14 SWAPS

SWAPS DE TIPOS DE INTERÉS

El Fondo ha formalizado "Contratos de swaps de tipos de interés" en los que las contrapartes intercambian compromisos respectivos para el pago o percepción de intereses sobre un importe de referencia nominal específico. Estos importes se calculan y registran cada vez que se calcula el VL. Los intereses a cobrar incluidos en la partida "Intereses a cobrar" del Estado del patrimonio neto y los intereses a cobrar se incluyen en la partida "Otros pasivos" del Estado del patrimonio neto.

SWAPS DE RIESGO DE IMPAGO

El Fondo ha formalizado contratos de Swaps de riesgo de impago diseñados para transferir la exposición crediticia de los instrumentos de renta fija entre las partes. Los importes de renta fija intercambiados por una renta sujeta a la evolución de los acontecimientos crediticios tanto de un índice como de un bono se calculan y contabilizan cada vez que se calcula el VL.

SWAPS DE RENTABILIDAD

El Fondo ha suscrito contratos de "Swap de rentabilidad" en virtud de los cuales dos partes suscriben un acuerdo por el que intercambian flujos de efectivo en función de la rentabilidad de un índice o acción de referencia durante la vigencia especificada del acuerdo. Los importes de los intereses pagados o percibidos se calculan y contabilizan cada vez que se calcula el VL.

SWAPS DE INFLACIÓN

El Fondo ha suscrito "Swaps de inflación" que consisten en contratos que ofrecen la diferencia entre un nivel de inflación, aplicado sobre un determinado importe nominal acordado al inicio del contrato, y un tipo de interés fijo aplicado sobre el mismo importe nominal. Estos importes se calculan y registran cada vez que se calcula el VL.

18 ESTADO DE MOVIMIENTOS DE LA CARTERA

Los detalles sobre los movimientos de títulos de la cartera respecto del ejercicio cerrado a 30 de junio de 2025 podrán obtenerse sin cargo alguno previa petición en la sede social del Fondo y en la oficina del representante en Hong Kong.
La lista de los cambios de la cartera también podrá obtenerse sin cargo alguno en la sede del Agente de pagos e información en Alemania y en la oficina del representante en Suiza.

19 ESTRUCTURA PRINCIPAL-SUBORDINADO (MASTER-FEEDER)

Amundi Funds Global Bond Flexible

El objetivo del Subfondo Amundi Funds Global Bond Flexible es lograr una combinación de crecimiento de los ingresos y del capital (rentabilidad total).
En concreto, el Subfondo invierte como un fondo subordinado en Amundi Oblig Internationales (fondo principal) que busca superar (tras las comisiones aplicables) el índice amplio JP Morgan Global Government Bond Index sobre cualquier periodo de tres años dado.
El fondo principal invierte fundamentalmente en bonos de la OCDE y bonos convertibles. Las inversiones pueden incluir títulos con respaldo hipotecario (MBS) y títulos respaldados por activos (ABS).
En concreto, el Subfondo invierte como mínimo el 85% de su patrimonio neto en acciones del fondo principal (clase OR-D).
Amundi Oblig Internationales es una SICAV constituida en virtud de la legislación francesa y considerada como un fondo principal en virtud de la Directiva 2009/65/CE.
El fondo principal invierte hasta el 100% en:
- bonos emitidos o garantizados por Estados miembros de la OCDE,
- bonos aptos para la inversión y bonos convertibles emitidos por sociedades con sede sita, o que desarrollen parte sustancial de su actividad, en la OCDE,
- MBS y ABS con una calificación de AAA (S&P) o Aaa (Moody's) en el momento de la compra y degradados a no menos de AA o Aa2 cuando se ostenten.
Las hipotecas subyacentes a los MBS podrán ser comerciales o residenciales, y los MBS podrán venir o no acompañados de cualquier forma de respaldo crediticio estatal.
La exposición del fondo principal a bonos convertibles contingentes se limitará a un 10% del patrimonio neto.
El fondo principal gestiona activamente su exposición a los mercados de tipos de interés y divisas.
Al tiempo que cumple con las políticas antes mencionadas, el fondo principal también podrá invertir en instrumentos del mercado monetario, depósitos y hasta un 10% de su patrimonio neto en OICVM/OIC.
El fondo principal utiliza ampliamente derivados para reducir diversos riesgos, a efectos de una gestión eficiente de la cartera y como vía para obtener una exposición (larga o corta) a diversos activos, mercados u otras oportunidades de inversión (incluidos los derivados centrados en deuda corporativa y divisas).
El fondo principal podrá formalizar compraventas temporales de títulos (pactos de recompra y recompra inversa).
Los ingresos netos del fondo principal se distribuirán automáticamente y sus ganancias de capital realizadas netas se reinvertirán o distribuirán automáticamente cada año, tal y como pueda establecerlo la sociedad de gestión del fondo principal.
El equipo de inversión del fondo principal emplea una amplia gama de posiciones estratégicas y tácticas, incluido el arbitraje entre los mercados de crédito, de tipos de interés y de divisas, para construir una cartera altamente diversificada.
El Gestor de inversiones de ambos Subfondos es Amundi (UK) Limited.
En la siguiente tabla se resumen, en términos de VL porcentual medio de sus clases de acciones, las comisiones cobradas directamente a Amundi Funds Global Bond Flexible, que ascienden a 382,220.75 EUR:

			Gastos corrientes	Comisiones de rentabilidad
Global Bond Flexible	EUR	Clase A EUR (C)	0.97%	0.61%
	EUR	Clase A EUR AD (D)	0.97%	0.61%
	EUR	Clase F2 EUR (C)	1.60%	0.00%
	EUR	Clase F EUR QTD (D)	1.44%	0.36%
	EUR	Clase F2 EUR QTD (D)	1.60%	0.00%
	EUR	Clase G EUR (C)	1.15%	0.56%
	EUR	Clase G EUR QTD (D)	1.15%	0.56%
	EUR	Clase I EUR (C)	0.44%	0.72%
	EUR	Clase M2 EUR (C)	0.54%	0.00%

Por su parte, las comisiones indirectas recibidas a través de las devengadas en el fondo principal (Clase OR-D) se elevan a 25,626.81 EUR, esto es, el 0.11% de su VL medio.
Pueden consultarse a petición los informes anuales y semestrales del fondo principal en la sede social del Fondo.
Amundi Funds Global Bond Flexible paga indirectamente, asimismo, comisiones sobre los fondos subyacentes que mantiene en el fondo principal.
La opinión de auditoría sobre el informe anual del Fondo Maestro con fecha 30 de junio de 2025, sin modificación, incluye un párrafo de énfasis relacionado con la valoración de los valores rusos a raíz de la invasión de Ucrania por parte de Rusia el 24 de febrero de 2022.

Amundi Funds Euro Bond Income

Amundi Funds Target Coupon pasará a ser Amundi Funds Euro Bond Income y se ha separado de su fondo principal Amundi Revenus el 16 de mayo de 2025.
El objetivo del Subfondo Amundi Funds Euro Bond Income es lograr una combinación de crecimiento de los ingresos y del capital (rentabilidad total). El Subfondo invierte específicamente como fondo subordinado en Amundi Revenus (fondo principal). El fondo principal y, en consecuencia, el Subfondo son productos financieros que promueven características ESG de conformidad con el Artículo 8 del Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros.

El fondo principal invierte fundamentalmente en instrumentos de deuda (bonos e instrumentos del mercado monetario) de todo tipo emitidos por estados o sociedades de todo el mundo y denominados en una de las divisas de la OCDE, con diversificación entre divisas y mercados de renta variable.

En concreto, el Subfondo invierte como mínimo el 85% de su patrimonio neto en acciones del fondo principal (clase OR). El Subfondo podrá invertir hasta el 15% en depósitos y derivados que se empleen exclusivamente a efectos de cobertura.

Amundi Revenus es un FI constituido en virtud de la legislación francesa y considerado como un fondo principal en virtud de la Directiva 2009/65/CE.

El fondo principal invierte como mínimo el 70% de su patrimonio neto en instrumentos de deuda. El fondo podrá invertir en:

- bonos no aptos para la inversión (bonos de alta rentabilidad),
- bonos corporativos subordinados (incluidos bonos convertibles contingentes hasta el 50% del patrimonio neto) y
- hasta un 20% de patrimonio neto en títulos con respaldo hipotecario (MBS) y títulos respaldados por activos (ABS).

El fondo principal también podrá invertir en renta variable de sociedades de cualquier capitalización y sector de todo el mundo. La exposición del fondo principal al mercado de renta variable podrá oscilar en el rango del 0% al 20% del patrimonio neto, y su exposición al mercado de divisas podrá oscilar en el rango del 0% al 100% de su patrimonio neto.

El fondo principal también podrá invertir hasta un 10% de su patrimonio neto en OICVM/OIC.

El fondo principal utiliza ampliamente derivados para reducir diversos riesgos, a efectos de una gestión eficiente de la cartera y como vía para obtener una exposición (larga o corta) a diversos activos, mercados u otras oportunidades de inversión (incluidos los derivados centrados en deuda corporativa).

El fondo principal podrá formalizar compraventas temporales de títulos (pactos de recompra y recompra inversa).

El importe de los ingresos distribuidos lo fijará anualmente la sociedad de gestión del fondo principal en base a las rentabilidades esperadas de los activos de la cartera.

El fondo principal no compara su rentabilidad con ningún índice concreto.

El equipo de inversión del fondo principal trata de explotar primas de rentabilidad procedentes de un amplio universo de inversión (bonos fundamentalmente), empleando un enfoque de gestión flexible y basado en elecciones de elevada convicción. Analiza las tendencias de los tipos de interés y económicas (descendente) para identificar estrategias y asignaciones por país y clase de activos que parezca probable que ofrezcan las mejores rentabilidades ajustadas al riesgo. El equipo de inversión emplea entonces un análisis tanto técnico como fundamental, incluido un análisis de la prima de riesgo y de crédito, para seleccionar valores sobre la base de su potencial para generar ingresos (ascendente) y para construir una cartera altamente diversificada que pueda ofrecer una rentabilidad regular.

Además, el fondo principal trata de lograr una puntuación ESG de su cartera superior a la de su universo de inversión.

El Gestor de inversiones de ambos Subfondos es Amundi Asset Management.

En la siguiente tabla se resumen, en términos de VL porcentual medio de sus clases de acciones, las comisiones cobradas directamente a Amundi Funds Euro Bond Income, que ascienden a 506,132.42 EUR:

			Gastos corrientes	Comisiones de rentabilidad
Euro Bond Income	EUR	Clase A2 EUR AD (D)	1.05%	-
	EUR	Clase F2 EUR AD (D)	1.63%	-
	EUR	Clase G2 EUR AD (D)	1.23%	-
	EUR	Clase I2 EUR AD (D)	0.54%	-
	EUR	Clase M2 EUR AD (D)	0.65%	-
	EUR	Clase Q-A4 EUR AD (D)	1.00%	-

Por su parte, las comisiones indirectas recibidas a través de las devengadas en el fondo principal (clase OR) se elevan a 83,570.70, esto es, el 0.22% del VL medio del fondo principal (clase OR) Amundi Revenus.

Amundi Funds Euro Bond Income paga indirectamente, asimismo, comisiones sobre los fondos subyacentes que mantiene en el fondo principal.

Pueden consultarse a petición los informes anuales y semestrales del fondo principal en la sede social del Fondo.

Amundi Funds Montpensier Great European Models SRI

El objetivo del Subfondo Amundi Funds Montpensier Great European Models SRI es lograr la revalorización del capital durante el periodo de inversión recomendado mediante la inversión en Inversiones Sostenibles de conformidad con el artículo 9 del Reglamento de Divulgación. En concreto, el Subfondo invierte como fondo subordinado en el fondo Montpensier GREAT EUROPEAN MODELS SRI (fondo principal) que trata de superar la rentabilidad de su índice de referencia, el índice Stoxx Europe 600 (SXXR).

El fondo principal invierte sobre todo en renta variable europea e instrumentos vinculados a la renta variable.

En concreto, el Subfondo invierte como mínimo el 85% de su patrimonio neto en acciones del fondo principal (clase Y).

El fondo principal es una SICAV constituida en virtud de la legislación francesa y considerado como un fondo principal en virtud de la Directiva 2009/65/CE.

El fondo principal integra los Factores de Sostenibilidad en su proceso de inversión, tal y como se describe con más detalle en el Código de Transparencia, que está disponible en la página específica del fondo en el sitio web de la sociedad gestora, www.montpensier-arbevel.com/.

La cartera del fondo principal está expuesta al menos en un 60% a renta variable de países de la Unión Europea. Las inversiones en valores aptos para el Plan de Ahorro en Acciones francés representarán un mínimo del 75% de los activos.

Al mismo tiempo que cumple con las políticas anteriores, el Subfondo también puede estar expuesto

- hasta el 30% de sus activos a renta variable de países europeos que no sean miembros del Espacio Económico Europeo;
- hasta el 10% de sus activos a renta variable de mercados emergentes según la definición del fondo principal;
- hasta el 10% de sus activos a renta variable de mercados no europeos;
- al riesgo de tipo de interés hasta el 40% del patrimonio neto, con un máximo del 20% de los activos en bonos y el 10% en instrumentos del mercado monetario;
- hasta el 10% del patrimonio neto en depósitos;
- hasta el 10% del patrimonio neto en OICVM/OIC.

Las inversiones en acciones de pequeña capitalización se limitarán al 20% del activo.

Estas inversiones no tienen ninguna restricción en cuanto a la asignación sectorial o geográfica dentro de Europa, ni en cuanto a la divisa o calificación.

El fondo principal puede incluir un riesgo de tipo de cambio limitado al 30% del patrimonio neto, excluyendo el euro u otras monedas del Espacio Económico Europeo.

El fondo principal puede utilizar derivados para reducir diversos riesgos y obtener una exposición (larga o corta) a diversos activos, mercados u otras oportunidades de inversión (incluidos los derivados centrados en renta variable).

El índice Stoxx Europe 600 (SXXR) sirve a posteriori como indicador para evaluar la rentabilidad del Subfondo.

El fondo principal se gestiona de forma activa y no existen restricciones relativas al índice Stoxx Europe 600 (SXXR) que limiten la estructuración de la cartera.

El enfoque extrafinanciero aplicado se presenta en el Código de Transparencia de la SICAV disponible en el sitio web del gestor de inversiones del fondo principal. Se basa en la integración de criterios extrafinancieros desde la definición del universo de inversión, mediante un proceso de exclusión con el fin de reducir el universo de inversión en al menos un 20% con respecto al universo inicial, de conformidad con la etiqueta ISR francesa. Además, todos los valores en cartera se analizan según un doble enfoque ESG y fundamental, siendo el mínimo exigido por la etiqueta ISR el 90% de los valores analizados según el enfoque ESG.

El enfoque extrafinanciero aplicado responde a un objetivo de mitigación del riesgo en términos de sostenibilidad.

Los gestores de inversión de los Subfondos son Amundi Asset Management (subordinado) y Montpensier Finance (fondo principal).

En la siguiente tabla se resumen, en términos de VL porcentual medio de sus clases de acciones, las comisiones cobradas directamente a Amundi Funds Amundi Funds Montpensier Great European Models SRI que ascienden a 8.194,06 EUR:

			Gastos corrientes	Comisiones de rentabilidad
Montpensier	EUR	Clase A2 EUR (C)	3.01%	-
Great	EUR	Clase E2 EUR (C)	2.83%	-
European	EUR	Clase G EUR (C)	3.07%	-
Models SRI	EUR	Clase I2 EUR (C)	2.08%	-
	EUR	Clase R2 EUR (C)	2.12%	-

Por su parte, las comisiones indirectas recibidas a través de las devengadas en el fondo principal se elevan a 1,576.07 EUR, esto es, el 0.60% del VL medio del fondo principal Montpensier GREAT EUROPEAN MODELS SRI.

Amundi Funds Montpensier Great European Models SRI paga indirectamente, asimismo, comisiones sobre los fondos subyacentes que mantiene en el fondo principal. Pueden consultarse a petición los informes anuales y semestrales del fondo principal en la sede social del Fondo.

Amundi Funds Montpensier M Climate Solutions

El objetivo del Subfondo Amundi Funds Montpensier M Climate Solutions es lograr la revalorización del capital durante el periodo de inversión recomendado mediante la inversión en Inversiones Sostenibles de conformidad con el artículo 9 del Reglamento de Divulgación.

En concreto, el Subfondo invierte a modo de fondo subordinado en el fondo Montpensier M Climate Solutions, que busca participar en la evolución de los mercados mundiales de renta variable invirtiendo principalmente en acciones de empresas cuyas iniciativas o soluciones contribuyan directa o indirectamente a reducir los impactos del cambio climático, o en acciones de empresas parte de cuya actividad se refiera a tendencias y desarrollos vinculados al tema de la transición energética y climática.

El fondo principal invierte principalmente en acciones de todo el mundo.

En concreto, el Subfondo invierte como mínimo el 85% de su patrimonio neto en acciones del fondo principal (clase Y).

El fondo principal es un FCP constituido en virtud de la legislación francesa y considerado como un fondo principal en virtud de la Directiva 2009/65/CE.

El fondo principal invierte al menos el 75% de su patrimonio neto en renta variable e instrumentos similares (como certificados de inversión y bonos convertibles) de empresas de todo el mundo, en todos los sectores empresariales y en todas las regiones geográficas, incluido hasta el 40% de los activos en los mercados emergentes.

Los instrumentos equivalentes a renta variable pueden representar hasta el 25% del patrimonio neto. No existen limitaciones en cuanto a capitalización bursátil para estas inversiones.

Al mismo tiempo que cumple con las políticas anteriores, el Subfondo también puede:

- estar expuesto al riesgo de tipo de interés hasta el 40% del patrimonio neto, con un máximo del 25% de los activos en bonos y el 10% en instrumentos del mercado monetario;
- invertir hasta el 10% de su patrimonio neto en OICVM/OIC; y
- mantener depósitos hasta el 10% de su patrimonio neto.

No existen limitaciones en cuanto a calificación o monedas para estas inversiones.

El fondo principal utiliza derivados para reducir diversos riesgos, obtener una exposición (larga o corta) a diversos activos, mercados u otras oportunidades de inversión (incluidos los derivados centrados en deuda corporativa y renta variable).

El fondo principal es de gestión activa.

La referencia a un índice es solo a efectos de comparación posterior.

El índice Stoxx Global 1800 (SXW1R) sirve a posteriori como indicador para evaluar la rentabilidad del Subfondo.

La estrategia de gestión del fondo principal utiliza un doble enfoque para identificar los valores:

- selección de valores sobre la base de criterios extrafinancieros con el objetivo de identificar la participación de las empresas en la transición energética y ecológica para el clima. Algunas actividades, como la energía nuclear y los combustibles fósiles, quedarán excluidas;
- completada por un análisis fundamental respaldado por un estudio cuantitativo sobre la base de ratios financieras.

Los gestores de inversión de los Subfondos son Amundi Asset Management (fondo subordinado) y Montpensier Finance (fondo principal).

En la siguiente tabla se resumen, en términos de VL porcentual medio de sus clases de acciones, las comisiones cobradas directamente a Amundi Funds Montpensier M Climate Solutions, que ascienden a 253,511.48 EUR:

			Gastos corrientes	Comisiones de rentabilidad
Montpensier M	EUR	Clase A2 EUR (C)	1.64%	-
Climate	EUR	Clase A5 EUR (C)	0.87%	-
Solutions	EUR	Clase E2 EUR (C)	1.49%	-
	EUR	Clase F EUR (C)	2.44%	-
	EUR	Clase G EUR (C)	1.79%	-
	EUR	Clase I2 EUR (C)	0.81%	-
	EUR	Clase R2 EUR (C)	0.85%	-

Por su parte, las comisiones indirectas recibidas a través de las devengadas en el fondo principal se elevan a 204,883.06 EUR, esto es, el 0.45% del VL medio del fondo principal Montpensier M Climate Solutions.

Amundi Funds Montpensier M Climate Solutions paga indirectamente, asimismo, comisiones sobre los fondos subyacentes que mantiene en el fondo principal.

Pueden consultarse a petición los informes anuales y semestrales del fondo principal en la sede social del Fondo.

Amundi Funds Impact Green Bond

El objetivo del Subfondo Amundi Funds Impact Green Bond es lograr una combinación de rentas periódicas y revalorización del capital (rentabilidad total) durante el periodo de inversión recomendado mediante la inversión en Inversiones Sostenibles de conformidad con el artículo 9 del Reglamento de Divulgación.

En concreto, el Subfondo invierte como fondo subordinado en Amundi Responsible Investing - Impact Green Bonds (fondo principal) que pretende ofrecer una rentabilidad vinculada a las Inversiones Sostenibles de acuerdo con el Artículo 9 del Reglamento de Divulgación, invirtiendo en bonos verdes cuyo impacto en el medio ambiente sea positivo, evaluado en función de las emisiones estimadas de gases de efecto invernadero evitadas y utilizando como indicador las toneladas de emisiones equivalentes de CO₂ (tCO₂e) evitadas.

El fondo principal invierte principalmente en bonos verdes con calificación crediticia apta para la inversión de la OCDE emitidos por cualquier emisor del mundo y denominados en cualquier moneda.

La exposición a divisas distintas del euro está limitada al 10% del patrimonio neto.

En concreto, el Subfondo invierte como mínimo el 85% del patrimonio neto en acciones del fondo principal (clase OR-D).

El fondo principal Impact Green Bonds es un Subfondo de la SICAV Amundi Responsible Investing constituido en virtud de la legislación francesa y considerado como un fondo principal en virtud de la Directiva 2009/65/CE.

El fondo principal puede invertir hasta el 100% de su patrimonio neto en todos los siguientes tipos de bonos verdes negociados en un mercado regulado y emitidos por Gobiernos, organizaciones supranacionales y empresas privadas o públicas de todo el mundo, incluido hasta el 15% de los activos en mercados emergentes:

- bonos de tipo fijo y de tipo variable;
- bonos indexados: inflación, CMR (tasa de vencimiento constante);
- valores subordinados emitidos por cualquier tipo de banco, sociedad o compañía de seguros;
- Valores respaldados por activos (ABS) y valores con respaldo hipotecario (MBS) hasta un máximo del 10% del patrimonio neto.

El fondo principal invertirá un mínimo del 50% del patrimonio neto en bonos verdes de emisores con una calificación ESG de entre A y D.

Al menos el 90% de los valores en cartera son objeto de un análisis extrafinanciero.

El fondo principal puede invertir hasta el 15% de su patrimonio neto en títulos sin calificación o con una calificación inferior a la de apta para la inversión.

El riesgo de divisas se cubrirá hasta una exposición total a divisas distintas del euro del 10% del patrimonio neto.

Al mismo tiempo que cumple con las políticas anteriores, el fondo principal también puede invertir:

- hasta el 30% del patrimonio neto en instrumentos del mercado monetario;
- hasta el 10% del patrimonio neto en OICVM/OIC;
- en depósitos;

El fondo principal utiliza derivados para reducir diversos riesgos, a efectos de una gestión eficiente de la cartera y como vía para obtener una exposición (larga o corta) a diversos activos, mercados u otras oportunidades de inversión (incluidos los derivados centrados en tipos de interés, deuda corporativa y divisas).

El fondo principal es de gestión activa. El índice Barclays MSCI Global Green Bond (con reinversión de cupones), con cobertura en euros (el "Índice") sirve a posteriori como indicador para evaluar la rentabilidad del fondo principal.

No hay limitaciones relativas al Índice que restrinjan la estructuración de la cartera.

La inversión sostenible del fondo principal se centra principalmente en los objetivos medioambientales invirtiendo en los llamados "bonos verdes" que financian proyectos aptos (i) que cumplen los criterios y directrices de los Principios de los Bonos Verdes (publicados por la ICMA) y (ii) para los que se puede evaluar el impacto positivo en la transición energética y el medio ambiente de los proyectos que financia.

El Gestor de inversiones de ambos Subfondos es Amundi Asset Management.

En la siguiente tabla se resumen, en términos de VL porcentual medio de sus clases de acciones, las comisiones cobradas directamente a Amundi Funds Impact Green Bond, que ascienden a 115.391,48 EUR:

			Gastos corrientes	Comisiones de rentabilidad
Impact Green Bond	EUR	Clase A2 EUR (C)	1.09%	-
	EUR	Clase E2 EUR (C)	0.89%	-
	EUR	Clase G2 EUR (C)	1.26%	-
	EUR	Clase I2 EUR (C)	0.33%	-
	EUR	Clase I2 GBP (C)	0.34%	-
	EUR	Clase J2 EUR (C)	0.32%	-
	EUR	Clase J8 JPY Hgd (C)	0.27%	-
	EUR	Clase R2 EUR (C)	0.58%	-
	EUR	Clase R2 GBP (C)	0.62%	-

Por su parte, las comisiones indirectas recibidas a través de las devengadas en el fondo principal asciende a 14,139.13 EUR, esto es, el 0.05% del VL medio del fondo principal Amundi Responsible Investing - Impact Green Bond.

Amundi Funds Impact Green Bond paga indirectamente, asimismo, comisiones sobre los fondos subyacentes que mantiene en el fondo principal.

Pueden consultarse a petición los informes anuales y semestrales del fondo principal en la sede social del Fondo.

20 SUBFONDOS DEL MERCADO MONETARIO

Desde el 20 de marzo de 2019, Amundi Funds Cash EUR y Amundi Funds Cash USD cumplen con el reglamento UE 2017/1131 sobre fondos del mercado monetario. Estos dos Subfondos pertenecen a la categoría FMM de valor liquidativo variable, según lo definido en el reglamento de la UE.

21 BONOS VINCULADOS A RENTA VARIABLE

El siguiente Subfondo mantiene en la cartera los siguientes Bonos vinculados a renta variable, ya incluidos en la sección de Cartera de valores a 30/06/25:

22 COMISIONES DE RECEPCIÓN Y TRANSMISIÓN DE SOLICITUDES

Las comisiones de recepción y transmisión de solicitudes:

- se abonan a Amundi Intermediation o a Amundi (UK) Ltd, por los servicios que éstas prestan a los Subfondos gestionados por Amundi, que consisten en centralizar las solicitudes y respaldar su mejor ejecución.

- se devengan con carácter diario y se abonan trimestralmente sobre la base de las transmisiones gestionadas por las partes vinculadas de Amundi.

En comparación con una gestora de inversiones que negocia las transacciones por su cuenta, la centralización de la orden permite, sobre todo, negociar mejores precios con los intermediarios gracias a un aumento del volumen de las transacciones, tener acceso a un mayor número de intermediarios y a más información sobre el mercado, beneficiarse de los conocimientos técnicos de los especialistas en negociación y controladores de negociación específicos.

Todas estas comisiones se registran en el capítulo "Comisiones de recepción y transmisión de solicitudes" del Estado de operaciones y variaciones en el patrimonio neto.

23 OPERACIONES CON PARTES VINCULADAS

Las partes vinculadas, en su calidad de intermediarios, también podrán llevar a cabo operaciones o invertir en divisas u otros productos financieros en nombre de cada Subfondo respecto del cual actúen como intermediarias o en su propio nombre o como contraparte para sus clientes, incluidos los casos en los que las partes vinculadas o sus clientes sean capaces de llevar a cabo operaciones en su propio nombre al mismo tiempo que en nombre de cada Subfondo. Las operaciones enumeradas en la tabla se han formalizado en el transcurso habitual del negocio y en unas condiciones comerciales normales.

El Fondo considera que las comisiones, primas y descuentos facturados por las partes vinculadas serán competitivos, a pesar de ser de su interés obtener unos porcentajes de comisión favorables, junto con primas y descuentos respecto de cada Subfondo.

Durante el ejercicio, se realizaron transacciones con partes vinculadas por un importe total de EUR 22,472,959,393.32, esto es el 8.77% de las transacciones totales realizadas durante el ejercicio. Durante el ejercicio cerrado a 30 de junio de 2025, Amundi Funds llevó a cabo operaciones con partes vinculadas por valor de:

	Divisa	Subfondos	Total transacciones con partes vinculadas	Porcentaje de transacciones con partes vinculadas	Total comisiones con partes vinculadas	Media medio de la comisión

24 COMISIONES INDIRECTAS

Los Gestores de inversiones de los Subfondos en cuestión han suscrito contratos de comisiones indirectas con intermediarios en virtud de los cuales los primeros recibieron bienes y servicios destinados a respaldar la toma de decisiones de inversión y que reporten beneficios demostrables a los Subfondos. El pago de los bienes y servicios corrió por cuenta de los intermediarios con cargo a la comisión que percibieron y los Gestores de inversiones no efectuaron pagos directos como contraprestación por tales servicios. Los bienes y servicios utilizados por el Fondo incluyen análisis del mercado: servicios de datos y cotización, medición de rentabilidad y hardware y software informático adicionales a los bienes y servicios; servicios de liquidación y depósito, y publicaciones en materia de inversión.

Los siguientes Subfondos han formalizado contratos de comisiones indirectas:

- Amundi Funds Climate Transition Global Equity
- Amundi Funds Equity Japan Target
- Amundi Funds Global Equity
- Amundi Funds Japan Equity Value
- Amundi Funds US Equity Dividend Growth
- Amundi Funds US Equity Select
- Amundi Funds US Equity Fundamental Growth
- Amundi Funds US Equity Research
- Amundi Funds US Equity Research Value
- Amundi Funds US Pioneer Fund
- Amundi Funds Income Opportunities
- Amundi Funds Pioneer Flexible Opportunities

25 DIVIDENDOS

26 SWING PRICING

En los días de valoración en los que considere que la negociación de las acciones de un Subfondo requerirá compras o ventas significativas de inversiones en cartera, el Consejo de Administración podrá ajustar el VL del Subfondo para reflejar con mayor exactitud los precios reales de las operaciones subyacentes, basándose en los diferenciales de negociación estimados, los costes y otras consideraciones de mercado y de negociación. En general, el VL se ajustará al alza cuando haya una fuerte demanda de compra de acciones del Subfondo y a la baja cuando haya una fuerte demanda de reembolso de acciones del Subfondo. Dicho ajuste se aplica a todas las transacciones del Subfondo de un día determinado, cuando las demandas netas superan un determinado umbral establecido por el Consejo de Administración. Dichos ajustes obedecen al objetivo de proteger a los Accionistas a largo plazo de la SICAV de los costes asociados a la actividad continua de suscripción y reembolso y no pretenden abordar las circunstancias específicas de cada inversor individual. Para cualquier Día de Valoración, el ajuste normalmente no será superior al 2% del VL, pero el Consejo de Administración puede aumentar este límite cuando sea necesario para proteger los intereses de los accionistas.

Los importes ajustados publicados para el ejercicio cerrado el 30/06/2025 se contabilizan en el "Estado de operaciones y variaciones en el patrimonio neto", en la partida de "suscripciones/reembolsos netas/os".

Durante el periodo comprendido entre julio de 2024 y junio de 2025, los siguientes Subfondos estuvieron incluidos en el ámbito de aplicación del Mecanismo de Swing Pricing:

Amundi Funds Latin America Equity	127,039,179.14	194,549.56	127,233,728.70

27 VALORES VALORADOS A VALOR RAZONABLE

De acuerdo con los principios contables aplicables, los valores pueden ser valorados a su valor razonablemente probable de realización, determinado con cuidado y de buena fe por el Consejo de Administración. Esta nota ofrece una visión general de dichos valores valorados a valor razonable cuando dicha información pudiera influir razonablemente en las decisiones económicas de los usuarios de los estados financieros.

Valores rusos

Como consecuencia de la invasión rusa de Ucrania el 24 de febrero de 2022 y su impacto en los mercados y valores rusos, el Consejo de Administración y la Sociedad de Gestión decidieron, a partir de finales de febrero, revisar y valorar continuamente la renta variable (incluidos los ADR/GDR) y los bonos rusos. La valoración razonable tiene en cuenta los regímenes de sanciones en vigor y su efecto en la capacidad de negociación y el proceso de liquidación de los títulos en cuestión.

En el momento de redacción del presente, el proceso de valoración razonable con respecto a estos títulos sigue activo.

A continuación, exponemos la lista de títulos sobre los que se ha efectuado una valoración razonable a 30 de junio de 2025.

Un número limitado de posiciones sobre tales títulos, iniciadas inmediatamente antes de la invasión, sigue sin liquidarse.

A continuación, exponemos el valor acumulado a 30 de junio de 2025:

Denominación del Subfondo	Número de posiciones no liquidadas expresadas en USD
Emerging Europe Middle East and Africa	478,590.89
Emerging Markets Equity Focus	252,148.38
Emerging World Equity	1,806,635.62
Russian Equity	856,001.35
Emerging Markets Blended Bond	708,887.24
Multi-Asset Climate	283,360.36
Pioneer Flexible Opportunities	636,367.38

Los importes relacionados con estas operaciones están incluidos en el apartado Estado de situación del patrimonio neto bajo las rúbricas Otros pasivos y Efectivo en bancos y disponibilidades.

El Consejo de Administración y la Sociedad de Gestión están emprendiendo acciones para resolver estas cuestiones en pro del fondo y sus partícipes, teniendo en cuenta la naturaleza sin precedentes de la situación.

El Consejo de Administración y la Sociedad de Gestión siguen monitorizando la evolución de la situación y están considerando con atención las opciones disponibles con respecto al subfondo suspendido, también a la luz del documento de preguntas y respuestas publicado por CSSF el 31 de marzo de 2022.

A finales de año, ninguno de los Subfondos tenía más del 10% de su valor liquidativo invertido en títulos improductivos.

Atento S.A.

Atento S.A. es un proveedor multinacional de servicios de gestión de relaciones con clientes y externalización de procesos de negocio, fundada en 1999, con sede en Madrid y constituida en Brasil, con una significativa presencia histórica en América Latina. La compañía ofrece servicios de atención al cliente, ventas, soporte técnico, analítica y back office en múltiples sectores, incluidos telecomunicaciones, servicios financieros, comercio minorista, salud y sector público. El 21 de julio de 2023, las acciones ordinarias de Atento fueron suspendidas de cotización en la Bolsa de Nueva York y posteriormente excluidas; actualmente, la empresa se encuentra sujeta a un plan de reestructuración. Cuando no existían precios de mercado observables para determinados valores de Atento, dichos instrumentos fueron valorados a valor razonable mediante un enfoque de valor intrínseco. Las valoraciones reflejan la estructura de capital de la empresa e incluyen ajustes por liquidez y riesgo de crédito asociado a los instrumentos.

