## What is this product?

### Type

CT UK Equity Income Fund is a sub-fund of Columbia Threadneedle Investment Funds (UK) ICVC, a UK UCITS in accordance with the FSMA 2000. It is established as an OEIC with variable capital incorporated with limited liability in England and Wales.

### Term

The Fund does not have a maturity date. Threadneedle Investment Services Limited, the authorised corporate director of the Company (the "ACD") may decide to unilaterally terminate (liquidate) the Fund with notice to the investors. Please refer to the Prospectus for more information.

### Objectives

The Fund aims to provide income combined with prospects for investment growth over the long term. It looks to provide an income yield higher than the FTSE All-Share Index over rolling 3-year periods, after the deduction of charges. The Fund is actively managed, and invests at least 90% of its assets in the shares of companies listed on the London Stock Exchange; predominantly UK companies. The Fund selects companies that exhibit above average income generation potential, as well as those considered to offer opportunities more by way of share price or dividend growth. These companies may be selected from any industry or economic sector, and whilst there is no restriction on size, investment tends to focus on the larger companies included in the FTSE All-Share Index. The FTSE All-Share Index is regarded as an appropriate performance measure of the UK stock market, with over 600 companies currently included. The income yield of this index (calculated using dividends declared by its constituent companies) provides a suitable target benchmark against which the level of income generated by the Fund will be measured and evaluated over time. The Fund typically invests in fewer than 60 companies, which may include shares of some companies not within the Index. The Fund may also invest in other assets such as cash and deposits, and hold other funds (including funds managed by Columbia Threadneedle companies) when deemed appropriate. The Fund is not permitted to invest in derivatives for investment purposes, but derivatives may be used with the aim of reducing risk or managing the Fund more efficiently. Derivatives are sophisticated investment instruments linked to the rise and fall of the price of other assets.

Any income the Fund generates will be paid to you, unless you have chosen to have it reinvested.

You can find more details on the Investment Objective and policy of the Fund in the Prospectus. For more information on investment terms used in this document, please see Prospectus and Glossary available at [www.columbiathreadneedle.com](http://www.columbiathreadneedle.com).

### Intended retail investor

This Fund is intended for investors who should have at least a basic level of knowledge and experience of investing in funds. It is designed for investors looking for income and the possibility of capital growth who can invest their money for at least 5 years. Your capital is not guaranteed which means that investors could lose up to 100% of the amount invested. The fund invests in company shares the prices of which tend to fluctuate more than other asset classes as investors directly participate in underlying companies and their profits and losses.

### Additional Information

Depository: Citibank UK Limited

Fund currency is GBP. Share class currency is GBP.

Shares in the Fund can be bought and sold on any Dealing Day, unless the ACD decided that insufficient markets are open. ## What are the risks and what could I get in return?

### RISK INDICATOR

The risk indicator assumes you keep the product for 5 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the value of your investment.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 10/2015 to 10/2020

Moderate scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 04/2019 to 04/2024

Favourable scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 03/2020 to 03/2025

## What happens if Threadneedle Investment Services Limited is unable to pay out?

The ACD is covered by the Financial Services Compensation Scheme. If it cannot meet its obligations, you may be entitled to compensation under the scheme up to a maximum limit of £85,000. The assets of the Fund are held in safekeeping by the Depositary. In case of default of the Manufacturer, the Fund's assets in the safekeeping of the Depositary will not be affected. There is a potential default risk if the assets of the Fund held by the Depositary are lost. However, such default risk is limited as the assets and liabilities of the Depositary are segregated from those of the Fund, and the Fund would not be liable if the Depositary or any delegated service provider were to fail or default.

## What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	<b>688 GBP</b>	<b>1,881 GBP</b>
<b>Annual Cost Impact*</b>	<b>6.88%</b>	<b>3.05%</b>

(\*)This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 6.92% before costs and 3.87% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you.

## Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
<b>Entry costs</b>	This includes distribution costs of 5% of amount invested. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	500 GBP
<b>Exit costs</b>	This is the charge that may be taken from your investment when you choose to sell. We do not charge an exit fee for this product, but the person selling you the product may choose to do so.	0 GBP
Ongoing costs taken each year		
<b>Management fees and other administrative or operating costs</b>	1.60% of the value of your investment per year. This is an estimate based on actual costs over the last year.	160 GBP
<b>Transaction costs</b>	0.25% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	25 GBP
Incidental costs taken under specific conditions		
<b>Performance fees</b>	There is no performance fee for this product.	

## How long should I hold it and can I take money out early?

### Recommended holding period 5 year(s)

It is recommended that you stay invested in the Fund for at least 5 year(s). This period has been selected for illustrative purposes only and reflects this long-term nature of the Fund's investment objective. There is no minimum or maximum holding period and you can redeem your shares without penalty on any Dealing Day. Your return may be negatively impacted if you redeem your shares prior to the recommended holding period.
