Key Information Document production date: 01.01.2026

What is this Product ?

Type

The Product is a sub-fund of EDMOND DE ROTHSCHILD FUND, a public limited liability company (société anonyme), incorporated as a "société d'investissement à capital variable" under Part I of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment and qualifying as an undertaking for collective investment in transferable securities (UCITS).

Term

The lifespan of this Product is not limited.

Objectives

Objective: The Product aims to provide a return of 4% p.a over the recommended investment period by investing in European equity and fixed income securities which offer attractive yields and sustainable dividend payments issued by companies that meet environmental, social and governance (ESG) criteria.

Benchmark: None.

The Product is actively managed and is not managed in reference to a benchmark index.

Investment policy: The Investment Manager will systematically include environmental, social and governance (ESG) factors in their financial analysis in order to select the highest-rated companies.

At least 90% of portfolio companies receive ESG rating. This will be either a proprietary ESG rating or a rating provided by an external non-financial rating agency. At the end of this process, the Product will have an ESG rating that is greater than that of its investment universe. The security selection process includes a negative screening, whereby the Investment Manager has established a formal exclusion policy that integrates the exclusion of controversial companies related to weapons, coal, tobacco and unconventional fossil fuels. Further details can be found on the Investment Manager website: <https://www.edmond-de-rothschild.com/en/Pages/Responsible-investment.aspx>. The Product classifies as Article 8(1) SFDR as it promotes a combination of ESG characteristics, although no reference benchmark has been designated for the purpose of attaining the environmental or social characteristics.

In view of its ESG strategy, the Product promotes environmental characteristics but does not invest in environmentally sustainable economic activities. The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities, in the context of the Taxonomy Regulation.

The Product will invest at least 50% of its net assets in corporate bonds denominated in euro.

Depending on the Investment Manager's expectations, the Product's exposure to European equity markets will be maintained within a range of 0% to 50% of the Product's net assets.

The portfolio duration will be maintained within a range of 0 to 7.

The Product may invest up to 100% of its net assets in eligible Transferable Securities which contain an embedded derivative in order to meet its investment objective.

Income allocation: Accumulation

Intended retail investor

The Product is intended for Institutional Investors, businesses and individuals likely to understand the specific risks related to an investment in the Product and who wish to increase the value of their savings through a vehicle that more particularly targets companies registered predominantly in emerging countries. This share is intended for all investors.

Practical information

Depositary: Edmond de Rothschild (Europe)

You can buy or sell each day on which banks are generally open for business in Luxembourg and in France and any other day on which the French financial markets are open (official calendar of Euronext Paris S.A.). The Net Asset Value will not be calculated on Good Friday or 24 December (Christmas Eve). Orders must be received by the transfer agent no later than 12:30 p.m. (Luxembourg time) on the relevant Valuation Day.

More detailed information on EDMOND DE ROTHSCHILD FUND, the available sub-funds and share classes, such as the prospectus and the annual and semi-annual reports, may be obtained free of charge, in English, from the registered office of Edmond de Rothschild Asset Management (France) at: 47, Rue du Faubourg Saint-Honoré, 75401 Paris Cedex 08, France; telephone: +33 1 40 17 25 25; email: contact-am-fr@edr.com.

The latest published prices of the class, the information regarding the net asset value, the calculations of the monthly performance scenarios and the past performances of the Product are available on the website www.edmond-de-rothschild.com.

What are the risks and what could I get in return ?

Risk Indicator

The summary risk indicator assumes you keep the Product until maturity end of the recommended holding period (5 years).

The actual risk can vary significantly if you cash in at an early stage and you may get back less. The summary risk indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the Product to pay you.

In addition, you will be exposed to the following risks (not captured in the synthetic risk indicator), namely:

Credit risk : When a significant level of investment is made in debt securities.

Liquidity risk : The markets for some securities and instruments may have limited liquidity. This limited liquidity could be a disadvantage to the Product, both in the realisation of the prices quoted and the execution of orders at desired prices.

Impact of techniques such as derivative contracts : The use of derivatives instruments can infer a decrease of the asset more significant than the decrease of the invested underlying assets or markets.

Counterparty risk : Where a Product is backed by collateral or has significant investment exposure through contracts with a third party.

Operational risk : The Product may suffer losses due to the failure of operational processes, including those related to the safekeeping of assets.

The occurrence of any of these risks may negatively impact the net asset value.

This Product does not include any protection from future market performance so you could lose some or all of your investment.