A continuación se presenta la lista de valores valorados a valor razonable al 30 de junio de 2025:

28 TÍTULOS IMPRODUCTIVOS

A finales de año, ninguno de los Subfondos tenía más del 10% de su valor liquidativo invertido en títulos improductivos.

29 SUCESOS POSTERIORES

El Subfondo Amundi Funds Global Bond Income se lanzará el 7 de julio de 2025.

30 REGLAMENTO SOBRE LA DIVULGACIÓN DE INFORMACIÓN RELATIVA A LA SOSTENIBILIDAD EN EL SECTOR DE LOS SERVICIOS FINANCIEROS ("SFDR", POR SUS SIGLAS EN INGLÉS)

La información sobre las características medioambientales y/o sociales y/o las inversiones sostenibles está disponible en la sección (no auditada) dedicada al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros y, en su caso, en sus anexos pertinentes.

Informe de auditoría

A los accionistas de
Amundi Funds

Nuestra opinión

En nuestra opinión, los estados financieros adjuntos ofrecen una imagen fiel y auténtica de la situación financiera de Amundi Funds (en lo sucesivo, el "Fondo") y de cada uno de sus subfondos a 30 de junio de 2025, así como de los resultados de sus operaciones y variaciones en su patrimonio neto correspondientes al ejercicio cerrado en dicha fecha de conformidad con los requisitos legales y normativos de Luxemburgo relativos a la elaboración y presentación de los estados financieros.

Qué hemos auditado

Los estados financieros del Fondo abarcan:

- el estado del patrimonio neto a 30 de junio de 2025;
- el estado de operaciones y variaciones en el patrimonio neto para el ejercicio cerrado en tal fecha;
- la cartera de títulos a 30 de junio de 2025; y
- las notas a los estados financieros, que incluyen un resumen de las principales políticas contables.

Base de la opinión

Llevamos a cabo nuestra auditoría de conformidad con la Ley de 23 de julio de 2016 sobre la profesión de auditoría (Ley de 23 de julio de 2016) y con las Normas Internacionales de Auditoría (NIA) en su versión adoptada en Luxemburgo por la Commission de Surveillance du Secteur Financier (Comisión de supervisión del sector financiero, CSSF). Nuestras responsabilidades en virtud de la Ley de 23 de julio de 2016 y de las NIA adoptadas para Luxemburgo por la CSSF se describen de forma detallada en el apartado «Responsabilidades del auditor (*Réviseur d'entreprises agréé*) respecto de la auditoría de los estados financieros» de nuestro informe.

Creemos que la evidencia de auditoría que hemos obtenido es suficiente y adecuada para servir de base a nuestra opinión.

Somos independientes del Fondo de conformidad con el Código Internacional de Ética para Contables Profesionales, incluidas las Normas Internacionales de Independencia, emitido por el Consejo de Normas Internacionales de Ética para Contables (Código del IESBA) y adoptadas para Luxemburgo por la CSSF, junto con los requisitos éticos que son relevantes para nuestra auditoría de los estados financieros y hemos cumplido con nuestras otras responsabilidades éticas en virtud de dichas exigencias.

Párrafo de énfasis

Llamamos la atención sobre la Nota 1 de los presentes estados financieros, en la que se indica que el Consejo de Administración del Fondo decidió suspender el cálculo del valor liquidativo, la emisión y el reembolso y la conversión de acciones del subfondo Russian Equity a partir del 28 de febrero de 2022 a raíz de las tensiones geopolíticas en curso y las sanciones impuestas a Rusia, que imposibilitaron la negociación o la valoración de la mayoría de los activos del subfondo. Nuestra opinión no ha cambiado respecto de esta cuestión.

Otra información

El Consejo de Administración del Fondo es responsable del resto de información. Esta otra información comprende los datos especificados en el informe anual, pero no abarca los estados financieros y nuestro informe de auditoría sobre los mismos.

Nuestra opinión sobre los estados financieros no cubre el resto de información, y no podemos emitir ningún tipo de garantía al respecto.

En relación con nuestra auditoría de los estados financieros, es nuestra responsabilidad leer el resto de información identificada anteriormente y, en este proceso, revisar si esta es sustancialmente incoherente con los estados financieros o con los conocimientos adquiridos durante la auditoría, o si parece presentar otro tipo de incorrección sustancial. Si, basándonos en el trabajo que hemos realizado, llegamos a la conclusión de que existe una incorrección sustancial en esta otra información, estamos obligados a notificarlo. No tenemos nada que comunicar a este respecto.

Responsabilidades del Consejo de Administración del Fondo respecto de los estados financieros

El Consejo de administración del Fondo se encarga de la elaboración y presentación fidedigna de los estados financieros de conformidad con los requisitos legales y reglamentarios de Luxemburgo a este respecto así como de los controles internos que el Consejo estime necesarios para permitir la elaboración de unos estados financieros exentos de incorrecciones sustanciales, ya sea por fraude o error.

En la preparación de los estados financieros, el Consejo de Administración del Fondo se encarga de evaluar la capacidad de este último y de cada uno de sus subfondos para continuar su actividad a modo de empresa en funcionamiento; revelar, si procede, aspectos relacionados con la empresa en funcionamiento y emplear esta base de contabilidad, salvo que dicho Consejo tenga intención de liquidar el Fondo o cualquiera de sus subfondos, o interrumpir sus operaciones, o no le quede otra alternativa realista.

Responsabilidades del Réviseur d'entreprises agréé respecto de la auditoría de los estados financieros

Los objetivos de nuestra auditoría son obtener una certeza razonable acerca de si los estados financieros en su conjunto están exentos de incorrecciones sustanciales, ya sea por fraude o error, y emitir un informe de auditoría con nuestra opinión. La certeza razonable constituye un nivel de garantía elevado, si bien no garantiza que una auditoría realizada de conformidad con la Ley de 23 de julio de 2016 y con las NIA adoptadas para Luxemburgo por la CSSF siempre vaya a detectar incorrecciones sustanciales en caso de que existan. Pueden registrarse incorrecciones por fraude o por error, y estas se consideran sustanciales si, individualmente o en conjunto, cabe esperar razonablemente que influyan en las decisiones económicas adoptadas por los usuarios basándose en los estados financieros.

En el marco de una auditoría de conformidad con la Ley de 23 de julio de 2016 y las NIA adoptadas para Luxemburgo por la CSSF, aplicamos nuestro juicio y escepticismo profesional en el transcurso de la auditoría. Asimismo:

Asimismo:

- identificamos y evaluamos los riesgos de incorrecciones sustanciales en los estados financieros, ya sea por fraude o error; diseñamos y aplicamos procedimientos de auditoría que respondan a esos riesgos y obtenemos evidencias de auditoría suficientes y adecuadas como para basar nuestra opinión. El riesgo de no detectar una incorrección sustancial derivada de fraude es mayor que en el caso de las causadas por errores, ya que el fraude puede implicar connivencia, falsificación, omisiones intencionadas, tergiversaciones o el incumplimiento de los controles internos;
- obtenemos información sobre los controles internos relevantes para la auditoría de cara a diseñar procedimientos de auditoría adecuados a las circunstancias pero no para expresar una opinión sobre la efectividad de los controles internos del Fondo;
- evaluamos la adecuación de las políticas contables utilizadas y la aptitud de las estimaciones contables y los desgloses realizados por el Consejo de Administración del Fondo;
- llegamos a una conclusión sobre la idoneidad del uso del principio de empresa en funcionamiento a cargo del Consejo de Administración del Fondo y, basándonos en las evidencias de auditoría obtenidas, si existe incertidumbre sustancial respecto de acontecimientos o situaciones que pudieran sembrar dudas significativas sobre la capacidad del Fondo o de cualquiera de sus subfondos para seguir operando como empresa en funcionamiento. Si llegamos a la conclusión de que un existe incertidumbre sustancial, estamos obligados a destacar en nuestro informe de auditoría los desgloses correspondientes en los estados financieros o, en caso de que tales desgloses sean inadecuados, modificar nuestra opinión. Nuestras conclusiones están basadas en las evidencias de auditoría obtenidas hasta la fecha de nuestro informe de auditoría. No obstante, determinados acontecimientos futuros podrían causar que el Fondo o cualquiera de sus subfondos dejen de operar como empresa en funcionamiento.
- evaluamos la presentación general, estructura y contenido de los estados financieros, incluidos los desgloses de información, y si estos reflejan las operaciones y acontecimientos subyacentes de forma que se consiga una presentación fidedigna.

Comunicamos a los responsables del gobierno corporativo, entre otros aspectos, el alcance y el calendario previstos para la auditoría, así como los hallazgos de auditoría significativos, incluidas las deficiencias relevantes en los controles internos que identifiquemos durante nuestra auditoría.

También proporcionamos a los encargados del gobierno corporativo una declaración de que hemos cumplido los requisitos éticos pertinentes en materia de independencia, y les comunicamos todas las relaciones y demás cuestiones que razonablemente pueda pensarse que afectan a nuestra independencia y, en su caso, las medidas adoptadas para eliminar las amenazas o las salvaguardias aplicadas.

PricewaterhouseCoopers, Société coopérative
Representado por

Luxembourg, 29 de octubre de 2025

Thomas Druant

A los accionistas de Amundi Funds

Por el presente confirmamos que, en nuestra opinión, la Sociedad de gestión del Fondo ha gestionado Amundi Funds, a todos los efectos sustanciales, de conformidad con las disposiciones de la documentación legal del Fondo, en su versión modificada, respecto del ejercicio cerrado a 30 de junio de 2025.

En nombre y representación de
CACEIS Bank Luxembourg S.A.

En caso de que la legislación lo exija, las notificaciones a los accionistas se publicarán en el Mémorial de Luxemburgo, el Luxemburger Wort y en cualesquiera otros periódicos que los Consejeros puedan establecer.

REGLAMENTO SOBRE OPERACIONES DE FINANCIACIÓN DE VALORES (OFV)

Según el Reglamento (UE) 2015/2365 del Parlamento Europeo y del Consejo, de 25 de noviembre de 2015, sobre transparencia de las operaciones de financiación de valores, solo las operaciones con pacto de recompra directa e inversa, de préstamo de títulos y de swaps de rentabilidad estaban sujetas al mismo a 30 de junio de 2025.

Todas las operaciones son bilaterales.

Los subfondos respetan en todo momento la siguiente restricción: "El efectivo recibido como garantía de contratos OTC y pactos de recompra directa ha de ser superior a la suma de los depósitos en entidades de crédito, las inversiones en deuda pública de alta calidad, operaciones con pactos de recompra inversa con entidades de crédito e inversiones en fondos del mercado monetario a corto plazo". El efectivo se gestiona en conjunto; el proceso de gestión de las inversiones no aísla específicamente el efectivo recibido como garantía del resto del efectivo. Las garantías otorgadas por los Subfondos en el marco de los contratos de recompra se mantienen en cuentas segregadas.

Los intereses percibidos y abonados en virtud de los contratos de recompra directa e inversa se desglosan en el Estado de operaciones y variaciones en el patrimonio Neto, para cada Subfondo, en las partidas "Intereses percibidos en contratos de recompra directa e inversa" e "Intereses abonados en contratos de recompra directa e inversa".

* El total no incluye las garantías en efectivo.

Todas las operaciones son bilaterales.
Para cada contraparte y cada subfondo, se realiza un seguimiento de las posiciones de garantía de forma global para todos los tipos de instrumentos OTC.
La garantía en efectivo se gestiona en conjunto; el proceso de gestión de inversiones no aísla específicamente el efectivo recibido como garantía de otro tipo de efectivo.
Las rentabilidades y los costes originados por operaciones de swaps de rendimiento durante el ejercicio cerrado a 30 de junio de 2025 se incluyen en la valoración de los swaps.

POLÍTICA Y PRÁCTICAS DE REMUNERACIÓN

La política de remuneración de Amundi Luxembourg S.A. cumple con los requisitos detallados en la Directiva Europea 2014/91/UE, en vigor desde el 18 de marzo de 2016 y traspuesta a la legislación luxemburguesa el 10 de mayo de 2016. La política de remuneración se basa en el marco de remuneración del grupo Amundi, es objeto de revisión anual y la aprueba el Consejo de Amundi Luxembourg. La política está sujeta a una revisión independiente a cargo del departamento interno de Cumplimiento.

No hubo más cambios importantes en la política de remuneración adoptada en ejercicios anteriores, solo modificaciones/precisiones de redacción, principalmente para aclarar el umbral que debe utilizarse para los cálculos de aplazamiento y subrayar que se busca un equilibrio adecuado entre la remuneración fija y la variable. La política aplicable para 2024 fue aprobada por el Consejo de Amundi Luxembourg el 26 de septiembre de 2024. El Comité de remuneración del Grupo Amundi revisa anualmente la política de remuneración del grupo. La revisión de 2024 tuvo lugar el 06 de febrero de 2024.

La política de remuneración y los objetivos de prácticas fomentan una gestión sólida y eficaz del riesgo y son coherentes con este fin, puesto que alinean la remuneración con los resultados y los riesgos a largo plazo para evitar conflictos de intereses. Los componentes de la remuneración fija están vinculados a las funciones cubiertas, los servicios profesionales prestados y el alcance de las responsabilidades, reflejando así el nivel de cualificación académica, los niveles de remuneración del mercado, la experiencia y las habilidades necesarias para cada puesto, así como el nivel de excelencia demostrado. La remuneración variable está concebida para promover un desarrollo sostenible a largo plazo de la Sociedad de Gestión y un sistema de gestión de riesgos sólido y eficaz.

Los otorgamientos de retribución variable tienen en cuenta el desempeño del empleado, de su unidad de negocio y del grupo Amundi en su conjunto, y se basan en criterios tanto financieros como no financieros.

Amundi Luxembourg S.A. y el grupo Amundi han definido a todo el personal identificado como con autoridad o influencia sobre los fondos que Amundi gestiona, y que por tanto es probable que influyan en la rentabilidad o el perfil de riesgo de los fondos.

■ IMPORTES OTORGADOS EN CONCEPTO DE REMUNERACIÓN

Amundi Luxembourg S.A., la Sociedad de Gestión, actúa a 31 de diciembre de 2024 como Sociedad de Gestión o gestora de FIA para varios OICVM y FIA paraguas y autónomos.

La remuneración total expresada en euros abonada por Amundi Luxembourg S.A. a su personal en el año natural 2024 es como sigue:

	N.º de beneficiarios	Remuneración fija	Remuneración variable	Total
Personal	106	9,237,821.73	1,719,726.79	10,957,548.52
Del cual				
- Personal identificado	10	1,370,331.15	699,980.79	2,070,311.94
- Resto del personal	96	7,867,490.58	1,019,746.00	8,887,236.58

A 31 de diciembre de 2024 y a 30 de junio de 2025, Amundi Funds SICAV representaba alrededor del 25,55% y alrededor del 24,57%, respectivamente, de los Activos gestionados netos totales de Amundi Luxembourg S.A. Las cifras de remuneración total expuestas anteriormente aluden a las actividades respecto de todos los fondos gestionados. Los empleados de Amundi Luxembourg S.A. y del grupo Amundi designados como miembros del Consejo de Administración de la Sociedad de Gestión y/o de los Fondos renuncian al derecho a cualquier tipo de remuneración respecto de todos los fondos gestionados. Ningún empleado de la Sociedad de Gestión recibe ningún importe, incluidos intereses devengados y comisiones de rentabilidad, abonado directamente por los OICVM o FIA gestionados.

REMUNERACIÓN DE LOS DELEGADOS

En caso de ser facilitados a la Sociedad de Gestión, los datos de remuneración de 2024 en relación con las Gestoras de inversiones se detallan a continuación (datos de activos gestionados de los subfondos a 30 de junio de 2025).

Los siguientes Subfondos emplean el enfoque del Valor en riesgo (Value at Risk - VaR) relativo (intervalo de confianza del 99%, periodo de tenencia de 1 mes) con el objetivo de supervisar y medir la exposición global en un periodo de observación de un ejercicio.

Subfondo	Enfoque de VaR	Modelo de VaR	Cartera de referencia	Límite de VaR	VaR más bajo	VaR más alto	VaR (30.06.2025)	Media uso del VaR durante el ejercicio	Nivel de apalancamiento durante el ejercicio

* Este Subfondo se ha liquidado durante el periodo de información, véase más información en la Nota 1.

* Este Subfondo ha cambiado de denominación durante el periodo de información, véase más información en la Nota 1.

* Este Subfondo ha sido lanzado durante el periodo de información, véase más información en la Nota 1.

* En determinados casos (cuando se haya resuelto, liquidado o lanzado un subfondo en los últimos 12 meses, cuando se haya lanzado o liquidado cualquier clase de acciones en los últimos 12 meses, cuando se hayan incrementado o reducido significativamente los activos gestionados de cualquier clase de acciones en los últimos 12 meses, o cuando haya muy pocos activos gestionados respecto de cualquier clase), los Ratios de Gastos Totales calculados con carácter anual (periodo de referencia de 12 meses) podrán no ser indicativos del valor real.

REGLAMENTO SOBRE LAS COMISIONES DE GESTIÓN SOBRE RESULTADOS

Tras las Directrices de la Autoridad Europea de Valores y Mercados sobre las comisiones de gestión sobre resultados (ESMA34-39-992), el efecto de estas comisiones a 30 de junio de 2025 es el siguiente:

Clases de Acciones	Código ISIN	Importe de las comisiones de gestión sobre resultados realizado a cierre del periodo analizado en la divisa del Subfondo	% basado en el VL a cierre del periodo analizado ⁽¹⁾	Importe de las comisiones de gestión sobre resultados materializado durante el periodo contable debido a reembolsos (en la divisa del Subfondo)	% sobre el VL medio durante el periodo contable ⁽²⁾	Importe de las comisiones de gestión sobre resultados a cierre de periodo (cierre del periodo contable en la divisa del Subfondo)	% basado en el VL a cierre del periodo contable ⁽³⁾

(1) Importe de las comisiones de gestión sobre resultados realizado a cierre del periodo analizado en la divisa del Subfondo dividido entre el VL a cierre del periodo analizado

(2) Importe de las comisiones de gestión sobre resultados materializado durante el ejercicio contable debido a reembolsos en la divisa del Subfondo dividido entre el VL medio durante el periodo contable

(3) Importe de las comisiones de gestión sobre resultados acumulado a cierre del ejercicio (cierre del periodo contable) en la divisa del Subfondo dividido entre el VL a cierre del periodo contable

Las clases de acciones activas sin comisiones de gestión sobre resultados materializadas durante el ejercicio o sin comisiones de gestión sobre resultados a cierre del ejercicio no se incluyen en la tabla.

REGLAMENTO DE DIVULGACIÓN DE INFORMACIÓN

El 18 de diciembre de 2019, el Consejo Europeo y el Parlamento Europeo anunciaron que habían alcanzado un acuerdo político sobre el Reglamento de divulgación, buscando así establecer un marco paneuropeo para facilitar la inversión sostenible. El Reglamento de divulgación establece un enfoque armonizado respecto a la divulgación de información relacionada con la sostenibilidad a los inversores en el sector de los servicios financieros del Espacio Económico Europeo. A los efectos del Reglamento de divulgación, la Sociedad gestora cumple los criterios de «participante del mercado financiero», mientras que cada Subfondo se califica como «producto financiero». Para obtener más detalles sobre de qué manera un Subfondo cumple con los requisitos del Reglamento de divulgación, consulte el suplemento del Subfondo en cuestión. Consulte también el apartado sobre «Inversión sostenible» en el Folleto del Fondo y la Política de Inversión Responsable de Amundi, disponible en www.amundi.com.

De conformidad con el artículo 11 del Reglamento de divulgación, el Fondo formula las siguientes declaraciones: En el marco de la Política de Inversión Responsable de Amundi, esta última ha desarrollado su propio enfoque de calificación ESG. La calificación ESG de Amundi tiene por objeto cuantificar el desempeño ESG de un emisor, es decir, su capacidad para anticipar y gestionar los riesgos de sostenibilidad y las oportunidades inherentes a su sector y circunstancias individuales. Al utilizar las calificaciones ESG de Amundi, los gestores de carteras tienen en cuenta los riesgos de sostenibilidad en sus decisiones de inversión. Amundi aplica políticas de exclusión selectiva a todas las estrategias de inversión activa de Amundi, y excluye a las empresas contrarias a la Política de Inversión Responsable, como aquellas que no respetan los convenios internacionales, los marcos reconocidos internacionalmente o las normativas nacionales.

■ Subfondos según el artículo 9

Estos Subfondos tienen un objetivo sostenible y, por lo tanto, están clasificados conforme al artículo 9 del SFDR [Reglamento (UE) 2019/2088 del Parlamento Europeo y del Consejo, de 27 de noviembre de 2019, sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros]. Por tanto, tal como exige el artículo 58 del REGLAMENTO DELEGADO (UE) 2022/1288 DE LA COMISIÓN, en un anexo del presente informe se ofrece información detallada sobre las características medioambientales o sociales promovidas por el producto financiero.

Este anexo contiene información sobre:

- La consecución del objetivo de inversión sostenible del producto financiero;
- Principales inversiones, asignación de activos y porcentaje de inversiones en diferentes sectores y subsectores económicos;
- Información sobre inversiones sostenibles.

Montpensier Great European Models SRI
 Montpensier M Climate Solutions
 Impact Euro Corporate Short Term Green Bond
 Impact Green Bond

■ Subfondos según el artículo 8 (requerido según el art. 11.1)

Los Subfondos que se enumeran a continuación están clasificados de conformidad con el artículo 8 del Reglamento de divulgación y tienen por objeto promover características medioambientales y/o sociales. Además de aplicar la Política de Inversión Responsable de Amundi, estos Subfondos según el artículo 8 tienen por objeto promover estas características a través de inversiones que resulten en una puntuación ESG de sus carteras superior a la de su respectivo índice de referencia o universo de inversión. La puntuación ESG de la cartera es la media ponderada por los activos gestionados de la puntuación ESG de los emisores basada en el modelo de puntuación ESG de Amundi.

Durante el ejercicio objeto del presente informe, la Gestora de Inversiones promovió continuamente las características medioambientales y/o sociales mediante la aplicación de las metodologías mencionadas.

■ **Subfondos según el artículo 6**

En vista de la orientación de la inversión y las clases de activos/sectores en los que invierten, los gestores de inversiones de todos los demás Subfondos no clasificados de conformidad con el artículo 8 o 9 del Reglamento de divulgación no integraron la consideración de actividades económicas medioambientalmente sostenibles en el proceso de inversión del Subfondo. Por tanto, cabe señalar que las inversiones subyacentes a este Subfondo no tuvieron en cuenta los criterios de la UE para las actividades económicas medioambientalmente sostenibles.

A lo largo del ejercicio, el Subfondo tuvo en cuenta el PIA 14 a través de la Norma mínima y la Política de exclusión de Amundi en relación con las armas controvertidas, excluyendo a los emisores en la producción, venta, almacenamiento o servicios para y de minas antipersonas y bombas de racimo, prohibidas por los tratados de Ottawa y Oslo, y a los emisores implicados en la producción, venta o almacenamiento de armas químicas, biológicas y de uranio empobrecido, según la Política Global de Inversión Responsable de Amundi.

Plantilla de divulgación periódica para los productos financieros contemplados en el Artículo 9, apartados 1 a 4a, del Reglamento (UE) 2019/2088 y en el Artículo 5, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto:
AMUNDI FUNDS MONTPENSIER GREAT EUROPEAN MODELS SRI

Identificador de la entidad jurídica:
213800HTVMOYLUK1WB84

Objetivo de inversión sostenible

¿Tenía este producto financiero un objetivo de inversión sostenible?

X

Sí

X

Realizó inversiones sostenibles con un objetivo medioambiental:
18.7% del patrimonio neto de los fondos

X

en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

X

en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

X

Realizó inversiones sostenibles con un objetivo social:
78.7% del patrimonio neto del fondo

Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de ____% de inversiones sostenibles

con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo social

Promovió características E/S, pero no realizó inversiones sostenibles

Una empresa es identificada como sostenible por el gestor de activos, aplicando la metodología descrita en la Política ESG disponible en el sitio web montpensier.com. Una empresa puede participar en varios ODS. La sociedad de gestión lo clasifica como sostenible desde el punto de vista medioambiental o social, en función de su implicación en el ODS principal al que la sociedad gestora lo haya adscrito.

¿En qué medida se cumplió el objetivo de inversión sostenible de este producto financiero?

El fondo integra factores de sostenibilidad en su proceso de inversión, como se indica más detalladamente a continuación y en el capítulo "Estrategia de inversión" del Folleto.
El fondo tiene en cuenta los criterios ESG para unificar el rendimiento financiero y el deseo de influir positivamente, cuando sea posible, en el emisor en términos de desempeño ESG, animando a las empresas a mejorar la integración de los criterios ESG en sus actividades y valorando las mejores prácticas.

La sociedad gestora aplicó la política descrita en el Documento Precontractual para productos financieros Artículo 9, apartados 1 a 4a, del Reglamento (UE) 2019/2088 y Artículo 5, párrafo primero, del Reglamento (UE) 2020/852.

100% de la cartera invertida, excluidos el efectivo y los equivalentes de efectivo (lo que supone el 97.36% del patrimonio neto del fondo), está compuesto por inversiones sostenibles.

La intensidad media ponderada de carbono y la huella de carbono de la cartera están en línea con las de su índice.

804

La intensidad media ponderada de carbono de la cartera es significativamente superior a la del índice cuando se incluyen las emisiones de Alcance 3 Anterior, mientras que la huella de carbono sigue siendo significativamente inferior a la del índice.

Como recordatorio, el Alcance 3 de Nivel 1 solía tener en cuenta las emisiones de los proveedores directos del producto final, mientras que el Alcance 3 Anterior tiene un alcance más amplio, que tiene en cuenta las emisiones vinculadas al transporte y la distribución de los productos adquiridos por la empresa entre sus proveedores de Nivel 1 y sus operaciones, además de otros servicios como la logística de entrada, la logística de salida, el transporte y la distribución entre los centros de la empresa.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

¿Cómo se comportaron los indicadores de sostenibilidad?

Los siguientes indicadores se utilizan para demostrar que el Subfondo ha promovido características medioambientales y/o sociales:

- Porcentaje de inversiones conformes con la política de exclusión de Montpensier Arbevel: 100%.
- Porcentaje de inversiones con una calificación B o superior (en una escala de CCC a AAA): 100%.
- Porcentaje de inversiones implicadas en una controversia "Roja" según MSCI: 0%.
- Porcentaje de inversiones sujetas a la metodología ESG de Montpensier Arbevel: 100%.

Independencia del Consejo: Ponderación de las empresas en cartera identificadas con una mayoría de consejeros independientes de empleados, accionistas mayoritarios y gobiernos.

Remuneración vinculada a objetivos ESG: Ponderación de las empresas en cartera identificadas que han integrado criterios ESG en la remuneración de los ejecutivos. Esta variable se basa en los informes publicados por las empresas. Se centra estrictamente en si estos elementos se incluyen o no en los componentes de la remuneración variable, y no tiene en cuenta su eficacia.

Fuente Montpensier Finance / MSCI

Cumplimiento del Pacto Mundial: Ponderación de las empresas en cartera identificadas como conformes con los principios del Pacto Mundial de Naciones Unidas.

• ¿...y en comparación con periodos anteriores?

Ver más arriba.

• ¿De qué manera las inversiones sostenibles no causaron un perjuicio significativo a ningún objetivo de inversión sostenible?

¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?

La evaluación del principio "No causar daños significativos" (DNSH) se basa en:

- Nuestro Análisis ISR Paso 1: la exclusión de empresas implicadas en actividades controvertidas: fabricación de armas, minería del carbón, tabaco, entretenimiento para adultos, juegos de azar, OMG y aceite de palma.
- Paso 2, a saber, la exclusión de las empresas calificadas con "CCC" o "Red Controversy Vigilance" por MSCI ESG Research;
- Tener en cuenta las PIA en un enfoque cualitativo en el análisis ISR de los valores. Los indicadores relativos a las principales incidencias adversas de las decisiones de inversión sobre los factores de sostenibilidad figuran en el apéndice.

Además, se considera que las empresas con un impacto medioambiental o social negativo en la MIA, o en los pilares E y S, incumplen el principio DNSH.

Puede consultar también el Folleto y el Documento precontractual SFDR anexo al folleto del OIC, disponibles en la página web de la sociedad gestora.

¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:

Excluimos de nuestro universo de inversión a las empresas que no están alineadas con determinadas normas y convenciones internacionales, en particular el Pacto Mundial de Naciones Unidas (UNG), las Líneas Directrices de la OCDE para Empresas Multinacionales, la Organización Internacional del Trabajo (OIT) y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos (UNGPR).

Las empresas que son objeto de una controversia de color "Rojo" quedan excluidas del universo de inversión. Entre estas controversias de color "Rojo" están las empresas que no se ajustan al Pacto Mundial de Naciones Unidas (Derechos Humanos, Derechos Laborales, Medio Ambiente y Corrupción).

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

Tenemos en cuenta los principales indicadores de impactos negativos en la política de exclusiones sectoriales y normativas, el análisis de las prácticas de buen gobierno (utilizando el sistema interno Montpensier Governance Flag - MGF), el análisis cualitativo propio de la contribución de las empresas a las transiciones medioambiental y de solidaridad (Montpensier Impact Assessment – MIA, Montpensier Industry Contributor – MIC), y/o en el análisis de las actividades ecológicas que determina la contribución a uno o más Objetivos de Desarrollo Sostenible (ODS) de la ONU. La pertinencia y la cobertura de estos indicadores en el análisis varían en función del sector, la industria y la región en la que opera cada empresa.

Los indicadores relativos a las principales incidencias adversas de las decisiones de inversión sobre los factores de sostenibilidad figuran en el apéndice.

La información relativa a los objetivos medioambientales, sociales y de gobierno corporativo (ESG) puede consultarse en el sitio web de la sociedad gestora:

<https://www.montpensier.com/sites/default/files/public/documents/politique-esg.pdf>

¿Cuáles fueron las principales inversiones de este producto financiero?

Mayores inversiones	Sector	% de activos	País
Schneider Electric	Bienes y servicios industriales	5.09%	Francia
SAP	Tecnología	5.05%	Alemania
ASML Holding	Tecnología	5.04%	Países Bajos
Novo Nordisk B	Asistencia sanitaria	4.72%	Dinamarca
Airbus Group	Bienes y servicios industriales	3.82%	Países Bajos
Astrazeneca	Asistencia sanitaria	3.77%	Reino Unido

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es:

Clasificación industrial de referencia (ICB) - 19 sectores

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el **volumen de negocio** refleja la "ecologización" de las empresas participadas en la actualidad.
- las **inversiones en inmovilizado** (CapEx) muestran las inversiones ecológicas realizadas por las empresas participadas, relevantes para la transición a una economía verde.
- los **gastos de explotación** (OpEx) reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

- ¿Invertió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE1?

☐

Sí:

☐

En gas fósil

☐

En energía nuclear

☒

No

Los datos relativos a la participación de las empresas en actividades relacionadas con el gas fósil y/o la energía nuclear, de acuerdo con la Taxonomía, se determinan teniendo en cuenta únicamente los datos publicados por las empresas. Aún no se dispone de datos sobre la participación de las empresas en actividades relacionadas con el gas fósil y/o la energía nuclear que cumplan la Taxonomía.

A título informativo, los valores identificados como implicados en energía fósil y/o nuclear representan el 5.09% de la cartera, es decir, el 5.09% de la cartera para los valores que obtienen parte de sus ventas de la energía nuclear, y el 0.00% para los valores implicados en energía fósil.

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

*A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública. El volumen de negocio lo estima MSCI ESG Research según la metodología descrita a continuación. Los datos de Inversión en inmovilizado y Gastos de explotación solo tienen en cuenta los datos publicados por las empresas. El porcentaje de alineación con la Taxonomía indicado más arriba representa la contribución de la cartera en media ponderada a la alineación con la Taxonomía de la UE (basada en el volumen de negocio, capex u opex) de todas las inversiones sostenibles, ya tengan un objetivo medioambiental o social.

Alineación con la Taxonomía de la UE

La alineación con la Taxonomía de la UE la estima MSCI ESG Research, a partir del porcentaje máximo de los ingresos de una empresa derivado de productos y servicios que abordan objetivos medioambientales, sobre la base del marco MSCI Sustainable Impact Metrics.

El porcentaje de ventas generado por productos y servicios que cumplen objetivos medioambientales se reduce a 0 para las empresas que no cumplen los criterios de "No causar un perjuicio significativo" y "Salvaguardias sociales mínimas" de la Taxonomía de la UE. Lo mismo se aplica a los productores de tabaco, a las empresas cuyos ingresos proceden en un 5% o más del suministro, distribución o venta al por menor de productos del tabaco, y a las empresas implicadas en armas controvertidas.

- ¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

El fondo carece de porcentaje mínimo de inversión en actividades de transición o habilitadoras.

- ¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?

	30/06/25	28/06/24	30/06/23
Alineación con la Taxonomía de la UE	% Activos gestionados	% Activos gestionados	% Activos gestionados
Great European Models SRI	4.1%	4.8%	7.5%

El porcentaje indicado más arriba representa la contribución de la cartera a la alineación con la Taxonomía de la UE (basada en el volumen de negocio) de todas las inversiones sostenibles, ya tengan un objetivo medioambiental o social.

Las actividades habilitadoras permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de transición son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

En la fecha de este informe, el 18.7% del patrimonio neto estaba asignado a inversiones sostenibles con un objetivo medioambiental, mientras que el 6.6% del patrimonio neto no estaba alineado con la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

En la fecha de este informe, el 78.7% del patrimonio neto estaba asignado a inversiones sostenibles con un objetivo social.

