question is not applicable for the Fund.

- ***How does the designated index differ from a relevant broad market index?***

This question is not applicable for the Fund.

- ***Where can the methodology used for the calculation of the designated index be found?***

This question is not applicable for the Fund.

## **Where can I find more product specific information online?**

More product-specific information can be found on the webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** **Schroder International Selection Fund Swiss Small & Mid Cap Equity**

**Legal entity identifier:** **VBUEW7DMTWG11EOSYCC70**

## Environmental and/or social characteristics

## What environmental and/or social characteristics are promoted by this financial product?

The Fund maintains a positive absolute sustainability score, based on the Investment Manager's rating system.

The sustainability score is measured by Schroders' proprietary tool that provides an aggregate estimate of the social and environmental costs and benefits that an issuer may create. It does this by scoring the issuer against a list of indicators – scores may be positive (for example, when an issuer pays more than average living wages) or negative (for example, when an issuer emits carbon). It does this using third party data as well as Schroders' own estimates and assumptions and the outcome may differ from other sustainability tools and measures.

The result is expressed as an aggregate score of the sustainability indicators for each issuer, specifically a notional percentage (positive or negative) of sales or GDP of the relevant underlying issuer. For example, a score of +2% would mean that for every \$100 of sales the issuer generates, it would provide a net positive contribution to society and/or the environment of \$2. The sustainability score of the Fund is derived from the scores of all eligible issuers in the Fund's portfolio measured by Schroders' proprietary tool.

The Fund invests at least 25% of its assets in sustainable investments, which are investments that the Investment Manager expects to contribute towards the advancement of one or more environmental and/or social objective (s).

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Fund.

### ● **What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?**

The Investment Manager monitors compliance with the characteristic to maintain a positive absolute sustainability score by reference to the weighted average sustainability score of the Fund in Schroders' proprietary tool over the previous six-month period, based on month-end data. The overall sustainability score aggregates the effect of sustainability indicators including but not limited to greenhouse gas emissions, water usage, and salaries compared to the living wage.

The Investment Manager monitors compliance with the characteristic to invest at least 25% of its assets in sustainable investments by reference to (i) the sustainability score of each asset in Schroders' proprietary tool and / or (ii) whether an asset is deemed sustainable on an exceptional basis by Schroders. Compliance with this is monitored daily via our automated compliance controls. The Fund also applies certain exclusions, with which the Investment Manager monitors compliance on an ongoing basis via its portfolio compliance framework.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

- **What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?**

In respect of the proportion of the Fund's portfolio that is invested in sustainable investments, each sustainable investment either (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool and/ or (ii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. The environmental or social objectives of the sustainable investments that the Fund partially intends to make may include, but are not limited to, increasing environmental and/or social benefits such as greater water access or fair pay and reducing environmental, and/or social costs such as carbon emissions or food waste. For example, greater water access as measured by Schroders' proprietary tool are the estimated societal benefits of the provision of clean drinking water to human health.

- **How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?**

The Investment Manager's approach to investing in issuers that do not cause significant harm to any environmental or social sustainable investment objective includes the following:

- Firm-wide investment exclusions apply to Schroders funds. These relate to international conventions on cluster munitions, anti-personnel mines, and chemical and biological weapons and thermal coal mining. Further information and a list of excluded controversial weapons companies is available at <https://www.schroders.com/en/global/individual/about-us/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/group-exclusions/>
- The Fund excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal.
- The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. Schroders' determination of whether a company has been involved in such a breach considers relevant principles such as those contained in the UN Global Compact (UNGC) principles, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. The 'global norms' breach list may be informed by assessments performed by third party providers and by proprietary research, where relevant to a particular situation. In exceptional circumstances a derogation may be applied in order to allow the Fund to continue to hold a company on Schroders' 'global norms' breach list, for example where the stated investment strategy of the Fund may otherwise be compromised. Any such company cannot be categorised as a sustainable investment.
- The Fund may also apply certain other exclusions in addition to those summarised above.

Further information on all of the Fund's investment exclusions is to be found under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

- **How have the indicators for adverse impacts on sustainability factors been taken into account?**

When seeking to identify significant harm, Schroders' approach to taking into account the Principal Adverse Impacts (PAI) indicators involves a quantitative and a qualitative assessment. Where it is not considered appropriate or feasible to set quantitative thresholds, the Investment Manager engages, where relevant. Investee companies deemed not to satisfy the quantitative thresholds would generally be excluded, unless on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area.

This framework is subject to ongoing review, particularly as the availability and quality of the data evolves.

Our approach includes:

1. **Quantitative:** this includes indicators where specific thresholds have been established:

- Via the application of exclusions. This approach is relevant to **PAI 4** (Exposure to companies active in the fossil fuel sector), **PAI 5** (Share of non-renewable energy consumption and production) and **PAI 14** (Exposure to controversial weapons). Further, the following PAIs are assessed as part of Schroders 'global norms' breach list exclusion (which seeks to exclude companies where significant harm is occurring):
  - **PAI 7** (Activities negatively affecting biodiversity-sensitive areas)
  - **PAI 8** (Emissions to water)
  - **PAI 9** (Hazardous waste and radioactive waste ratio)

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- **PAI 10** (Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development Guidelines for Multinational Enterprises)
- **PAI 11** (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises)
- **PAI 14** in Table 3 (Number of identified cases of severe human rights issues and incidents)
- Via the application of an alert system flag if the relevant indicator(s) exceeds a threshold. These quantitative thresholds to assess significant harm are established centrally by our Sustainable Investment team and monitored systematically. This approach applies to indicators where we have segmented the population into harm groups to establish a threshold, such as carbon related PAI metrics, **PAI 1** (GHG emissions), **PAI 2** (Carbon footprint) and **Voluntary PAI 4 in Table 2** (Investing in companies without carbon emission reduction initiatives). **PAI 3** (GHG intensity of investee companies) operates in a similar way but the threshold is based on a revenue metric. A threshold for **PAI 6** (Energy consumption intensity per high impact climate sector) is established based on the above-mentioned carbon measures. A similar approach has been taken for **PAI 15** (GHG intensity). **PAI 16** (Investee countries subject to social violations) also operates in the same way but based on data availability regarding social violations. Through this process the relevant issuer(s) that is/are deemed not to satisfy the quantitative thresholds is/are flagged to the Investment Manager for consideration, whose response may involve selling the holdings(s) or maintaining the position if on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area. Investee companies deemed to cause significant harm are excluded from the Fund.
- 2. **Qualitative:** This includes PAI indicators where Schroders' believes that the data available does not enable us to make a quantitative determination regarding whether significant harm is done so as to warrant excluding an investment. In such cases, the Investment Manager engages wherever possible with the company or companies held, in accordance with the priorities documented in Schroders' Engagement Blueprint and/or voting policy. This approach applies to indicators such as **PAI 12** (Unadjusted gender pay gap) and **PAI 13** (Board gender diversity), where we engage and may use our voting rights where we consider appropriate. Both board gender diversity and disclosure of gender pay gap information are captured in our Engagement Blueprint.

● ***How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

Companies on Schroders' 'global norms' breach list cannot be categorised as sustainable investments. Schroders' determination of whether a company should be included on such list considers the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, among other relevant principles. The 'global norms' breach list is informed by third party providers and proprietary research, where relevant.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## **Does this financial product consider principal adverse impacts on sustainability factors?**

☒ Yes.

The Investment Manager's approach to considering principal adverse impacts on sustainability factors differs depending on the relevant indicator. Some indicators are considered via the application of exclusions, some are considered via the investment process (where data is available via Schroders PAI dashboard and via other external data sources) and some via engagement. Further details are provided below.

PAIs are considered as part of pre-investment through the application of exclusions. These include:

- Controversial weapons: PAI 14 (Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)).
- Schroders' 'global norms' breach list which covers: PAI 7 (Activities negatively affecting biodiversity-sensitive areas), PAI 8 (Emissions to water), PAI 9 (Hazardous waste ratio), PAI 10 (Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises), PAI 11 (Lack of processes and compliance

mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises) and PAI 14 in Table 3 (Number of identified cases of severe human rights issues and incidents).

- Companies that derive revenues above certain thresholds from activities related to thermal coal: PAI 4 (Exposure to companies active in the fossil fuel sector) and PAI 5 (Share of non-renewable energy consumption and production).

Compliance with these thresholds is monitored via the Investment Manager's portfolio compliance framework. PAIs are also considered through integration in the investment process. As part of the issuer level due diligence process, via company analysis from meetings with management teams and on desk analysis of annual reports and statements, several PAIs are considered. These are considered alongside PAIs from Schroders' proprietary tool which incorporates several PAIs as a component of its scoring methodology.

PAIs are also considered post-investment through engagement where the Investment Manager engages in line with the approach and expectations set out in Schroders Engagement Blueprint, which outlines our approach to active ownership. Engagements may cover a range of topics, including diversity and inclusion in the technology sector and climate and net zero commitments for held companies within the consumer staples sector. These engagements relate to PAIs 13 (Gender Diversity) and 1, 2, 3 and 5 (GHG emissions, Carbon Footprint, GHG intensity of investee company and Share of non-renewable energy consumption and production).

Our approach is subject to ongoing review, particularly as the availability, and quality, of PAI data evolves. The Management Company's statement on principal adverse impacts on sustainability factors is available at [https://api.schroders.com/document-store/id/ffcb39bb-96cb-4e56-9461-deba9a493e85\\_The Fund level information is disclosed or will be disclosed \(as applicable\) in the Fund's annual report](https://api.schroders.com/document-store/id/ffcb39bb-96cb-4e56-9461-deba9a493e85_The Fund level information is disclosed or will be disclosed (as applicable) in the Fund's annual report).

☐ No

## What investment strategy does this financial product follow?

**The investment strategy** guides investment decisions based on factors such as investment objectives and risk tolerance.

The sustainable investment strategy used by the Investment Manager is as follows:

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of small and mid-sized Swiss companies. These are companies which, at the time of purchase, are considered to be in the bottom 30% by market capitalisation of the Swiss equities market.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash.

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Fund maintains a positive absolute sustainability score, based on the Investment Manager's rating system.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.

Companies in the investment universe are assessed on their governance, environmental and social profile. The Investment Manager performs due diligence on potential holdings and this can include meetings with company management. The Investment Manager aims to identify the impact a business has on society whilst assessing relationships with key stakeholders such as employees, suppliers and regulators. This research is supported by quantitative analysis gained from Schroders' proprietary sustainability tools which are key inputs to assessing how existing and potential investments are meeting the Fund's sustainability criteria.

The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data.

More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the webpage

<https://www.schroders.com/en-lu/lu/individual/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-res-and-statements/>

The Fund maintains a higher overall sustainability score than its investment universe, based on the Investment Manager's rating system.

The Investment Manager ensures that at least:

- 90% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and
- 75% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,

is rated against the sustainability criteria.

For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.

● ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

The following binding elements are applied throughout the investment process:

- The Fund maintains a positive absolute sustainability score based on the Investment Manager's rating criteria.
- The Fund invests at least 25% of its assets in sustainable investments and such investments do not cause significant environmental or social harm.
- Exclusions are applied to direct investments in companies. The Fund applies certain exclusions relating to international conventions on cluster munitions, antipersonnel mines, and chemical and biological weapons. The Fund also excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal. The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. In exceptional circumstances a derogation may be applied in order to allow the Fund to continue to hold a company on Schroders' 'global norms' breach list, for example where the stated investment strategy of the Fund may otherwise be compromised. Any such company cannot be categorised as a sustainable investment. Further, the Fund may apply other exclusions as listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>
- The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria.

The Fund maintains a higher overall sustainability score than its investment universe, based on the Investment Manager's rating system.

The Investment Manager ensures that at least:

- 90% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and
- 75% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,

is rated against the sustainability criteria.

● ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

This question is not applicable for the Fund.

● ***What is the policy to assess good governance practices of the investee companies?***

In order to assess good governance practices, a central Good Governance Test is applied. This test is based on a data-driven quantitative framework, which uses a scorecard to assess companies across the categories of sound management structures, employee relations, remuneration of staff, and tax compliance. Schroders has defined a number of criteria across these pillars.

Compliance with the test is monitored centrally and companies which do not pass this test cannot be held by the Fund, unless the Investment Manager has agreed that the issuer demonstrates good governance based on additional insights beyond that quantitative analysis.

**Good governance** practices include sound management structures, employee relations, remuneration of staff and tax compliance.

**Asset allocation** describes the share of investments in specific assets.

## **What is the asset allocation planned for this financial product?**

The planned composition of the Fund's investments that are used to meet its environmental or social characteristics are summarised below.

**#1 Aligned with E/S characteristics** includes the minimum proportion of the Fund's assets used to attain the environmental or social characteristics, which is equal to 70%. The Fund commits to maintain a positive absolute sustainability score, and so the Fund's investments that are scored by Schroders' proprietary sustainability tool are included within the minimum proportion stated in #1 on the basis that they will contribute to the Fund's sustainability score (whether such individual investment has a positive or a negative score). Also included within #1 is the minimum proportion of assets that are invested in sustainable investments, as indicated in #1A. The minimum proportions stated apply in normal market conditions. The actual proportion stated in #1 is expected to be higher.

The Fund will invest at least 25% of its assets in sustainable investments. Each sustainable investment (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool and/ or (ii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. A sustainable investment is classified as having an environmental or social objective depending on whether the relevant issuer has a higher score in Schroders' proprietary tool relative to its applicable peer group for its environmental indicators or its social indicators. In each case, indicators are comprised of both "costs" and "benefits".

**#2 Other** includes cash which is treated as neutral for sustainability purposes. #2 also includes investments that are not scored by Schroders' proprietary sustainability tool and so do not contribute towards the Fund's sustainability score. As #1 states a minimum proportion that is in practice expected to be higher, the proportion stated in #2 is expected to be lower.

Minimum safeguards are applied where relevant to Money Market Investments and other investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders' credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders' proprietary tool, which supports the analysis of a counterparty's management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders' proprietary tool would lead to further analysis and potential exclusion by Schroders' credit risk team.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

#1 The minimum proportion stated applies in normal market conditions.

### ● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

The Fund may use derivatives that are scored in Schroders' proprietary tool to meet the environmental and/or social characteristics promoted by the Fund, as such derivatives would contribute to the Fund's sustainability score (whether such individual investment has a positive or a negative score).

## To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

There is no minimum extent to which the Fund's investments (including transitional and enabling activities) with an environmental objective are aligned with the Taxonomy. Taxonomy alignment of this Fund's investments has therefore not been calculated and has as a result been deemed to constitute 0% of the Fund's portfolio.

In future it is expected that the Fund will assess and report on the extent to which its underlying investments are in economic activities that qualify as environmentally sustainable under the Taxonomy, along with information relating to the proportion of enabling and transitional activities. This Prospectus will be updated once it is possible in the Investment Manager's opinion to accurately disclose to what extent the Fund's investments are in Taxonomy-aligned environmentally sustainable activities, including the proportions of investments in enabling and transitional activities selected for the Fund.

### ● Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents x% of the total investments<sup>2</sup>.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

### ● What is the minimum share of investments in transitional and enabling activities?

As per the above, at the date of this Prospectus the share of investments by the Fund in transitional and enabling activities is currently deemed to constitute 0% of the Fund's portfolio.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

<sup>2</sup> As there is no Taxonomy-alignment, there is no impact on the graph if sovereign bonds are excluded (i.e. the percentage of Taxonomy-aligned investments remains 0%) and the Management Company therefore believes that there is no need to mention this information.

alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

**What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?**

The Fund commits to invest at least 1% of its assets in sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

**What is the minimum share of socially sustainable investments?**

The Fund commits to invest at least 1% of its assets in sustainable investments with a social objective.

**What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?**

**#2 Other** includes cash which is treated as neutral for sustainability purposes. #2 also includes investments that are not scored by Schroders’ proprietary sustainability tools and so do not contribute towards the Fund’s sustainability score.

Minimum safeguards are applied where relevant to Money Market Investments and other investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders’ credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders’ proprietary tool, which supports the analysis of a counterparty’s management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders’ proprietary tool would lead to further analysis and potential exclusion by Schroders’ credit risk team.

**Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?**

- *How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?*

This question is not applicable for the Fund.

**Reference benchmarks** are indexes to measure whether the financial product attains the

environmental or social characteristics that they promote.

- ***How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?***  
This question is not applicable for the Fund.
- ***How does the designated index differ from a relevant broad market index?***  
This question is not applicable for the Fund.
- ***Where can the methodology used for the calculation of the designated index be found?***  
This question is not applicable for the Fund.

## **Where can I find more product specific information online?**

More product-specific information can be found on the webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** **Schroder International Selection Fund UK Equity**

**Legal entity identifier:** **O3Z02YF8JZJN90D5MT95**

## Environmental and/or social characteristics

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

| Does this financial product have a sustainable investment objective?                                                     |                                                                                                                                                                                                                                                       |

## What environmental and/or social characteristics are promoted by this financial product?

The Fund maintains a higher overall sustainability score than the FTSE All Share Total Return index, based on the Investment Manager's rating system. This benchmark (which is a broad market index) does not take into account the environmental and social characteristics promoted by the Fund.

The sustainability score is measured by Schroders' proprietary tool that provides an aggregate estimate of the social and environmental costs and benefits that an issuer may create. It does this by scoring the issuer against a list of indicators – scores may be positive (for example, when an issuer pays more than average living wages) or negative (for example, when an issuer emits carbon). It does this using third party data as well as Schroders' own estimates and assumptions and the outcome may differ from other sustainability tools and measures.

The result is expressed as an aggregate score of the sustainability indicators for each issuer, specifically a notional percentage (positive or negative) of sales or GDP of the relevant underlying issuer. For example, a score of +2% would mean that for every \$100 of sales the issuer generates, it would provide a net positive contribution to society and/or the environment of \$2. The sustainability score of the Fund is derived from the scores of all eligible issuers in the Fund's portfolio measured by Schroders' proprietary tool.

The Fund invests at least 25% of its assets in sustainable investments, which are investments that the Investment Manager expects to contribute towards the advancement of one or more environmental and/or social objective (s).

### ● **What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?**

The Investment Manager monitors compliance with the characteristic to maintain a higher overall sustainability score than the FTSE All Share Total Return index by reference to the weighted average sustainability score of the Fund in Schroders' proprietary tool compared against the weighted average sustainability score of the FTSE All Share Total Return index in Schroders' proprietary tool over the previous six-month period, based on month-end data. The overall sustainability score aggregates the effect of sustainability indicators including but not limited to greenhouse gas emissions, water usage, and salaries compared to the living wage.

The Investment Manager monitors compliance with the characteristic to invest at least 25% of its assets in sustainable investments by reference to (i) the sustainability score of each asset in Schroders' proprietary tool and / or (ii) whether an asset is deemed sustainable on an exceptional basis by Schroders.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

Compliance with this is monitored daily via our automated compliance controls. The Fund also applies certain exclusions, with which the Investment Manager monitors compliance on an ongoing basis via its portfolio compliance framework.

● ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

In respect of the proportion of the Fund's portfolio that is invested in sustainable investments, each sustainable investment either (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool and/ or (ii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. The environmental or social objectives of the sustainable investments that the Fund partially intends to make may include, but are not limited to, increasing environmental and/or social benefits such as greater water access or fair pay and reducing environmental, and/or social costs such as carbon emissions or food waste. For example, greater water access as measured by Schroders' proprietary tool are the estimated societal benefits of the provision of clean drinking water to human health.

● ***How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?***

The Investment Manager's approach to investing in issuers that do not cause significant harm to any environmental or social sustainable investment objective includes the following:

- Firm-wide investment exclusions apply to Schroders funds. These relate to international conventions on cluster munitions, anti-personnel mines, and chemical and biological weapons and thermal coal mining. Further information and a list of excluded controversial weapons companies is available at <https://www.schroders.com/en/global/individual/about-us/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/group-exclusions/>
- The Fund excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal.
- The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. Schroders' determination of whether a company has been involved in such a breach considers relevant principles such as those contained in the UN Global Compact (UNG) principles, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. The 'global norms' breach list may be informed by assessments performed by third party providers and by proprietary research, where relevant to a particular situation. In exceptional circumstances a derogation may be applied in order to allow the Fund to continue to hold a company on Schroders' 'global norms' breach list, for example where the stated investment strategy of the Fund may otherwise be compromised. Any such company cannot be categorised as a sustainable investment.
- The Fund may also apply certain other exclusions in addition to those summarised above.

Further information on all of the Fund's investment exclusions is to be found under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

● ***How have the indicators for adverse impacts on sustainability factors been taken into account?***

When seeking to identify significant harm, Schroders' approach to taking into account the Principal Adverse Impacts (PAI) indicators involves a quantitative and a qualitative assessment. Where it is not considered appropriate or feasible to set quantitative thresholds, the Investment Manager engages, where relevant. Investee companies deemed not to satisfy the quantitative thresholds would generally be excluded, unless on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area.

This framework is subject to ongoing review, particularly as the availability and quality of the data evolves.

Our approach includes:

1. **Quantitative:** this includes indicators where specific thresholds have been established:
  - Via the application of exclusions. This approach is relevant to **PAI 4** (Exposure to companies active in the fossil fuel sector), **PAI 5** (Share of non-renewable energy consumption and production) and **PAI 14** (Exposure to controversial weapons). Further, the following PAIs are assessed as part of Schroders 'global norms' breach list exclusion (which seeks to exclude companies where significant harm is occurring):
    - **PAI 7** (Activities negatively affecting biodiversity-sensitive areas)

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- **PAI 8** (Emissions to water)
- **PAI 9** (Hazardous waste and radioactive waste ratio)
- **PAI 10** (Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development Guidelines for Multinational Enterprises)
- **PAI 11** (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises)
- **PAI 14** in Table 3 (Number of identified cases of severe human rights issues and incidents)
- Via the application of an alert system flag if the relevant indicator(s) exceeds a threshold. These quantitative thresholds to assess significant harm are established centrally by our Sustainable Investment team and monitored systematically. This approach applies to indicators where we have segmented the population into harm groups to establish a threshold, such as carbon related PAI metrics, **PAI 1** (GHG emissions), **PAI 2** (Carbon footprint) and **Voluntary PAI 4 in Table 2** (Investing in companies without carbon emission reduction initiatives). **PAI 3** (GHG intensity of investee companies) operates in a similar way but the threshold is based on a revenue metric. A threshold for **PAI 6** (Energy consumption intensity per high impact climate sector) is established based on the above-mentioned carbon measures. A similar approach has been taken for **PAI 15** (GHG intensity). **PAI 16** (Investee countries subject to social violations) also operates in the same way but based on data availability regarding social violations. Through this process the relevant issuer(s) that is/are deemed not to satisfy the quantitative thresholds is/are flagged to the Investment Manager for consideration, whose response may involve selling the holdings(s) or maintaining the position if on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area. Investee companies deemed to cause significant harm are excluded from the Fund.
- 2. **Qualitative:** This includes PAI indicators where Schroders' believes that the data available does not enable us to make a quantitative determination regarding whether significant harm is done so as to warrant excluding an investment. In such cases, the Investment Manager engages wherever possible with the company or companies held, in accordance with the priorities documented in Schroders' Engagement Blueprint and/or voting policy. This approach applies to indicators such as **PAI 12** (Unadjusted gender pay gap) and **PAI 13** (Board gender diversity), where we engage and may use our voting rights where we consider appropriate. Both board gender diversity and disclosure of gender pay gap information are captured in our Engagement Blueprint.

● **How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Companies on Schroders' 'global norms' breach list cannot be categorised as sustainable investments. Schroders' determination of whether a company should be included on such list considers the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, among other relevant principles. The 'global norms' breach list is informed by third party providers and proprietary research, where relevant.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## Does this financial product consider principal adverse impacts on sustainability factors?

☒ Yes.

The Investment Manager's approach to considering principal adverse impacts on sustainability factors differs depending on the relevant indicator. Some indicators are considered via the application of exclusions, some are considered via the investment process (where data is available via Schroders PAI dashboard and via other external data sources) and some via engagement. Further details are provided below.

PAIs are considered as part of pre-investment through the application of exclusions. These include:

- Controversial weapons: PAI 14 (Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)).

- Schroders' 'global norms' breach list which covers: PAI 7 (Activities negatively affecting biodiversity-sensitive areas), PAI 8 (Emissions to water), PAI 9 (Hazardous waste ratio), PAI 10 (Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises), PAI 11 (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises) and PAI 14 in Table 3 (Number of identified cases of severe human rights issues and incidents).
- Companies that derive revenues above certain thresholds from activities related to thermal coal: PAI 4 (Exposure to companies active in the fossil fuel sector) and PAI 5 (Share of non-renewable energy consumption and production).

Compliance with these thresholds is monitored via the Investment Manager's portfolio compliance framework. PAIs are also considered through integration in the investment process. As part of the issuer level due diligence process, via company analysis from meetings with management teams and on desk analysis of annual reports and statements, several PAIs are considered. These are considered alongside PAIs from Schroders' proprietary tool which incorporates several PAIs as a component of its scoring methodology.

PAIs are also considered post-investment through engagement where the Investment Manager engages in line with the approach and expectations set out in Schroders Engagement Blueprint, which outlines our approach to active ownership. Engagements may cover a range of topics, including supply chains with companies in the retail sector and climate and net zero with the construction and property sectors. These engagements relate to PAIs 4 (Lack of a supplier code of conduct), and 1, 2, 3 and 5 (GHG emissions, Carbon Footprint, GHG intensity of investee company and Share of non-renewable energy consumption and production).

Our approach is subject to ongoing review, particularly as the availability, and quality, of PAI data evolves. The Management Company's statement on principal adverse impacts on sustainability factors is available at <https://api.schroders.com/document-store/id/ffcb39bb-96cb-4e56-9461-deba9a493e85>. The Fund level information is disclosed or will be disclosed (as applicable) in the Fund's annual report.

☐ No

## What investment strategy does this financial product follow?

**The investment strategy** guides investment decisions based on factors such as investment objectives and risk tolerance.

The sustainable investment strategy used by the Investment Manager is as follows:

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of UK companies.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash.

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than the FTSE All Share Total Return index, based on the Investment Manager's rating criteria.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.

Companies in the investment universe are assessed on their governance, environmental and social profile. The Investment Manager performs due diligence on potential holdings and this can include meetings with company management. The Investment Manager aims to identify the impact a business has on society whilst assessing relationships with key stakeholders such as employees, suppliers and regulators. This research is supported by quantitative analysis gained from Schroders' proprietary sustainability tools which are key inputs to assessing how existing and potential investments are meeting the Fund's sustainability criteria.

The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data.

More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the webpage

<https://www.schroders.com/en-lu/lu/individual/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/disclosures-and-statements/>

The Fund maintains a higher overall sustainability score than its investment universe, based on the Investment Manager's rating system.

The Investment Manager ensures that at least:

- 90% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and

– 75% of the portion of the Fund’s NAV composed of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries, is rated against the sustainability criteria.

For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.

● ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

The following binding elements are applied throughout the investment process:

- The Fund maintains a higher overall sustainability score than the FTSE All Share Total Return index based on the Investment Manager’s rating criteria.
- The Fund invests at least 25% of its assets in sustainable investments and such investments do not cause significant environmental or social harm.
- Exclusions are applied to direct investments in companies. The Fund applies certain exclusions relating to international conventions on cluster munitions, antipersonnel mines, and chemical and biological weapons. The Fund also excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal. The Fund excludes companies that are assessed by Schroders to have breached one or more ‘global norms’ thereby causing significant environmental or social harm; these companies comprise Schroders’ ‘global norms’ breach list. In exceptional circumstances a derogation may be applied in order to allow the Fund to continue to hold a company on Schroders’ ‘global norms’ breach list, for example where the stated investment strategy of the Fund may otherwise be compromised. Any such company cannot be categorised as a sustainable investment. Further, the Fund may apply other exclusions as listed under “Sustainability-Related Disclosure” on the Fund’s webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>. The Fund invests in companies that have good governance practices, as determined by the Investment Manager’s rating criteria.

The Investment Manager ensures that at least:

- 90% of the portion of the Fund’s NAV composed of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and
- 75% of the portion of the Fund’s NAV composed of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,

is rated against the sustainability criteria.

● ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

This question is not applicable for the Fund.

● ***What is the policy to assess good governance practices of the investee companies?***

In order to assess good governance practices, a central Good Governance Test is applied. This test is based on a data-driven quantitative framework, which uses a scorecard to assess companies across the categories of sound management structures, employee relations, remuneration of staff, and tax compliance. Schroders has defined a number of criteria across these pillars.

Compliance with the test is monitored centrally and companies which do not pass this test cannot be held by the Fund, unless the Investment Manager has agreed that the issuer demonstrates good governance based on additional insights beyond that quantitative analysis.

**Good governance** practices include sound management structures, employee relations, remuneration of staff and tax compliance.

**Asset allocation** describes the share of investments in specific assets.

## **What is the asset allocation planned for this financial product?**

The planned composition of the Fund’s investments that are used to meet its environmental or social characteristics are summarised below.

**#1 Aligned with E/S characteristics** includes the minimum proportion of the Fund’s assets used to attain the environmental or social characteristics, which is equal to 70%. The Fund commits to maintain a higher overall sustainability score than the FTSE All Share Total Return index, and so the Fund’s investments that are scored by Schroders’ proprietary sustainability tool are included within the minimum proportion stated in #1 on the basis that they will contribute to the Fund’s sustainability score (whether such individual investment has a positive or a negative score). Also included within #1 is the minimum proportion of assets that are invested in sustainable investments, as indicated in #1A. The minimum proportions stated apply in normal market conditions. The actual proportion stated in #1 is expected to be higher.

The Fund will invest at least 25% of its assets in sustainable investments. Each sustainable investment (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool and/ or (ii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. A sustainable investment is classified as having an environmental or social objective depending on whether the relevant issuer has a higher score in Schroders' proprietary tool relative to its applicable peer group for its environmental indicators or its social indicators. In each case, indicators are comprised of both "costs" and "benefits".

**#2 Other** includes cash which is treated as neutral for sustainability purposes, such as Money Market Investments. #2 also includes investments that are not scored by Schroders' proprietary sustainability tool and so do not contribute towards the Fund's sustainability score. As #1 states a minimum proportion that is in practice expected to be higher, the proportion stated in #2 is expected to be lower.

Minimum safeguards are applied where relevant to Money Market Investments and other investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders' credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders' proprietary tool, which supports the analysis of a counterparty's management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders' proprietary tool would lead to further analysis and potential exclusion by Schroders' credit risk team.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

#1 The minimum proportion stated applies in normal market conditions.

### ● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

The Fund may use derivatives that are scored in Schroders' proprietary tool to meet the environmental and/or social characteristics promoted by the Fund, as such derivatives would contribute to the Fund's sustainability score (whether such individual investment has a positive or a negative score).

## To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

There is no minimum extent to which the Fund's investments (including transitional and enabling activities) with an environmental objective are aligned with the Taxonomy. Taxonomy alignment of this Fund's investments has therefore not been calculated and has as a result been deemed to constitute 0% of the Fund's portfolio.

In future it is expected that the Fund will assess and report on the extent to which its underlying investments are in economic activities that qualify as environmentally sustainable under the Taxonomy, along with information relating to the proportion of enabling and transitional activities. This Prospectus will be updated once it is possible in the Investment Manager's opinion to accurately disclose to what extent the Fund's investments are in Taxonomy-aligned environmentally sustainable activities, including the proportions of investments in enabling and transitional activities selected for the Fund.

### ● Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents x% of the total investments<sup>2</sup>.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

### ● What is the minimum share of investments in transitional and enabling activities?

As per the above, at the date of this Prospectus the share of investments by the Fund in transitional and enabling activities is currently deemed to constitute 0% of the Fund's portfolio.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

<sup>2</sup> As there is no Taxonomy-alignment, there is no impact on the graph if sovereign bonds are excluded (i.e. the percentage of Taxonomy-aligned investments remains 0%) and the Management Company therefore believes that there is no need to mention this information.

alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

### What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

The Fund commits to invest at least 1% of its assets in sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

### What is the minimum share of socially sustainable investments?

The Fund commits to invest at least 1% of its assets in sustainable investments with a social objective.

### What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

**#2 Other** includes cash which is treated as neutral for sustainability purposes, such as Money Market Investments. #2 also includes investments that are not scored by Schroders’ proprietary sustainability tools and so do not contribute towards the Fund’s sustainability score.

Minimum safeguards are applied where relevant to Money Market Investments and other investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders’ credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders’ proprietary tool, which supports the analysis of a counterparty’s management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders’ proprietary tool would lead to further analysis and potential exclusion by Schroders’ credit risk team.

### Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

**Reference benchmarks** are indexes to measure whether the financial product attains the

- *How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?*

This question is not applicable for the Fund.

- ***How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?***  
This question is not applicable for the Fund.
- ***How does the designated index differ from a relevant broad market index?***  
This question is not applicable for the Fund.
- ***Where can the methodology used for the calculation of the designated index be found?***  
This question is not applicable for the Fund.

## **Where can I find more product specific information online?**

More product-specific information can be found on the webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** **Schroder International Selection Fund US Dollar Bond**

**Legal entity identifier:** **GB3IPB540X2RMO1Y4781**

## Environmental and/or social characteristics

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### Does this financial product have a sustainable investment objective?

| <input checked="" type="radio"/> <input type="radio"/> <b>Yes</b>                                                        | <input checked="" type="radio"/> <input type="radio"/> <b>No</b>                                                                                                                                                                                      |

## What environmental and/or social characteristics are promoted by this financial product?

The Fund maintains a higher overall sustainability score than the Bloomberg US Aggregate Bond (TR) index, based on the Investment Manager's rating system. This benchmark (which is a broad market index) does not take into account the environmental and social characteristics promoted by the Fund.

The sustainability score is measured by Schroders' proprietary tool that provides an aggregate estimate of the social and environmental costs and benefits that an issuer may create. It does this by scoring the issuer against a list of indicators – scores may be positive (for example, when an issuer pays more than average living wages) or negative (for example, when an issuer emits carbon). It does this using third party data as well as Schroders' own estimates and assumptions and the outcome may differ from other sustainability tools and measures.

The result is expressed as an aggregate score of the sustainability indicators for each issuer, specifically a notional percentage (positive or negative) of sales or GDP of the relevant underlying issuer. For example, a score of +2% would mean that for every \$100 of sales the issuer generates, it would provide a net positive contribution to society and/or the environment of \$2. The sustainability score of the Fund is derived from the scores of all eligible issuers in the Fund's portfolio measured by Schroders' proprietary tool.

The Fund invests at least 10% of its assets in sustainable investments, which are investments that the Investment Manager expects to contribute towards the advancement of one or more environmental and/or social objective (s).

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

### What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?

The Investment Manager monitors compliance with the characteristic to maintain a higher overall sustainability score than the Bloomberg US Aggregate Bond (TR) index by reference to the weighted average sustainability score of the Fund in Schroders' proprietary tool compared against the weighted average sustainability score of the Bloomberg US Aggregate Bond (TR) index in Schroders' proprietary tool over the previous six-month period, based on month-end data. The overall sustainability score aggregates the effect of sustainability indicators including but not limited to greenhouse gas emissions, water usage, and salaries compared to the living wage.

The Investment Manager monitors compliance with the characteristic to invest at least 10% of its assets in sustainable investments by reference to (i) the sustainability score of each asset in Schroders' proprietary tool and/ or (ii) whether the asset is classified as a green, social and/ or sustainable bond and / or (iii) whether an asset is deemed sustainable on an exceptional basis by Schroders. Compliance with this is

monitored daily via our automated compliance controls. The Fund also applies certain exclusions, with which the Investment Manager monitors compliance on an ongoing basis via its portfolio compliance framework.

● ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

In respect of the proportion of the Fund's portfolio that is invested in sustainable investments, each sustainable investment either (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool and/or (ii) is classified as a green, social and/or sustainable bond using a third-party data source and/or (iii) contributes to an environmental and/or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. The environmental or social objectives of the sustainable investments that the Fund partially intends to make may include, but are not limited to, increasing environmental and/or social benefits such as greater water access or fair pay and reducing environmental, and/or social costs such as carbon emissions or food waste. For example, greater water access as measured by Schroders' proprietary tool are the estimated societal benefits of the provision of clean drinking water to human health. The environmental or social objectives of green, social and/or sustainable bonds may include, but are not limited to, climate change mitigation, renewable energy initiatives, natural resource conservation, access to finance and affordable housing projects.

