### Product Name: Future Global Equity Fund, A Acc GBP Shares

ISIN: LU0231457747

Website: [www.abrdn.com](http://www.abrdn.com)

Telephone: (+352) 46 40 10 820

This fund is managed by abrdn Investments Luxembourg S.A., a firm authorised and regulated by the Commission de Surveillance du Secteur Financier (CSSF) in Luxembourg.

Document published: 18/12/2025

## What is this product?

### Type

Future Global Equity Fund (the "Fund") is a US Dollar denominated sub-fund of a SICAV (société d'investissement à capital variable), abrdn SICAV I, incorporated in Luxembourg.

### Term

abrdn SICAV I (the "Company") has no maturity date. The Fund and the Company may not be unilaterally terminated by abrdn Investments Luxembourg S.A.

### Objective

The Fund aims to achieve a combination of growth and income by investing in companies of all sizes whose business models are focused on and/or benefit from the structural growth of 'Future Themes', listed on global stock exchanges, including Emerging Markets, and which adhere to the abrdn Future Global Promoting ESG Equity Investment Approach (the "Investment Approach").

The Fund aims to outperform the MSCI AC World Index (USD) benchmark before charges.

### Portfolio Securities

- The Fund invests at least 70% of its assets in equities and equity related securities of companies listed on global stock exchanges, including Emerging Markets.
- The Fund may invest up to 20% of its net assets in Mainland China equity and equity-related securities including through the Shanghai-Hong Kong and Shenzhen-Hong Kong Stock Connect programme.
- The investment manager has identified three key areas of long-term structural growth that are considered the core themes for the future ('Future Themes'). These three Future Themes cover:
  1. Transformational Technology: New technologies are enabling efficiencies and creating long-term competitive advantages.
  2. Energy Evolution: The evolution of climate and nature solutions and the tightening regulatory landscape has accelerated the demand for green alternatives and sustainable products and services.
  3. Health & the Generational Shift: Breakthroughs in healthcare are contributing to longer and higher quality human lives and changing demographics. At the same time, generational shifts in behaviours are unlocking opportunities.
- All equity and equity-related securities will follow the Investment Approach.
- This approach utilises abrdn's equity investment process, which enables portfolio managers to qualitatively identify and avoid ESG laggards. To complement this research, the abrdn ESG House Score is used to quantitatively identify and exclude those companies exposed to the highest ESG risks. Additionally, abrdn apply a set of company exclusions which are related to the UN Global Compact, Controversial Weapons, Tobacco Manufacturing and Thermal Coal. More detail on this overall process is captured within the Investment Approach, which is published at [www.abrdn.com](http://www.abrdn.com) under "Fund Centre".
- Financial derivative instruments, money-market instruments and cash may not adhere to this approach.

### Management Process

- The Fund is actively managed.
- The research process is focused on finding attractive high-quality companies that align to these Future Themes through the assessment of their business, the industry they operate in, their financial strength, the capability of their management team, and sustainability characteristics.
- Through the application of the Investment Approach, the Fund commits to having a minimum of 10% in Sustainable Investments. Furthermore, the Fund targets an ESG rating that is equal to or better, and a meaningfully lower carbon intensity, than the benchmark.
- Engagement with external company management teams is used to evaluate the ownership structures, governance and management quality of those companies in order to inform portfolio construction.
- The benchmark is also used as a reference point for portfolio construction and as a basis for setting risk constraints, but does not incorporate any sustainable criteria.
- In order to achieve its objective, the Fund will take positions whose weightings diverge from the benchmark and may invest in securities which are not included in the benchmark. The investments of the Fund may deviate significantly from the components of and their respective weightings in the benchmark.
- Due to the active nature of the management process, the Fund's performance profile may deviate significantly from that of the benchmark.

### Derivatives and Techniques

- The Fund may utilise financial derivative instruments for hedging and/or investment purposes, or to manage foreign exchange risks. The use of derivatives for hedging and/or investment purposes is expected to be very limited, mainly in those cases where there are significant inflows into the Fund so that cash can be invested while the Fund's investments in equity and equity related securities is maintained.

### This fund is subject to Article 8 of the Sustainable Finance Disclosure Regulation ("SFDR").

Investors in the fund may buy and sell shares on any dealing day (as defined in the Prospectus). If you invest in income shares, income from investments in the fund will be paid out to you. If you invest in accumulation shares, income will be added to the value of your shares.

### Intended Retail Investor

Investors with basic investment knowledge. Investors who can accept large short term losses. Investors wanting growth and income over the longer term (5 years or more). Investors with a specific need around a sustainability-related outcome. The Fund has specific and generic risks with a risk rating as per the risk indicator. The Fund is intended for general sale to retail and professional investors through all distribution channels with or without professional advice.

The Fund's depository is Citibank Europe plc Luxembourg Branch. The prospectus, the articles of association, the annual reports and interim reports may be obtained free of charge from our website or via the contact details in 'Other relevant information'. All documents are available in English and

## What are the risks and what could I get in return?

### Risk Indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Lower risk Higher risk

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you sell it at an earlier stage. The value of investments and the income from them can go down as well as up, and you may get back less than you invested.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

Where the currency of the country where you are resident is different to the currency of the product, **please be aware of currency risk**. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Further information on risks is detailed in the prospectus available at [www.abrdn.com](http://www.abrdn.com) or on request from the management company.

This product does not include any protection from future market performance or any capital guarantee against credit risk, so you could lose some or all of your investment.

## Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		10,000 GBP	
		If you exit after 1 year	If you exit after 5 years
<b>Scenarios</b>			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	2,650 GBP	1,570 GBP
	Average return each year	-73.5%	-30.9%
Unfavourable	What you might get back after costs	5,780 GBP	7,660 GBP
	Average return each year	-42.2%	-5.2%
Moderate	What you might get back after costs	10,770 GBP	13,290 GBP
	Average return each year	7.7%	5.9%
Favourable	What you might get back after costs	14,380 GBP	29,190 GBP
	Average return each year	43.8%	23.9%

The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between September 2021 and October 2025. The moderate scenario occurred for an investment between October 2017 and September 2022. The favourable scenario occurred for an investment between February 2016 and January 2021.

## What happens if the Company is unable to pay out?

There is no financial compensation scheme for retail investors in SICAVs domiciled in Luxembourg. In the absence of a compensation scheme applicable to investments in the Fund, investors may face a financial loss of up to their entire investment amount.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- 10,000 GBP is invested.

	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	715 GBP	2,303 GBP
<b>Annual cost impact (*)</b>	7.1%	3.4% each year

\* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 9.3% before costs and 5.9% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

### Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.00% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to 500 GBP
Exit costs	We do not charge an exit fee for this product.	0 GBP
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.92% of the value of your investment per year. This is an estimate based on actual costs over the last year and includes any known future changes.	192 GBP
Transaction costs	0.24% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	23 GBP
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	

## How long should I hold it and can I take money out early?

### Recommended holding period: 5 years

This product has no required minimum holding period but you should have an investment time horizon of at least 5 years. You may buy or sell shares in the product, without penalty, on any normal business day as set out in the prospectus. Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the purchase or sale of the shares.