¿Qué inversiones se incluían en "no sostenible", cuál era su finalidad y existían salvaguardas medioambientales o sociales mínimas?

El efectivo, los equivalentes de efectivo y cualesquiera derivados de cobertura representan el 2.6% del patrimonio neto del fondo, y no ofrecen salvaguardias mínimas medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar el objetivo de inversión sostenible durante el periodo de referencia?

La sociedad gestora ha aplicado la política descrita en el documento de información precontractual para productos financieros al que se alude en Artículo 9, apartados 1 a 4a, del Reglamento (UE) 2019/2088 y Artículo 5, párrafo primero, del Reglamento (UE) 2020/852.

La política de implicación de los accionistas de Montpensier Finance consta de una política de voto y una política de implicación.

El ejercicio de los derechos de voto es un elemento importante del diálogo con los emisores. Fomenta las mejores prácticas de gobierno corporativo y promueve la ética profesional.

Montpensier Finance considera que el ejercicio de los derechos de voto forma parte integrante del proceso de gestión de las inversiones y debe llevarse a cabo velando siempre por los intereses de sus clientes. La política de derechos de voto de Montpensier Finance tiene por objeto promover la valoración a largo plazo de las inversiones de sus fondos.

Para ejercer los derechos de voto vinculados a los títulos que posee el fondo, los gestores del fondo se remiten a los principios relativos a las recomendaciones de gobierno corporativo publicadas por ISS Governance, en su Política de Sostenibilidad. ISS abarca todas las empresas incluidas en las carteras de los fondos gestionados por Montpensier Finance.

Las normas de cumplimiento exigen que los gestores de carteras desempeñen sus funciones de forma independiente, en particular con respecto a los emisores, y en interés exclusivo de los partícipes/accionistas. Los gestores de carteras prestan especial atención a las resoluciones que puedan perjudicar los intereses de los partícipes/accionistas. La política de voto completa, así como el último informe sobre el ejercicio de los derechos de voto, están disponibles en nuestro sitio web.

Montpensier Finance complementa su política de voto con una política de implicación.

Se anima a los equipos de gestión del fondo a que planteen cualquier inquietud a las empresas durante las reuniones, especialmente cuando las cuestiones ESG parezcan insuficientemente contempladas, con el fin de animar a estas empresas a mejorar sus prácticas en cuestiones medioambientales, sociales y de gobierno corporativo, todos ellos factores de crecimiento sostenible.

Los gestores del fondo, con la ayuda de analistas de ISR, establecerán una relación positiva y constructiva a medio y largo plazo con las empresas en cartera.

Esta relación es polifacética:

- ✓ Contactos con la empresa;
- ✓ Comunicar a la empresa la intención de voto de los gestores del fondo antes de la Junta General.

Además de las iniciativas de implicación directa que solemos llevar a cabo directamente con las Pequeñas y Medianas Empresas, Montpensier Finance también participa en acciones de implicación agrupadas puestas en marcha por ISS como parte de su programa ESG de ISS, especialmente para empresas más grandes.

Este diálogo se lleva a cabo con el objetivo de:

- ✓ Animar a las empresas a establecer un compromiso ESG;
- ✓ Animar a las empresas a comunicar sus prácticas ESG.

La política de implicación completa, así como el último informe de implicación, están disponibles en nuestro sitio web.

El último informe de compromiso está disponible en:

https://www.montpensier.com/sites/default/files/public/documents/engagement_rapport.pdf

¿Cómo se comportó este producto financiero en comparación con el índice de referencia sostenible?

Los índices de referencia son índices para medir si el producto financiero alcanza el objetivo sostenible.

El fondo no utiliza un índice de referencia sostenible. Sus resultados en materia de sostenibilidad se comparan con los de su índice de referencia: Stoxx 600

- **¿En qué se diferencia el índice de referencia de un índice de mercado general?**

N/A

- **¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?**

N/A

- **¿Cómo se comportó este producto financiero en comparación con el índice de referencia?**

N/A

- **¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?**

Véanse más arriba los indicadores de desempeño del fondo y su índice de referencia con respecto a los indicadores de sostenibilidad.

Plantilla de divulgación periódica para los productos financieros contemplados en el Artículo 9, apartados 1 a 4a, del Reglamento (UE) 2019/2088 y en el Artículo 5, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto:
AMUNDI FUNDS MONTPENSIER M CLIMATE SOLUTIONS

Identificador de la entidad jurídica:
21380078ODTTDH9T8A31

Objetivo de inversión sostenible

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☒ Sí	☐ No
☒ Realizó inversiones sostenibles con un objetivo medioambiental: 97.5% del patrimonio neto del fondo	☐ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de ____% de inversiones sostenibles
☒ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☐ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☒ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☐ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ Realizó inversiones sostenibles con un objetivo social: 0.0% del patrimonio neto del fondo	☐ con un objetivo social
	☐ Promovió características E/S, pero no realizó inversiones sostenibles

Fondo temático de renta variable mundial, todas las capitalizaciones, dirigido a empresas que participen efectivamente y puedan generar un impacto real en la transición energética y ecológica en favor del clima.

¿En qué medida se cumplió el objetivo de inversión sostenible de este producto financiero?

El fondo integra factores de sostenibilidad en su proceso de inversión, como se indica más detalladamente a continuación y en el capítulo "Estrategia de inversión" del Folleto.

El fondo tiene en cuenta los criterios ESG para unificar el rendimiento financiero y el deseo de influir positivamente, cuando sea posible, en el emisor en términos de desempeño ESG, animando a las empresas a mejorar la integración de los criterios ESG en sus actividades y valorando las mejores prácticas.

La sociedad gestora aplicó la política descrita en el Documento Precontractual para productos financieros Artículo 9, apartados 1 a 4a, del Reglamento (UE) 2019/2088 y Artículo 5, párrafo primero, del Reglamento (UE) 2020/852.

100% de la cartera invertida, excluidos el efectivo y los equivalentes de efectivo (lo que supone el 97.47% del patrimonio neto del fondo), está compuesto por inversiones sostenibles.

La intensidad media ponderada de carbono y la huella de carbono de la cartera son significativamente inferiores a las de su índice. Este desempeño es atribuible a nuestra marcada infraexposición a los combustibles fósiles.

La intensidad media ponderada de carbono de la cartera es superior a la de su índice cuando se incluyen las emisiones de Alcance 3 Anterior. Por ejemplo, las actividades principales de algunas empresas en cartera requieren niveles relativamente altos de logística y transporte de materiales y componentes, lo que explica el aumento de la intensidad media ponderada de carbono. Estas soluciones también contribuyen a la transición energética, ya que ahorran energía y emisiones de carbono de otras maneras.

Como recordatorio, el Alcance 3 de Nivel 1 solía tener en cuenta las emisiones de los proveedores directos del producto final, mientras que el Alcance 3 Anterior tiene un alcance más amplio, que tiene en cuenta las emisiones vinculadas al transporte y la distribución de los productos adquiridos por la empresa entre sus proveedores de Nivel 1 y sus operaciones, además de otros servicios como la logística de entrada, la logística de salida, el transporte y la distribución entre los centros de la empresa.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

Los siguientes indicadores se utilizan para demostrar que el Subfondo ha promovido características medioambientales y/o sociales:

- Porcentaje de inversiones conformes con la política de exclusión de Montpensier Arbevel: 100%.
- Porcentaje de inversiones con una calificación B o superior (en una escala de CCC a AAA): 100%.
- Porcentaje de inversiones implicadas en una controversia "Roja" según MSCI: 0%.
- Porcentaje de inversiones sujetas a la metodología ESG de Montpensier Arbevel: 100%.

Independencia del Consejo: Ponderación de las empresas en cartera identificadas con una mayoría de consejeros independientes de empleados, accionistas mayoritarios y gobiernos.

Remuneración vinculada a objetivos ESG: Ponderación de las empresas en cartera identificadas que han integrado criterios ESG en la remuneración de los ejecutivos. Esta variable se basa en los informes publicados por las empresas. Se centra estrictamente en si estos elementos se incluyen o no en los componentes de la remuneración variable, y no tiene en cuenta su eficacia.

Cumplimiento del Pacto Mundial: Ponderación de las empresas en cartera identificadas como conformes con los principios del Pacto Mundial de Naciones Unidas.

- ¿...y en comparación con periodos anteriores?
- ¿De qué manera las inversiones sostenibles no causaron un perjuicio significativo a ningún objetivo de inversión sostenible?

Ver más arriba.

¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?

La evaluación del principio "No causar daños significativos" (DNSH) se basa en:

- Nuestro Análisis ISR Paso 1: la exclusión de empresas implicadas en actividades controvertidas: fabricación de armas, minería del carbón, tabaco, entretenimiento para adultos, juegos de azar, OMG y aceite de palma.
- Paso 2, a saber, la exclusión de las empresas calificadas con "CCC" o "Red Controversy Vigilance" por MSCI ESG Research;

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- Tener en cuenta las PIA en un enfoque cualitativo en el análisis ISR de los valores. Los indicadores relativos a las principales incidencias adversas de las decisiones de inversión sobre los factores de sostenibilidad figuran en el apéndice.

Además, se considera que las empresas con un impacto medioambiental o social negativo en la MIA, o en los pilares E y S, incumplen el principio DNSH.

Puede consultar también el Folleto y el Documento precontractual SFDR anexo al folleto del OIC, disponibles en la página web de la sociedad gestora.

¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:

Excluimos de nuestro universo de inversión a las empresas que no están alineadas con determinadas normas y convenciones internacionales, en particular el Pacto Mundial de Naciones Unidas (UNGC), las Líneas Directrices de la OCDE para Empresas Multinacionales, la Organización Internacional del Trabajo (OIT) y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos (UNGPBHR). Las empresas que son objeto de una controversia de color "Rojo" quedan excluidas del universo de inversión. Entre estas controversias de color "Rojo" están las empresas que no se ajustan al Pacto Mundial de Naciones Unidas (Derechos Humanos, Derechos Laborales, Medio Ambiente y Corrupción).

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

Tenemos en cuenta los principales indicadores de impactos negativos en la política de exclusiones sectoriales y normativas, el análisis de las prácticas de buen gobierno (utilizando el sistema interno Montpensier Governance Flag - MGF), el análisis cualitativo propio de la contribución de las empresas a las transiciones medioambiental y de solidaridad (Montpensier Impact Assessment – MIA, Montpensier Industry Contributor – MIC), y/o en el análisis de las actividades ecológicas que determina la contribución a uno o más Objetivos de Desarrollo Sostenible (ODS) de la ONU. La pertinencia y la cobertura de estos indicadores en el análisis varían en función del sector, la industria y la región en la que opera cada empresa.

Los indicadores relativos a las principales incidencias adversas de las decisiones de inversión sobre los factores de sostenibilidad figuran en el apéndice.

La información relativa a los objetivos medioambientales, sociales y de gobierno corporativo (ESG) puede consultarse en el sitio web de la sociedad gestora:

<https://www.montpensier.com/sites/default/files/public/documents/politique-esg.pdf>

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es:

Mayores inversiones	Sector	% de activos	País
Schneider Electric	Bienes y servicios industriales	4.62%	Francia
First Solar Inc	Energía	4.10%	Estados Unidos
Xylem Inc	Bienes y servicios industriales	4.06%	Estados Unidos

Nvidia Corp	Tecnología	2.87%	Estados Unidos
Kurita Water Industries Ltd	Bienes y servicios industriales	2.80%	Japón
Prysmian SpA	Bienes y servicios industriales	2.65%	Italia
Ponderación total de las 15 primeras posiciones frente al patrimonio neto del fondo a 30/06/25		50.9%	

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

• ¿Cuál era la asignación de activos?

La asignación de activos describe la proporción de inversiones en activos específicos.

La base para calcular los porcentajes que se mencionan a continuación es el patrimonio neto del fondo.

N.º 1 Sostenible abarca las inversiones sostenibles con objetivos medioambientales o sociales.

N.º 2 No sostenible incluye inversiones que no cumplen los requisitos para ser consideradas inversiones sostenibles.

• ¿En qué sectores económicos se realizaron las inversiones?

	% Activos gestionados Inversiones sostenibles	% Activos gestionados cartera invertida

Clasificación industrial de referencia (ICB) - 19 sectores

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el volumen de negocio refleja la "ecologización" de las empresas participadas en la actualidad.
- las inversiones en inmovilizado (CapEx) muestran las inversiones ecológicas realizadas por las empresas participadas, relevantes para la transición a una economía verde.
- los gastos de explotación (OpEx) reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

- ¿Invertió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE1?

☐

Sí:

☐

En gas fósil

☐

En energía nuclear

☒

No

Los datos relativos a la participación de las empresas en actividades relacionadas con el gas fósil y/o la energía nuclear, de acuerdo con la Taxonomía, se determinan teniendo en cuenta únicamente los datos publicados por las empresas. Aún no se dispone de datos sobre la participación de las empresas en actividades relacionadas con el gas fósil y/o la energía nuclear que cumplan la Taxonomía.

A título informativo, los valores identificados como implicados en energía fósil y/o nuclear representan el 5.09% de la cartera, es decir, el 5.09% de la cartera para los valores que obtienen parte de sus ventas de la energía nuclear, y el 0.00% para los valores implicados en energía fósil.

Para estar alineados con la Taxonomía de la UE, los criterios para el gas fósil incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la energía nuclear, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

*A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública. El volumen de negocio lo estima MSCI ESG Research según la metodología descrita a continuación. Los datos de Inversión en inmovilizado y Gastos de explotación solo tienen en cuenta los datos publicados por las empresas. El porcentaje de alineación con la Taxonomía indicado más arriba representa la contribución de la cartera en media ponderada a la alineación con la Taxonomía de la UE (basada en el volumen de negocio, capex u opex) de todas las inversiones sostenibles, ya tengan un objetivo medioambiental o social.

Alineación con la Taxonomía de la UE

La alineación con la Taxonomía de la UE la estima MSCI ESG Research, a partir del porcentaje máximo de los ingresos de una empresa derivado de productos y servicios que abordan objetivos medioambientales, sobre la base del marco MSCI Sustainable Impact Metrics.

El porcentaje de ventas generado por productos y servicios que cumplen objetivos medioambientales se reduce a 0 para las empresas que no cumplen los criterios de "No causar un perjuicio significativo" y "Salvaguardias sociales mínimas" de la Taxonomía de la UE. Lo mismo se aplica a los productores de tabaco, a las empresas cuyos ingresos proceden en un 5% o más del suministro, distribución o venta al por menor de productos del tabaco, y a las empresas implicadas en armas controvertidas.

Las actividades **habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de **transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

- ¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

El fondo carece de porcentaje mínimo de inversión en actividades de transición o habilitadoras.

- ¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?

	30/06/25	28/06/24	30/06/23
Alineación con la Taxonomía de la UE	% Activos gestionados	% Activos gestionados	% Activos gestionados
M Climate Solutions	39.1%	65.8%	67.5%

El porcentaje indicado más arriba representa la contribución de la cartera a la alineación con la Taxonomía de la UE (basada en el volumen de negocio) de todas las inversiones sostenibles, ya tengan un objetivo medioambiental o social.

son inversiones sostenibles con un objetivo medioambiental **que no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

En la fecha de este informe, el 97.5% del patrimonio neto estaba asignado a inversiones sostenibles con un objetivo medioambiental, mientras que el 12.4% del patrimonio neto no estaba alineado con la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

A fecha de este informe, el 0.0% del patrimonio neto estaba invertido en inversiones sostenibles con un objetivo social, sabiendo que se trata de un fondo temático de renta variable mundial, todas las capitalizaciones, centrado en empresas que están efectivamente implicadas y son capaces de generar un impacto real en la Transición Energética y Medioambiental para el clima.

¿Qué inversiones se incluían en "no sostenible", cuál era su finalidad y existían salvaguardas medioambientales o sociales mínimas?

El efectivo, los equivalentes de efectivo y cualesquiera derivados de cobertura representan el 2.5% del patrimonio neto del fondo, y no ofrecen salvaguardias mínimas medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar el objetivo de inversión sostenible durante el periodo de referencia?

La sociedad gestora ha aplicado la política descrita en el documento de información precontractual para productos financieros al que se alude en Artículo 9, apartados 1 a 4a, del Reglamento (UE) 2019/2088 y Artículo 5, párrafo primero, del Reglamento (UE) 2020/852.

La política de implicación de los accionistas de Montpensier Finance consta de una política de voto y una política de implicación.

El ejercicio de los derechos de voto es un elemento importante del diálogo con los emisores. Fomenta las mejores prácticas de gobierno corporativo y promueve la ética profesional.

Montpensier Finance considera que el ejercicio de los derechos de voto forma parte integrante del proceso de gestión de las inversiones y debe llevarse a cabo velando siempre por los intereses de sus clientes. La política de derechos de voto de Montpensier Finance tiene por objeto promover la valoración a largo plazo de las inversiones de sus fondos.

Para ejercer los derechos de voto vinculados a los títulos que posee el fondo, los gestores del fondo se remiten a los principios relativos a las recomendaciones de gobierno corporativo publicadas por ISS Governance, en su Política de Sostenibilidad. ISS abarca todas las empresas incluidas en las carteras de los fondos gestionados por Montpensier Finance.

Las normas de cumplimiento exigen que los gestores de carteras desempeñen sus funciones de forma independiente, en particular con respecto a los emisores, y en interés exclusivo de los partícipes/accionistas. Los gestores de carteras prestan especial atención a las resoluciones que puedan perjudicar los intereses de los partícipes/accionistas.

La política de voto completa, así como el último informe sobre el ejercicio de los derechos de voto, están disponibles en nuestro sitio web.

Montpensier Finance complementa su política de voto con una política de implicación.

Se anima a los equipos de gestión del fondo a que planteen cualquier inquietud a las empresas durante las reuniones, especialmente cuando las cuestiones ESG parezcan insuficientemente contempladas, con el fin de animar a estas empresas a mejorar sus prácticas en cuestiones medioambientales, sociales y de gobierno corporativo, todos ellos factores de crecimiento sostenible.

Los gestores del fondo, con la ayuda de analistas de ISR, establecerán una relación positiva y constructiva a medio y largo plazo con las empresas en cartera.

Esta relación es polifacética:

- ✓ Contactos con la empresa;
- ✓ Comunicar a la empresa la intención de voto de los gestores del fondo antes de la Junta General.

Además de las iniciativas de implicación directa que solemos llevar a cabo directamente con las Pequeñas y Medianas Empresas, Montpensier Finance también participa en acciones de implicación agrupadas puestas en marcha por ISS como parte de su programa ESG de ISS, especialmente para empresas más grandes.

Este diálogo se lleva a cabo con el objetivo de:

- ✓ Animar a las empresas a establecer un compromiso ESG;
- ✓ Animar a las empresas a comunicar sus prácticas ESG.

La política de implicación completa, así como el último informe de implicación, están disponibles en nuestro sitio web.

El último informe de compromiso está disponible en:

https://www.montpensier.com/sites/default/files/public/documents/engagement_rapport.pdf

¿Cómo se comportó este producto financiero en comparación con el índice de referencia sostenible?

El fondo no utiliza un índice de referencia sostenible. Sus resultados en materia de sostenibilidad se comparan con los de su índice de referencia: Stoxx Global 1800

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

N/A

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

N/A

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

N/A

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Véanse más arriba los indicadores de desempeño del fondo y su índice de referencia con respecto a los indicadores de sostenibilidad.

Los índices de referencia son índices para medir si el producto financiero alcanza el objetivo sostenible.

Plantilla de divulgación periódica para los productos financieros contemplados en el Artículo 9, apartados 1 a 4a, del Reglamento (UE) 2019/2088 y en el Artículo 5, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS IMPACT EURO CORPORATE SHORT TERM GREEN BOND

Identificador de la entidad jurídica: 549300U5T6UEW3OI8O37

Objetivo de inversión sostenible

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de **actividades económicas sostenibles desde el punto de vista medioambiental**. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?

X

Sí

Realizó inversiones sostenibles con un objetivo medioambiental: 94.66%

en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

Realizó inversiones sostenibles con un objetivo social: _____

No

Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de ____% de inversiones sostenibles

con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo social

Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplió el objetivo de inversión sostenible de este producto financiero?

Durante el ejercicio, el producto logró de forma constante su objetivo de inversión sostenible, que es lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión BLOOMBERG EURO AGGREGATE CORPORATE 1-3 YEAR. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

El subfondo mantuvo la parte comprometida de su asignación invertida en el uso de bonos verdes.

El objetivo de los bonos verdes es financiar proyectos que generen un impacto positivo y cuantificable en el medio ambiente. El indicador clave que mide el impacto de los bonos verdes es "Toneladas evitadas de emisiones de CO2 por millón de EUR invertidos en un año". Más allá del análisis financiero cuantitativo y cualitativo de los bonos susceptibles de componer la cartera, el proceso de selección incluye una evaluación de la estrategia ESG a nivel del emisor y una evaluación de los bonos verdes tras varios puntos de análisis:

1. Amundi ha desarrollado un sistema propio de puntuación ESG basado en una escala de siete letras, que van de la A a la G, donde la A es la mejor calificación y la G, la peor. Cualquier emisor con una calificación G queda excluido de todas las carteras de gestión activa de Amundi. Llevamos a cabo la verificación de la calificación ESG del emisor y comprobamos la

conformidad de la calificación con los criterios del fondo correspondiente. Como se ha indicado anteriormente, los emisores con una calificación G en la escala de calificación ESG de Amundi no son aptos para la inversión. Si hay puntos débiles, el equipo de Análisis ESG buscará con más detalle cualquier controversia sobre el pilar correspondiente (E, S y G).

2. Evaluación de los bonos verdes en términos de: (i) análisis del proyecto, mediante el análisis de la ubicación geográfica de los activos, la actuación sobre los activos, la evaluación de cualquier impacto adicional del proyecto ecológico en el medio ambiente, la biodiversidad, las comunidades locales u otros aspectos sociales (no causar un perjuicio significativo), la alineación con las normas del sector (por ejemplo, la alineación con los Principios de Bonos Verdes de la Asociación Internacional de Mercados de Capitales, la Iniciativa de Bonos Climáticos, la Taxonomía de la UE). (ii) análisis del emisor a nivel de estrategia global ESG y de controversias, (iii) justificación de la financiación verde (tipo de proyectos financiados, asignación de activos verdes, tipo de instrumentos que financian proyectos verdes) y (iv) transparencia (informe sobre bonos verdes, existencia de opiniones de segundas partes)

3. Supervisión continua (inversión a posteriori), que incluye la revisión periódica de la asignación y el informe de impacto del bono verde, las controversias en las que está involucrado el emisor y su estrategia medioambiental.

Por último, todos los Bonos Verdes seleccionados deberán cumplir los criterios y directrices de los Principios de los Bonos Verdes publicados por la Asociación Internacional de Mercados de Capitales. Visite la Política de Inversión Responsable de Amundi para obtener más información al respecto.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **0.991 (C)**.
- La calificación ESG media ponderada del universo de inversión ESG es **0.788 (C)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

Al final del periodo, la cartera posee un **86.14%** de bonos verdes.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 1.118 (C) y la calificación ESG media ponderada del universo de inversión ESG era de 0.799 (C).

Al final del periodo anterior, la cartera poseía un 89.79% de bonos verdes.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

- **¿De qué manera las inversiones sostenibles no causaron un perjuicio significativo a ningún objetivo de inversión sostenible?**

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- **¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- **¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:**

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

- **¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?**

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- Exclusión: Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- Integración de factores ESG: Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque

de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.

- Compromiso: La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- Voto: La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- Seguimiento de controversias: Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Efectivo	Efectivo	5.21%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las **actividades habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las **actividades de transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo tiene un objetivo de inversión sostenible desde el punto de vista medioambiental. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 22.02% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?**

☒

Sí:

☒

En gas fósil

☒

En energía nuclear

☐

No

El Fondo Principal no invierte en proyectos de gas fósil o energía nuclear. Las cifras que figuran a continuación son a nivel de emisor, no de proyecto. Todos los proyectos con financiación verde cumplen la filosofía de inversión de nuestro fondo. No obstante, el Fondo puede invertir en empresas que también operen en estos sectores. Dichas inversiones pueden estar o no alineadas con la Taxonomía.

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el volumen de negocio que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las inversiones en inmovilizado (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los gastos de explotación (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.00% y la cuota de inversión en actividades habilitadoras era del 0.00%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.50%.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del 72.64% al cierre del periodo. Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

Este producto no se comprometió a realizar inversiones sostenibles desde el punto de vista social durante el periodo.

¿Qué inversiones se incluían en "no sostenible", cuál era su finalidad y existían salvaguardas medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardas medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas.

¿Qué medidas se han tomado para alcanzar el objetivo de inversión sostenible durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartiéndose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Objetivo de inversión sostenible

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de **actividades económicas sostenibles desde el punto de vista medioambiental**. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☒ Sí	☐ No
☒ Realizó inversiones sostenibles con un objetivo medioambiental: 97.78%	☐ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de ____% de inversiones sostenibles
☒ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☐ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☒ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☐ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ Realizó inversiones sostenibles con un objetivo social: _____	☐ con un objetivo social
☐ Realizó inversiones sostenibles con un objetivo social: _____	☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplió el objetivo de inversión sostenible de este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **ÍNDICE BLOOMBERG MSCI MSCI GLOBAL GREEN BOND HEDGED (ESG)**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

El subfondo mantuvo la parte comprometida de su asignación invertida en el uso de bonos verdes.

El objetivo de los bonos verdes es financiar proyectos que generen un impacto positivo y cuantificable en el medio ambiente. El indicador clave que mide el impacto de los bonos verdes es "Toneladas evitadas de emisiones de CO2 por millón de EUR invertidos en un año". Más allá del análisis financiero cuantitativo y cualitativo de los bonos susceptibles de componer la cartera, el proceso de selección incluye una evaluación de la estrategia ESG a nivel del emisor y una evaluación de los bonos verdes tras varios puntos de análisis:

1. Amundi ha desarrollado un sistema propio de puntuación ESG basado en una escala de siete letras, que van de la A a la G, donde la A es la mejor calificación y la G, la peor. Cualquier emisor con una calificación G- queda excluido de todas las carteras de gestión activa de Amundi. Llevamos a cabo la verificación de la calificación ESG del emisor y comprobamos la conformidad de la calificación con los criterios del fondo correspondiente. Como se ha indicado anteriormente, los emisores con una calificación G en la escala de calificación ESG de Amundi no son aptos para la inversión. Si hay puntos débiles, el equipo de Análisis ESG buscará con más detalle cualquier controversia sobre el pilar correspondiente (E, S y G).
2. Evaluación de los bonos verdes en términos de: (i) análisis del proyecto, mediante el análisis de la ubicación geográfica de los activos, la actuación sobre los activos, la evaluación de cualquier impacto adicional del proyecto ecológico en el medio ambiente, la biodiversidad, las comunidades locales u otros aspectos sociales (no causar un perjuicio significativo), la alineación con las normas del sector (por ejemplo, la alineación con los Principios de Bonos Verdes de la Asociación Internacional de Mercados de Capitales, la Iniciativa de Bonos Climáticos, la Taxonomía de la UE). (ii) análisis del emisor a nivel de estrategia global ESG y de controversias, (iii) justificación de la financiación verde (tipo de proyectos financiados, asignación de activos verdes, tipo de instrumentos que financian proyectos verdes) y (iv) transparencia (informe sobre bonos verdes, existencia de opiniones de segundas partes)
3. Supervisión continua (inversión a posteriori), que incluye la revisión periódica de la asignación y el informe de impacto del bono verde, las controversias en las que está involucrado el emisor y su estrategia medioambiental.

Por último, todos los Bonos Verdes seleccionados deberán cumplir los criterios y directrices de los Principios de los Bonos Verdes publicados por la Asociación Internacional de Mercados de Capitales. Visite la Política de Inversión Responsable de Amundi para obtener más información al respecto.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **1.096 (C)**.
- La calificación ESG media ponderada del universo de inversión ESG es **0.958 (C)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

Al final del periodo, la cartera posee bonos verdes.

- ¿...y en comparación con periodos anteriores?

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 1.212 (C) y la calificación ESG media ponderada del universo de inversión ESG era de 0.935 (C). Al final del periodo anterior, la cartera poseía un 96.23% de bonos verdes.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- **¿De qué manera las inversiones sostenibles no causaron un perjuicio significativo a ningún objetivo de inversión sostenible?**

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- **¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- **¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:**

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

Mayores Inversiones	Sector	Subsector	País	% de activos
ARI - IMPACT GREEN BOND - OR (D)	Finanzas	Fondos de inversión colectiva	Francia	102.42%

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El fondo invirtió el 97.78% en inversiones relacionadas con la sostenibilidad.

- ¿Cuál era la asignación de activos?

- ¿En qué sectores económicos se realizaron las inversiones?

Sector	Subsector	% de activos
Finanzas	Fondos de inversión colectiva	102.42%
Forex	Forex	-2.40%
Efectivo	Efectivo	-0.03%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades habilitadoras permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de transición son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo tiene un objetivo de inversión sostenible desde el punto de vista medioambiental. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo de información

invirtió un 23.56% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes.

El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Invertió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?**

☒

Sí:

☒

En gas fósil

☒

En energía nuclear

☐

No

El Fondo Principal no invierte en proyectos de gas fósil o energía nuclear. Las cifras que figuran a continuación son a nivel de emisor, no de proyecto.

Todos los proyectos con financiación verde cumplen la filosofía de inversión de nuestro fondo. No obstante, el Fondo puede invertir en empresas que también operen en estos sectores. Dichas inversiones pueden estar o no alineadas con la Taxonomía.

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el volumen de negocio que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las inversiones en inmovilizado (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los gastos de explotación (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.00% y la cuota de inversión en actividades habilitadoras era del 0.00%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.93%.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **74,22%** al cierre del periodo. Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

Este producto no se comprometió a realizar inversiones sostenibles desde el punto de vista social durante el periodo.

¿Qué inversiones se incluían en "no sostenible", cuál era su finalidad y existían salvaguardas medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardas medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas.

¿Qué medidas se han tomado para alcanzar el objetivo de inversión sostenible durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartiéndose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Este producto no tiene un Índice de referencia ESG.

• ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

• ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con el objetivo de inversión sostenible?***

Este producto no tiene un Índice de referencia ESG.

• ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

• ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS
CLIMATE TRANSITION GLOBAL EQUITY

Identificador de la entidad jurídica:
213800AAWV9V2PNKC495

Características medioambientales y/o sociales

*Debido a la liquidación del fondo, el informe se ha elaborado a 29 de noviembre de 2024

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☒ Sí	☒ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____ ☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ Realizó inversiones sostenibles con un objetivo social: _____	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de <u>38.36%</u> de inversiones sostenibles ☒ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo social ☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión . Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **0.31 (D)**
- La calificación ESG media ponderada del universo de inversión ESG es **-0.234 (D)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 0.243 (D) y la calificación ESG media ponderada del universo de inversión ESG era de -0.171 (D).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos?***
Detalles:

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- Exclusión: Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- Integración de factores ESG: Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- Compromiso: La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- Voto: La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- Seguimiento de controversias: Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
BANK OF AMERICA CORP	Finanzas	Entidades bancarias	Estados Unidos	4.69%
ALPHABET INC CL A	Servicios de comunicación	Medios de comunicación y entretenimiento	Estados Unidos	4.40%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El fondo invirtió un 3836% en inversiones relacionadas con la sostenibilidad

¿Cuál era la asignación de activos?

N.º 1 Alineación con características E/S incluye las inversiones del producto financiero utilizadas para alcanzar las características medioambientales o sociales promovidas por el producto financiero.

N.º 2 Otros incluye el resto de inversiones del producto financiero que no están alineadas con las características medioambientales o sociales, ni están calificadas como inversiones sostenibles.

La categoría **N.º 1 Alineado con las características E/S** abarca:

- La subcategoría **N.º 1A Sostenible** abarca las inversiones sostenibles desde el punto de vista medioambiental y social.

- La subcategoría **N.º 1B Otras características E/S** abarca las inversiones alineadas con las características medioambientales o sociales que no se califican como inversiones sostenibles.

La asignación de activos describe la proporción de inversiones en activos específicos.

• ¿En qué sectores económicos se realizaron las inversiones?

Sector	Subsector	% de activos
Finanzas	Entidades bancarias	19.47%
Tecnología de la información	Equipo tecnológico y hardware	8.09%
Consumo discrecional	Consumo discrecional Distribución y venta minorista	6.74%

Efectivo	Efectivo	3.74%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las **actividades habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las **actividades de transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las **actividades alineadas con la Taxonomía** se expresan como porcentaje de:

- **el volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- **las inversiones en inmovilizado** (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- **los gastos de explotación** (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 0.31% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE.

La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes.

El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invertió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE?

Sí:

En gas fósil

En energía nuclear

No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

1. Alineación con la Taxonomía de las inversiones incluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	99.88%	99.51%	99.70%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	0.12%	0.49%	0.30%

2. Alineación con la Taxonomía de las inversiones, excluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	99.88%	99.51%	99.70%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	0.12%	0.49%	0.30%

Este gráfico representa el 99.39% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

- ¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.05% y la cuota de inversión en actividades habilitadoras era del 0.01%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.04%.

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del 26.82% al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 11.22%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- **¿En qué se diferencia el índice de referencia de un índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de referencia?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS EQUITY JAPAN TARGET

Identificador de la entidad jurídica: 529900LFY58YVU1ISY58

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?

Sí

Realizó inversiones sostenibles con un objetivo medioambiental: _____

en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

Realizó inversiones sostenibles con un objetivo social: _____

No

Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de 32.11% de inversiones sostenibles

con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo social

Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **TOPIX (RI)**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

844

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **-0.215 (D)**
- La calificación ESG media ponderada del universo de inversión ESG es **-0.224 (D)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de -0.22 (D) y la calificación ESG media ponderada del universo de inversión ESG era de -0.28 (D).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- **¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?**

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- **¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- **¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:**

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el **mayor porcentaje de las inversiones** del producto financiero durante el periodo de referencia que es: **Desde el 01/07/2024 hasta el 30/06/2025**

Mayores inversiones	Sector	Subsector	País	% de activos
KYOCERA CORP	Tecnología de la información	Equipo tecnológico y hardware	Japón	3.83%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades habilitadoras permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de transición son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

Durante el periodo de referencia, el fondo invirtió un 0.0% en inversiones sostenibles alineadas con la Taxonomía de la UE.

