What is this product?

TYPE

This product is a sub-fund of BNY Mellon Global Funds, plc an open-ended umbrella type investment company with variable capital, organised as an Undertakings for Collective Investment in Transferable Securities (UCITS).

OBJECTIVES

Investment objective

To generate annual distributions and to achieve long-term capital growth by investing predominantly in equity and equity-related global securities.

Investment policies

The Fund will:

- invest anywhere in the world;
- invest in company shares and similar investments;
- invest in companies of all sizes (e.g. small, medium and large companies) and in any industry (e.g. pharmaceuticals, financials, etc);
- limit investment in other collective investment schemes to 10%;
- exclude direct investment in companies with material involvement in activities the Investment Manager deems harmful from an environmental and/or social perspective e.g., tobacco production. All companies in which investments are made follow good governance practices; and
- promote environmental and social characteristics pursuant to Article 8 of the Sustainable Finance Disclosure Regulation ("SFDR").

The Fund may:

- invest in emerging markets; and
- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Fund's investment objective. The Fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income.

Benchmark

The Fund will measure its performance against the FTSE World TR Index (the "Benchmark").

The Fund is actively managed, which means the Investment Manager has absolute discretion to invest outside the Benchmark subject to the investment objective and policies disclosed in the Prospectus.

While the Fund's holdings may include constituents of the Benchmark, the selection of investments and their weightings in the portfolio are not influenced by the Benchmark. The investment strategy does not restrict the extent to which the Investment Manager may deviate from the Benchmark.

Redemption and Dealing: you can buy and sell your shares in the Fund between 9:00 and 17:00 (Irish Time) on each day which is a business day in Ireland and the U.S. Instructions received before 12:00 will receive the price quoted on that day. The minimum initial investment for this share class is EUR 15,000,000.

Distribution Policy: net income generated will be retained within the Fund and reflected in the value of your shares.

PRODUCT TERM

This product does not have a maturity date. The board of BNY Mellon Global Funds, plc may terminate the Fund unilaterally in accordance with the fund documentation. In addition, your investment may be terminated unilaterally where you no longer comply with the conditions set out in the fund documentation including minimum holding requirements.

What are the risks and what could I get in return?

RISKS

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of BNY Mellon Fund Management (Luxembourg) S.A. to pay you.

Be aware of currency risk. Where the share class is denominated in a different currency to that of your home jurisdiction, you will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Beside the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the fund prospectus, available free of charge at www.bny.com.

PERFORMANCE SCENARIOS

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between May 2024 and May 2025.

Moderate: this type of scenario occurred for an investment between May 2017 and May 2022.

Favourable: this type of scenario occurred for an investment between March 2020 and March 2025.

Where insufficient fund performance history exists, an appropriate benchmark has been used as a proxy.

What happens if BNY Mellon Fund Management (Luxembourg) S.A. is unable to pay out?

Investors are unlikely to face a financial loss should BNY Mellon Fund Management (Luxembourg) S.A. fail or default. While BNY Mellon Fund Management (Luxembourg) S.A. is responsible for management and administration of the Fund, it does not hold the assets of the Fund, including monies payable to investors. The Depositary is responsible for the safekeeping of the assets of the Fund. Investors may suffer loss, up to the value of their entire investment, if the Fund or the Depositary is unable to pay out. BNY Mellon Fund Management (Luxembourg) S.A. has no obligation to pay out in this scenario and there is no applicable investor compensation scheme to cover any loss in such an event.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- € 10,000 is invested.

Example Investment € 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	€ 113	€ 810
Annual cost impact*	1.1%	1.1%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.0% before costs and 8.8% after costs.