● ***How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?***

The Investment Manager's approach to investing in issuers that do not cause significant harm to any environmental or social sustainable investment objective includes the following:

- Firm-wide investment exclusions apply to Schroders funds. These relate to international conventions on cluster munitions, anti-personnel mines, and chemical and biological weapons and thermal coal mining. Further information and a list of excluded controversial weapons companies is available at <https://www.schroders.com/en/global/individual/about-us/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/group-exclusions/>
- The Fund excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal.
- The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. Schroders' determination of whether a company has been involved in such a breach considers relevant principles such as those contained in the UN Global Compact (UNGC) principles, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. The 'global norms' breach list may be informed by assessments performed by third party providers and by proprietary research, where relevant to a particular situation. In exceptional circumstances a derogation may be applied in order to allow the Fund to continue to hold a company on Schroders' 'global norms' breach list, for example where the stated investment strategy of the Fund may otherwise be compromised. Any such company cannot be categorised as a sustainable investment.
- The Fund may also apply certain other exclusions in addition to those summarised above.

Further information on all of the Fund's investment exclusions is to be found under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

● ***How have the indicators for adverse impacts on sustainability factors been taken into account?***

When seeking to identify significant harm, Schroders' approach to taking into account the Principal Adverse Impacts (PAI) indicators involves a quantitative and a qualitative assessment. Where it is not considered appropriate or feasible to set quantitative thresholds, the Investment Manager engages, where relevant. Investee companies deemed not to satisfy the quantitative thresholds would generally be excluded, unless on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area.

This framework is subject to ongoing review, particularly as the availability and quality of the data evolves.

Our approach includes:

1. **Quantitative:** this includes indicators where specific thresholds have been established:

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- Via the application of exclusions. This approach is relevant to **PAI 4** (Exposure to companies active in the fossil fuel sector), **PAI 5** (Share of non-renewable energy consumption and production) and **PAI 14** (Exposure to controversial weapons). Further, the following PAIs are assessed as part of Schroders' 'global norms' breach list exclusion (which seeks to exclude companies where significant harm is occurring):
  - **PAI 7** (Activities negatively affecting biodiversity-sensitive areas)
  - **PAI 8** (Emissions to water)
  - **PAI 9** (Hazardous waste and radioactive waste ratio)
  - **PAI 10** (Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development Guidelines for Multinational Enterprises)
  - **PAI 11** (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises)
  - **PAI 14** in Table 3 (Number of identified cases of severe human rights issues and incidents)
- Via the application of an alert system flag if the relevant indicator(s) exceeds a threshold. These quantitative thresholds to assess significant harm are established centrally by our Sustainable Investment team and monitored systematically. This approach applies to indicators where we have segmented the population into harm groups to establish a threshold, such as carbon related PAI metrics, **PAI 1** (GHG emissions), **PAI 2** (Carbon footprint) and **Voluntary PAI 4 in Table 2** (Investing in companies without carbon emission reduction initiatives). **PAI 3** (GHG intensity of investee companies) operates in a similar way but the threshold is based on a revenue metric. A threshold for **PAI 6** (Energy consumption intensity per high impact climate sector) is established based on the above-mentioned carbon measures. A similar approach has been taken for **PAI 15** (GHG intensity). **PAI 16** (Investee countries subject to social violations) also operates in the same way but based on data availability regarding social violations. Through this process the relevant issuer(s) that is/are deemed not to satisfy the quantitative thresholds is/are flagged to the Investment Manager for consideration, whose response may involve selling the holdings(s) or maintaining the position if on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area. Investee companies deemed to cause significant harm are excluded from the Fund.
- 2. **Qualitative:** This includes PAI indicators where Schroders' believes that the data available does not enable us to make a quantitative determination regarding whether significant harm is done so as to warrant excluding an investment. In such cases, the Investment Manager engages wherever possible with the company or companies held, in accordance with the priorities documented in Schroders' Engagement Blueprint and/or voting policy. This approach applies to indicators such as **PAI 12** (Unadjusted gender pay gap) and **PAI 13** (Board gender diversity), where we engage and may use our voting rights where we consider appropriate. Both board gender diversity and disclosure of gender pay gap information are captured in our Engagement Blueprint.

● ***How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

Companies on Schroders' 'global norms' breach list cannot be categorised as sustainable investments. Schroders' determination of whether a company should be included on such list considers the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, among other relevant principles. The 'global norms' breach list is informed by third party providers and proprietary research, where relevant.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

*The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.*

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## Does this financial product consider principal adverse impacts on sustainability factors?

☒ Yes.

The Investment Manager's approach to considering principal adverse impacts on sustainability factors differs depending on the relevant indicator. Some indicators are considered via the application of exclusions, some are considered via the investment process (where data is available via Schroders PAI dashboard and via other external data sources) and some are considered via engagement. Further details are provided below.

PAIs are considered as part of pre-investment through the application of exclusions. These include:

- Controversial weapons: PAI 14 (Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)).
- Schroders' 'global norms' breach list, which covers: PAI 7 (Activities negatively affecting biodiversity-sensitive areas), PAI 8 (Emissions to water), PAI 9 (Hazardous waste and radioactive waste ratio), PAI 10 (Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises), PAI 11 (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises) and PAI 14 in Table 3 (Number of identified cases of severe human rights issues and incidents).
- Companies that derive revenues above certain thresholds from activities related to thermal coal: PAI 4 (Exposure to companies active in the fossil fuel sector) and PAI 5 (Share of non-renewable energy consumption and production).

Compliance with these thresholds is monitored via the Investment Manager's portfolio compliance framework. PAIs are also considered through integration in the investment process as Schroders' proprietary tool incorporates several PAIs as a component of its scoring methodology. In assessing an issuer's overall environmental score PAI 1, 2, 3, 4, 5, and 6 are included.

PAIs are also considered post-investment through engagement where the Investment Manager engages in line with the approach and expectations set out in Schroders Engagement Blueprint, which outlines our approach to active ownership. The Investment Manager may engage with selected issuers held by the Fund on PAIs 1, 2, 3 and 4. We aim to engage with several issuers on net zero carbon emissions targets (PAI 1,2), procuring renewable energy (PAI 5).

Our approach is subject to ongoing review, particularly as the availability, and quality, of PAI data evolves. The Management Company's statement on principal adverse impacts on sustainability factors is available at <https://api.schroders.com/document-store/id/ffcb39bb-96cb-4e56-9461-deba9a493e85>. The Fund level information is disclosed or will be disclosed (as applicable) in the Fund's annual report.

☐ No

## What investment strategy does this financial product follow?

**The investment strategy** guides investment decisions based on factors such as investment objectives and risk tolerance.

The sustainable investment strategy used by the Investment Manager is as follows:

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities, including asset-backed securities and mortgage-backed securities, denominated in USD, issued by governments, government agencies and companies worldwide.

The Fund invests in the full credit spectrum of fixed income investments. The Fund may invest:

- up to 40% of its assets directly or indirectly (including via credit default swaps and credit default swap indices) in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds); and
- up to 70% of its assets in asset-backed securities, commercial mortgage-backed securities, and/or residential mortgage-backed securities issued worldwide with an investment grade or sub-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies).

Underlying assets may include credit card receivables, personal loans, auto loans, small business loans, leases, commercial mortgages and residential mortgages.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash.

The Fund may use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently. The Fund may use leverage.

The Fund maintains a higher overall sustainability score than the Bloomberg US Aggregate Bond (TR) index based on the Investment Manager's rating criteria.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.

The strategy aims to identify issuers demonstrating good or improving sustainability credentials, and those that impose a high cost on the environment and society. This involves:

- The exclusion of issuers with certain exposure to specific activities that the Investment Manager considers environmentally destructive or socially damaging, violate human rights and/ or have demonstrated gross misconduct.
- The inclusion of issuers that the Investment Manager considers are well placed to deliver stable and improving sustainability trajectories relative to their peers.

The Investment Manager may also engage with companies to encourage transparency, the transition to a circular economy with lower carbon emissions intensity and responsible social behaviour that promotes sustainable growth and alpha generation.

The primary sources of information used to perform the analysis are the Investment Manager's proprietary tools and research, third-party research, NGO reports and expert networks. The Investment Manager also performs its own analysis of publicly available information provided by the companies, including information provided in company sustainability reports and other relevant company material.

More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the webpage

<https://www.schroders.com/en-lu/lu/individual/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/disclosures-and-statements/>

The Fund maintains a higher overall sustainability score than its investment universe, based on the Investment Manager's rating system.

The Investment Manager ensures that at least:

- 90% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and

- 75% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,

is rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.

● ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

The following binding elements are applied throughout the investment process:

- The Fund maintains a higher overall sustainability score than the Bloomberg US Aggregate Bond (TR) index based on the Investment Manager's rating criteria.
- The Fund invests at least 10% of its assets in sustainable investments and such investments do not cause significant environmental or social harm.
- Exclusions are applied to direct investments in companies. The Fund applies certain exclusions relating to international conventions on cluster munitions, antipersonnel mines, and chemical and biological weapons. The Fund also excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal. The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. In exceptional circumstances a derogation may be applied in order to allow the Fund to continue to hold a company on Schroders' 'global norms' breach list, for example where the stated investment strategy of the Fund may otherwise be compromised. Any such company cannot be categorised as a sustainable investment. Further, the Fund may apply other exclusions as listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>. The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria.

The Investment Manager ensures that at least:

- 90% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and
- 75% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,

is rated against the sustainability criteria.

● ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

This question is not applicable for the Fund.

● ***What is the policy to assess good governance practices of the investee companies?***

In order to assess good governance practices, a central Good Governance Test is applied. This test is based on a data-driven quantitative framework, which uses a scorecard to assess companies across the categories of sound management structures, employee relations, remuneration of staff, and tax compliance. Schroders has defined a number of criteria across these pillars.

**Good governance** practices include sound management structures, employee relations, remuneration of staff and tax compliance.

Compliance with the test is monitored centrally and companies which do not pass this test cannot be held by the Fund, unless the Investment Manager has agreed that the issuer demonstrates good governance based on additional insights beyond that quantitative analysis.

## What is the asset allocation planned for this financial product?

**Asset allocation** describes the share of investments in specific assets.

The planned composition of the Fund's investments that are used to meet its environmental or social characteristics are summarised below.

**#1 Aligned with E/S characteristics** includes the minimum proportion of the Fund's assets used to attain the environmental or social characteristics, which is equal to 60%. The Fund commits to maintain a higher overall sustainability score than the Bloomberg US Aggregate Bond (TR) index, and so the Fund's investments that are scored by Schroders' proprietary sustainability tool are included within the minimum proportion stated in #1 on the basis that they will contribute to the Fund's sustainability score (whether such individual investment has a positive or a negative score). Also included within #1 are any green, social or sustainable bonds that are not scored by Schroders' proprietary sustainability tool. The minimum proportion of assets that are invested in sustainable investments is indicated in #1A. The minimum proportions stated apply in normal market conditions. The actual proportion stated in #1 is expected to be higher.

The Fund will invest at least 10% of its assets in sustainable investments. Each sustainable investment (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool and/ or (ii) is classified as a green, social and/ or sustainable bond using a third-party data source and/ or (iii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. With the exception of any green or social bonds, which will be classified as having an environmental or social objective respectively, a sustainable investment is classified as having an environmental or social objective depending on whether the relevant issuer has a higher score in Schroders' proprietary tool relative to its applicable peer group for its environmental indicators or its social indicators. In each case, indicators are comprised of both "costs" and "benefits".

**#2 Other** includes cash which is treated as neutral for sustainability purposes. #2 also includes other investments that are not scored by Schroders' proprietary sustainability tool and so do not contribute towards the Fund's sustainability score. As #1 states a minimum proportion that is in practice expected to be higher, the proportion stated in #2 is expected to be lower.

Minimum safeguards are applied where relevant to investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders' credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders' proprietary tool, which supports the analysis of a counterparty's management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders' proprietary tool would lead to further analysis and potential exclusion by Schroders' credit risk team.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

#1 The minimum proportion stated applies in normal market conditions.

● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

Single name credit default swaps are used as a proxy for direct investments which would otherwise be held by the Fund in line with its sustainability criteria. Such derivatives are therefore used to attain the Fund's sustainability score in Schroders' proprietary tool which is one of the binding elements of the Fund. The Fund may use other derivatives that are scored in Schroders' proprietary tool to meet the environmental and/or social characteristics promoted by the Fund, as such derivatives would contribute to the Fund's sustainability score (whether such individual investment has a positive or a negative score).

## **To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?**

There is no minimum extent to which the Fund's investments (including transitional and enabling activities) with an environmental objective are aligned with the Taxonomy. Taxonomy alignment of this Fund's investments has therefore not been calculated and has as a result been deemed to constitute 0% of the Fund's portfolio.

In future it is expected that the Fund will assess and report on the extent to which its underlying investments are in economic activities that qualify as environmentally sustainable under the Taxonomy, along with information relating to the proportion of enabling and transitional activities. This Prospectus will be updated once it is possible in the Investment Manager's opinion to accurately disclose to what extent the Fund's investments are in Taxonomy-aligned environmentally sustainable activities, including the proportions of investments in enabling and transitional activities selected for the Fund.

● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>?**

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What is the minimum share of investments in transitional and enabling activities?**

As per the above, at the date of this Prospectus the share of investments by the Fund in transitional and enabling activities is currently deemed to constitute 0% of the Fund's portfolio.

**What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?**

The Fund commits to invest at least 1% of its assets in sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

<sup>2</sup> As there is no Taxonomy-alignment, there is no impact on the graph if sovereign bonds are excluded (i.e. the percentage of Taxonomy-aligned investments remains 0%) and the Management Company therefore believes that there is no need to mention this information.

## What is the minimum share of socially sustainable investments?

The Fund commits to invest at least 1% of its assets in sustainable investments with a social objective.

## What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

**#2 Other** includes cash which is treated as neutral for sustainability purposes. #2 also includes other investments that are not scored by Schroders’ proprietary sustainability tools and so do not contribute towards the Fund’s sustainability score.

Minimum safeguards are applied where relevant to investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders’ credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders’ proprietary tool, which supports the analysis of a counterparty’s management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders’ proprietary tool would lead to further analysis and potential exclusion by Schroders’ credit risk team.

## Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- *How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?*

This question is not applicable for the Fund.

- *How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?*

This question is not applicable for the Fund.

- *How does the designated index differ from a relevant broad market index?*

This question is not applicable for the Fund.

- *Where can the methodology used for the calculation of the designated index be found?*

This question is not applicable for the Fund.

## Where can I find more product specific information online?

More product-specific information can be found on the webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** **Schroder International Selection Fund US Large Cap**

**Legal entity identifier:** **58S8FGQ4I54XKR7MC293**

## Environmental and/or social characteristics

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### Does this financial product have a sustainable investment objective?

| <input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> <b>Yes</b>                    | <input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> <b>No</b>                                                                                                                                                  |

## What environmental and/or social characteristics are promoted by this financial product?

The Fund maintains a higher overall sustainability score than the Standard & Poor's 500 (Net TR) index based on the Investment Manager's rating system. This benchmark (which is a broad market index) does not take into account the environmental and social characteristics promoted by the Fund.

The sustainability score is measured by Schroders' proprietary tool that provides an aggregate estimate of the social and environmental costs and benefits that an issuer may create. It does this by scoring the issuer against a list of indicators – scores may be positive (for example, when an issuer pays more than average living wages) or negative (for example, when an issuer emits carbon). It does this using third party data as well as Schroders' own estimates and assumptions and the outcome may differ from other sustainability tools and measures.

The result is expressed as an aggregate score of the sustainability indicators for each issuer, specifically a notional percentage (positive or negative) of sales or GDP of the relevant underlying issuer. For example, a score of +2% would mean that for every \$100 of sales the issuer generates, it would provide a net positive contribution to society and/or the environment of \$2. The sustainability score of the Fund is derived from the scores of all eligible issuers in the Fund's portfolio measured by Schroders' proprietary tool.

The Fund invests at least 25% of its assets in sustainable investments, which are investments that the Investment Manager expects to contribute towards the advancement of one or more environmental and/or social objective (s).

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

### What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?

The Investment Manager monitors compliance with the characteristic to maintain a higher overall sustainability score than the Standard & Poor's 500 (Net TR) Lagged index\* by reference to the weighted average sustainability score of the Fund in Schroders' proprietary tool compared against the weighted average sustainability score of the Standard & Poor's 500 (Net TR) index in Schroders' proprietary tool over the previous six month period, based on month-end data. The overall sustainability score aggregates the effect of sustainability indicators including but not limited to greenhouse gas emissions, water usage, and salaries compared to the living wage.

The Investment Manager monitors compliance with the characteristic to invest at least 25% of its assets in sustainable investments by reference to (i) the sustainability score of each asset in Schroders' proprietary tool and/or (ii) whether an asset is deemed sustainable on an exceptional basis by Schroders. Compliance with this is monitored daily via our automated compliance controls.

The Fund also applies certain exclusions, with which the Investment Manager monitors compliance on an ongoing basis via its portfolio compliance framework.

● ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

In respect of the proportion of the Fund's portfolio that is invested in sustainable investments, each sustainable investment either (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool and/or (ii) contributes to an environmental and/or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. The environmental or social objectives of the sustainable investments that the Fund partially intends to make may include, but are not limited to, increasing environmental and/or social benefits such as greater water access or fair pay and reducing environmental, and/or social costs such as carbon emissions or food waste. For example, greater water access as measured by Schroders' proprietary tool are the estimated societal benefits of the provision of clean drinking water to human health.

● ***How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?***

The Investment Manager's approach to investing in issuers that do not cause significant harm to any environmental or social sustainable investment objective includes the following:

- Firm-wide investment exclusions apply to Schroders funds. These relate to international conventions on cluster munitions, anti-personnel mines, and chemical and biological weapons and thermal coal mining. Further information and a list of excluded controversial weapons companies is available at <https://www.schroders.com/en/global/individual/about-us/what-we-do/sustainable-investing/oursustainable-investment-policies-disclosures-voting-reports/group-exclusions/>
- The Fund excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal.
- The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. Schroders' determination of whether a company has been involved in such a breach considers relevant principles such as those contained in the UN Global Compact (UNGC) principles, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. The 'global norms' breach list may be informed by assessments performed by third party providers and by proprietary research, where relevant to a particular situation. In exceptional circumstances a derogation may be applied in order to allow the Fund to continue to hold a company on Schroders' 'global norms' breach list, for example where the stated investment strategy of the Fund may otherwise be compromised. Any such company cannot be categorised as a sustainable investment.
- The Fund may also apply certain other exclusions in addition to those summarised above.

Further information on all of the Fund's investment exclusions is to be found under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>.

● ***How have the indicators for adverse impacts on sustainability factors been taken into account?***

When seeking to identify significant harm, Schroders' approach to taking into account the Principal Adverse Impacts (PAI) indicators involves a quantitative and a qualitative assessment. Where it is not considered appropriate or feasible to set quantitative thresholds, the Investment Manager engages, where relevant, investee companies deemed not to satisfy the quantitative thresholds would generally be excluded, unless on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area.

This framework is subject to ongoing review, particularly as the availability and quality of the data evolves.

Our approach includes:

1. **Quantitative:** this includes indicators where specific thresholds have been established:

- Via the application of exclusions. This approach is relevant to **PAI 4** (Exposure to companies active in the fossil fuel sector), **PAI 5** (Share of non-renewable energy consumption and production) and **PAI 14** (Exposure to controversial weapons). Further, the following PAIs are assessed as part of Schroders 'global norms' breach list exclusion (which seeks to exclude companies where significant harm is occurring):
  - **PAI 7** (Activities negatively affecting biodiversity-sensitive areas)
  - **PAI 8** (Emissions to water)

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- **PAI 9** (Hazardous waste and radioactive waste ratio)
- **PAI 10** (Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development Guidelines for Multinational Enterprises)
- **PAI 11** (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises)
- **PAI 14** in Table 3 (Number of identified cases of severe human rights issues and incidents)
- Via the application of an alert system flag if the relevant indicator(s) exceeds a threshold. These quantitative thresholds to assess significant harm are established centrally by our Sustainable Investment team and monitored systematically. This approach applies to indicators where we have segmented the population into harm groups to establish a threshold, such as carbon related PAI metrics, **PAI 1** (GHG emissions), **PAI 2** (Carbon footprint) and **Voluntary PAI 4 in Table 2** (Investing in companies without carbon emission reduction initiatives). **PAI 3** (GHG intensity of investee companies) operates in a similar way but the threshold is based on a revenue metric. A threshold for **PAI 6** (Energy consumption intensity per high impact climate sector) is established based on the above-mentioned carbon measures. A similar approach has been taken for **PAI 15** (GHG intensity). **PAI 16** (Investee countries subject to social violations) also operates in the same way but based on data availability regarding social violations. Through this process the relevant issuer(s) that is/are deemed not to satisfy the quantitative thresholds is/are flagged to the Investment Manager for consideration, whose response may involve selling the holdings(s) or maintaining the position if on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area. Investee companies deemed to cause significant harm are excluded from the Fund.
- 2. **Qualitative:** This includes PAI indicators where Schroders' believes that the data available does not enable us to make a quantitative determination regarding whether significant harm is done so as to warrant excluding an investment. In such cases, the Investment Manager engages wherever possible with the company or companies held, in accordance with the priorities documented in Schroders' Engagement Blueprint and/or voting policy. This approach applies to indicators such as **PAI 12** (Unadjusted gender pay gap) and **PAI 13** (Board gender diversity), where we engage and may use our voting rights where we consider appropriate. Both board gender diversity and disclosure of gender pay gap information are captured in our Engagement Blueprint.

● ***How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

Companies on Schroders' 'global norms' breach list cannot be categorised as sustainable investments. Schroders' determination of whether a company should be included on such list considers the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, among other relevant principles. The 'global norms' breach list is informed by third party providers and proprietary research, where relevant.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

*The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.*

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## Does this financial product consider principal adverse impacts on sustainability factors?

☒ Yes.

The Investment Manager's approach to considering principal adverse impacts on sustainability factors differs depending on the relevant indicator. Some indicators are considered via the application of exclusions, some are considered via the investment process (where data is available via Schroders PAI dashboard and via other external data sources) and some are considered via engagement. Further details are provided below.

PAIs are considered as part of pre-investment through the application of exclusions. These include:

- Controversial weapons: PAI 14 (Exposure to controversial weapons, such as anti-personnel mines, cluster munitions, chemical weapons and biological weapons)
- Schroders' 'global norms' breach list, which covers: PAI 7 (Activities negatively affecting biodiversity-sensitive areas), PAI 8 (Emissions to water), PAI 9 (Hazardous waste and radioactive waste ratio), PAI 10 (Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises), PAI 11 (Lack

of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises) and PAI 14 in Table 3 (Number of identified cases of severe human rights issues and incidents).

- Companies that derive revenues above certain thresholds from activities related to thermal coal: PAI 4 (Exposure to companies active in the fossil fuel sector) and PAI 5 (Share of non-renewable energy consumption and production)

Compliance with these thresholds is monitored via the Investment Manager's portfolio compliance framework.

PAIs are also considered through integration in the investment process. As part of the investment process, Schroders' proprietary tool is used which incorporates several PAIs as a component of its scoring methodology. For example, PAI 2, 3, 4, 5, 6 (Greenhouse gas emissions) and PAI 4 from Annex 1 Table 2 (Investments in companies without carbon emission reduction initiatives) are included as part of a company's overall environmental score. These PAIs, amongst others, are embedded with

in our investment process, informing our view on business risk and long-term growth drivers. PAI 13 (Board gender diversity) is also considered as part of our assessment of management quality and company strategy. PAI 6, PAI 4 from Annex 1 Table 2 and PAI 14 from Annex 1 Table 3 (Number of identified cases of severe human rights issues and incidents) are considered relative to industry peers and poor performance issuers on these metrics/ indicators receive higher risk scores in our assessment and form the basis of our engagement activities.

All PAI indicators are monitored via Schroders' PAI dashboard.

PAIs are also considered post-investment through engagement where the Investment Manager engages in line with the approach and expectations set out in the Schroders Engagement Blueprint, which outlines our approach to active ownership.

Where issuers are flagged on lack of data availability for any PAIs, the Investment Manager may engage with issuers where the primary focus is to increase reporting.

Our approach is subject to ongoing review, particularly as the availability, and quality, of PAI data evolves. The Management Company's statement on principal adverse impacts on sustainability factors is available at <https://api.schroders.com/document-store/id/ffcb39bb-96cb-4e56-9461-deba9a493e85>. The Fund level information is disclosed or will be disclosed (as applicable) in the Fund's annual report.

☐ No

## What investment strategy does this financial product follow?

**The investment strategy** guides investment decisions based on factors such as investment objectives and risk tolerance.

The sustainable investment strategy used by the Investment Manager is as follows:

The Fund is actively managed and invests at least two-thirds of its assets in the equity and equity related securities of large-sized US companies. Large-sized companies are companies which, at the time of purchase, are considered to be in the top 85% by market capitalisation of the US equities market.

The Fund may invest in the equity securities of non-US companies provided they are listed on one of the major North American stock exchanges.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than the Standard & Poor's 500 (Net TR) index based on the Investment Manager's rating criteria.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.

The Investment Manager evaluates issuers against a range of environmental, social and governance factors in order to decide whether an issuer is eligible for the Fund's portfolio. This analysis is performed by global sector specialists and local analyst teams and is supported by Schroders' dedicated Sustainable Investment team. The Investment Manager uses Schroders' proprietary sustainability tools to provide a baseline assessment that contributes to the overall ESG appraisal of a company. Additionally, meetings with company management inform the Investment Manager's view, providing further insights on corporate culture and senior management commitment to corporate social responsibility. While it is not necessary for every investment selected to exhibit positive ESG characteristics, the Investment Manager will ensure that in aggregate, the portfolio demonstrates a positive score relative to the benchmark specified in the investment policy.

More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the webpage <https://www.schroders.com/en-lu/lu/individual/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/disclosures-and-statements/>

The Fund maintains a higher overall sustainability score than its investment universe, based on the Investment Manager's rating system.

The Investment Manager ensures that at least:

90% of the portion of the NAV composed of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and

75% of the portion of the NAV composed of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,

is rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.

● **What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?**

The following binding elements are applied throughout the investment process:

- The Fund maintains a higher overall sustainability score than the Standard & Poor's 500 (Net TR) index based on the Investment Manager's rating criteria.
- The Fund invests at least 25% of its assets in sustainable investments and such investments do not cause significant environmental or social harm.
- Exclusions are applied to direct investments in companies. The Fund applies certain exclusions relating to international conventions on cluster munitions, antipersonnel mines, and chemical and biological weapons. The Fund also excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal. The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. In exceptional circumstances a derogation may be applied in order to allow the Fund to continue to hold a company on Schroders' 'global norms' breach list, for example where the stated investment strategy of the Fund may otherwise be compromised. Any such company cannot be categorised as a sustainable investment. Further, the Fund may apply other exclusions as listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>.
- The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria.

The Investment Manager ensures that at least:

- 90% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and
- 75% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,

is rated against the sustainability criteria.

● **What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?**

This question is not applicable for the Fund.

● **What is the policy to assess good governance practices of the investee companies?**

In order to assess good governance practices, a central Good Governance Test is applied. This test is based on a data-driven quantitative framework, which uses a scorecard to assess companies across the categories of sound management structures, employee relations, remuneration of staff, and tax compliance. Schroders has defined a number of criteria across these pillars.

Compliance with the test is monitored centrally and companies which do not pass this test cannot be held by the Fund, unless the Investment Manager has agreed that the issuer demonstrates good governance based on additional insights beyond that quantitative analysis.

**Good governance** practices include sound management structures, employee relations, remuneration of staff and tax compliance.

**Asset allocation** describes the share of investments in specific assets.

## What is the asset allocation planned for this financial product?

The planned composition of the Fund's investments that are used to meet its environmental or social characteristics are summarised below.

**#1 Aligned with E/S characteristics** includes the minimum proportion of the Fund's assets used to attain the environmental or social characteristics, which is equal to 70%. The Fund commits to maintain a higher overall sustainability score than the Standard & Poor's 500 (Net TR) index, and so the Fund's investments that are scored by Schroders' proprietary sustainability tool are included within the minimum proportion stated in #1 on the basis that they will contribute to the Fund's sustainability score (whether such individual investment has a

positive or a negative score). Also included within #1 is the minimum proportion of assets that are invested in sustainable investments, as indicated in #1A. The minimum proportions stated apply in normal market conditions. The actual proportion stated in #1 is expected to be higher. The Fund will invest at least 25% of its assets in sustainable investments. Each sustainable investment (i) demonstrates a net positive effect across a range of environmental or social objectives, as measured by Schroders' proprietary tool and/or (ii) contributes to an environmental and/or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. A sustainable investment is classified as having an environmental or social objective depending on whether the relevant issuer has a higher score in Schroders' proprietary tool relative to its applicable peer group for its environmental indicators or its social indicators. In each case, indicators are comprised of both "costs" and "benefits".

**#2 Other** includes cash which is treated as neutral for sustainability purposes. #2 also includes investments that are not scored by Schroders' proprietary sustainability tool and so do not contribute towards the Fund's sustainability score. As #1 states a minimum proportion that is in practice expected to be higher, the proportion stated in #2 is expected to be lower.

Minimum safeguards are applied where relevant to Money Market Investments and other investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders' credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders' proprietary tool, which supports the analysis of a counterparty's management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders' proprietary tool would lead to further analysis and potential exclusion by Schroders' credit risk team.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

#1 The minimum proportion stated applies in normal market conditions.

### ● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

The Fund may use derivatives that are scored in Schroders' proprietary tool to meet the environmental and/or social characteristics promoted by the Fund, as such derivatives would contribute to the Fund's sustainability score (whether such individual investment has a positive or a negative score).

## To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

There is no minimum extent to which the Fund's investments (including transitional and enabling activities) with an environmental objective are aligned with the Taxonomy. Taxonomy alignment of this Fund's investments has therefore not been calculated and has as a result been deemed to constitute 0% of the Fund's portfolio.

In future it is expected that the Fund will assess and report on the extent to which its underlying investments are in economic activities that qualify as environmentally sustainable under the Taxonomy, along with information relating to the proportion of enabling and transitional activities. This Prospectus will be updated once it is possible in the Investment Manager's opinion to accurately disclose to what extent the Fund's investments are in Taxonomy-aligned environmentally sustainable activities, including the proportions of investments in enabling and transitional activities selected for the Fund.

### ● Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>2</sup>?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents x% of the total investments<sup>2</sup>.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

### ● What is the minimum share of investments in transitional and enabling activities?

As per the above, at the date of this Prospectus the share of investments by the Fund in transitional and enabling activities is currently deemed to constitute 0% of the Fund's portfolio.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon

<sup>2</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

<sup>2</sup> As there is no Taxonomy-alignment, there is no impact on the graph if sovereign bonds are excluded (i.e. the percentage of Taxonomy-aligned investments remains 0%) and the Management Company therefore believes that there is no need to mention this information.

alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

**What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?**

The Fund commits to invest at least 1% of its assets in sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

**What is the minimum share of socially sustainable investments?**

The Fund commits to invest at least 1% of its assets in sustainable investments with a social objective.

**What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?**

**#2 Other** includes cash which is treated as neutral for sustainability purposes. #2 also includes investments that are not scored by Schroders’ proprietary sustainability tools and so do not contribute towards the Fund’s sustainability score.

Minimum safeguards are applied where relevant to Money Market Investments and other investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders’ credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders’ proprietary tool, which supports the analysis of a counterparty’s management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders’ proprietary tool would lead to further analysis and potential exclusion by Schroders’ credit risk team.

**Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?**

- *How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?*

This question is not applicable for the Fund.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?***

This question is not applicable for the Fund.

- ***How does the designated index differ from a relevant broad market index?***

This question is not applicable for the Fund.

- ***Where can the methodology used for the calculation of the designated index be found?***

This question is not applicable for the Fund.

## **Where can I find more product specific information online?**

More product-specific information can be found on the webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** **Schroder International Selection Fund US Small & Mid-Cap Equity**

**Legal entity identifier:** **9NVHRLTYJON1ZJWFO660**

## Environmental and/or social characteristics

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### Does this financial product have a sustainable investment objective?

| <input checked="" type="radio"/> <input type="radio"/> <b>Yes</b>                                                        | <input checked="" type="radio"/> <input type="radio"/> <b>No</b>                                                                                                                                                                                      |

## What environmental and/or social characteristics are promoted by this financial product?

The Fund maintains a higher overall sustainability score than the S&P Mid Cap 400 Lagged (Net TR) Index, based on the Investment Manager's rating system. This benchmark (which is a broad market index) does not take into account the environmental and social characteristics promoted by the Fund.

The sustainability score is measured by Schroders' proprietary tool that provides an aggregate estimate of the social and environmental costs and benefits that an issuer may create. It does this by scoring the issuer against a list of indicators – scores may be positive (for example, when an issuer pays more than average living wages) or negative (for example, when an issuer emits carbon). It does this using third party data as well as Schroders' own estimates and assumptions and the outcome may differ from other sustainability tools and measures.

The result is expressed as an aggregate score of the sustainability indicators for each issuer, specifically a notional percentage (positive or negative) of sales or GDP of the relevant underlying issuer. For example, a score of +2% would mean that for every \$100 of sales the issuer generates, it would provide a net positive contribution to society and/or the environment of \$2. The sustainability score of the Fund is derived from the scores of all eligible issuers in the Fund's portfolio measured by Schroders' proprietary tool.

The Fund invests at least 25% of its assets in sustainable investments, which are investments that the Investment Manager expects to contribute towards the advancement of one or more environmental and/or social objective (s).

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

### What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?

The Investment Manager monitors compliance with the characteristic to maintain a higher overall sustainability score than the S&P Mid Cap 400 Lagged (Net TR) Index by reference to the weighted average sustainability score of the Fund in Schroders' proprietary tool compared against the weighted average sustainability score of the S&P Mid Cap 400 Lagged (Net TR) Index in Schroders' proprietary tool over the previous six month period, based on month-end data. The overall sustainability score aggregates the effect of sustainability indicators including but not limited to greenhouse gas emissions, water usage, and salaries compared to the living wage.

The Investment Manager monitors compliance with the characteristic to invest at least 25% of its assets in sustainable investments by reference to (i) the sustainability score of each asset in Schroders' proprietary tool and / or (ii) whether an asset is deemed sustainable on an exceptional basis by Schroders.

Compliance with this is monitored daily via our automated compliance controls. The Fund also applies certain exclusions, with which the Investment Manager monitors compliance on an ongoing basis via its portfolio compliance framework.

● ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

In respect of the proportion of the Fund's portfolio that is invested in sustainable investments, each sustainable investment either (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool and/ or (ii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. The environmental or social objectives of the sustainable investments that the Fund partially intends to make may include, but are not limited to, increasing environmental and/or social benefits such as greater water access or fair pay and reducing environmental, and/or social costs such as carbon emissions or food waste. For example, greater water access as measured by Schroders' proprietary tool are the estimated societal benefits of the provision of clean drinking water to human health.

● ***How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?***

The Investment Manager's approach to investing in issuers that do not cause significant harm to any environmental or social sustainable investment objective includes the following:

- Firm-wide investment exclusions apply to Schroders funds. These relate to international conventions on cluster munitions, anti-personnel mines, and chemical and biological weapons and thermal coal mining. Further information and a list of excluded controversial weapons companies is available at <https://www.schroders.com/en/global/individual/about-us/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/group-exclusions/>
- The Fund excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal.
- The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. Schroders' determination of whether a company has been involved in such a breach considers relevant principles such as those contained in the UN Global Compact (UNGC) principles, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. The 'global norms' breach list may be informed by assessments performed by third party providers and by proprietary research, where relevant to a particular situation. In exceptional circumstances a derogation may be applied in order to allow the Fund to continue to hold a company on Schroders' 'global norms' breach list, for example where the stated investment strategy of the Fund may otherwise be compromised. Any such company cannot be categorised as a sustainable investment.
- The Fund may also apply certain other exclusions in addition to those summarised above.