- **¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?**

☐

Sí:

☐

En gas fósil

☐

En energía nuclear

☒

No

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el volumen de negocio que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las inversiones en inmovilizado (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los gastos de explotación (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.00% y la cuota de inversión en actividades habilitadoras era del 0.00%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.00%.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del 19.68% al cierre del periodo. Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 12.43%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartiéndose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Este producto no tiene un Índice de referencia ESG.

- **¿En qué se diferencia el índice de referencia de un índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de referencia?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS EUROLAND EQUITY

Identificador de la entidad jurídica: 549300I7SRMTTD1P6F20

Objetivo de inversión sostenible

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☐ Sí	☒ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____ ☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ Realizó inversiones sostenibles con un objetivo social: _____	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de 86.15% de inversiones sostenibles ☒ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo social ☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **MSCI EMU (OFFICIAL)** Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **1.240 (C)**.
- La calificación ESG media ponderada del universo de inversión ESG es **1.072 (C)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 1.174 (C) y la calificación ESG media ponderada del universo de inversión ESG era de 1.03 (C).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas

de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
SIEMENS AG-REG	Industria	Bienes de capital	Alemania	4.97%
ALLIANZ SE-REG	Finanzas	Seguros	Alemania	4.36%

<i>Efectivo</i>	<i>Efectivo</i>	<i>0.31%</i>

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las **actividades habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las **actividades de transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las **actividades alineadas con la Taxonomía** se expresan como porcentaje de:

- **el volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- **las inversiones en inmovilizado (CapEx)** que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- **los gastos de explotación (OpEx)** que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 5.75% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☒ Sí:

☒ En gas fósil

☒ En energía nuclear

☐ No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

• **¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?**

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.11% y la cuota de inversión en actividades habilitadoras era del 4.89%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

• **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 3.18%.

son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **72.44%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 7.96%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

Objetivo de inversión sostenible

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La **Taxonomía de la UE** es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de **actividades económicas sostenibles desde el punto de vista medioambiental**. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?

Sí

No

Realizó inversiones sostenibles con un objetivo medioambiental: _____

en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

Realizó inversiones sostenibles con un objetivo social: _____

Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de **72.10%** de inversiones sostenibles

con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo social

Promovió características E/S, pero **no realizó inversiones sostenibles**

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **MSCI Europe**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los **indicadores de sostenibilidad** cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

¿Cómo se comportaron los indicadores de sostenibilidad?

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **1.216 (C)**.
- La calificación ESG media ponderada del universo de inversión ESG es **0.828 (C)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• ***¿...y en comparación con periodos anteriores?***

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 1.145 (C) y la calificación ESG media ponderada del universo de inversión ESG era de 0.798 (C).

• ***¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?***

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación

de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales.

Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
SHELL PLC GBP	Energía	Petróleo, gas y combustibles	Reino Unido	4.57%
LEGRAND SA	Industria	Bienes de capital	Francia	4.29%
KBC GROUP NV	Finanzas	Entidades bancarias	Bélgica	3.84%
ALLIANZ SE-REG	Finanzas	Seguros	Alemania	3.70%
ROCHE HLDG AG-GENUSS	Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	Suiza	3.55%
LONZA GROUP AG-REG	Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	Suiza	3.37%
MUENCHENER RUECKVER AG-REG	Finanzas	Seguros	Alemania	3.33%
LVMH MOET HENNESSY LOUIS VUI	Consumo discrecional	Bienes de consumo duradero y confección	Francia	3.17%
SIEMENS AG-REG	Industria	Bienes de capital	Alemania	3.15%
ASML HOLDING NV	Tecnología de la información	Semiconductores y equipos de semiconductores	Países Bajos	3.13%
CRH PLC UK	Materiales	Materiales de construcción	Irlanda	3.04%
SEGRO PLC	Inmobiliario	REIT	Reino Unido	2.90%
NESTLE SA-REG	Consumo básico	Alimentos, bebidas y tabaco	Suiza	2.73%
BANK OF IRELAND GROUP PLC	Finanzas	Entidades bancarias	Irlanda	2.61%
SANDOZ GROUP AG	Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	Suiza	2.29%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El fondo invirtió el 72.10% en inversiones relacionadas con la sostenibilidad.

• ¿Cuál era la asignación de activos?

La asignación de activos describe la proporción de inversiones en activos específicos.

• ¿En qué sectores económicos se realizaron las inversiones?

Sector	Subsector	% de activos
Industria	Bienes de capital	12.08%
Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	11.42%
Finanzas	Seguros	9.24%
Finanzas	Entidades bancarias	8.37%
Energía	Petróleo, gas y combustibles	7.25%
Tecnología de la información	Semiconductores y equipos de semiconductores	5.16%
Servicios de comunicación	Medios de comunicación y entretenimiento	3.59%
Servicios de comunicación	Telecomunicaciones	3.59%

<i>Suministros públicos</i>	<i>Multiservicios</i>	3.55%
<i>Consumo básico</i>	<i>Consumo básico Distribución y venta minorista</i>	3.23%
<i>Consumo discrecional</i>	<i>Automóviles y componentes</i>	3.22%
<i>Consumo discrecional</i>	<i>Bienes de consumo duradero y confección</i>	3.17%
<i>Tecnología de la información</i>	<i>Software y servicios</i>	3.12%
<i>Materiales</i>	<i>Materiales de construcción</i>	3.04%
<i>Inmobiliario</i>	<i>REIT</i>	2.90%
<i>Consumo básico</i>	<i>Productos domésticos y personales</i>	2.76%
<i>Consumo básico</i>	<i>Alimentos, bebidas y tabaco</i>	2.73%
<i>Asistencia sanitaria</i>	<i>Equipo y servicios sanitarios</i>	2.73%
<i>Industria</i>	<i>Servicios comerciales y profesionales</i>	2.24%
<i>Finanzas</i>	<i>Servicios financieros</i>	1.41%
<i>Suministros públicos</i>	<i>Suministro de gas</i>	1.38%
<i>Materiales</i>	<i>Productos químicos</i>	1.38%
<i>Suministros públicos</i>	<i>Productores independientes y de electricidad renovable</i>	1.12%
<i>Forex</i>	<i>Forex</i>	0.00%
<i>Efectivo</i>	<i>Efectivo</i>	1.32%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las **actividades habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las **actividades de transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las **actividades alineadas con la Taxonomía** se expresan como porcentaje de:

- el **volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las **inversiones en inmovilizado** (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los **gastos de explotación** (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 3.32% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

Sí:

En gas fósil

En energía nuclear

No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

Este gráfico representa el 96.7% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- **¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?**

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.40% y la cuota de inversión en actividades habilitadoras era del 3.94%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 1.57%.

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **65.37%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 3.41%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS
EUROLAND EQUITY SMALL CAP SELECT

Identificador de la entidad jurídica:
529900IUDK1P871TPU43

Objetivo de inversión sostenible

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☐ Sí	☒ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____ ☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de 72.77% de inversiones sostenibles ☒ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo social
☐ Realizó inversiones sostenibles con un objetivo social: _____	☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **MSCI EMU SMALL CAP (OFICIAL)**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

El producto lleva la etiqueta ISR (Inversión Social y Responsable). A lo largo de todo el ejercicio ha tratado de promover las 3 dimensiones (medioambiental, social y de gobierno corporativo) teniendo en cuenta la calificación ESG de los emisores en la estructuración de la cartera.

La calificación ESG de los emisores tiene por objeto evaluar su capacidad para gestionar el posible impacto negativo de sus actividades en los factores de sostenibilidad. Así pues, este análisis pretende evaluar sus comportamientos Medioambientales y Sociales en términos de gobierno corporativo, asignándoles una calificación ESG que va de la A (mejor calificación) a la G (peor calificación), con el fin de lograr una evaluación más global de los riesgos.

1. La cartera ha aplicado sistemáticamente la siguiente política de exclusión de Amundi:
 - Exclusiones legales sobre armas controvertidas
 - Empresas que contravienen grave y repetidamente uno o más de los 10 principios del Pacto Mundial (Pacto Mundial de Naciones Unidas), sin medidas correctivas creíbles;
 - Las exclusiones sectoriales del grupo Amundi sobre Carbón y Tabaco; (los detalles de esta política están disponibles en la Política de Inversión Responsable de Amundi en el sitio web www.amundi.fr)
2. No se ha invertido en emisores con calificación F o G. En el caso de los emisores cuya calificación se ha rebajado a F o G, los títulos ya presentes en la cartera se vendieron dentro del plazo comprometido en el folleto y velando por el interés financiero de los titulares
3. La puntuación ESG media ponderada de la cartera ha sido sistemáticamente superior a la puntuación ESG media ponderada del universo de inversión del fondo tras eliminar el 20% de los peores emisores
4. El fondo ha favorecido a emisores líderes en su sector de actividad según los criterios ESG identificados por el equipo de analistas extrafinancieros de la sociedad gestora (enfoque "best in class"). A excepción de las exclusiones mencionadas, todos los sectores económicos están representados en este enfoque, por lo que la UCI puede estar expuesta a determinados sectores controvertidos.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• *¿Cómo se comportaron los indicadores de sostenibilidad?*

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **0.948 (C)**.
- La calificación ESG media ponderada del universo de inversión ESG es **0.665 (C)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

- **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 0.962 (C) y la calificación ESG media ponderada del universo de inversión ESG era de 0.673 (C).

- **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

- **¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?**

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- **¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el **mayor porcentaje de las inversiones** del producto financiero durante el periodo de referencia que es: **Desde el 01/07/2024 hasta el 30/06/2025**

Mayores inversiones	Sector	Subsector	País	% de activos
GAZTRANSPORT ET TECHNIGAZ SA	Energía	Petróleo, gas y combustibles	Francia	3.86%
SPIE SA	Industria	Servicios comerciales y profesionales	Francia	3.64%
ANDRITZ AG	Industria	Bienes de capital	Austria	3.20%
AM EURO LIQUIDITY S-T RESP - Z (C)	Finanzas	Fondos de inversión colectiva	Francia	3.12%
BAWAG GROUP AG	Finanzas	Entidades bancarias	Austria	2.95%
BRUNELLO CUCINELLI SPA	Consumo discrecional	Bienes de consumo duradero y confección	Italia	2.61%
ASR NEDERLAND NV	Finanzas	Seguros	Países Bajos	2.37%

WIENERBERGER AG	Materiales	Materiales de construcción	Austria	2.33%
ARCADIS NV	Industria	Servicios comerciales y profesionales	Países Bajos	2.31%
JUNGHEINRICH AG-DE-PFD	Industria	Bienes de capital	Alemania	2.30%
BECHTLE AG	Tecnología de la información	Software y servicios	Alemania	2.27%
PIRELLI & C SPA	Consumo discrecional	Automóviles y componentes	Italia	2.27%
SCOUT24 SE	Servicios de comunicación	Medios de comunicación y entretenimiento	Alemania	2.26%
NORDEX SE	Industria	Bienes de capital	Alemania	2.16%
BANKINTER SA	Finanzas	Entidades bancarias	España	2.14%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El fondo invirtió el 72.77% en inversiones relacionadas con la sostenibilidad.

• ¿Cuál era la asignación de activos?

N.º 1 Alineación con características E/S incluye las inversiones del producto financiero utilizadas para alcanzar las características medioambientales o sociales promovidas por el producto financiero.

N.º 2 Otros incluye el resto de inversiones del producto financiero que no están alineadas con las características medioambientales o sociales, ni están calificadas como inversiones sostenibles.

La categoría **N.º 1 Alineado con las características E/S** abarca:

- La subcategoría **N.º 1A Sostenible** abarca las inversiones sostenibles desde el punto de vista medioambiental y social.

- La subcategoría **N.º 1B Otras características E/S** abarca las inversiones alineadas con las características medioambientales o sociales que no se califican como inversiones sostenibles.

La asignación de activos describe la proporción de inversiones en activos específicos.

- **¿En qué sectores económicos se realizaron las inversiones?**

Sector	Subsector	% de activos
<i>Industria</i>	<i>Bienes de capital</i>	19.47%
<i>Finanzas</i>	<i>Entidades bancarias</i>	8.76%
<i>Industria</i>	<i>Servicios comerciales y profesionales</i>	8.65%
<i>Servicios de comunicación</i>	<i>Medios de comunicación y entretenimiento</i>	4.99%
<i>Inmobiliario</i>	<i>REIT</i>	4.74%
<i>Consumo discrecional</i>	<i>Bienes de consumo duradero y confección</i>	4.69%
<i>Tecnología de la información</i>	<i>Software y servicios</i>	4.63%
<i>Finanzas</i>	<i>Seguros</i>	4.33%
<i>Finanzas</i>	<i>Servicios financieros</i>	3.97%
<i>Energía</i>	<i>Petróleo, gas y combustibles</i>	3.86%
<i>Consumo básico</i>	<i>Alimentos, bebidas y tabaco</i>	3.63%
<i>Materiales</i>	<i>Materiales de construcción</i>	3.61%
<i>Finanzas</i>	<i>Fondos de inversión colectiva</i>	3.12%
<i>Asistencia sanitaria</i>	<i>Equipo y servicios sanitarios</i>	3.09%
<i>Consumo discrecional</i>	<i>Automóviles y componentes</i>	3.08%
<i>Materiales</i>	<i>Contenedores y embalaje</i>	2.46%
<i>Inmobiliario</i>	<i>Gestión y promoción inmobiliaria</i>	2.14%
<i>Industria</i>	<i>Transporte</i>	1.83%
<i>Tecnología de la información</i>	<i>Equipo tecnológico y hardware</i>	1.73%
<i>Consumo discrecional</i>	<i>Servicios al consumidor</i>	1.47%
<i>Tecnología de la información</i>	<i>Semiconductores y equipos de semiconductores</i>	1.44%

Suministros públicos	Multiservicios	1.41%
Consumo básico	Productos domésticos y personales	1.14%
Suministros públicos	Productores independientes y de electricidad renovable	0.79%
Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	0.78%
Consumo discrecional	Consumo discrecional Distribución y venta minorista	0.01%
Efectivo	Efectivo	0.39%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades **habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de **transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 8.41% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☒

Sí:

☒

En gas fósil

☒

En energía nuclear

☐

No

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el volumen de negocio que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las inversiones en inmovilizado (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los gastos de explotación (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.45% y la cuota de inversión en actividades habilitadoras era del 7.47%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 5.83%.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del 46.75% al cierre del periodo. Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 17.61%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartiéndose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- **¿En qué se diferencia el índice de referencia de un índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de referencia?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS EUROPE EX UK EQUITY

Identificador de la entidad jurídica: 213800GUNJ834MSUJJ48

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La **Taxonomía de la UE** es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de **actividades económicas sostenibles desde el punto de vista medioambiental**. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?

Sí

No

Realizó inversiones sostenibles con un objetivo medioambiental: _____

en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

Realizó inversiones sostenibles con un objetivo social: _____

Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de **79.63%** de inversiones sostenibles

con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo social

Promovió características E/S, pero **no realizó inversiones sostenibles**

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **MSCI EUROPE EX UK**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

- **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **1.215 (C)**.
- La calificación ESG media ponderada del universo de inversión ESG es **0.920 (C)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

- **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 1.185 (C) y la calificación ESG media ponderada del universo de inversión ESG era de 0.906 (C).

- **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G)

dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- **¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:**

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- Exclusión: Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- Integración de factores ESG: Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- Compromiso: La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.

- Voto: La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- Seguimiento de controversias: Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
ALLIANZ SE-REG	Finanzas	Seguros	Alemania	4.35%
SCHNEIDER ELECT SE	Industria	Bienes de capital	Francia	4.24%
NOVO NORDISK A/S-B	Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	Dinamarca	4.04%
SIEMENS AG-REG	Industria	Bienes de capital	Alemania	3.95%
ING GROEP NV	Finanzas	Entidades bancarias	Países Bajos	3.65%
BNP PARIBAS	Finanzas	Entidades bancarias	Francia	3.37%
KBC GROUP NV	Finanzas	Entidades bancarias	Bélgica	3.20%
SIEMENS HEALTHINEERS AG	Asistencia sanitaria	Equipo y servicios sanitarios	Alemania	2.73%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las **actividades habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las **actividades de transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las **actividades alineadas con la Taxonomía** se expresan como porcentaje de:

- el **volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las **inversiones en inmovilizado** (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los **gastos de explotación** (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 5.35% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes.

El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☒

Sí:

☒

En gas fósil

☒

En energía nuclear

☐

No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

Este gráfico representa el 100.0% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- **¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?**

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.11% y la cuota de inversión en actividades habilitadoras era del 4.54%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 2.67%.

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

- **¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?**

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **64.47%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

- **¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?**

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 9.81%.

- **¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?**

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

- **¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?**

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- **¿En qué se diferencia el índice de referencia de un índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de referencia?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI
FUNDS EUROPEAN EQUITY

Identificador de la entidad jurídica:
213800CFWZ9RHAKLOD58

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La **Taxonomía de la UE** es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de **actividades económicas sostenibles desde el punto de vista medioambiental**. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?

Sí

No

Realizó **inversiones sostenibles con un objetivo medioambiental**: _____

en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de **73.97%** de inversiones sostenibles

con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo social

Realizó **inversiones sostenibles con un objetivo social**: _____

Promovió características E/S, pero **no realizó inversiones sostenibles**

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **MSCI EUROPE INDEX**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **1.032 (C)**.
- La calificación ESG media ponderada del universo de inversión ESG es **0.828 (C)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 0.914 (C) y la calificación ESG media ponderada del universo de inversión ESG era de 0.798 (C).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos

humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- **¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:**

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una

evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
ASTRAZENECA GBP	Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	Reino Unido	4.86%
SIEMENS AG-REG	Industria	Bienes de capital	Alemania	4.12%
SHELL PLC GBP	Energía	Petróleo, gas y combustibles	Reino Unido	4.08%
NOVO NORDISK A/S-B	Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	Dinamarca	3.66%
PRUDENTIAL PLC	Finanzas	Seguros	Reino Unido	3.38%
ALLIANZ SE-REG	Finanzas	Seguros	Alemania	3.28%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las **actividades habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las **actividades de transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las **actividades alineadas con la Taxonomía** se expresan como porcentaje de:

- el **volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las **inversiones en inmovilizado** (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los **gastos de explotación** (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 3.13% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes.

El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

Sí:

En gas fósil

En energía nuclear

No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

1. Alineación con la Taxonomía de las inversiones incluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	95.94%	91.91%	95.25%
■ Alineado con la Taxonomía: Gas fósil	0.11%	0.29%	0.07%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.34%	0.42%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	3.95%	7.46%	4.26%

2. Alineación con la Taxonomía de las inversiones, excluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	95.94%	91.91%	95.25%
■ Alineado con la Taxonomía: Gas fósil	0.11%	0.29%	0.07%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.34%	0.42%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	3.95%	7.46%	4.26%

Este gráfico representa el 100.0% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- **¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?**

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.09% y la cuota de inversión en actividades habilitadoras era del 2.82%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.65%.

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **60.36%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 10.48%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS
EUROPE EQUITY GREEN TECHNOLOGY

Identificador de la entidad jurídica:
222100XIONWGMIIQ5D49

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☒ Sí	☒ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____ ☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ Realizó inversiones sostenibles con un objetivo social: _____	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de 84.06% de inversiones sostenibles ☒ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo social ☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión Índice MSCI Europe (dividendos reinvertidos). Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **1.138 (C)**.
- La calificación ESG media ponderada del universo de inversión ESG es **0.798 (C)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 1.188 (C) y la calificación ESG media ponderada del universo de inversión ESG era de 0.77 (C).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- **¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- **¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:**

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una

evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el **mayor porcentaje de las inversiones** del producto financiero durante el periodo de referencia que es: **Desde el 01/07/2024 hasta el 30/06/2025**

Mayores inversiones	Sector	Subsector	País	% de activos
SPIE SA	Industria	Servicios comerciales y profesionales	Francia	4.01%
SAP SE / XETRA	Tecnología de la información	Software y servicios	Alemania	3.92%
PENNON GROUP PLC	Suministros públicos	Suministro de agua	Reino Unido	3.90%
FERROVIAL SE	Industria	Bienes de capital	Países Bajos	3.51%
LEGRAND SA	Industria	Bienes de capital	Francia	3.46%
EUROFINS SCIENTIFIC	Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	Luxemburgo	3.42%
KONE OYJ-B	Industria	Bienes de capital	Finlandia	3.38%
UNITED UTILI GRP PLC	Suministros públicos	Suministro de agua	Reino Unido	3.14%
MOWI ASA	Consumo básico	Alimentos, bebidas y tabaco	Noruega	3.11%

Tecnología de la información	Equipo tecnológico y hardware	2.00%
Materiales	Contenedores y embalaje	0.59%
Otros	Otros	0.00%
Efectivo	Efectivo	-0.55%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las **actividades habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las **actividades de transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 17.44% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?**

☐

Sí:

☐

En gas fósil

☐

En energía nuclear

☒

No

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el volumen de negocio que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las inversiones en inmovilizado (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los gastos de explotación (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.17% y la cuota de inversión en actividades habilitadoras era del 11.13%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 13.85%.

son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **52.47%** al cierre del periodo. Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 14.14%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Este producto no tiene un Índice de referencia ESG.

• **¿En qué se diferencia el índice de referencia de un índice de mercado general?**

Este producto no tiene un índice de referencia ESG y se compara con su universo de referencia para todos los asuntos medioambientales y sociales.

Consulte la pregunta relacionada con el desempeño de los indicadores de sostenibilidad.

• **¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?**

Este producto no tiene un Índice de referencia ESG.

Este producto no tiene un Índice de referencia ESG.

• **¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS EUROPEAN EQUITY VALUE

Identificador de la entidad jurídica: 549300240RQEGYGAX021

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☒ Sí	☒ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____ ☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ Realizó inversiones sostenibles con un objetivo social: _____	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje del <u>71.08%</u> de inversiones sostenibles ☒ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo social ☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **MSCI EUROPE VALUE (OFFICIAL)**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **1.032 (C)**.
- La calificación ESG media ponderada del universo de inversión ESG es **0.777 (C)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 0.998 (C) y la calificación ESG media ponderada del universo de inversión ESG era de 0.712 (C).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos

humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

Mayores inversiones	Sector	Subsector	País	% de activos
PRYSMIAN SPA	Industria	Bienes de capital	Italia	2.66%
INTL CONSOLD AIRLINES-GBP	Industria	Transporte	España	2.58%
SIEMENS AG-REG	Industria	Bienes de capital	Alemania	2.58%
HSBC HOLDING PLC GBP	Finanzas	Entidades bancarias	Reino Unido	2.56%
SHELL PLC GBP	Energía	Petróleo, gas y combustibles	Reino Unido	2.54%

Suministros públicos	Multiservicios	2.46%
Consumo básico	Productos domésticos y personales	2.41%
Consumo discrecional	Consumo discrecional Distribución y venta minorista	2.40%
Tecnología de la información	Software y servicios	2.40%
Forex	Forex	0.00%
Efectivo	Efectivo	1.74%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades habilitadoras permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de transición son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 1.66% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes.

El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?**

Sí:

En gas fósil

En energía nuclear

No

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el volumen de negocio que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las inversiones en inmovilizado (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los gastos de explotación (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.18% y la cuota de inversión en actividades habilitadoras era del 3.43%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.25%.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del 64.33% al cierre del periodo. Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 5.10%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Este producto no tiene un Índice de referencia ESG.

- **¿En qué se diferencia el índice de referencia de un índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de referencia?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS
EUROPE EQUITY INCOME SELECT

Identificador de la entidad jurídica:
549300L23KUMFUPDKS14

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☒ ☐ Sí	☒ ☐ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____ ☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ Realizó inversiones sostenibles con un objetivo social: _____	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje del 79.89% de inversiones sostenibles ☒ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo social ☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **MSCI EUROPE**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **1.278 (C)**.
- La calificación ESG media ponderada del universo de inversión ESG es **0.828 (C)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 1.199 (C) y la calificación ESG media ponderada del universo de inversión ESG era de 0.798 (C).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son:

emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- **¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- **¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:**

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.

- Seguimiento de controversias: Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
NOVARTIS AG-REG	Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	Suiza	5.17%
HSBC HOLDING PLC GBP	Finanzas	Entidades bancarias	Reino Unido	4.98%
ENEL SPA	Suministros públicos	Suministro eléctrico	Italia	4.07%
SIEMENS AG-REG	Industria	Bienes de capital	Alemania	4.00%
CRH PLC UK	Materiales	Materiales de construcción	Irlanda	3.69%
COMPAGNIE DE SAINT GOBAIN	Industria	Bienes de capital	Francia	3.62%
RELX PLC	Industria	Servicios comerciales y profesionales	Reino Unido	3.50%
MUENCHENER RUECKVER AG-REG	Finanzas	Seguros	Alemania	3.41%
VINCI SA (PARIS)	Industria	Bienes de capital	Francia	3.34%
SSE PLC	Suministros públicos	Suministro eléctrico	Reino Unido	3.32%
TESCO PLC	Consumo básico	Consumo básico Distribución y venta minorista	Reino Unido	3.21%
AXA SA	Finanzas	Seguros	Francia	3.20%
DANONE	Consumo básico	Alimentación, bebidas y tabaco	Francia	3.14%
KONINKLIJKE KPN NV	Servicios de comunicación	Telecomunicaciones	Países Bajos	2.85%
SANOFI - PARIS	Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	Francia	2.80%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El fondo invirtió el 79.89% en inversiones relacionadas con la sostenibilidad.

• ¿Cuál era la asignación de activos?

N.º 1 Alineación con características E/S incluye las inversiones del producto financiero utilizadas para alcanzar las características medioambientales o sociales promovidas por el producto financiero.

N.º 2 Otros incluye el resto de inversiones del producto financiero que no están alineadas con las características medioambientales o sociales, ni están calificadas como inversiones sostenibles.

La categoría **N.º 1 Alineado con las características E/S** abarca:

- La subcategoría **N.º 1A Sostenible** abarca las inversiones sostenibles desde el punto de vista medioambiental y social.

- La subcategoría **N.º 1B Otras características E/S** abarca las inversiones alineadas con las características medioambientales o sociales que no se califican como inversiones sostenibles.

La asignación de activos describe la proporción de inversiones en activos específicos.

• ¿En qué sectores económicos se realizaron las inversiones?

Sector	Subsector	% de activos
Finanzas	Entidades bancarias	13.86%
Industria	Bienes de capital	13.75%
Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	11.14%
Finanzas	Seguros	8.92%
Suministros públicos	Suministro eléctrico	7.39%
Consumo básico	Alimentos, bebidas y tabaco	5.23%
Servicios de comunicación	Telecomunicaciones	5.14%
Tecnología de la información	Semiconductores y equipos de semiconductores	4.62%
Energía	Petróleo, gas y combustibles	4.49%
Consumo discrecional	Automóviles y componentes	4.21%

Material	Material de construcción	3.69%
Industria	Servicios comerciales y profesionales	3.50%
Consumo básico	Consumo básico Distribución y venta minorista	3.21%
Finanzas	Servicios financieros	2.61%
Tecnología de la información	Software y servicios	1.69%
Industria	Transporte	1.47%
Material	Contenedores y embalaje	1.34%
Inmobiliario	REIT	0.92%
Inmobiliario	Gestión y promoción inmobiliaria	0.89%
Asistencia sanitaria	Equipo y servicios sanitarios	0.11%
Forex	Forex	0.04%
Efectivo	Efectivo	1.79%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las **actividades habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las **actividades de transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 3.67% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes.

El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☒

Sí:

☐

En gas fósil

☒

En energía nuclear

☐

No

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el volumen de negocio que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las inversiones en inmovilizado (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los gastos de explotación (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.12% y la cuota de inversión en actividades habilitadoras era del 3.32%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 1.21%.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del 71.21% al cierre del periodo. Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 5.02%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI
FUNDS EUROPEAN EQUITY SMALL CAP

Identificador de la entidad jurídica:
549300YCBHBPCBFKKY81

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La **Taxonomía de la UE** es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de **actividades económicas sostenibles desde el punto de vista medioambiental**. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?

☐ **Sí**

☒ **No**

Realizó **inversiones sostenibles con un objetivo medioambiental**: _____

Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje del **64.06%** de inversiones sostenibles

en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo social

Realizó **inversiones sostenibles con un objetivo social**: _____

Promovió características E/S, pero **no realizó inversiones sostenibles**

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **MSCI EUROPE (16) SMALL CAP (OFFICIAL)**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **0.760 (C)**.
- La calificación ESG media ponderada del universo de inversión ESG es **0.546 (C)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- **Dimensión medioambiental:** analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- **Dimensión social:** analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- **Dimensión de gobierno corporativo:** Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 0.756 (C) y la calificación ESG media ponderada del universo de inversión ESG era de 0.528 (C).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son:

emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- **¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:**

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una

evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
BABCOCK INTL GRP	Industria	Bienes de capital	Reino Unido	3.86%
SPIE SA	Industria	Servicios comerciales y profesionales	Francia	2.96%
ASR NEDERLAND NV	Finanzas	Seguros	Países Bajos	2.89%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las **actividades habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las **actividades de transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las **actividades alineadas con la Taxonomía** se expresan como porcentaje de:

- el **volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las **inversiones en inmovilizado** (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los **gastos de explotación** (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 2.68% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

Sí:

En gas fósil

En energía nuclear

No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

1. Alineación con la Taxonomía de las inversiones incluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	94.48%	93.29%	94.93%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.20%	0.09%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.14%	0.08%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	5.52%	6.36%	4.90%

2. Alineación con la Taxonomía de las inversiones, excluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	95.60%	94.42%	95.22%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.21%	0.09%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.14%	0.08%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	4.40%	5.23%	4.61%

Este gráfico representa el 97.8% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión

• **¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?**

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.35% y la cuota de inversión en actividades habilitadoras era del 3.01%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

• **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 3.02%.

son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **47.06%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 14.33%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS
GLOBAL EQUITY RESPONSIBLE

Identificador de la entidad jurídica:
549300PF1HPU3EW4TO97

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de **actividades económicas sostenibles desde el punto de vista medioambiental**. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?

Sí

No

Realizó inversiones sostenibles con un objetivo medioambiental: _____

en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

Realizó inversiones sostenibles con un objetivo social: _____

Promovió características E/S, pero no realizó inversiones sostenibles

Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de **58.78%** de inversiones sostenibles

con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo social

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión MSCI WORLD. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

El producto lleva la etiqueta ISR (Inversión Social y Responsable). A lo largo de todo el ejercicio ha tratado de promover las 3 dimensiones (medioambiental, social y de gobierno corporativo) teniendo en cuenta la calificación ESG de los emisores en la estructuración de la cartera. La calificación ESG de los emisores tiene por objeto evaluar su capacidad para gestionar el posible impacto negativo de sus actividades en

939

los factores de sostenibilidad. Así pues, este análisis pretende evaluar sus comportamientos Medioambientales y Sociales en términos de gobierno corporativo, asignándoles una calificación ESG que va de la A (mejor calificación) a la G (peor calificación), con el fin de lograr una evaluación más global de los riesgos.

1. La cartera ha aplicado sistemáticamente la siguiente política de exclusión de Amundi: - Exclusiones legales sobre armas controvertidas - Empresas que contravengan de forma grave y repetida uno o más de los 10 principios del Pacto Mundial de Naciones Unidas, sin medidas correctivas creíbles; - Las exclusiones sectoriales del grupo Amundi sobre Carbón y Tabaco; (los detalles de esta política están disponibles en la Política de Inversión Responsable de Amundi en la página web www.amundi.fr)
2. No se ha invertido en emisores con calificación F o G. En el caso de los emisores cuya calificación se ha rebajado a F o G, los títulos ya presentes en la cartera se vendieron dentro del plazo comprometido en el folleto y velando por el interés financiero de los titulares
3. La puntuación ESG media ponderada de la cartera ha sido sistemáticamente superior a la puntuación ESG media ponderada del universo de inversión del fondo tras eliminar el 20% de los peores emisores
4. El fondo ha favorecido a emisores líderes en su sector de actividad según los criterios ESG identificados por el equipo de analistas extrafinancieros de la sociedad gestora (enfoque "best in class"). A excepción de las exclusiones mencionadas, todos los sectores económicos están representados en este enfoque, por lo que la UCI puede estar expuesta a determinados sectores controvertidos.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **0.594 (C)**.
- La calificación ESG media ponderada del universo de inversión ESG es **-0.185 (D)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a

un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

- ***¿...y en comparación con periodos anteriores?***

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 0.622 (C) y la calificación ESG media ponderada del universo de inversión ESG era de -0.179 (D).

- ***¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?***

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
SIEMENS ENERGY AG	Industria	Bienes de capital	Alemania	3.09%
ECOLAB INC	Materiales	Productos químicos	Estados Unidos	3.03%
WABTEC CORP	Industria	Bienes de capital	Estados Unidos	2.98%
BROADCOM INC	Tecnología de la información	Semiconductores y equipos de semiconductores	Estados Unidos	2.97%
INTL BUSINESS MACHINES CORP	Tecnología de la información	Software y servicios	Estados Unidos	2.93%

NEC CORP	Tecnología de la información	Software y servicios	Japón	2.52%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

La asignación de activos describe la proporción de inversiones en activos específicos.

El fondo invirtió el 58.78% en inversiones relacionadas con la sostenibilidad.

¿Cuál era la asignación de activos?

N.º 1 Alineación con características E/S incluye las inversiones del producto financiero utilizadas para alcanzar las características medioambientales o sociales promovidas por el producto financiero.

N.º 2 Otros incluye el resto de inversiones del producto financiero que no están alineadas con las características medioambientales o sociales, ni están calificadas como inversiones sostenibles.

La categoría **N.º 1 Alineado con las características E/S** abarca:

- La subcategoría **N.º 1A Sostenible** abarca las inversiones sostenibles desde el punto de vista medioambiental y social.
- La subcategoría **N.º 1B Otras características E/S** abarca las inversiones alineadas con las características medioambientales o sociales que no se califican como inversiones sostenibles.

