The risk indicator assumes you keep the product for 3 years.
The actual risk can vary significantly if you cash in at the early stage and you may get back less.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity to pay you.

Additional risks: emerging markets, interest rate, leverage.

This product does not include any protection from future market performance so you could lose some or all of your investment.