Further information on all of the Fund's investment exclusions is to be found under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

● ***How have the indicators for adverse impacts on sustainability factors been taken into account?***

When seeking to identify significant harm, Schroders' approach to taking into account the Principal Adverse Impacts (PAI) indicators involves a quantitative and a qualitative assessment. Where it is not considered appropriate or feasible to set quantitative thresholds, the Investment Manager engages, where relevant. Investee companies deemed not to satisfy the quantitative thresholds would generally be excluded, unless on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area.

This framework is subject to ongoing review, particularly as the availability and quality of the data evolves.

Our approach includes:

1. **Quantitative:** this includes indicators where specific thresholds have been established:
  - Via the application of exclusions. This approach is relevant to **PAI 4** (Exposure to companies active in the fossil fuel sector), **PAI 5** (Share of non-renewable energy consumption and production) and **PAI 14** (Exposure to controversial weapons). Further, the following PAIs are assessed as part of Schroders 'global norms' breach list exclusion (which seeks to exclude companies where significant harm is occurring):
    - **PAI 7** (Activities negatively affecting biodiversity-sensitive areas)

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- **PAI 8** (Emissions to water)
- **PAI 9** (Hazardous waste and radioactive waste ratio)
- **PAI 10** (Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development Guidelines for Multinational Enterprises)
- **PAI 11** (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises)
- **PAI 14** in Table 3 (Number of identified cases of severe human rights issues and incidents)

Via the application of an alert system flag if the relevant indicator(s) exceeds a threshold. These quantitative thresholds to assess significant harm are established centrally by our Sustainable Investment team and monitored systematically. This approach applies to indicators where we have segmented the population into harm groups to establish a threshold, such as carbon related PAI metrics, **PAI 1** (GHG emissions), **PAI 2** (Carbon footprint) and **Voluntary PAI 4 in Table 2** (Investing in companies without carbon emission reduction initiatives). **PAI 3** (GHG intensity of investee companies) operates in a similar way but the threshold is based on a revenue metric. A threshold for **PAI 6** (Energy consumption intensity per high impact climate sector) is established based on the above-mentioned carbon measures. A similar approach has been taken for **PAI 15** (GHG intensity). **PAI 16** (Investee countries subject to social violations) also operates in the same way but based on data availability regarding social violations. Through this process the relevant issuer(s) that is/are deemed not to satisfy the quantitative thresholds is/are flagged to the Investment Manager for consideration, whose response may involve selling the holdings(s) or maintaining the position if on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area. Investee companies deemed to cause significant harm are excluded from the Fund. **2. Qualitative:** This includes PAI indicators where Schroders' believes that the data available does not enable us to make a quantitative determination regarding whether significant harm is done so as to warrant excluding an investment. In such cases, the Investment Manager engages wherever possible with the company or companies held, in accordance with the priorities documented in Schroders' Engagement Blueprint and/or voting policy. This approach applies to indicators such as **PAI 12** (Unadjusted gender pay gap) and **PAI 13** (Board gender diversity), where we engage and may use our voting rights where we consider appropriate. Both board gender diversity and disclosure of gender pay gap information are captured in our Engagement Blueprint.

#### ● *How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Companies on Schroders' 'global norms' breach list cannot be categorised as sustainable investments. Schroders' determination of whether a company should be included on such list considers the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, among other relevant principles. The 'global norms' breach list is informed by third party providers and proprietary research, where relevant.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

*The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.*

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## Does this financial product consider principal adverse impacts on sustainability factors?

☒ Yes.

The Investment Manager's approach to considering principal adverse impacts on sustainability factors differs depending on the relevant indicator. Some indicators are considered via the application of exclusions, some are considered via the investment process (where data is available via Schroders PAI dashboard and via other external data sources) and some are considered via engagement. Further details are provided below. PAIs are considered as part of pre-investment through the application of exclusions. These include:

- Controversial weapons: **PAI 14** (Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons))
- Schroders' 'global norms' breach list, which covers: **PAI 7** (Activities negatively affecting biodiversity-sensitive areas), **PAI 8** (Emissions to water), **PAI 9** (Hazardous waste and radioactive waste ratio), **PAI 10** (Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises), **PAI 11** (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for

Multinational Enterprises) and PAI 14 in Table 3 (Number of identified cases of severe human rights issues and incidents).

- Companies that derive revenues above certain thresholds from activities related to thermal coal: PAI 4 (Exposure to companies active in the fossil fuel sector) and PAI 5 (Share of non-renewable energy consumption and production)

Compliance with these thresholds is monitored via the Investment Manager's portfolio compliance framework. PAIs are also considered through integration in the investment process. As part of the investment process, Schroders' proprietary tool is used which incorporates several PAIs as a component of its scoring methodology. All PAI indicators are monitored via Schroders PAI dashboard.

A sustainable investment analyst within the investment team regularly considers the Fund's PAI indicators on behalf of the team via Schroders PAI dashboard. The PAI data is reviewed on a monthly basis and adverse impacts of PAIs relevant to our strategy which may be of concern are flagged.

PAIs are also considered post-investment through engagement where the Investment Manager engages in line with the approach and expectations set out in Schroders Engagement Blueprint, which outlines our approach to active ownership.

The investment team's experience and knowledge about companies' histories including the establishment of strong relationships with company management teams allow us to undertake constructive and effective engagements on PAIs.

The investment team holds approximately 600 company meetings a year with a focus on the long-term viability of the company's business model, financials and governance. We typically engage on PAI 1 GHG emissions, PAI 2 Carbon Footprint, PAI 8 Emissions to water, PAI 12 Gender pay gap and PAI 13 Board gender diversity.

We have developed a voting policy in partnership with our corporate governance team. Our team takes all opinions into account, but our analyst makes the ultimate decision regarding how we vote.

Our approach is subject to ongoing review, particularly as the availability, and quality, of PAI data evolves. The Management Company's statement on principal adverse impacts on sustainability factors is available at <https://api.schroders.com/document-store/id/ffcb39bb-96cb-4e56-9461-deba9a493e85><https://api.schroders.com/document-store/id/ffcb39bb-96cb-4e56-9461-deba9a493e85>. The Fund level information is disclosed or will be disclosed (as applicable) in the Fund's annual report.

☐ No

## What investment strategy does this financial product follow?

**The investment strategy** guides investment decisions based on factors such as investment objectives and risk tolerance.

The sustainable investment strategy used by the Investment Manager is as follows:

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of small and mid-sized US companies. These are companies which, at the time of purchase, are considered to be in the bottom 40% by market capitalisation of the US equities market.

The Fund invests in a broad range of small and mid-sized US companies. The investment approach focuses on three types of US companies: companies that the Investment Manager believes demonstrate strong growth trends and improving levels of cash; companies which the Investment Manager believes generate dependable earnings and revenues; and companies that the Investment Manager believes are undergoing positive change that is not being recognised by the market. By doing so, the Investment Manager believes that we can reduce overall risk and improve returns for our investors over the medium to long term.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash.

The Fund may use derivatives with aim of reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than the S&P Mid Cap 400 Lagged (Net TR) Index, based on the Investment Manager's rating criteria.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund. Companies in the investment universe are assessed on their governance, environmental and social profile, across a range of factors.

The Investment Manager performs its own due diligence on potential holdings including, where possible, meetings with senior management. The Investment Manager analyses information provided by the companies, including information provided in company sustainability reports and other relevant company material. The Investment Manager will also scrutinise other disclosures, including third party reports, and will typically engage with the company during the assessment process and afterwards if the company is selected for the portfolio.

This assessment is supported by quantitative analysis from Schroders' proprietary sustainability tools. Through such tools, analysts are able to compare companies based on the metrics selected, their own company assessment scores or adjusted rankings (size, sector or region), with the flexibility to make company specific adjustments to reflect their detailed knowledge.

More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the webpage

<https://www.schroders.com/en-lu/lu/individual/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/disclosures-and-statements/>

The Fund maintains a higher overall sustainability score than its investment universe, based on the Investment Manager's rating system.

The Investment Manager ensures that at least:

- 90% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and

- 75% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,

is rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.

● ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

The following binding elements are applied throughout the investment process:

- The Fund maintains a higher overall sustainability score than the S&P Mid Cap 400 Lagged (Net TR) Index based on the Investment Manager's rating criteria.
- The Fund invests at least 25% of its assets in sustainable investments and such investments do not cause significant environmental or social harm.
- Exclusions are applied to direct investments in companies. The Fund applies certain exclusions relating to international conventions on cluster munitions, antipersonnel mines, and chemical and biological weapons. The Fund also excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal. The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. In exceptional circumstances a derogation may be applied in order to allow the Fund to continue to hold a company on Schroders' 'global norms' breach list, for example where the stated investment strategy of the Fund may otherwise be compromised. Any such company cannot be categorised as a sustainable investment. Further, the Fund may apply other exclusions as listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria.

The Investment Manager ensures that at least:

- 90% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and
- 75% of the portion of the Fund's NAV composed of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,

is rated against the sustainability criteria.

● ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

This question is not applicable for the Fund.

● ***What is the policy to assess good governance practices of the investee companies?***

In order to assess good governance practices, a central Good Governance Test is applied. This test is based on a data-driven quantitative framework, which uses a scorecard to assess companies across the categories of sound management structures, employee relations, remuneration of staff, and tax compliance. Schroders has defined a number of criteria across these pillars.

Compliance with the test is monitored centrally and companies which do not pass this test cannot be held by the Fund, unless the Investment Manager has agreed that the issuer demonstrates good governance based on additional insights beyond that quantitative analysis.

**Good governance** practices include sound management structures, employee relations, remuneration of staff and tax compliance.

## What is the asset allocation planned for this financial product?

**Asset allocation** describes the share of investments in specific assets.

The planned composition of the Fund's investments that are used to meet its environmental or social characteristics are summarised below.

**#1 Aligned with E/S characteristics** includes the minimum proportion of the Fund's assets used to attain the environmental or social characteristics, which is equal to 70%. The Fund commits to maintain a higher overall sustainability score than the S&P Mid Cap 400 Lagged (Net TR) Index, and so the Fund's investments that are scored by Schroders' proprietary sustainability tool are included within the minimum proportion stated in #1 on the basis that they will contribute to the Fund's sustainability score (whether such individual investment has a positive or a negative score). Also included within #1 is the minimum proportion of assets that are invested in sustainable investments, as indicated in #1A. The minimum proportions stated apply in normal market conditions. The actual proportion stated in #1 is expected to be higher.

The Fund will invest at least 25% of its assets in sustainable investments. Each sustainable investment (i) demonstrates a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool and/ or (ii) contributes to an environmental and/ or a social objective such that it is deemed sustainable on an exceptional basis by Schroders. A sustainable investment is classified as having an environmental or social objective depending on whether the relevant issuer has a higher score in Schroders' proprietary tool relative to its applicable peer group for its environmental indicators or its social indicators. In each case, indicators are comprised of both "costs" and "benefits".

**#2 Other** includes cash which is treated as neutral for sustainability purposes, such as Money Market Investments. #2 also includes investments that are not scored by Schroders' proprietary sustainability tool and so do not contribute towards the Fund's sustainability score. As #1 states a minimum proportion that is in practice expected to be higher, the proportion stated in #2 is expected to be lower.

Minimum safeguards are applied where relevant to Money Market Investments and other investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders' credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders' proprietary tool, which supports the analysis of a counterparty's management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders' proprietary tool would lead to further analysis and potential exclusion by Schroders' credit risk team.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

#1 The minimum proportion stated applies in normal market conditions.

● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

The Fund may use derivatives that are scored in Schroders' proprietary tool to meet the environmental and/or social characteristics promoted by the Fund, as such derivatives would contribute to the Fund's sustainability score (whether such individual investment has a positive or a negative score).

**To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?**

There is no minimum extent to which the Fund's investments (including transitional and enabling activities) with an environmental objective are aligned with the Taxonomy. Taxonomy alignment of this Fund's investments has therefore not been calculated and has as a result been deemed to constitute 0% of the Fund's portfolio.

In future it is expected that the Fund will assess and report on the extent to which its underlying investments are in economic activities that qualify as environmentally sustainable under the Taxonomy, along with information relating to the proportion of enabling and transitional activities. This Prospectus will be updated once it is possible in the Investment Manager's opinion to accurately disclose to what extent the Fund's investments are in Taxonomy-aligned environmentally sustainable activities, including the proportions of investments in enabling and transitional activities selected for the Fund.

● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>?**

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

**1. Taxonomy-alignment of investments including sovereign bonds\***

**2. Taxonomy-alignment of investments excluding sovereign bonds\***

This graph represents x% of the total investments<sup>2</sup>.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

<sup>2</sup> As there is no Taxonomy-alignment, there is no impact on the graph if sovereign bonds are excluded (i.e. the percentage of Taxonomy-aligned investments remains 0%) and the Management Company therefore believes that there is no need to mention this information.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What is the minimum share of investments in transitional and enabling activities?**

As per the above, at the date of this Prospectus the share of investments by the Fund in transitional and enabling activities is currently deemed to constitute 0% of the Fund’s portfolio.

**What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?**

The Fund commits to invest at least 1% of its assets in sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

**What is the minimum share of socially sustainable investments?**

The Fund commits to invest at least 1% of its assets in sustainable investments with a social objective.

**What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?**

**#2 Other** includes cash which is treated as neutral for sustainability purposes. #2 also includes investments that are not scored by Schroders’ proprietary sustainability tools and so do not contribute towards the Fund’s sustainability score.

Minimum safeguards are applied where relevant to Money Market Investments and other investments by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders’ credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders’ proprietary tool, which supports the analysis of a counterparty’s management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders’ proprietary tool would lead to further analysis and potential exclusion by Schroders’ credit risk team.

## Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- *How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?*

This question is not applicable for the Fund.

- *How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?*

This question is not applicable for the Fund.

- *How does the designated index differ from a relevant broad market index?*

This question is not applicable for the Fund.

- *Where can the methodology used for the calculation of the designated index be found?*

This question is not applicable for the Fund.

## Where can I find more product specific information online?

More product-specific information can be found on the webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

Pre-contractual disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

**Product name:** **Schroder International Selection Fund US Smaller Companies Impact**

**Legal entity identifier:** **RHJGQ85DVCNQ0T8OGL26**

## Sustainable investment objective

|                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

The Fund commits to invest at least 90% of its assets in sustainable investments. Within this overall commitment, there is a minimum commitment to invest at least 10% of its assets in sustainable investments with an environmental objective and at least 10% of its assets in sustainable investments with a social objective.

## What is the sustainable investment objective of this financial product?

The Fund's sustainable investment objective is to invest its assets in small-sized US companies that the Investment Manager expects to contribute positive impact by advancing an environmental or social objective linked to one or more of the UN SDGs, and to deliver returns to shareholders over the long term. The Fund may also invest in investments that the Investment Manager deems to be neutral under its sustainability criteria, such as cash and Money Market Investments and derivatives used with the aim of reducing risk (hedging) or managing the Fund more efficiently.

The Investment Manager will select companies from a universe of eligible companies that have been determined as meeting the Investment Manager's impact criteria. The impact criteria include an assessment of the company's contribution to the UN SDGs alongside the Investment Manager's assessment of the company via its proprietary scorecard. The investment process is aligned with the Operating Principles for Impact Management. No reference benchmark has been designated for the purpose of attaining the sustainable investment objective.

### ● **What sustainability indicators are used to measure the attainment of the sustainable investment objective of this financial product?**

The Investment Manager is responsible for determining whether an investment meets the criteria of a sustainable investment. The Investment Manager uses a combination of a revenue based approach in this assessment, by considering whether a certain percentage of the relevant issuer's revenues, capital expenditure or operating expenditure contributes to an environmental or social objective (as applicable), and specific sustainability key performance indicators to assess the investment's contribution to an environmental or social objective (as applicable). The output of the Investment Strategy outlined below is the production of the list of investments that meet the selection criteria, this represents the investment universe. Compliance with the minimum percentage in sustainable investments is monitored daily via our automated compliance controls. The Fund also applies certain exclusions, with which the Investment Manager monitors compliance on an ongoing basis via its portfolio compliance framework.

The Investment Manager uses different sustainability indicators to measure the impact contribution at an investee company level. In particular, the Investment Manager uses a quantitative screening tool to identify companies that derive a certain minimum percentage of their revenues from whose main activity

is contributing to an environmental or social objective. In addition, there is a detailed impact assessment of every company via the completion of a proprietary scorecard. The impact scorecard focuses on the impact that a company's products and services are expected to have. The Investment Manager considers different aspects of impact such as: what outcome and UN SDGs the company is contributing to; who is served by the outcome (such as the relevant stakeholder or industry); an assessment of our expected contribution (including Schroders influence and engagement); and consideration of impact risks. The assessment includes tracking Key Performance Indicators (KPIs) that are used to measure and monitor the company's impact over time via an annual review.

Once these steps have been completed, the company and scorecard are then validated and approved by Schroders' Impact Assessment Group (IAG), in order for the company to be eligible for inclusion in the Fund's investible universe. The IAG consists of members from Schroders' impact and sustainable investment teams and members of the investment team.

More details on how the Investment Manager ensures that investments are made with the objective to generate a positive social or environmental impact alongside a financial return within the Fund are available at <https://www.schroders.com/en/global/individual/impact-investing/>

### ● **How do sustainable investments not cause significant harm to any environmental or social sustainable investment objective?**

The Investment Manager's approach to investing in issuers that do not cause significant harm to any environmental or social sustainable investment objective includes the following:

Firm-wide investment exclusions apply to Schroders funds. These relate to international conventions on cluster munitions, anti-personnel mines, and chemical and biological weapons and thermal coal mining. Further information and a list of excluded controversial weapons companies is available at <https://www.schroders.com/en/global/individual/about-us/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/group-exclusions/>

The Fund excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal.

The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. Schroders' determination of whether a company has been involved in such a breach considers relevant principles such as those contained in the UN Global Compact (UNGC) principles, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. The 'global norms' breach list may be informed by assessments performed by third party providers and by proprietary research, where relevant to a particular situation.

- The Fund may also apply certain other exclusions in addition to those summarised above.

Further information on all of the Fund's investment exclusions is to be found under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>.

### ● **How have the indicators for adverse impacts on sustainability factors been taken into account?**

When seeking to identify significant harm, Schroders' approach to taking into account the Principal Adverse Impacts (PAI) indicators involves a quantitative and a qualitative assessment. Where it is not considered appropriate or feasible to set quantitative thresholds, the Investment Manager engages, where relevant. Investee companies deemed not to satisfy the quantitative thresholds would generally be excluded, unless on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area.

This framework is subject to ongoing review, particularly as the availability and quality of the data evolves.

Our approach includes:

1. **Quantitative:** this includes indicators where specific thresholds have been established:

- Via the application of exclusions. This approach is relevant to **PAI 4** (Exposure to companies active in the fossil fuel sector), **PAI 5** (Share of non-renewable energy consumption and production) and **PAI 14** (Exposure to controversial weapons). Further, the following PAIs are assessed as part of Schroders 'global norms' breach list exclusion (which seeks to exclude companies where significant harm is occurring):
  - **PAI 7** (Activities negatively affecting biodiversity-sensitive areas)
  - **PAI 8** (Emissions to water)
  - **PAI 9** (Hazardous waste and radioactive waste ratio)
  - **PAI 10** (Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development Guidelines for Multinational Enterprises)

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

- **PAI 11** (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises)
- **PAI 14** in Table 3 (Number of identified cases of severe human rights issues and incidents)

Via the application of an alert system flag if the relevant indicator(s) exceeds a threshold. These quantitative thresholds to assess significant harm are established centrally by our Sustainable Investment team and monitored systematically. This approach applies to indicators where we have segmented the population into harm groups to establish a threshold, such as carbon related PAI metrics, **PAI 1** (GHG emissions), **PAI 2** (Carbon footprint) and **Voluntary PAI 4 in Table 2** (Investing in companies without carbon emission reduction initiatives). **PAI 3** (GHG intensity of investee companies) operates in a similar way but the threshold is based on a revenue metric. A threshold for **PAI 6** (Energy consumption intensity per high impact climate sector) is established based on the above-mentioned carbon measures. A similar approach has been taken for **PAI 15** (GHG intensity). **PAI 16** (Investee countries subject to social violations) also operates in the same way but based on data availability regarding social violations. Through this process the relevant issuer(s) that is/are deemed not to satisfy the quantitative thresholds is/are flagged to the Investment Manager for consideration, whose response may involve selling the holdings(s) or maintaining the position if on a case-by-case basis the data is deemed not representative of a company's performance in the relevant area. Investee companies deemed to cause significant harm are excluded from the Fund.

2. **Qualitative:** This includes PAI indicators where Schroders' believes that the data available does not enable us to make a quantitative determination regarding whether significant harm is done so as to warrant excluding an investment. In such cases, the Investment Manager engages wherever possible with the company or companies held, in accordance with the priorities documented in Schroders' Engagement Blueprint and/or voting policy. This approach applies to indicators such as **PAI 12** (Unadjusted gender pay gap) and **PAI 13** (Board gender diversity), where we engage and may use our voting rights where we consider appropriate. Both board gender diversity and disclosure of gender pay gap information are captured in our Engagement Blueprint.

### ● *How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

Companies on Schroders' 'global norms' breach list cannot be categorised as sustainable investments. Schroders' determination of whether a company should be included on such list considers the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, among other relevant principles. The 'global norms' breach list is informed by third party providers and proprietary research, where relevant.

## Does this financial product consider principal adverse impacts on sustainability factors?

☒ Yes.

The Investment Manager's approach to considering principal adverse impacts on sustainability factors differs depending on the relevant indicator. Some indicators are considered via the application of exclusions, some are considered via the investment process (where data is available via Schroders PAI dashboard and via other external data sources) and some are considered via engagement. Further details are provided below.

PAIs are considered as part of pre-investment through the application of exclusions. These include:

- Controversial weapons: PAI 14 (Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons))
- Schroders' 'global norms' breach list, which covers: PAI 7 (Activities negatively affecting biodiversity-sensitive areas), PAI 8 (Emissions to water), PAI 9 (Hazardous waste and radioactive waste ratio), PAI 10 (Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises), PAI 11 (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises) and PAI 14 in Table 3 (Number of identified cases of severe human rights issues and incidents).
- Companies that derive revenues above certain thresholds from activities related to thermal coal: PAI 4 (Exposure to companies active in the fossil fuel sector) and PAI 5 (Share of non-renewable energy consumption and production)

Compliance with these thresholds is monitored via the Investment Manager's portfolio compliance framework. PAIs are also considered through integration in the investment process. As part of the investment process, Schroders' proprietary tool is used which incorporates several PAIs as a component of its scoring methodology. All PAI indicators are monitored via Schroders PAI dashboard.

A sustainable investment analyst within the investment team regularly considers the Fund's PAI indicators on behalf of the team via Schroders PAI dashboard. The PAI data is reviewed on a monthly basis and adverse impacts of PAIs relevant to our strategy which may be of concern are flagged.

PAIs are also considered post-investment through engagement where the Investment Manager engages in line with the approach and expectations set out in Schroders Engagement Blueprint, which outlines our approach to active ownership.

The investment team's experience and knowledge about companies' histories including the establishment of strong relationships with company management teams allow us to undertake constructive and effective engagements on PAIs.

The investment team holds approximately 600 company meetings a year with a focus on the long-term viability of the company's business model, financials and governance. We typically engage on PAI 1 GHG emissions, PAI 2 Carbon Footprint, PAI 8 Emissions to water, PAI 12 Gender pay gap and PAI 13 Board gender diversity. We have developed a voting policy in partnership with our corporate governance team. Our team takes all opinions into account, but our analyst makes the ultimate decision regarding how we vote. Our approach is subject to ongoing review, particularly as the availability, and quality, of PAI data evolves. The Management Company's statement on principal adverse impacts on sustainability factors is available at <https://api.schroders.com/document-store/id/ffcb39bb-96cb-4e56-9461-deba9a493e85>. The Fund level information is disclosed or will be disclosed (as applicable) in the Fund's annual report.

☐ No

**The investment strategy** guides investment decisions based on factors such as investment objectives and risk tolerance.

## What investment strategy does this financial product follow?

The sustainable investment strategy used by the Investment Manager is as follows:

The Fund is actively managed and invests its assets in (i) sustainable investments, which are investments that the Investment Manager expects to contribute towards the advancement of an environmental or social objective linked to one or more of the UN SDGs, and to deliver returns to shareholders over the long term, and (ii) investments that the Investment Manager deems to be neutral under its sustainability criteria such as cash and Money Market Investments and derivatives used with the aim of reducing risk (hedging) or managing the Fund more efficiently.

The Investment Manager will select companies from a universe of eligible companies that have been determined as meeting the Investment Manager's impact criteria. The impact criteria include an assessment of the company's contribution to the UN SDGs alongside the Investment Manager's assessment of the company's impact via its proprietary impact investment management framework and tools (including an impact scorecard).

The Fund is part of Schroders' Impact Driven strategies. As such, it applies highly selective investment criteria and its investment process is aligned with the Operating Principles for Impact Management which means that an assessment of impact is embedded in the steps of the investment process. All sustainable investments in the Fund are subject to this framework.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>

The Fund invests in companies that do not cause significant environmental or social harm and have good governance practices, as determined by the Investment Manager's rating criteria.

The Investment Manager may also engage with companies held by the Fund to seek to improve sustainability practices and enhance social and environmental impacts generated by underlying investee companies. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the webpage <https://www.schroders.com/en-lu/lu/individual/what-we-do/sustainable-investing/our-sustainable-investment-policies-disclosures-voting-reports/disclosures-and-statements/>

The Fund invests at least two-thirds of its assets in a concentrated range of equity and equity related securities of small-sized US companies. These are companies which, at the time of purchase, are considered to be in the bottom 30% by market capitalisation of the US equities market. The Fund typically holds 40 – 60 companies.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash.

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Investment Manager applies sustainability criteria when selecting investments for the Fund.

Investments are composed of companies whose products and services contribute positively to at least one of the UN SDGs. In order to identify companies with a direct link to a UN SDG, the Investment Manager applies a two step approach:

The first is a revenue based approach that considers whether a certain percentage of the relevant company's revenues, capital expenditure or operating expenditure contributes to an environmental or social objective (as applicable).

The second is a detailed impact assessment of the company via the completion of a proprietary impact scorecard. The Investment Manager considers different aspects of impact such as: what outcome and UN SDGs the company is contributing to; who is served by the outcome (such as the relevant stakeholder or industry); an assessment of our expected contribution (including Schroders influence and engagement); and consideration of impact risks. The assessment typically includes Key Performance Indicators (KPIs) that are used to track the company's impact over time.

The company and impact scorecard are then validated and approved by Schroders' Impact Assessment Group (IAG), in order for the company to be eligible for inclusion in the Fund's investible universe. The IAG consists of members from Schroders' impact and sustainable investment teams and members of the investment team. There may be some limited instances where step 2 and the IAG approval may follow subsequently (such as a particularly time sensitive investment).

The Investment Manager has identified three types of companies that will typically be considered for inclusion in the portfolio.

The first type are highly innovative companies whose business model solves a direct need within the SDGs. These are growth companies whose solution to an SDG gap can be scaled.

The second type are companies that are already generating revenues that have an impact, but do not articulate or highlight that impact. These are companies the Investment Manager can identify due to its deep understanding of the US Small Cap universe where it sees a re-rating opportunity. In so doing the companies can better articulate and become more transparent about their impact opportunity. This is expected to be the largest group in the Fund's portfolio.

The third type will tend to have the lowest level of revenue link. These are companies whose business models are transitioning towards higher impact activities and where the Investment Manager sees the ability to help guide such companies on that journey with active engagement. This is expected to be the smallest group in the Fund's portfolio.

Each investment must have some revenue linking to an SDG. Based on where the investment falls within the three types the level of linked revenue will vary.

The Investment Manager ensures that at least 90% of the portion of the Fund's Net Asset Value composed of investments in companies is rated against the sustainability criteria. As a result of the application of sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments.

For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of equity and equity related securities of small-sized US companies or companies which derive a significant proportion of their revenues or profits from small-sized US companies.

### ● **What are the binding elements of the investment strategy used to select the investments to attain the sustainable investment objective?**

The following binding elements are applied throughout the investment process:

- The Fund is actively managed and invests at least 90% of its assets in sustainable investments, which are investments that the Investment Manager expects to contribute towards the advancement of an environmental or social objective linked to one or more of the UN SDGs, and to deliver returns to shareholders over the long term.
- Exclusions are applied to direct investments in companies. The Fund applies certain exclusions relating to international conventions on cluster munitions, antipersonnel mines, and chemical and biological weapons. The Fund also excludes companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal, especially companies that generate revenues from tobacco production or any other part of the tobacco value chain (suppliers, distributors, retailers, licensors), and companies that generate revenues from thermal coal mining and coal fired power generation. The Fund excludes companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. Details of the revenue thresholds together with certain other exclusions the Fund applies are listed under "Sustainability-Related Disclosure" on the Fund's webpage <https://www.schroders.com/en-lu/lu/individual/fund-centre>
- The Fund invests in companies that do not cause significant environmental or social harm and have good governance practices, as determined by the Investment Manager's rating criteria.
- The Investment Manager ensures that at least 90% of the portion of the Fund's Net Asset Value composed of investments in companies is rated against the sustainability criteria.
- As a result of the application of sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments.

### ● **What is the policy to assess good governance practices of the investee companies?**

In order to assess good governance practices, a central Good Governance Test is applied. This test is based on a data-driven quantitative framework, which uses a scorecard to assess companies across the categories of sound management structures, employee relations, remuneration of staff, and tax compliance. Schroders has defined a number of criteria across these pillars. Compliance with the test is monitored centrally and companies which do not pass this test cannot be held by the Fund, unless the Investment Manager has agreed that the issuer demonstrates good governance based on additional insights beyond that quantitative analysis.

**Good governance** practices include sound management structures, employee relations, remuneration of staff and tax compliance.

## **What is the asset allocation and the minimum share of sustainable investments?**

**Asset allocation** describes the share of investments in specific assets.

The planned composition of the Fund's investments that are used to meet its sustainable investment objective are summarised below. The Fund invests at least 90% of its assets in sustainable investments, which means included in **#1 Sustainable** are investments in small-sized US companies that the Investment Manager expects to contribute towards the advancement of an environmental or social objective linked to one or more of the UN SDGs, and to deliver returns to shareholders over the long term. Within this overall commitment of 90%, there is

a minimum commitment to invest at least 10% of its assets in sustainable investments with an environmental objective and at least 10% of its assets in sustainable investments with a social objective. The minimum proportions stated apply in normal market conditions.

**#2 Not sustainable** includes investments that are treated as neutral for sustainability purposes, such as cash and Money Market Investments and derivatives used with the aim of reducing risk (hedging) or managing the Fund more efficiently.

Minimum safeguards are applied where relevant to Money Market Investments and derivatives used with the aim of reducing risk (hedging) by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders' credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders' proprietary tool, which supports the analysis of a counterparty's management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders' proprietary tool would lead to further analysis and potential exclusion by Schroders' credit risk team.

## ● *How does the use of derivatives attain the sustainable investment objective?*

This question is not applicable for the Fund

## **To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?**

There is no minimum extent to which the Fund's investments (including transitional and enabling activities) with an environmental objective are aligned with the Taxonomy. Taxonomy alignment of this Fund's investments has therefore not been calculated and has as a result been deemed to constitute 0% of the Fund's portfolio.

In future it is expected that the Fund will assess and report on the extent to which its underlying investments are in economic activities that qualify as environmentally sustainable under the Taxonomy, along with information relating to the proportion of enabling and transitional activities. This Prospectus will be updated once it is possible in the Investment Manager's opinion to accurately disclose to what extent the Fund's investments are in Taxonomy-aligned environmentally sustainable activities, including the proportions of investments in enabling and transitional activities selected for the Fund.

## ● *Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>?*

☐ Yes:

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

- ☐ In fossil gas
- ☐ In nuclear energy
- ☒ No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What is the minimum share of investments in transitional and enabling activities?**

As per the above, at the date of this Prospectus the share of investments by the Fund in transitional and enabling activities is currently deemed to constitute 0% of the Fund's portfolio.

**What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?**

The Fund commits to invest at least 10% of its assets in sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

are environmentally sustainable investments that **do not take into account the criteria** for

<sup>2</sup> As there is no Taxonomy-alignment, there is no impact on the graph if sovereign bonds are excluded (i.e. the percentage of Taxonomy-aligned investments remains 0%) and the Management Company therefore believes that there is no need to mention this information.

### What is the minimum share of sustainable investments with a social objective?

The Fund commits to invest at least 10% of its assets in sustainable investments with a social objective.

### What investments are included under “#2 Not sustainable”, what is their purpose and are there any minimum environmental or social safeguards?

**#2 Not Sustainable** includes investments that are treated as neutral for sustainability purposes, such as cash and Money Market Investments and derivatives used with the aim of reducing risk (hedging) or managing the Fund more efficiently.

Minimum safeguards are applied where relevant to Money Market Investments and derivatives used with the aim of reducing risk (hedging) by restricting (as appropriate) investments in counterparties where there are ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties are reviewed by Schroders’ credit risk team and approval of a new counterparty is based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring is performed through a Schroders’ proprietary tool, which supports the analysis of a counterparty’s management of environmental, social and governance trends and challenges. Any significant deterioration in the profile of the counterparty in Schroders’ proprietary tool would lead to further analysis and potential exclusion by Schroders’ credit risk team.

### Is a specific index designated as a reference benchmark to meet the sustainable investment objective?

**Reference benchmarks** are indexes to measure whether the financial product attains the sustainable investment objective.

- *How does the reference benchmark take into account sustainability factors in a way that is continuously aligned with the sustainable investment objective?*

This question is not applicable for the Fund.

- *How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?*

This question is not applicable for the Fund.

- *How does the designated index differ from a relevant broad market index?*

This question is not applicable for the Fund.

- *Where can the methodology used for the calculation of the designated index be found?*

This question is not applicable for the Fund.

### Where can I find more product specific information online?

More product-specific information can be found on the webpage: <https://www.schroders.com/en-lu/lu/individual/fund-centre>

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in European equity and equity related securities.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the MSCI European Monetary Union (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of companies in countries participating in the European Monetary Union.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (EUR) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least 75% of its assets in equity and equity related securities of companies that are incorporated in the European Economic Area.

The Fund invests at least two-thirds of its assets in equity and equity related securities of companies in countries whose currency is the Euro.

The Fund may also invest up one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than MSCI European Monetary Union (Net TR) index, based on the Investment Manager's rating system.

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in Europe.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Class A: Up to 1% |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                                      |
|-------------------------------------------------------------------|----------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company       | Class A: 1.50% per annum<br>(a) 35% to 100% of Annual Management Fee |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee                  |
| Performance Fee                                                   | Not Applicable                                                       |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction         |

|                                                                      |                         |
|----------------------------------------------------------------------|-------------------------|
| Administration Fee                                                   | Up to 0.25% per annum   |
| Accounting and Valuation Fee                                         | Up to 0.0083% per annum |
| Share Class Hedging Charge<br>(to be borne by the Hedged<br>Classes) | Up to 0.03%             |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\ \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Japanese Equity (the “Fund”)

|                    |                                                                       |                                                   |                                                                          |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in Japanese equity and equity related securities.

**Further Information**  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the Tokyo Stock Price Index (Net TR) after fees have been deducted over a three to five year period by investing in equity and equity related securities of Japanese companies.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (JPY) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

**Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.**

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of Japanese companies.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the Tokyo Stock Price Index (Net TR), based on the Investment Manager's rating system.

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Japan) Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.

## Market and Credit Risks

**You are exposed to market risk in Japan.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                     |
|-------------------------------------------------------------------|-----------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.25% per annum                            |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee            |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

|                                                                |                                                              |
|----------------------------------------------------------------|--------------------------------------------------------------|
| Performance Fee                                                | Not Applicable                                               |
| Custody Fee                                                    | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                             | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                   | Up to 0.0083% per annum                                      |
| Share Class Hedging Charge (to be borne by the Hedged Classes) | Up to 0.03%                                                  |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\ \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Asian Opportunities (the “Fund”)

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of Asian companies excluding Japan.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the MSCI AC Asia ex Japan (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of Asian companies (excluding Japan).

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of Asian companies (excluding Japan).

The Fund may invest directly in China H-Shares and may invest less than 30% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through

- the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect;

*Refer to the “Investment Objectives and Strategies / Product Suitability” and “Risk Factors, Investments,*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

- the Qualified Foreign Investor (“QFI”) Scheme;
- shares listed on the STAR Board and the ChiNext; and
- Regulated Markets.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the MSCI AC Asia ex Japan (Net TR) Index based on the Investment Manager’s rating criteria.