¿En qué sectores económicos se realizaron las inversiones?

Sector	Subsector	% de activos
Industria	Bienes de capital	21.72%
Finanzas	Seguros	14.39%
Tecnología de la información	Software y servicios	12.58%
Finanzas	Entidades bancarias	9.79%
Finanzas	Servicios financieros	6.50%
Industria	Servicios comerciales y profesionales	6.05%
Asistencia sanitaria	Equipo y servicios sanitarios	5.06%
Materiales	Productos químicos	4.53%
Tecnología de la información	Semiconductores y equipos de semiconductores	2.97%
Industria	Transporte	2.53%

Suministros públicos	Multiservicios	2.51%
Servicios de comunicación	Telecomunicaciones	2.42%
Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	2.27%
Tecnología de la información	Equipo tecnológico y hardware	1.86%
Consumo discrecional	Bienes de consumo duradero y confección	1.62%
Consumo básico	Alimentos, bebidas y tabaco	1.13%
Consumo básico	Productos domésticos y personales	0.89%
Forex	Forex	-0.52%
Efectivo	Efectivo	1.69%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las **actividades habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las **actividades de transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 2.66% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?**

☒

Sí:

☐

En gas fósil

☒

En energía nuclear

☐

No

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el volumen de negocio, que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas - las inversiones en inmovilizado (CapEx), que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los gastos de explotación (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

Este gráfico representa el 100.0% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.02% y la cuota de inversión en actividades habilitadoras era del 3.30%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 1.44%.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del 49.49% al cierre del periodo. Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 6.63%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartiéndose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- **¿En qué se diferencia el índice de referencia de un índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de referencia?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI
FUNDS GLOBAL EQUITY

Identificador de la entidad jurídica:
549300R5QSNJBY1T17

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La **Taxonomía de la UE** es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de **actividades económicas sostenibles desde el punto de vista medioambiental**. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☒ Sí	☒ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____ ☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de 43.64% de inversiones sostenibles ☒ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo social
☐ Realizó inversiones sostenibles con un objetivo social: _____	☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **MSCI ACWI**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **0.150 (D)**
- La calificación ESG media ponderada del universo de inversión ESG es **-0.168 (D)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 0.185 (D) y la calificación ESG media ponderada del universo de inversión ESG era de -0.171 (D).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas

sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican

además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

– **¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:**

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- Exclusión: Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- Integración de factores ESG: Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- Compromiso: La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto

en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.

- Voto: La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- Seguimiento de controversias: Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
BANK OF AMERICA CORP	Finanzas	Entidades bancarias	Estados Unidos	4.41%
CARDINAL HEALTH INC	Asistencia sanitaria	Equipo y servicios sanitarios	Estados Unidos	3.30%
HENSOLDT AG	Industria	Bienes de capital	Alemania	3.27%
EVERSOURCE ENERGY	Suministros públicos	Suministro eléctrico	Estados Unidos	3.06%
KB FINANCIAL GROUP INC	Finanzas	Entidades bancarias	Corea	3.06%
CRH PLC UK	Materiales	Materiales de construcción	Irlanda	3.00%
ABN AMRO BANK NV-CVA	Finanzas	Entidades bancarias	Países Bajos	2.99%
ALPHABET INC CL A	Servicios de comunicación	Medios de comunicación y entretenimiento	Estados Unidos	2.98%
AMAZON.COM INC	Consumo discrecional	Consumo discrecional Distribución y venta minorista	Estados Unidos	2.75%
CISCO SYSTEMS INC	Tecnología de la información	Equipo tecnológico y hardware	Estados Unidos	2.59%
STATE STREET CORP	Finanzas	Servicios financieros	Estados Unidos	2.55%
INTL BUSINESS MACHINES CORP	Tecnología de la información	Software y servicios	Estados Unidos	2.51%
ADVANCED MICRO DEVICES	Tecnología de la información	Semiconductores y equipos de semiconductores	Estados Unidos	2.47%
BANK OF IRELAND GROUP PLC	Finanzas	Entidades bancarias	Irlanda	2.45%
SHELL PLC EUR	Energía	Petróleo, gas y combustibles	Reino Unido	2.44%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El fondo invirtió un 43.64% en inversiones relacionadas con la sostenibilidad

• ¿Cuál era la asignación de activos?

La asignación de activos describe la proporción de inversiones en activos específicos.

• ¿En qué sectores económicos se realizaron las inversiones?

Sector	Subsector	% de activos
Finanzas	Entidades bancarias	20.24%
Industria	Bienes de capital	8.13%
Tecnología de la información	Equipo tecnológico y hardware	7.29%
Finanzas	Servicios financieros	5.97%
Consumo discrecional	Consumo discrecional Distribución y venta minorista	5.53%
Tecnología de la información	Semiconductores y equipos de semiconductores	5.47%
Asistencia sanitaria	Equipo y servicios sanitarios	4.89%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades habilitadoras permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de transición son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

<i>Energía</i>	<i>Petróleo, gas y combustibles</i>	4.86%
<i>Suministros públicos</i>	<i>Suministro eléctrico</i>	4.83%
<i>Materiales</i>	<i>Metales y minería</i>	4.60%

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 0.48% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes.

El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el volumen de negocio que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las inversiones en inmovilizado (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los gastos de explotación (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

- ¿Invertió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☒

Sí:

☐

En gas fósil

☒

En energía nuclear

☐

No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

1. Alineación con la Taxonomía de las inversiones incluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	99.86%	99.03%	99.47%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.03%	0.03%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	0.14%	0.95%	0.50%

2. Alineación con la Taxonomía de las inversiones, excluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	99.86%	99.03%	99.97%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.03%	0.03%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	0.14%	0.95%	0.50%

Este gráfico representa el 100.0% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

- ¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.15% y la cuota de inversión en actividades habilitadoras era del 0.07%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.04%.

 son inversiones sostenibles con un objetivo medioambiental **que no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **37.55%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 5.61%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS GLOBAL EQUITY SELECT

Identificador de la entidad jurídica: 213800RO5QUY7UX5U822

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☐ Sí	☒ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____ ☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ Realizó inversiones sostenibles con un objetivo social: _____	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de 51.53% de inversiones sostenibles ☒ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo social ☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **MSCI WORLD NET TOTAL RETURN**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **0.228 (D)**
- La calificación ESG media ponderada del universo de inversión ESG es **-0.185 (D)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 0.292 (D) y la calificación ESG media ponderada del universo de inversión ESG era de -0.179 (D).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas

sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- **¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:**

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.

- Seguimiento de controversias: Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
MICROSOFT CORP	Tecnología de la información	Software y servicios	Estados Unidos	7.54%
NVIDIA CORP	Tecnología de la información	Semiconductores y equipos de semiconductores	Estados Unidos	4.92%
APPLE INC	Tecnología de la información	Equipo tecnológico y hardware	Estados Unidos	3.57%
JPMORGAN CHASE & CO	Finanzas	Entidades bancarias	Estados Unidos	3.51%
ALPHABET INC CL A	Servicios de comunicación	Medios de comunicación y entretenimiento	Estados Unidos	3.29%
WELLS FARGO & CO	Finanzas	Entidades bancarias	Estados Unidos	3.17%
SUMITOMO MITSUI FINAN	Finanzas	Entidades bancarias	Japón	3.05%
SONY GROUP CORP (JT)	Consumo discrecional	Bienes de consumo duradero y confección	Japón	2.76%
AXA SA	Finanzas	Seguros	Francia	2.73%
TAIWAN SEMICONDUCTO R-SP ADR	Tecnología de la información	Semiconductores y equipos de semiconductores	Taiwán	2.55%
MASTERCARD INC-CL A	Finanzas	Servicios financieros	Estados Unidos	2.50%
ING GROEP NV	Finanzas	Entidades bancarias	Países Bajos	2.46%
WEST JAPAN RAILWAY CO	Industria	Transporte	Japón	2.46%
SCHNEIDER ELECT SE	Industria	Bienes de capital	Francia	2.19%
ORIX CORP	Finanzas	Servicios financieros	Japón	2.15%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El fondo invirtió el 51.53% en inversiones relacionadas con la sostenibilidad.

• ¿Cuál era la asignación de activos?

La asignación de activos describe la proporción de inversiones en activos específicos.

• ¿En qué sectores económicos se realizaron las inversiones?

Sector	Subsector	% de activos
Finanzas	Entidades bancarias	13.60%
Tecnología de la información	Software y servicios	12.73%
Tecnología de la información	Semiconductores y equipos de semiconductores	10.43%
Industria	Bienes de capital	8.47%
Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	5.52%
Finanzas	Servicios financieros	4.65%
Industria	Transporte	4.24%

<i>Energía</i>	<i>Petróleo, gas y combustibles</i>	4.22%
<i>Consumo discrecional</i>	<i>Consumo discrecional Distribución y venta minorista</i>	3.80%
<i>Consumo básico</i>	<i>Alimentos, bebidas y tabaco</i>	3.67%
<i>Tecnología de la información</i>	<i>Equipo tecnológico y hardware</i>	3.57%
<i>Servicios de comunicación</i>	<i>Medios de comunicación y entretenimiento</i>	3.29%
<i>Consumo discrecional</i>	<i>Bienes de consumo duradero y confección</i>	2.76%
<i>Finanzas</i>	<i>Seguros</i>	2.73%
<i>Asistencia sanitaria</i>	<i>Equipo y servicios sanitarios</i>	2.68%
<i>Materiales</i>	<i>Contenedores y embalaje</i>	2.58%
<i>Industria</i>	<i>Servicios comerciales y profesionales</i>	2.02%
<i>Suministros públicos</i>	<i>Multiservicios</i>	1.79%
<i>Servicios de comunicación</i>	<i>Telecomunicaciones</i>	1.69%
<i>Materiales</i>	<i>Productos químicos</i>	1.66%
<i>Consumo discrecional</i>	<i>Automóviles y componentes</i>	1.51%
<i>Suministros públicos</i>	<i>Suministro eléctrico</i>	0.92%
<i>Forex</i>	<i>Forex</i>	0.20%
<i>Efectivo</i>	<i>Efectivo</i>	1.29%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades **habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de **transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- **el volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- **las inversiones en inmovilizado (CapEx)** que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- **los gastos de explotación (OpEx)** que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 1.13% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

Sí:

En gas fósil

En energía nuclear

No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

Este gráfico representa el 100.0% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

• **¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?**

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.00% y la cuota de inversión en actividades habilitadoras era del 0.94%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

• **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.48%.

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **41.32%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 9.08%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartiéndose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este

producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS
GLOBAL EQUITY INCOME SELECT

Identificador de la entidad jurídica:
549300JVYWQ1AGFG7O16

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☐ Sí	☒ No
Realizó inversiones sostenibles con un objetivo medioambiental: _____ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de 65.25% de inversiones sostenibles ☒ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo social
Realizó inversiones sostenibles con un objetivo social: _____	Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **MSCI WORLD**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **0.697 (C)**.
- La calificación ESG media ponderada del universo de inversión ESG es **-0.185 (D)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 0.644 (D) y la calificación ESG media ponderada del universo de inversión ESG era de -0.179 (D).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales

y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

– ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de

interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.

- Voto: La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- Seguimiento de controversias: Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
MICROSOFT CORP	Tecnología de la información	Software y servicios	Estados Unidos	6.35%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las **actividades habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las **actividades de transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las **actividades alineadas con la Taxonomía** se expresan como porcentaje de:

- el **volumen de negocio** que refleja la proporción de ingresos procedentes de las empresas participadas
- las **inversiones en inmovilizado** (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los **gastos de explotación** (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 2.82% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes.

El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☒

Sí:

☐

En gas fósil

☒

En energía nuclear

☐

No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

1. Alineación con la Taxonomía de las inversiones incluida la deuda pública*

2. Alineación con la Taxonomía de las inversiones, excluida la deuda pública*

Este gráfico representa el 99.0% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- **¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?**

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.04% y la cuota de inversión en actividades habilitadoras era del 2.54%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 1.51%.

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

- **¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?**

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **55.86%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

- **¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?**

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 6.57%.

- **¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?**

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

- **¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?**

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartiéndose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS
JAPAN EQUITY SELECT

Identificador de la entidad jurídica:
549300ELY8IPEE0JYT57

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?

Sí

No

Realizó inversiones sostenibles con un objetivo medioambiental: _____

en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

Realizó inversiones sostenibles con un objetivo social: _____

Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de **66.29%** de inversiones sostenibles

con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo social

Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **Topix Net Total Return**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

979

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **0.199 (D)**
- La calificación ESG media ponderada del universo de inversión ESG es **-0.224 (D)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 0.131 (D) y la calificación ESG media ponderada del universo de inversión ESG era de -0.280 (D).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales

y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

– ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de

interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.

- Voto: La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- Seguimiento de controversias: Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
AJINOMOTO CO INC	Consumo básico	Alimentos, bebidas y tabaco	Japón	4.15%
KOMATSU LTD	Industria	Bienes de capital	Japón	4.01%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las **actividades habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las **actividades de transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las **actividades alineadas con la Taxonomía** se expresan como porcentaje de:

- **el volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- **las inversiones en inmovilizado (CapEx)** que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- **los gastos de explotación (OpEx)** que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

Durante el periodo de referencia, el fondo invirtió un 0.0% en inversiones sostenibles alineadas con la Taxonomía de la UE.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☐

Sí:

☐

En gas fósil

☐

En energía nuclear

☒

No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

1. Alineación con la Taxonomía de las inversiones incluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	100.00%	100.00%	100.00%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	0.00%	0.00%	0.00%

2. Alineación con la Taxonomía de las inversiones, excluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	100.00%	100.00%	100.00%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	0.00%	0.00%	0.00%

Este gráfico representa el 100.0% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

- ¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.00% y la cuota de inversión en actividades habilitadoras era del 0.00%. El porcentaje declarado de alineación de las

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.00%.

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **39.10%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 27.20%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS GLOBAL EQUITY CLIMATE

Identificador de la entidad jurídica: 213800EAAY2IPNSZZ69

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☒ Sí	☒ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de 69.61% de inversiones sostenibles
☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ Realizó inversiones sostenibles con un objetivo social: _____	☒ con un objetivo social
	☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

El Subfondo promovió las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG del índice **MSCI World Climate Paris Aligned Net USD** (el "Índice de referencia"). Para determinar la puntuación ESG del Subfondo y del Índice de referencia, el desempeño ESG se evaluó comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características ESG: medioambiental, social y de gobierno corporativo.

Además, el Subfondo se propuso reducir la intensidad de carbono de su cartera alineando la intensidad de su huella de carbono con la del Índice de referencia.

El Índice de referencia es un índice de mercado amplio que evalúa e incluye a sus componentes en función de sus características medioambientales y, por tanto, se ajusta a las características medioambientales (es decir, intensidad reducida de carbono) promovidas por el Subfondo.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del índice del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **0.503 (C)**.
- La calificación ESG media ponderada de la cartera es **0.013 (E)**

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

El indicador de sostenibilidad utilizado es la intensidad de la huella de carbono de la cartera, que se calcula como media ponderada por activos de la cartera y se compara con la intensidad de la huella de carbono ponderada por activos del Índice de referencia. En consecuencia, los títulos con una huella ecológica relativamente baja tenían más probabilidades de ser seleccionados en la cartera que los títulos con una huella ecológica relativamente alta.

- La intensidad media ponderada de la huella de carbono de la cartera es de **55.75**
- La intensidad media ponderada de la huella de carbono del Índice de referencia es de **64.97**

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 0.522 (C) y la calificación ESG media ponderada del Índice de referencia era de 0.012 (D). Al cierre del periodo anterior, la intensidad media ponderada de carbono de la cartera era de 55.00 y el índice de referencia de intensidad media ponderada de carbono era de 66.13

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y

2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- Exclusión: Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.

- Integración de factores ESG: Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- Compromiso: La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- Voto: La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- Seguimiento de controversias: Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores Inversiones	Sector	Subsector	País	% de activos
MICROSOFT CORP	Tecnología de la información	Software y servicios	Estados Unidos	6.95%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las **actividades habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las **actividades de transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 1.87% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE.

La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes.

El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☒

Sí:

☐

En gas fósil

☒

En energía nuclear

☐

No

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el volumen de negocio que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las inversiones en inmovilizado (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los gastos de explotación (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

Este gráfico representa el 100.0% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.03% y la cuota de inversión en actividades habilitadoras era del 2.97%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 1.70%.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del 57.45% al cierre del periodo. Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 10.28%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartiéndose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

El objetivo de inversión sostenible se logra alineando los objetivos de reducción de la huella de carbono del fondo con el Índice MSCI World Climate Paris Aligned Net USD. La intensidad de la huella de carbono de la cartera se calcula como media ponderada por activos de la cartera y se compara con la intensidad de la huella de carbono ponderada por activos del Índice.

En consecuencia, los títulos con una huella ecológica relativamente baja tienen más probabilidades de ser seleccionados en la cartera que los títulos con una huella relativamente alta. Además, el fondo excluye empresas por su comportamiento controvertido y (o) productos controvertidos de acuerdo con la Política de Inversión Responsable.

- La intensidad media ponderada de la huella de carbono de la cartera es de 55.75
- La intensidad media ponderada de la huella de carbono del Índice de referencia es de 64.97

• ¿En qué se diferencia el índice de referencia de un índice de mercado general?

Un índice de mercado general no evalúa ni incluye a sus componentes en función de las características medioambientales y, por lo tanto, no está alineado con las características medioambientales.

El índice utilizado es un "índice de referencia alineado con el Acuerdo de París" que incorpora objetivos específicos relacionados con la reducción de emisiones y la transición a una economía con bajas emisiones de carbono a través de la selección y ponderación de los componentes subyacentes.

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

- La calificación ESG media ponderada de la cartera es 0.503 (C).
- La calificación ESG media ponderada de la cartera es 0.013 (E)
- La intensidad media ponderada de la huella de carbono de la cartera es de 55.75
- La intensidad media ponderada de la huella de carbono del Índice de referencia es de 64.97

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS
EUROPE EQUITY CLIMATE

Identificador de la entidad jurídica:
5493003EV6H1NSIIXJ13

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La **Taxonomía de la UE** es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de **actividades económicas sostenibles desde el punto de vista medioambiental**. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?

Sí

No

Realizó **inversiones sostenibles con un objetivo medioambiental**: _____

en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

Realizó **inversiones sostenibles con un objetivo social**: _____

Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de **79.53%** de inversiones sostenibles

con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo social

Promovió características E/S, pero **no realizó inversiones sostenibles**

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

El Subfondo promueve las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la del universo de inversión. Para determinar la puntuación ESG del Subfondo y del universo de inversión, el desempeño ESG se evalúa comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características ESG: medioambiental, social y de gobierno corporativo. A efectos de esta medición, el universo de inversión se define como uno compuesto por valores de renta variable europeos cotizados.

Además, el Subfondo pretende reducir la intensidad de carbono de su cartera alineando la intensidad de su huella de carbono con el índice MSCI Europe Climate Paris Aligned (EUR).

Este Índice es un índice de mercado amplio que evalúa e incluye componentes en función de sus características medioambientales y, por lo tanto, está alineado con las características medioambientales promovidas por el Subfondo, es decir, una huella de carbono reducida.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **1.330 (C)**.
- La calificación ESG media ponderada del universo de inversión ESG es **0.828 (C)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

El indicador de sostenibilidad utilizado es la intensidad de la huella de carbono de la cartera, que se calcula como media ponderada por activos de la cartera y se compara con la intensidad de la huella de carbono ponderada por activos del Índice de referencia. En consecuencia, los títulos con una huella ecológica relativamente baja tenían más probabilidades de ser seleccionados en la cartera que los títulos con una huella ecológica relativamente alta.

- La intensidad media ponderada de la huella de carbono de la cartera es de **61.84**
- La intensidad media ponderada de la huella de carbono del Índice de referencia es de **135.18**

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 1.347 (C) y la calificación ESG media ponderada del universo de inversión ESG era de 0.798 (C). Al final del periodo anterior, la media ponderada de intensidad de carbono de la cartera era de 68.05 y el índice de referencia de intensidad media ponderada de carbono era de 77.24.

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el **mayor porcentaje de las inversiones** del producto financiero durante el periodo de referencia que es: **Desde el 01/07/2024 hasta el 30/06/2025**

Mayores inversiones	Sector	Subsector	País	% de activos
ALLIANZ SE-REG	Finanzas	Seguros	Alemania	3.93%
INTESA SANPAOLO	Finanzas	Entidades bancarias	Italia	3.84%
SCHNEIDER ELECT SE	Industria	Bienes de capital	Francia	3.79%
ASML HOLDING NV	Tecnología de la información	Semiconductores y equipos de semiconductores	Países Bajos	3.76%
RELX PLC	Industria	Servicios comerciales y profesionales	Reino Unido	3.72%

PUBLICIS GROUPE SA	Servicios de comunicación	Medios de comunicación y entretenimiento	Francia	3.69%
SIEMENS AG-REG	Industria	Bienes de capital	Alemania	3.59%
KBC GROUP NV	Finanzas	Entidades bancarias	Bélgica	3.50%
PRUDENTIAL PLC	Finanzas	Seguros	Reino Unido	3.45%
ASTRAZENECA GBP	Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	Reino Unido	3.42%
L OREAL (PARIS)	Consumo básico	Productos domésticos y personales	Francia	3.30%
FINECOBANK SPA	Finanzas	Entidades bancarias	Italia	3.16%
DEUTSCHE BOERSE AG	Finanzas	Servicios financieros	Alemania	3.12%
NOVO NORDISK A/S-B	Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	Dinamarca	3.10%
TESCO PLC	Consumo básico	Consumo básico Distribución y venta minorista	Reino Unido	2.86%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El fondo invirtió el 79.53% en inversiones relacionadas con la sostenibilidad.

- ¿Cuál era la asignación de activos?

La asignación de activos describe la proporción de inversiones en activos específicos.

• ¿En qué sectores económicos se realizaron las inversiones?

Sector	Subsector	% de activos
<i>Industria</i>	<i>Bienes de capital</i>	16.87%
<i>Finanzas</i>	<i>Entidades bancarias</i>	12.20%
<i>Asistencia sanitaria</i>	<i>Productos farmacéuticos Biotecnología y ciencias de la salud</i>	11.77%
<i>Finanzas</i>	<i>Seguros</i>	7.38%
<i>Consumo discrecional</i>	<i>Bienes de consumo duradero y confección</i>	6.29%
<i>Servicios de comunicación</i>	<i>Medios de comunicación y entretenimiento</i>	6.03%
<i>Industria</i>	<i>Servicios comerciales y profesionales</i>	5.33%
<i>Tecnología de la información</i>	<i>Semiconductores y equipos de semiconductores</i>	5.08%
<i>Consumo básico</i>	<i>Productos domésticos y personales</i>	4.37%
<i>Consumo discrecional</i>	<i>Servicios al consumidor</i>	3.39%
<i>Asistencia sanitaria</i>	<i>Equipo y servicios sanitarios</i>	3.28%
<i>Finanzas</i>	<i>Servicios financieros</i>	3.12%
<i>Consumo básico</i>	<i>Consumo básico Distribución y venta minorista</i>	2.86%
<i>Consumo discrecional</i>	<i>Consumo discrecional Distribución y venta minorista</i>	2.79%
<i>Suministros públicos</i>	<i>Multiservicios</i>	2.62%
<i>Consumo discrecional</i>	<i>Automóviles y componentes</i>	2.03%
<i>Tecnología de la información</i>	<i>Software y servicios</i>	1.93%
<i>Consumo básico</i>	<i>Alimentos, bebidas y tabaco</i>	1.81%
<i>Materiales</i>	<i>Productos químicos</i>	0.65%
<i>Forex</i>	<i>Forex</i>	0.06%
<i>Finanzas</i>	<i>Fondos de inversión colectiva</i>	0.00%
<i>Efectivo</i>	<i>Efectivo</i>	0.14%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades **habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de **transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- **el volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- **las inversiones en inmovilizado** (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- **los gastos de explotación** (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 3.17% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

Sí:

En gas fósil

En energía nuclear

No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

Este gráfico representa el 100.0% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- **¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?**

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.01% y la cuota de inversión en actividades habilitadoras era del 4.84%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 1.09%.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **68.25%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 8.10%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

El objetivo de inversión sostenible se logra alineando los objetivos de reducción de la huella de carbono del fondo con el Índice MSCI Europe Climate Paris Aligned Index (EUR). La intensidad de la huella de carbono de la cartera se calcula como media ponderada por activos de la cartera y se compara con la intensidad de la huella de carbono ponderada por activos del Índice.

En consecuencia, los títulos con una huella ecológica relativamente baja tienen más probabilidades de ser seleccionados en la cartera que los títulos con una huella relativamente alta. Además, el fondo excluye empresas por su comportamiento controvertido y (o) productos controvertidos de acuerdo con la Política de Inversión Responsable.

- La intensidad media ponderada de la huella de carbono de la cartera es de 61.84
- La intensidad media ponderada de la huella de carbono del Índice de referencia es de 135.18

• **¿En qué se diferencia el índice de referencia de un índice de mercado general?**

Un índice de mercado general no evalúa ni incluye a sus componentes en función de las características medioambientales y, por lo tanto, no está alineado con las características medioambientales.

El índice utilizado es un "índice de referencia alineado con el Acuerdo de París" que incorpora objetivos específicos relacionados con la reducción de emisiones y la transición a una economía con bajas emisiones de carbono a través de la selección y ponderación de los componentes subyacentes.

• **¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?**

- La calificación ESG media ponderada de la cartera es 1.330 (C).
- La calificación ESG media ponderada del universo de inversión ESG es 0.828 (C).
- La intensidad media ponderada de la huella de carbono de la cartera es de 61.84
- La intensidad media ponderada de la huella de carbono del Índice de referencia es de 135.18

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

• **¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?**

Un índice de mercado general no evalúa ni incluye a sus componentes en función de las características medioambientales y, por lo tanto, no está alineado con las características medioambientales.

El índice utilizado es un "índice de referencia alineado con el Acuerdo de París" que incorpora objetivos específicos relacionados con la reducción de emisiones y la transición a una economía con bajas emisiones de carbono a través de la selección y ponderación de los componentes subyacentes.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS
POLEN CAPITAL GLOBAL GROWTH

Identificador de la entidad jurídica:
549300LSQ5T56F5I6810

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?

Sí

No

Realizó inversiones sostenibles con un objetivo medioambiental: _____

en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

Realizó inversiones sostenibles con un objetivo social: _____

Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de **46.56%** de inversiones sostenibles

con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo social

Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión MSCI World All Countries (ACWI) (Net Dividend). Para determinar la puntuación ESG del Subfondo y del Índice de referencia, el desempeño ESG se evalúa comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características ESG: medioambiental, social y de gobierno corporativo. El Índice de referencia es un índice de mercado general que no evalúa ni incluye componentes en función de características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el Subfondo. No se ha designado ningún Índice de referencia ESG.

1010

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

- **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es 0.023 (D)
- La calificación ESG media ponderada del índice de referencia es -0.168 (D)

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

- **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 0.197 (D) y la calificación ESG media ponderada del Índice de referencia era de -0.171 (D).

- **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son:

emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican

además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

– ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto

en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.

- Voto: La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- Seguimiento de controversias: Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores Inversiones	Sector	Subsector	País	% de activos
AMAZON.COM INC	Consumo discrecional	Consumo discrecional Distribución y venta minorista	Estados Unidos	7.57%
ORACLE CORP	Tecnología de la información	Software y servicios	Estados Unidos	6.58%
PAYCOM SOFTWARE INC	Industria	Servicios comerciales y profesionales	Estados Unidos	5.59%

Forex	Forex	0.51%
Efectivo	Efectivo	1.68%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades habilitadoras permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de transición son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

Durante el periodo de referencia, el fondo invirtió un 0.0% en inversiones sostenibles alineadas con la Taxonomía de la UE.

- **¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?**

☐

Sí:

☐

En gas fósil

☐

En energía nuclear

☒

No

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el volumen de negocio que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las inversiones en inmovilizado (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los gastos de explotación (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.00% y la cuota de inversión en actividades habilitadoras era del 0.00%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.00%.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del 34.89% al cierre del periodo. Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 11.67%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartiéndose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS
US EQUITY DIVIDEND GROWTH

Identificador de la entidad jurídica:
5493008HZKXKMO2U3E97

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de **actividades económicas sostenibles desde el punto de vista medioambiental**. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?

Sí

No

Realizó inversiones sostenibles con un objetivo medioambiental: _____

en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

Realizó inversiones sostenibles con un objetivo social: _____

Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de **23.85%** de inversiones sostenibles

con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo social

Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **RUSSELL 1000 VALUE (FRC) (OFFICIAL)**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

1019

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **-0.300 (D)**
- La calificación ESG media ponderada del universo de inversión ESG es **-0.476 (D)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de -0.137 (D) y la calificación ESG media ponderada del universo de inversión ESG era de -0.479 (D).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales

y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- **¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

– ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de

interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.

- Voto: La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- Seguimiento de controversias: Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
WELLS FARGO & CO	Finanzas	Entidades bancarias	Estados Unidos	4.67%
EXXON MOBIL CORP	Energía	Petróleo, gas y combustibles	Estados Unidos	4.47%
JPMORGAN CHASE & CO	Finanzas	Entidades bancarias	Estados Unidos	3.49%
CISCO SYSTEMS INC	Tecnología de la información	Equipo tecnológico y hardware	Estados Unidos	3.43%
JOHNSON & JOHNSON	Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	Estados Unidos	3.28%
UNITED PARCEL SERV.	Industria	Transporte	Estados Unidos	3.18%
3M CO	Industria	Bienes de capital	Estados Unidos	3.17%
BANK OF AMERICA CORP	Finanzas	Entidades bancarias	Estados Unidos	3.06%

<i>Efectivo</i>	<i>Efectivo</i>	2.62%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades **habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de **transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el **volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las **inversiones en inmovilizado** (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los **gastos de explotación** (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

Durante el periodo de referencia, el fondo invirtió un 0.0% en inversiones sostenibles alineadas con la Taxonomía de la UE.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☐

Sí:

☐

En gas fósil

☐

En energía nuclear

☒

No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

1. Alineación con la Taxonomía de las inversiones incluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	100.00%	100.00%	100.00%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	0.00%	0.00%	0.00%

2. Alineación con la Taxonomía de las inversiones, excluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	100.00%	100.00%	100.00%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	0.00%	0.00%	0.00%

Este gráfico representa el 100.0% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

- ¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.00% y la cuota de inversión en actividades habilitadoras era del 0.00%. El porcentaje declarado de alineación de las

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.00%.

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **20.75%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 3.10%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartiéndose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI
FUNDS US EQUITY SELECT

Identificador de la entidad jurídica:
213800ETDMQDXO6WX979

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de **actividades económicas sostenibles desde el punto de vista medioambiental**. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?

Sí

No

Realizó inversiones sostenibles con un objetivo medioambiental: _____

en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

Realizó inversiones sostenibles con un objetivo social: _____

Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de **41.06%** de inversiones sostenibles

con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo social

Promovió características E/S, pero **no realizó inversiones sostenibles**

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **S&P 500 (OFFICIAL)**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

1029

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **0.100 (D)**
- La calificación ESG media ponderada del universo de inversión ESG es **-0.459 (D)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 0.107 (D) y la calificación ESG media ponderada del universo de inversión ESG era de -0.433 (D).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el

marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

– ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.

- Voto: La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- Seguimiento de controversias: Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
NVIDIA CORP	Tecnología de la información	Semiconductores y equipos de semiconductores	Estados Unidos	6.07%
CISCO SYSTEMS INC	Tecnología de la información	Equipo tecnológico y hardware	Estados Unidos	5.02%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El fondo invirtió el 41.06% en inversiones relacionadas con la sostenibilidad.

• ¿Cuál era la asignación de activos?

N.º 1 Alineación con características E/S incluye las inversiones del producto financiero utilizadas para alcanzar las características medioambientales o sociales promovidas por el producto financiero.

N.º 2 Otros incluye el resto de inversiones del producto financiero que no están alineadas con las características medioambientales o sociales, ni están calificadas como inversiones sostenibles.

La categoría **N.º 1 Alineado con las características E/S** abarca:

- La subcategoría **N.º 1A Sostenible** abarca las inversiones sostenibles desde el punto de vista medioambiental y social.

- La subcategoría **N.º 1B Otras características E/S** abarca las inversiones alineadas con las características medioambientales o sociales que no se califican como inversiones sostenibles.

La asignación de activos describe la proporción de inversiones en activos específicos.

• ¿En qué sectores económicos se realizaron las inversiones?

Sector	Subsector	% de activos
Industria	Bienes de capital	13.07%
Tecnología de la información	Software y servicios	11.89%
Finanzas	Servicios financieros	11.27%
Tecnología de la información	Semiconductores y equipos de semiconductores	10.67%

<i>Efectivo</i>	<i>Efectivo</i>	0.85%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades habilitadoras permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de transición son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 0.01% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes.

El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invertió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☐

Sí:

☐

En gas fósil

☐

En energía nuclear

☒

No

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el volumen de negocio que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las inversiones en inmovilizado (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los gastos de explotación (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

- ¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.01% y la cuota de inversión en actividades habilitadoras era del 0.00%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.00%.

- **¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?**

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **26.16%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

- **¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?**

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 14.89%.

- **¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?**

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

- **¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?**

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartiéndose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS
US EQUITY FUNDAMENTAL GROWTH

Identificador de la entidad jurídica:
54930019NOJ42Y83JC39

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La **Taxonomía de la UE** es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de **actividades económicas sostenibles desde el punto de vista medioambiental**. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☒ Sí	☒ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____ ☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ Realizó inversiones sostenibles con un objetivo social: _____	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de 34.58% de inversiones sostenibles ☐ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo social ☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **RUSSELL 1000 GROWTH (OFFICIAL)**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **-0.259 (D)**
- La calificación ESG media ponderada del universo de inversión ESG es **-0.419 (D)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de -0.359 (D) y la calificación ESG media ponderada del universo de inversión ESG era de -0.386 (D).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales

y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

– ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de

interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.