Beware of currency risk. If an Investment Product is denominated in a currency other than the official currency of the State in which this Product is marketed, the final gain will therefore depend on the exchange rate between the two currencies. This risk is not taken into account in the indicator above.

Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this Product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable, scenarios presented represent examples using the best and worst performances, as well as the average performance of the Product and/or the appropriate benchmark indicator over the last 10 years.

Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Investment EUR 10,000

The recommended holding period is 5 years.		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	EUR 7,600	EUR 7,650
	Average return each year	-24.0%	-5.2%
Unfavourable	What you might get back after costs	EUR 8,720	EUR 8,810
	Average return each year	-12.8%	-2.5%
Moderate	What you might get back after costs	EUR 10,000	EUR 10,330
	Average return each year	-0.0%	0.6%
Favourable	What you might get back after costs	EUR 11,160	EUR 12,440
	Average return each year	11.6%	4.5%

This table shows the money you could get back over the recommended holding period of 5 years, under the different scenarios, assuming you invest EUR 10,000.

Unfavourable scenario: this scenario occurred for an investment between 03/2015 and 03/2020.

Moderate scenario: this scenario occurred for an investment between 11/2018 and 11/2023.

Favourable scenario: this scenario occurred for an investment between 03/2020 and 03/2025.

What happens if Edmond de Rothschild Asset Management (France) is unable to pay out ?

The Product's ability to pay out would not be affected by the insolvency of the manufacturer. You may however face a financial loss should the Depositary default on its obligations. Such default risk is limited as the Depositary is required by law and regulation to segregate its own assets from the assets of the Product. There is no compensation or guarantee scheme in place which may offset, all or any of, these potential losses.

What are the costs ?

The person advising on or selling this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment over time.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario ;
- EUR 10,000 is invested.

Investment EUR 10,000	If you exit after 1 year	If you exit after 5 years (recommended holding period)
Total costs	EUR 339	EUR 936
Annual cost impact (*)	3.4%	1.8% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 2.45% before costs and 0.64% after costs.

We may share costs with the person selling the Product to you in order to cover the services they provide to you. If so, this person will inform you of the amount.

Composition of Costs

Investment EUR 10,000 and annual cost impact if you exit after 1 year

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	This includes distribution costs of 2.00%. The impact of the costs you pay when entering your investment. This is the maximum you will pay and you could pay less. These costs are already included in the price you pay.	EUR 200
Exit costs	We do not charge an exit fee for this Product (but the person selling the Product may do).	EUR 0
Ongoing costs (taken each year)		
Management fees and other administrative or operating costs	1.24% of the value of your investment per year. The impact of the costs that we take each year for managing this Product. This figure is based on actual costs over the last year.	EUR 124
Transaction costs	0.15% of the value of your investment per year. The impact of the costs of us buying and selling underlying investments for this Product. The actual amount will vary depending on how much we buy and sell.	EUR 15
Incidental costs taken under specific conditions		
Performance fees (and carried interest) (**)	There is no performance fee for this Product.	EUR 0

(**) Outperformance fees may be calculated and charged in the underlying funds held by the Product.

The table above shows the annual impact of the different types of costs on the return you could obtain on your investment at the end of the recommended investment period.

The costs shown here do not include any additional costs that may be charged by your distributor or advisor, or any costs in connection with a package that the Product may be part of. If you invest in this Product as part of a life insurance or capitalisation contract, this document does not take into account the contract fees.

This table also explains what the different cost categories mean.

How long should I hold it and can I take the money out early ?

Recommended holding period: 5 years

This Product is designed for medium term investments. However, you can redeem your investment without penalty at any time during this time, or hold the investment longer.

You can buy or sell each day on which banks are generally open for business in Luxembourg and in France and any other day on which the French financial markets are open (official calendar of EURONEXT PARIS S.A.). The Net Asset Value will not be calculated on Good Friday or 24 December (Christmas Eve). Orders must be received by the transfer agent no later than 12:30 p.m. (Luxembourg time) on the relevant Valuation Day.

How can I complain ?

If you wish to make a complaint regarding the Product, the Product manufacturer or the person distributing or advising you about the Product, with a view to having a right recognised or a damage remedied, please send us a written request, describing the problem and the details of the complaint, by post or e-mail, to:

Edmond de Rothschild Asset Management (France), 47, Rue du Faubourg Saint-Honoré, 75401 Paris Cedex 08, France;

Email: contact-am-fr@edr.com;

This Product promotes environmental or social characteristics within the meaning of Article 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (referred to as the "SFDR Regulation"). Environmental, social and governance (ESG) criteria are one of the components that are managed, but their weighting in the final decision is not defined in advance.
