

Datos fundamentales para el inversor

El presente documento recoge los datos fundamentales sobre este fondo que el inversor debe conocer. No se trata de material de promoción comercial. La ley exige que se facilite la información de este documento para ayudarle a comprender las características del fondo y los riesgos que comporta invertir en él. Es aconsejable que lea el documento para poder tomar una decisión fundada sobre la conveniencia o no de invertir en él.

SYCOMORE LS OPPORTUNITIES (Participación A)

ISIN FR0010120931

Fondo de inversión colectiva gestionado por Sycomore Asset Management, UCITS V

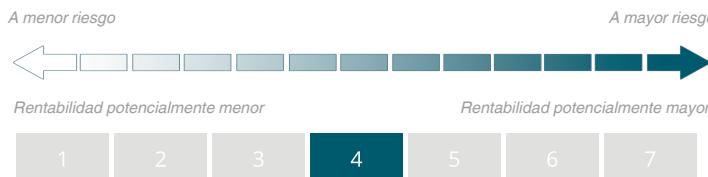

OBJETIVO Y POLÍTICA DE INVERSIÓN

El objetivo del fondo es lograr una rentabilidad anualizada superior al índice ESTER capitalizado, después de gastos, mediante una gestión discrecional que va desde la exposición oportunista a los mercados de renta variable o de renta fija hasta una correlación negativa con los mercados de renta variable, para un horizonte de inversión mínimo de cinco años, siguiendo un proceso que utiliza criterios económicos, sociales y de gobierno corporativo (ESG).

La estrategia de inversión se basa en una combinación de posiciones de compra y venta en renta variable internacional, dentro de una horquilla de exposición global de la cartera a renta variable de entre el -50% y el 150%. La cartera invierte de manera permanente como mínimo el 75% en instrumentos admisibles al Plan de ahorro en acciones (PEA) de Francia. El fondo podrá estar expuesto a las posiciones siguientes:

- Posiciones largas en acciones internacionales que el equipo gestor considere infravaloradas por el mercado, directamente o a través de instrumentos financieros a plazo negociados en mercados extrabursátiles («CFD») o en mercados regulados («futuros»), o en OICVM que proporcionen una exposición a dichos mercados de renta variable. La exposición positiva de la cartera a renta variable podrá oscilar entre el 0% y el 150%, lo que implica una capacidad de sobreexposición de la cartera del 50%.
- Posiciones cortas en acciones internacionales que el equipo gestor considere sobrevaloradas por el mercado, mediante instrumentos financieros a plazo negociados en mercados extrabursátiles («CFD») o en mercados regulados («futuros»). La exposición negativa de la cartera a renta variable podrá oscilar entre el 0% y el -50%, lo que implica una capacidad de correlación negativa de la cartera con los mercados de renta variable del 50%.
- Posiciones monetarias, a través de instrumentos del mercado monetario y/o fondos de inversión con el objetivo de emitir un rendimiento monetario.
- Posiciones en renta fija, mediante bonos y otros instrumentos de deuda (excluidos derivados de crédito), si bien los títulos calificados de alto rendimiento (high yield) de las agencias de calificación S&P, Fitch Ratings y Moody's no podrán superar el 10% del patrimonio neto.

PERFIL DE RIESGO Y REMUNERACIÓN

El indicador de riesgo y remuneración de nivel 4 refleja principalmente la exposición del fondo a los mercados de renta variable en los que se encuentra invertido.

- Los datos históricos utilizados para calcular el indicador sintético podrían no constituir una indicación fiable del futuro perfil de riesgo del fondo.
- La asignación a la categoría más baja no significa que la inversión esté libre de riesgo.
- La categoría de riesgo asignada al fondo no está garantizada y puede variar a lo largo del tiempo.

El proceso de análisis, calificación y selección ESG (medioambientales, sociales, de gobierno corporativo) es un componente totalmente integrado en el análisis fundamental de las empresas de nuestro universo de inversión y ofrece en todo momento al menos el 90% del patrimonio neto del fondo (excluida la liquidez). Dicho análisis y calificación, de acuerdo con nuestra metodología propia «SPICE» (Suppliers & Society, People, Investors, Clients, Environment), tiene por objeto comprender la distribución del valor creada por una empresa entre sus grupos de interés (inversores, medioambiente, clientes, empleados, proveedores y sociedad civil), y estamos convencidos de que una distribución equitativa contribuye de forma importante al desarrollo de una empresa.

La exposición acumulada directa o indirecta a los instrumentos del mercado monetario o de renta fija está limitada al 25% del patrimonio neto. La exposición a OICVM y mercados de países emergentes está limitada al 10%. La cartera podrá estar expuesta a divisas distintas del euro y, por consiguiente, al riesgo de tipo de cambio, con un límite del 25% de su patrimonio neto. Los derivados implícitos pueden representar hasta un 25% del patrimonio neto.

Teniendo en cuenta las características medioambientales y/o sociales promovidas de arriba, el comportamiento entra dentro del ámbito de aplicación del artículo 8 del SFDR (Reglamento 2019/2088 de 27 de noviembre de 2019 sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros).

Índice de referencia | ESTER capitalizado

Asignación de rendimientos | Capitalización

Hora límite de tramitación de órdenes de suscripción/reembolso |

El fondo capitaliza (reinvierte) sus ingresos. Las solicitudes de suscripción —en número de participaciones o importe— y de reembolso se tratan diariamente en BNP Paribas Securities Services a las 12:00 horas de cada día de cálculo del valor liquidativo (D) y se ejecutan al valor liquidativo calculado al día siguiente (D+1) a un precio desconocido. Los pagos correspondientes se realizan al segundo día hábil siguiente (D+2).

Riesgos importantes no tenidos en cuenta por el indicador:

Riesgo de crédito | Debido a la posibilidad de que el fondo pueda estar expuesto hasta el 25% a instrumentos monetarios y/o de renta fija y/o OICVM monetarios. Es posible que el emisor de un título de crédito (Estado, sociedad) no esté ya en condiciones de reembolsar su deuda o que su calificación se deteriore y que esta situación provoque una bajada del valor liquidativo.

Garantía | El capital del fondo no está garantizado.

GASTOS

Los gastos y comisiones que usted soporta se destinan a sufragar los costes de funcionamiento del fondo, incluidos los costes de comercialización y distribución de participaciones; estos gastos reducen el potencial de crecimiento de la inversión.

Gastos no recurrentes percibidos con anterioridad o posterioridad a la inversión

Gastos de entrada	5,00%
Gastos de salida	5,00%
Gastos de canje	Ninguno

El porcentaje indicado es el máximo que puede detraerse de su capital antes de proceder a la inversión o antes de abonar el producto de su inversión.

Gastos detraídos del fondo a lo largo de un año

Gastos corrientes	1,50%*
-------------------	--------

Gastos detraídos del subfondo en ciertas condiciones específicas

Comisión de rentabilidad	0,11%**
--------------------------	---------

Método: 15% (impuestos incluidos) de la rentabilidad superior al índice ESTER capitalizado, con cota máxima (High Water Mark).

Los gastos de entrada y salida indicados representan las cifras máximas; es posible que en algunos casos se deba pagar un importe inferior. Consulte a su asesor o distribuidor financiero para saber el importe de los gastos de entrada y salida que realmente pagará.

* **Los gastos corrientes** se basan en los gastos del ejercicio anterior.

Dicho porcentaje puede variar de un año a otro.

No incluye:

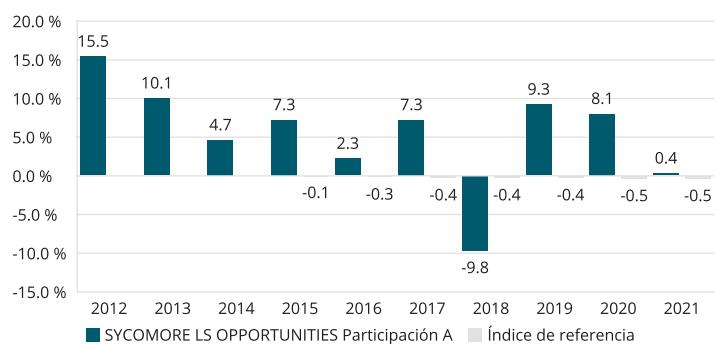

- comisiones de rentabilidad;

- costes de transacción, excepto en caso de que el fondo pague gastos de entrada o de salida cuando compre o venda participaciones de otro OIC.

Comisiones de rentabilidad superior:

** Ejercicio cerrado a 31/12/2021. La rentabilidad superior generada por el fondo en una fecha dada se define como la diferencia positiva entre el patrimonio neto, antes de deducir cualquier comisión de rentabilidad superior del fondo, y el patrimonio de un OIC ficticio que alcanza la rentabilidad de su índice de referencia y sigue el mismo patrón de suscripciones y reembolsos que el fondo real, en esa misma fecha. Si la diferencia es negativa, este importe constituye una rentabilidad inferior que deberá recuperarse en los años siguientes, antes de poder realizar una nueva provisión en concepto de la comisión de rentabilidad superior. Cada vez que se calcule el valor liquidativo (VL), la comisión de rentabilidad superior está sujeta a una provisión si el patrimonio neto del fondo, antes de deducir cualquier comisión de rentabilidad superior, supera al del OIC ficticio en el periodo de observación y si el valor liquidativo, tras tener en cuenta cualquier provisión para la comisión de rentabilidad superior, supera al más alto de los valores liquidativos registrados en el último día bursátil de cada ejercicio anterior, o una recuperación de la provisión limitada a la asignación existente en caso de rentabilidad inferior. En caso de reembolsos durante el periodo, la gestora deducirá y cobrará de forma definitiva la parte proporcional de la provisión constituida, correspondiente al número de acciones reembolsadas. Para obtener más información sobre los gastos, consulte el apartado «Comisiones y gastos» del folleto del fondo, disponible en nuestro sitio web www.sycomore-am.com.