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Derivatives and Supplementary Information” sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Singapore) Ltd.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the “The Fund”, “Management and Administration” and “Other Material Information” sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the “Risk Factors, Investments, Derivatives and Supplementary Information” section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in Asia excluding Japan.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer’s individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

**You are exposed to China country risk.**

- Changes in China’s political, legal, economic or tax policies could cause losses or higher costs for the Fund.

**You are exposed to currency risk.**

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**You are exposed to derivatives risk.**

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

**You are exposed to equity risk.**

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**You are exposed to leverage risk.**

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

**You are exposed to emerging and less developed markets risk.**

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

**You are exposed to distribution policy risk (only applicable to Distribution Classes).**

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

**You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.**

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks.

**You are exposed to counterparty risk.**

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

**You are exposed to risks regarding QFI Status.**

- The Investment Manager's QFI status may be suspended or revoked and this may adversely affect the Fund's performance by requiring the Fund to dispose of its securities holdings.

**You are exposed to sustainability risk.**

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

**WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?**

**Payable directly by you**

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

## Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.50% per annum                                     |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not Applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                                | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                      |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\ \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**ChiNext:** the ChiNext market of the Shenzhen Stock Exchange.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Regulated Market:** a market within the meaning of Article 4 (1) (21) of the Directive 2014/65/EC of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments or another regulated market, which operates regularly and is recognised and open to the public in an Eligible State.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**STAR Board:** the Science, Technology and Innovation board of the Shanghai Stock Exchange.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Swiss Equity (the “Fund”)

|                    |                                                                       |                                                   |                                   |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in Swiss equity and equity related securities of Swiss companies.

**Further Information**  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the Swiss Performance Index after fees have been deducted over a three to five year period by investing in equity and equity related securities of Swiss companies.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

**Refer to the**  
“Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of Swiss companies.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

The Fund maintains a positive absolute sustainability score, based on the Investment Manager's rating system.

Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Switzerland) AG.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.

## Market and Credit Risks

**You are exposed to market risk in Switzerland.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

**You are exposed to distribution policy risk (only applicable to Distribution Classes).**

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.

- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

**You are exposed to counterparty risk.**

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

**You are exposed to currency risk.**

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**You are exposed to derivatives risk.**

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

**You are exposed to equity risk.**

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**You are exposed to leverage risk.**

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

**You are exposed to sustainability risk.**

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

**Payable directly by you**

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

**Payable by the Fund from invested proceeds**

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                             |
|----------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) Paid by Management Company to financial adviser (trailer fee) | Class A: 1.25% per annum<br>(a) 35% to 100% of Annual Management Fee<br>(b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                                                                                  | Not Applicable                                                                                                              |
| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                |
| Administration Fee                                                                                                               | Up to 0.25% per annum                                                                                                       |
| Accounting and Valuation Fee                                                                                                     | Up to 0.0083% per annum                                                                                                     |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rcccl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

**Fixed Distribution Rates:** A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in UK equity and equity related securities.

**Further Information**  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the FTSE All Share Total Return index after fees have been deducted over a three to five year period by investing in equity and equity related securities of UK companies.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

**Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.**

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of UK companies.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the FTSE All Share Total Return index, based on the Investment Manager's rating criteria.

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.

## Market and Credit Risks

### You are exposed to market risk in UK.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.

- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

**You are exposed to counterparty risk.**

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

**You are exposed to currency risk.**

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**You are exposed to derivatives risk.**

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

**You are exposed to equity risk.**

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**You are exposed to leverage risk.**

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

**You are exposed to sustainability risk.**

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

**Payable directly by you**

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

**Payable by the Fund from invested proceeds**

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.10% per annum                                     |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not Applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                                | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                      |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rcccl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities worldwide.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the MSCI All Country (AC) World (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of companies worldwide.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide.

The Investment Manager seeks to identify companies that it believes will deliver future earnings growth above the level expected by the market typically on a three to five year horizon (the Investment Manager refers to this as 'a positive growth gap').

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the MSCI All Country (AC) World (Net TR) Index, based on the Investment Manager's rating criteria.

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                     |
|-------------------------------------------------------------------|-----------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.25% per annum                            |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee            |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

|                              |                                                              |
|------------------------------|--------------------------------------------------------------|
| Performance Fee              | Not Applicable                                               |
| Custody Fee                  | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee           | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee | Up to 0.0083% per annum                                      |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$1000 \times \$11.0000 = \$11,000.00$$

(Number of Shares) (Net Asset Value per Share) (Redemption Proceeds)

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund US Large Cap (the “Fund”)

|                    |                                                                       |                                                   |                                          |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of large-sized US companies.

*Further Information  
Refer to the  
“Investment  
Objectives and  
Strategies / Product  
Suitability” section of  
the Prospectus for  
further information  
on product suitability.*

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

Prior to 4 May 2026, the Fund aims to provide capital growth in excess of the Standard & Poors 500 (Net TR) Lagged index after fees have been deducted over a three to five year period by investing in equity and equity related securities of large-sized US companies. As of 4 May 2026, the Fund aims to provide capital growth in excess of the Standard & Poor’s 500 (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of large-sized US companies.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the  
“Important  
Information”,  
“The Fund”, “The  
Sub-Funds”  
and “Investment  
Objectives and  
Strategies /  
Product Suitability”  
sections of the  
Prospectus for  
further information  
on features of the  
product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in the equity and equity related securities of large-sized US companies. Large-sized companies are companies which, at the time of purchase, are considered to be in the top 85% by market capitalisation of the US equities market.

The Fund may invest in the equity securities of non-US companies provided they are listed on one of the major North American stock exchanges.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

Prior to 4 May 2026, the Fund maintains a higher overall sustainability score than the Standard & Poor's 500 (Net TR) Lagged index based on the Investment Manager's rating criteria. As at 4 May 2026, the Fund maintains a higher overall sustainability score than the Standard & Poor's 500 (Net TR) index based on the Investment Manager's rating criteria.

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Europe) S.A. – German Branch.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in US.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.25% per annum                                     |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not Applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                                | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                      |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rclcl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

**USA or US:** the United States of America (including the States and the District of Columbia), its territories, its possessions and any other areas subject to its jurisdiction.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Asian Dividend Maximiser (the “Fund”)

|                    |                                                                       |                                                   |                                                                                                                                                         |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- primarily seek income; and
- understand the risks of investing in equities or equity related securities in Asia-Pacific excluding Japan.

**Further Information**  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to deliver an income of 7%\* per year by investing in equities or equity related securities of Asia-Pacific companies (excluding Japan). This is not guaranteed and could change depending on market conditions.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*\*You should note that this is the investment objective of the Fund and the reference to income distribution (or an income rate) seeks to be achieved by the Fund is not and should not be interpreted to be a prediction, projection or forecast*

**Refer to the**  
“Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

of the future performance of the Fund. It is not indicative of the future or likely performance of the Fund.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets (excluding cash) in equities or equity related securities of Asia-Pacific companies (excluding Japan), which are selected for their income and capital growth potential. To enhance the yield of the Fund, the Investment Manager selectively sells short dated call options over individual securities held by the Fund, generating extra income by agreeing strike prices above which potential capital growth is sold.

The Fund may invest directly in China H-Shares and may invest up to 10%<sup>2</sup> of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the MSCI AC Pacific ex Japan High Dividend Yield (Net TR) index, based on the Investment Manager's rating criteria.

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

Refer to the "Investment Objectives and Strategies / Product Suitability" section of the Prospectus for further information on the investment strategy of the Fund.

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.

## Market and Credit Risks

**You are exposed to market risk in Asia-Pacific excluding Japan.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

<sup>2</sup> With effect from 10 September 2026, this figure will change to 20%.

## Product-Specific Risks

### You are exposed to derivatives risk.

- The Fund makes use of derivatives in a way that is fundamental to its investment objective. It is expected that the strategy will typically underperform a similar portfolio with no derivatives overlay in periods when the underlying stock prices are rising, and outperform when the underlying stock prices are falling.

### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks. These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                             |
|----------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) Paid by Management Company to financial adviser (trailer fee) | Class A: 1.50% per annum<br>(a) 35% to 100% of Annual Management Fee<br>(b) 0% to 65% <sup>3</sup> of Annual Management Fee |
| Performance Fee                                                                                                                  | Not Applicable                                                                                                              |
| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                |
| Administration Fee                                                                                                               | Up to 0.25% per annum                                                                                                       |
| Accounting and Valuation Fee                                                                                                     | Up to 0.0083% per annum                                                                                                     |
| Share Class Hedging Charge (to be borne by the Hedged Classes)                                                                   | Up to 0.03%                                                                                                                 |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc}
 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\
 \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)}
 \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**ChiNext:** the ChiNext market of the Shenzhen Stock Exchange.

**Class:** A class of Shares with a specific fee structure.

**Currency carry:** This refers to the premium or discount that may apply to the distribution. Distributions may include a premium when the interest rate of a currency hedged Class is higher than the Fund's base currency interest rate. Consequently when the interest rate of a currency hedged Class is lower than the Fund's base currency interest rate, the dividend may be discounted. The level of premium or discount is determined by differences in interest rates and is not part of the Fund's investment objective or investment policy.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>4</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**STAR Board:** the Science, Technology and Innovation board of the Shanghai Stock Exchange.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>4</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek income and capital growth; and
- understand the risks of investing in equity and equity related securities in Asia Pacific excluding Japan.

*Further Information  
Refer to the  
“Investment  
Objectives and  
Strategies / Product  
Suitability” section of  
the Prospectus for  
further information  
on product suitability.*

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide income and capital growth in excess of the MSCI AC Asia Pacific ex Japan (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of Asia Pacific companies (excluding Japan).

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*Refer to the

Sub-Funds”  
and “Investment  
Objectives and  
Strategies /  
Product Suitability”  
sections of the  
Prospectus for  
further information  
on features of the  
product.*

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of Asia Pacific companies (excluding Japan).

The Fund invests in the equities of companies in the Asia Pacific (excluding Japan) region that pay dividends now but also retain enough cash to reinvest back into the company to generate future growth.

*Refer to the  
“Investment  
Objectives and  
Strategies / Product*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

The Fund may invest directly in China H-Shares and may invest less than 30% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through

- the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect;
- the Qualified Foreign Investor (“QFI”) Scheme;
- shares listed on the STAR Board and the ChiNext; and
- Regulated Markets.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the MSCI AC Asia Pacific ex Japan High Dividend Yield (Net TR) index, based on the Investment Manager’s rating criteria.

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Suitability” and “Risk Factors, Investments, Derivatives and Supplementary Information” sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Singapore) Ltd.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the “The Fund”, “Management and Administration” and “Other Material Information” sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the “Risk Factors, Investments, Derivatives and Supplementary Information” section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in Asia Pacific excluding Japan.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer’s individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

**You are exposed to counterparty risk.**

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

**You are exposed to China country risk.**

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

**You are exposed to derivatives risk.**

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

**You are exposed to currency risk.**

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**You are exposed to equity risk.**

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**You are exposed to leverage risk.**

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

**You are exposed to emerging and less developed markets risk.**

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

**You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.**

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks.

**You are exposed to distribution policy risk (only applicable to Distribution Classes).**

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

**You are exposed to risks regarding QFI Status.**

- The Investment Manager's QFI status may be suspended or revoked and this may adversely affect the Fund's performance by requiring the Fund to dispose of its securities holdings.

**You are exposed to sustainability risk.**

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

**FEES AND CHARGES**

**WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?**

**Payable directly by you**

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

**Payable by the Fund from invested proceeds**

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                             |
|----------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) Paid by Management Company to financial adviser (trailer fee) | Class A: 1.50% per annum<br>(a) 35% to 100% of Annual Management Fee<br>(b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                                                                                  | Not Applicable                                                                                                              |
| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                |
| Administration Fee                                                                                                               | Up to 0.25% per annum                                                                                                       |
| Accounting and Valuation Fee                                                                                                     | Up to 0.0083% per annum                                                                                                     |
| Share Class Hedging Charge (to be borne by the Hedged Classes)                                                                   | Up to 0.03%                                                                                                                 |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**ChiNext:** the ChiNext market of the Shenzhen Stock Exchange.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Regulated Market:** a market within the meaning of Article 4 (1) (21) of the Directive 2014/65/EC of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments or another regulated market, which operates regularly and is recognised and open to the public in an Eligible State.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**STAR Board:** the Science, Technology and Innovation board of the Shanghai Stock Exchange.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Sustainable Asian Equity<sup>2</sup> (the “Fund”)

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of companies in Asia Pacific markets excluding Japan.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the MSCI AC Asia Pacific ex Japan (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of Asia Pacific markets companies (excluding Japan) which meet the Investment Manager’s sustainability criteria.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies in Asia Pacific markets (excluding Japan) or companies which derive a significant portion of their revenues or profits from the Asia Pacific region.

The Fund maintains a higher overall sustainability score than MSCI AC Asia

*Refer to the “Investment Objectives and Strategies / Product Suitability” and*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

<sup>2</sup> This Fund is an ESG Fund under Circular No. CFC 02/2022 on the Disclosure and Reporting Guidelines for ESG Funds issued by the MAS.

Pacific ex Japan (Net TR) index, based on the Investment Manager's rating system.

The Fund may invest directly in China H-Shares and may invest less than 30% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through

- the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect;
- the Qualified Foreign Investor ("QFI") Scheme;
- shares listed on the STAR Board and the ChiNext; and
- Regulated Markets.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*"Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

#### Parties Involved

##### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Singapore) Ltd.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

#### KEY RISKS

##### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

#### Market and Credit Risks

**You are exposed to market risk in Asia excluding Japan.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

#### Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks. These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

### You are exposed distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## Fees and Charges

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                                  |
|-------------------|----------------------------------|
| Initial Charge    | Class A: Up to 5%<br>Class F: 0% |
| Switching Charge  | Up to 1%                         |
| Redemption Charge | None                             |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                    |

| Accounting and Valuation Fee                                                                                                     | Up to 0.0083% per annum                                                                                                                                                                                                                                                                                                                                            |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rclcl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

Website: <http://www.schroders.com.sg>

Distributor

The Singapore Representative

<sup>3</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

<sup>4</sup> The median trailer fee is derived based on the trailer fees payable only to direct Singapore retail distributors for the Class A and Class F Units. Institutional investors (including insurers or investment-linked plans) or accredited investors, and/or non-Singapore distributors are excluded in the computation of both the median trailer fee and the trailer fee range whereby a trailer fee arrangement may not be applicable.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**ChiNext:** the ChiNext market of the Shenzhen Stock Exchange.

**Class:** a class of Shares with a specific fee structure.

**Dealing Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>5</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**ESG:** Environmental, Social and Governance.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Regulated Market:** a market within the meaning of Article 4 (1) (21) of the Directive 2014/65/EC of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments or another regulated market, which operates regularly and is recognised and open to the public in an Eligible State.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**STAR Board:** the Science, Technology and Innovation board of the Shanghai Stock Exchange.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>5</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities in Brazil, India and China.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the MSCI BIC (Net TR) 10/40 index after fees have been deducted over a three to five year period, by investing in equity and equity related securities of Brazilian, Indian and Chinese companies.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in a range of equity and equity related securities of Brazilian, Indian and Chinese companies.

The Fund may invest directly in the China H-Shares and may invest less than 20% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong

*Refer to the “Investment Objectives and Strategies / Product Suitability” and “Risk Factors, Investments,*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its asset directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the MSCI BIC (Net TR) 10/40 index, based on the Investment Manager's rating criteria.

**Special Information:** In the context of the unprecedented geo-political situation caused by Russia's invasion of the Ukraine and the resultant impact of sanctions and the actions of governments and market counterparties on certain Russian issuers and assets, the Fund's residual holdings in Russian assets (the "Russian Assets") are currently valued at zero. These Russian Assets represented approximately 0.35% of the Fund's Net Asset Value as of 3 March 2022 when the value was reduced to zero. In the event that value returns to these assets, they will be returned to the Net Asset Value of the Fund and will be divested by the Investment Manager taking into account the best interests of shareholders in line with the Fund's amended investment strategy, which is applicable as from 18 April 2023.

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

#### Parties Involved

##### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

#### KEY RISKS

##### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

#### Market and Credit Risks

**You are exposed to market risk in Brazil, India and China.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

#### Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks. These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.50% per annum                                     |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not Applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                                | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                      |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$1000 \times \$11.0000 = \$11,000.00$$

(Number of Shares) (Net Asset Value per Share) (Redemption Proceeds)

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**ChiNext:** the ChiNext market of the Shenzhen Stock Exchange.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**STAR Board:** the Science, Technology and Innovation board of the Shanghai Stock Exchange.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Emerging Asia (the “Fund”)

|                    |                                                                       |                                                   |                                                                                                      |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities in emerging Asian markets.

**Further Information**  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the MSCI Emerging Markets Asia (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of companies in the emerging markets in Asia.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies in the emerging markets in Asia.

The Fund may invest directly in China H-Shares and may invest less than 30% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through:

- the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect;
- the Qualified Foreign Investor (“QFI”) Scheme;
- shares listed on the STAR Board and the ChiNext; and
- Regulated Markets.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the “Investment Objectives and Strategies / Product Suitability” and “Risk Factors, Investments, Derivatives and Supplementary Information” sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Hong Kong) Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the “The Fund”, “Management and Administration” and “Other Material Information” sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the “Risk Factors, Investments, Derivatives and Supplementary Information” section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in Asia.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks. These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

### You are exposed to risks regarding QFI Status.

- The Investment Manager's QFI status may be suspended or revoked and this may adversely affect the Fund's performance by requiring the Fund to dispose of its securities holdings.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                             |                                                                      |
|-------------------------------------------------------------|----------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company | Class A: 1.50% per annum<br>(a) 35% to 100% of Annual Management Fee |
|-------------------------------------------------------------|----------------------------------------------------------------------|

|                                                                   |                                                                                                         |
|-------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------|
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee, with the median trailer fee being 50% <sup>3</sup> |
| Performance Fee                                                   | Not Applicable                                                                                          |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction                                            |
| Administration Fee                                                | Up to 0.25% per annum                                                                                   |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                                                                 |
| Share Class Hedging Charge (to be borne by the Hedged Classes)    | Up to 0.03%                                                                                             |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccc} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## CONTACT INFORMATION

### HOW DO YOU CONTACT US?

For enquiries, please contact

### Schroder Investment Management (Singapore) Ltd

138 Market Street, #23-01, CapitaGreen  
Singapore 048946 Tel: +65 6534 4288  
Website: <http://www.schroders.com.sg>

Distributor

The Singapore Representative

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

<sup>3</sup> The median trailer fee is derived based on the trailer fees payable only to direct Singapore retail distributors for the Class A Units. Institutional investors (including insurers or investment-linked plans) or accredited investors, and/or non-Singapore distributors are excluded in the computation of both the median trailer fee and the trailer fee range whereby a trailer fee arrangement may not be applicable.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**ChiNext:** the ChiNext market of the Shenzhen Stock Exchange.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Eligible State:** Includes any member state of the European Union, any member state of the Organisation for Economic Co-operation and Development, and any other state which the board of directors of the Company deem appropriate.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Regulated Market:** a market within the meaning of Article 4 (1) (21) of the Directive 2014/65/EC of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments or another regulated market, which operates regularly and is recognised and open to the public in an Eligible State.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**STAR Board:** the Science, Technology and Innovation board of the Shanghai Stock Exchange.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Emerging Europe (the “Fund”)

|                    |                                                                       |                                                   |                                   |

| Capital Guaranteed | No                                                                    | Expense Ratio for the year ended 31 December 2025 | EUR Class A: 1.76% to 1.78%       |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of Central and Eastern European companies.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth by investing in equity and equity related securities of Central and Eastern European companies

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds”, and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in a concentrated portfolio of equity and equity related securities of Central and Eastern European companies including the markets of the former Soviet Union and the Mediterranean emerging markets. The Fund may also invest in equity and equity related securities of North African and Middle Eastern companies.

The Fund typically holds 30-50 companies.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the MSCI EFM Europe + CIS (E+C) Index (Net TR), based on the Investment Manager's rating criteria.

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

**Special Information:** In view of the unprecedented geo-political situation caused by Russia's invasion of the Ukraine and the resultant impact of sanctions and the actions of governments and market counterparties on certain Russian issuers and assets, dealing in shares of the Fund was suspended from 25 February 2022 to 17 July 2022. The suspension was lifted with effect from 18 July 2022.

In order to re-open the Fund, the portfolio of the Fund has been split by creating a new sub-portfolio in the Fund. The Russian equities and equity related securities (the "**Russian Assets**") held by the Fund have been ring fenced within the Fund and allocated to two newly created share classes, named X9 and Y9 (the "**New Classes**"). Shares in the New Classes have been allocated only to existing shareholders of the Fund with effect as of 18 July 2022 to reflect their respective percentage holdings in the Fund's total Net Asset Value as of 25 February 2022. Following the allocation of the Russian Assets to the New Classes to existing shareholders with effect as of 18 July 2022, the Fund (through its share classes which were in existence before the creation of the New Classes) no longer has any exposure to the Russian Assets, and the Fund will not make any further investments in Russian equities and equity related securities until further notice.

*Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk in Europe.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                                 |
|----------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) Paid by Management Company to financial adviser (trailer fee) | Class A: 1.50% per annum<br>(a) 35% to 100% of Annual Management Fee<br><br>(b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                                                                                  | Not Applicable                                                                                                                  |
| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                    |
| Administration Fee                                                                                                               | Up to 0.25% per annum                                                                                                           |
| Accounting and Valuation Fee                                                                                                     | Up to 0.0083% per annum                                                                                                         |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rcccl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Emerging Markets (the “Fund”)

|                    |                                                                       |                                                   |                                                     |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in emerging markets equity and equity related securities.

*Further Information  
Refer to the  
“Investment  
Objectives and  
Strategies / Product  
Suitability” section of  
the Prospectus for  
further information  
on product suitability.*

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the MSCI Emerging Markets 10/40 (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of emerging markets companies.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the  
“Important  
Information”,  
“The Fund”, “The  
Sub-Funds”  
and “Investment  
Objectives and  
Strategies / Product  
Suitability” sections  
of the Prospectus for  
further information  
on features of the  
product.*

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies in emerging markets.

The Fund may invest directly in China H-Shares and may invest less than 20% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

*Refer to the  
“Investment  
Objectives and  
Strategies / Product  
Suitability” and  
“Risk Factors,  
Investments,*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the MSCI Emerging Markets 10/40 (Net TR) index, based on the Investment Manager's rating criteria.

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up and down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**You are exposed to derivatives risk.**

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

**You are exposed to emerging and less developed markets risk.**

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

**You are exposed to equity risk.**

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**You are exposed to leverage risk.**

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

**You are exposed to distribution policy risk (only applicable to Distribution Classes).**

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

**You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.**

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks. These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

**You are exposed to sustainability risk.**

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

**FEES AND CHARGES**

**WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?**

**Payable directly by you**

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

**Payable by the Fund from invested proceeds**

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                     |
|-------------------------------------------------------------------|-----------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.50% per annum                            |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee            |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee |

|                              |                                                              |
|------------------------------|--------------------------------------------------------------|
| Performance Fee              | Not Applicable                                               |
| Custody Fee                  | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee           | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee | Up to 0.0083% per annum                                      |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rcccl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**ChiNext:** the ChiNext market of the Shenzhen Stock Exchange.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**STAR Board:** the Science, Technology and Innovation board of the Shanghai Stock Exchange.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund European Dividend Maximiser (the “Fund”)

|                    |                                                                       |                                                   |                                                                      |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- primarily seek income; and
- understand the risks of investing in equity and equity related securities in the European market.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to deliver an income of 7%\* per year by investing in equities or equity related securities of European companies. This is not guaranteed and could change depending on market conditions.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (EUR) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*\*You should note that this is the investment objective of the Fund and the reference to income distribution (or an income rate) seeks to be achieved by the Fund is not and should not be interpreted to be a prediction, projection or forecast of the future performance of the Fund. It is not indicative of the future or likely performance of the Fund.*

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equities or equity related securities of European companies, which are selected for their income and capital growth potential. To enhance the yield of the Fund, the Investment Manager selectively sells short dated call options over individual securities held by the Fund, generating extra income by agreeing strike prices above which potential capital growth is sold.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the MSCI Europe (Net TR) index, based on the Investment Manager's rating system. It also maintains a carbon intensity below that of the MSCI Europe (Net TR) index.

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" section of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in Europe.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

**You are exposed to counterparty risk.**

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

**You are exposed to derivatives risk.**

- The Fund makes use of derivatives in a way that is fundamental to its investment objective. It is expected that the strategy will typically underperform a similar portfolio with no derivatives overlay in periods when the underlying stock prices are rising, and outperform when the underlying stock prices are falling.

**You are exposed to currency risk.**

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**You are exposed to equity risk.**

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**You are exposed to concentration risk.**

- The Fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the Fund, both up or down, which may adversely impact the performance of the Fund.

**You are exposed to distribution policy risk (only applicable to Distribution Classes).**

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

**You are exposed to sustainability risk.**

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

**FEES AND CHARGES**

**WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?**

**Payable directly by you**

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

**Payable by the Fund from invested proceeds**

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                      |                                                                                                                             |
|--------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) (b) Paid by Management Company to financial adviser (trailer fee) | Class A: 1.50% per annum<br>(a) 35% to 100% of Annual Management Fee<br>(b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                                                                                      | Not Applicable                                                                                                              |
| Custody Fee                                                                                                                          | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                |
| Administration Fee                                                                                                                   | Up to 0.25% per annum                                                                                                       |
| Accounting and Valuation Fee                                                                                                         | Up to 0.0083% per annum                                                                                                     |
| Share Class Hedging Charge (to be borne by the Hedged Classes)                                                                       | Up to 0.03%                                                                                                                 |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rcccl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund European Smaller Companies (the “Fund”)

|                    |                                                                       |                                                   |                                                       |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of small-sized companies in Europe.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the MSCI Europe Small Cap (NDR) index after fees have been deducted over a three to five year period by investing in equity or equity related securities of small-sized European companies.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (EUR) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of small-sized European companies. These are companies which, at the time of purchase, are considered to be in the bottom 30% by market capitalisation of the European equities market.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the MSCI Europe Small Cap (NDR) index index, based on the Investment Manager's rating criteria.

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in Europe.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

**You are exposed to counterparty risk.**

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

**You are exposed to currency risk.**

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**You are exposed to derivatives risk.**

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

**You are exposed to equity risk.**

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**You are exposed to leverage risk.**

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

**You are exposed to distribution policy risk (only applicable to Distribution Classes).**

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

**You are exposed to sustainability risk.**

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

**FEES AND CHARGES**

**WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?**

**Payable directly by you**

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

**Payable by the Fund from invested proceeds**

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                             |
|----------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) Paid by Management Company to financial adviser (trailer fee) | Class A: 1.50% per annum<br>(a) 35% to 100% of Annual Management Fee<br>(b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                                                                                  | Not Applicable                                                                                                              |
| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                |
| Administration Fee                                                                                                               | Up to 0.25% per annum                                                                                                       |
| Accounting and Valuation Fee                                                                                                     | Up to 0.0083% per annum                                                                                                     |
| Share Class Hedging Charge (to be borne by the Hedged Classes)                                                                   | Up to 0.03%                                                                                                                 |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\ \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual  
Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Frontier Markets Equity (the “Fund”)

|                    |                                                                       |                                                   |                                                        |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth;
- understand the risks of investing in equity and equity related securities in frontier emerging markets.

#### Further Information

Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the MSCI Frontier Emerging Markets (FEM) index (Net TR) with emerging markets capped at 10% after fees have been deducted over a three to five year period by investing in equity and equity related securities of frontier emerging markets companies.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of frontier emerging markets companies worldwide. The Fund typically holds 50-70 companies.

'Frontier emerging markets' are countries included in the MSCI Frontier Emerging Markets (FEM) index or any other recognised frontier markets financial index, or additional countries that the Investment Manager deems to be frontier emerging market countries.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.50% per annum                                     |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not Applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                                | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                      |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rclcl}
 1000 & \times & \$11.0000 & = & \$11,000.00 \\
 \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)}
 \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in European equity and equity related securities.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the MSCI Europe (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of European companies.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

#### Investment Strategy

The Fund is actively managed and invests in a select portfolio of securities in special situations, where the Investment Manager believes a special situation to be a company whose future prospects are not fully reflected in its valuation.

The Fund maintains a higher overall sustainability score than MSCI Europe (Net TR) index, based on the Investment Manager’s rating system.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

*Refer to the “Investment Objectives and Strategies / Product Suitability” and “Risk Factors, Investments, Derivatives and Supplementary Information”*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

sections of the Prospectus for further information on the investment strategy of the Fund.

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

Refer to the “The Fund”, “Management and Administration” and “Other Material Information” sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

Refer to the “Risk Factors, Investments, Derivatives and Supplementary Information” section of the Prospectus for further information on risks of the product.

## Market and Credit Risks

### You are exposed to market risk in Europe.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer’s individual situation.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**You are exposed to leverage risk.**

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

**You are exposed to sustainability risk.**

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Class A: Up to 1% |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.50% per annum                                     |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                                | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                      |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\ \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities worldwide.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth by investing in equity and equity related securities of companies worldwide which the Investment Manager believes will benefit from efforts to accommodate or limit the impact of global climate change and which meet the Investment Manager’s sustainability criteria.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide.

The Fund maintains a higher overall level of avoided emissions than MSCI All Country World (Net TR) index, based on the Investment Manager’s rating system.

*Refer to the “Investment Objectives and Strategies / Product Suitability” and “Risk Factors, Investments,*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

<sup>2</sup> This Fund is an ESG Fund under Circular No. CFC 02/2022 on the Disclosure and Reporting Guidelines for ESG Funds issued by the MAS.

The Fund may invest directly in China H-Shares and may invest up to 10% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Derivatives and Supplementary Information” sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the “The Fund”, “Management and Administration” and “Other Material Information” sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the “Risk Factors, Investments, Derivatives and Supplementary Information” section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer’s individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

**You are exposed to China country risk.**

- Changes in China’s political, legal, economic or tax policies could cause losses or higher costs for the Fund.

**You are exposed to counterparty risk.**

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

**You are exposed to currency risk.**

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**You are exposed to derivatives risk.**

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

**You are exposed to equity risk.**

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**You are exposed to leverage risk.**

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

**You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.**

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks. These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

**You are exposed to sustainability risk.**

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

**You are exposed to emerging and less developed markets risk.**

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

**FEES AND CHARGES**

**WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?**

**Payable directly by you**

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

**Payable by the Fund from invested proceeds**

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                             |
|----------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) Paid by Management Company to financial adviser (trailer fee) | Class A: 1.50% per annum<br>(a) 35% to 100% of Annual Management Fee<br>(b) 0% to 65% <sup>3</sup> of Annual Management Fee |
| Performance Fee                                                                                                                  | Not Applicable                                                                                                              |
| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                |
| Administration Fee                                                                                                               | Up to 0.25% per annum                                                                                                       |
| Accounting and Valuation Fee                                                                                                     | Up to 0.0083% per annum                                                                                                     |

<sup>3</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rcccl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**ChiNext:** the ChiNext market of the Shenzhen Stock Exchange.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**ESG:** Environmental, Social and Governance.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**STAR Board:** the Science, Technology and Innovation board of the Shanghai Stock Exchange.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth and income; and
- understand the risks of investing in equity and equity related securities in emerging markets.

*Further Information  
Refer to the  
“Investment  
Objectives and  
Strategies / Product  
Suitability” section of  
the Prospectus for  
further information  
on product suitability.*

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth and income in excess of the MSCI Emerging Markets 10/40 (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of companies in emerging market countries worldwide.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the  
“Important  
Information”,  
“The Fund”, “The  
Sub-Funds”  
and “Investment  
Objectives and  
Strategies / Product  
Suitability” sections  
of the Prospectus for  
further information  
on features of the  
product.*

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies in emerging market countries worldwide.

The Fund may invest directly in China H-Shares and may invest less than 20% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

*Refer to the  
“Investment  
Objectives and  
Strategies / Product  
Suitability” and  
“Risk Factors,  
Investments,  
Derivatives and*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the MSCI Emerging Markets 10/40 (Net TR) index, based on the Investment Manager's rating criteria.

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

**You are exposed to currency risk.**

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**You are exposed to derivatives risk.**

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

**You are exposed to emerging and less developed markets risk.**

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

**You are exposed to equity risk.**

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**You are exposed to leverage risk.**

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

**You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.**

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks. These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

**You are exposed to sustainability risk.**

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

**FEES AND CHARGES**

**WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?**

**Payable directly by you**

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

**Payable by the Fund from invested proceeds**

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                                                                         |
|-------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.50% per annum                                                                                |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                                                                |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee; with the median trailer fee being 50% <sup>3</sup> |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

<sup>3</sup> The median trailer fee is derived based on the trailer fees payable only to direct Singapore retail distributors for the Class A Units. Institutional investors (including insurers or investment-linked plans) or accredited investors, and/or non-Singapore distributors are excluded in the computation of both the median trailer fee and the trailer fee range whereby a trailer fee arrangement may not be applicable.

|                              |                                                              |
|------------------------------|--------------------------------------------------------------|
| Performance Fee              | Not Applicable                                               |
| Custody Fee                  | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee           | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee | Up to 0.0083% per annum                                      |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\ \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**ChiNext:** the ChiNext market of the Shenzhen Stock Exchange.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**STAR Board:** the Science, Technology and Innovation board of the Shanghai Stock Exchange.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Global Energy (the “Fund”)

|                    |                                                                       |                                                   |                                   |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of companies in the energy sector.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the MSCI World SMID Energy index after fees have been deducted over a three to five year period by investing in equity and equity related securities of companies in the energy sector.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in a concentrated range of equities of small and mid-sized companies in the energy sector. These are companies which, at the time of purchase, are considered to be in the bottom 80% by market capitalisation of the energy sector. The Fund typically holds fewer than 50 companies.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to concentration risk.

- The Fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the Fund, both up or down, which may adversely impact the performance of the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

## Fees and Charges

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.50% per annum                                     |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not Applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                                | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                      |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\ \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- primarily seek income; and
- understand the risks of investing in equity and equity related securities of companies globally.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to deliver an income of 7%\* per year by investing in equities or equity related securities of companies worldwide. This is not guaranteed and could change depending on market conditions.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*\*You should note that this is the investment objective of the Fund and the reference to income distribution (or an income rate) seeks to be achieved by the Fund is not and should not be interpreted to be a prediction, projection or forecast of the future performance of the Fund. It is not indicative of the future or likely performance of the Fund.*

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets (excluding cash) in equities or equity related securities worldwide, which are selected for their income and capital growth potential. To enhance the yield of the Fund the Investment Manager selectively sells short dated call options over individual securities held by the Fund, generating extra income by agreeing strike prices above which potential capital growth is sold.

The Fund may invest directly in China H-Shares and may invest up to 10% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" section of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to derivatives risk.

- The Fund makes use of derivatives in a way that is fundamental to its investment objective. It is expected that the strategy will typically underperform a similar portfolio with no derivatives overlay in periods when the underlying stock prices are rising, and outperform when the underlying stock prices are falling.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks. These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                             |
|----------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) Paid by Management Company to financial adviser (trailer fee) | Class A: 1.50% per annum<br>(a) 35% to 100% of Annual Management Fee<br>(b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                                                                                  | Not Applicable                                                                                                              |
| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

|                                                                |                         |
|----------------------------------------------------------------|-------------------------|
| Administration Fee                                             | Up to 0.25% per annum   |
| Accounting and Valuation Fee                                   | Up to 0.0083% per annum |
| Share Class Hedging Charge (to be borne by the Hedged Classes) | Up to 0.03%             |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\ \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**ChiNext:** the ChiNext market of the Shenzhen Stock Exchange.

**Class:** A class of Shares with a specific fee structure.

**Currency Carry:** This refers to the premium or discount that may apply to the distribution. Distributions may include a premium when the interest rate of a currency hedged Class is higher than the Fund's base currency interest rate. Consequently when the interest rate of a currency hedged Class is lower than the Fund's base currency interest rate, the dividend may be discounted. The level of premium or discount is determined by differences in interest rates and is not part of the Fund's investment objective or investment policy.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**STAR Board:** the Science, Technology and Innovation board of the Shanghai Stock Exchange.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Global Equity Yield (the “Fund”)

|                    |                                                                       |                                                   |                                   |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek income and capital growth; and
- understand the risks of investing in equity and equity related securities of companies worldwide.

