What is this product?

Type: Shares of a Sub-Fund of Amundi Funds, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: To achieve a combination of income and capital growth (total return). The sub-fund is managed in consideration to a number of ESG themes in such areas as community involvement and human rights, carbon footprint reduction and other such themes. The sub-fund aims to outperform its benchmark at least in two of those themes.

Investments: The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation. The Sub-Fund invests at least 80% of net assets in corporate and government bonds of issuers in OECD countries, with at least 67% of its net assets in investment grade corporate bonds denominated in EUR.

The Sub-Fund may also invest in bonds in currencies other than the euro, provided that these are principally hedged back to euro.

While complying with the above policies, the Sub-Fund may also invest in other types of bonds, money market instruments, deposits and convertible bonds, and in the following up to the stated percentages of net assets: - equities and equity-linked instruments: 10%, - UCITS/UCIs: 10%.

The Sub-Fund's exposure to contingent convertible bonds is limited to 10% of net assets. The Sub-Fund may use derivatives for hedging and efficient portfolio management.

The Sub-Fund may use credit derivatives (up to 40% of net assets).

Benchmark: The Sub-Fund is actively managed by reference to and seeks to outperform (after applicable fees) the Bloomberg Euro-Agg Corporates (E) Index, over the recommended holding period. The Sub-Fund is mainly exposed to the issuers of the Benchmark, however, the management of the Sub-Fund is discretionary, and will be exposed to issuers not included in the Benchmark. The Sub-Fund monitors risk exposure in relation to the Benchmark however the extent of deviation from the Benchmark is expected to be significant. The Benchmark is a broad market index, which does not assess or include its constituents according to environment characteristics and therefore is not aligned with the environmental characteristics promoted by the Sub-Fund.

Management process: The investment team analyses interest rate and economic trends (top-down) to identify geographic areas and sectors that appear likely to offer the best risk-adjusted returns. The investment team then uses both technical and fundamental analysis, including credit analysis, to select sectors and securities (bottom-up) and to construct a highly diversified portfolio. Further, the Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of the Benchmark.

Intended Retail Investor: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment and to receive income over the recommended holding period with the ability to bear losses up to the amount invested.