- Voto: La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- Seguimiento de controversias: Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el **mayor porcentaje de las inversiones** del producto financiero durante el periodo de referencia que es: **Desde el 01/07/2024 hasta el 30/06/2025**

Mayores inversiones	Sector	Subsector	País	% de activos
MICROSOFT CORP	Tecnología de la información	Software y servicios	Estados Unidos	7.59%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades habilitadoras permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de transición son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

Durante el periodo de referencia, el fondo invirtió un 0.0% en inversiones sostenibles alineadas con la Taxonomía de la UE.

- **¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?**

☐

Sí:

☐

En gas fósil

☐

En energía nuclear

☒

No

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el volumen de negocio que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las inversiones en inmovilizado (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los gastos de explotación (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

Este gráfico representa el 100.0% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

• ¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.00% y la cuota de inversión en actividades habilitadoras era del 0.00%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

• ¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.00%.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del 26.42% al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 8.16%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartiéndose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Este producto no tiene un Índice de referencia ESG.

- **¿En qué se diferencia el índice de referencia de un índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de referencia?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI
FUNDS US EQUITY RESEARCH

Identificador de la entidad jurídica:
5493005S070A64LD3058

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de **actividades económicas sostenibles desde el punto de vista medioambiental**. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☒ Sí	☒ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____ ☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ Realizó inversiones sostenibles con un objetivo social: _____	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de 41.18% de inversiones sostenibles ☐ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo social ☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **S&P 500 (OFICIAL)**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **-0.176 (D)**
- La calificación ESG media ponderada del universo de inversión ESG es **-0.459 (D)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de -0.167 (D) y la calificación ESG media ponderada del universo de inversión ESG era de -0.433 (D).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el

marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican

además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto

en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.

- Voto: La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- Seguimiento de controversias: Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el **mayor porcentaje de las inversiones** del producto financiero durante el periodo de referencia que es: **Desde el 01/07/2024 hasta el 30/06/2025**

Mayores inversiones	Sector	Subsector	País	% de activos
MICROSOFT CORP	Tecnología de la información	Software y servicios	Estados Unidos	6.64%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades habilitadoras permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de transición son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el **volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las **inversiones en inmovilizado** (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los **gastos de explotación** (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

Durante el periodo de referencia, el fondo invirtió un 0.0% en inversiones sostenibles alineadas con la Taxonomía de la UE.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☐ Sí:

☐ En gas fósil

☐ En energía nuclear

☒ No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

• **¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?**

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.00% y la cuota de inversión en actividades habilitadoras era del 0.00%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

• **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.00%.

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **26.22%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 14.95%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartiéndose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

¿En qué se diferencia el índice de referencia de un índice de mercado general?

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de referencia?**

Este producto no tiene un Índice de referencia ESG.

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La **Taxonomía de la UE** es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de **actividades económicas sostenibles desde el punto de vista medioambiental**. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?

☐ **Sí**

☐ Realizó **inversiones sostenibles con un objetivo medioambiental:** _____

☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

☐ Realizó **inversiones sostenibles con un objetivo social:** _____

☒ **No**

☒ Promovió **características Medioambientales/Sociales (E/S)** y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de **27.73%** de inversiones sostenibles

☒ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

☒ con un objetivo social

☐ Promovió **características E/S**, pero **no realizó inversiones sostenibles**

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **RUSSELL 1000 VALUE**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

¿Cómo se comportaron los indicadores de sostenibilidad?

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

Los **indicadores de sostenibilidad** cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **-0.162 (D)**
- La calificación ESG media ponderada del universo de inversión ESG es **-0.476 (D)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- **Dimensión medioambiental:** analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- **Dimensión social:** analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- **Dimensión de gobierno corporativo:** Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

- ***¿...y en comparación con periodos anteriores?***

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 0.020 (D) y la calificación ESG media ponderada del universo de inversión ESG era de - 0.479 (D).

- ***¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo ha contribuido la inversión sostenible a tales objetivos?***

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
JPMORGAN CHASE & CO	Finanzas	Entidades bancarias	Estados Unidos	4.93%
JOHNSON & JOHNSON	Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	Estados Unidos	4.75%
BANK OF AMERICA CORP	Finanzas	Entidades bancarias	Estados Unidos	4.72%
CISCO SYSTEMS INC	Tecnología de la información	Equipo tecnológico y hardware	Estados Unidos	4.49%
STATE STREET CORP	Finanzas	Servicios financieros	Estados Unidos	4.40%
GOLDMAN SACHS GROUP INC	Finanzas	Servicios financieros	Estados Unidos	4.00%
3M CO	Industria	Bienes de capital	Estados Unidos	3.91%
UNION PACIFIC CORP	Industria	Transporte	Estados Unidos	3.56%
US BANCORP	Finanzas	Entidades bancarias	Estados Unidos	3.42%
COMCAST CORP-CLASS A	Servicios de comunicación	Medios de comunicación y entretenimiento	Estados Unidos	3.28%
INTL BUSINESS MACHINES CORP	Tecnología de la información	Software y servicios	Estados Unidos	3.10%
ALPHABET INC CL A	Servicios de comunicación	Medios de comunicación y entretenimiento	Estados Unidos	2.89%
EXXON MOBIL CORP	Energía	Petróleo, gas y combustibles	Estados Unidos	2.56%
SYSCO CORP	Consumo básico	Consumo básico Distribución y venta minorista	Estados Unidos	2.38%
ZIMMER BIOMET HOLDINGS INC	Asistencia sanitaria	Equipo y servicios sanitarios	Estados Unidos	2.38%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El fondo invirtió el 27.73% en inversiones relacionadas con la sostenibilidad.

¿Cuál era la asignación de activos?

N.º 1 Alineación con características E/S incluye las inversiones del producto financiero utilizadas para alcanzar las características medioambientales o sociales promovidas por el producto financiero.

N.º 2 Otros incluye el resto de inversiones del producto financiero que no están alineadas con las características medioambientales o sociales, ni están calificadas como inversiones sostenibles.

La categoría **N.º 1 Alineado con las características E/S** abarca:

- La subcategoría **N.º 1A Sostenible** abarca las inversiones sostenibles desde el punto de vista medioambiental y social.

- La subcategoría **N.º 1B Otras características E/S** abarca las inversiones alineadas con las características medioambientales o sociales que no se califican como inversiones sostenibles.

La asignación de activos describe la proporción de inversiones en activos específicos.

¿En qué sectores económicos se realizaron las inversiones?

Sector	Subsector	% de activos
Finanzas	Entidades bancarias	16.41%
Finanzas	Servicios financieros	9.81%
Industria	Bienes de capital	9.07%
Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	7.09%
Asistencia sanitaria	Equipo y servicios sanitarios	6.25%
Servicios de comunicación	Medios de comunicación y entretenimiento	6.17%
Tecnología de la información	Equipo tecnológico y hardware	6.06%

<i>Energía</i>	<i>Petróleo, gas y combustibles</i>	5.33%
<i>Industria</i>	<i>Transporte</i>	4.51%
<i>Consumo básico</i>	<i>Consumo básico Distribución y venta minorista</i>	3.90%
<i>Finanzas</i>	<i>Seguros</i>	3.32%
<i>Tecnología de la información</i>	<i>Software y servicios</i>	3.10%
<i>Materiales</i>	<i>Materiales de construcción</i>	3.08%
<i>Consumo básico</i>	<i>Alimentos, bebidas y tabaco</i>	2.60%
<i>Suministros públicos</i>	<i>Suministro eléctrico</i>	2.29%
<i>Materiales</i>	<i>Metales y minería</i>	1.60%
<i>Industria</i>	<i>Servicios comerciales y profesionales</i>	1.48%
<i>Materiales</i>	<i>Productos químicos</i>	1.26%
<i>Consumo discrecional</i>	<i>Bienes de consumo duradero y confección</i>	1.25%
<i>Consumo discrecional</i>	<i>Automóviles y componentes</i>	1.22%
<i>Suministros públicos</i>	<i>Multiservicios</i>	1.18%
<i>Energía</i>	<i>Equipos y servicios de energía</i>	0.97%
<i>Inmobiliario</i>	<i>REIT</i>	0.48%
<i>Consumo discrecional</i>	<i>Consumo discrecional Distribución y venta minorista</i>	0.46%
<i>Forex</i>	<i>Forex</i>	0.22%
<i>Efectivo</i>	<i>Efectivo</i>	0.92%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades **habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de **transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el **volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las **inversiones en inmovilizado** (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los **gastos de explotación** (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 0.03% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes.

El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☐

Sí:

☐

En gas fósil

☐

En energía nuclear

☒

No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

Este gráfico representa el 100.0% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- **¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?**

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.03% y la cuota de inversión en actividades habilitadoras era del 0.00%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.00%.

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **22.77%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 4.92%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI
FUNDS US PIONEER FUND

Identificador de la entidad jurídica:
54930046EO6XR0RZBB11

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La **Taxonomía de la UE** es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de **actividades económicas sostenibles desde el punto de vista medioambiental**. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?

☐ **Sí**

☒ **No**

☐ Realizó **inversiones sostenibles con un objetivo medioambiental:** _____

☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

☐ Realizó **inversiones sostenibles con un objetivo social:** _____

☒ Promovió características **Medioambientales/Sociales (E/S)** y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de **36.13%** de inversiones sostenibles

☒ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

☒ con un objetivo social

☐ Promovió características E/S, pero **no realizó inversiones sostenibles**

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **S&P 500 (OFFICIAL)**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los **indicadores de sostenibilidad** cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

¿Cómo se comportaron los indicadores de sostenibilidad?

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **-0.224 (D)**
- La calificación ESG media ponderada del universo de inversión ESG es **-0.459 (D)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- **Dimensión medioambiental:** analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- **Dimensión social:** analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- **Dimensión de gobierno corporativo:** Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de -0.258 (D) y la calificación ESG media ponderada del universo de inversión ESG era de -0.433 (D).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia

(utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
NVIDIA CORP	Tecnología de la información	Semiconductores y equipos de semiconductores	Estados Unidos	7.59%
MICROSOFT CORP	Tecnología de la información	Software y servicios	Estados Unidos	5.89%
AMAZON.COM INC	Consumo discrecional	Consumo discrecional Distribución y venta minorista	Estados Unidos	4.97%
TRUIST FINANCIAL CORP	Finanzas	Entidades bancarias	Estados Unidos	4.31%
MARTIN MARIETTA MATERIALS	Materiales	Materiales de construcción	Estados Unidos	4.29%
ALPHABET INC CL A	Servicios de comunicación	Medios de comunicación y entretenimiento	Estados Unidos	4.00%
FREEMPORT-MCMORAN INC	Materiales	Metales y minería	Estados Unidos	3.92%
APPLE INC	Tecnología de la información	Equipo tecnológico y hardware	Estados Unidos	3.68%
QUANTA SERVICES INC	Industria	Bienes de capital	Estados Unidos	3.01%
UNITED PARCEL SERV.	Industria	Transporte	Estados Unidos	2.90%
BROADCOM INC	Tecnología de la información	Semiconductores y equipos de semiconductores	Estados Unidos	2.66%
VISA INC-CLASS A SHARES	Finanzas	Servicios financieros	Estados Unidos	2.48%
INTL BUSINESS MACHINES CORP	Tecnología de la información	Software y servicios	Estados Unidos	2.45%
GOLDMAN SACHS GROUP INC	Finanzas	Servicios financieros	Estados Unidos	2.37%
GE VERNOVA INC	Industria	Bienes de capital	Estados Unidos	2.37%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El fondo invirtió el 36.13% en inversiones relacionadas con la sostenibilidad.

• ¿Cuál era la asignación de activos?

La asignación de activos describe la proporción de inversiones en activos específicos.

• ¿En qué sectores económicos se realizaron las inversiones?

Sector	Subsector	% de activos
Tecnología de la información	Semiconductores y equipos de semiconductores	15.33%
Tecnología de la información	Software y servicios	12.73%
Industria	Bienes de capital	11.63%
Finanzas	Servicios financieros	8.52%
Tecnología de la información	Equipo tecnológico y hardware	6.60%
Finanzas	Entidades bancarias	6.31%
Materiales	Metales y minería	6.18%

<i>Efectivo</i>	<i>Efectivo</i>	<i>0.96%</i>

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las **actividades habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las **actividades de transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las **actividades alineadas con la Taxonomía** se expresan como porcentaje de:

- el **volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las **inversiones en inmovilizado** (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los **gastos de explotación** (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 0.13% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☐

Sí:

☐

En gas fósil

☐

En energía nuclear

☒

No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

1. Alineación con la Taxonomía de las inversiones incluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	99.87%	99.77%	99.87%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	0.13%	0.23%	0.13%

2. Alineación con la Taxonomía de las inversiones, excluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	99.87%	99.77%	99.87%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	0.13%	0.23%	0.13%

Este gráfico representa el 100.0% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- **¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?**

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.00% y la cuota de inversión en actividades habilitadoras era del 0.13%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.13%.

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

- **¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?**

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **23.55%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

- **¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?**

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 12.45%.

- **¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?**

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

- **¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?**

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartiéndose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS
CHINA NEW ENERGY

Identificador de la entidad jurídica:
2138004KPA84GFEEKY44

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La **Taxonomía de la UE** es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de **actividades económicas sostenibles desde el punto de vista medioambiental**. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?

☐ **Sí**

☒ **No**

☐ Realizó **inversiones sostenibles con un objetivo medioambiental:** _____

☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

☐ Realizó **inversiones sostenibles con un objetivo social:** _____

☒ Promovió características **Medioambientales/Sociales (E/S)** y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de **30.86%** de inversiones sostenibles

☐ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

☒ con un objetivo social

☐ Promovió características E/S, pero **no realizó inversiones sostenibles**

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **MSCI CHINA A ONSHORE NR USD**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **-0.424 (D)**
- La calificación ESG media ponderada del universo de inversión ESG es **-0.946 (E)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Este es el primer informe periódico del SFDR elaborado para este subfondo.

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos

humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el **mayor porcentaje de las inversiones** del producto financiero durante el periodo de referencia que es: **Desde el 01/07/2024 hasta el 30/06/2025**

Mayores inversiones	Sector	Subsector	País	% de activos
CONTEMPORARY AMPEREX TECHN-A NTH-SZSE	Industria	Bienes de capital	China	8.54%
BYD CO LTD -A NTH-SZSE	Consumo discrecional	Automóviles y componentes	China	7.90%
EVE ENERGY CO LTD-A NTH-SZSE	Industria	Bienes de capital	China	7.61%
SUNGROW POWER SUPPLY CO LT-A NTH- SZSE	Industria	Bienes de capital	China	6.37%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El fondo invirtió el 30.86% en inversiones relacionadas con la sostenibilidad.

¿Cuál era la asignación de activos?

La asignación de activos describe la proporción de inversiones en activos específicos.

¿En qué sectores económicos se realizaron las inversiones?

Sector	Subsector	% de activos
Industria	Bienes de capital	41.95%
Consumo discrecional	Automóviles y componentes	22.55%
Finanzas	Entidades bancarias	8.41%
Finanzas	Servicios financieros	5.56%
Tecnología de la información	Semiconductores y equipos de semiconductores	5.32%
Suministros públicos	Productores independientes y de electricidad renovable	4.35%

Tecnología de la información	Equipo tecnológico y hardware	4.00%
Materiales	Productos químicos	3.76%
Suministros públicos	Suministro de gas	0.10%
Otros	Otros	-0.10%
Efectivo	Efectivo	4.11%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades habilitadoras permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de transición son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

Durante el periodo de referencia, el fondo invirtió un 0.0% en inversiones sostenibles alineadas con la Taxonomía de la UE.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☐

Sí:

☐

En gas fósil

☐

En energía nuclear

☒

No

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el volumen de negocio que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las inversiones en inmovilizado (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los gastos de explotación (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

Este gráfico representa el 100.0% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.00% y la cuota de inversión en actividades habilitadoras era del 0.00%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?

Este es el primer informe periódico del SFDR elaborado para este subfondo.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del 22.77% al cierre del periodo. Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 8.09%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartiéndose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- **¿En qué se diferencia el índice de referencia de un índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de referencia?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI
FUNDS ASIA EQUITY FOCUS

Identificador de la entidad jurídica:

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La **Taxonomía de la UE** es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de **actividades económicas sostenibles desde el punto de vista medioambiental**. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?

Sí

No

Realizó **inversiones sostenibles con un objetivo medioambiental:** _____

en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

Promovió características **Medioambientales/Sociales (E/S)** y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de **44.08%** de inversiones sostenibles

con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo social

Realizó **inversiones sostenibles con un objetivo social:** _____

Promovió características E/S, pero **no realizó inversiones sostenibles**

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **MSCI AC ASIA EX JAPAN (OFFICIAL)**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **0.068 (D)**
- La calificación ESG media ponderada del universo de inversión ESG es **-0.016 (D)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de -0.017 (D) y la calificación ESG media ponderada del universo de inversión ESG era de -0.086 (D).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
TAIWAN SEMICONDUCTOR MANUFAC	Tecnología de la información	Semiconductores y equipos de semiconductores	Taiwán	9.78%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El fondo invirtió el 44.08% en inversiones relacionadas con la sostenibilidad.

¿Cuál era la asignación de activos?

N.º 1 Alineación con características E/S incluye las inversiones del producto financiero utilizadas para alcanzar las características medioambientales o sociales promovidas por el producto financiero.

N.º 2 Otros incluye el resto de inversiones del producto financiero que no están alineadas con las características medioambientales o sociales, ni están calificadas como inversiones sostenibles.

La categoría **N.º 1 Alineado con las características E/S** abarca:

- La subcategoría **N.º 1A Sostenible** abarca las inversiones sostenibles desde el punto de vista medioambiental y social.
- La subcategoría **N.º 1B Otras características E/S** abarca las inversiones alineadas con las características medioambientales o sociales que no se califican como inversiones sostenibles.

La asignación de activos describe la proporción de inversiones en activos específicos.

¿En qué sectores económicos se realizaron las inversiones?

Sector	Subsector	% de activos
Finanzas	Entidades bancarias	15.18%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las **actividades habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las **actividades de transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

Durante el periodo de referencia, el fondo invirtió un 0.0% en inversiones sostenibles alineadas con la Taxonomía de la UE.

- **¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?**

☐

Sí:

☐

En gas fósil

☐

En energía nuclear

☒

No

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el volumen de negocio que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las inversiones en inmovilizado (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los gastos de explotación (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

• ¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.00% y la cuota de inversión en actividades habilitadoras era del 0.00%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

• ¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.00%.

son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **27.81%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 16.27%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartiéndose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La **Taxonomía de la UE** es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de **actividades económicas sostenibles desde el punto de vista medioambiental**. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?

Sí

No

Realizó **inversiones sostenibles con un objetivo medioambiental:** _____

Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de **29.65%** de inversiones sostenibles

en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo social

Realizó **inversiones sostenibles con un objetivo social:** _____

Promovió características E/S, pero **no realizó inversiones sostenibles**

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **MSCI China A Onshore NR USD**. Para determinar la puntuación ESG del Producto y el índice, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El índice es un índice de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del índice del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **-0.538 (E)**
- La calificación ESG media ponderada de la cartera es **-0.946 (E)**

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de -0.608 (C) y la calificación ESG media ponderada del índice de referencia era de -1.133 (D).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
CONTEMPORARY AMPEREX TECHN-A NTH-SZSE	Industria	Bienes de capital	China	5.60%
CHINA MERCHANTS BANK NT-SS	Finanzas	Entidades bancarias	China	4.22%
PING AN INSURANCE-A NT-SS	Finanzas	Seguros	China	4.06%
JIANGSU HENGLI HYDRAULIC C-A NTH-SSE	Industria	Bienes de capital	China	3.10%
WEICHAJ POWER CO LTD-A NT-SZ	Industria	Bienes de capital	China	2.64%
INDUSTRIAL BANK CO NT-SS	Finanzas	Entidades bancarias	China	2.35%
PING AN BANK CO LTD A NT-SZ	Finanzas	Entidades bancarias	China	2.26%
JIANGSU HENGRUI MEDICINE-A NT- SS	Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	China	2.21%
EAST MONEY INFORMATION CO-A NTH-SZSE	Finanzas	Servicios financieros	China	2.20%
CHINA CONSTRUCT BANK	Finanzas	Entidades bancarias	China	2.16%
NAURA TECHNOLOGY GROUP CO-A NTH-SZSE	Tecnología de la información	Semiconductores y equipos de semiconductores	China	2.15%
SHENNAN CIRCUITS CO LTD-A NTH-SZSE	Tecnología de la información	Equipo tecnológico y hardware	China	2.14%
SHENZHEN MINDRAY BIO-MEDIC-A NTH-SZSE	Asistencia sanitaria	Equipo y servicios sanitarios	China	2.13%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El fondo invirtió el 29.65% en inversiones relacionadas con la sostenibilidad.

¿Cuál era la asignación de activos?

N.º 1 Alineación con características E/S incluye las inversiones del producto financiero utilizadas para alcanzar las características medioambientales o sociales promovidas por el producto financiero.

N.º 2 Otros incluye el resto de inversiones del producto financiero que no están alineadas con las características medioambientales o sociales, ni están calificadas como inversiones sostenibles.

La categoría **N.º 1 Alineado con las características E/S** abarca:

- La subcategoría **N.º 1A Sostenible** abarca las inversiones sostenibles desde el punto de vista medioambiental y social.
- La subcategoría **N.º 1B Otras características E/S** abarca las inversiones alineadas con las características medioambientales o sociales que no se califican como inversiones sostenibles.

La asignación de activos describe la proporción de inversiones en activos específicos.

¿En qué sectores económicos se realizaron las inversiones?

Sector	Subsector	% de activos
Industria	Bienes de capital	17.56%
Finanzas	Entidades bancarias	12.44%
Tecnología de la información	Equipo tecnológico y hardware	9.37%
Consumo discrecional	Automóviles y componentes	8.03%
Tecnología de la información	Semiconductores y equipos de semiconductores	7.21%
Finanzas	Servicios financieros	5.21%
Finanzas	Seguros	5.03%

<i>Consumo básico</i>	<i>Alimentos, bebidas y tabaco</i>	<i>5.01%</i>
<i>Tecnología de la información</i>	<i>Software y servicios</i>	<i>4.19%</i>
<i>Asistencia sanitaria</i>	<i>Equipo y servicios sanitarios</i>	<i>3.20%</i>
<i>Materiales</i>	<i>Metales y minería</i>	<i>2.38%</i>
<i>Asistencia sanitaria</i>	<i>Productos farmacéuticos Biotecnología y ciencias de la salud</i>	<i>2.21%</i>
<i>Industria</i>	<i>Transporte</i>	<i>2.18%</i>
<i>Suministros públicos</i>	<i>Productores independientes y de electricidad renovable</i>	<i>1.90%</i>
<i>Materiales</i>	<i>Productos químicos</i>	<i>1.51%</i>
<i>Servicios de comunicación</i>	<i>Medios de comunicación y entretenimiento</i>	<i>1.45%</i>
<i>Consumo discrecional</i>	<i>Bienes de consumo duradero y confección</i>	<i>1.20%</i>
<i>Industria</i>	<i>Servicios comerciales y profesionales</i>	<i>0.89%</i>
<i>Consumo básico</i>	<i>Productos domésticos y personales</i>	<i>0.88%</i>
<i>Consumo discrecional</i>	<i>Servicios al consumidor</i>	<i>0.80%</i>
<i>Materiales</i>	<i>Materiales de construcción</i>	<i>0.43%</i>
<i>Inmobiliario</i>	<i>Gestión y promoción inmobiliaria</i>	<i>0.38%</i>
<i>Consumo básico</i>	<i>Consumo básico Distribución y venta minorista</i>	<i>0.14%</i>
<i>Efectivo</i>	<i>Efectivo</i>	<i>6.39%</i>

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades **habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de **transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el **volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las **inversiones en inmovilizado** (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los **gastos de explotación** (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

Durante el periodo de referencia, el fondo invirtió un 0.0% en inversiones sostenibles alineadas con la Taxonomía de la UE.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☐

Sí:

☐

En gas fósil

☐

En energía nuclear

☒

No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

1. Alineación con la Taxonomía de las inversiones incluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	100.00%	100.00%	100.00%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	0.00%	0.00%	0.00%

2. Alineación con la Taxonomía de las inversiones, excluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	100.00%	100.00%	100.00%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	0.00%	0.00%	0.00%

Este gráfico representa el 100.0% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- **¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?**

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.00% y la cuota de inversión en actividades habilitadoras era del 0.00%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.00%.

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **18.52%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 11.13%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS
CHINA EQUITY

Identificador de la entidad jurídica:
549300Y1J7CKLI10B145

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La **Taxonomía de la UE** es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de **actividades económicas sostenibles desde el punto de vista medioambiental**. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☒ Sí	☒ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____ ☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de <u>37.06%</u> de inversiones sostenibles ☐ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo social
☐ Realizó inversiones sostenibles con un objetivo social: _____	☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **MSCI CHINA 10/40**. Para determinar la puntuación ESG del Producto y el índice, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El índice es un índice de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo.
No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

- **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del índice del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **-0.367 (D)**
- La calificación ESG media ponderada de la cartera es **-0.529 (E)**

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• ***¿...y en comparación con periodos anteriores?***

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de -0.468 (C) y la calificación ESG media ponderada del índice de referencia era de -0.732 (D).

• ***¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?***

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia

(utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
TENCENT HOLDINGS LTD	Servicios de comunicación	Medios de comunicación y entretenimiento	Islas Caimán	9.64%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades habilitadoras permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de transición son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

Durante el periodo de referencia, el fondo invirtió un 0.0% en inversiones sostenibles alineadas con la Taxonomía de la UE.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☐

Sí:

☐

En gas fósil

☐

En energía nuclear

☒

No

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el volumen de negocio que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las inversiones en inmovilizado (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los gastos de explotación (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

Este gráfico representa el 98.4% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.00% y la cuota de inversión en actividades habilitadoras era del 0.00%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.00%.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del 23.28% al cierre del periodo. Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 13.78%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartiéndose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Este producto no tiene un Índice de referencia ESG.

- **¿En qué se diferencia el índice de referencia de un índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de referencia?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS
EMERGING EUROPE MIDDLE EAST AND AFRICA

Identificador de la entidad jurídica:
549300QA3E8RYX3KUC78

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La **Taxonomía de la UE** es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de **actividades económicas sostenibles desde el punto de vista medioambiental**. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?

Sí

No

Realizó inversiones sostenibles con un objetivo medioambiental: _____

en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

Realizó inversiones sostenibles con un objetivo social: _____

Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de **30.92%** de inversiones sostenibles

con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo social

Promovió características E/S, pero **no realizó inversiones sostenibles**

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **MSCI EM Europe & Middle East 10/40 Index**. Para determinar la puntuación ESG del Producto y el índice, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características medioambientales, sociales y de gobierno corporativo.

El índice es un índice de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo.

No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del índice del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **0.074 (D)**
- La calificación ESG media ponderada de la cartera es **-0.190 (E)**

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de -0.024 (C) y la calificación ESG media ponderada del índice de referencia era de -0.3 (D).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son:

emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de

puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el **mayor porcentaje de las inversiones** del producto financiero durante el periodo de referencia que es: **Desde el 01/07/2024 hasta el 30/06/2025**

Mayores inversiones	Sector	Subsector	País	% de activos
EUROBANK ERGASIAS SA	Finanzas	Entidades bancarias	Grecia	4.67%
EMAAR PROPERTIES	Inmobiliario	Gestión y promoción inmobiliaria	Emiratos Árabes Unidos	4.31%
PKO BANK POLSKI	Finanzas	Entidades bancarias	Polonia	4.07%
CEZ AS	Suministros públicos	Suministro eléctrico	República Checa	3.65%
THE SAUDI NATIONAL BANK	Finanzas	Entidades bancarias	Arabia Saudí	3.12%
NATIONAL BANK OF GREECE SA NEW	Finanzas	Entidades bancarias	Grecia	3.09%
GOLD FIELDS LTD	Materiales	Metales y minería	Sudáfrica	2.64%
POWSZECHNY ZAKLAD UBEZPIECZEN	Finanzas	Seguros	Polonia	2.59%
AL RAJHI BANK	Finanzas	Entidades bancarias	Arabia Saudí	2.53%
BANK PEKAO SA	Finanzas	Entidades bancarias	Polonia	2.53%
ANGLOGOLD ASHANTI PLC	Materiales	Metales y minería	Reino Unido	2.20%
IMPALA PLATINUM	Materiales	Metales y minería	Sudáfrica	2.02%
ABU DHABI COMMERCIAL BANK	Finanzas	Entidades bancarias	Emiratos Árabes Unidos	1.90%
DINO POLSKA SA	Consumo básico	Consumo básico Distribución y venta minorista	Polonia	1.77%
RIYADH CABLES GROUP CO	Industria	Bienes de capital	Arabia Saudí	1.77%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El fondo invirtió el 30.92% en inversiones relacionadas con la sostenibilidad.

¿Cuál era la asignación de activos?

¿En qué sectores económicos se realizaron las inversiones?

Sector	Subsector	% de activos
Finanzas	Entidades bancarias	33.57%
Materiales	Metales y minería	9.44%
Consumo discrecional	Consumo discrecional Distribución y venta minorista	7.19%
Consumo básico	Consumo básico Distribución y venta minorista	6.37%
Industria	Bienes de capital	6.32%
Suministros públicos	Suministro eléctrico	4.99%

<i>Efectivo</i>	<i>Efectivo</i>	<i>7.73%</i>

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las **actividades habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las **actividades de transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las **actividades alineadas con la Taxonomía** se expresan como porcentaje de:

- **el volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- **las inversiones en inmovilizado** (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- **los gastos de explotación** (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 0.58% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

Sí:

En gas fósil

En energía nuclear

No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

1. Alineación con la Taxonomía de las inversiones incluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	94.85%	93.43%	96.60%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.01%	0.42%
■ Alineado con la Taxonomía: Nuclear	2.49%	0.68%	1.19%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	2.65%	5.88%	1.79%

2. Alineación con la Taxonomía de las inversiones, excluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	96.40%	95.75%	97.50%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.01%	0.43%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.06%	0.06%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	3.60%	4.19%	2.01%

Este gráfico representa el 96.3% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

• **¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?**

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.38% y la cuota de inversión en actividades habilitadoras era del 2.10%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

• **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.12%.

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **27.65%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 2.69%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS
EMERGING MARKETS EQUITY SELECT

Identificador de la entidad jurídica:
213800T17Z9VUK8N7648

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?

Sí

No

Realizó inversiones sostenibles con un objetivo medioambiental: _____

en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

Realizó inversiones sostenibles con un objetivo social: _____

Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de **54.13%** de inversiones sostenibles

con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo social

Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **MSCI EM (EMERGING MARKETS) (OFFICIAL)**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

¿Cómo se comportaron los indicadores de sostenibilidad?

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

1126

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **0.394 (D)**
- La calificación ESG media ponderada del universo de inversión ESG es **-0.022 (D)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- **Dimensión medioambiental:** analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- **Dimensión social:** analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- **Dimensión de gobierno corporativo:** Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

- ***¿...y en comparación con periodos anteriores?***

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 0.356 (D) y la calificación ESG media ponderada del universo de inversión ESG era de -0.099 (D).

- ***¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?***

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- **¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el **mayor porcentaje de las inversiones** del producto financiero durante el periodo de referencia que es: **Desde el 01/07/2024 hasta el 30/06/2025**

Mayores inversiones	Sector	Subsector	País	% de activos
TAIWAN SEMICONDUCTOR-SP ADR	Tecnología de la información	Semiconductores y equipos de semiconductores	Taiwán	6.81%
CHINA CONSTRUCTION BANK	Finanzas	Entidades bancarias	China	4.12%
ALIBABA GROUP HOLDING LTD	Consumo discrecional	Consumo discrecional Distribución y venta minorista	Islas Caimán	3.64%
SK HYNIX INC	Tecnología de la información	Semiconductores y equipos de semiconductores	Corea	3.56%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las **actividades habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las **actividades de transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las **actividades alineadas con la Taxonomía** se expresan como porcentaje de:

- **el volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- **las inversiones en inmovilizado** (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- **los gastos de explotación** (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 0.09% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☒

Sí:

☐

En gas fósil

☒

En energía nuclear

☐

No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

1. Alineación con la Taxonomía de las inversiones incluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	99.61%	99.75%	99.90%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.03%	0.02%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	0.39%	0.22%	0.07%

2. Alineación con la Taxonomía de las inversiones, excluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	99.61%	99.74%	99.90%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.03%	0.02%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	0.39%	0.22%	0.08%

Este gráfico representa el 98.1% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- **¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?**

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.00% y la cuota de inversión en actividades habilitadoras era del 0.10%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.00%.

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **45.32%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 8.73%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS
EMERGING MARKETS EQUITY FOCUS

Identificador de la entidad jurídica:
529900SQFJZNLOBO8Z15

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La **Taxonomía de la UE** es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de **actividades económicas sostenibles desde el punto de vista medioambiental**. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?

☒ ☐ Sí	☒ ☐ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de 46.19% de inversiones sostenibles
☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ Realizó inversiones sostenibles con un objetivo social: _____	☒ con un objetivo social
	☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión MSCI EM (EMERGING MARKETS). Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo. El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los **indicadores de sostenibilidad** cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

¿Cómo se comportaron los indicadores de sostenibilidad?

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **0.122 (D)**
- La calificación ESG media ponderada del universo de inversión ESG es **-0.022 (D)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• ***¿...y en comparación con periodos anteriores?***

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 0.103 (D) y la calificación ESG media ponderada del universo de inversión ESG era de -0.099 (D).