*Further Information  
Refer to the  
“Investment  
Objectives and  
Strategies / Product  
Suitability” section of  
the Prospectus for  
further information  
on product suitability.*

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide income and capital growth in excess of the MSCI World (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of companies worldwide.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*Refer to the  
“Important  
Information”,  
“The Fund”, “The  
Sub-Funds”  
and “Investment  
Objectives and  
Strategies / Product  
Suitability” sections  
of the Prospectus for  
further information  
on features of the  
product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide.

The Fund will invest in a diversified portfolio of equity and equity related securities whose dividend yield in aggregate is greater than the average market yield. Equities with below average dividend yield may be included in the portfolio when the Investment Manager considers that they have the potential to pay above average yield in future.

The Fund will not be managed for yield alone: total return (dividend yield plus capital growth) will be equally important.

The Fund may invest directly in China H-Shares and may invest up to 10% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" section of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks. These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                     |
|-------------------------------------------------------------------|-----------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.50% per annum                            |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee            |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                   | Not Applicable                                      |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

|                                                                |                                                              |
|----------------------------------------------------------------|--------------------------------------------------------------|
| Custody Fee                                                    | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                             | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                   | Up to 0.0083% per annum                                      |
| Share Class Hedging Charge (to be borne by the Hedged Classes) | Up to 0.03%                                                  |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\ \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**ChiNext:** the ChiNext market of the Shenzhen Stock Exchange.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**STAR Board:** the Science, Technology and Innovation board of the Shanghai Stock Exchange.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Global Gold (the “Fund”)

|                    |                                                                       |                                                   |                                                                        |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth;
- understand the risks of investing in equity and equity related securities of companies involved in the gold industry globally; and
- understand the risks of investing in a single commodity related sector.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the FTSE Gold Mines UCITS capped index after fees have been deducted over a three to five year period by investing in equity and equity related securities of companies in the gold industry.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide involved in the gold industry. It will also invest up to 40% of its assets in gold and other precious metals through eligible assets<sup>2</sup> as described under the definition of “Alternative Asset Classes” in Appendix III of the Luxembourg Prospectus (which includes notably commodities but excluding Alternative Investment Funds) and gold and other precious metals’ transferable securities.

The Fund may hold up to 40% of its assets in cash and Money Market Investments. The Fund will not be exposed to any physical commodities directly, nor enter into any contracts relating to physical commodities.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds and warrants (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the “Investment Objectives and Strategies / Product Suitability” and “Risk Factors, Investments, Derivatives and Supplementary Information” sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the “The Fund”, “Management and Administration” and “Other Material Information” sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the “Risk Factors, Investments, Derivatives and Supplementary Information” section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer’s individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

<sup>2</sup> This may include (i) transferable securities and Money Market Investments, (ii) units of closed-ended investment funds, (iii) financial instruments linked or backed to the performance of such asset class, (iv) UCITS or other UCIs in accordance with the Grand Ducal Regulation of 8 February 2008 and (v) Financial Indices compliant with article 9 of the Grand Ducal Regulation of 8 February 2008 and CSSF Circular 14/592 and/or (vi) derivatives on eligible assets under (i) – (v) in asset classes such as real estate, infrastructure, private equity, commodities and/or precious metals.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to interest rate risk.

- A rise in interest rates generally causes bond prices to fall.

### You are exposed to money market and deposit risk.

- A failure of a deposit institution or an issuer of Money Market Investments could create losses.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.50% per annum                                     |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>3</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not Applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                                | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                      |
| Share Class Hedging Charge (to be borne by the Hedged Classes)    | Up to 0.03%                                                  |

<sup>3</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rcccl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Alternative Asset Classes:** asset classes including real estate, infrastructure, private equity, commodities, precious metals and Alternative Investment Funds as described in Appendix III, section “Fund Details”, paragraph (I) of the Luxembourg Prospectus.

**Business Day:** Unless otherwise provided in the Fund’s details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year’s Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund’s details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an “undertaking for collective investment” within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an “undertaking for collective investment in transferable securities” within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek income and capital growth; and
- understand the risks of investing in equity and equity related securities of real estate companies worldwide.

**Further Information**  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth and income in excess of the FTSE EPRA NAREIT Developed index (Net TR, USD) after fees have been deducted over a three to five year period by investing in equity and equity related securities of real estate companies worldwide that own assets in global cities and which the Investment Manager deems to be sustainable investments.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

**Refer to the**  
“Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

<sup>2</sup> This Fund is an ESG Fund under Circular No. CFC 02/2022 on the Disclosure and Reporting Guidelines for ESG Funds issued by the MAS.

## Investment Strategy

The Fund is actively managed and invests its assets in sustainable investments, which are investments in real estate companies that contribute to an urban environment that provide a good quality of life for residents while minimising costs to the planet and using resources efficiently.

The Fund may also invest its assets in investments that the Investment Manager deems to be neutral under its sustainability criteria such as cash and Money Market Investments and derivatives used with the aim of reducing risk (hedging) or managing the Fund more efficiently. The Fund invests at least 90% of its assets in equity and equity related securities of sustainable real estate companies worldwide which generate the majority of their earnings from real estate investment related activities and own assets in global cities. These are cities that have positive characteristics such as economic strength, strong transport infrastructure, high quality educational institutions and an innovative business community, based on the Investment Manager's assessment.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.50% per annum                                     |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>3</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not Applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                                | Up to 0.25% per annum                                        |

<sup>3</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

|                                                                      |                         |
|----------------------------------------------------------------------|-------------------------|
| Accounting and Valuation Fee                                         | Up to 0.0083% per annum |
| Share Class Hedging Charge<br>(to be borne by the Hedged<br>Classes) | Up to 0.03%             |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\ \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of companies worldwide which benefit from disruptive innovation.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth by investing in equity and equity related securities of companies worldwide which benefit from disruptive innovation.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide.

Disruptive innovation typically means innovation (whether due to technology or otherwise) which changes a particular industry by creating new markets, products or service models. Disruptive innovation can be observed in many industries such as e-commerce, media & communications and banking & payments. The Investment Manager believes that companies benefitting from disruptive innovation, either as the disruptor or otherwise, can experience a rapid acceleration in, and durability of, growth. The Investment Manager seeks to invest

*Refer to the “Investment Objectives and Strategies / Product Suitability” and “Risk Factors, Investments, Derivatives and Supplementary*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

in companies benefiting from disruptive innovation before this is fully reflected in market expectations.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the MSCI AC World (Net TR) index, based on the Investment Manager's rating criteria.

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Information” sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the “The Fund”, “Management and Administration” and “Other Material Information” sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the “Risk Factors, Investments, Derivatives and Supplementary Information” section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to concentration risk.

The Fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the Fund, both up or down, which may adversely impact the performance of the Fund.

**You are exposed to currency risk.**

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**You are exposed to equity risk.**

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**You are exposed to leverage risk.**

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

**You are exposed to derivatives risk.**

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

**You are exposed to sustainability risk.**

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

**FEES AND CHARGES**

**WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?**

**Payable directly by you**

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                                  |
|-------------------|----------------------------------|
| Initial Charge    | Class A: Up to 5%<br>Class F: 0% |
| Switching Charge  | Up to 1%                         |
| Redemption Charge | None                             |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

**Payable by the Fund from invested proceeds**

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                    |

| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                                                                                                                                                                                                                                                       |
| Administration Fee                                                                                                               | Up to 0.25% per annum                                                                                                                                                                                                                                                                                                                                              |
| Accounting and Valuation Fee                                                                                                     | Up to 0.0083% per annum                                                                                                                                                                                                                                                                                                                                            |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

<sup>3</sup> The median trailer fee is derived based on the trailer fees payable only to direct Singapore retail distributors for the Class A and Class F Units. Institutional investors (including insurers or investment-linked plans) or accredited investors, and/or non-Singapore distributors are excluded in the computation of both the median trailer fee and the trailer fee range whereby a trailer fee arrangement may not be applicable.

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

• Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\ \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** a class of Shares with a specific fee structure.

**Dealing Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of companies worldwide that are associated with the global transition towards lower-carbon sources of energy.

**Further Information**  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth by investing in equity and equity related securities of companies worldwide that the Investment Manager believes are associated with the global transition towards lower-carbon sources of energy and which the Investment Manager deems to be sustainable investments.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

<sup>2</sup> This Fund is an ESG Fund under Circular No. CFC 02/2022 on the Disclosure and Reporting Guidelines for ESG Funds issued by the MAS.

## Investment Strategy

The Fund is actively managed and invests its assets in (i) sustainable investments, which are investments in companies that (a) generate at least 50% of their revenue from activities that contribute towards the global transition towards lower-carbon sources of energy, such as lower-carbon energy production, distribution, storage, transport and associated supply chain, material provider and technology companies or (b) generate a lower percentage of their revenue from these activities where the Investment Manager considers they are playing critical roles in the transition based on the company's capital expenditure, operating expenditure or market share and (ii) investments that the Investment Manager deems to be neutral under its sustainability criteria such as cash and Money Market Investments and derivatives used with the aim of reducing risk (hedging) or managing the Fund more efficiently.

The Fund may invest up to 10% of its assets (on a net basis) directly or indirectly (for example via participatory notes (including delta one securities) and warrants) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund invests at least two-thirds of its assets in a concentrated range of equity and equity related securities of companies worldwide. The Fund typically holds fewer than 60 companies.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to concentration risk.

- The Fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the Fund, both up or down, which may adversely impact the performance of the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks. These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                     |
|-------------------------------------------------------------------|-----------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.50% per annum                            |

| Share Class Hedging Charge (to be borne by the Hedged Classes) | Up to 0.03%                                                  |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$1000 \times \$11.0000 = \$11,000.00$$

(Number of Shares) (Net Asset Value per Share) (Redemption Proceeds)

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** a class of Shares with a specific fee structure.

**Dealing Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**ESG:** Environmental, Social and Governance.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of small-sized companies worldwide.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the S&P Developed Small Cap (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of small-sized companies worldwide.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund's investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of small-sized companies worldwide. Small-sized companies are companies which, at the time of purchase, are considered to be in the bottom 30% by market capitalisation of each relevant equity market.

The Fund may also invest directly in China H-Shares and may invest less than

*Refer to the “Investment Objectives and Strategies / Product Suitability” and*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

30%<sup>2</sup> of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the S&P Developed Small Cap (Net TR) index, based on the Investment Manager's rating criteria.

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*“Risk Factors, Investments, Derivatives and Supplementary Information” sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Sub-Investment Manager is Schroder Investment Management North America Inc..
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the “The Fund”, “Management and Administration” and “Other Material Information” sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the “Risk Factors, Investments, Derivatives and Supplementary Information” section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

<sup>2</sup> With effect from 10 September 2026, this figure will change to 20%.

**You are exposed to counterparty risk.**

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

**You are exposed to currency risk.**

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**You are exposed to derivatives risk.**

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

**You are exposed to equity risk.**

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**You are exposed to leverage risk.**

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

**You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.**

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks. These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

**You are exposed to distribution policy risk (only applicable to Distribution Classes).**

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

**You are exposed to sustainability risk.**

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

**FEES AND CHARGES**

**WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?**

**Payable directly by you**

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

**Payable by the Fund from invested proceeds**

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                                 |
|----------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) Paid by Management Company to financial adviser (trailer fee) | Class A: 1.50% per annum<br>(a) 35% to 100% of Annual Management Fee<br><br>(b) 0% to 65% <sup>3</sup> of Annual Management Fee |
| Performance Fee                                                                                                                  | Not Applicable                                                                                                                  |
| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                    |
| Administration Fee                                                                                                               | Up to 0.25% per annum                                                                                                           |
| Accounting and Valuation Fee                                                                                                     | Up to 0.0083% per annum                                                                                                         |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccc} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**ChiNext:** the ChiNext market of the Shenzhen Stock Exchange.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>4</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**STAR Board:** the Science, Technology and Innovation board of the Shanghai Stock Exchange.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>4</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities worldwide.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth by investing in equity and equity related securities of companies worldwide which meet the Investment Manager’s sustainability criteria.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (EUR) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

<sup>2</sup> This Fund is an ESG Fund under Circular No. CFC 02/2022 on the Disclosure and Reporting Guidelines for ESG Funds issued by the MAS.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide. The Fund typically holds fewer than 50 companies.

The Fund maintains a higher overall sustainability score than MSCI AC World (Net TR) index, based on the Investment Manager's rating system.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

**You are exposed to China country risk.**

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

**You are exposed to counterparty risk.**

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

**You are exposed to sustainability risk.**

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

**You are exposed to currency risk.**

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**You are exposed to derivatives risk.**

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

**You are exposed to equity risk.**

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**You are exposed to emerging and less developed markets risk.**

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

**You are exposed to leverage risk.**

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

**You are exposed to concentration risk.**

- The Fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the Fund, both up or down, which may adversely impact the performance of the Fund.

**FEES AND CHARGES**

**WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?**

**Payable directly by you**

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                                  |
|-------------------|----------------------------------|
| Initial Charge    | Class A: Up to 5%<br>Class F: 0% |
| Switching Charge  | Up to 1%                         |
| Redemption Charge | None                             |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

**Payable by the Fund from invested proceeds**

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                                           |
|-------------------------------------------------------------------|---------------------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.30% per annum                                                  |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                                  |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% of Annual Management Fee; with median trailer fee being 50% |
|                                                                   | Class F: 1.30% per annum                                                  |
|                                                                   | (a) 35% to 100% of Annual Management Fee                                  |
|                                                                   | (b) 0% to 65% of Annual Management Fee; with median trailer fee being 50% |

<sup>3</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

<sup>4</sup> The median trailer fee is derived based on the trailer fees payable only to direct Singapore retail distributors for the Class A and Class F Units. Institutional investors (including insurers or investment-linked plans) or accredited investors, and/or non-Singapore distributors are excluded in the computation of both the median trailer fee and the trailer fee range whereby a trailer fee arrangement may not be applicable.

|                                                                |                                                              |
|----------------------------------------------------------------|--------------------------------------------------------------|
| Performance Fee                                                | Not Applicable                                               |
| Custody Fee                                                    | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                             | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                   | Up to 0.0083% per annum                                      |
| Share Class Hedging Charge (to be borne by the Hedged Classes) | Up to 0.03%                                                  |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$1000 \times \$11.0000 = \$11,000.00$$

(Number of Shares) (Net Asset Value per Share) (Redemption Proceeds)

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**ESG:** Environmental, Social and Governance.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities in China, Hong Kong and Taiwan.

*Further Information  
Refer to the  
“Investment  
Objectives and  
Strategies / Product  
Suitability” section of  
the Prospectus for  
further information  
on product suitability.*

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the MSCI Golden Dragon (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of People’s Republic of China, Hong Kong SAR and Taiwan companies.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the  
“Important  
Information”,  
“The Fund”, “The  
Sub-Funds”  
and “Investment  
Objectives and  
Strategies / Product  
Suitability” sections  
of the Prospectus for  
further information  
on features of the  
product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies in People's Republic of China, Hong Kong SAR and Taiwan.

The Fund may invest directly in China H-Shares and may invest less than 50% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through:

- the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect;
- the Qualified Foreign Investor (“QFI”) Scheme;
- shares listed on the STAR Board and the ChiNext; and
- Regulated Markets.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

***The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.***

***The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.***

*Refer to the “Investment Objectives and Strategies / Product Suitability” and “Risk Factors, Investments, Derivatives and Supplementary Information” sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Hong Kong) Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the “The Fund”, “Management and Administration” and “Other Material Information” sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the “Risk Factors, Investments, Derivatives and Supplementary Information” section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in Greater China.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks. These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

### You are exposed to risks regarding QFI Status.

- The Investment Manager's QFI status may be suspended or revoked and this may adversely affect the Fund's performance by requiring the Fund to dispose of its securities holdings.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                                  |
|-------------------|----------------------------------|
| Initial Charge    | Class A: Up to 5%<br>Class F: 0% |
| Switching Charge  | Up to 1%                         |
| Redemption Charge | None                             |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                    |
|----------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                                                                                                                                                                                                                                                       |
| Administration Fee                                                                                                               | Up to 0.25% per annum                                                                                                                                                                                                                                                                                                                                              |
| Accounting and Valuation Fee                                                                                                     | Up to 0.0083% per annum                                                                                                                                                                                                                                                                                                                                            |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rclcl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

Distributor

The Singapore Representative

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

<sup>3</sup> The median trailer fee is derived based on the trailer fees payable only to direct Singapore retail distributors for the Class A and Class F Units. Institutional investors (including insurers or investment-linked plans) or accredited investors, and/or non-Singapore distributors are excluded in the computation of both the median trailer fee and the trailer fee range whereby a trailer fee arrangement may not be applicable.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**ChiNext:** the ChiNext market of the Shenzhen Stock Exchange.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Eligible State:** Includes any member state of the European Union, any member state of the Organisation for Economic Co-operation and Development, and any other state which the board of directors of the Company deem appropriate.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Regulated Market:** a market within the meaning of Article 4 (1) (21) of the Directive 2014/65/EC of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments or another regulated market, which operates regularly and is recognised and open to the public in an Eligible State.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**STAR Board:** the Science, Technology and Innovation board of the Shanghai Stock Exchange.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Healthcare Innovation<sup>2</sup> (the “Fund”)

|                    |                                                                       |                                                   |                                   |

| Capital Guaranteed | No                                                                    | Expense Ratio for the year ended 31 December 2025 | USD Class A: 1.85%                |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of healthcare and medical related companies worldwide.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth by investing in equity and equity related securities of healthcare and medical related companies worldwide which the Investment Manager deems to be sustainable investments.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

<sup>2</sup> This Fund is an ESG Fund under Circular No. CFC 02/2022 on the Disclosure and Reporting Guidelines for ESG Funds issued by the MAS.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide, which are engaged in healthcare provision, medical services and related products.

The Fund invests at least 80% of its assets in sustainable investments, which are investments in companies that contribute towards the advancement of one or more of the UN SDGs by promoting growth in healthcare provision and medical treatments and improving healthcare standards using an innovation-led approach.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to concentration risk.

- The Fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the Fund, both up or down, which may adversely impact the performance of the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.50% per annum                                     |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>3</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not Applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                                | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                      |

<sup>3</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

• Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rcccl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** a class of Shares with a specific fee structure.

**Dealing Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**ESG:** Environmental, Social and Governance.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

**UN SDGs:** United Nations Sustainable Development Goals.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities listed on the Hong Kong Stock Exchange.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund will aim to provide capital growth in excess of the FTSE MPF Hong Kong Index after fees have been deducted over a three to five year period by investing in equity and equity related securities of companies listed on the Hong Kong Stock Exchange.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies listed on the Hong Kong Stock Exchange.

The Fund may invest directly in China H-Shares and may invest less than 30% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect, the Qualified Foreign Investor (“QFI”) Scheme and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or

*Refer to the “Investment Objectives and Strategies / Product Suitability” and “Risk Factors, Investments, Derivatives and*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Hong Kong) Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in Hong Kong.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

**You are exposed to counterparty risk.**

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

**You are exposed to China country risk.**

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

**You are exposed to concentration risk.**

- The Fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the Fund, both up or down, which may adversely impact the performance of the Fund.

**You are exposed to currency risk.**

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**You are exposed to derivatives risk.**

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

**You are exposed to emerging and less developed markets risk.**

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

**You are exposed to equity risk.**

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**You are exposed to leverage risk.**

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

**You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.**

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks. These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

**You are exposed to risks regarding QFI status.**

- The Investment Manager's QFI status may be suspended or revoked and this may adversely affect the Fund's performance by requiring the Fund to dispose of its securities holdings.

**FEES AND CHARGES**

**WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?**

**Payable directly by you**

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

**Payable by the Fund from invested proceeds**

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                             |
|----------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) Paid by Management Company to financial adviser (trailer fee) | Class A: 1.50% per annum<br>(a) 35% to 100% of Annual Management Fee<br>(b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                                                                                  | Not Applicable                                                                                                              |
| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                |
| Administration Fee                                                                                                               | Up to 0.25% per annum                                                                                                       |
| Accounting and Valuation Fee                                                                                                     | Up to 0.0083% per annum                                                                                                     |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rclcl}
 1000 & \times & \$11.0000 & = & \$11,000.00 \\
 \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)}
 \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**ChiNext:** the ChiNext market of the Shenzhen Stock Exchange.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**STAR Board:** the Science, Technology and Innovation board of the Shanghai Stock Exchange.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of Indian companies or companies which have their principal business activities in India.

**Further Information**  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of MSCI India (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of Indian companies.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of Indian companies or companies which have their principal business activities in India.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the MSCI India (Net TR) index, based on the Investment Manager’s rating criteria.

Refer to the “Investment Objectives and Strategies / Product Suitability” and “Risk Factors, Investments, Derivatives and Supplementary

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Information” sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Singapore) Ltd.
- The Investment Adviser is Axis Asset Management Company Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the “The Fund”, “Management and Administration” and “Other Material Information” sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the “Risk Factors, Investments, Derivatives and Supplementary Information” section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in India.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer’s individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

**You are exposed to counterparty risk.**

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

**You are exposed to concentration risk.**

- The Fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the Fund, both up or down, which may adversely impact the performance of the Fund.

**You are exposed to currency risk.**

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**You are exposed to derivatives risk.**

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

**You are exposed to equity risk.**

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**You are exposed to leverage risk.**

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

**You are exposed to emerging and less developed markets risk.**

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

**FEES AND CHARGES**

**WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?**

**Payable directly by you**

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                                  |
|-------------------|----------------------------------|
| Initial Charge    | Class A: Up to 5%<br>Class F: 0% |
| Switching Charge  | Up to 1%                         |
| Redemption Charge | None                             |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

**Payable by the Fund from invested proceeds**

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                                                                                                                                                            |

| Accounting and Valuation Fee                                                                                                     | Up to 0.0083% per annum                                                                                                                                                                                                                                    |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rcccl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in Japanese equity and equity related securities.

**Further Information**  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the Tokyo Stock Price Index (Net TR) after fees have been deducted over a three to five year period by investing in equity and equity related securities of Japanese companies.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (JPY) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

**Refer to the**  
“Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of Japanese companies.

The Fund seeks to identify and invest in undervalued stocks by estimating their fair value based on predicted returns over the medium to long term.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the Tokyo Stock Price Index (Net TR), based on the Investment Manager's rating criteria.

*Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

***The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.***

***The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.***

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Japan) Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in Japan.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

**You are exposed to distribution policy risk (only applicable to Distribution Classes).**

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.

- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

**You are exposed to derivatives risk.**

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

**You are exposed to counterparty risk.**

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

**You are exposed to currency risk.**

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**You are exposed to equity risk.**

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**You are exposed to leverage risk.**

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

**Payable directly by you**

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

**Payable by the Fund from invested proceeds**

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                             |
|----------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) Paid by Management Company to financial adviser (trailer fee) | Class A: 1.50% per annum<br>(a) 35% to 100% of Annual Management Fee<br>(b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                                                                                  | Not Applicable                                                                                                              |
| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                |
| Administration Fee                                                                                                               | Up to 0.25% per annum                                                                                                       |
| Accounting and Valuation Fee                                                                                                     | Up to 0.0083% per annum                                                                                                     |
| Share Class Hedging Charge<br>(to be borne by the Hedged Classes)                                                                | Up to 0.03%                                                                                                                 |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Japanese Smaller Companies (the “Fund”)

|                    |                                                                       |                                                   |                                   |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of small-sized companies in Japan.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the Russell Nomura Small Cap (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of small-sized Japanese companies.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of small-sized Japanese companies. These are companies which, at the time of purchase, are considered to be in the bottom 30% by market capitalisation of the Japanese equities market.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the Russell Nomura Small Cap (Net TR) index, based on the Investment Manager's rating criteria.

***The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.***

***The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.***

*Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Japan) Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in Japan.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                             |
|----------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) Paid by Management Company to financial adviser (trailer fee) | Class A: 1.50% per annum<br>(a) 35% to 100% of Annual Management Fee<br>(b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                                                                                  | Not Applicable                                                                                                              |
| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                |
| Administration Fee                                                                                                               | Up to 0.25% per annum                                                                                                       |
| Accounting and Valuation Fee                                                                                                     | Up to 0.0083% per annum                                                                                                     |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\ \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Latin American (the “Fund”)

|                    |                                                                       |                                                   |                                                     |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of Latin American companies.

#### Further Information

Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the MSCI Emerging Markets Latin America 10/40 (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of Latin American companies.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of Latin American companies.

The Fund typically holds 40-70 companies.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in Latin America.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

**You are exposed to emerging and less developed markets risk.**

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

**You are exposed to counterparty risk.**

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

**You are exposed to currency risk.**

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**You are exposed to derivatives risk.**

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

**You are exposed to equity risk.**

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**You are exposed to leverage risk.**

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

**You are exposed to distribution policy risk (only applicable to Distribution Classes).**

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

**FEES AND CHARGES**
**WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?**
**Payable directly by you**

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

**Payable by the Fund from invested proceeds**

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                                 |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$1000 \times \$11.0000 = \$11,000.00$$

(Number of Shares) (Net Asset Value per Share) (Redemption Proceeds)

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: C

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of companies worldwide which will benefit from the latest industrial innovation techniques.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth by investing in equity and equity related securities of companies worldwide which the Investment Manager believes will benefit from the latest industrial innovation techniques.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide.

Robotics and automation are key elements of the latest industrial innovation techniques to address the market needs and supply chain challenges of manufacturing and related sectors such as distribution, logistics and transportation. The Investment Manager seeks to invest in companies that it believes will enjoy superior growth through their exposure to these innovations.

The Fund may invest directly in China H-Shares and may invest less than 10% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the MSCI AC World (Net TR) index, based on the Investment Manager's rating criteria.

***The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.***

***The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.***

*Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to concentration risk.

- The Fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the Fund, both up or down, which may adversely impact the performance of the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks. These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                                 |
|----------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) Paid by Management Company to financial adviser (trailer fee) | Class A: 1.50% per annum<br>(a) 35% to 100% of Annual Management Fee<br><br>(b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                                                                                  | Not Applicable                                                                                                                  |
| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                    |
| Administration Fee                                                                                                               | Up to 0.25% per annum                                                                                                           |
| Accounting and Valuation Fee                                                                                                     | Up to 0.0083% per annum                                                                                                         |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

• Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\ \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of small and mid-sized US companies.

**Further Information**  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the Russell 2500 Lagged (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of small and mid-sized US companies.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

**Refer to the**  
“Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of small and mid-sized US companies. These are companies which, at the time of purchase, are considered to be in the bottom 40% by market capitalisation of the US equities market.

**Refer to the**  
“Investment Objectives and Strategies / Product

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

The Fund invests in a broad range of small and mid-sized US companies. The investment approach focuses on three types of US companies: companies that the Investment Manager believes demonstrate strong growth trends and improving levels of cash; companies which the Investment Manager believes generate dependable earnings and revenues; and companies that the Investment Manager believes are undergoing positive change that is not being recognised by the market. By doing so, the Investment Manager believes that it can reduce overall risk and improve returns for investors over the medium to long term.

*Suitability" section of the Prospectus for further information on the investment strategy of the Fund.*

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the S&P Mid Cap 400 Lagged (Net TR) index, based on the Investment Manager's rating criteria.

***The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.***

***The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.***

#### Parties Involved

##### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management North America Inc..
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

#### KEY RISKS

##### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

#### Market and Credit Risks

**You are exposed to market risk in US.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

#### Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.50% per annum                                     |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not Applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

|                                                                      |                         |
|----------------------------------------------------------------------|-------------------------|
| Administration Fee                                                   | Up to 0.25% per annum   |
| Accounting and Valuation Fee                                         | Up to 0.0083% per annum |
| Share Class Hedging Charge<br>(to be borne by the Hedged<br>Classes) | Up to 0.03%             |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\ \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

**USA or US:** the United States of America (including the States and the District of Columbia), its territories, its possessions and any other areas subject to its jurisdiction.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of small-sized US companies.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the Russell 2000 Lagged (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of small-sized US companies whose activities the Investment Manager considers create positive social or environmental impact and which the Investment Manager deems to be sustainable investments.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

#### Investment Strategy

The Fund is actively managed and invests its assets in (i) sustainable investments, which are investments that the Investment Manager expects to contribute towards the advancement of an environmental or social objective linked to one or more

*Refer to the “Investment Objectives and*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

<sup>2</sup> This Fund is an ESG Fund under Circular No. CFC 02/2022 on the Disclosure and Reporting Guidelines for ESG Funds issued by the MAS.

of the UN Sustainable Development Goals (“SDGs”), and to deliver returns to shareholders over the long term, and (ii) investments that the Investment Manager deems to be neutral under its sustainability criteria such as cash and Money Market Investments and derivatives used with the aim of reducing risk (hedging) or managing the Fund more efficiently. The Investment Manager will select companies from a universe of eligible companies that have been determined as meeting the Investment Manager’s impact criteria. The impact criteria include an assessment of the company’s contribution to the UN SDGs alongside the Investment Manager’s assessment of the company’s impact via its proprietary impact investment management framework and tools (including an impact scorecard).

The Fund is part of Schrodors’ Impact Driven strategies. As such, it applies highly selective investment criteria and its investment process is aligned with the Operating Principles for Impact Management which means that an assessment of impact is embedded in the steps of the investment process. All sustainable investments in the Fund are subject to this framework.

The Fund invests in companies that do not cause significant environmental or social harm and have good governance practices, as determined by the Investment Manager’s rating criteria.

The Investment Manager may also engage with companies held by the Fund to seek to improve sustainability practices and enhance social and environmental impacts generated by underlying investee companies.

The Fund invests at least two-thirds of its assets in a concentrated range of equity and equity related securities of small-sized US companies. These are companies which, at the time of purchase, are considered to be in the bottom 30% by market capitalisation of the US equities market. The Fund typically holds 40-60 companies.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg prospectus).

***The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.***

***The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.***

*Strategies / Product Suitability” and “Risk Factors, Investments, Derivatives and Supplementary Information” sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management North America Inc..
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the “The Fund”, “Management and Administration” and “Other Material Information” sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the “Risk Factors, Investments, Derivatives and Supplementary Information” section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk in US.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

## Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.50% per annum                                     |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>3</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not Applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                                | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                      |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>4</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**ESG:** Environmental, Social and Governance.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

**USA or US:** the United States of America (including the States and the District of Columbia), its territories, its possessions and any other areas subject to its jurisdiction.

<sup>4</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Asian Total Return (the “Fund”)

|                    |                                                                       |                                                   |                                   |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of Asia Pacific companies.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth and income in excess of the MSCI AC Asia Pacific ex Japan (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of Asia Pacific companies. The Fund is designed to participate in rising markets whilst aiming to mitigate losses in falling markets through the use of derivatives. The mitigation of losses cannot be guaranteed.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund's investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in Asia Pacific equity and equity related securities.

The Fund may invest directly in China H-Shares and may invest less than 30% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through

*Refer to the “Investment Objectives and Strategies / Product Suitability” and*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

- the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect;
- the Qualified Foreign Investor (“QFI”) Scheme;
- shares listed on the STAR Board and the ChiNext; and
- Regulated Markets.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the MSCI AC Asia Pacific ex Japan (Net TR) index, based on the Investment Manager’s rating criteria.

***The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.***

The Fund may buy or sell equity index futures and buy and sell index options on indices or individual stocks. To obtain exposure to equity indices and individual stocks, the Fund may also enter into contracts for difference where the underlying investments are not delivered and settlement is made in cash. Contracts for difference may be used to gain long and short exposure or to hedge exposure on equity and equity related securities. The gross exposure of contracts for difference will not exceed 10% and is expected to remain within the range of 0% to 10% of the net asset value of the Fund. In certain circumstances this proportion may be higher.

***The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.***

*“Risk Factors, Investments, Derivatives and Supplementary Information” sections of the Prospectus for further information on the investment strategy of the Fund.*

#### Parties Involved

##### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Singapore) Ltd.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the “The Fund”, “Management and Administration” and “Other Material Information” sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

#### KEY RISKS

##### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the “Risk Factors, Investments, Derivatives and Supplementary Information” section of the Prospectus for further information on risks of the product.*

#### Market and Credit Risks

**You are exposed to market risk in Asia Pacific.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer’s individual situation.

#### Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks.
- These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

### You are exposed to short selling risk.

- The Fund may take positions that seek to profit if the price of a security falls. A large rise in the price of the security may cause large losses.

### You are exposed to risks regarding QFI Status.

- The Investment Manager's QFI status may be suspended or revoked and this may adversely affect the Fund's performance by requiring the Fund to dispose of its securities holdings.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## Fees and Charges

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

## Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                                      |
|-------------------------------------------------------------------|----------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company       | Class A: 1.50% per annum<br>(a) 35% to 100% of Annual Management Fee |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee                  |
| Performance Fee                                                   | Not Applicable                                                       |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction         |
| Administration Fee                                                | Up to 0.25% per annum                                                |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                              |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rclcl}
 1000 & \times & \$11.0000 & = & \$11,000.00 \\
 \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)}
 \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**ChiNext:** the ChiNext market of the Shenzhen Stock Exchange.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Regulated Market:** a market within the meaning of Article 4 (1) (21) of the Directive 2014/65/EC of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments or another regulated market, which operates regularly and is recognised and open to the public in an Eligible State.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**STAR Board:** the Science, Technology and Innovation board of the Shanghai Stock Exchange.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of Chinese companies.

**Further Information**  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the MSCI China (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of Chinese companies.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of Chinese companies.

The Fund may invest directly in China H-Shares and may invest less than 50% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through:

- the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect;
- the Qualified Foreign Investor (“QFI”) Scheme;
- shares listed on the STAR Board and the ChiNext; and
- Regulated Markets.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the MSCI China (Net TR) index, based on the Investment Manager’s rating criteria.

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the “Investment Objectives and Strategies / Product Suitability” and “Risk Factors, Investments, Derivatives and Supplementary Information” sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Hong Kong) Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the “The Fund”, “Management and Administration” and “Other Material Information” sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the “Risk Factors, Investments, Derivatives and Supplementary Information” section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in China.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer’s individual situation.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks. These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

### You are exposed to risks regarding QFI Status.

- The Investment Manager's QFI status may be suspended or revoked and this may adversely affect the Fund's performance by requiring the Fund to dispose of its securities holdings.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                                                                                     |
|----------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) Paid by Management Company to financial adviser (trailer fee) | Class A: 1.50% per annum<br>(a) 35% to 100% of Annual Management Fee<br><br>(b) 0% to 65% <sup>2</sup> of Annual Management Fee, with the median trailer fee being 50% <sup>3</sup> |
| Performance Fee                                                                                                                  | Not Applicable                                                                                                                                                                      |
| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                                                                        |
| Administration Fee                                                                                                               | Up to 0.25% per annum                                                                                                                                                               |
| Accounting and Valuation Fee                                                                                                     | Up to 0.0083% per annum                                                                                                                                                             |
| Share Class Hedging Charge (to be borne by the Hedged Classes)                                                                   | Up to 0.03%                                                                                                                                                                         |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$1000 \times \$11.0000 = \$11,000.00$$

(Number of Shares) (Net Asset Value per Share) (Redemption Proceeds)

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## CONTACT INFORMATION

### HOW DO YOU CONTACT US?

For enquiries, please contact

### Schroder Investment Management (Singapore) Ltd

Singapore 048946 Tel: +65 6534 4288  
Website: <http://www.schroders.com.sg>

Distributor

The Singapore Representative

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

<sup>3</sup> The median trailer fee is derived based on the trailer fees payable only to direct Singapore retail distributors for the Class A Units. Institutional investors (including insurers or investment-linked plans) or accredited investors, and/or non-Singapore distributors are excluded in the computation of both the median trailer fee and the trailer fee range whereby a trailer fee arrangement may not be applicable.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**ChiNext:** the ChiNext market of the Shenzhen Stock Exchange.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Eligible State:** Includes any member state of the European Union, any member state of the Organisation for Economic Co-operation and Development, and any other state which the board of directors of the Company deem appropriate.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Regulated Market:** a market within the meaning of Article 4 (1) (21) of the Directive 2014/65/EC of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments or another regulated market, which operates regularly and is recognised and open to the public in an Eligible State.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**STAR Board:** the Science, Technology and Innovation board of the Shanghai Stock Exchange.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of European companies.