RENTABILIDAD HISTÓRICA

La estrategia de inversión se basa en una combinación de posiciones de compra y venta en renta variable internacional, dentro de una horquilla de exposición global de la cartera a renta variable de entre el -50% y el 150%. La cartera invierte de manera permanente como mínimo el 75% en instrumentos admisibles al Plan de ahorro en acciones (PEA) de Francia. El fondo podrá estar expuesto a las posiciones siguientes:

- Posiciones largas en acciones internacionales que el equipo gestor considere infravaloradas por el mercado, directamente o a través de instrumentos financieros a plazo negociados en mercados extrabursátiles («CFD») o en mercados regulados («futuros»), o en OICVM que proporcionen una exposición a dichos mercados de renta variable. La exposición positiva de la cartera a renta variable podrá oscilar entre el 0% y el 150%, lo que implica una capacidad de sobreexposición de la cartera del 50%.
- Posiciones cortas en acciones internacionales que el equipo gestor considere sobrevaloradas por el mercado, mediante instrumentos financieros a plazo negociados en mercados extrabursátiles («CFD») o en mercados regulados («futuros»). La exposición negativa de la cartera a renta variable podrá oscilar entre el 0% y el -50%, lo que implica una capacidad de correlación negativa de la cartera con los mercados de renta variable del 50%.
- Posiciones monetarias, a través de instrumentos del mercado monetario y/o fondos de inversión con el objetivo de emitir un rendimiento monetario.
- Posiciones en renta fija, mediante bonos y otros instrumentos de deuda (excluidos derivados de crédito), si bien los títulos calificados de alto rendimiento (high yield) de las agencias de calificación S&P, Fitch Ratings y Moody's no podrán superar el 10% del patrimonio neto.

PERFIL DE RIESGO Y REMUNERACIÓN

El indicador de riesgo y remuneración de nivel 4 refleja principalmente la exposición del fondo a los mercados de renta variable en los que se encuentra invertido.

- Los datos históricos utilizados para calcular el indicador sintético podrían no constituir una indicación fiable del futuro perfil de riesgo del fondo.
- La asignación a la categoría más baja no significa que la inversión esté libre de riesgo.

El proceso de análisis, calificación y selección ESG (medioambientales, sociales, de gobierno corporativo) es un componente totalmente integrado en el análisis fundamental de las empresas de nuestro universo de inversión y ofrece en todo momento al menos el 90% del patrimonio neto del fondo (excluida la liquidez). Dicho análisis y calificación, de acuerdo con nuestra metodología propia «SPICE» (Suppliers & Society, People, Investors, Clients, Environment), tiene por objeto comprender la distribución del valor creada por una empresa entre sus grupos de interés (inversores, medioambiente, clientes, empleados, proveedores y sociedad civil), y estamos convencidos de que una distribución equitativa contribuye de forma importante al desarrollo de una empresa.

La exposición acumulada directa o indirecta a los instrumentos del mercado monetario o de renta fija está limitada al 25% del patrimonio neto. La exposición a OICVM y mercados de países emergentes está limitada al 10%. La cartera podrá estar expuesta a divisas distintas del euro y, por consiguiente, al riesgo de tipo de cambio, con un límite del 25% de su patrimonio neto. Los derivados implícitos pueden representar hasta un 25% del patrimonio neto.

Teniendo en cuenta las características medioambientales y/o sociales promovidas de arriba, el comportamiento entra dentro del ámbito de aplicación del artículo 8 del SFDR (Reglamento 2019/2088 de 27 de noviembre de 2019 sobre la divulgación de información relativa a la sostenibilidad en el sector de los servicios financieros).

Índice de referencia | ESTER capitalizado

Asignación de rendimientos | Capitalización

Hora límite de tramitación de órdenes de suscripción/reembolso |

El fondo capitaliza (reinvierte) sus ingresos. Las solicitudes de suscripción —en número de participaciones o importe— y de reembolso se tratan diariamente en BNP Paribas Securities Services a las 12:00 horas de cada día de cálculo del valor liquidativo (D) y se ejecutan al valor liquidativo calculado al día siguiente (D+1) a un precio desconocido. Los pagos correspondientes se realizan al segundo día hábil siguiente (D+2).

- La categoría de riesgo asignada al fondo no está garantizada y puede variar a lo largo del tiempo.

Riesgos importantes no tenidos en cuenta por el indicador:

Riesgo de crédito | Debido a la posibilidad de que el fondo pueda estar expuesto hasta el 25% a instrumentos monetarios y/o de renta fija y/o OICVM monetarios. Es posible que el emisor de un título de crédito (Estado, sociedad) no esté ya en condiciones de reembolsar su deuda o que su calificación se deteriore y que esta situación provoque una bajada del valor liquidativo.

Garantía | El capital del fondo no está garantizado.

GASTOS

Los gastos y comisiones que usted soporta se destinan a sufragar los costes de funcionamiento del fondo, incluidos los costes de comercialización y distribución de participaciones; estos gastos reducen el potencial de crecimiento de la inversión.

Gastos no recurrentes percibidos con anterioridad o posterioridad a la inversión

Gastos de entrada 3,00%

Gastos de salida 3,00%

Gastos de canje Ninguno

El porcentaje indicado es el máximo que puede detraerse de su capital antes de proceder a la inversión o antes de abonar el producto de su inversión.

Gastos detraídos del fondo a lo largo de un año

Gastos corrientes 2,00%*

Gastos detraídos del subfondo en ciertas condiciones específicas

Comisión de rentabilidad 0,11%**

Método: 15% (impuestos incluidos) de la rentabilidad superior al índice ESTER capitalizado, con cota máxima (High Water Mark).

Los gastos de entrada y salida indicados representan las cifras máximas; es posible que en algunos casos se deba pagar un importe inferior. Podrá obtener información acerca de los gastos de entrada y salida que efectivamente pagará a través de su asesor financiero o distribuidor.

* Los gastos corrientes se basan en los gastos del ejercicio anterior.

Dicho porcentaje puede variar de un año a otro.

No incluye:

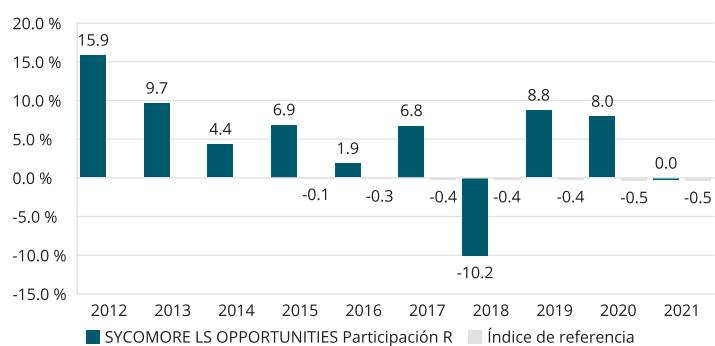

- comisiones de rentabilidad;

- costes de transacción, excepto en caso de que el fondo pague gastos de entrada o de salida cuando compre o venda participaciones de otro OIC.

Comisiones de rentabilidad superior: ** Ejercicio cerrado a 31/12/2021.

La rentabilidad superior generada por el fondo en una fecha dada se define como la diferencia positiva entre el patrimonio neto del fondo, antes de deducir cualquier comisión de rentabilidad superior, y el patrimonio de un OIC ficticio que alcanza la rentabilidad de su índice de referencia y sigue el mismo patrón de suscripciones y reembolsos que el fondo real, en esa misma fecha. Si la diferencia es negativa, este importe constituye una rentabilidad inferior que deberá recuperarse en los años siguientes, antes de poder realizar una nueva provisión en concepto de la comisión de rentabilidad superior. Cada vez que se calcule el valor liquidativo (VL), la comisión de rentabilidad superior está sujeta a una provisión si el patrimonio neto del fondo, antes de deducir cualquier comisión de rentabilidad superior, supera al del OIC ficticio en el periodo de observación y si el valor liquidativo, tras tener en cuenta cualquier provisión para la comisión de rentabilidad superior, supera al más alto de los valores liquidativos registrados en el último día bursátil de cada ejercicio anterior, o una recuperación de la provisión limitada a la asignación existente en caso de rentabilidad inferior. En caso de reembolsos durante el periodo, la gestora deducirá y cobrará de forma definitiva la parte proporcional de la provisión constituida, correspondiente al número de acciones reembolsadas. Para obtener más información sobre los gastos, consulte el apartado «Comisiones y gastos» del folleto del fondo, disponible en nuestro sitio web www.sycomore-am.com.

RENTABILIDAD HISTÓRICA

Es aconsejable que lea el documento para poder tomar una decisión fundada sobre la conveniencia o no de invertir en él.

