This document was prepared on 1 April 2025.

What is the product?

Type: This Product is an investment company qualifying as UCITS Sub-fund in accordance with the UCITS law.

Term: This Product has no maturity date. The Sub-fund has been established for an indefinite period of time. The Board of Directors of the Investment Company is entitled to liquidate, merge or reposition the Product at any time unilaterally in case the Product can no longer be managed in the interest of the investors. The amount the investor will receive upon early termination may be less than the amount invested.

Objectives: The Sub-fund is actively managed without reference to any benchmark, aiming to achieve capital appreciation over the medium to long term by investing in a diversified portfolio of primarily equity and fixed income securities. It mainly invests, either directly or indirectly, in fixed income asset classes, including money market instruments, government and corporate bonds, notes, inflation linked bonds and hybrid. In addition, the Sub-fund may also invest in convertible bonds, contingent convertible bonds and asset backed securities (ABS). The investments of the Sub-fund in above mentioned fixed income asset classes and cash equivalent (such as, bank deposit at sight, cash held in current accounts) shall amount at any time to at least 40%. Traditional convertible bonds shall not exceed 10% of the Sub-fund net assets and investments in contingent convertible bonds may amount up to 20%. Up to 10% of the Sub-fund net assets may be invested in ABS. Additionally, the Sub-Fund may invest, either directly or indirectly via Target Funds, up to 60% of its assets in equity and equity-type securities. Up to 10% of the Sub-fund net assets may be invested in structured products. The Sub-fund invests without being limited to a specific currency, geographic scope, industrial sector or rating of the issuer; a proportion of the Sub-fund's assets may be invested in Emerging Markets and/or non-investment grade securities. Investments in UCITS eligible exchange traded commodity products could be made for up to 10% of the Sub-Fund's net assets. The Sub-Fund will invest up to 10% of its assets into other UCITS or other UCIs being understood that the above limit on UCITS eligible exchange traded commodity products is not included in the present one. The Sub-Fund may, on an ancillary basis hold liquid assets (such as bank deposit at sight, cash held in current accounts) up to 20% of its net assets. That limit shall only be temporarily breached in case of unfavorable market conditions or circumstances where such a breach is justified to safeguard the interests of the investors. The Sub-Fund may borrow on a temporary basis up to 10% of its net assets. For the purpose of efficient portfolio management the Sub-fund may engage in securities lending - under normal circumstances, it is generally expected that the actual percentage of the assets held by the Sub-Fund that may be subject to securities lending transactions at any time range between 0 and 30%. In exceptional circumstances and exclusively on a temporary basis, such percentage may be increased up to a maximum of 100% of the Sub-Fund's net assets. In order to reach its objective, the Sub-fund can use derivative instruments to protect against movements in currencies and security prices and for investment purposes. The investor can buy or sell shares on a daily basis (Luxembourg bank business days). This Share Class does not make any distributions. The Sub-fund shall bear the costs of standard charges incurred by the Sub-fund through securities transactions in relation to the portfolio.

Intended Retail Investor: This Product is intended for professional and institutional investors, with an ability to bear a minor investment loss, and a long-term investment horizon.

What are the risks and what could I get in return?

(A) Summary Risk Indicator

The risk indicator assumes you keep the Product for 5 years. The actual risk can vary significantly if you redeem at an early stage and you may get back less.

The Summary Risk Indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets. We have classified this Product as 3 out of 7, which is a medium-low risk class and poor market conditions are unlikely to impact our capacity to pay you. **Be aware of currency risk** if your reference currency differs from the currency of the Product. You may receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. Investors shall note that the Product may be exposed to further risks such as operational, counterparty, political, sustainability and legal risks that are not included in the Summary Risk Indicator. This Product does not include any protection from future market performance so you could lose some or all of your investment.

(B) Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: Example Investment:		5 years	5 years EUR 10,000		
		EUR 10,000			
Scenarios		If you exit after 1 year	If you exit after 5 years (Recommended holding period)		
Stress scenario	What you might get back after costs Average return each year	EUR 7,397 -26.0%	EUR 6,786 -7.5%		
This type of sce	enario occurred for an investment MWM SICAV - P	atrimonial Fund I between 05/2015-05/2	2020.		
Unfavourable scenario	What you might get back after costs Average return each year	EUR 8,813 -11.9%	EUR 10,529 1.0%		
This type of sce	enario occurred for an investment MWM SICAV - P	atrimonial Fund I between 01/2019-01/2	2024.		
Moderate scenario	What you might get back after costs Average return each year	EUR 10,359 3.6%	EUR 12,281 4.2%		
This type of sce	enario occurred for an investment MWM SICAV - P	atrimonial Fund I between 03/2020-03/2	2025.		
Favourable scenario	What you might get back after costs Average return each year	EUR 11,850 18.5%	EUR 13,748 6.6%		

What happens if MultiConcept Fund Management S.A. is unable to pay out?

The investor of this Product will not face financial loss due to the default of MultiConcept Fund Management S.A., as the Sub-fund is considered to be a separate entity with segregated assets.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 is invested

	If you exit after 1 year	If you exit after 5 years (Recommended holding period)
Total costs	EUR 146	EUR 751
Annual cost impact (*)	1.5%	1.5%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.7% before costs and 4.2% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year				
Entry costs	y costs 0.0% of the value of your investment when entering.					
Exit costs	0.0% of the value of your investment before it is paid out to you.	EUR 0				
Ongoing costs taken each year						
Management fees and other administrative or operating costs	0.9% of the value of your investment per year.	EUR 86				
Fransaction costs 0.2% of the value of your investment per year. This is an estimate of the costs incurred when we buy a sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.		EUR 20				
Incidental costs taken under specific conditions						
Performance fees	There is no performance fee for this product.	n/a				

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The recommended holding period is calculated based on the Summary Risk Indicator presented above. According to the investment objective as described above, the Product is designed for long-term investment. The Product is an open-ended Product. The investor can sell their investment on a daily (on business days) basis. No redemption fees or penalties will be charged at the level of the Product.

How can I complain?

Any complaint regarding the person advising on, or selling the Product can be submitted directly to that person or bank. Any complaint regarding the Product or this document can be submitted in writing under the following address: MultiConcept Fund Management S.A., 5, rue Jean Monnet, L-2180 Luxembourg. Investors shall note that a complaint can be also addressed by e-mail to <u>list.lux-multiconcept@credit-suisse.com</u> or visit website: www.credit-suisse.com/microsites/multiconcept/en.html.