*Further Information  
Refer to the  
“Investment  
Objectives and  
Strategies / Product  
Suitability” section of  
the Prospectus for  
further information  
on product suitability.*

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the MSCI Europe (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of European companies.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (EUR) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*Refer to the  
“Important  
Information”,  
“The Fund”, “The  
Sub-Funds”  
and “Investment  
Objectives and  
Strategies /  
Product Suitability”  
sections of the  
Prospectus for  
further information  
on features of the  
product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in a concentrated range of equities of European companies.

The Fund typically holds 30 - 70 companies. The Fund applies a disciplined value investment approach, seeking to invest in a select portfolio of companies that the Investment Manager believes are significantly undervalued relative to their long-term earnings potential.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund invests at least 35% of its assets in sustainable investments, which are investments that the Investment Manager expects to contribute towards the advancement of one or more environmental and/or social objective(s).

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in Europe.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.50% per annum                                     |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not Applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                                | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                      |

Share Class Hedging Charge  
(to be borne by the Hedged  
Classes)

Up to 0.03%

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rcccl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual  
Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of companies worldwide.

*Further Information  
Refer to the  
“Investment  
Objectives and  
Strategies / Product  
Suitability” section of  
the Prospectus for  
further information  
on product suitability.*

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth by investing in equity and equity related securities of companies worldwide which help the transition towards the sustainable provision of food and water and which the Investment Manager deems to be sustainable investments.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*Refer to the  
“Important  
Information”,  
“The Fund”, “The  
Sub-Funds”  
and “Investment  
Objectives and  
Strategies /  
Product Suitability”  
sections of the  
Prospectus for  
further information  
on features of the  
product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

<sup>2</sup> This Fund is an ESG Fund under Circular No. CFC 02/2022 on the Disclosure and Reporting Guidelines for ESG Funds issued by the MAS.

## Investment Strategy

The Fund is actively managed and invests its assets in (i) sustainable investments, which are investments that the Investment Manager expects to contribute towards the provision of sustainable food and water including water management, agricultural equipment, agricultural inputs, food security, food production, processing, packaging and distribution, food and water retail and recycling, and (ii) investments that the Investment Manager deems to be neutral under its sustainability criteria such as cash and Money Market Investments and derivatives used with the aim of reducing risk (hedging) or managing the Fund more efficiently.

The Fund invests at least two-thirds of its assets in a concentrated range of equity and equity related securities of companies worldwide. The Fund typically holds 35 – 60 companies.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

***The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.***

***The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.***

*Refer to the “Investment Objectives and Strategies / Product Suitability” and “Risk Factors, Investments, Derivatives and Supplementary Information” sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the “The Fund”, “Management and Administration” and “Other Material Information” sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the “Risk Factors, Investments, Derivatives and Supplementary Information” section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer’s individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## Fees and Charges

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Class A: Up to 1% |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.50% per annum                                     |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>3</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not Applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                                | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                      |
| Share Class Hedging Charge (to be borne by the Hedged Classes)    | Up to 0.03%                                                  |

<sup>3</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\ \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** a class of Shares with a specific fee structure.

**Dealing Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**ESG:** Environmental, Social and Governance.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of Chinese companies listed and traded on Chinese stock exchanges such as Shenzhen or Shanghai Stock Exchanges.

**Further Information**  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the MSCI China A Onshore (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of Chinese companies listed and traded on Chinese stock exchanges such as Shenzhen or Shanghai Stock Exchanges.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

**Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.**

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of Chinese companies listed and traded on Chinese stock exchanges such as Shenzhen or Shanghai Stock Exchanges (China A-Shares).

The Fund may invest up to 100% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through

- the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect;

**Refer to the “Investment Objectives and Strategies / Product Suitability” and “Risk Factors, Investments,**

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

- the Qualified Foreign Investor (“QFI”) Scheme;
- shares listed on the STAR Board and the ChiNext; and
- Regulated Markets.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Sub-Fund more efficiently.** Where the Fund uses contracts for difference, the underlying consists of instruments in which the Fund may invest according to its Investment Objective and Investment Strategy. In particular, contracts for difference may be used to gain long or short exposures or to hedge exposure on equity and equity related securities.

The gross exposure of contracts for difference will not exceed 30% and is expected to remain within the range of 0% to 30% of the net asset value. In certain circumstances this proportion may be higher.

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Derivatives and Supplementary Information” sections of the Prospectus for further information on the investment strategy of the Fund.*

#### Parties Involved

##### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Hong Kong) Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the “The Fund”, “Management and Administration” and “Other Material Information” sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

#### KEY RISKS

##### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the “Risk Factors, Investments, Derivatives and Supplementary Information” section of the Prospectus for further information on risks of the product.*

#### Market and Credit Risks

**You are exposed to market risk in Asia excluding Japan.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer’s individual situation.

#### Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks. These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to risks regarding QFI Status.

- The Investment Manager's QFI status may be suspended or revoked and this may adversely affect the Fund's performance by requiring the Fund to dispose of its securities holdings.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Class A: Up to 1% |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                             |
|----------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) Paid by Management Company to financial adviser (trailer fee) | Class A: 1.50% per annum<br>(a) 35% to 100% of Annual Management Fee<br>(b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                                                                                  | Not Applicable                                                                                                              |
| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                |
| Administration Fee                                                                                                               | Up to 0.25% per annum                                                                                                       |
| Accounting and Valuation Fee                                                                                                     | Up to 0.0083% per annum                                                                                                     |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rcccl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**ChiNext:** the ChiNext market of the Shenzhen Stock Exchange.

**Class:** a class of Shares with a specific fee structure.

**Dealing Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Regulated Market:** a market within the meaning of Article 4 (1) (21) of the Directive 2014/65/EC of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments or another regulated market, which operates regularly and is recognised and open to the public in an Eligible State.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**STAR Board:** the Science, Technology and Innovation board of the Shanghai Stock Exchange.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund All China Equity (the “Fund”)

|                    |                                                                       |                                                   |                                   |
|--------------------|-----------------------------------------------------------------------|---------------------------------------------------|-----------------------------------|
| Product Type       | Open-ended investment company                                         | Launch Date                                       | 27/06/2018                        |
| Manager            | Schroder Investment Management (Europe) S.A. (the Management Company) | Depository                                        | J.P. Morgan SE, Luxembourg Branch |
| Trustee            | Not Applicable                                                        | Dealing Frequency                                 | Every Dealing Day                 |
| Capital Guaranteed | No                                                                    | Expense Ratio for the year ended 31 December 2025 | USD Class A: 1.84%                |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of Chinese companies (irrespective of where the companies are listed).

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the MSCI China All Shares Net TR index after fees have been deducted over a three to five year period by investing in equity and equity related securities of Chinese companies (irrespective of where they are listed).

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of Chinese companies.

The Fund may invest directly in China H-Shares. The Fund may invest up to 70% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through:

- Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect;
- the Qualified Foreign Investor (“QFI”) Scheme;
- shares listed on the STAR Board and the ChiNext; and
- Regulated Markets.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the “Investment Objectives and Strategies / Product Suitability” and “Risk Factors, Investments, Derivatives and Supplementary Information” sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Hong Kong) Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the “The Fund”, “Management and Administration” and “Other Material Information” sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the “Risk Factors, Investments, Derivatives and Supplementary Information” section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in Asia.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer’s individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks. These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to risks regarding QFI Status.

- The Investment Manager's QFI status may be suspended or revoked and this may adversely affect the Fund's performance by requiring the Fund to dispose of its securities holdings.

## Fees and Charges

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Class A: Up to 1% |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                     |
|-------------------------------------------------------------------|-----------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.50% per annum                            |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee            |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                   | Not Applicable                                      |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

|                              |                                                              |
|------------------------------|--------------------------------------------------------------|
| Custody Fee                  | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee           | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee | Up to 0.0083% per annum                                      |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\ \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**ChiNext:** the ChiNext market of the Shenzhen Stock Exchange.

**Class:** a class of Shares with a specific fee structure.

**Dealing Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Regulated Market:** a market within the meaning of Article 4 (1) (21) of the Directive 2014/65/EC of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments or another regulated market, which operates regularly and is recognised and open to the public in an Eligible State.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**STAR Board:** the Science, Technology and Innovation board of the Shanghai Stock Exchange.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund China A All Cap (the “Fund”)

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of Chinese companies listed and traded on Chinese stock exchanges such as Shenzhen or Shanghai Stock Exchanges.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the MSCI China A Onshore (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of Chinese companies listed and traded on Chinese stock exchanges such as Shenzhen or Shanghai Stock Exchanges.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in a concentrated range of equity and equity related securities of Chinese companies listed and traded on Chinese stock exchanges such as Shenzhen or Shanghai Stock Exchanges (China A-Shares). The Fund typically holds 30 – 50 companies. The Fund may invest in a broad range of companies regardless of market capitalisations.

The Fund may invest up to 100% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through

*Refer to the “Investment Objectives and Strategies / Product Suitability” and “Risk Factors, Investments,*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

- the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect;
- the Qualified Foreign Investor (“QFI”) Scheme;
- shares listed on the STAR Board and the ChiNext; and
- Regulated Markets.

The Fund may invest up to 10% of its assets in offshore listed Chinese companies and up to 10% of its assets in the offshore listing of dual-listed Chinese A-Share companies.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the MSCI China A Onshore (Net TR) index, based on the Investment Manager’s rating system.

***The Fund may use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.***

***The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.***

*Derivatives and Supplementary Information” sections of the Prospectus for further information on the investment strategy of the Fund.*

#### Parties Involved

##### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Hong Kong) Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the “The Fund”, “Management and Administration” and “Other Material Information” sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

#### KEY RISKS

##### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the “Risk Factors, Investments, Derivatives and Supplementary Information” section of the Prospectus for further information on risks of the product.*

#### Market and Credit Risks

**You are exposed to market risk in Asia excluding Japan.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer’s individual situation.

#### Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks. These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to risks regarding QFI Status.

- The Investment Manager's QFI status may be suspended or revoked and this may adversely affect the Fund's performance by requiring the Fund to dispose of its securities holdings.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Class A: Up to 1% |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                     |
|-------------------------------------------------------------------|-----------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.50% per annum                            |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee            |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                   | Not Applicable                                      |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

|                              |                                                              |
|------------------------------|--------------------------------------------------------------|
| Custody Fee                  | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee           | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee | Up to 0.0083% per annum                                      |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\ \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**ChiNext:** the ChiNext market of the Shenzhen Stock Exchange.

**Class:** a class of Shares with a specific fee structure.

**Dealing Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Regulated Market:** a market within the meaning of Article 4 (1) (21) of the Directive 2014/65/EC of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments or another regulated market, which operates regularly and is recognised and open to the public in an Eligible State.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public

holiday) on which commercial banks in Singapore are open for normal banking business.

**STAR Board:** the Science, Technology and Innovation board of the Shanghai Stock Exchange.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund European Sustainable Equity<sup>2</sup> (the “Fund”)

|                    |                                                                       |                                                   |                                   |
|--------------------|-----------------------------------------------------------------------|---------------------------------------------------|-----------------------------------|
| Product Type       | Open-ended investment company                                         | Launch Date                                       | 12/12/2018                        |
| Manager            | Schroder Investment Management (Europe) S.A. (the Management Company) | Depository                                        | J.P. Morgan SE, Luxembourg Branch |

| Capital Guaranteed | No                                                                    | Expense Ratio for the year ended 31 December 2025 | EUR Class A: 1.59% to 1.60%       |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek income and capital growth; and
- understand the risks of investing in equity and equity related securities of European companies.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the MSCI Europe (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of European companies which meet the Investment Manager’s sustainability criteria.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds”, and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

<sup>2</sup> This Fund is an ESG Fund under Circular No. CFC 02/2022 on the Disclosure and Reporting Guidelines for ESG Funds issued by the MAS.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of European companies.

The Fund maintains a higher overall sustainability score than the MSCI Europe (Net TR) index, based on the Investment Manager's rating system.

The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in Europe.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.25% per annum                                     |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>3</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not Applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc}
 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\
 \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)}
 \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>4</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**ESG:** Environmental, Social and Governance.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>4</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek income and capital growth; and
- understand the risks of investing in equity and equity related securities of companies worldwide.

**Further Information**  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the MSCI World (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of companies worldwide which meet the Investment Manager’s sustainability criteria.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

<sup>2</sup> This Fund is an ESG Fund under Circular No. CFC 02/2022 on the Disclosure and Reporting Guidelines for ESG Funds issued by the MAS.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide.

The Fund applies a disciplined value investment approach, seeking to invest in a select portfolio of companies that the Investment Manager believes are significantly undervalued relative to their long-term earnings potential.

The Fund maintains a higher overall sustainability score than the MSCI World (Net TR) index, based on the Investment Manager's rating system.

The Sub-Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria.

The Fund may invest in companies that the Investment Manager believes will improve their sustainability practices within a reasonable timeframe, typically up to three years.

The Fund may invest directly in China H-Shares and may invest up to 10% of its assets (on a net basis) directly or indirectly in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                             |
|----------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) Paid by Management Company to financial adviser (trailer fee) | Class A: 1.50% per annum<br>(a) 35% to 100% of Annual Management Fee<br>(b) 0% to 65% <sup>3</sup> of Annual Management Fee |
| Performance Fee                                                                                                                  | Not Applicable                                                                                                              |
| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                |

|                                                                      |                         |
|----------------------------------------------------------------------|-------------------------|
| Administration Fee                                                   | Up to 0.25% per annum   |
| Accounting and Valuation Fee                                         | Up to 0.0083% per annum |
| Share Class Hedging Charge<br>(to be borne by the Hedged<br>Classes) | Up to 0.03%             |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rclcl}
 1000 & \times & \$11.0000 & = & \$11,000.00 \\
 \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)}
 \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of Indian companies.

**Further Information**  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the MSCI India (NET TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of Indian companies.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of Indian companies.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the MSCI India (Net TR) index, based on the Investment Manager's rating criteria.

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Investment Adviser is Axis Asset Management Company Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in India.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

**You are exposed to counterparty risk.**

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

**You are exposed to concentration risk.**

- The Fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the Fund, both up or down, which may adversely impact the performance of the Fund.

**You are exposed to currency risk.**

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**You are exposed to derivatives risk.**

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

**You are exposed to equity risk.**

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**You are exposed to leverage risk.**

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

**You are exposed to emerging and less developed markets risk.**

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

**FEES AND CHARGES**

**WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?**

**Payable directly by you**

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

**Payable by the Fund from invested proceeds**

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                      |
|----------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) Paid by Management Company to financial adviser (trailer fee) | Class A: 1.50% per annum<br>(a) 35% to 100% of Annual Management Fee<br><br>(b) 0% to 65% <sup>2</sup> of Annual Management Fee; with the median trailer fee currently being N.A. <sup>3</sup><br><br>Class F: 1.50% per annum<br>(a) 35% to 100% of Annual Management Fee<br><br>(b) 0% to 65% <sup>2</sup> of Annual Management Fee; with the median trailer fee currently being N.A. <sup>3</sup> |
| Performance Fee                                                                                                                  | Not Applicable                                                                                                                                                                                                                                                                                                                                                                                       |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

<sup>3</sup> The median trailer fee is derived based on the trailer fees payable only to direct Singapore retail distributors for the Class A and Class F Units. Institutional investors (including insurers or investment-linked plans) or accredited investors, and/or non-Singapore distributors are excluded in the computation of both the median trailer fee and the trailer fee range whereby a trailer fee arrangement may not be applicable.

|                              |                                                              |
|------------------------------|--------------------------------------------------------------|
| Custody Fee                  | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee           | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee | Up to 0.0083% per annum                                      |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rclcl}
 1000 & \times & \$11.0000 & = & \$11,000.00 \\
 \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)}
 \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** a class of Shares with a specific fee structure.

**Dealing Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of companies worldwide.

**Further Information**  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide an annual yield in excess of the MSCI All Country World (Net TR) Index and capital growth by investing in equity and equity related securities of companies worldwide.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide. To enhance the dividend yield of the Fund, the Investment Manager will, sell short dated call options over individual securities held by the Fund. This may at times adversely affect the capital growth of the Fund.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the MSCI All Country World (Net TR) index, based on the Investment Manager's rating criteria.

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to emerging and frontier markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount. Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                     |
|-------------------------------------------------------------------|-----------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.30% per annum                            |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee            |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

|                              |                                                              |
|------------------------------|--------------------------------------------------------------|
| Performance Fee              | Not Applicable                                               |
| Custody Fee                  | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee           | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee | Up to 0.0083% per annum                                      |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rcccl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** a class of Shares with a specific fee structure.

**Dealing Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

Singapore Business Day: means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Global Equity Alpha (the “Fund”)

|                    |                                                                       |                                                   |                                                        |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in equity and equity related securities of companies worldwide.

#### Further Information

Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the MSCI World (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of companies worldwide.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide.

‘Alpha’ funds invest in companies in which the Investment Manager has a high conviction that the current share price does not reflect the future prospects for that business.

The Investment Manager seeks to identify companies which it believes will deliver future earnings growth above the level expected by the market typically

Refer to the “Investment Objectives and Strategies / Product Suitability” and “Risk Factors, Investments, Derivatives and

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

on a three to five year horizon (the Investment Manager terms this as ‘a positive growth gap’).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Supplementary Information” sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Europe) S.A. – German Branch.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the “The Fund”, “Management and Administration” and “Other Material Information” sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the “Risk Factors, Investments, Derivatives and Supplementary Information” section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer’s individual situation.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to China country risk.

- Changes in China’s political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**You are exposed to concentration risk.**

- The Fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the Fund, both up or down, which may adversely impact the performance of the Fund.

**You are exposed to derivatives risk.**

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

**You are exposed to equity risk.**

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**You are exposed to leverage risk.**

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

**You are exposed to emerging and less developed markets risk.**

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

**FEES AND CHARGES**
**WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?**
**Payable directly by you**

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

**Payable by the Fund from invested proceeds**

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                                                                         |
|-------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.50% per annum                                                                                |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                                                                |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee; with the median trailer fee being 48% <sup>3</sup> |
| Performance Fee                                                   | Not Applicable                                                                                          |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction                                            |
| Administration Fee                                                | Up to 0.25% per annum                                                                                   |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                                                                 |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

<sup>3</sup> The median trailer fee is derived based on the trailer fees payable only to direct Singapore retail distributors for the Class A Units. Institutional investors (including insurers or investment-linked plans) or accredited investors, and/or non-Singapore distributors are excluded in the computation of both the median trailer fee and the trailer fee range whereby a trailer fee arrangement may not be applicable.

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rclcl}
 1000 & \times & \$11.0000 & = & \$11,000.00 \\
 \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)}
 \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund QEP Global Active Value (the “Fund”)

|                    |                                                                       |                                                   |                                   |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth and income; and
- understand the risks of investing in equity and equity related securities of companies worldwide.

**Further Information**  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth and income in excess of the MSCI AC World (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity-related securities of companies worldwide.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

For the Fund, the Investment Manager undertakes the hedging of the Shares of the hedged Share Classes by considering the relevant proportionate underlying currency exposures of the Fund. Performance of these hedged Share Classes may therefore vary significantly from equivalent Share Classes in the Fund’s base currency.

**Refer to the**  
“Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in a diversified portfolio of equity and equity-related securities of companies worldwide.

The Fund focuses on companies that have certain “Value” characteristics. Value is assessed by looking at indicators such as cash flows, dividends and earnings to identify securities which the Investment Manager believes have been undervalued by the market.

The Fund may invest directly in China H-Shares and may invest less than 10% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the “Investment Objectives and Strategies / Product Suitability” and “Risk Factors, Investments, Derivatives and Supplementary Information” sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the “The Fund”, “Management and Administration” and “Other Material Information” sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the “Risk Factors, Investments, Derivatives and Supplementary Information” section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer’s individual situation.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks. These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.25% per annum                                     |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not Applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |

|                                                                      |                         |
|----------------------------------------------------------------------|-------------------------|
| Administration Fee                                                   | Up to 0.25% per annum   |
| Accounting and Valuation Fee                                         | Up to 0.0083% per annum |
| Share Class Hedging Charge<br>(to be borne by the Hedged<br>Classes) | Up to 0.03%             |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\ \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**ChiNext:** the ChiNext market of the Shenzhen Stock Exchange.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**QEP:** quantitative equity products.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**STAR Board:** the Science, Technology and Innovation board of the Shanghai Stock Exchange.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund QEP Global Quality (the “Fund”)

|                    |                                                                       |                                                   |                                   |
|--------------------|-----------------------------------------------------------------------|---------------------------------------------------|-----------------------------------|
| Product Type       | Open-ended investment company                                         | Launch Date                                       | 17/10/2007                        |

| Trustee            | Not Applicable                                                        | Dealing Frequency                                 | Every Dealing Day                 |
| Capital Guaranteed | No                                                                    | Expense Ratio for the year ended 31 December 2025 | USD Class A / EUR Class A: 1.59%  |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth and income; and
- understand the risks of investing in equity and equity related securities of companies worldwide.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth and income in excess of the MSCI AC World (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity-related securities of companies worldwide.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in a diversified portfolio of equity and equity-related securities of companies worldwide.

The Fund focuses on companies that have certain “Quality” characteristics. Quality is assessed by looking at indicators such as a company’s profitability, stability, financial strength, governance and structural growth.

The Fund may invest directly in China H-Shares and may invest less than 10% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

The Fund maintains a higher overall sustainability score than MSCI AC World (Net TR) index, based on the Investment Manager’s rating system.

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the “Investment Objectives and Strategies / Product Suitability” and “Risk Factors, Investments, Derivatives and Supplementary Information” sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the “The Fund”, “Management and Administration” and “Other Material Information” sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the “Risk Factors, Investments, Derivatives and Supplementary Information” section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer’s individual situation.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to emerging and frontier markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks. These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                                 |
|----------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) Paid by Management Company to financial adviser (trailer fee) | Class A: 1.25% per annum<br>(a) 35% to 100% of Annual Management Fee<br><br>(b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                                                                                  | Not Applicable                                                                                                                  |
| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                    |
| Administration Fee                                                                                                               | Up to 0.25% per annum                                                                                                           |
| Accounting and Valuation Fee                                                                                                     | Up to 0.0083% per annum                                                                                                         |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth and income; and
- understand the risks of investing in equity and equity related securities of companies in emerging market countries.

**Further Information**  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth and income in excess of the MSCI Emerging Markets 10/40 (NDR) index after fees have been deducted over a three to five year period by investing in equity and equity-related securities of companies in emerging market countries.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

**Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.**

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in a diversified portfolio of equity and equity-related securities of companies in emerging market countries.

The Fund focuses on companies that have certain “Value” and/or “Quality” characteristics. Value is assessed by looking at indicators such as cash flows, dividends and earnings to identify securities which the Investment Manager believes have been undervalued by the market. Quality is assessed by looking at indicators such as a company’s profitability, stability, financial strength,

**Refer to the “Investment Objectives and Strategies / Product Suitability” and “Risk Factors, Investments,**

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

governance and structural growth.

The Fund may invest directly in China H-Shares and may invest less than 20% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Derivatives and Supplementary Information” sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the “The Fund”, “Management and Administration” and “Other Material Information” sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the “Risk Factors, Investments, Derivatives and Supplementary Information” section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer’s individual situation.

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to China country risk.

- Changes in China’s political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**You are exposed to derivatives risk.**

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

**You are exposed to emerging and less developed markets risk.**

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

**You are exposed to equity risk.**

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**You are exposed to leverage risk.**

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

**You are exposed to counterparty risk.**

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

**You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.**

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks. These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

**FEES AND CHARGES**

**WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?**

**Payable directly by you**

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Class A: Up to 1% |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

**Payable by the Fund from invested proceeds**

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.50% per annum                                     |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not Applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                                | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                      |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rclcl}
 1000 & \times & \$11.0000 & = & \$11,000.00 \\
 \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)}
 \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**ChiNext:** the ChiNext market of the Shenzhen Stock Exchange.

**Class:** a class of Shares with a specific fee structure.

**Dealing Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**QEP:** quantitative equity products.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**STAR Board:** the Science, Technology and Innovation board of the Shanghai Stock Exchange.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Emerging Markets Debt Total Return (the “Fund”)

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth and income; and
- understand the risks of investing in fixed and floating rate securities, currencies and Money Market Investments in emerging markets.

*Further Information  
Refer to the  
“Investment  
Objectives and  
Strategies / Product  
Suitability” section of  
the Prospectus for  
further information  
on product suitability.*

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth and income after fees have been deducted by investing in fixed and floating rate securities issued by governments, government agencies, supra nationals and companies in emerging markets. The Fund is designed to participate in rising markets while aiming to mitigate losses in falling markets through the use of cash and derivatives. The mitigations of losses cannot be guaranteed.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*Refer to the  
“Important  
Information”,  
“The Fund”, “The  
Sub-Funds”  
and “Investment  
Objectives and  
Strategies /  
Product Suitability”  
sections of the  
Prospectus for  
further information  
on features of the  
product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities, currencies and Money Market Investments in emerging markets. The fixed and floating rate securities are issued by governments, government agencies, supra-nationals and companies. The Fund may also hold cash.

In exceptional circumstances during periods of high market volatility, the Fund may hold up to 40% of its assets in deposits and Money Market Investments in developed markets. In such instances, the two-thirds referenced above will be measured against the Fund's assets excluding deposits and Money Market Investments in developed markets.

The Fund may invest in excess of 50% of its assets directly or indirectly (including via credit default swaps and credit default swap indices) in fixed and floating rate securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies).

The Fund may invest up to 15% of its assets in mainland China through Regulated Markets (including the China Interbank Bond Market via Bond Connect or CIBM Direct).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds and warrants (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than 50% JPM GBI-EM Diversified Index and 50% JPM EMBI Diversified Index based on the Investment Manager's rating criteria.

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" section of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

### You are exposed to credit risk.

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to high yield bond risk.

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

### You are exposed to interest rate risk.

- A rise in interest rates generally causes bond prices to fall.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 3% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

**Payable by the Fund from invested proceeds**

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                                      |
|-------------------------------------------------------------------|----------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company       | Class A: 1.50% per annum<br>(a) 35% to 100% of Annual Management Fee |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee                  |
| Performance Fee                                                   | Not Applicable                                                       |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction         |
| Administration Fee                                                | Up to 0.25% per annum                                                |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                              |
| Share Class Hedging Charge (to be borne by the Hedged Classes)    | Up to 0.03%                                                          |

**VALUATIONS AND EXITING FROM THIS INVESTMENT**
**HOW OFTEN ARE VALUATIONS AVAILABLE?**

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

**HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?**

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rclcl}
 1000 & \times & \$11.0000 & = & \$11,000.00 \\
 \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)}
 \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or Regulated Markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or Regulated Markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Regulated Market:** a market within the meaning of Article 4 (1) (21) of the Directive 2014/65/EC of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments or another regulated market, which operates regularly and is recognised and open to the public in an Eligible State.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund EURO Short Term Bond (the “Fund”)

|                    |                                                                       |                                                   |                                   |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth and income; and
- understand the risks of investing in Euro denominated short term fixed and floating rate securities issued by governments, government agencies, supra-nationals and companies worldwide.

*Further Information  
Refer to the  
“Investment  
Objectives and  
Strategies / Product  
Suitability” section of  
the Prospectus for  
further information  
on product suitability.*

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth and income in excess of the Bloomberg Euro Aggregate (1-3 Y) index after fees have been deducted over a three to five year period by investing in short term fixed and floating rate securities denominated in Euro.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund's investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the  
“Important  
Information”,  
“The Fund”, “The  
Sub-Funds”  
and “Investment  
Objectives and  
Strategies /  
Product Suitability”  
sections of the  
Prospectus for  
further information  
on features of the  
product.*

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in short term fixed and floating rate securities with an investment grade or directly or indirectly (including via credit default swaps and credit default swap indices) in sub-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schrodors ratings for non-rated bonds) denominated in Euro issued by governments, government agencies, supra-nationals and companies worldwide.

*Refer to the  
“Investment  
Objectives and  
Strategies / Product  
Suitability” section  
of the Prospectus*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schrodors.com.sg>.

The average duration of the securities held by the Fund does not exceed 3 years and the effective maturity of any such security does not exceed 5 years.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the Bloomberg Euro Aggregate (1-3 Y) index, based on the Investment Manager's rating criteria.

**The Fund may use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

*for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in Europe.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

**You are exposed to credit risk.**

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

**You are exposed to negative yields risk.**

- When interest rates are very low or negative, the Fund's yield may be zero or negative, and you may not get back all of your investment.

**You are exposed to money market and deposit risk.**

- A failure of a deposit institution or an issuer of Money Market Investments could create losses.

**You are exposed to currency risk.**

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**You are exposed to high yield bond risk.**

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

**You are exposed to interest rate risk.**

- A rise in interest rates generally causes bond prices to fall.

**You are exposed to leverage risk.**

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

**You are exposed to counterparty risk.**

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

**You are exposed to derivatives risk.**

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

**You are exposed to distribution policy risk (only applicable to Distribution Classes).**

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

**You are exposed to sustainability risk.**

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 3% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                             |
|----------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) Paid by Management Company to financial adviser (trailer fee) | Class A: 0.50% per annum<br>(a) 35% to 100% of Annual Management Fee<br>(b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                                                                                  | Not Applicable                                                                                                              |
| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                |

|                              |                         |
|------------------------------|-------------------------|
| Administration Fee           | Up to 0.25% per annum   |
| Accounting and Valuation Fee | Up to 0.0083% per annum |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$1000 \times \$11.0000 = \$11,000.00$$

(Number of Shares) (Net Asset Value per Share) (Redemption Proceeds)

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Schroders:** the Management Company's ultimate holding company and its subsidiaries and affiliates worldwide.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek income and capital growth; and
- understand the risks of investing in fixed and floating rate securities issued by governments of countries whose currency is the Euro.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

**Prior to 10 September 2026:** The Fund aims to provide income and capital growth in excess of the ICE BofA Euro Government index after fees have been deducted over a three to five year period by investing in fixed and floating rate securities issued by Eurozone governments.

**With effect from 10 September 2026:** The Fund aims to provide income and capital growth in excess of the ICE BofA Euro Government index after fees have been deducted over a three to five year period by investing in fixed and floating rate securities issued or guaranteed by European governments, agencies or supra-national institutions of European countries denominated in or hedged to Euro.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

**Prior to 10 September 2026:** The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities with an investment grade or, directly or indirectly (including via credit default swaps and credit default swap indices), with a sub-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schrodgers ratings for non-rated bonds) issued by governments of countries whose currency is the Euro.

**With effect from 10 September 2026:** The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities with an investment grade or, directly or indirectly (including via credit default swaps and credit default swap indices), with a sub-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schrodgers ratings for non-rated bonds) issued or guaranteed by European governments, agencies or supra-national institutions of European countries denominated in or hedged to Euro.

The Fund may also invest up one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the ICE BofA Euro Government index, based on the Investment Manager's rating criteria.

**The Fund may use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

Refer to the "Investment Objectives and Strategies / Product Suitability" section of the Prospectus for further information on the investment strategy of the Fund.

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.

## Market and Credit Risks

**You are exposed to market risk in Europe.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

**You are exposed to credit risk.**

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased

the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to negative yields risk.

- When interest rates are very low or negative, the Fund's yield may be zero or negative, and you may not get back all of your investment.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to money market and deposit risk.

- A failure of a deposit institution or an issuer of Money Market Investments could create losses.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to high yield bond risk.

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

### You are exposed to interest rate risk.

- A rise in interest rates generally causes bond prices to fall.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEEES AND CHARGES

### WHAT ARE THE FEEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 3% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                              |                                                                                                                         |
|------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>Paid by Management Company to financial adviser (trailer fee) | Class A: 0.40% per annum<br>(a) 35% to 100% of Annual Management Fee<br>0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                                                                              | Not Applicable                                                                                                          |
| Custody Fee                                                                                                                  | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                            |
| Administration Fee                                                                                                           | Up to 0.25% per annum                                                                                                   |
| Accounting and Valuation Fee                                                                                                 | Up to 0.0083% per annum                                                                                                 |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rcccl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Schroders:** the Management Company's ultimate holding company and its subsidiaries and affiliates worldwide.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Global Inflation Linked Bond (the “Fund”)

|                    |                                                                       |                                                   |                                                 |
|--------------------|-----------------------------------------------------------------------|---------------------------------------------------|-------------------------------------------------|
| Product Type       | Open-ended investment company                                         | Launch Date                                       | 28/11/2003                                      |

| Trustee            | Not Applicable                                                        | Dealing Frequency                                 | Every Dealing Day                               |
| Capital Guaranteed | No                                                                    | Expense Ratio for the year ended 31 December 2025 | EUR Class A: 0.94%<br>USD Hedged Class A: 0.97% |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth and income; and
- understand the risks of investing in inflation-linked fixed income securities issued by governments, government agencies, supra-nationals and companies worldwide.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth and income in excess of the ICE BofA Global Governments Inflation-Linked EUR Hedged index after fees have been deducted over a three to five year period by investing in inflation-linked fixed income securities.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (EUR) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in inflation-linked fixed income securities with an investment grade or, directly or indirectly (including via credit default swaps and credit default swap indices), with a sub-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds) issued by governments, government agencies, supra-nationals and companies worldwide.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the ICE BofA Global Governments Inflation-Linked EUR Hedged index based on the Investment Manager's rating criteria.

**The Fund may use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" section of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Managers are Schroder Investment Management Limited and Schroder Investment Management (Singapore) Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

### You are exposed to credit risk.

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to negative yields risk.

- When interest rates are very low or negative, the Fund's yield may be zero or negative, and you may not get back all of your investment.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to money market and deposit risk.

- A failure of a deposit institution or an issuer of Money Market Investments could create losses.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to high yield bond risk.

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

### You are exposed to interest rate risk.

- A rise in interest rates generally causes bond prices to fall.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 3% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                     |
|-------------------------------------------------------------------|-----------------------------------------------------|
| Annual Management Fee                                             | Class A: 0.75% per annum                            |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee            |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee |

|                                                                |                                                              |
|----------------------------------------------------------------|--------------------------------------------------------------|
| Performance Fee                                                | Not Applicable                                               |
| Custody Fee                                                    | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                             | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                   | Up to 0.0083% per annum                                      |
| Share Class Hedging Charge (to be borne by the Hedged Classes) | Up to 0.03%                                                  |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\ \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Schroders:** the Management Company's ultimate holding company and its subsidiaries and affiliates worldwide.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek income and capital growth; and
- understand the risks of investing in US Dollar denominated fixed and floating rate securities issued by governments, government agencies and companies worldwide.

**Further Information**  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide income and capital growth in excess of the Bloomberg US Aggregate Bond (TR) index after fees have been deducted over a three to five year period by investing in fixed and floating rate securities denominated in USD.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities, including asset-backed securities and mortgage-backed securities, denominated in USD, issued by governments, government agencies and companies worldwide.

The Fund invests in the full credit spectrum of fixed income investments. The Fund may invest:

- up to 40% of its assets directly or indirectly (including via credit default swaps and credit default swap indices) in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds); and
- up to 70% of its assets in asset-backed securities, commercial mortgage-backed securities, and/or residential mortgage-backed securities issued worldwide with an investment grade or sub-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the Bloomberg US Aggregate Bond (TR) index, based on the Investment Manager's rating criteria.

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

The Fund may use leverage.

*Refer to the "Investment Objectives and Strategies / Product Suitability" section of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management North America Inc..
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk in US.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

### You are exposed to credit risk.

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to asset-backed / mortgage-backed securities risk.

- Mortgage or asset-backed securities may not receive the full amounts owed to them by underlying borrowers.

### You are exposed to negative yields risk.

- When interest rates are very low or negative, the Fund's yield may be zero or negative, and you may not get back all of your investment.