**SYCOMORE LS OPPORTUNITIES (Participació X)
ISIN FR0010865931**

Fondo de inversión colectiva gestionado por Sycomore Asset Management, UCITS V

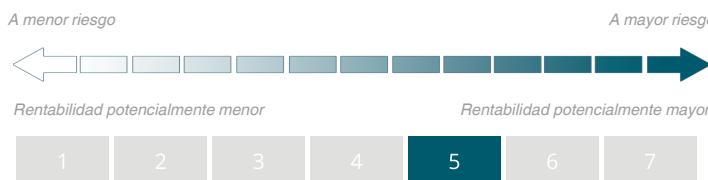

OBJETIVO Y POLÍTICA DE INVERSIÓN

El objetivo del fondo es lograr una rentabilidad anualizada superior al índice ESTER capitalizado, después de gastos, mediante una gestión discrecional que va desde la exposición oportunista a los mercados de renta variable o de renta fija hasta una correlación negativa con los mercados de renta variable, para un horizonte de inversión mínimo de cinco años, siguiendo un proceso que utiliza criterios económicos, sociales y de gobierno corporativo (ESG).

La estrategia de inversión se basa en una combinación de posiciones de compra y venta en renta variable internacional, dentro de una horquilla de exposición global de la cartera a renta variable de entre el -50% y el 150%. La cartera invierte de manera permanente como mínimo el 75% en instrumentos admisibles al Plan de ahorro en acciones (PEA) de Francia. El fondo podrá estar expuesto a las posiciones siguientes:

- Posiciones largas en acciones internacionales que el equipo gestor considere infravaloradas por el mercado y los menores riesgos en materia de sostenibilidad, directamente o a través de instrumentos financieros a plazo negociados en mercados extrabursátiles («CFD») o en mercados regulados («futuros»), o en OICVM que proporcionen una exposición a dichos mercados de renta variable. La exposición positiva de la cartera a renta variable podrá oscilar entre el 0% y el 150%, lo que implica una capacidad de sobreexposición de la cartera del 50%.
 - Posiciones cortas en acciones internacionales que el equipo gestor considere sobrevaloradas por el mercado y los mayores riesgos en materia de sostenibilidad, mediante instrumentos financieros a plazo negociados en mercados extrabursátiles («CFD») o en mercados regulados («futuros»). La exposición negativa de la cartera a renta variable podrá oscilar entre el 0% y el -50%, lo que implica una capacidad de correlación negativa de la cartera con los mercados de renta variable del 50%.
 - Posiciones monetarias, a través de instrumentos del mercado monetario y/o fondos de inversión con el objetivo de emitir un rendimiento monetario.
 - Posiciones en renta fija, mediante bonos y otros instrumentos de deuda (excluidos derivados de crédito), si bien los títulos calificados de alto rendimiento (high yield) de las agencias de calificación S&P, Fitch Ratings y Moody's no podrán superar el 10% del patrimonio neto.

PERFIL DE RIESGO Y REMUNERACIÓN

El indicador de riesgo y remuneración de nivel 5 refleja principalmente la exposición del fondo a los mercados de renta variable en los que se encuentra invertido.

- Los datos históricos utilizados para calcular el indicador sintético podrían no constituir una indicación fiable del futuro perfil de riesgo del fondo.
 - La asignación a la categoría más baja no significa que la inversión esté libre de riesgo.

Additional information may be obtained if necessary from the investor relations department.

2. STAKEHOLDERS

2.1 Management Company

Sycomore Asset Management, SA Approved by the AMF as a French Portfolio Management Company (Société de Gestion de Portefeuille) under n° GP 01-30 with registered offices located at 14, avenue Hoche, 75008, Paris, France.

2.2 Depositary and custodian

BNP Paribas Securities Services, SCA, approved by the French "Autorité de Contrôle Prudentiel et de Résolution (ACPR)" with registered offices located at 3 rue d'Antin, 75002, Paris, France. Mailing address: 9 rue du Débarcadère – 93500 Pantin, France.

Description of the Custodian's responsibilities and of the potential conflicts of interest:

The custodian exercises three types of responsibilities, respectively the control of the regularisation of decisions taken by the management company (as defined in article 22.3 of the UCITS V Directive), the monitoring of cash flow for the UCITS (as defined in article 22.4 of said Directive) and the safekeeping of assets of the UCITS (as defined in article 22.5 of said Directive).

The main responsibility of the Custodian is to always protect the interests of unit-holders / investors in the UCITS above their own commercial interests.

Potential conflicts of interest may be identified, particularly in the case where the management company has business relationships with BNP Paribas Securities Services in addition to its role as Custodian (which may be the case when BNP Paribas Securities Services is in charge, by delegation of the management company, of the net asset value calculation for the UCITS whose custodian is also BNP Paribas Securities Services).

In order to manage such situations, the Custodian has set up and maintains a policy for the management of conflicts of interest. The objectives of such a policy are:

- Identifying and analysing potential situations of conflicts of interest;
- Recording, managing and monitoring situations of conflicts of interest by
 - using the permanent measures implemented in order to manage conflicts of interest, such as the segregation of duties, the split between the functional and hierarchical reporting lines, the monitoring of internal insider lists, and dedicated IT environments
 - Implementing on a case-by-case basis:
 - Appropriate preventive measures, such as the creation of ad hoc monitoring, new "Chinese walls", or checking that transactions are processed in an appropriate way and/or informing the relevant clients
 - Or refusing to manage the activities that could give rise to conflicts of interest.

Description of potential duties delegated by the Custodian, list of delegates and sub-delegates and identification of the conflicts of interest that may result from such delegation.

The Custodian of the UCITS, BNP Paribas Securities Services SA, is responsible for the safekeeping of the assets (as defined in article 22.5 of the above-mentioned Directive). In order to provide the services related to the custody of the assets in a large number of countries, enabling the UCITS to achieve their investment objectives, BNP Paribas Securities Services SA has appointed sub-custodians in the countries where BNP Paribas Securities Services SA does not have a local presence. These entities are listed on the following website: <http://securities.bnpparibas.com/solutions/asset-fund-services/depository-bank-and-trustee-serv.html>.

The process of appointing and supervising the sub-custodians follows the highest standards of quality, including managing potential conflicts of interest that may arise in the context of such appointments.

The most recent information regarding the previous points is available to investors upon request.

2.3 Delegated institution in charge of the centralisation of subscription and redemption orders

BNP Paribas Securities Services, SCA, approved by the French "Autorité de Contrôle Prudentiel et de Résolution (ACPR)" with registered offices located at 3 rue d'Antin, 75002, Paris, France. Mailing address: 9 rue du Débarcadère – 93500 Pantin, France.

2.4 Fund unit registrar

BNP Paribas Securities Services, SCA, approved by the French "Autorité de Contrôle Prudentiel et de Résolution (ACPR)" with registered offices located at 3 rue d'Antin, 75002, Paris, France. Mailing address: 9 rue du Débarcadère – 93500 Pantin, France.

2.5 Statutory Auditor

PricewaterhouseCoopers Audit, represented by Frédéric Sellam, 63 rue de Villiers, 92200 Neuilly-sur-Seine, France.

2.6 Marketing Agents

Sycomore Asset Management and its subsidiaries. The list of marketing agents is not comprehensive insofar as the investment fund is listed on Euroclear. Therefore some marketing agents may not be mandated by, or known to the management company.

2.7 Delegated fund accountant

BNP Paribas Securities Services, SCA, approved by the French "Autorité de Contrôle Prudentiel et de Résolution (ACPR)" with registered offices located at 3 rue d'Antin, 75002, Paris, France. Mailing address: 9 rue du Débarcadère – 93500 Pantin, France.

2.8 Institution responsible for receiving and transmitting orders from the management company

Sycomore Market Solutions, SA. An investment company authorised by the French Prudential Control and Resolution Authority (Autorité de Contrôle Prudentiel et de Résolution, ACPR), whose registered office is located at 14, Avenue Hoche, 75008 Paris, France. Sycomore Market Solutions may receive orders initiated by the management company on behalf of the Fund to ensure the transmission of such orders to market intermediaries and counterparties with the primary mission of seeking the best possible execution of such orders.

3. OPERATING AND MANAGEMENT PROCEDURES

3.1 General features

3.1.1. Unit Class characteristics

Nature of the rights attached to the units: the various units represent rights in ownership, i.e. each unit holder has a joint ownership right over the Fund's assets in proportion to the number of units held.

Securities administration: the various units are listed on Euroclear France. Units administration is provided by BNP Paribas Securities Services SA, whose registered offices are located at 3 rue d'Antin, 75002, Paris, France.

Voting rights: no voting rights are attached to the units as decisions are made by the management company.

Form of units: bearer.

Subdivision of units: Fund units are decimalised in ten-thousandths (e.g. 100.0000). Subscription and redemption orders may be expressed in number of units (whole numbers or decimal fractions) or in cash value.

3.1.2. Accounting year-end

The financial year closing date is the last trading day in December. The closing date of the first financial year was the last trading day in December 2005.

3.1.3. Tax regime

The Fund is not taxable per se. Unit holders may however be liable to tax upon the sale of their units. The tax regime governing capital gains or losses by the Fund, whether unrealised or realised, depends on the tax provisions applying to the specific case of each investor and his/her tax domicile and/or the Fund's investment jurisdiction. Investors who are unsure of their tax situation should seek advice from an advisor or a financial professional.

French personal equity savings plan eligibility (PEA): This fund is eligible for the PEA.

3.1.4. Information on SRI certification

On the date of publication of this prospectus, the Fund does not have a French SRI label or a foreign equivalent.

3.2 Specific provisions

3.2.1. ISIN Codes

Unit Class	ISIN Code
X	FR0010865931
I	FR0010473991
A	FR0010120931
R	FR0010363366
ID	FR0012758761

3.2.2. Investment objective

The fund's objective is to achieve an annualised return net of fees that exceeds the capitalised ESTER index through discretionary management by the management team, ranging from opportunistic exposure to the fixed income or equity markets to a negative correlation to equity markets, according to an investment process that uses environmental, social and governance (ESG) criteria.

