WHAT IS THIS PRODUCT?

Type: Organisme de Placement Collectif en Valeurs Mobilières (OPCVM), Société d'Investissement à Capital Variable (SICAV)

Term: The UCIs term is 99 years from 17/09/1985, except in the event that the Fund is dissolved before the end of the term or extended pursuant to these regulations.

Objectives:

The investment objective is to achieve, over the recommended investment horizon of 5 years, a return (net of charges) above the following simple benchmark: FTSE Global Focus Convertible EUR Index. The benchmark is expressed in EUR. Net dividends or coupons are reinvested.

Lazard Frères Gestion delegated the financial management of the Fund to Lazard Asset Management LLC New York. To achieve this objective, the SICAV is actively managed using a fundamental approach comprising several analysis phases: study of the economic environment with market expectations produced by the Economic Strategy department, financial analysis of companies issuing bonds and of underlying equities and analysis of the technical features of issuance contracts.

In this context, the manager must manage the SICAV's overall exposure to interest rates and equity markets. In addition to the characteristics of the portfolio assets (exposure, equities and sensitivity), the manager will use interest-rate and equity futures to increase or decrease the SICAV's sensitivity or exposure to the equity market. Furthermore, the SICAV will manage currency risk dynamically for shares that are not hedged against foreign exchange risk, in order to optimise performance in the medium term. The SICAV may also actively manage interest rates through active management of the modified duration (use of BOBL or bund futures, for instance).

The SICAV's portfolio comprises:

- European and foreign (including emerging) convertible bonds issued by companies and financial institutions, and similar instruments ("preferred convertibles"). These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds exchangeable for shares issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds with share warrants issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.
- European and foreign (including emerging) bonds with warrants for participating securities issued by companies and financial institutions. These securities will be denominated in euros and/or local currencies.
- Bonds whose value is indexed to a stock market index to a maximum of 15% of the net assets.
- French or foreign money-market, short-term money-market, bond or mixed UCITS or AIFs that meet the four criteria of Article R. 214-13 of the French Monetary and Financial Code (Code Monétaire et Financier), up to a maximum of 10% of the net assets. These UCIs may be managed by the management company.
- Money market instruments (negotiable debt instruments, repurchase agreements, etc.) up to a maximum of 10% of the net assets. Equities up to a maximum of 10% of the net assets (excluding "preferred convertibles"). These shares will derive from the conversion of the convertible bonds shown in the portfolio.
- The SICAV may also hold other securities with embedded derivatives comprising up to 100% of the net assets.

The Fund may use futures, swaps, options and currency forward transactions on regulated, organised and/or OTC markets to hedge and/or expose the portfolio, up to the amount of the net assets, to equity, interest rate, currency, credit and volatility risk.

Allocation of distributable income:

- Allocation of net revenue: Accumulation
- Allocation of net realised capital gains: Accumulation

Right of redemption: Orders are executed as indicated in the table below

| Business day | Day on which NAV is set (d) | The business day following the valuation day (D+1) | Two business days following the valuation day (D+2) |
|--|-----------------------------------|--|---|

WHAT ARE THE RISKS AND WHAT'S IN IT FOR ME?

Risk indicator:

The risk indicator assumes that you keep the product for 5 years. The actual risk may be very different if you opt to exit before the end of the recommended holding period, and you may get less in return.

Other sizeable risks not taken into account in the indicator:

Recommended holding period:
5 years

- Credit Risk
- Risks associated with derivatives

The synthetic risk indicator is used to assess the risk level of this product compared with others. It indicates the probability that this product will incur losses in the event of market movements or if we are unable to pay you. We have classified this product in the risk class 3 out of 7, which is a risk class between low and medium. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity LAZARD FRERES GESTION SAS to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios:

The figures shown include all costs of the product itself, but not necessarily all fees due to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts you will receive.

What you get from this product depends on future market performance. Future market developments are uncertain and cannot be accurately predicted. The unfavourable, intermediate and favourable scenarios presented represent examples using best and worst case performance, as well as the average performance of the product and of a benchmark index over the past 10 years. The scenarios presented represent examples based on past performance and certain assumptions. Markets could evolve very differently in the future.

| Recommended holding period: 5 years Investment example: 10,000 € | | | If you exit after 1 year | If you exit after 5 years |
|---|---|--|--------------------------|---------------------------|
| Scenarios | | | | |

Favourable scenario: This type of scenario occurred for an investment between 26/02/2016 - 26/02/2021

WHAT HAPPENS IF LAZARD FRERES GESTION SAS IS UNABLE TO MAKE THE PAYMENTS?

The product is a co-ownership of financial instruments and deposits separate from the portfolio management company. In the event of default by the latter, the assets of the product held by the custodian will not be affected. In the event of default by the custodian, the risk of financial loss to the product is mitigated by the legal segregation of the assets of the custodian from those of the product.

WHAT WILL THIS INVESTMENT COST ME?

The person who sells you this product or who gives you advice about it may ask you to pay additional costs. If so, this person will inform you about these costs and show you the impact of these costs on your investment.

Costs over time:

The tables show the amounts deducted from your investment to cover the different types of costs. These amounts depend on the amount you invest, how long you hold the product and the performance of the product. The amounts shown here are illustrations based on an example of an investment amount and different possible investment periods.

We have assumed:

- that in the first year you would get back the amount you invested (annual return of 0.0%)
- that for the remaining holding periods, the product evolves as indicated in the intermediate scenario
- that 10,000 EUR are invested

| | If you exit after 1 year | If you exit after 5 years |
|----------------------------|--------------------------|---------------------------|
| Total costs | 542 € | 1,396 € |
| Impact of annual costs (*) | 5.5% | 2.4% every year |

(*) It shows how costs reduce your return annually over the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average return per year is expected to be 7.9% before deduction of costs and 5.5% after that deduction.

Breakdown of costs:

| One-off costs at entry or exit | | If you exit after 1 year |
|--|--|--------------------------|
| Entry costs | 4.00% of the amount invested. This is the maximum amount you could be required to pay. The person selling you the product will inform you of the actual costs. | Up to 400 € |
| Exit costs | We do not charge exit costs. | 0 € |
| Recurring costs incurred each year | | |
| Management fees and other administrative and operating costs | 0.99% of the value of your investment per year. This estimate is based on actual costs over the past year. | 95 € |

| | | |
|---|---|------|
| Transaction costs | 0.49% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on how much we buy and sell. | 47 € |
| Incidental costs incurred under specific conditions | | |
| Performance-related fees | There are no performance fees for this product. | 0 € |

HOW LONG DO I HAVE TO HOLD IT AND CAN I WITHDRAW MONEY EARLY?

Recommended holding period: 5 years

This product does not have a minimum holding period requirement. The recommended holding period (5 years) has been calculated to be consistent with the product's investment objective.

You may withdraw your investment before the end of the recommended holding period, without any charges or penalties under the conditions set out in the "Right of redemption" section. The risk profile of the product may be very different if you opt to exit before the end of the recommended holding period.

Your UCI has a redemption gate mechanism. For the UCI, the cap on redemptions may be applied by the management company when the threshold of 5% of net assets is reached. Please refer to section 15 of the prospectus.