### You are exposed to high yield bond risk.

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

### You are exposed to interest rate risk.

- A rise in interest rates generally causes bond prices to fall.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 3% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                     |
|-------------------------------------------------------------------|-----------------------------------------------------|
| Annual Management Fee                                             | Class A: 0.75% per annum                            |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee            |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee |

|                                                                |                                                              |
|----------------------------------------------------------------|--------------------------------------------------------------|
| Performance Fee                                                | Not Applicable                                               |
| Custody Fee                                                    | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                             | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                   | Up to 0.0083% per annum                                      |
| Share Class Hedging Charge (to be borne by the Hedged Classes) | Up to 0.03%                                                  |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$1000 \times \$11.0000 = \$11,000.00$$

(Number of Shares) (Net Asset Value per Share) (Redemption Proceeds)

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Schroders:** the Management Company's ultimate holding company and its subsidiaries and affiliates worldwide.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**US:** the United States of America (including the States and the District of Columbia), its territories, its possessions and any other areas subject to its jurisdiction.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth and income in excess of the Bloomberg Global Aggregate Bond index after fees have been deducted over a three to five year period by investing in fixed and floating rate securities.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

For the Fund, the Investment Manager, or where applicable the Sub-Investment Manager, undertakes the hedging of the Shares of the Hedged Classes by considering the relevant underlying currency exposures within the benchmark of the Fund. Performance of these Hedged Classes may therefore vary significantly from equivalent Classes in the Fund’s base currency.

*Refer to the  
“Important  
Information”,  
“The Fund”, “The  
Sub-Funds”  
and “Investment  
Objectives and  
Strategies /  
Product Suitability”  
sections of the  
Prospectus for  
further information  
on features of the  
product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities with an investment grade or sub-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies) issued by governments, government agencies, supra-nationals and companies worldwide in various currencies.

The Fund may invest:

- up to 10% of its assets in contingent convertible bonds;
- up to 30% of its assets directly or indirectly (including via credit default swaps and credit default swap indices) in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds); and
- up to 40% of its assets in asset-backed securities, commercial mortgage-backed securities, and/or residential mortgage-backed securities issued worldwide with an investment grade or sub-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies). Underlying assets may include credit card receivables, personal loans, auto loans, small business loans, leases, commercial mortgages and residential mortgages.

The Fund may invest up to 15% of its assets in mainland China through Regulated Markets (including the China Interbank Bond Market via Bond Connect or CIBM Direct).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the Bloomberg Global Aggregate Bond index, based on the Investment Manager's rating criteria.

***The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.***

*Refer to the "Investment Objectives and Strategies / Product Suitability" section of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Sub-Investment Managers are Schroder Investment Management North America Inc. and Schroder Investment Management (Singapore) Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

**You are exposed to credit risk.**

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to asset-backed / mortgage-backed securities risk.

- Mortgage or asset-backed securities may not receive the full amounts owed to them by underlying borrowers.

### You are exposed to contingent convertible bonds risk.

- The Fund may be significantly invested in contingent convertible bonds. If the financial strength of a bond's issuer (typically a bank or an insurance firm) falls in a prescribed way the bond may suffer substantial or total losses of capital.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to high yield bond risk.

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

### You are exposed to interest rate risk.

- A rise in interest rates generally causes bond prices to fall.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 3% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                                      |
|-------------------------------------------------------------------|----------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company       | Class A: 0.75% per annum<br>(a) 35% to 100% of Annual Management Fee |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee                  |
| Performance Fee                                                   | Not Applicable                                                       |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction         |
| Administration Fee                                                | Up to 0.25% per annum                                                |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                              |
| Share Class Hedging Charge<br>(to be borne by the Hedged Classes) | Up to 0.03%                                                          |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rclcl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or Regulated Markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or Regulated Markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Regulated Market:** a market within the meaning of Article 4 (1) (21) of the Directive 2014/65/EC of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments or another regulated market, which operates regularly and is recognised and open to the public in an Eligible State.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Schroders:** the Management Company's ultimate holding company and its subsidiaries and affiliates worldwide.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Asian Credit Opportunities (the “Fund”)

|                    |                                                                       |                                                   |                                                          |

| Capital Guaranteed | No                                                                    | Expense Ratio for the year ended 31 December 2025 | USD Class A: 1.28%<br>SGD Hedged Class A: 1.31% to 1.33% |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth and income; and
- understand the risks of investing in fixed and floating rate securities issued by companies in Asia.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth and income in excess of the JP Morgan Asia Credit index after fees have been deducted over a three to five year period by investing in fixed and floating rate securities issued by companies in Asia.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities denominated in various currencies and issued by companies, governments, government agencies and supra-nationals in Asia. For the purposes of this Fund, Asia includes the following west Asian countries: Bahrain, Israel, Lebanon, Oman, Qatar, Saudi Arabia, Turkey and United Arab Emirates.

*Refer to the “Investment Objectives and Strategies / Product Suitability” section*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

The Fund may invest:

- up to 20% of its assets in asset-backed securities and mortgage-backed securities; and
- up to 50% of its assets directly or indirectly (including via credit default swaps and credit default swap indices) in sub-investment grade securities (being securities with a credit rating below investment grade as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds).

The Fund may invest up to 20% of its assets in mainland China through the Qualified Foreign Investor ("QFI") scheme or Regulated Markets (including the China Interbank Bond Market via Bond Connect or CIBM Direct).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the JP Morgan Asia Credit index based on the Investment Manager's rating criteria.

**The Fund intends to use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

*of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Singapore) Ltd.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in Asia.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

**You are exposed to credit risk.**

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to asset-backed / mortgage-backed securities risk.

- Mortgage or asset-backed securities may not receive the full amounts owed to them by underlying borrowers.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to high yield bond risk.

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

### You are exposed to interest rate risk.

- A rise in interest rates generally causes bond prices to fall.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 3% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                                 |
|----------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) Paid by Management Company to financial adviser (trailer fee) | Class A: 1.00% per annum<br>(a) 35% to 100% of Annual Management Fee<br><br>(b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                                                                                  | Not Applicable                                                                                                                  |
| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                    |
| Administration Fee                                                                                                               | Up to 0.25% per annum                                                                                                           |
| Accounting and Valuation Fee                                                                                                     | Up to 0.0083% per annum                                                                                                         |
| Share Class Hedging Charge (to be borne by the Hedged Classes)                                                                   | Up to 0.03%                                                                                                                     |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rclcl}
 1000 & \times & \$11.0000 & = & \$11,000.00 \\
 \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)}
 \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or Regulated Markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or Regulated Markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Eligible State:** Includes any member state of the European Union, any member state of the Organisation for Economic Co-operation and Development, and any other state which the board of directors of the Company deems appropriate.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** In this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** The Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Regulated Market:** a market within the meaning of Article 4 (1) (21) of the Directive 2014/65/EC of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments or another regulated market, which operates regularly and is recognised and open to the public in an Eligible State.

**Schroders:** the Management Company's ultimate holding company and its subsidiaries and affiliates worldwide.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund EURO Corporate Bond (the “Fund”)

|                    |                                                                       |                                                   |                                                       |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth and income; and
- understand the risks of investing in fixed and floating rate securities denominated in or hedged to Euro issued by companies and other non-sovereign bond issuers, governments, government agencies and supra-nationals worldwide.

*Further Information  
Refer to the  
“Investment  
Objectives and  
Strategies / Product  
Suitability” section of  
the Prospectus for  
further information  
on product suitability.*

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth and income in excess of the ICE BofA Euro Corporate index after fees have been deducted over a three to five year period by investing in fixed and floating rate securities denominated in Euro issued by companies worldwide.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (EUR) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*Refer to the  
“Important  
Information”,  
“The Fund”, “The  
Sub-Funds”  
and “Investment  
Objectives and  
Strategies /  
Product Suitability”  
sections of the  
Prospectus for  
further information  
on features of the  
product.*

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities denominated in or hedged to Euro issued by companies and other non-sovereign bond issuers, governments, government agencies and supra-nationals worldwide.

*Refer to the  
“Investment  
Objectives and*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

The Fund may invest:

- up to 30% of its assets directly or indirectly (including via credit default swaps and credit default swap indices) in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds);
- up to 20% of its assets in sovereign government bonds;
- up to 20% of its assets in asset-backed securities and mortgage-backed securities; and
- up to 20% of its assets in convertible bonds including up to 10% of its assets in contingent convertible bonds.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

The Fund maintains a higher overall sustainability score than the ICE BofA Euro Corporate index, based on the Investment Manager's rating system.

*Strategies / Product Suitability" section of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Europe) S.A. – German Branch.
- The Sub-Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in Europe.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

**You are exposed to credit risk.**

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to asset-backed / mortgaged-backed securities risk.

- Mortgage or asset-backed securities may not receive the full amounts owed to them by underlying borrowers.

### You are exposed to contingent convertible bonds risk.

- The Fund may be significantly invested in contingent convertible bonds. If the financial strength of a bond's issuer (typically a bank or an insurance firm) falls in a prescribed way, the bond may suffer substantial or total losses of capital.

### You are exposed to high yield bond risk.

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

### You are exposed to interest rate risk.

- A rise in interest rates generally causes bond prices to fall.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## Fees and Charges

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 3% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                                 |
|----------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) Paid by Management Company to financial adviser (trailer fee) | Class A: 0.75% per annum<br>(a) 35% to 100% of Annual Management Fee<br><br>(b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                                                                                  | Not Applicable                                                                                                                  |
| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                    |
| Administration Fee                                                                                                               | Up to 0.25% per annum                                                                                                           |
| Accounting and Valuation Fee                                                                                                     | Up to 0.0083% per annum                                                                                                         |
| Share Class Hedging Charge (to be borne by the Hedged Classes)                                                                   | Up to 0.03%                                                                                                                     |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rclcl}
 1000 & \times & \$11.0000 & = & \$11,000.00 \\
 \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)}
 \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek income and capital growth; and
- understand the risks of investing in fixed and floating rate securities denominated in various currencies issued by companies worldwide.

**Further Information**  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide income and capital growth in excess of the Bloomberg Global Aggregate – Corporate index hedged to USD after fees have been deducted over a three to five year period by investing in fixed and floating rate securities issued by companies worldwide.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

**Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.**

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities denominated in various currencies and issued by companies worldwide.

The Fund invests in the full credit spectrum of fixed income investments. The Fund may invest:

- up to 40% of its assets directly or indirectly (including via credit default swaps and credit default swap indices) in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds);
- up to 20% of its assets in securities issued by governments and government agencies; and
- up to 10% of its assets in contingent convertible bonds.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the Bloomberg Global Aggregate – Corporate index Hedged to USD, based on the Investment Manager's rating criteria.

**The Fund may use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently. The Fund may use leverage.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" section of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management North America Inc..
- The Sub-Investment Managers are Schroder Investment Management Limited and Schroder Investment Management (Singapore) Ltd.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

### You are exposed to credit risk.

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to contingent convertible bonds risk.

- The Fund may be significantly invested in contingent convertible bonds. If the financial strength of a bond's issuer (typically a bank or an insurance firm) falls in a prescribed way the bond may suffer substantial or total losses of capital.

### You are exposed to negative yields risk.

- When interest rates are very low or negative, the Fund's yield may be zero or negative, and you may not get back all of your investment.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to high yield bond risk.

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

### You are exposed to interest rate risk.

- A rise in interest rates generally causes bond prices to fall.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 3% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 0.75% per annum                                     |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not Applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                                | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                      |
| Share Class Hedging Charge (to be borne by the Hedged Classes)    | Up to 0.03%                                                  |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rclcl}
 1000 & \times & \$11.0000 & = & \$11,000.00 \\
 \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)}
 \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Currency Carry:** This refers to the premium or discount that may apply to the distribution. Distributions may include a premium when the interest rate of a currency hedged Class is higher than the Fund's base currency interest rate. Consequently when the interest rate of a currency hedged Class is lower than the Fund's base currency interest rate, the dividend may be discounted. The level of premium or discount is determined by differences in interest rates and is not part of the Fund's investment objective or investment policy.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Schroders:** the Management Company's ultimate holding company and its subsidiaries and affiliates worldwide.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Global High Yield (the “Fund”)

|                    |                                                                       |                                                   |                                                                      |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek income and capital growth; and
- understand the risks of investing in below investment grade fixed and floating rate securities denominated in various currencies and issued by governments, government agencies, supra-nationals and companies worldwide.

*Further Information  
Refer to the  
“Investment  
Objectives and  
Strategies / Product  
Suitability” section of  
the Prospectus for  
further information  
on product suitability.*

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide income and capital growth in excess of the Bloomberg Global HYxCMBSxEMG index USD Hedged 2% cap after fees have been deducted over a three to five year period by investing in below investment grade fixed and floating rate securities issued worldwide.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

Sub-Funds”  
and “Investment  
Objectives and  
Strategies / Product  
Suitability” sections  
of the Prospectus for  
further information  
on features of the  
product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets directly or indirectly (including via credit default swaps and credit default swap indices) in fixed and floating rate securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies). The securities may be denominated in various currencies and issued by governments, government agencies, supra-nationals and companies worldwide.

The Fund may invest up to 15% of its assets in contingent convertible bonds.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the Bloomberg Global HYxCMBSxEMG index USD Hedged 2% cap, based on the Investment Manager's rating criteria.

**The Fund may use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.** The Fund may use leverage.

*Refer to the "Investment Objectives and Strategies / Product Suitability" section of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management North America Inc..
- The Sub-Investment Managers are Schroder Investment Management Limited and Schroder Investment Management (Hong Kong) Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

### You are exposed to credit risk.

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to contingent convertible bonds risk.

- The Fund may be significantly invested in contingent convertible bonds. If the financial strength of a bond's issuer (typically a bank or an insurance firm) falls in a prescribed way the bond may suffer substantial or total losses of capital.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to high yield bond risk.

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

### You are exposed to interest rate risk.

- A rise in interest rates generally causes bond prices to fall.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 3% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                     |
|-------------------------------------------------------------------|-----------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.00% per annum                            |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee            |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee |

|                                                                |                                                              |
|----------------------------------------------------------------|--------------------------------------------------------------|
| Performance Fee                                                | Not Applicable                                               |
| Custody Fee                                                    | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                             | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                   | Up to 0.0083% per annum                                      |
| Share Class Hedging Charge (to be borne by the Hedged Classes) | Up to 0.03%                                                  |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rcccl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Strategic Bond (the “Fund”)

|                    |                                                                       |                                                   |                                                 |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth and income; and
- understand the risks of investing in fixed and floating rate securities in various currencies issued by governments, government agencies, supranationals and companies worldwide.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth and income in excess of the ICE BofA 3 month US Treasury Bill Index over a three to five year period after fees have been deducted by investing in fixed and floating rate securities issued by governments, government agencies, supra-nationals and companies worldwide.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities in various currencies issued by governments, government agencies, supra-nationals and companies worldwide.

The Fund may invest:

*Refer to the “Investment Objectives and Strategies / Product*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

- up to 10% of its assets in contingent convertible bonds;
- up to 50% of its assets directly or indirectly (including via credit default swaps and credit default swap indices) in securities with a non-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies); and
- up to 100% of its assets in asset-backed securities, commercial mortgage-backed securities, and/or residential mortgage-backed securities issued worldwide with an investment grade or sub-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies). Underlying assets may include credit card receivables, personal loans, auto loans, small business loans, leases, commercial mortgages and residential mortgages.

*Suitability" section of the Prospectus for further information on the investment strategy of the Fund.*

The Fund may invest up to 15% of its assets in mainland China through Regulated Markets (including the China Interbank Bond Market via Bond Connect or CIBM Direct).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the Bloomberg Multiverse ex Treasury A+ to B- USD Hedged index, based on the Investment Manager's rating system.

***The Fund may use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.***

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Sub-Investment Managers are Schroder Investment Management North America Inc. and Schroder Investment Management (Singapore) Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### **You are exposed to market risk.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

### **You are exposed to credit risk.**

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

## Liquidity Risks

### **You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to asset-backed / mortgage-backed securities risk.

- Mortgage or asset-backed securities may not receive the full amounts owed to them by underlying borrowers.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to high yield bond risk.

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

### You are exposed to interest rate risk.

- A rise in interest rates generally causes bond prices to fall.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 3% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                     |
|-------------------------------------------------------------------|-----------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.00% per annum                            |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee            |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                   | Not Applicable                                      |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

|                                                                |                                                              |
|----------------------------------------------------------------|--------------------------------------------------------------|
| Custody Fee                                                    | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                             | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                   | Up to 0.0083% per annum                                      |
| Share Class Hedging Charge (to be borne by the Hedged Classes) | Up to 0.03%                                                  |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\ \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or Regulated Markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or Regulated Markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Regulated Market:** a market within the meaning of Article 4 (1) (21) of the Directive 2014/65/EC of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments or another regulated market, which operates regularly and is recognised and open to the public in an Eligible State.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth and income; and
- understand the risks of investing in fixed income securities issued by governments, government agencies and companies in Asia, excluding Japan.

*Further Information  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.*

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth and income in excess of the iBoxx Asian Local Currency Bond index after fees have been deducted over a three to five year period by investing in Asian fixed income securities denominated in local currencies.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in fixed income securities with an investment grade or sub-investment grade credit rating (as measured by Standard & Poor’s or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds) denominated in local currencies issued by governments, government agencies and companies in Asia (excluding Japan and including countries in west Asia as described in the Prospectus) and derivatives related to the above instruments.

*Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

The Fund may invest up to 30% of its assets directly in mainland China through (i) Qualified Foreign Investor ("QFI") schemes or QFI related schemes supervised by the China Securities Regulatory Commission provided investment restriction 1.(A) (5) (I) of Appendix I of the Luxembourg Prospectus is complied with and/or they qualify as Investment Funds and (ii) Regulated Markets (including the China Interbank Bond Market via Bond Connect or CIBM Direct).

*information on the investment strategy of the Fund.*

Investments in mainland China Regulated Markets and interbank bond markets may also be performed indirectly through notes, certificates or other instruments (which qualify as transferable securities and do not embed a derivative element), open-ended Investment Funds and eligible derivative transactions.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the iBoxx Asian Local Currency Bond index, based on the Investment Manager's rating criteria.

***The Fund intends to use derivatives (including total return swaps and long and short currency forwards) with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.***

#### Parties Involved

##### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Singapore) Ltd.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

#### KEY RISKS

##### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

#### Market and Credit Risks

**You are exposed to market risk in Asia excluding Japan.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

**You are exposed to credit risk.**

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

#### Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to high yield bond risk.

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

### You are exposed to interest rate risk.

- A rise in interest rates generally causes bond prices to fall.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to risks regarding QFI Status.

- The Investment Manager's QFI status may be suspended and revoked and this may adversely affect the Fund's performance by requiring the Fund to dispose of its securities holdings.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 3% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                     |
|-------------------------------------------------------------------|-----------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.00% per annum                            |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee            |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee |

|                                                                |                                                              |
|----------------------------------------------------------------|--------------------------------------------------------------|
| Performance Fee                                                | Not Applicable                                               |
| Custody Fee                                                    | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                             | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                   | Up to 0.0083% per annum                                      |
| Share Class Hedging Charge (to be borne by the Hedged Classes) | Up to 0.03%                                                  |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day. The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rcccl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or Regulated Markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or Regulated Markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Eligible State:** Includes any member state of the European Union, any member state of the Organisation for Economic Co-operation and Development, and any other state which the board of directors of the Company deems appropriate.

**Investment Fund(s):** A UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** In this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** The Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Regulated Market:** A market within the meaning of Article 4 (1) (21) of the Directive 2014/65/EC of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments or another regulated market, which operates regularly and is recognised and open to the public in an Eligible State.

**Schroders:** The Management Company's ultimate holding company and its subsidiaries and affiliates worldwide.

**Shares:** Shares in the Fund.

**Singapore Business Day:** Means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** An "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** An "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Global Credit High Income (the “Fund”)

|                    |                                                                       |                                                   |                                                                                                        |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek income and capital growth; and
- understand the risks of investing in fixed and floating rate investment grade and high yield securities issued by governments, government agencies, supra-nationals and companies worldwide, including emerging market countries.

*Further Information  
Refer to the  
“Investment  
Objectives and  
Strategies / Product  
Suitability” section of  
the Prospectus for  
further information  
on product suitability.*

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth and income by investing in fixed and floating rate securities issued by governments and companies worldwide. The Fund aims to mitigate losses in falling markets. The mitigation of losses cannot be guaranteed.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

*Refer to the  
“Important  
Information”, “The  
Fund”, “The Sub-  
Funds”  
and “Investment  
Objectives and  
Strategies / Product  
Suitability” sections  
of the Prospectus  
for further  
information on  
features of the  
product.*

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate investment grade and high yield securities issued by governments, government agencies, supra-nationals and companies worldwide, including emerging market countries.

The Fund may invest:

*Refer to the  
“Investment  
Objectives and  
Strategies /  
Product Suitability”  
section*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

- in excess of 50% of its assets directly or indirectly (including via credit default swaps and credit default swap indices) in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds);
- up to 40% of its assets in asset-backed securities and mortgage-backed securities (including in agency mortgage-backed securities and with a maximum of 20% of the Fund's assets in non-agency mortgage-backed securities and in asset-backed securities);
- up to 15% of its assets in convertible bonds (including contingent convertible bonds);
- up to 10% of its assets in open-ended Investment Funds; and
- in Money Market Investments and hold cash.

*of the Prospectus for further information on the investment strategy of the Fund.*

The Investment Manager aims to mitigate losses by diversifying the -Fund's asset allocation away from areas of the market identified as having a high risk of material negative return.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, and warrants (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the Bloomberg Multiverse ex Treasury BBB+ to CCC+ USD, EUR, GBP index based on the Investment Manager's rating criteria.

***The Fund may use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.***

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Sub-Investment Managers are Schroder Investment Management North America Inc. and Schroder Investment Management (Singapore) Ltd.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

**You are exposed to credit risk.**

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased

the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

### Product-Specific Risks

**You are exposed to asset-backed / mortgaged-backed securities risk.**

- Mortgage or asset-backed securities may not receive the full amounts owed to them by underlying borrowers.

**You are exposed to contingent convertible bonds risk.**

- The Fund may be significantly invested in contingent convertible bonds. If the financial strength of a bond's issuer (typically a bank or an insurance firm) falls in a prescribed way the bond may suffer substantial or total losses of capital.

**You are exposed to currency risk.**

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**You are exposed to high yield bonds risk.**

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

**You are exposed to interest rate risk.**

- A rise in interest rates generally causes bond prices to fall.

**You are exposed to derivatives risk.**

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

**You are exposed to emerging and less developed markets risk.**

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

**You are exposed to distribution policy risk (only applicable to Distribution Classes).**

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

**You are exposed to sustainability risk.**

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

### FEES AND CHARGES

**WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?**

**Payable directly by you**

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 3% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

**Payable by the Fund from invested proceeds**

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                     |
|-------------------------------------------------------------------|-----------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.20% per annum                            |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee            |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee |

|                              |                                                              |
|------------------------------|--------------------------------------------------------------|
| Performance Fee              | Not Applicable                                               |
| Custody Fee                  | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee           | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee | Up to 0.0083% per annum                                      |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

• Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rclcl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** a class of Shares with a specific fee structure.

**Dealing Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Schroders:** the Management Company's ultimate holding company and its subsidiaries and affiliates worldwide.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Asian Convertible Bond (the “Fund”)

|                    |                                                                       |                                                   |                                                 |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in convertible securities issued by companies in Asia (excluding Japan).

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the FTSE Asia ex Japan Hedged Convertible Bond index (USD) after fees have been deducted over a three to five year period by investing in convertible securities issued by companies in Asia (excluding Japan).

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in a diversified range of convertible securities and other similar transferable securities, such as convertible preference securities, exchangeable bonds or exchangeable notes issued by companies in Asia (excluding Japan). The Fund may also invest in fixed and floating rate securities, equity and equity related securities of Asian companies (excluding Japan).

Convertible bonds are typically corporate bonds that can be converted into equities at a given price. As such, the Investment Manager believes investors can gain exposure to Asian (excluding Japan) equity markets with the defensive benefits and less volatile characteristics of a bond investment.

The Fund may invest in excess of 50% of its assets directly or indirectly (including via credit default swaps and credit default swap indices) in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.** The Fund may also invest in money market investments and hold cash.

*Refer to the "Investment Objectives and Strategies / Product Suitability" section of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in Asia excluding Japan.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

**You are exposed to credit risk.**

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

## Liquidity Risks

**You are exposed to liquidity risk.**

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to negative yields risk.

- When interest rates are very low or negative, the Fund's yield may be zero or negative, and you may not get back all of your investment.

### You are exposed to money market and deposit risk.

- A failure of a deposit institution or an issuer of Money Market Investments could create losses.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to high yield bond risk.

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

### You are exposed to interest rate risk.

- A rise in interest rates generally causes bond prices to fall.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 3% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.25% per annum                                     |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not Applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

|                                                                      |                         |
|----------------------------------------------------------------------|-------------------------|
| Administration Fee                                                   | Up to 0.25% per annum   |
| Accounting and Valuation Fee                                         | Up to 0.0083% per annum |
| Share Class Hedging Charge<br>(to be borne by the Hedged<br>Classes) | Up to 0.03%             |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\ \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Schroders:** the Management Company's ultimate holding company and its subsidiaries and affiliates worldwide.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Global Convertible Bond (the “Fund”)

|                    |                                                                       |                                                   |                                                 |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing in convertible securities issued by companies worldwide.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the FTSE Global Focus Hedged Convertible Bond index (USD) after fees have been deducted over a three to five year period by investing in convertible securities issued by companies worldwide.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in a diversified range of convertible securities and other similar transferable securities, such as convertible preference securities, exchangeable bonds or exchangeable notes issued by companies worldwide. The Fund may also invest in fixed and floating rate securities, equity and equity related securities of companies worldwide.

Convertible bonds are typically corporate bonds that can be converted into shares at a given price. As such, the Investment Manager believes investors can gain exposure to global equity markets with the defensive benefits and less volatile characteristics of a bond investment.

The Fund may invest in excess of 50% of its assets directly or indirectly (including via credit default swaps and credit default swap) in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the FTSE Global Focus Hedged Convertible Bond index (USD), based on the Investment Manager's rating criteria.

**The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" section of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

### You are exposed to credit risk.

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased

the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

### Product-Specific Risks

#### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

#### You are exposed to negative yields risk.

- When interest rates are very low or negative, the Fund's yield may be zero or negative, and you may not get back all of your investment.

#### You are exposed to money market and deposit risk.

- A failure of a deposit institution or an issuer of Money Market Investments could create losses.

#### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

#### You are exposed to high yield bond risk.

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

#### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

#### You are exposed to interest rate risk.

- A rise in interest rates generally causes bond prices to fall.

#### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

#### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### FEES AND CHARGES

#### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

##### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 3% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

##### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                     |
|-------------------------------------------------------------------|-----------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.25% per annum                            |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee            |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                   | Not Applicable                                      |

<sup>2</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

|                                                                |                                                              |
|----------------------------------------------------------------|--------------------------------------------------------------|
| Custody Fee                                                    | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                             | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                   | Up to 0.0083% per annum                                      |
| Share Class Hedging Charge (to be borne by the Hedged Classes) | Up to 0.03%                                                  |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\ \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Schroders:** the Management Company's ultimate holding company and its subsidiaries and affiliates worldwide.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Global Credit Income (the “Fund”)

|                    |                                                                       |                                                   |                                                                                                                                                                                           |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek income and capital growth; and
- understand the risks of investing in fixed and floating rate investment grade and high yield securities issued by governments, government agencies, supranationals and companies worldwide, including emerging market countries.

*Further Information  
Refer to the  
“Investment  
Objectives and  
Strategies / Product  
Suitability” section of  
the Prospectus for  
further information  
on product suitability.*

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide income and capital growth by investing in fixed and floating rate securities issued by governments and companies worldwide. The Fund aims to mitigate losses in falling markets. The mitigation of losses cannot be guaranteed.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*Refer to the  
“Important  
Information”,  
“The Fund”, “The  
Sub-Funds”  
and “Investment  
Objectives and  
Strategies /  
Product Suitability”  
sections of the  
Prospectus for  
further information  
on features of the  
product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate investment grade and high yield securities issued by governments, government agencies, supra-nationals and companies worldwide, including emerging market countries.

The Fund may invest:

- in excess of 50% of its assets directly or indirectly (including via credit default swaps and credit default swap indices) in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds);
- less than 30% of its assets in asset-backed securities and mortgage-backed securities (including agency mortgage-backed securities and with a maximum of 10% of the Fund's assets in non-agency mortgage-backed securities and asset-backed securities);
- up to 15% of its assets in convertible bonds (including contingent convertible bonds); and
- up to 10% of its assets in open-ended Investment Funds;

The Investment Manager aims to mitigate losses by diversifying the Fund's asset allocation away from areas of the market identified as having a high risk of material negative return.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund may use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

The Fund maintains a higher overall sustainability score than Bloomberg Multiverse ex Treasury A+ to B- USD Hedged index, based on the Investment Manager's rating system.

*Refer to the "Investment Objectives and Strategies / Product Suitability" section of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Sub-Investment Managers are Schroder Investment Management North America Inc. and Schroder Investment Management (Singapore) Ltd.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

**You are exposed to credit risk.**

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to asset-backed / mortgaged-backed securities risk.

- Mortgage or asset-backed securities may not receive the full amounts owed to them by underlying borrowers.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

### You are exposed to high yield bond risk.

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

### You are exposed to interest rate risk.

- A rise in interest rates generally causes bond prices to fall.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 3% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                                 |
|----------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) Paid by Management Company to financial adviser (trailer fee) | Class A: 1.10% per annum<br>(a) 35% to 100% of Annual Management Fee<br><br>(b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                                                                                  | Not Applicable                                                                                                                  |
| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                    |
| Administration Fee                                                                                                               | Up to 0.25% per annum                                                                                                           |
| Accounting and Valuation Fee                                                                                                     | Up to 0.0083% per annum                                                                                                         |
| Share Class Hedging Charge (to be borne by the Hedged Classes)                                                                   | Up to 0.03%                                                                                                                     |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rcccl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Currency Carry:** This refers to the premium or discount that may apply to the distribution. Distributions may include a premium when the interest rate of a currency hedged Class is higher than the Fund's base currency interest rate. Consequently when the interest rate of a currency hedged Class is lower than the Fund's base currency interest rate, the dividend may be discounted. The level of premium or discount is determined by differences in interest rates and is not part of the Fund's investment objective or investment policy.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** A UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** In this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** The Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Schroders:** The Management Company's ultimate holding company and its subsidiaries and affiliates worldwide.

**Shares:** Shares in the Fund.

**Singapore Business Day:** Means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** An "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS :** An "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Asian Bond Total Return (the “Fund”)

|                    |                                                                       |                                                   |                                                                      |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth and income; and
- understand the risks of investing in fixed and floating rate securities issued by governments, government agencies, supra-nationals and companies in Asia, derivatives relating to these securities and currencies.

**Further Information**  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth and income by investing in fixed and floating rate securities issued by governments, government agencies, supra-nationals and companies in Asia.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

**Refer to the**  
“Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities, derivatives related to these securities and currencies. The fixed and floating rate securities are issued by governments, government agencies, supra-nationals and companies in Asia. For the purposes of this Fund, Asia includes the following west Asian countries: Bahrain, Israel, Lebanon, Oman, Qatar, Saudi Arabia, Turkey and United Arab Emirates.

The Fund is designed to participate in rising markets whilst aiming to mitigate losses in falling markets through the use of derivatives. The mitigation of losses cannot be guaranteed.

The Fund may invest up to 30% of its assets in mainland China through the Qualified Foreign Investor ("QFI") scheme or Regulated Markets (including the China Interbank Bond Market via Bond Connect or CIBM Direct).

The Fund may invest up to 50% of its assets directly or indirectly (including via credit default swaps and credit default swap indices) in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund may (exceptionally) hold 100% of its assets in Money Market Investments or cash. This will be limited to a maximum of six months (otherwise the Fund will be liquidated). During this period, the Fund will not fall within the scope of MMFR.

***The Fund intends to use derivatives (including total return swaps), long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.***

***The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.***

*Refer to the "Investment Objectives and Strategies / Product Suitability" section of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Singapore) Ltd.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

**You are exposed to market risk in Asia excluding Japan.**

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

**You are exposed to credit risk.**

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to high yield bond risk.

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to interest rate risk.

- A rise in interest rates generally causes bond prices to fall.

### You are exposed to risks regarding QFI Status.

- The Investment Manager's QFI status may be suspended and revoked and this may adversely affect the Fund's performance by requiring the Fund to dispose of its securities holdings.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 3% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                                      |
|-------------------------------------------------------------------|----------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company       | Class A: 1.00% per annum<br>(a) 35% to 100% of Annual Management Fee |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee                  |
| Performance Fee                                                   | Not Applicable                                                       |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction         |
| Administration Fee                                                | Up to 0.25% per annum                                                |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                              |
| Share Class Hedging Charge (to be borne by the Hedged Classes)    | Up to 0.03%                                                          |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rclcl}
 1000 & \times & \$11.0000 & = & \$11,000.00 \\
 \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)}
 \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or Regulated Markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or Regulated Markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Eligible State:** Includes any member state of the European Union, any member state of the Organisation for Economic Co-operation and Development, and any other state which the board of directors of the Company deems appropriate.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**MMFR:** The regulation (EU) 2017/1131 of the European Parliament and of the Council of 14 June 2017 on Money Market Funds, as it may be amended or supplemented from time to time.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Regulated Market:** a market within the meaning of Article 4 (1) (21) of the Directive 2014/65/EC of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments or another regulated market, which operates regularly and is recognised and open to the public in an Eligible State.

**Schroders:** the Management Company's ultimate holding company and its subsidiaries and affiliates worldwide.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth and income; and
- understand the risks of investing in fixed income securities denominated in onshore RMB (CNY).

*Further Information  
Refer to the  
“Investment  
Objectives and  
Strategies / Product  
Suitability” section of  
the Prospectus for  
further information  
on product suitability.*

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth and income in excess of the iBoxx ALBI China Onshore index after fees have been deducted over a three to five year period by investing in fixed income securities denominated in onshore RMB (CNY).

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*Refer to the  
“Important  
Information”,  
“The Fund”, “The  
Sub-Funds”  
and “Investment  
Objectives and  
Strategies / Product  
Suitability” sections  
of the Prospectus for  
further information  
on features of the  
product.*

#### Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities, convertible bonds and Money Market Investments denominated or hedged back to onshore RMB (CNY). These instruments may be issued outside or inside of mainland China by governments, government agencies, supra-nationals and companies which may or may not be established or incorporated in mainland China across sectors and credit quality. The Fund

*Refer to the  
“Investment  
Objectives and  
Strategies / Product  
Suitability” section of  
the Prospectus for*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

may also invest in fixed income securities denominated in offshore RMB (CNH).

The Fund may invest up to 30% of its assets directly or indirectly (including via credit default swaps and credit default swap indices) in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds).

The Fund may invest in instruments traded on the RMB Bond market in Hong Kong and in instruments denominated in RMB traded on other Regulated Markets.

The Fund may invest up to 100% of its assets directly in mainland China through (i) Qualified Foreign Investor ("QFI") schemes or QFI related schemes supervised by the China Securities Regulatory Commission provided investment restriction 1.(A) (5) (I) of Appendix I of the Luxembourg Prospectus is complied with and/or they qualify as Investment Funds and (ii) Regulated Markets (including the China Interbank Bond Market via Bond Connect or CIBM Direct).

Investments in mainland China Regulated Markets and interbank bond markets may also be performed indirectly through notes, certificates or other instruments (which qualify as transferable securities and do not embed a derivative element), open-ended Investment Funds and eligible derivative transactions.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund maintains a higher overall sustainability score than the iBoxx ALBI China Onshore index, based on the Investment Manager's rating criteria.

**The Fund may use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

*further information on the investment strategy of the Fund.*

#### Parties Involved

##### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management (Singapore) Ltd.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

#### KEY RISKS

##### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

#### Market and Credit Risks

**You are exposed to credit risk.**

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to China country risk.

- Changes in China's political, legal, economic or tax policies could cause losses or higher costs for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to high yield bond risk.

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

### You are exposed to interest rate risk.

- A rise in interest rates generally causes bond prices to fall.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to risks regarding QFI Status.

- The Investment Manager's QFI status may be suspended or revoked and this may adversely affect the Fund's performance by requiring the Fund to dispose of its securities holdings.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 3% |
| Switching Charge  | Class A: Up to 1% |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                                                                                  |                                                                                                                                 |
|----------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Annual Management Fee<br>(a) Retained by Management Company<br>(b) Paid by Management Company to financial adviser (trailer fee) | Class A: 0.75% per annum<br>(a) 35% to 100% of Annual Management Fee<br><br>(b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                                                                                  | Not Applicable                                                                                                                  |
| Custody Fee                                                                                                                      | Up to a maximum of 0.3% per annum and US\$75 per transaction                                                                    |
| Administration Fee                                                                                                               | Up to 0.25% per annum                                                                                                           |
| Accounting and Valuation Fee                                                                                                     | Up to 0.0083% per annum                                                                                                         |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Business Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** a class of Shares with a specific fee structure.