3.2.3. Benchmark

The ESTER index is based on the interest rates for unsecured euro-denominated loans raised by the banks on a daily basis. It is calculated as a weighted average of all overnight unsecured lending transactions in the interbank market within the Eurozone. Further information on the index is available at <https://www.ecb.europa.eu/stats/> financial_markets_and_interest_rates/euro_short-term_rate/html/index.en.html. The index administrator is the ECB (European Central Bank). This administrator benefits from the exemption from Article 2.2 of the benchmark regulation as a bank.

3.2.4. Investment strategy implementation

Description of strategies allowed:

The investment strategy is based on a combination of long and short positions on global equities, within the net assets' overall equity exposure ranging from -50% to +150%, with the net assets remaining, on a constant basis, at least 75% invested in instruments qualifying for the French personal equity savings plans (PEA).

The fund may be exposed to the following positions:

- Long positions on international equities that the management team considers to be undervalued by the market, directly or through CFDs, regulated futures markets or through mutual funds offering exposure to these same equity markets. The net assets' positive equity exposure may vary from 0% to 150%, thus enabling a potential 50% overexposure.
- Short positions on international equities that the management team considers to be overvalued by the market, through CFDs or regulated futures markets. The net assets' negative equity

exposure may vary from 0% to -50%, thus reflecting the portfolio's 50% negative correlation to the equity markets.

- Money market positions via money market instruments and/or UCITS targeting money market-like returns.
- Fixed-income positions via bonds and other debt instruments (excluding credit derivatives) denominated in Euros or US Dollars, securities rated as High Yield by the rating agencies S&P, Moody's and Fitch Ratings, may not exceed 10% of the net assets.

ESG (Environmental, Social and Governance) analysis is a fully integrated component of the fundamental analysis of companies in our investment universe and carried out according to our proprietary 'SPICE' methodology.

'SPICE' stands for our global analysis methodology for financial and non-financial criteria (Suppliers & Society, People, Investors, Clients, Environment) as per the diagram below. It aims in particular to understand the distribution of the value created by a company among all its stakeholders (investors, environment, clients, employees, suppliers and civil society), as our conviction is that fair sharing of value among stakeholders is an important factor in the growth of a company.

As an example, the following criteria are used for non-financial analysis:

* Society & Suppliers: Societal contribution of products and services, societal contribution through employment, citizen behaviour (ethics, respect for human rights, responsible taxation, etc.), control of the subcontracting chain and balance of supplier relations, etc.

The assessment of the alignment of the company's activities with major societal issues is based on a specific proprietary metric, the 'Societal Contribution of Products and Services,' which evaluates the company's contribution through its business model. Major societal issues were synthesised into three pillars: Access & Inclusion, Health & Safety, Economic & Human Progress; The calculation aims to determine the contribution of the activities to societal transitions, according to a rating scale of -100% to +100%. The Social Contribution of the products and services is the sum of the positive and/or negative contributions

of a company's products and services to the 3 pillars (Access & Inclusion, Health & Safety, Economic & Human Progress). For further information on our 'Social contribution to products and services, please refer to: https://www.sycomore-am.com/5f804036-Strategie_capital_societal_et_principes_methodologiques_VF.pdf

The Good Jobs Rating, a metric developed in partnership with The Good Economy, evaluates a company's overall ability to create high quality, sustainable employment opportunities for all, particularly in regions - countries and territories - where employment is relatively limited and therefore necessary to ensure sustainable and inclusive development. For more information on The Good Jobs Rating methodology, please refer to: https://www.sycomore-am.com/5feaf873-5f241b17-Sycomore_AM_The_Good_Jobs_Rating_Methodologie_FROK.pdf

* People: development at work, training, health and safety, absenteeism, turnover, corporate culture and values, restructuring management, evaluation of the labour relations climate, pay equity, diversity, etc.

* Investors: solidity of the business model, competitive positioning, growth levers, governance, strategy, taking into account the interests of the company's different stakeholders, quality of financial communication, etc.

* Customers: Market positioning, distribution modes, customer relations, digitalisation, digital rights and data protection, product security, etc.

* Environment: Level of integration of environmental issues into management's vision, corporate strategy and culture, environmental performance of sites and operations, assessment of transition risk, exposure to medium- and long-term physical environmental risks, etc.

The assessment of the transition risk is based on a specific proprietary metric called 'NEC,' the acronym for 'Net Environment Contribution.' A company's NEC calculation aims to determine the contribution of its activities to ecological transition, according to a rating scale of -100% to +100% determined by the more or less negative or positive impact of the activities on the environment. It follows an integrated upstream (supply chain) and downstream (product and service usage) life cycle analysis approach. Further information on methodology can be obtained from: <https://nec-initiative.org/>.

The application of this methodology leads to the award of a SPICE rating between 1 and 5 (5 being the highest rating). This rating impacts the risk premium of the companies and therefore their target prices which result from the valuations calculated by our analyst manager. The SPICE analysis at all times concerns at least 90% of the Fund's net assets (excluding liquid assets).

In addition, the Fund's investment universe is constructed using criteria specific to SPICE. Issuers must therefore pass the filter on the main ESG opportunities in order to integrate the Fund's eligible investment universe, which aims to favour companies with sustainable development opportunities:

1. For long positions: Companies with a SPICE rating higher than 3/5 that are comparable to the companies with the least risk in terms of sustainable development in our analysis.

The fund's eligible investment universe is thus reduced by at least 20% compared to its initial universe, i.e. equities listed on international markets and which have been subject to an effective ESG analysis by Sycomore AM.

2. For short positions: Companies (i) having a SPICE rating below 3/5 on one of the five pillars (Company and Suppliers, Collaborators, Investors, Client or Environment) corresponding, according to our analysis, to companies riskier in terms of sustainable development or (ii) having a 'Governance' rating within the Investor pillar below 3/5 or (iii) being involved in activities identified in our exclusion policy for their controversial social or environmental impacts or (iv) Level 2 or 3 controversies.

The investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities.

This methodology combines the following socially responsible investment approaches on a systematic basis:

✓ **ESG Integration:** ESG analysis is systematically included in the analysis and management process.

✓ **Exclusion:** As part of our socially responsible investment approach, the SRI exclusion policy is a complementary tool that ensures that no investments are made in activities that have a proven negative impact on society or the environment. For example, companies in the coal (energy extraction and production), tobacco and weapons sectors, and companies whose activities violate one of the principles of the United Nations Global Compact are excluded. More detailed information is available in our SRI exclusion policy available on our website, www.sycomore-am.com.

✓ **Shareholder commitment:** The commitment is to encourage companies to improve their environmental, social and governance (ESG) practices over time through constructive and structured dialogue and long-term monitoring. This commitment is based on the belief that good ESG practices can foster sustainable corporate performance and value creation for our clients. This commitment is reflected in draft resolutions, and more generally in dialogue

with issuers. As in the 'Best effort' approach, the issuers chosen are not necessarily the best with respect to ESG. More detailed information is available in our Commitment Policy available on our website www.sycomore-am.com.

✓ **Best in universe:** This approach seeks to select and weight the best issuers within the investment universe and may lead to the exclusion of certain sectors where their contribution to sustainable development is insufficient, as compared to issuers from the other sectors represented within the investment universe.

✓ **Best effort:** This approach makes it possible to invest in companies that consent to visible sustainable development efforts, even though they would not yet be among the best in the ESG investment universe. These companies undergo the same analysis and monitoring process as the 'Best in universe' approach and comply with the same ESG selection criteria as the 'Best in universe' approach, but while the companies in the 'Best in universe' approach belong to the first and second quartile of the investment universe, those in the 'Best effort' approach will be in the third quartile of the investment universe. The management company seeks to closely monitor and dialogue with the management teams of these companies to monitor the companies' efforts, areas for improvement and progress over time.

In addition to these equity investments, which represent the heart of the Fund's investment strategy, cumulative direct or indirect exposure to money market or fixed income instruments is limited to 25% of the net assets. This exposure also includes non-financial criteria, which leads to the selection of issuers with ESG criteria that are relevant to the overall analysis of issuer risk.

The portfolio's exposure to UCITS is limited to 10%. These UCITS must have the SRI label or must themselves comply with the quantitative criteria of this label, namely a 20% reduction in their investment universe after eliminating the least favourable non-financial ratings or a non-financial rating greater than the rating of their investment universe after eliminating at least 20% of the lowest-rated securities, as well as a rate of analysis or non-financial rating greater than 90% in number of issuers or in capitalisation of the collective investment's net assets.

Exposure to emerging markets is limited to 10% of the net assets. Up to 25% of net assets may be exposed to currencies other than the euro and, hence, exposed to a currency risk, which may be reduced by hedging the currency risk.

In view of the environmental and/or social characteristics promoted above, the fund falls within the scope of SFDR article 8 (Regulation 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial services sector).

Asset classes and financial futures in the portfolio:**Equities**

The fund is invested up to 100% in international equities, including at least 70% in PEA-eligible stocks.

Investments are selected on the basis of a strict analysis of corporate fundamentals. The selection process aims to identify those companies meeting quality standards (on the basis of their management teams, business model sustainability, and financial structure consistency) and to detect value (based on the differential between the intrinsic value as calculated by the management team and market value).