• ***¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?***

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación

de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- **¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
TAIWAN SEMICONDUCTOR MANUFACTURING	Tecnología de la información	Semiconductores y equipos de semiconductores	Taiwán	9.73%
TENCENT HOLDINGS LTD	Servicios de comunicación	Medios de comunicación y entretenimiento	Islas Caimán	5.52%
HDFC BANK LIMITED	Finanzas	Entidades bancarias	La India	2.73%
SAMSUNG ELECTRONICS	Tecnología de la información	Equipo tecnológico y hardware	Corea	1.84%
ALIBABA GROUP HOLDING LTD	Consumo discrecional	Consumo discrecional Distribución y venta minorista	Islas Caimán	1.83%
XIAOMI CORP	Tecnología de la información	Equipo tecnológico y hardware	Islas Caimán	1.66%
CHINA CONSTRUCTION BANK	Finanzas	Entidades bancarias	China	1.62%
GRUPO FINANCIERO BANORTE-O	Finanzas	Entidades bancarias	México	1.41%
EMAAR PROPERTIES	Inmobiliario	Gestión y promoción inmobiliaria	Emiratos Árabes Unidos	1.37%

Forex	Forex	0.04%
Efectivo	Efectivo	1.09%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades habilitadoras permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de transición son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 0.02% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☒

Sí:

☐

En gas fósil

☒

En energía nuclear

☐

No

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el volumen de negocio que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las inversiones en inmovilizado (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los gastos de explotación (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.00% y la cuota de inversión en actividades habilitadoras era del 0.04%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.00%.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del 33.63% al cierre del periodo. Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 12.54%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- **¿En qué se diferencia el índice de referencia de un índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de referencia?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Nombre del producto: AMUNDI FUNDS
EMERGING MARKETS EQUITY FOCUS EX CHINA

Identificador de la entidad jurídica:
213800S4PO3LJPFHDI77

Características medioambientales y/o sociales

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☒ Sí	☒ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de 48.83% de inversiones sostenibles
☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ Realizó inversiones sostenibles con un objetivo social: _____	☒ con un objetivo social
	☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **MSCI EM (EMERGING MARKETS) EX CHINA (OFFICIAL)**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

- ¿Cómo se comportaron los indicadores de sostenibilidad?
Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **0.275 (D)**
- La calificación ESG media ponderada del universo de inversión ESG es **0.159 (D)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• ***¿...y en comparación con periodos anteriores?***

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 0.193 (D) y la calificación ESG media ponderada del universo de inversión ESG era de 0.097 (D).

• ***¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?***

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación

de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
TAIWAN SEMICONDUCTOR MANUFAC	Tecnología de la información	Semiconductores y equipos de semiconductores	Taiwán	9.40%
ISHSIV-MSCI INDIA UCITS ETF(LSE)	Finanzas	Fondos de inversión colectiva	Irlanda	8.08%
SAMSUNG ELECTRONICS	Tecnología de la información	Equipo tecnológico y hardware	Corea	2.70%
HDFC BANK LTD- ADR	Finanzas	Entidades bancarias	La India	2.23%
VIETNAM TECHNOLOGICAL & COMM	Finanzas	Entidades bancarias	Vietnam	2.08%
ALPHA BANK SA	Finanzas	Entidades bancarias	Grecia	2.05%
UNI-PRESIDENT ENTR.	Consumo básico	Alimentos, bebidas y tabaco	Taiwán	1.97%
FAR EASTONE TELECOM	Servicios de comunicación	Telecomunicaciones	Taiwán	1.83%
ABU DHABI ISLAMIC BANK	Finanzas	Entidades bancarias	Emiratos Árabes Unidos	1.73%
SK HYNIX INC	Tecnología de la información	Semiconductores y equipos de semiconductores	Corea	1.67%
GRUPO FINANCIERO BANORTE-O	Finanzas	Entidades bancarias	México	1.60%
EMAAR PROPERTIES	Inmobiliario	Gestión y promoción inmobiliaria	Emiratos Árabes Unidos	1.58%
SAMSUNG ELECT-PFD	Tecnología de la información	Equipo tecnológico y hardware	Corea	1.57%
SINGAPORE TELECOMMUNICATIONS	Servicios de comunicación	Telecomunicaciones	Singapur	1.35%
AMUNDI MMST (USD)-OV	Finanzas	Fondos de inversión colectiva	Luxemburgo	1.31%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El fondo invirtió el 48.83% en inversiones relacionadas con la sostenibilidad.

¿Cuál era la asignación de activos?

N.º 1 Alineación con características E/S incluye las inversiones del producto financiero utilizadas para alcanzar las características medioambientales o sociales promovidas por el producto financiero.

N.º 2 Otros incluye el resto de inversiones del producto financiero que no están alineadas con las características medioambientales o sociales, ni están calificadas como inversiones sostenibles.

La categoría **N.º 1 Alineado con las características E/S** abarca:

- La subcategoría **N.º 1A Sostenible** abarca las inversiones sostenibles desde el punto de vista medioambiental y social.

- La subcategoría **N.º 1B Otras características E/S** abarca las inversiones alineadas con las características medioambientales o sociales que no se califican como inversiones sostenibles.

La asignación de activos describe la proporción de inversiones en activos específicos.

¿En qué sectores económicos se realizaron las inversiones?

Sector	Subsector	% de activos
Finanzas	Entidades bancarias	22.24%
Tecnología de la información	Semiconductores y equipos de semiconductores	13.34%
Finanzas	Fondos de inversión colectiva	9.39%
Servicios de comunicación	Telecomunicaciones	7.37%
Tecnología de la información	Equipo tecnológico y hardware	6.49%
Industria	Bienes de capital	4.33%

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 0.02% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes.

El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?**

Sí:

En gas fósil

En energía nuclear

No

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades habilitadoras permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de transición son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el volumen de negocio que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las inversiones en inmovilizado (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los gastos de explotación (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.00% y la cuota de inversión en actividades habilitadoras era del 0.00%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.00%.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del 34.69% al cierre del periodo. Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 14.12%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Este producto no tiene un Índice de referencia ESG.

- **¿En qué se diferencia el índice de referencia de un índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de referencia?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

Nombre del producto: AMUNDI FUNDS
EMERGING WORLD EQUITY

Identificador de la entidad jurídica:
529900FMUS31WLI1V843

Características medioambientales y/o sociales

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☒ ☐ Sí	☒ ☐ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____	☐ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de 48.04% de inversiones sostenibles
☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ Realizó inversiones sostenibles con un objetivo social: _____	☒ con un objetivo social
	☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **MSCI EMERGING MARKETS FREE Index**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo.

No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **0.135 (D)**.
- La calificación ESG media ponderada del universo de inversión ESG es **-0.022 (D)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 0.130 (D) y la calificación ESG media ponderada del universo de inversión ESG era de -0.099 (D).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- **¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?**

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- **¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?**

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- **¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:**

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- Exclusión: Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- Integración de factores ESG: Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- Compromiso: La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- Voto: La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- Seguimiento de controversias: Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

Mayores inversiones	Sector	Subsector	País	% de activos
TAIWAN SEMICONDUCTOR MANUFAC	Tecnología de la información	Semiconductores y equipos de semiconductores	Taiwán	9.69%
TENCENT HOLDINGS LTD	Servicios de comunicación	Medios de comunicación y entretenimiento	Islas Caimán	5.49%
HDFC BANK LIMITED	Finanzas	Entidades bancarias	La India	2.27%

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

ALPHA BANK SA	Finanzas	Entidades bancarias	Grecia	1.83%
SAMSUNG ELECTRONICS	Tecnología de la información	Equipo tecnológico y hardware	Corea	1.70%
EMBRAER SA- SPON ADR	Industria	Bienes de capital	Brasil	1.65%
XIAOMI CORP	Tecnología de la información	Equipo tecnológico y hardware	Islas Caimán	1.62%
ALIBABA GROUP HOLDING LTD	Consumo discrecional	Consumo discrecional Distribución y venta minorista	Islas Caimán	1.54%
GRUPO FINANCIERO BANORTE-O	Finanzas	Entidades bancarias	México	1.44%
NASPERS LTD-N SHS	Consumo discrecional	Consumo discrecional Distribución y venta minorista	Sudáfrica	1.38%
EMAAR PROPERTIES	Inmobiliario	Gestión y promoción inmobiliaria	Emiratos Árabes Unidos	1.35%
SK HYNIX INC	Tecnología de la información	Semiconductores y equipos de semiconductores	Corea	1.33%
SAMSUNG ELECT-PFD	Tecnología de la información	Equipo tecnológico y hardware	Corea	1.24%
ALDAR PROPERTIES PJSC	Inmobiliario	Gestión y promoción inmobiliaria	Emiratos Árabes Unidos	1.23%
GOLD FIELDS LTD	Materiales	Metales y minería	Sudáfrica	1.18%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El fondo invirtió el 48.04% en inversiones relacionadas con la sostenibilidad.

¿Cuál era la asignación de activos?

N.º 1 Alineación con características E/S incluye las inversiones del producto financiero utilizadas para alcanzar las características medioambientales o sociales promovidas por el producto financiero.

N.º 2 Otros incluye el resto de inversiones del producto financiero que no están alineadas con las características medioambientales o sociales, ni están calificadas como inversiones sostenibles.

La categoría **N.º 1 Alineado con las características E/S** abarca:

- La subcategoría **N.º 1A Sostenible** abarca las inversiones sostenibles desde el punto de vista medioambiental y social.

- La subcategoría **N.º 1B Otras características E/S** abarca las inversiones alineadas con las características medioambientales o sociales que no se califican como inversiones sostenibles.

La asignación de activos describe la proporción de inversiones en activos específicos.

• **¿En qué sectores económicos se realizaron las inversiones?**

Sector	Subsector	% de activos
Finanzas	Entidades bancarias	17.44%
Tecnología de la información	Semiconductores y equipos de semiconductores	11.86%
Servicios de comunicación	Medios de comunicación y entretenimiento	6.83%
Industria	Bienes de capital	6.17%
Tecnología de la información	Equipo tecnológico y hardware	5.83%
Consumo discrecional	Consumo discrecional Distribución y venta minorista	4.95%
Inmobiliario	Gestión y promoción inmobiliaria	4.79%
Servicios de comunicación	Telecomunicaciones	4.17%
Consumo básico	Alimentos, bebidas y tabaco	3.74%
Finanzas	Seguros	3.67%
Materiales	Metales y minería	3.65%
Consumo discrecional	Servicios al consumidor	3.42%
Consumo discrecional	Bienes de consumo duradero y confección	2.61%
Tecnología de la información	Software y servicios	2.61%
Energía	Petróleo, gas y combustibles	2.26%
Finanzas	Fondos de inversión colectiva	2.24%
Consumo discrecional	Automóviles y componentes	2.13%
Finanzas	Servicios financieros	2.06%
Suministros públicos	Suministro eléctrico	1.81%
Consumo básico	Consumo básico Distribución y venta minorista	1.54%
Suministros públicos	Suministro de agua	1.20%
Industria	Transporte	1.06%
Asistencia sanitaria	Equipo y servicios sanitarios	0.91%
Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	0.90%

Consumo básico	Productos domésticos y personales	0.63%
Materiales	Materiales de construcción	0.44%
Suministros públicos	Productores independientes y de electricidad renovable	0.43%
Suministros públicos	Suministro de gas	0.29%
Materiales	Productos madereros y papeleros	0.28%
Materiales	Productos químicos	0.19%
Forex	Forex	0.02%
Industria	Servicios comerciales y profesionales	0.00%
Efectivo	Efectivo	-0.18%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades **habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de **transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 0.01% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☒

Sí:

☐

En gas fósil

☒

En energía nuclear

☐

No

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:
- el volumen de negocio que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las inversiones en inmovilizado (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los gastos de explotación (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

Este gráfico representa el 98.5% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.01% y la cuota de inversión en actividades habilitadoras era del 0.10%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.02%.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del 36.95% al cierre del periodo. Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 11.08%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartiéndose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Este producto no tiene un Índice de referencia ESG.

- **¿En qué se diferencia el índice de referencia de un índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de referencia?**

Este producto no tiene un Índice de referencia ESG.

- **¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

Nombre del producto: AMUNDI FUNDS
LATIN AMERICA EQUITY

Identificador de la entidad jurídica:
529900S2PKB89W9KIR25

Características medioambientales y/o sociales

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☒ ☐ Sí	☒ ☐ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de 48.04% de inversiones sostenibles
☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☐ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ Realizó inversiones sostenibles con un objetivo social: _____	☒ con un objetivo social
	☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **MSCI EM LATIN AMERICA (OFFICIAL)**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **0.267 (D)**.
- La calificación ESG media ponderada del universo de inversión ESG es **0.181 (D)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 0.217 (D) y la calificación ESG media ponderada del universo de inversión ESG era de 0.158 (D).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- Exclusión: Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- Integración de factores ESG: Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- Compromiso: La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- Voto: La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- Seguimiento de controversias: Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

Mayores inversiones	Sector	Subsector	País	% de activos
GRUPO FINANCIERO BANORTE-O	Finanzas	Entidades bancarias	México	6.09%
PETROBRAS SA- ADR	Energía	Petróleo, gas y combustibles	Brasil	4.84%
ITAUSA SA	Finanzas	Entidades bancarias	Brasil	4.43%

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

EMBRAER SA- SPON ADR	Industria	Bienes de capital	Brasil	4.35%

WALMART DE MEXICO SAB DE CV	Consumo básico	Consumo básico Distribución y venta minorista	México	1.93%
PRIO SA	Energía	Petróleo, gas y combustibles	Brasil	1.93%
PETROBRAS - PETROLEO BRAS- PFD	Energía	Petróleo, gas y combustibles	Brasil	1.78%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El fondo invirtió el 46.08% en inversiones relacionadas con la sostenibilidad.

• ¿Cuál era la asignación de activos?

N.º 1 Alineación con características E/S incluye las inversiones del producto financiero utilizadas para alcanzar las características medioambientales o sociales promovidas por el producto financiero.

N.º 2 Otros incluye el resto de inversiones del producto financiero que no están alineadas con las características medioambientales o sociales, ni están calificadas como inversiones sostenibles.

La categoría **N.º 1 Alineado con las características E/S** abarca:

- La subcategoría **N.º 1A Sostenible** abarca las inversiones sostenibles desde el punto de vista medioambiental y social.

- La subcategoría **N.º 1B Otras características E/S** abarca las inversiones alineadas con las características medioambientales o sociales que no se califican como inversiones sostenibles.

La asignación de activos describe la proporción de inversiones en activos específicos.

- **¿En qué sectores económicos se realizaron las inversiones?**

Sector	Subsector	% de activos
<i>Finanzas</i>	<i>Entidades bancarias</i>	24.09%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades habilitadoras permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de transición son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

Durante el periodo de referencia, el fondo invirtió un 0.0% en inversiones sostenibles alineadas con la Taxonomía de la UE.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☐

Sí:

☐

En gas fósil

☐

En energía nuclear

☒

No

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el volumen de negocio que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las inversiones en inmovilizado (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los gastos de explotación (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

Este gráfico representa el 96.7% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

- **¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?**
A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.10% y la cuota de inversión en actividades habilitadoras era del 0.00%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.
- **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.01%.

 son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **42.76%** al cierre del periodo. Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 3.33%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

Nombre del producto: AMUNDI FUNDS
EMERGING MARKETS EQUITY CLIMATE

Identificador de la entidad jurídica:
213800ZEFGN1WHE3HL26

Características medioambientales y/o sociales

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☒ ☐ Sí	☒ ☐ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de 49.11% de inversiones sostenibles
☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ Realizó inversiones sostenibles con un objetivo social: _____	☒ con un objetivo social
	☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

El Subfondo promovió las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG del índice **MSCI Emerging Markets Climate Paris Aligned Index** (el "Índice de referencia") y del universo de inversión del subfondo. Para determinar la puntuación ESG del Subfondo, del Índice de referencia y del universo de inversión, el desempeño ESG se evalúa comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características ESG: medioambiental, social y de gobierno corporativo.

El universo de inversión se definió como el índice **MSCI Emerging Markets Index**, que no es un índice de referencia ESG. Además, el Subfondo se propuso reducir la intensidad de carbono de su cartera alineando la intensidad de su huella de carbono con la del Índice de referencia. El Índice de referencia es un índice de mercado amplio que evalúa e incluye a sus componentes en función de sus características medioambientales y, por tanto, se ajusta a las características medioambientales promovidas por el Subfondo.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del índice del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **0.367 (D)**.
- La calificación ESG media ponderada de la cartera es **0.084 (D)**

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

El indicador de sostenibilidad utilizado es la intensidad de la huella de carbono de la cartera, que se calcula como media ponderada por activos de la cartera y se compara con la intensidad de la huella de carbono ponderada por activos del Índice de referencia. En consecuencia, los títulos con una huella ecológica relativamente baja tenían más probabilidades de ser seleccionados en la cartera que los títulos con una huella ecológica relativamente alta.

- La intensidad media ponderada de la huella de carbono de la cartera es de **98.84**
- La intensidad media ponderada de la huella de carbono del Índice de referencia es de **110.55**

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 0.324 (C) y la calificación ESG media ponderada del Índice de referencia era de 0.044 (D). Al final del periodo anterior, la media ponderada de intensidad de carbono de la cartera era de 113.98 y el índice de referencia de intensidad media ponderada de carbono era de 128.61.

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- **¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:**

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el **mayor porcentaje de las inversiones** del producto financiero durante el periodo de referencia que es: **Desde el 01/07/2024 hasta el 30/06/2025**

Mayores inversiones	Sector	Subsector	País	% de activos
TAIWAN SEMICONDUCTOR-SP ADR	Tecnología de la información	Semiconductores y equipos de semiconductores	Taiwán	7.86%
AMUNDI MMST (USD)-OV	Finanzas	Fondos de inversión colectiva	Luxemburgo	6.62%
TENCENT HOLDINGS LTD	Servicios de comunicación	Medios de comunicación y entretenimiento	Islas Caimán	6.52%
NASPERS LTD-N SHS	Consumo discrecional	Consumo discrecional Distribución y venta minorista	Sudáfrica	3.20%
MAKEMYTRIP LTD	Consumo discrecional	Servicios al consumidor	Mauricio	2.54%
INFOSYS LTD-US-ADR	Tecnología de la información	Software y servicios	La India	2.45%
HDFC BANK LTD-ADR	Finanzas	Entidades bancarias	La India	2.42%
BGF RETAIL CO LTD	Consumo básico	Consumo básico Distribución y venta minorista	Corea	2.28%
HANA FINANCIAL HLDG	Finanzas	Entidades bancarias	Corea	2.11%
CIA SANEAMENTO BASICO DE SP	Suministros públicos	Suministro de agua	Brasil	2.02%
GRUPO FINANCIERO BANORTE-O	Finanzas	Entidades bancarias	México	1.96%
NETEASE INC	Servicios de comunicación	Medios de comunicación y entretenimiento	Islas Caimán	1.90%
SAMSUNG ELECTRONICS	Tecnología de la información	Equipo tecnológico y hardware	Corea	1.84%
SK HYNIX INC	Tecnología de la información	Semiconductores y equipos de semiconductores	Corea	1.62%
INTL CONTAINER TERM SVCS INC	Industria	Transporte	Filipinas	1.59%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El fondo invirtió el 49.11% en inversiones relacionadas con la sostenibilidad.

• ¿Cuál era la asignación de activos?

La asignación de activos describe la proporción de inversiones en activos específicos.

• ¿En qué sectores económicos se realizaron las inversiones?

Sector	Subsector	% de activos
Finanzas	Entidades bancarias	18.59%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades **habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de **transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las actividades **alineadas con la Taxonomía** se expresan como porcentaje de:

- el **volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las **inversiones en inmovilizado (CapEx)** que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los **gastos de explotación (OpEx)** que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 0.07% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☒ Sí:

☐ En gas fósil

☒ En energía nuclear

☐ No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

Este gráfico representa el 96.6% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

• **¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?**

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.00% y la cuota de inversión en actividades habilitadoras era del 0.00%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

• **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.01%.

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **40.15%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía

E, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 8.90%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

El objetivo de inversión sostenible se logra alineando los objetivos de reducción de la huella de carbono del fondo con el Índice MSCI Emerging Markets Climate Paris Aligned. La intensidad de la huella de carbono de la cartera se calcula como media ponderada por activos de la cartera y se compara con la intensidad de la huella de carbono ponderada por activos del Índice.

En consecuencia, los títulos con una huella ecológica relativamente baja tienen más probabilidades de ser seleccionados en la cartera que los títulos con una huella relativamente alta. Además, el fondo excluye empresas por su comportamiento controvertido y (o) productos controvertidos de acuerdo con la Política de Inversión Responsable.

- La intensidad media ponderada de la huella de carbono de la cartera es de **98.84**
- La intensidad media ponderada de la huella de carbono del Índice de referencia es de **110.56**

- **¿En qué se diferencia el índice de referencia de un índice de mercado general?**

Un índice de mercado general no evalúa ni incluye a sus componentes en función de las características medioambientales y, por lo tanto, no está alineado con las características medioambientales. El índice utilizado es un "índice de referencia alineado con el Acuerdo de París" que incorpora objetivos específicos relacionados con la reducción de emisiones y la transición a una economía con bajas emisiones de carbono a través de la selección y ponderación de los componentes subyacentes.

- **¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?**

- La calificación ESG media ponderada de la cartera es 0.367 (D).
- La calificación ESG media ponderada de la cartera es 0.084 (D)

- La intensidad media ponderada de la huella de carbono de la cartera es de 98.84
- La intensidad media ponderada de la huella de carbono del Índice de referencia es de 110.56

- **¿Cómo se comportó este producto financiero en comparación con el índice de referencia?**

El objetivo de inversión sostenible se logra alineando los objetivos de reducción de la huella de carbono del fondo con el Índice MSCI Emerging Markets Climate Paris Aligned. La intensidad de la huella de carbono de la cartera se calcula como media ponderada por activos de la cartera y se compara con la intensidad de la huella de carbono ponderada por activos del Índice.

En consecuencia, los títulos con una huella ecológica relativamente baja tienen más probabilidades de ser seleccionados en la cartera que los títulos con una huella relativamente alta. Además, el fondo excluye empresas por su comportamiento controvertido y (o) productos controvertidos de acuerdo con la Política de Inversión Responsable.

- La intensidad media ponderada de la huella de carbono de la cartera es de **98.84**
- La intensidad media ponderada de la huella de carbono del Índice de referencia es de **110.56**

- **¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?**

Un índice de mercado general no evalúa ni incluye a sus componentes en función de las características medioambientales y, por lo tanto, no está alineado con las características medioambientales. El índice utilizado es un "índice de referencia alineado con el Acuerdo de París" que incorpora objetivos específicos relacionados con la reducción de emisiones y la transición a una economía con bajas emisiones de carbono a través de la selección y ponderación de los componentes subyacentes.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

Nombre del producto: AMUNDI FUNDS
EMERGING MARKETS EQUITY GROWTH
OPPORTUNITIES

Identificador de la entidad jurídica:
549300ZD1W6MTTHOG211

Características medioambientales y/o sociales

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☒ ☐ Sí	☒ ☐ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de 36.26% de inversiones sostenibles
☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ Realizó inversiones sostenibles con un objetivo social: _____	☒ con un objetivo social
	☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión estment universe **80% MSCI EM (EMERGING MARKETS) + 20% MSCI FRONTIER MARKETS Index**. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **-0.023 (D)**.
- La calificación ESG media ponderada del universo de inversión ESG es **-0.079 (D)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 0.040 (D) y la calificación ESG media ponderada del universo de inversión ESG era de -0.130 (D).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales.

Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
TAIWAN SEMICONDUCTOR MANUFAC	Tecnología de la información	Semiconductores y equipos de semiconductores	Taiwán	9.13%
TENCENT HOLDINGS LTD	Servicios de comunicación	Medios de comunicación y entretenimiento	Islas Caimán	5.10%
SK HYNIX INC	Tecnología de la información	Semiconductores y equipos de semiconductores	Corea	2.57%

<i>Efectivo</i>	<i>Efectivo</i>	<i>0.87%</i>

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades habilitadoras permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de transición son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- **el volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- **las inversiones en inmovilizado (CapEx)** que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- **los gastos de explotación (OpEx)** que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 0.14% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☐

Sí:

☐

En gas fósil

☐

En energía nuclear

☒

No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

1. Alineación con la Taxonomía de las inversiones incluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	99.71%	99.77%	99.80%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	0.29%	0.23%	0.19%

2. Alineación con la Taxonomía de las inversiones, excluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	99.71%	99.76%	99.80%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	0.29%	0.23%	0.20%

Este gráfico representa el 99.4% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- **¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?**

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.00% y la cuota de inversión en actividades habilitadoras era del 0.14%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.01%.

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **29.2%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 7.10%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

Nombre del producto: AMUNDI FUNDS
RUSSIAN EQUITY

Identificador de la entidad jurídica:
549300SIBXZF8M2U7K58

Características medioambientales y/o sociales

El subfondo no cumplió el compromiso de estar alineado al menos en un 75% con las características de E/S y no se comprometió a tener un mínimo de inversiones sostenibles debido a la suspensión del cálculo del valor liquidativo en el contexto de la invasión rusa de Ucrania.

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☒ ☐ Sí	☒ ☐ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____ ☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ Realizó inversiones sostenibles con un objetivo social: _____	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de <u>8.49%</u> de inversiones sostenibles ☐ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo social ☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **MSCI RUSSIA 10/40 (OFFICIAL)**. Para determinar la puntuación ESG del Producto y el índice, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El índice es un índice de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo.

No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del índice del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **-0.529 (E)**
- La calificación ESG media ponderada de la cartera es **-1.943 (F)**

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de -0.511 (E) y la calificación ESG media ponderada del índice de referencia era de -1.862 (F).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que

incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
HALYK SAVINGS BK GDR	Finanzas	Entidades bancarias	Kazajistán	8.40%
CIAN PLC-ADR DLST	Servicios de comunicación	Medios de comunicación y entretenimiento	Chipre	1.07%
GAZPROM-RUB	Energía	Petróleo, gas y combustibles	Rusia	0.00%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El subfondo no cumplió el compromiso de estar alineado al menos en un 75% con las características de E/S y no se comprometió a tener un mínimo de inversiones sostenibles debido a la suspensión del cálculo del valor liquidativo en el contexto de la invasión rusa de Ucrania.

¿Cuál era la asignación de activos?

N.º 1 Alineación con características E/S incluye las inversiones del producto financiero utilizadas para alcanzar las características medioambientales o sociales promovidas por el producto financiero.

N.º 2 Otros incluye el resto de inversiones del producto financiero que no están alineadas con las características medioambientales o sociales, ni están calificadas como inversiones sostenibles.

La categoría **N.º 1 Alineado con las características E/S** abarca:

- La subcategoría **N.º 1A Sostenible** abarca las inversiones sostenibles desde el punto de vista medioambiental y social.
- La subcategoría **N.º 1B Otras características E/S** abarca las inversiones alineadas con las características medioambientales o sociales que no se califican como inversiones sostenibles.

La asignación de activos describe la proporción de inversiones en activos específicos.

• ¿En qué sectores económicos se realizaron las inversiones?

Sector	Subsector	% de activos
Finanzas	Entidades bancarias	8.40%
Servicios de comunicación	Medios de comunicación y entretenimiento	1.07%
Energía	Petróleo, gas y combustibles	0.00%
Efectivo	Efectivo	90.53%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades habilitadoras permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de transición son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

Durante el periodo de referencia, el fondo invirtió un 0.0% en inversiones sostenibles alineadas con la Taxonomía de la UE.

• ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☐

Sí:

☐

En gas fósil

☐

En energía nuclear

☒

No

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- el volumen de negocio que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- las inversiones en inmovilizado (CapEx) que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- los gastos de explotación (OpEx) que reflejan las actividades operativas ecológicas de las empresas participadas.

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

• ¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.00% y la cuota de inversión en actividades habilitadoras era del 0.00%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

• ¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.00%.

son inversiones sostenibles con un objetivo medioambiental que no tienen en cuenta los criterios de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

Este producto no se comprometió a realizar inversiones sostenibles desde el punto de vista medioambiental durante el periodo.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 8.49%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Este producto no tiene un Índice de referencia ESG.

- **¿En qué se diferencia el índice de referencia de un índice de mercado general?**

Este producto no tiene un Índice de referencia ESG.

Nombre del producto: AMUNDI FUNDS
SBI FM INDIA EQUITY

Identificador de la entidad jurídica:
529900VCX77NSWARZC34

Características medioambientales y/o sociales

¿Tenía este producto financiero un objetivo de inversión sostenible?

Sí

Realizó inversiones sostenibles con un objetivo medioambiental: _____

en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

Realizó inversiones sostenibles con un objetivo social: _____

No

Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de **38.21%** de inversiones sostenibles

con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE

con un objetivo social

Promovió características E/S, pero **no realizó inversiones sostenibles**

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

El Subfondo promueve las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG del índice MSCI India 10/40. Para determinar la puntuación ESG del Subfondo y del Índice de referencia, el desempeño ESG se evalúa comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características ESG: medioambiental, social y de gobierno corporativo. El Índice de referencia es un índice de mercado general que no evalúa ni incluye componentes en función de características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el Subfondo. No se ha designado ningún Índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

- ¿Cómo se comportaron los indicadores de sostenibilidad?

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

1202

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es -0.066 (D)
- La calificación ESG media ponderada del índice de referencia es -0.289 (D)

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- **Dimensión medioambiental:** analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- **Dimensión social:** analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- **Dimensión de gobierno corporativo:** Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

- ***¿...y en comparación con periodos anteriores?***

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de -0.117 (D) y la calificación ESG media ponderada del Índice de referencia era de -0.38 (D).

- ***¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?***

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
HDFC BANK LIMITED	Finanzas	Entidades bancarias	La India	9.36%
RELIANCE INDUSTRIES LTD	Energía	Petróleo, gas y combustibles	La India	7.62%
ICICI BANK LTD	Finanzas	Entidades bancarias	La India	7.50%
INFOSYS LTD	Tecnología de la información	Software y servicios	La India	5.07%
LARSEN & TOUBRO LTD	Industria	Bienes de capital	La India	4.79%
MARUTI SUZUKI INDIA LTD	Consumo discrecional	Automóviles y componentes	La India	4.03%
AXIS BANK LTD	Finanzas	Entidades bancarias	La India	3.57%
KOTAK MAHINDRA BANK LTD	Finanzas	Entidades bancarias	La India	3.55%
TATA CONSULTANCY SVS	Tecnología de la información	Software y servicios	La India	3.44%
ULTRATECH CEMENT LTD	Materiales	Materiales de construcción	La India	2.43%
STATE BANK OF INDIA LTD	Finanzas	Entidades bancarias	La India	2.30%
EICHER MOTORS LTD	Consumo discrecional	Automóviles y componentes	La India	2.13%
HDFC LIFE INSURANCE CO LTD	Finanzas	Seguros	La India	2.05%
POWER GRID CORP OF INDIA LTD	Suministros públicos	Suministro eléctrico	La India	1.97%
TIMKEN INDIA LTD	Industria	Bienes de capital	La India	1.96%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El fondo invirtió el 38.21% en inversiones relacionadas con la sostenibilidad.

• ¿Cuál era la asignación de activos?

La asignación de activos describe la proporción de inversiones en activos específicos.

• ¿En qué sectores económicos se realizaron las inversiones?

Sector	Subsector	% de activos
Finanzas	Entidades bancarias	26.28%
Industria	Bienes de capital	11.25%
Tecnología de la información	Software y servicios	10.31%
Consumo discrecional	Automóviles y componentes	9.84%
Energía	Petróleo, gas y combustibles	7.62%
Materiales	Materiales de construcción	4.09%
Materiales	Metales y minería	3.48%

<i>Suministros públicos</i>	<i>Suministro eléctrico</i>	3.21%
<i>Inmobiliario</i>	<i>Gestión y promoción inmobiliaria</i>	2.75%
<i>Materiales</i>	<i>Productos químicos</i>	2.68%
<i>Finanzas</i>	<i>Seguros</i>	2.05%
<i>Finanzas</i>	<i>Servicios financieros</i>	1.91%
<i>Consumo discrecional</i>	<i>Consumo discrecional Distribución y venta minorista</i>	1.82%
<i>Consumo básico</i>	<i>Alimentos, bebidas y tabaco</i>	1.78%
<i>Asistencia sanitaria</i>	<i>Productos farmacéuticos Biotecnología y ciencias de la salud</i>	1.62%
<i>Consumo discrecional</i>	<i>Bienes de consumo duradero y confección</i>	1.47%
<i>Consumo discrecional</i>	<i>Servicios al consumidor</i>	1.29%
<i>Consumo básico</i>	<i>Productos domésticos y personales</i>	1.28%
<i>Asistencia sanitaria</i>	<i>Equipo y servicios sanitarios</i>	1.01%
<i>Industria</i>	<i>Servicios comerciales y profesionales</i>	1.00%
<i>Forex</i>	<i>Forex</i>	-0.00%
<i>Otros</i>	<i>Otros</i>	-3.26%
<i>Efectivo</i>	<i>Efectivo</i>	6.52%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades habilitadoras permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de transición son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- **el volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- **las inversiones en inmovilizado (CapEx)** que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- **los gastos de explotación (OpEx)** que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 0.14% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☐

Sí:

☐

En gas fósil

☐

En energía nuclear

☒

No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

1. Alineación con la Taxonomía de las inversiones incluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	99.52%	99.87%	99.86%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	0.48%	0.13%	0.14%

2. Alineación con la Taxonomía de las inversiones, excluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	99.52%	99.87%	99.86%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	0.48%	0.13%	0.14%

Este gráfico representa el 100.0% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- **¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?**

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.00% y la cuota de inversión en actividades habilitadoras era del 0.14%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 0.00%.

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **15.95%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 22.11%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

Nombre del producto: AMUNDI FUNDS INDIA EQUITY CONTRA

Identificador de la entidad jurídica: 2138003DI3YLX6A5FL63

Características medioambientales y/o sociales

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☒ Sí	☒ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de 38.11% de inversiones sostenibles
☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☐ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ Realizó inversiones sostenibles con un objetivo social: _____	☒ con un objetivo social
	☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

El Subfondo promovió las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG del índice S&P BSE 500 Total Return (el "Índice de referencia"). Para determinar la puntuación ESG del Subfondo y del Índice de referencia, el desempeño ESG se evaluó comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características ESG: medioambiental, social y de gobierno corporativo. El Índice de referencia es un índice de mercado general que no evalúa ni incluye componentes en función de características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el Subfondo. No se ha designado ningún Índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

● **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **0.111 (D)**.
- La calificación ESG media ponderada del índice de referencia es **-0.294 (D)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

● **¿...y en comparación con periodos anteriores?**

Este es el primer informe periódico del SFDR elaborado para este subfondo.