**Dealing Day:** unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or Regulated Markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or Regulated Markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Eligible State:** includes any member state of the European Union, any member state of the Organisation for Economic Co-operation and Development, and any other state which the board of directors of the Company deems appropriate.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Regulated Market:** a market within the meaning of Article 4 (1) (21) of the Directive 2014/65/EC of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments or another regulated market, which operates regularly and is recognised and open to the public in an Eligible State.

**Schroders:** the Management Company's ultimate holding company and its subsidiaries and affiliates worldwide.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Global Multi-Asset Income (the “Fund”)

|                    |                                                                       |                                                   |                                                                                                                                                                   |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek income and capital growth; and
- understand the risks of investing in equity and equity related securities and fixed and floating rate securities of companies worldwide and fixed and floating rate securities and currencies of governments and government agencies worldwide directly or indirectly through funds and derivatives.

**Further Information**  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to deliver income and capital growth by investing in a diversified range of assets and markets worldwide.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares. Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*\*You should note that this is the investment objective of the Fund and the reference to income distribution or an income rate seeks to be achieved by the Fund is not and should not be interpreted to be a prediction, projection or forecast of the future performance of the Fund. It is not indicative of the future or likely performance of the Fund.*

Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests directly or indirectly through derivatives in equity and equity-related securities, fixed income securities and Alternative Asset Classes (subject to any restrictions provided in Appendix I of the Luxembourg Prospectus). The Fund may invest up to 50% of its assets directly or indirectly (including via credit default swaps and credit default swap indices) in below investment grade (fixed and floating rate) securities (being securities with a credit rating below investment grade as measured by Standard & Poor's or any equivalent grade of other credit rating agencies) and unrated securities. The Fund may invest in excess of 50% of its assets in emerging market debt (fixed and floating rate) securities and up to 20% of its assets in asset-backed securities and mortgage-backed securities. The Fund may also invest up to 15% of its assets in mainland China through Regulated Markets (including the CIBM via Bond Connect or CIBM Direct).

The exposure to Alternative Asset Classes is taken through eligible assets<sup>2</sup> as described in Appendix III of the Luxembourg Prospectus.

The Fund maintains a higher overall sustainability score than 30% MSCI AC World Index (USD), 40% Barclays Global Aggregate Corporate Bond Index (USD) and 30% Barclays Global High Yield excl CMBS & EMG 2% Index (USD) based on the Investment Manager's rating criteria.

**The Fund intends to use derivatives (including total return swaps), long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.** The Fund may invest up to 10% of its assets in open-ended Investment Funds. The Fund may invest in Money Market Investments and hold cash.

*Refer to the "Investment Objectives and Strategies / Product Suitability" section of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Sub-Investment Managers are Schroder Investment Management North America Inc. and Schroder Investment Management (Singapore) Ltd.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

### You are exposed to credit risk.

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

<sup>2</sup> This may include (i) transferable securities and Money Market Investments, (ii) units of closed-ended investment funds, (iii) financial instruments linked or backed to the performance of such asset class, (iv) UCITS or other UCIs in accordance with the Grand Ducal Regulation of 8 February 2008 and (v) Financial Indices compliant with article 9 of the Grand Ducal Regulation of 8 February 2008 and CSSF Circular 14/592 and/or (vi) derivatives on eligible assets under (i) – (v) in asset classes such as real estate, infrastructure, private equity, commodities and/or precious metals.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to high yield bond risk.

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to interest rate risk.

- A rise in interest rates generally causes bond prices to fall.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager

## Fees and Charges

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                     |
|-------------------------------------------------------------------|-----------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.25% per annum                            |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee            |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>3</sup> of Annual Management Fee |
| Performance Fee                                                   | Not Applicable                                      |

<sup>3</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

|                                                                |                                                              |
|----------------------------------------------------------------|--------------------------------------------------------------|
| Custody Fee                                                    | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                             | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                   | Up to 0.0083% per annum                                      |
| Share Class Hedging Charge (to be borne by the Hedged Classes) | Up to 0.03%                                                  |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rclcl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Alternative Asset Classes:** Asset classes including real estate, infrastructure, private equity, commodities, precious metals and Alternative Investment Funds as described in Appendix III, section "Fund Details", paragraph (I) of the Luxembourg Prospectus.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Currency carry:** This refers to the premium or discount that may apply to the distribution. Distributions may include a premium when the interest rate of a currency hedged Class is higher than the Fund's base currency interest rate. Consequently when the interest rate of a currency hedged Class is lower than the Fund's base currency interest rate, the dividend may be discounted. The level of premium or discount is determined by differences in interest rates and is not part of the Fund's investment objective or investment policy.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual  
Distribution type: **F** = fixed, **T** = variable T<sup>4</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** A UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** In this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** The Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** Shares in the Fund.

**Singapore Business Day:** Means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** An "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** An "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>4</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek to preserve and enhance real value (i.e. a positive return after inflation) offered through investment in a range of asset classes; and
- understand the risks of investing in a range of asset classes worldwide including equity and equity related securities, fixed and floating rate securities, currencies, commodities and cash.

**Further Information**  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth above inflation (as measured by the Eurozone Harmonized Consumer Price Index) after fees have been deducted over rolling three to five year periods by investing in a broad range of asset classes worldwide. There is no guarantee that the objective will be attained and your capital is at risk.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund's investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

**Refer to the**  
“Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.

#### Investment Strategy

The Fund is actively managed and may invest worldwide in commodities, equity and equity related securities of companies, fixed and floating rate securities and other Alternative Asset Classes in any currency, either directly or indirectly through open-ended Investment Funds and Exchange Traded Funds (subject to any restrictions provided in Appendix I of the Luxembourg Prospectus). The Fund may invest up to 50% of its assets indirectly in commodities. The exposure to commodities and other Alternative Asset Classes will be taken through eligible assets<sup>2</sup> as described under the definition of “Alternative Asset Classes” in Appendix III of the Luxembourg Prospectus.

**Refer to the**  
“Investment Objectives and Strategies / Product Suitability” and “Risk Factors, Investments,

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

The Fund may invest in excess of 50% of its assets, directly or indirectly (including via credit default swaps and credit default swap indices), in fixed and floating rate securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies).

The Fund may exceptionally invest up to 100% of its assets in cash and Money Market Investments. This will be limited to a maximum of six months (otherwise the Fund will be liquidated). During this period, the Fund will not fall within the scope of MMFR.

**The Fund may use derivatives (including total return swaps), long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.** Where the Fund uses total return swaps and contracts for difference, the underlying consists of instruments in which the Fund may invest according to its Investment Objective and Investment Policy. In particular, the aim is to use total return swaps and contracts for difference on a continuous basis in market conditions including but not limited to during periods of expanding global economic growth and rising inflation or elevated geopolitical risk. Contracts for difference and total return swaps are intended to be used to gain long and short exposure on equity and equity related securities, fixed and floating rate securities and commodity indices. The gross exposure of total return swaps and contracts for difference will not exceed 75% and is expected to remain within the range of 0% to 25% of the Net Asset Value. In certain circumstances this proportion may be higher.

*Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

### You are exposed to credit risk.

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

<sup>2</sup> This may include (i) transferable securities and Money Market Investments, (ii) units of closed-ended investment funds, (iii) financial instruments linked or backed to the performance of such asset class, (iv) UCITS or other UCIs in accordance with the Grand Ducal Regulation of 8 February 2008 and (v) Financial Indices compliant with article 9 of the Grand Ducal Regulation of 8 February 2008 and CSSF Circular 14/592 and/or (vi) derivatives on eligible assets under (i) – (v) in asset classes such as real estate, infrastructure, private equity, commodities and/or precious metals.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to money market and deposit risk.

- A failure of a deposit institution or an issuer of Money Market Investments could create losses.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to high yield bond risk.

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to interest rate risk.

- A rise in interest rates generally causes bond prices to fall.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 4% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

## Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.50% per annum                                     |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>3</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not Applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                                | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                      |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{ccccccc}
 1000 & & \times & & \$11.0000 & & = & & \$11,000.00 \\
 \text{(Number of Shares)} & & & & \text{(Net Asset Value per Share)} & & & & \text{(Redemption Proceeds)}
 \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth and income without heightened exposure to risk;
- seek a diversified, flexible investment approach which aims to deliver stable returns whilst minimising losses; and
- understand the risks of investing in a range of asset classes worldwide including shares, bonds, currencies and commodities.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth and income of ICE BofA 3 Month US Treasury Bill Index +5% per annum before fees have been deducted\* over rolling three year periods by investing in a broad range of asset classes worldwide. There is no guarantee that the objective will be attained and your capital is at risk. If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares. Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

\* For the target return# after fees for each Share Class please visit the Schroder website: <https://www.schroders.com/en/lu/private-investor/investing-with-us/after-fees-performance-targets/>

# You should note that this is the investment objective of the Fund and the

*Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Product Suitability” sections of the Prospectus for further information on features of the product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

reference to target returns to be achieved by the Fund is not and should not be interpreted to be a prediction, projection or forecast of the future performance of the Fund. It is not indicative of the future or likely performance of the Fund.

### Investment Strategy

The Fund is actively managed and invests directly or indirectly (through open-ended Investment Funds and derivatives) in equities and equity related securities, fixed and floating rate securities (issued by governments, government agencies, supra-nationals and companies), mortgage-backed and asset-backed securities, convertible bonds, currencies and Alternative Asset Classes (as defined in Appendix III of the Luxembourg Prospectus) such as real estate, infrastructure and commodity related transferable securities (subject to any restrictions provided in Appendix I of the Luxembourg Prospectus). The Fund may invest up to 10% of its assets indirectly in commodities.

*Refer to the "Investment Objectives and Strategies / Product Suitability" section of the Prospectus for further information on the investment strategy of the Fund.*

The Fund may hold up to 40% of its assets in open-ended Investment Funds. However as the Fund grows the Investment Manager expects the Fund to hold less than 10% in open-ended Investment Funds. The Fund may invest directly or indirectly (including via credit default swaps and credit default swap indices) in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies).

The Fund maintains a higher overall sustainability score than a bespoke asset-weighted blend\*\* of the MSCI World Index (hedged to USD) MSCI Emerging Market Index (unhedged), Bloomberg Global Aggregate Corporate Bond Index (hedged to USD), Bloomberg Global High Yield excl. CMBS & EMD 2% Index (hedged to USD), ICE BofA US Treasury Index (hedged to USD), JPM GBI Emerging Market Index – EM Local (unhedged) and JPM EMBI Index EM Hard Currency (hedged to USD), based on the Investment Manager's rating criteria.

**The Fund intends to use derivatives (including total return swaps) with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.** The Fund may also invest in Money Market Investments and hold cash.

**\*\*The blend will evolve over time in line with the actual asset allocation of the Fund.**

### Parties Involved

#### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Australia Limited.
- The Sub-Investment Managers are Schroder Investment Management North America Inc. and Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

### KEY RISKS

#### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

### Market and Credit Risks

#### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

#### You are exposed to credit risk.

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

### Liquidity Risks

#### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased

the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to asset-backed / mortgaged-backed securities risk.

- Mortgage or asset-backed securities may not receive the full amounts owed to them by underlying borrowers.

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to high yield bond risk.

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

### You are exposed to interest rate risk.

- A rise in interest rates generally causes bond prices to fall.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## Fees and Charges

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 4% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                     |
|-------------------------------------------------------------------|-----------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.25% per annum                            |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee            |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee |
| Performance Fee                                                   | Not Applicable                                      |

|                                                                |                                                              |
|----------------------------------------------------------------|--------------------------------------------------------------|
| Custody Fee                                                    | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                             | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                   | Up to 0.0083% per annum                                      |
| Share Class Hedging Charge (to be borne by the Hedged Classes) | Up to 0.03%                                                  |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rclcl} 1000 & \times & \$11.0000 & = & \$11,000.00 \\ \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)} \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Alternative Asset Classes:** asset classes including real estate, infrastructure, private equity, commodities, precious metals and Alternative Investment Funds as described in Appendix III, section “Fund Details”, paragraph (I) of the Luxembourg Prospectus.

**Business Day:** Unless otherwise provided in the Fund’s details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year’s Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** A class of Shares with a specific fee structure.

**Currency carry:** This refers to the premium or discount that may apply to the distribution. Distributions may include a premium when the interest rate of a currency hedged Class is higher than the Fund’s base currency interest rate. Consequently when the interest rate of a currency hedged Class is lower than the Fund’s base currency interest rate, the dividend may be discounted. The level of premium or discount is determined by differences in interest rates and is not part of the Fund’s investment objective or investment policy.

**Dealing Day:** Unless otherwise provided in the Fund’s details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** A UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** In this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** Shares in the Fund.

**Singapore Business Day:** Means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** An “undertaking for collective investment” within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** An “undertaking for collective investment in transferable securities” within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the “The Sub-Funds” section of the Prospectus for further information on this distribution type

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Dynamic Income (the “Fund”)

|                    |                                                                       |                                                   |                                                                                                                                                                                                                                                                            |

| Trustee            | Not Applicable                                                        | Dealing Frequency                                 | Every Dealing Day                                                                                                                                                                                                                                                          |
| Capital Guaranteed | No                                                                    | Expense Ratio for the year ended 31 December 2025 | USD Class A: 1.57% to 1.59% EUR Hedged Class A: 1.61% CNH Hedged Class A: 1.60% CHF Hedged Class A: 1.61% to 1.62% GBP Hedged Class A: 1.60% to 1.61% SGD Hedged Class A: 1.61% AUD Hedged Class A: 1.60% to 1.61% HKD Class A: 1.57% to 1.58% JPY Class A: 1.57% to 1.58% |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek income and capital growth; and
- understand the risks of investing, directly or indirectly through derivatives, in equity and equity-related securities, fixed and floating rate securities issued by governments, government agencies, supra-nationals and companies worldwide, including emerging markets, in various currencies and Alternative Asset Classes.

#### Further Information

Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide income and capital growth after fees have been deducted by investing in a diversified range of assets and markets worldwide including emerging markets. If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

The current distribution policy for the Fund is to declare distributions of 7.00% per annum of the Net Asset Value per Share on a monthly basis, on such date as may be determined by the Investment Manager, to Shareholders of the following Classes - USD A Distribution MF, HKD A Distribution MF, SGD Hedged A Distribution MF, CNH Hedged A Distribution MF, CHF Hedged A Distribution MF, JPY A Distribution MF and GBP Hedged A Distribution MF.

Accumulation Shares accumulate net income received from the Fund's investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Refer to the “Important Information”, “The Fund”, “The Sub-Funds” and “Investment Objectives and Strategies / Distribution Policy/ Product Suitability” sections of the Prospectus for further information on features of the product.

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

Hedged Classes aim to provide you with the performance returns of the Fund's investments in the Fund's base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund's base currency.

## Investment Strategy

The Fund is actively managed and invests directly or indirectly through derivatives in equity and equity-related securities, fixed and floating rate securities issued by governments, government agencies, supra-nationals and companies worldwide, including emerging markets, in various currencies and Alternative Asset Classes (subject to any restrictions provided in Appendix I of the Luxembourg Prospectus). The exposure to Alternative Asset Classes is taken through eligible assets as described in Appendix III of the Luxembourg Prospectus.

The Fund may invest:

- up to 40% of its assets directly or indirectly (including via credit default swaps and credit default swap indices) in sub-investment grade securities (being securities with a credit rating below investment grade as measured by Standard & Poor's or any equivalent grade of other credit rating agencies) and unrated securities;
- up to 30% of its assets in emerging markets;
- up to 20% of its assets in asset-backed securities, commercial mortgage backed securities, and/or residential mortgage-backed securities issued worldwide with an investment grade or sub-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies). Underlying assets may include credit card receivables, personal loans, auto loans, small business loans, leases, commercial mortgages and residential mortgages; and
- Up to 15% of its assets in Alternative Asset Classes

The Fund may invest directly in China H-Shares and may invest less than 15% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext. The Fund may also invest up to 10% of its assets in mainland China through Regulated Markets (including the CIBM via Bond Connect or CIBM Direct).

The Fund may invest in Money Market Investments and hold cash. The Fund may invest up to 10% of its assets in open-ended Investment Funds.

The Fund maintains a higher overall sustainability score than a bespoke assetweighted blend of MSCI World Index (USD), MSCI Emerging Market Index (USD), Bloomberg Global Aggregate Corporate Bond Index (USD), Bloomberg Global High Yield excl CMBS & EMD 2% Index (USD), ICE BofA US Treasury Index (USD), JPM GBI Emerging Market Index - EM Local (USD), JPM EMBI Index EM Hard Currency (USD), FTSE Global Convertible Bonds Index (USD), based on the Investment Manager's rating criteria.

***The Fund intends to use derivatives (including total return swaps), long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.***

*Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Sub-Investment Manager is Schroder Investment Management North America Inc.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

### You are exposed to credit risk.

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

### You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks. These risks may include risks associated with the Small and Medium Enterprise board, the STAR Board and/or the ChiNext.

### You are exposed to emerging and less developed markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

### You are exposed to high yield bond risk.

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

### You are exposed to asset-backed / mortgaged-backed securities risk.

- Mortgage or asset-backed securities may not receive the full amounts owed to them by underlying borrowers.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to interest rate risk.

- A rise in interest rates generally causes bond prices to fall.

### You are exposed to distribution policy risk (only applicable to Distribution Classes).

- The Investment Manager has the absolute discretion to determine whether a distribution is to be declared. The Investment Manager also reserves the right to review and make changes to the distribution policy from time to time. In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

### You are exposed to sustainability risk.

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 4% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.25% per annum                                     |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>2</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not Applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                                | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                      |
| Share Class Hedging Charge (to be borne by the Hedged Classes)    | Up to 0.03%                                                  |

### VALUATIONS AND EXITING FROM THIS INVESTMENT

#### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

#### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$1000 \times \$11.0000 = \$11,000.00$$

(Number of Shares) (Net Asset Value per Share) (Redemption Proceeds)

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Alternative Asset Classes:** Asset classes including real estate, infrastructure, private equity, commodities, precious metals and Alternative Investment Funds as described in Appendix III, section "Fund Details", paragraph (I) of the Luxembourg Prospectus.

**Business Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year's Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**ChiNext:** The ChiNext market of the Shenzhen Stock Exchange.

**Class:** A class of Shares with a specific fee structure.

**Currency Carry:** This refers to the premium or discount that may apply to the distribution. Distributions may include a premium when the interest rate of a currency hedged Class is higher than the Fund's base currency interest rate. Consequently when the interest rate of a currency hedged Class is lower than the Fund's base currency interest rate, the dividend may be discounted. The level of premium or discount is determined by differences in interest rates and is not part of the Fund's investment objective or investment policy.

**Dealing Day:** Unless otherwise provided in the Fund's details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>3</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** A UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** In this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** The Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**MMFR:** The regulation (EU) 2017/1131 of the European Parliament and of the Council of 14 June 2017 on Money Market Funds, as it may be amended or supplemented from time to time.

**Money Market Investments:** Money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** Shares in the Fund.

**Singapore Business Day:** Means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**STAR Board:** The Science, Technology and Innovation board of the Shanghai Stock Exchange.

**UCI:** An "undertaking for collective investment" within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** An "undertaking for collective investment in transferable securities" within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>3</sup> Please to the "The Sub-Funds" section of the Prospectus for further information on this distribution type

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Multi-Asset Growth and Income (the “Fund”)

|                    |                                                                       |                                                   |                                                                                                                                                                   |

| Trustee            | Not Applicable                                                        | Dealing Frequency                                 | Every Dealing Day                                                                                                                                                 |
| Capital Guaranteed | No                                                                    | Expense Ratio for the year ended 31 December 2025 | USD Class A: 1.55% to 1.75% EUR Hedged Class A: 1.59% to 1.79% SGD Hedged Class A: 1.59% to 1.74% AUD Hedged Class A: 1.79% USD Class V / SGD Hedged Class V: N.A |

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek income and capital growth; and
- understand the risks of investing in equity and equity related securities, fixed and floating rate securities issued by governments, government agencies, supra-nationals and companies worldwide in various currencies and Alternative Asset Classes.

*Further Information  
Refer to the  
“Investment  
Objectives and  
Strategies / Product  
Suitability” section of  
the Prospectus for  
further information  
on product suitability.*

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth and income over a three to five year period after fees have been deducted by investing in a diversified range of assets and markets worldwide.

If you are a holder of Distribution Shares, you may receive dividends in the form of cash in the relevant Class currency.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

**\*You should note that this is the investment objective of the Fund and the reference to income distribution or an income rate seeks to be achieved by the Fund is not and should not be interpreted to be a prediction, projection or forecast of the future performance of the Fund. It is not indicative of the future or likely performance of the Fund.**

*Refer to the  
“Important  
Information”,  
“The Fund”, “The  
Sub-Funds”  
and “Investment  
Objectives and  
Strategies /  
Product Suitability”  
sections of the  
Prospectus for  
further information  
on features of the  
product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests directly or indirectly through derivatives in equity and equity-related securities, fixed and floating rate securities issued by governments, government agencies, supra-nationals and companies worldwide in various currencies and Alternative Asset Classes (subject to any restrictions provided in Appendix I of the Luxembourg Prospectus).

The Fund may invest up to 50% directly or indirectly (including via credit default swaps and credit default swap indices) in sub-investment grade securities (being securities with a credit rating below investment grade as measured by Standard & Poor's or any equivalent grade of other credit rating agencies). The Fund may invest up to 20% of its assets in asset-backed securities, commercial mortgage-backed securities, and/or residential mortgage-backed securities issued worldwide with an investment grade or sub-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies). Underlying assets may include credit card receivables, personal loans, auto loans, small business loans, leases, commercial mortgages and residential mortgages. The Fund maintains a higher overall sustainability score than 30% MSCI AC World Index (USD), 30% Barclays Global High Yield excl CMBS & EMG 2% index (USD), 30% FTSE Convertible Global Focus index (USD) and 10% Barclays Global Aggregate Bond Index (USD), based on the Investment Manager's rating criteria.

**The Fund intends to use derivatives (including total return swaps), long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.** The Fund may invest up to 10% of its assets in open-ended Investment Funds. The Fund may invest in Money Market Investments and hold cash.

*Refer to the "Investment Objectives and Strategies / Product Suitability" section of the Prospectus for further information on the investment strategy of the Fund.*

*The exposure to Alternative Asset Classes is taken through eligible assets<sup>2</sup> as described in Appendix III of the Luxembourg Prospectus.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Sub-Investment Managers are Schroder Investment Management North America Inc. and Schroder Investment Management (Hong Kong) Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

### You are exposed to credit risk.

- A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

<sup>2</sup> This may include (i) transferable securities and Money Market Investments, (ii) units of closed-ended investment funds, (iii) financial instruments linked or backed to the performance of such asset class, (iv) UCITS or other UCIs in accordance with the Grand Ducal Regulation of 8 February 2008 and (v) Financial Indices compliant with article 9 of the Grand Ducal Regulation of 8 February 2008 and CSSF Circular 14/592 and/or (vi) derivatives on eligible assets under (i) – (v) in asset classes such as real estate, infrastructure, private equity, commodities and/or precious metals.

**You are exposed to currency risk.**

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

**You are exposed to derivatives risk.**

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

**You are exposed to emerging and less developed markets risk.**

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

**You are exposed to equity risk.**

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

**You are exposed to high yield bond risk.**

- High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

**You are exposed to leverage risk.**

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

**You are exposed to interest rate risk.**

- A rise in interest rates generally causes bond prices to fall.

**You are exposed to distribution policy risk (only applicable to Distribution Classes).**

- In respect of a Distribution Class with fixed dividends, dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

**You are exposed to sustainability risk.**

- The Fund may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities or dispose of certain holdings that do not align with its sustainability criteria chosen by the Investment Manager.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

|                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                      |

|                                           | 3rd Year                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Up to 1%                             |
|                                           | For V Shares that are redeemed within the offer period, the applicable CDSC rate will be up to 3%. No CDSC is payable for switches involving the same type of Class V Shares within the same Sub-Fund.<br>All other classes: None                                                                                                                                                                                                                                                                                                                                                  |                                      |

<sup>3</sup> Percentage of Net Asset Value per Share of the Class V Shares being redeemed on the relevant Dealing Day calculated in the relevant dealing currency of the Class V Shares being redeemed.

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A and Class V: 1.25% per annum                         |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>4</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not Applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                                | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                      |
| Share Class Hedging Charge (to be borne by the Hedged Classes)    | Up to 0.03%                                                  |

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

|                    |   |                             |   |                       |
|--------------------|---|-----------------------------|---|-----------------------|
| 1,000              | x | \$11.000                    | = | \$11,000.00           |
| (Number of Shares) |   | (Net Asset Value per Share) |   | (Redemption Proceeds) |

Where CDSC is applicable, it will be deducted from the redemption proceeds at the applicable rates set out in paragraph 6 of the prospectus. An example is as follows<sup>5</sup>:

|                             |   |                             |   |                             |
|-----------------------------|---|-----------------------------|---|-----------------------------|
| 1,000                       | x | \$11.000                    | = | \$11,000.00                 |
| (Number of Shares)          |   | (Net Asset Value per Share) |   | (Gross Redemption Proceeds) |
| 11,000.00                   | x | 3%                          | = | \$10,670.00                 |
| (Gross Redemption Proceeds) |   | (CDSC)                      |   | (Net Redemption Proceeds)   |

<sup>4</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

<sup>5</sup> This numerical example assumes that the Net Asset Value per Share is \$11.0000 at the point of realisation and the point of realisation is within the 1st year since the end of the offer period for the relevant Class V Shares.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Alternative Asset Classes:** asset classes including real estate, infrastructure, private equity, commodities, precious metals and Alternative Investment Funds as described in Appendix III, section “Fund Details”, paragraph (I) of the Luxembourg Prospectus.

**Business Day:** unless otherwise provided in the Fund’s details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year’s Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** a class of Shares with a specific fee structure.

**Currency carry:** This refers to the premium or discount that may apply to the distribution. Distributions may include a premium when the interest rate of a currency hedged Class is higher than the Fund’s base currency interest rate. Consequently when the interest rate of a currency hedged Class is lower than the Fund’s base currency interest rate, the dividend may be discounted. The level of premium or discount is determined by differences in interest rates and is not part of the Fund’s investment objective or investment policy.

**Dealing Day:** unless otherwise provided in the Fund’s details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Distribution Shares:** Shares which distribute their income. Distribution Classes may be issued with different distribution frequencies or attributes within the Fund, designated as follows:

Distribution frequency: **M** = monthly, **Q** = quarterly, **S** = semi-annual, **A** = annual

Distribution type: **F** = fixed, **T** = variable T<sup>6</sup> or **V** = variable

Currency carry: **C**

Fixed Distribution Rates: A numerical suffix will differentiate fixed distribution rates (e.g. 2, 3). The actual fixed percentage or amount will not be displayed in the Class name.

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Launch Date:** in this product highlights sheet only, means the inception date of the relevant Class with the earliest inception date.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an “undertaking for collective investment” within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an “undertaking for collective investment in transferable securities” within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

<sup>6</sup> Please to the “The Sub-Funds” section of the Prospectus for further information on this distribution type

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

## Schroder International Selection Fund Commodity (the “Fund”)

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital growth; and
- understand the risks of investing primarily in a range of commodity related instruments in the energy, agriculture and metals sectors.

*Further Information  
Refer to the  
“Investment  
Objectives and  
Strategies / Product  
Suitability” section of  
the Prospectus for  
further information  
on product suitability.*

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.

The Fund aims to provide capital growth in excess of the Bloomberg Commodity Total return index (BCOMTR Index) after fees have been deducted over a three to five year period by investing in commodity related instruments worldwide.

Accumulation Shares accumulate net income received from the Fund’s investments, meaning it is kept in the Fund and its value is reflected in the price of the Shares.

Hedged Classes aim to provide you with the performance returns of the Fund’s investments in the Fund’s base currency (USD) by reducing the effects of exchange rate fluctuations between the relevant Class currency and the Fund’s base currency.

*Refer to the  
“Important  
Information”,  
“The Fund”, “The  
Sub-Funds”  
and “Investment  
Objectives and  
Strategies /  
Product Suitability”  
sections of the  
Prospectus for  
further information  
on features of the  
product.*

<sup>1</sup> The Prospectus is available for collection from Schroder Investment Management (Singapore) Ltd or any of its appointed distributors during usual office hours or accessible at <http://www.schroders.com.sg>.

## Investment Strategy

The Fund is actively managed and invests at least two-thirds of its assets in a range of commodity related instruments, principally comprising swaps on eligible commodity financial indices, commodities through eligible assets<sup>2</sup> (as described in Appendix III of the Luxembourg Prospectus) and to a lesser extent in equity and equity related securities in commodity related industries worldwide.

The Fund may be exposed to a range of commodity sectors from time to time but the Investment Manager anticipates that the Fund will be primarily invested in the energy, agriculture and metals sectors.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I of the Luxembourg Prospectus).

**The Fund intends to use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.**

**The net asset value of the Fund is likely to have high volatility due to its investment policies or portfolio management techniques.**

*Refer to the "Investment Objectives and Strategies / Product Suitability" and "Risk Factors, Investments, Derivatives and Supplementary Information" sections of the Prospectus for further information on the investment strategy of the Fund.*

## Parties Involved

### WHO ARE YOU INVESTING WITH?

- The Fund is a sub-fund of Schroder International Selection Fund.
- The Management Company is Schroder Investment Management (Europe) S.A..
- The Investment Manager is Schroder Investment Management Limited.
- The Depositary is J.P. Morgan SE, Luxembourg Branch.

*Refer to the "The Fund", "Management and Administration" and "Other Material Information" sections of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.*

## KEY RISKS

### WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

**The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:**

*Refer to the "Risk Factors, Investments, Derivatives and Supplementary Information" section of the Prospectus for further information on risks of the product.*

## Market and Credit Risks

### You are exposed to market risk.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer's individual situation.

## Liquidity Risks

### You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

<sup>2</sup> This may include (i) transferable securities and Money Market Investments, (ii) units of closed-ended investment funds, (iii) financial instruments linked or backed to the performance of such asset class, (iv) UCITS or other UCIs in accordance with the Grand Ducal Regulation of 8 February 2008 and (v) Financial Indices compliant with article 9 of the Grand Ducal Regulation of 8 February 2008 and CSSF Circular 14/592 and/or (vi) derivatives on eligible assets under (i) – (v) in asset classes such as real estate, infrastructure, private equity, commodities and/or precious metals.

## Product-Specific Risks

### You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

### You are exposed to concentration risk.

- The Fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the Fund, both up or down, which may adversely impact the performance of the Fund.

### You are exposed to currency risk.

- The Fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

### You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

### You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

### You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

## FEES AND CHARGES

### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

|                   |                   |
|-------------------|-------------------|
| Initial Charge    | Class A: Up to 5% |
| Switching Charge  | Up to 1%          |
| Redemption Charge | None              |

*Refer to the "Charges and Expenses" section of the Prospectus for further information on the fees and charges.*

Some distributors may charge other fees which are not listed in the Prospectus, and you should check with the relevant distributor if there are any other fees payable to the distributor.

#### Payable by the Fund from invested proceeds

The Fund will pay the following fees and charges to the Management Company and other parties:

|                                                                   |                                                              |
|-------------------------------------------------------------------|--------------------------------------------------------------|
| Annual Management Fee                                             | Class A: 1.50% per annum                                     |
| (a) Retained by Management Company                                | (a) 35% to 100% of Annual Management Fee                     |
| (b) Paid by Management Company to financial adviser (trailer fee) | (b) 0% to 65% <sup>3</sup> of Annual Management Fee          |
| Performance Fee                                                   | Not Applicable                                               |
| Custody Fee                                                       | Up to a maximum of 0.3% per annum and US\$75 per transaction |
| Administration Fee                                                | Up to 0.25% per annum                                        |
| Accounting and Valuation Fee                                      | Up to 0.0083% per annum                                      |
| Share Class Hedging Charge (to be borne by the Hedged Classes)    | Up to 0.03%                                                  |

<sup>3</sup> Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.

## VALUATIONS AND EXITING FROM THIS INVESTMENT

### HOW OFTEN ARE VALUATIONS AVAILABLE?

The net asset value of the Shares of the Fund is published at the Singapore Representative's website at <http://www.schroders.com.sg> normally within 2 Singapore Business Days after each Dealing Day and is also available directly from the Singapore Representative.

*Refer to the "Redemption of Shares", "No Right of Cancellation of Subscriptions" and "Obtaining Price Information" sections of the Prospectus for further information on valuation and exiting from the product.*

### HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.
- If you submit the Redemption Request after 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the next relevant Dealing Day, you will be paid a price based on the net asset value per Share on the next relevant Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

$$\begin{array}{rclcl}
 1000 & \times & \$11.0000 & = & \$11,000.00 \\
 \text{(Number of Shares)} & & \text{(Net Asset Value per Share)} & & \text{(Redemption Proceeds)}
 \end{array}$$

No cancellation period is available, and you cannot cancel your subscription for Shares of any Class of the Fund.

## APPENDIX: GLOSSARY OF TERMS

**Accumulation Shares:** Shares which accumulate their net income so that the income is included in the price of the Shares.

**Alternative Asset Classes:** asset classes including real estate, infrastructure, private equity, commodities, precious metals and Alternative Investment Funds as described in Appendix III, section “Fund Details”, paragraph (I) of the Luxembourg Prospectus.

**Business Day:** unless otherwise provided in the Fund’s details in Appendix III of the Luxembourg Prospectus, a Business Day is a week day other than New Year’s Day, Good Friday, Easter Monday, Christmas Eve, Christmas Day and the day following Christmas Day.

**Class:** a class of Shares with a specific fee structure.

**Dealing Day:** unless otherwise provided in the Fund’s details in Appendix III of the Luxembourg Prospectus, a Dealing Day is a Business Day which does not fall within a period of suspension of calculation of the net asset value per Share of the Fund. The Management Company may also take into account whether relevant local stock exchanges and/or regulated markets are closed for trading and settlement, and may elect to treat such closures as non-Dealing Days for sub-funds of the Company which invest a substantial amount of their portfolio on these closed stock exchanges and/or regulated markets. A list of non-Dealing Days for the Fund is available from the Singapore Representative on request and is also available on the internet site [www.schroders.lu](http://www.schroders.lu).

**Investment Fund(s):** a UCITS or other UCI in which the Fund may invest, as determined in the investment rules described in Appendix I of the Luxembourg Prospectus.

**Luxembourg Prospectus:** the Luxembourg Prospectus of the Company (together with any addendum to such Luxembourg Prospectus) attached to the Prospectus.

**Money Market Investments:** money market instruments as defined under the UCITS Directive, specifically instruments normally dealt on the money market which are liquid and have a value which can be accurately determined at any time.

**Shares:** shares in the Fund.

**Singapore Business Day:** means a day (other than a Saturday or a Sunday or a gazetted public holiday) on which commercial banks in Singapore are open for normal banking business.

**UCI:** an “undertaking for collective investment” within the meaning of Article 2(2) of the law on undertakings for collective investment dated 17 December 2010, as amended.

**UCITS:** an “undertaking for collective investment in transferable securities” within the meaning of points a) and b) of Article 1(2) of the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended, on the coordination of laws, regulations and administrative provisions relating to UCITS.

This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus<sup>1</sup>.
- It is important to read the Prospectus before deciding whether to purchase the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

### PRODUCT SUITABILITY

#### WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek the provision of liquidity and the preservation of the value of their investments in the event of falling markets; and
- understand the risks of investing primarily in Money Market Instruments that are denominated in US Dollar.

*Further Information*  
Refer to the “Investment Objectives and Strategies / Product Suitability” section of the Prospectus for further information on product suitability.

### KEY PRODUCT FEATURES

#### WHAT ARE YOU INVESTING IN?

You are investing in a sub-fund of Schroder International Selection Fund (the “Company”). The Company is an umbrella structured open-ended investment company with limited liability in Luxembourg, organised as a “société anonyme” and qualifies as a Société d’Investissement à Capital Variable (“SICAV”) under Part I of the law on undertakings for collective investment dated 17 December 2010, as amended from time to time.