These securities are selected without sector or geographical constraints other than those inherent to PEA eligibility.

Debt securities and money-market instruments.

The fund may include between 0% and 25% of bonds and other Euro or US Dollar denominated debt securities, without any sector restrictions. Their issuers must have their registered office in an OECD member state. They are selected based on credit ratings and proposed yield without reference to a modified duration target for the portfolio. The credit quality of the issuers is assessed by the investment team whose credit analysis takes into account, among other data, the ratings issued by the credit rating agencies (Standard & Poors, Moody's, Fitch Ratings). In this context, instruments rated less than BBB or equivalent, or that have no rating, are eligible only as long as they represent a maximum of 10% of net assets.

To manage the fund's cash, the portfolio may include negotiable debt securities. No investments pertaining to this asset category may exceed 25% of the fund's net assets. Such securities may come from public issuers (up to 25% of fund net assets in fixed-rate French treasury bonds) or corporate issuers (negotiable CDs up to 10% of fund net assets) with no pre-set restriction on the breakdown between these two categories. Only those negotiable debt securities with residual lives of less than three months may be added to the portfolio. The credit quality of the issuers is assessed by the investment team whose credit analysis takes into account, among other criteria, the ratings issued by the credit rating agencies (Standard & Poors, Moody's, Fitch Ratings). A minimum rating of AA or equivalent is required for an investment to pass the selection filter and be eligible to the portfolio.

Investors should be aware that the respective weightings of fixed-income and equity products will vary on the basis of the international economic environment. The management team reserves the right to switch at any time between direct investment and investment via mutual funds.

Units or shares of UCIs

The Fund may include up to 10% units or shares of European UCITS or French UCIs which invest less than 10% of their assets in UCITS or other mutual funds.

The Fund may also invest in money market funds in order to manage the Fund's cash flow, or equity, fixed income or diversified UCIs with a management strategy which complements that of the Fund and which contributes towards achieving the performance target.

In this context, UCI eligible for the French personal equity savings plan (PEA) complements the equity position in assessing compliance with the requirements of the plan.

These funds are selected by the management team following meetings with the fund managers. The main investment criteria applied, apart from ensuring the strategies are complementary, is the sustainability of the target fund's investment process.

The Fund may invest in UCIs marketed or managed by Sycomore Asset Management or one of its subsidiaries, within the aforementioned limits.

Derivatives

The Fund operates in all regulated or organised markets in France and in other OECD member states.

The Fund uses futures and option strategies.

Futures and options strategies are intended either to hedge the portfolio against the downside risk in an underlying equity asset, or to increase portfolio exposure in order to capitalise on the upside in an underlying equity asset, and if necessary to hedge the net assets against currency risk generated by investments in currencies other than the euro.

These strategies are however only contributing on an ancillary basis to achieve investment management targets. These strategies nevertheless enable a portfolio manager anticipating a period of equity market weakness to preserve accrued returns (hedging strategy involving equity indices or certain stocks which the portfolio manager considers overvalued) or conversely, to increase portfolio exposure when the portfolio manager feels that securities already in the portfolio may not fully benefit from an expected equity market rally.

The Fund may also enter into over-the-counter contracts in the form of:

- Contracts for Differences (henceforth referred to as "CFDs"). The underlying components of CFDs are shares or equity indices. CFDs shall be used to replicate purchases or sales in securities or indices, or baskets of securities or baskets of indices. If equity exposure increases through the use of CFDs, it shall not exceed 150%, or maximum leverage of 1.5x. The

use of CFDs may also lead to a negative exposure to equity markets, within the limit of -50%, or a maximum leverage of 0.5x.

- Total Return Swaps (TRS). These contracts consist of an exchange of the value of a basket of shares in the Fund's assets against the value of a financial index. They are used for the management of the Fund's exposure to equity markets and to optimise its cash management.
- Hedging contracts (currency swaps) which enable the fund to protect all or part of its net assets against a decline in all or part of the investment currencies of the fund other than the euro.

The policy for the use of derivatives, the underlyings of which are subject to the SPICE analysis process, is consistent with the Fund's objectives and is consistent with its aim for a long-term perspective. It does not undermine the ESG selection policy in a significant or lasting manner. The use of financial derivatives is limited to techniques for efficient management of the portfolio of securities in which the Fund is invested. The Fund may not hold short positions in an asset selected as ESG according to its own ESG asset selection method.

Securities with embedded derivatives

The Fund deals in financial instruments with embedded equity derivatives.

The instruments used are: Warrants, equity warrants, investment certificates, as well as bond-type securities with a conversion or subscription right including convertible bonds, bonds redeemable into new or existing shares and equity-warrant bonds.

These instruments are used in order to expose the portfolio to one or more companies that satisfy the selection criteria defined above. The aggregate total weight of these investments in the Fund portfolio shall not exceed 25% of its net assets.

If equity exposure increases through the use of derivatives or securities with embedded derivatives, it shall not exceed 150%, or maximum leverage of 1.5x.

Use of deposits

There are no plans to use deposits in connection with the management of the Fund.

Cash loans

In the normal course of business, the Fund may on occasion find itself in debt and in that case may borrow cash, up to the limit of 10% of its net assets.

Temporary acquisitions and sales of securities

The Fund may use temporary sales of securities exclusively with BNP PARIBAS SECURITIES SERVICES as counterparty to help achieve investment objectives.

The income generated through these transactions is paid or returned to the fund net of all direct and indirect costs incurred by Sycomore Asset Management for their execution. These costs should never exceed 10% of the generated income.

3.2.5. Contracts constituting financial guarantees

The Fund does not receive any financial guarantees as part of the authorised transactions.

3.2.6. Risk profile:

Risks incurred by the Fund:

- **the risk of loss of principal**, as the Fund's performance may not meet investment objectives or investor targets (which depend on their portfolio composition), the principal invested may not be entirely returned, the performance may be adversely affected by inflation.
- **Equity risk**, due to exposure of between -50% and +150% to equity markets through investments in equities, equity-exposed UCIs, convertible bonds and financial derivative instruments with equity underlying assets. This is the risk that an investment market will decline or that the value of one or more shares will decline, due to a market shift. The net asset value may decrease if equity markets fall.
- **Foreign exchange risk**, as some eligible financial instruments may be listed in currencies other than the Euro. In this regard, investor attention is drawn to the fact that the Fund is subject to foreign exchange risk of up to a maximum limit of 25% of its assets for French residents;

Foreign exchange risk is the risk that the value of an investment currency diminishes compared to the Fund's benchmark currency, i.e. the Euro, which could then lead to a decrease in NAV.

- **Fixed-income and credit risk**, due to the fund's ability to hold fixed-income products, debt securities and money-market instruments up to 25% of its assets;

Interest rate risk:

- the risk that the rates decline when investments are made at a variable rate (lower rate of return);
- the risk that rates will rise in the case of fixed-rate investments, as the value of a fixed interest-rate product is inversely proportional to interest rate levels.

Credit risk is the risk that the issuer of a debt security is no longer able to service its debt, i.e. repay the debt, which could then lead to a decrease in NAV.

In this regard, investors should be aware that the Fund may be exposed for up to 10% of its assets to speculative high-yield bonds. These securities may be subject to higher volatility, and the risk that their issuers could default is also greater.

- **Specific risk relating to companies with low market capitalisation**, due to the possibility that the Fund is invested in the shares of companies with low capitalisations. In this regard, investors should bear in mind that the small and mid-cap market includes companies which, by reason of their specific nature, may involve risks for investors. This is the risk that some buy or sell orders may not be fully executed on account of the limited quantity of securities available in the market. These stocks may be subject to higher volatility than large-caps and weigh on the NAV.
- **Risk incurred from discretionary management** : as the management team may freely allocate Fund assets between the various asset classes (except when there are PEA-inherent constraints).

The discretionary management style is based on anticipating trends on various markets (equity, bond). There is a risk that the Fund will not be invested at all times on the best-performing markets and that this results in a drop in the net asset value of the Fund.

- **Overexposure risk**, due to the option of exposing up to 150% of fund assets to equity markets through the use of derivatives.

Emerging market risk is the risk that the value of a financial instrument from these countries could be affected by economic and political uncertainties in such countries, due to weakness in their economic, financial or political institutions.

- **counterparty risk**, the management team may enter into over-the-counter derivative contracts with financial institutions having their registered office in the European Union or in the United States and subject to the prudential supervision rules from authorities. This is the risk that a counterparty defaults and is no longer able to transfer the money due to the fund as a result of a transaction, i.e. collateral deposits or realised gains. This risk is capped at a maximum of 10% of the portfolio per counterparty. In the event of a counterparty default, the Net Asset Value may fall.

- **Emerging market risk**, as the fund may be invested up to 10% in emerging markets' equities or bond markets. This is the risk that the value of such investments may be affected by the economic uncertainties and policies of these countries, given the fragility of their economic, financial and political structures. In the event of a fall of one or several of these markets, the NAV may fall.

• **risk incurred by convertible bond investments**, given that the Fund may be exposed up to 25% to convertible bonds. This is the risk that the Net Asset Value falls, affected adversely by one or more elements of a convertible bond valuation, namely: level of interest rates, changes in prices of the underlying shares and changes in the price of the derivative instrument embedded in the convertible bond.

• **High yield bond risk**, given that the Fund may be exposed for up to 10% to securities rated 'high yield' by the S&P, Fitch Ratings and Moody's rating agencies.