● **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener un Consejo de Administración con una diversidad que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: **Desde el 01/07/2024 hasta el 30/06/2025**

Mayores inversiones	Sector	Subsector	País	% de activos
RELIANCE INDUSTRIES LTD	Energía	Petróleo, gas y combustibles	La India	7.11%
HDFC BANK LIMITED	Finanzas	Entidades bancarias	La India	7.05%
KOTAK MAHINDRA BANK LTD	Finanzas	Entidades bancarias	La India	4.59%
NUVOCO VISTAS CORP LTD	Materiales	Materiales de construcción	La India	3.49%
AXIS BANK LTD	Finanzas	Entidades bancarias	La India	3.43%
TECH MAHINDRA LTD	Tecnología de la información	Software y servicios	La India	3.38%
BIOCON LTD	Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	La India	2.91%
BANK OF BARODA	Finanzas	Entidades bancarias	La India	2.77%
MAHINDRA LIFESPACE DEVELOPER	Inmobiliario	Gestión y promoción inmobiliaria	La India	2.75%
INFOSYS LTD	Tecnología de la información	Software y servicios	La India	2.58%
MARUTI SUZUKI INDIA LTD	Consumo discrecional	Automóviles y componentes	La India	2.36%
DALMIA BHARAT LTD	Materiales	Materiales de construcción	La India	2.35%
TUBE INVESTMENTS OF INDIA LT	Consumo discrecional	Automóviles y componentes	La India	2.34%
BAJAJ FINSERV LTD	Finanzas	Servicios financieros	La India	2.16%
WENDT INDIA LTD	Industria	Bienes de capital	La India	2.16%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El fondo invirtió el 38.11% en inversiones relacionadas con la sostenibilidad.

¿Cuál era la asignación de activos?

N.º 1 Alineación con características E/S incluye las inversiones del producto financiero utilizadas para alcanzar las características medioambientales o sociales promovidas por el producto financiero.

N.º 2 Otros incluye el resto de inversiones del producto financiero que no están alineadas con las características medioambientales o sociales, ni están calificadas como inversiones sostenibles.

La categoría **N.º 1 Alineado con las características E/S** abarca:

- La subcategoría **N.º 1A Sostenible** abarca las inversiones sostenibles desde el punto de vista medioambiental y social.
- La subcategoría **N.º 1B Otras características E/S** abarca las inversiones alineadas con las características medioambientales o sociales que no se califican como inversiones sostenibles.

La asignación de activos describe la proporción de inversiones en activos específicos.

¿En qué sectores económicos se realizaron las inversiones?

Sector	Subsector	% de activos
Finanzas	Entidades bancarias	20.57%
Energía	Petróleo, gas y combustibles	9.14%
Consumo discrecional	Automóviles y componentes	8.52%
Tecnología de la información	Software y servicios	7.77%
Materiales	Productos químicos	6.00%
Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	5.88%
Materiales	Materiales de construcción	5.84%

<i>Finanzas</i>	<i>Servicios financieros</i>	<i>4.62%</i>
<i>Inmobiliario</i>	<i>Gestión y promoción inmobiliaria</i>	<i>4.32%</i>
<i>Industria</i>	<i>Bienes de capital</i>	<i>3.66%</i>
<i>Consumo discrecional</i>	<i>Bienes de consumo duradero y confección</i>	<i>2.27%</i>
<i>Consumo discrecional</i>	<i>Servicios al consumidor</i>	<i>2.15%</i>
<i>Finanzas</i>	<i>Seguros</i>	<i>2.05%</i>
<i>Consumo básico</i>	<i>Alimentos, bebidas y tabaco</i>	<i>2.02%</i>
<i>Suministros públicos</i>	<i>Suministro eléctrico</i>	<i>2.00%</i>
<i>Materiales</i>	<i>Metales y minería</i>	<i>1.85%</i>
<i>Consumo básico</i>	<i>Productos domésticos y personales</i>	<i>1.64%</i>
<i>Inmobiliario</i>	<i>REIT</i>	<i>1.55%</i>
<i>Suministros públicos</i>	<i>Suministro de gas</i>	<i>1.33%</i>
<i>Servicios de comunicación</i>	<i>Telecomunicaciones</i>	<i>0.98%</i>
<i>Consumo básico</i>	<i>Consumo básico Distribución y venta minorista</i>	<i>0.93%</i>
<i>Otros</i>	<i>Otros</i>	<i>-1.84%</i>
<i>Efectivo</i>	<i>Efectivo</i>	<i>6.78%</i>

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades **habilitadoras** permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de **transición** son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las actividades **alineadas con la Taxonomía** se expresan como porcentaje de:

- **el volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- **las inversiones en inmovilizado (CapEx)** que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- **los gastos de explotación (OpEx)** que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

Durante el periodo de referencia, el fondo invirtió un 0.0% en inversiones sostenibles alineadas con la Taxonomía de la UE.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☐

Sí:

☐

En gas fósil

☐

En energía nuclear

☒

No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

1. Alineación con la Taxonomía de las inversiones incluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	100.00%	100.00%	100.00%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	0.00%	0.00%	0.00%

2. Alineación con la Taxonomía de las inversiones, excluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	100.00%	100.00%	100.00%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía: Nuclear	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	0.00%	0.00%	0.00%

Este gráfico representa el 99.8% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- **¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?**

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.00% y la cuota de inversión en actividades habilitadoras era del 0.00%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Este es el primer informe periódico del SFDR elaborado para este subfondo.

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **15.43%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 22.68%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

Nombre del producto: AMUNDI FUNDS
EUROLAND EQUITY DYNAMIC MULTI
FACTORS

Identificador de la entidad jurídica:
549300GS11SOXBNLON64

Características medioambientales y/o sociales

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☒ ☐ Sí	☒ ☐ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de <u>75.19%</u> de inversiones sostenibles
☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ Realizó inversiones sostenibles con un objetivo social: _____	☒ con un objetivo social
	☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión Índice MSCI EMU. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

• **¿Cómo se comportaron los indicadores de sostenibilidad?**

Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.

El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **1.157 (C)**.
- La calificación ESG media ponderada del universo de inversión ESG es **1.072 (C)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• **¿...y en comparación con periodos anteriores?**

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 1.109 (C) y la calificación ESG media ponderada del universo de inversión ESG era de 1.03 (C).

• **¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?**

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
ASML HOLDING NV	Tecnología de la información	Semiconductores y equipos de semiconductores	Países Bajos	4.86%
SAP SE / XETRA	Tecnología de la información	Software y servicios	Alemania	4.75%
ALLIANZ SE-REG	Finanzas	Seguros	Alemania	3.59%
BANCO SANTANDER SA MADRID	Finanzas	Entidades bancarias	España	3.29%
TOTALENERGIES SE PARIS	Energía	Petróleo, gas y combustibles	Francia	3.05%

¿Cuál era el porcentaje de inversiones relacionadas con la sostenibilidad?

El fondo invirtió el 75.19% en inversiones relacionadas con la sostenibilidad.

• ¿Cuál era la asignación de activos?

La asignación de activos describe la proporción de inversiones en activos específicos.

• ¿En qué sectores económicos se realizaron las inversiones?

Sector	Subsector	% de activos
Industria	Bienes de capital	16.83%
Finanzas	Entidades bancarias	14.02%
Finanzas	Seguros	7.78%
Tecnología de la información	Semiconductores y equipos de semiconductores	7.21%
Tecnología de la información	Software y servicios	6.21%
Energía	Petróleo, gas y combustibles	4.48%

<i>Efectivo</i>	<i>Efectivo</i>	<i>0.12%</i>

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades habilitadoras permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de transición son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- **el volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- **las inversiones en inmovilizado (CapEx)** que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- **los gastos de explotación (OpEx)** que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 4.81% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☒ Sí:

☒ En gas fósil

☒ En energía nuclear

☐ No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- **¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?**

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.22% y la cuota de inversión en actividades habilitadoras era del 4.53%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 2.05%.

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **64.61%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la

mía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 5.77%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

Nombre del producto: AMUNDI FUNDS
EUROLAND EQUITY RISK PARITY

Identificador de la entidad jurídica:
222100TM3VJBCM4GPK90

Características medioambientales y/o sociales

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☒ ☐ Sí	☒ ☐ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de 67.67% de inversiones sostenibles
☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ Realizó inversiones sostenibles con un objetivo social: _____	☒ con un objetivo social
	☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión Índice MSCI EMU. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

- ¿Cómo se comportaron los indicadores de sostenibilidad?
Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.
El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **1.085 (C)**.
- La calificación ESG media ponderada del universo de inversión ESG es **1.072 (C)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• ***¿...y en comparación con periodos anteriores?***

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 1.057 (C) y la calificación ESG media ponderada del universo de inversión ESG era de 1.03 (C).

• ***¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?***

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
TOTALENERGIES SE PARIS	Energía	Petróleo, gas y combustibles	Francia	1.31%

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades habilitadoras permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de transición son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- **el volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- **las inversiones en inmovilizado (CapEx)** que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- **los gastos de explotación (OpEx)** que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 6.39% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

Sí:

En gas fósil

En energía nuclear

No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

1. Alineación con la Taxonomía de las inversiones incluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	87.29%	82.61%	89.58%
■ Alineado con la Taxonomía: Gas fósil	0.03%	0.10%	0.03%
■ Alineado con la Taxonomía: Nuclear	0.52%	0.19%	0.71%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	12.16%	17.10%	9.69%

2. Alineación con la Taxonomía de las inversiones, excluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	87.59%	82.95%	89.81%
■ Alineado con la Taxonomía: Gas fósil	0.03%	0.10%	0.03%
■ Alineado con la Taxonomía: Nuclear	0.29%	0.15%	0.33%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	12.09%	16.80%	9.83%

Este gráfico representa el 98.9% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- **¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?**

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 1.17% y la cuota de inversión en actividades habilitadoras era del 5.30%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 3.87%.

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **48.99%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 12.29%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartiéndose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un índice de referencia ESG y se compara con su universo de referencia para todos los asuntos medioambientales y sociales.

Consulte la pregunta relacionada con el desempeño de los indicadores de sostenibilidad.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

Nombre del producto: AMUNDI FUNDS
EUROPEAN EQUITY CONSERVATIVE

Identificador de la entidad jurídica:
529900CA12DQSLAWW128

Características medioambientales y/o sociales

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☒ Sí	☒ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de <u>70.58%</u> de inversiones sostenibles
☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE	☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE
☐ Realizó inversiones sostenibles con un objetivo social: _____	☒ con un objetivo social
	☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión MSCI Europe Index. Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

- ¿Cómo se comportaron los indicadores de sostenibilidad?
Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.
El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **1.019 (C)**.
- La calificación ESG media ponderada del universo de inversión ESG es **0.828 (C)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• ***¿...y en comparación con periodos anteriores?***

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 1.054 (C) y la calificación ESG media ponderada del universo de inversión ESG era de 0.798 (C).

• ***¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?***

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.

¿Cómo tuvo en cuenta este producto financiero las principales incidencias adversas sobre los factores de sostenibilidad?

El producto tiene en cuenta todas las Principales Incidencias Adversas obligatorias según el Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 que se aplica a la estrategia del producto y se basa en una combinación de políticas de exclusión (normativas y sectoriales), enfoques de implicación y voto:

- **Exclusión:** Amundi ha definido reglas de exclusión normativas, basadas en la actividad y sectoriales que abarcan algunos de los principales indicadores adversos de sostenibilidad enumerados por el Reglamento de Divulgación.
- **Integración de factores ESG:** Amundi ha adoptado normas mínimas de integración ESG aplicadas por defecto a sus fondos de capital variable y gestión activa (exclusión de emisores con calificación G y mejor puntuación media ponderada ESG superior a la del índice de referencia aplicable). Los 38 criterios utilizados en el enfoque de calificación ESG de Amundi también se diseñaron para tener en cuenta las principales incidencias en los factores de sostenibilidad, así como la calidad de la mitigación realizada, que también se tienen en cuenta a ese respecto.
- **Compromiso:** La interacción es un proceso continuo y orientado a un fin, cuyo objetivo es influir en las actividades o el comportamiento de las empresas participadas. El objetivo de las actividades de interacción puede clasificarse en dos categorías: comprometer a un emisor a mejorar la forma en que integra la dimensión medioambiental y social, comprometer a un emisor a mejorar su impacto en cuestiones medioambientales, sociales y relacionadas con los derechos humanos u otras cuestiones de sostenibilidad que son importantes para la sociedad y la economía mundial.
- **Voto:** La política de voto de Amundi responde a su análisis integral de todas las cuestiones a largo plazo que pueden influir en la creación de valor, incluidas cuestiones ESG sustanciales. Si desea obtener más información, consulte la Política de Voto de Amundi.
- **Seguimiento de controversias:** Amundi ha desarrollado un sistema de seguimiento de controversias que se basa en tres proveedores de datos externos para realizar un seguimiento sistemático de las controversias y su nivel de gravedad. Este enfoque cuantitativo se enriquece después con una evaluación en profundidad de cada controversia grave, dirigida por analistas ESG y la revisión periódica de su evolución. Este enfoque se aplica a todos los fondos de Amundi.

Si desea más información sobre cómo se tienen en cuenta los indicadores obligatorios de Principales Incidencias Adversas, consulte la Declaración de divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros de Amundi, disponible en www.amundi.com.

¿Cuáles fueron las principales inversiones de este producto financiero?

La lista incluye las inversiones que constituyen el mayor porcentaje de las inversiones del producto financiero durante el periodo de referencia que es: Desde el 01/07/2024 hasta el 30/06/2025

Mayores inversiones	Sector	Subsector	País	% de activos
NOVARTIS AG-REG	Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	Suiza	2.42%
NATIONAL GRID PLC	Suministros públicos	Multiservicios	Reino Unido	2.20%
ROCHE HLDG AG-GENUSS	Asistencia sanitaria	Productos farmacéuticos Biotecnología y ciencias de la salud	Suiza	2.13%
DANONE	Consumo básico	Alimentos, bebidas y tabaco	Francia	2.11%
SWISSCOM AG-REG	Servicios de comunicación	Telecomunicaciones	Suiza	2.04%
TOTALENERGIES SE PARIS	Energía	Petróleo, gas y combustibles	Francia	2.01%

<i>Otros</i>	<i>Otros</i>	<i>0.00%</i>
<i>Efectivo</i>	<i>Efectivo</i>	<i>1.52%</i>

Para estar alineados con la Taxonomía de la UE, los criterios para el **gas fósil** incluyen limitaciones de emisiones y cambio a energías totalmente renovables o combustibles con bajas emisiones de carbono para finales de 2035. En el caso de la **energía nuclear**, los criterios incluyen normas exhaustivas de seguridad y gestión de residuos.

Las actividades habilitadoras permiten directamente que otras actividades contribuyan de forma sustancial a un objetivo medioambiental.

Las actividades de transición son actividades para las que aún no se dispone de alternativas con bajas emisiones de carbono y, entre otros, tienen niveles de emisión de gases de efecto invernadero correspondientes al mejor rendimiento.

Las actividades alineadas con la Taxonomía se expresan como porcentaje de:

- **el volumen de negocio** que refleja la proporción de ingresos procedentes de actividades ecológicas de las empresas participadas
- **las inversiones en inmovilizado (CapEx)** que muestran las inversiones ecológicas realizadas por las empresas participadas, por ejemplo, para la transición a una economía verde.
- **los gastos de explotación (OpEx)** que reflejan las actividades operativas ecológicas de las empresas participadas.

¿En qué medida las inversiones sostenibles con un objetivo medioambiental estaban alineadas con la Taxonomía de la UE?

El fondo promueve características tanto medioambientales como sociales. Aunque el fondo no se comprometió a realizar inversiones alineadas con la Taxonomía de la UE, durante el periodo contable el fondo invirtió un 2.60% en inversiones sostenibles alineadas con la Taxonomía de la UE. Estas inversiones contribuyeron a los objetivos de mitigación del cambio climático de la Taxonomía de la UE. La alineación de las empresas participadas con los objetivos de la Taxonomía de la UE antes mencionados se cuantifica utilizando datos sobre el volumen de negocio (o los ingresos) y/o el uso del producto obtenido de bonos verdes. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- ¿Invirtió el producto financiero en actividades relacionadas con el gas fósil y/o la energía nuclear que se ajustaban a la Taxonomía de la UE¹?

☒

Sí:

☐

En gas fósil

☒

En energía nuclear

☐

No

Los gráficos siguientes muestran en verde el porcentaje de inversiones que estaban alineadas con la Taxonomía de la UE. Como no existe una metodología adecuada para determinar la alineación con la Taxonomía de la deuda pública*, el primer gráfico muestra la alineación con la Taxonomía en relación con todas las inversiones del producto financiero, incluida la deuda pública, mientras que el segundo gráfico muestra la alineación con la Taxonomía solo en relación con las inversiones del producto financiero distintas de la deuda pública.

1. Alineación con la Taxonomía de las inversiones incluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	95.04%	93.32%	95.11%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía: Nuclear	0.28%	0.06%	0.38%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	4.68%	6.61%	4.51%

2. Alineación con la Taxonomía de las inversiones, excluida la deuda pública*

	Gastos de explotación	Inversiones en inmovilizado	Volumen de negocio
■ No alineado con la Taxonomía	95.17%	93.46%	95.20%
■ Alineado con la Taxonomía: Gas fósil	0.00%	0.00%	0.00%
■ Alineado con la Taxonomía: Nuclear	0.19%	0.05%	0.25%
■ Alineado con la Taxonomía [sin gas ni energía nuclear]	4.64%	6.49%	4.55%

Este gráfico representa el 99.3% del total de las inversiones.

* A efectos de estos gráficos, la "deuda pública" abarca todas las exposiciones a deuda pública

¹Las actividades relacionadas con el gas fósil y/o la energía nuclear solo se ajustarán a la Taxonomía de la UE cuando contribuyan a limitar el cambio climático ("mitigación del cambio climático") y no causen un perjuicio significativo a ningún objetivo de la Taxonomía de la UE. Los criterios completos para las actividades económicas de gases fósiles y la energía nuclear que se ajustan a la Taxonomía de la UE se establecen en el Reglamento Delegado (UE) 2022/1214 de la Comisión.

- **¿Cuál era el porcentaje de inversiones en actividades de transición y habilitadoras?**

A 30/06/2025, utilizando como indicador el volumen de negocio y/o los datos sobre el uso del producto obtenido de bonos verdes, la cuota de inversión del fondo en actividades de transición era del 0.30% y la cuota de inversión en actividades habilitadoras era del 3.27%. El porcentaje declarado de alineación de las inversiones del fondo con la Taxonomía de la UE no ha sido auditado por los auditores del fondo ni por terceros.

- **¿Cómo era el porcentaje de inversiones alineadas con la Taxonomía de la UE respecto de los periodos de referencia anteriores?**

Al cierre del periodo anterior, el porcentaje de inversiones alineadas con la Taxonomía de la UE era del 3.03%.

 son inversiones sostenibles con un objetivo medioambiental que **no tienen en cuenta los criterios** de las actividades económicas sostenibles desde el punto de vista medioambiental en virtud del Reglamento (UE) 2020/852.

¿Cuál era el porcentaje de inversiones sostenibles con un objetivo medioambiental no alineadas con la Taxonomía de la UE?

La cuota de inversiones sostenibles con un objetivo medioambiental no alineado con la Taxonomía fue del **57.95%** al cierre del periodo.

Esto se debe al hecho de que algunos emisores se consideran inversiones sostenibles con arreglo al Reglamento sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros (SFDR), pero presentan una parte de actividades que no se ajustan a las normas de la Taxonomía de la UE, o para las que aún no se dispone de datos con vistas a realizar una evaluación conforme a la Taxonomía de la UE.

¿Cuál era el porcentaje de inversiones sostenibles desde el punto de vista social?

El porcentaje de inversiones sostenibles desde el punto de vista social al cierre del periodo era del 10.03%.

¿Qué inversiones se incluían en "otros", cuál era su finalidad y existían salvaguardias medioambientales o sociales mínimas?

El apartado "N.º 2 Otros" incluye el efectivo y otros instrumentos mantenidos con fines de liquidez y gestión del riesgo de la cartera. En el caso de los bonos y acciones sin calificación, se aplican unas salvaguardias medioambientales y sociales mínimas a través de un cribado de controversias respecto de los Principios del Pacto Mundial de Naciones Unidas. También puede incluir valores sin calificación ESG para los que no se disponga de los datos necesarios para cuantificar de la consecución de las características medioambientales o sociales.

¿Qué medidas se han tomado para alcanzar las características medioambientales y/o sociales durante el periodo de referencia?

Los indicadores de sostenibilidad están continuamente disponibles en el sistema de gestión de carteras, lo que permite a los gestores de carteras evaluar el impacto de sus decisiones de inversión.

Estos indicadores se integran en el marco de control de AMUNDI, repartándose las responsabilidades entre el primer nivel de controles, realizado por los propios equipos de Inversión, y el segundo nivel de controles, realizado por los equipos de Riesgos, que supervisan de forma continua el cumplimiento de las características medioambientales o sociales promovidas por el fondo.

Además, la Política de Inversión Responsable de AMUNDI establece un enfoque activo de interacción que promueve el diálogo con las empresas participadas, incluidas las que forman parte de la cartera de este producto. Nuestro Informe Anual de Interacción, disponible en <https://about.amundi.com/esg-documentation>, ofrece información detallada sobre esta iniciativa y sus resultados

¿Cómo se comportó este producto financiero en comparación con el índice de referencia?

Los índices de referencia son índices para cuantificar si el producto financiero alcanza las características medioambientales o sociales que promueven.

Este producto no tiene un Índice de referencia ESG.

- ***¿En qué se diferencia el índice de referencia de un índice de mercado general?***

Este producto no tiene un índice de referencia ESG y se compara con su universo de referencia para todos los asuntos medioambientales y sociales.

Consulte la pregunta relacionada con el desempeño de los indicadores de sostenibilidad.

- ***¿Cómo se comportó este producto financiero con respecto a los indicadores de sostenibilidad para determinar la alineación del índice de referencia con las características medioambientales o sociales promovidas?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de referencia?***

Este producto no tiene un Índice de referencia ESG.

- ***¿Cómo se comportó este producto financiero en comparación con el índice de mercado general?***

Este producto no tiene un Índice de referencia ESG.

Divulgación periódica para los productos financieros contemplados en el Artículo 8, apartados 1, 2 y 2a, del Reglamento (UE) 2019/2088 y en el Artículo 6, apartado primero, del Reglamento (UE) 2020/852

Una inversión sostenible es una inversión en una actividad económica que contribuya a un objetivo medioambiental o social, siempre que la inversión no cause un perjuicio significativo para ningún objetivo medioambiental o social y que las empresas participadas sigan prácticas de buen gobierno.

La Taxonomía de la UE es un sistema de clasificación establecido en el Reglamento (UE) 2020/852, que determina una lista de actividades económicas sostenibles desde el punto de vista medioambiental. Dicho Reglamento no incluye una lista de actividades económicas socialmente sostenibles. Las inversiones sostenibles con un objetivo medioambiental podrían estar alineadas con la Taxonomía o no.

Nombre del producto: AMUNDI FUNDS
EUROPEAN EQUITY DYNAMIC MULTI FACTORS

Identificador de la entidad jurídica:
5493008YFOWLJMAHCR51

Características medioambientales y/o sociales

¿Tenía este producto financiero un objetivo de inversión sostenible?	
☒ Sí	☒ No
☐ Realizó inversiones sostenibles con un objetivo medioambiental: _____ ☐ en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☐ Realizó inversiones sostenibles con un objetivo social: _____	☒ Promovió características Medioambientales/Sociales (E/S) y, aunque no tiene como objetivo una inversión sostenible, tenía un porcentaje de 71.15% de inversiones sostenibles ☒ con un objetivo medioambiental en actividades económicas que se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo medioambiental en actividades económicas que no se consideran sostenibles desde el punto de vista medioambiental según la Taxonomía de la UE ☒ con un objetivo social ☐ Promovió características E/S, pero no realizó inversiones sostenibles

¿En qué medida se cumplieron las características medioambientales y/o sociales promovidas por este producto financiero?

Durante el ejercicio, el producto promovió continuamente las características medioambientales y/o sociales con el objetivo de lograr una puntuación ESG superior a la puntuación ESG de su universo de inversión **MSCI EUROPE (15) (OFFICIAL)** Para determinar la puntuación ESG del Producto y el universo de inversión ESG, el desempeño ESG se evaluó continuamente comparando el desempeño medio de un título frente al sector del emisor del título, con respecto a cada una de las tres características: medioambiental, social y de gobierno corporativo.

El universo de inversión es un universo de mercado general que no evalúa ni incluye componentes basados en características medioambientales y/o sociales y, por lo tanto, no pretende ser coherente con las características promovidas por el fondo. No se ha designado ningún índice de referencia ESG.

Los indicadores de sostenibilidad cuantifican cómo se alcanzan las características medioambientales o sociales promovidas por el producto financiero.

- ¿Cómo se comportaron los indicadores de sostenibilidad?
Amundi ha desarrollado su propio proceso interno de calificación ESG basado en el enfoque "Best-in-class". Las calificaciones adaptadas a cada sector de actividad pretenden evaluar la dinámica en la que operan las empresas.
El indicador de sostenibilidad utilizado es la puntuación ESG del Producto que se mide con respecto a la puntuación ESG del universo de inversión ESG del Producto.

Al cierre del periodo:

- La calificación ESG media ponderada de la cartera es **1.000 (C)**.
- La calificación ESG media ponderada del universo de inversión ESG es **0.828 (C)**.

La calificación ESG de Amundi utilizada para determinar la puntuación ESG es una puntuación cuantitativa ESG traducida en siete grados, que van de la A (el universo de mejores puntuaciones) a la G (la peor). En la escala de Calificación ESG de Amundi, los títulos pertenecientes a la lista de exclusión corresponden a una G. En el caso de los emisores corporativos, el desempeño ESG se evalúa en general y a nivel de criterios relevantes comparándolo con el desempeño medio de su sector, a través de la combinación de las tres dimensiones ESG:

- Dimensión medioambiental: analiza la capacidad de los emisores para controlar su impacto medioambiental directo e indirecto, limitando su consumo de energía, reduciendo sus emisiones de efecto invernadero, luchando contra el agotamiento de los recursos y protegiendo la biodiversidad.
- Dimensión social: analiza el funcionamiento de un emisor en dos conceptos distintos: su estrategia para desarrollar su capital humano y el respeto de los derechos humanos en general;
- Dimensión de gobierno corporativo: Evalúa la capacidad del emisor para garantizar la base de un marco de gobierno corporativo eficaz y generar valor a largo plazo.

La metodología aplicada por la calificación ESG de Amundi utiliza 38 criterios que son genéricos (comunes a todas las empresas independientemente de su actividad) o sectoriales, que se ponderan según el sector y se consideran en términos de su impacto en la reputación, la eficiencia operativa y la normativa con respecto a un emisor. Las calificaciones ESG de Amundi pueden expresarse globalmente en las tres dimensiones E, S y G o individualmente en cualquier factor medioambiental o social.

• ***¿...y en comparación con periodos anteriores?***

Al cierre del periodo anterior, la calificación ESG media ponderada de la cartera era de 0.91 (C) y la calificación ESG media ponderada del universo de inversión ESG era de 0.798 (C).

• ***¿Cuáles eran los objetivos de las inversiones sostenibles que el producto financiero pretende realizar parcialmente y cómo contribuía la inversión sostenible a dichos objetivos?***

Los objetivos de las inversiones sostenibles son invertir en empresas participadas que traten de cumplir dos criterios:

1. seguir las mejores prácticas medioambientales y sociales; y
2. evitar fabricar productos o prestar servicios que perjudiquen al medio ambiente y a la sociedad.

Para que se considere que la empresa en la que se invierte contribuye al objetivo mencionado, debe ser uno de los "mejores actores" dentro de su sector de actividad en al menos uno de sus factores medioambientales o sociales materiales.

La definición de "mejor actor" se basa en la metodología ESG propia de Amundi, cuyo objetivo es cuantificar el desempeño ESG de una empresa participada. Para ser considerada "mejor actor", una empresa participada debe obtener las tres mejores calificaciones (A, B o C, en una escala de calificación que va de la A a la G) dentro de su sector en al menos un factor medioambiental o social material. Los factores medioambientales y sociales materiales se identifican a nivel sectorial. La identificación de factores materiales se basa en el marco de análisis ESG de Amundi, que combina datos extrafinancieros y análisis cualitativos de temáticas sectoriales y de sostenibilidad afines. Los factores identificados como materiales suponen una contribución de más del 10% a la puntuación ESG global. En el sector energético, por ejemplo, los factores materiales son: emisiones y energía, biodiversidad y contaminación, salud y seguridad, comunidades locales y derechos humanos. Si desea obtener una descripción más completa de los sectores y factores, consulte la Declaración Reglamentaria ESG de Amundi, disponible en www.amundi.lu

Para contribuir a los objetivos anteriores, la empresa participada no debe tener una exposición significativa a actividades (por ejemplo, tabaco, armas, juegos de azar, carbón, aviación, producción de carne, fabricación de fertilizantes y pesticidas, producción de plásticos de un solo uso) que no sean compatibles con dichos criterios.

El carácter sostenible de una inversión se evalúa a nivel de la empresa participada.

Las principales incidencias adversas son los efectos negativos más significativos de las decisiones de inversión sobre los factores de sostenibilidad relacionados con cuestiones medioambientales, sociales y laborales, el respeto de los derechos humanos y la lucha contra la corrupción y el soborno.

- ***¿De qué manera las inversiones sostenibles que el producto financiero realizó parcialmente no causaron un perjuicio significativo a ningún objetivo de inversión sostenible desde el punto de vista medioambiental o social?***

Para garantizar que las inversiones sostenibles no causan un perjuicio significativo ("DNSH"), Amundi utiliza dos filtros:

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 de las NTR cuando se dispone de datos sólidos (por ejemplo, intensidad de GEI de las empresas participadas) a través de una combinación de indicadores (por ejemplo, intensidad de carbono) y umbrales o reglas específicas (por ejemplo, que la intensidad de carbono de la empresa participada no pertenezca al último decil del sector).

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

Más allá de los factores específicos de sostenibilidad cubiertos en el primer filtro, Amundi ha definido un segundo filtro, que no tiene en cuenta los indicadores obligatorios de Principales Incidencias Adversas mencionados anteriormente, con el fin de verificar que la empresa no obtiene malos resultados desde un punto de vista medioambiental o social global en comparación con otras empresas de su sector, lo que corresponde a una puntuación medioambiental o social superior o igual a E utilizando la calificación ESG de Amundi.

- ***¿Cómo se tuvieron en cuenta los indicadores de incidencias adversas sobre los factores de sostenibilidad?***

Los indicadores de incidencias adversas se han tenido en cuenta tal y como se detalla en el primer filtro de no causar un daño significativo (DNSH) anterior.

El primer filtro DNSH se basa en el seguimiento de los indicadores obligatorios de Principales Incidencias Adversas del Anexo 1, Tabla 1 del Reglamento Delegado (UE) 2022/1288 cuando se dispone de datos sólidos mediante la combinación de los siguientes indicadores y umbrales o normas específicas:

- Tener una intensidad de CO2 que no pertenezca al último decil en comparación con otras empresas de su sector (solo se aplica a sectores de alta intensidad), y
- Tener una diversidad en el Consejo de Administración que no pertenezca al último decil en comparación con otras empresas de su sector, y
- Estar libre de toda controversia en relación con las condiciones de trabajo y los derechos humanos.
- Estar libre de toda controversia en relación con la biodiversidad y la contaminación

Amundi ya contempla las Principales Incidencias Adversas específicas dentro de su política de exclusión en el marco de su Política de Inversión Responsable. Estas exclusiones, que se aplican además de las pruebas detalladas anteriormente, abarcan los siguientes temas: exclusiones sobre armas controvertidas, Vulneraciones de los principios del Pacto Mundial de la ONU, carbón y tabaco.

- ***¿Estaban las inversiones sostenibles alineadas con las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos? Detalles:***

Sí, las Líneas Directrices de la OCDE para Empresas Multinacionales y los Principios Rectores de Naciones Unidas sobre Empresas y Derechos Humanos están integrados en nuestra metodología de puntuación ESG. Nuestra herramienta de calificación ESG propia evalúa a los emisores utilizando los datos disponibles de nuestros proveedores de datos. Por ejemplo, el modelo cuenta con un criterio específico denominado "Participación en la comunidad y derechos humanos", que se aplica a todos los sectores, además de otros criterios relacionados con los derechos humanos, como las cadenas de suministro socialmente responsables, las condiciones de trabajo y las relaciones laborales. Además, realizamos un seguimiento de las controversias, como mínimo trimestralmente, que incluye a las empresas identificadas por vulneraciones de los derechos humanos. Cuando surgen controversias, los analistas evalúan la situación y aplican una puntuación a la controversia (utilizando nuestra metodología de puntuación interna) y determinan el mejor curso de acción. Las puntuaciones de controversia se actualizan trimestralmente para realizar un seguimiento de la tendencia y de los esfuerzos de corrección.

La Taxonomía de la UE establece un principio de "no causar perjuicio significativo", por el cual las inversiones alineadas con la Taxonomía no deben perjudicar significativamente los objetivos de la Taxonomía de la UE y va acompañado de criterios comunitarios específicos.

El principio de "no causar perjuicio significativo" solo se aplica a las inversiones subyacentes del producto financiero que tienen en cuenta los criterios de la UE sobre actividades económicas sostenibles desde el punto de vista medioambiental. Las inversiones subyacentes a la parte restante de este producto financiero no tienen en cuenta los criterios de la UE para las actividades económicas sostenibles desde el punto de vista medioambiental.

Cualquier otra inversión sostenible tampoco debe causar perjuicio significativo a ningún objetivo medioambiental o social.