• **Methodological risk related to ESG (Environment, Social, Governance) selection**: ESG is a relatively new area. Furthermore, the legal and regulatory framework governing this area is still being developed. The absence of common standards may lead to different approaches to setting and achieving ESG (environmental, social and governance) objectives. ESG factors can vary depending on investment themes, asset classes, investment philosophy and the subjective use of different ESG indicators governing portfolio construction. The selection and weightings applied may to some extent be subjective or based on measures which may share the same name but have different underlying meanings. ESG information, whether from an external and/or internal source, is by nature and in many cases based on qualitative assessment and judgement, particularly in the absence of well-defined market standards and the existence of multiple ESG approaches. An element of subjectivity and discretion is therefore inherent in the interpretation and use of ESG data. It may therefore be difficult to compare strategies incorporating ESG criteria. Investors should note that the subjective value that they may or may not assign to certain types of ESG criteria may differ materially from fund to fund. The application of ESG criteria to the investment process may exclude securities of certain issuers for non-financial reasons and, as a result, may cause certain market opportunities available to funds that do not use ESG or sustainability criteria to be lost. ESG information from third-party data providers may be incomplete, inaccurate or unavailable. As a result, there is a risk of incorrect valuation of a security or issuer resulting in the improper inclusion or exclusion of a security. ESG data providers are private companies that provide ESG data for a variety of issuers. They may therefore change the valuation of issuers or instruments at their discretion. The ESG approach can evolve and develop over time, due to the refinement of investment decision-making processes to take ESG factors and risks into account, and/or due to legal and regulatory developments.

• **Sustainability risk**: As a result of climatic events which may result from climate change (physical risks) or the company's response to climate change (transition risks), which may have a negative impact on the Fund's investments and financial

condition. Social events (e.g. inequality, inclusion, labour relations, investment in human capital, accident prevention, change in customer behaviour, etc.) or governance instabilities (e.g. significant and recurrent breach of international agreements, corruption issues, product quality and safety, sales practices, etc.) can also pose sustainability risks. These risks are integrated into the investment process and risk monitoring as they represent potential or actual material risks and/or opportunities to maximise long-term returns. These risks are taken into account through the use of ESG criteria and more specifically through our SPICE methodology described above. The consequences of the occurrence of a sustainability risk are numerous and vary depending on the specific risk, region and asset class. For example, when a sustainability risk occurs for an asset, it will have a negative impact on the asset's value and may result in a total loss of value.

3.2.7. **Guarantee or protection**

None.

3.2.8. **Target investors and target investor profile**

Unit Classes I and ID are referred to as 'clean share' units, and are specifically aimed at 'eligible counterparty' subscribers within the meaning of Directive 2004/39/EC, 'professional investor' subscribers within the meaning of section I of annex II of Directive 2014/65/EC, and all subscribers within the framework of discretionary management services or investment advice on an independent basis within the meaning of Directive 2014/65/EC, for which the suppliers of such services are not allowed to accept and retain fees, commissions or any monetary and non-monetary benefits paid or provided by the management company or by the Fund marketing agent promoter of the Fund ('clean share' units)

Unit Class X has been more specifically designed for UCITS managed by Sycomore Asset Management or by its subsidiaries.

Other unit classes are aimed at all investors.

Given the major risks associated with equity investments, this Fund is mainly intended for investors who are prepared to withstand the wide fluctuations inherent in equity markets, over an investment horizon of at least five years.

The reasonable amount to invest in this Fund depends on your personal situation. In order to assess your financial situation, you must take into account your personal assets, your current needs and your needs over the next five years, as well as your willingness to take on risk or, conversely, to opt for a more prudent investment. You are also strongly advised to sufficiently diversify your investments so that they are not exposed solely to the risks incurred by this Fund.

The units in the Fund, which is a Foreign Public Fund within the meaning of Section 13 of the US Bank Holding Company Act, have not been registered or reported to the US authorities pursuant to the US Securities Act of 1933. Hence, they may not be offered or sold, directly or indirectly, in the United States or on behalf of or for the benefit of a "U.S. Person" within the meaning of the US Regulation (Regulation S).

3.2.9. **Income calculation and allocation**

Accumulation and/or distribution.

Unit Classes I, A, R and X: Full accumulation of the net income and of the net realised capital gains.

Unit Class ID: Accumulation and/or yearly distribution with the possibility of quarterly interim payments of some or all of the net income and net realised capital gains.

The management company shall decide each year on the allocation of distributable sums.

3.2.10. **Unit Class characteristics**

Unit Class	ISIN Code	Allocation of distributable sums	Base Currency	Target investors
X	FR0010865931	Accumulation	EUR	All investors, especially mutual funds managed by SYCOMORE AM or by its subsidiaries
I	FR0010473991	Accumulation	EUR	'Eligible counterparty' subscribers within the meaning of Directive 2004/39/EC, 'professional investor' subscribers within the meaning of section I of annex II of Directive 2014/65/EC, and all subscribers within the framework of discretionary management services or investment advice on an independent basis within the meaning of Directive 2014/65/EC, for which the suppliers of such services are not allowed to accept and retain fees, commissions or any monetary or non-monetary benefits paid or provided by the management company or by the marketing agent of the Fund ('clean share' units).
A	FR0010120931	Accumulation	EUR	All investors
R	FR0010363366	Accumulation	EUR	All investors
ID	FR0012758761	Accumulation and/or Distribution	EUR	

			'Eligible counterparty' subscribers within the meaning of Directive 2004/39/EC, 'professional investor' subscribers within the meaning of section I of annex II of Directive 2014/65/EC, and all subscribers within the framework of discretionary management services or investment advice on an independent basis within the meaning of Directive 2014/65/EC, for which the suppliers of such services are not allowed to accept and retain fees, commissions or any monetary or non-monetary benefits paid or provided by the management company or by the marketing agent of the Fund ('clean share' units).
--	--	--	--

Unit Class	ISIN Code	Subscription or redemption fees	Operating and management charges	Minimum subscription
X	FR0010865931	10% maximum rate	Maximum 1.00% per annum including tax	€100
I	FR0010473991	7% maximum rate	Maximum 1.00% per annum including tax	None
A	FR0010120931	5% maximum rate	Maximum 1.50% per annum including taxes	€100
R	FR0010363366	3% maximum rate	Maximum 2.00% per annum including taxes	None
ID	FR0012758761	7% maximum rate	Maximum 1.00% per annum including tax	€100

3.2.11. Conditions for subscribing and redeeming shares

Subscription and redemption requests are centralised by BNP Paribas Securities Services (3, rue d'Antin 75002 Paris, France) daily at 12 noon on each market trading day (D). These orders are then executed at a then-unknown price on the basis of NAV calculated on the following business day (D+1). The resulting payments are made on the following second business day (D+2).

In summary, subscription and redemption orders are executed in accordance with the table below, unless any specific deadline is agreed upon with your financial institution:

D: Day on which the net asset value is determined	D+1 business day	D+2 business days
Centralisation of subscription and redemption orders before 12 noon (CET)	Publication of the Net Asset Value of D	Delivery of Subscriptions Settlement of Redemptions

Subscription and redemption orders may be expressed in number of units (whole numbers or decimal fractions) or in cash value.

Holders can switch from one unit class to another by passing a redemption order in the units of the share class held, followed by a subscription order for units in another share class. Investors should be aware that switching from one unit class to another triggers the application of the tax regime governing capital gains or losses on financial instruments.

NAV calculation date and frequency: The net asset value is determined each day (D) the Paris stock market is open, with the exception of legal holidays in France. NAV is calculated on the following business day (D+1), based on the preceding day's closing prices.

Place and methods of publication or communication of Net Asset Value: The net asset value is available upon request from Sycomore Asset Management and on its website (www.sycomore-am.com).

3.2.12. Fees and Charges

Entry and exit charges:

Entry and exit charges are either levied on the subscription price paid by the investor or deducted from the redemption price. Charges retained by the UCITS offset expenses borne by the UCITS for investment or divestment. Non-retained charges are attributed to the management company, the marketing agent, etc.

Charges borne by the investor at the time of subscriptions and redemptions	Basis	Rate				
		Unit Class X	Unit Class I	Unit Class A	Unit Class R	Unit Class ID
Subscription fee not due to the UCITS	Net Asset Value multiplied by the number of units subscribed	10% maximum rate	7% maximum rate	5% maximum rate	3% maximum rate	7% maximum rate
Subscription fee due to the UCITS	Net Asset Value multiplied by the number of units subscribed			None		
Redemption fee not due to the UCITS	Net Asset Value multiplied by the number of units redeemed	7% maximum rate	7% maximum rate	5% maximum rate	3% maximum rate	7% maximum rate
Redemption fee due to the UCITS	Net Asset Value multiplied by the number of units redeemed			None		

Exemptions: No fees will be charged for a redemption followed by a subscription for the same account on the same day, if the NAV and amount have the same values.

Operating and management charges:

These charges include all the expenses invoiced directly to the UCITS, except for execution fees. Execution fees include intermediation charges (brokerage, stamp duty, etc.) and transfer commissions, if any, which may be collected by the custodian and the management company. The following may be payable in addition to the operating and management charges:

- performance fees. These reward the asset management company when the Fund exceeds its objectives. They are therefore invoiced to the UCITS;
- transfer commissions invoiced to the UCITS.

For further details regarding fees charged to the UCITS, please refer to the key investor information document.

Fees charged to the UCITS	Basis	Rate				
		Unit Class X	Unit Class I	Unit Class A	Unit Class R	Unit Class ID
Management fees of the asset management company and external costs (statutory Auditors, Custodian and centralisation fees, financial management, distribution, legal costs, etc.)	Net assets	Maximum annual rate (including tax)				
		1.00%	1.00%	1.50%	2.00%	1.00%
Transfer commissions charged by the Management Company	Charge on each transaction	None				
		Maximum charge of €30, including tax. CFD: fixed maximum specific tariff of €20 including taxes.				
Performance fee	Net assets	None	15% including tax above the capitalised ESTER index with a High Water Mark			

These fees shall be booked directly to the Fund's profit and loss account.

Performance fee: From 1 January 2022, the performance fee will be calculated as follows:

Calculation method

The outperformance generated by the Fund on a given date is understood to be the positive difference between the net assets before deduction of any performance fee from the Fund and the assets of a notional UCI, achieving the performance of its benchmark index and recording the same pattern of subscriptions and redemptions as the actual Fund on the same date.

If this difference is negative, this amount represents an underperformance that will have to be offset in the following years before it can again be provisioned for the performance fee.

Offsetting underperformances and reference period

As specified in the ESMA guidelines for performance fees, 'the reference period is the period during which performance is measured and compared to the benchmark and at the end of which it is possible to reset the mechanism for offsetting past underperformance.'

This period is set at 5 years. This means that in excess of 5 consecutive years without crystallisation, unoffset underperformance older than 5 years will no longer be taken into account in the performance fee calculation.

Observation period

The first twelve-month observation period began on 1 January 2022.

At the end of each financial year, one of the following three cases may occur:

- The Fund underperformed over the observation period. In this case, no fee is charged and the observation period is extended by one year to a maximum of 5 years (reference period).
- The Fund outperforms the observation period but the net asset value after taking into account any provision for performance fees is lower than the highest of the net asset values on the last trading day of each previous financial year. In this case, no fee is charged, the calculation is reset and a new twelve-month observation period begins.
- The Fund (i) outperformed over the observation period and (ii) the net asset value after taking into account a possible provision for the performance fee is higher than the highest of the net asset values recorded on the last trading day of each previous financial year. In this case, the management company receives the provisioned fees (crystallisation), the calculation is reset and a new twelve-month observation period begins.

Provisioning

Each time the net asset value is established (NAV), the performance fee is subject to a provision (of 15% of the outperformance) if the Fund's net assets before deduction of any performance fee is greater than that of a notional UCI over the observation period and the net asset value after taking into account any provision for performance fees is higher than the highest of the net asset values recorded on the last trading day of each previous financial year, or a recovery of the provision

limited to the existing allocation in the event of underperformance.

In the event of redemptions during the period, the share of the constituted provision corresponding to the number of shares redeemed shall be definitively acquired and taken by the Manager.

Crystallisation

The crystallisation period, i.e. the frequency of any provisioned performance fee being payable to the management company, is twelve months.

The first crystallisation period will end on the last day of the financial year ending 31 December 2022.

Costs/Efficient portfolio management expenses: The asset management company may levy up to 10% of the income generated by temporary sales of securities transactions carried out on the behalf of the Fund in order to pay for the operational expenses incurred by these transactions which cannot generate any hidden income.

Selection of intermediaries: Sycomore Asset Management has entrusted the trading of its orders to Sycomore Market Solutions. Sycomore Market Solutions receives orders initiated by the management company on behalf of the Fund and ensures their transmission to market intermediaries and counterparties with the main mission of seeking the best possible execution of these orders. Sycomore Market Solutions is an investment company authorised by the French Prudential Control and Resolution Authority (Autorité de Contrôle Prudentiel et de Résolution, ACPR) to provide the service of receiving and transmitting orders on behalf of third parties.

Unit holders may refer to the annual management report for any further information.

4. COMMERCIAL INFORMATION

The settlement of distributable sums occurs, where applicable, within five months following the end of the fund's financial year. Subscription and redemption orders should be addressed to the delegated institution in charge of the centralisation.

Information concerning the Fund is provided by Sycomore Asset Management to your financial intermediary, whose duty it is to pass this information on to their clients.

The management company's voting policy and the report setting out the conditions for the exercise of these voting rights are available and sent free of charge within one week upon written request from the investor to:

- Sycomore Asset Management, 14 avenue Hoche, 75008 Paris, France; - At the following address: info@sycomore-am.com.

The information on Environmental, Social and Governance (ESG) criteria taken into account by the UCITS is available on Sycomore Asset Management's Website (www.sycomore-am.com).

Furthermore, information concerning the Fund may be obtained directly via the Sycomore Asset Management website (www.sycomore-am.com) or by calling our Investor Relations Department on +33 1 44.40.16.00.

The management company may send the UCI's portfolio composition to its investors within a period which may not be less than 48 hours after the publication of the net asset value, solely for the purpose of calculating the regulatory requirements related to Directive 2009/138/EC (Solvency 2). Each investor

wishing to use this information must have procedures in place to manage this sensitive information prior to the transmission of the

portfolio composition, which is to be used solely for calculating prudential requirements.

5. INVESTMENT REGULATION

The Fund complies with the investment rules under Directive 2009/65/EC applicable to UCITS investing no more than 10% of their assets in units or shares of UCITS as set out in the General Regulation of the Autorité des Marchés Financiers.

6. OVERALL RISK

The Fund's overall risk reflects the additional risk incurred by the use of derivatives, based on the commitment calculation method.

7. ASSET VALUATION PRINCIPLES

7.1 Asset valuation rules

Financial instruments and securities traded on French or foreign regulated markets are valued at market price.

However, the following instruments are valued in accordance with the following specific methods:

- Financial instruments which are not traded on regulated markets are valued by the management company at their likely trading value.
- Units or shares in mutual funds are valued at the most recently published NAV.
- Negotiable debt securities and similar instruments which are not actively traded are valued using an actuarial method. The value retained is that of equivalent issued securities, which are adjusted, where applicable, on the basis of a credit spread reflecting the creditworthiness of the security issuer. However, negotiable debt securities with residual lifespan not exceeding three months may be valued using the commitment method in the absence of any specific sensitivity. The application of these principles is set by the asset management company. These are detailed in the notes to the annual financial statements.
- Transactions involving financial futures or options traded on French or foreign organised markets are valued at market price in accordance with methods laid down by the asset management company. They are set out in the notes to the annual financial statements.
- Over-the-counter futures, options or swap transactions authorised by the regulations applicable to mutual funds, are valued at their market price or at an estimated value in accordance with methods laid down by the asset management company, as defined in the notes to the annual financial statements.

Financial instruments for which no price has been established on the valuation day, or the price of which has been adjusted, are valued at their likely trading value under the asset management company's liability. These valuations and relative supporting data are made available to the Statutory Auditor during inspections and audits.

The Fund's accounting currency is the euro.

7.1.1. Alternative valuation procedures in case the financial data is unavailable

Please note that the administrative and accounting management of the Fund is delegated to BNP Paribas Securities Services, which is in charge of valuing the Fund's financial assets.

Nevertheless, Sycomore Asset Management also has at its disposal an estimated valuation of the fund's financial assets on a real-time basis, sourced from various available financial data suppliers (Reuters, Bloomberg, market counterparties, etc.).

In the event that the delegated administrative and accounting agent is unable to value the fund's assets, it will still therefore be possible to provide it with the requisite information for the purpose of such a valuation, in which case the Statutory Auditor will be promptly informed.

7.1.2. Accounting method

The accounting method selected to record income from financial instruments is the coupon-received principle.

The accounting method selected to record execution costs is exclusive of fees.

8. REMUNERATION POLICY

In accordance with the regulation resulting from Directives 2011/65/EC (AIFM) and 2014/91/EC (UCITS V), Sycomore AM has established a remuneration policy. Its objectives are to promote alignment of interests between investors, the management company and its staff, as well as sound and efficient risk management of managed portfolios and of the management company, taking into account the nature, scope and complexity of Sycomore AM's activities. In particular, it relies on the allocation of sufficiently high fixed remuneration and bonuses

whose procedures for allocation and payment promote the alignment of long-term interests.

Details of this remuneration policy are available on our website, www.sycomore-am.com.

A paper copy can also be made available free of charge upon request.

TERMS AND CONDITIONS

ASSETS AND UNITS

Article 1 - Fund units

The rights of co-owners are expressed in units, each unit representing an equivalent fraction of the assets of the Fund. Each unit holder owns joint ownership rights over the assets of the fund in proportion to the number of units owned.

The term of the Fund is 99 years from 11 October 2004 subject to any early winding-up or extension as provided for in these terms and conditions.

The characteristics of the various categories of units, and the terms and conditions of their acquisition, are set forth in 'the Key Investor Information Document' and the prospectus of the Fund.

The various categories of units may:

- benefit from different income distribution methods; (distribution or accumulation)
- be denominated in different currencies;
- incur different management fees;
- bear different entry and exit charges;
- have a different nominal value.

Units may be consolidated or split.

The Board of Directors of the asset management company may elect to split units into ten-thousandths, referred to as fractional units.

Provisions herein governing the issue and redemption of units are applicable to fractional units, the value of which shall always be proportional to the value of the proportion they represent. All other provisions herein governing units apply to fractional units without need for further specification, unless otherwise stated.

Finally, the board of directors of the management company may unilaterally elect to split units by creating new units issued to holders in exchange for existing units.

Article 2 - Minimum assets

Units may not be redeemed if the Fund's (or sub-fund) assets fall below EUR 300,000; when the assets remain below this amount for a period of thirty days, the management company shall make the necessary provisions to liquidate the fund concerned, or to carry out one of the operations mentioned in Article 411-16 of the AMF's General Regulations (transfer of the Fund).

Article 3 - Issue and redemption of units

The units can be issued at any time at the request of holders on the basis of their Net Asset Value plus, if applicable, any subscription fees.

Redemptions and subscriptions shall be executed in accordance with the terms and conditions defined in the key investor information document and the fund prospectus.

Fund units may be listed in accordance with applicable regulations.

Unit subscriptions must be paid in full on the NAV calculation date. They may be made in cash and/or by a contribution in kind in the form of transferable securities. The Portfolio Management Company has the right to refuse the proposed securities and has a period of seven days from the date of filing to inform the subscriber of their decision. If it accepts the securities, they shall be valued on the basis of the rules laid down in Article 4, and the subscription shall be made on the basis of the first net asset value calculated following acceptance of the securities involved.

Redemptions shall be paid out exclusively in cash, unless the Fund is liquidated and unit holders have given their consent to repayment in securities. Payment is made by the issuance account keeper within a maximum of five days following unit valuation.

This period may however be extended up to a maximum of 30 days in exceptional circumstances if the repayment requires the prior divestment of assets held in the Fund.

Except in the case of inheritance or inter-vivos donations, any assignment or transfer of units between holders, or by holders to third parties, shall be deemed to constitute a redemption followed by a subscription. In the case of a third-party assignee, the amount must, where applicable, be supplemented by the beneficiary in order to be at least equal to the minimum subscription required by the key investor information document and the prospectus.

In application of Article L. 214-8-7 of the French Monetary and Financial Code, the redemption by the Fund of its units, as well as the issue of new units, may be provisionally suspended, by the management company, under exceptional circumstances and if unitholders' best interests so require.

When the net assets of the Fund are lower than the amount set by the regulations, no acquisition of shares may take place.

The Fund may cease to issue Units in application of Article L. 214-8-7 of the French Monetary and Financial Code in the following cases:

- under objective circumstances entailing the close of subscriptions, such as a maximum number of units or shares issued, a maximum asset value attained or the expiry of a specified subscription period. These objective circumstances are defined in the full prospectus of the UCITS.

The UCITS may cease to issue units pursuant to the third paragraph of article L. 214-8-7 of the French Monetary and Financial Code on a temporary or permanent basis, in part or in full, in situations that objectively require the closure of subscriptions, such as when the maximum number of units has been issued, a maximum amount of assets has been reached, or a specific subscription period has expired. The trigger of this tool will be communicated by any means to existing holders relating to its activation, as well as to the threshold and objective situation that led to the decision to partially or completely close. In the case of a partial closure, this communication by any means will explicitly specify the terms and conditions under which existing holders may continue to subscribe during the duration of this partial closure. Unit holders are also informed by any means of the decision of the UCITS or the management company either to end the total or partial closure of subscriptions (when falling below the trigger level) or not to end them (in the event of a change of threshold or a change in the objective situation that led to the implementation of this tool). A change in the objective situation invoked or to the trigger level of the tool must always be made in the interests of the unit holders. Information by any means shall specify the exact reasons for these changes.

Article 4 - Calculation of the Net Asset Value

The Net Asset Value is calculated in accordance with the valuation rules set out in the Prospectus.

Contributions in kind shall comprise only securities, shares or contracts permissible as UCITS assets, and these shall be valued in accordance with the valuation principles applied to the NAV calculation.

SECTION 2: FUND OPERATION

Article 5 - The Management Company

The fund is managed by the asset management company in accordance with the policy defined for the fund.

The management company will act in the sole interest of the unit-holders under all circumstances and shall have sole authority to exercise the voting rights attached to securities held by the Fund.

Article 5a - Operating rules

The instruments and deposits that are eligible to form part of the Fund's assets and the investment rules are described in the prospectus.

Article 5b – Listing on a regulated market and/or a multilateral trading facility

Fund units may be listed on a regulated market and/or a multilateral trading facility in accordance with applicable regulations. In case the Fund whose units are admitted to trading on a regulated market has an index-based management objective, the Fund will have in place a system to ensure that the price of its units does not significantly vary from its net asset value.

Article 6 – Custodian

The custodian performs the tasks entrusted to it by the legal and regulatory provisions in force as well as those entrusted to it contractually. It is responsible for ensuring that legal decisions made by the asset management company comply with the necessary regulations. It must, where required, take any precautionary measures it deems necessary. In the event of a dispute with the management company, it will inform the French Financial Markets Authority (Autorité des Marchés Financiers, AMF).

Article 7 - Statutory auditor

A statutory auditor is appointed by the governing body of the management company for a term of six financial years, with the approval of the AMF. The statutory auditor certifies the accuracy and consistency of the financial statements. The appointment of the statutory auditor may be renewed.

The statutory auditor is required to notify the AMF as soon as possible of any fact or decision relating to the Fund of which he becomes aware in the course of his audit that may:

- Constitute a breach of the laws or regulations applicable to this Fund that could have a significant impact on its financial situation, results or assets;
- Undermine the conditions or continuity of its business,

- Entail the issuing of reservations or the refusal to certify the financial statements

Asset valuation and the determination of exchange terms pertaining to conversions, mergers or split transactions are carried out under the supervision of the statutory auditor. The statutory auditor shall determine the value of any contribution in kind or redemption in kind under their own responsibility, except in the case of redemptions in kind for an ETF on the primary market. The statutory auditor monitors the accuracy of the composition of assets and other items prior to publication. The statutory auditor's fees shall be set by mutual agreement between the auditor and the board of directors or the management board of the management company, on the basis of a work schedule setting out the checks deemed necessary. The statutory auditor shall certify positions serving as the basis for any interim distribution. The statutory auditor's fees are included in the management fees.

Article 8 – The financial statements and management report

At the closing of each financial year, the management company prepares the financial statements and a report on the Fund's management during that year.

The management company prepares a statement of the UCITS's assets and liabilities, at least once every half-year, under the supervision of the custodian.

The management company shall make these documents available to unit holders within four months of the end of the financial year and inform them of the amount of income attributable to them: These documents are either sent by mail at the express request of the unit holders, or made available to them by the Asset Management Company.

TERMS AND CONDITIONS OF ALLOCATION OF DISTRIBUTABLE SUMS

Article 9 – Terms and conditions of appropriation of income and distributable sums

Net income for the financial year shall be equal to total interest, arrears, dividends, premiums and bonuses, attendance fees and any other income relating to securities constituting the Fund portfolio, plus income from short-term liquidities, minus management charges and borrowing costs.

Distributable amounts consist of:

1. Net income plus retained earnings plus or minus the balance of accrued income;

2. Realised capital gains after costs, less realised capital losses after costs, recognised during the financial year, plus capital gains after costs recognised during previous financial years that have not been distributed or accumulated and minus or plus the balance of capital gain accruals.

The amounts stated in points 1 and 2 may be distributed, either entirely or partially, independently of one another. The management company shall decide on the appropriation of distributable amounts. Where applicable, the Fund may choose one of the following options for each unit class:

- accumulation : distributable amounts are fully reinvested with the exception of those that must be distributed pursuant to legal provisions;
- distribution (with the possibility of interim distribution):
 - of all distributable sums (all amounts mentioned in points 1 and 2), to the nearest rounded figure;
 - distributable sums mentioned in point 1 to the nearest rounded figure;
 - distributable sums mentioned in point 2 to the nearest rounded figure.

For funds which prefer to maintain the freedom to accumulate and/or distribute all or part of the distributable sums, the management company decides each year on the appropriation of distributable sums mentioned in points 1 and 2 with the possibility of interim distribution.

MERGER – SPLIT – DISSOLUTION – LIQUIDATION

Article 10 - Merger & De-merger

The Management Company may either transfer, in full or in part, the assets included in the Fund to another UCITS or split the fund into two or more other funds for which it will provide management.

A merger or split may not be carried out until one month after notice of the transaction has been given to holders. A merger or split gives rise to the issuance of a certificate specifying the new number of units held by each holder.

Article 11 - Dissolution & extension

If the Fund assets remain below the amount specified in article 2 for a period of thirty days, the management company shall wind-up the Fund and inform the French Financial Markets Authority, unless it is merged with another investment fund.

The management company may wind-up the Fund before term. It shall inform unit holders of its decision and subscription or redemption orders shall no longer be accepted as of that date.

The management company shall also wind-up the Fund if it receives redemption orders for all of its units, if the custodian ceases to perform its duties where no other custodian has been designated, and upon the expiry of the Fund's term unless it has been extended.

The asset management company shall inform the French Financial Markets Authority in writing of the scheduled date and selected winding-up procedure. It shall then send the French Financial Markets Authority the statutory auditor's report.

Extension of a fund may be decided by the asset management company in agreement with the custodian. Its decision must be taken at least 3 months prior to expiry of the Fund's term, and both unit holders and the French Financial Markets Authority must be informed at the same time.

Article 12 - Liquidation

If the fund is wound-up, the asset management company shall be responsible for the liquidation process. The liquidation

process may be entrusted to the custodian subject to its consent. The asset management company or, where applicable, the custodian shall be vested with the broadest powers to realise assets, pay any creditors and distribute the remaining balance between unit holders in cash or securities.

The statutory auditor and the custodian shall continue in their respective capacities until the liquidation process is complete.

DISPUTES

Article 13 - Competent courts & Choice of jurisdiction

All disputes related to the Fund that may arise during the term in which it operates, or during its liquidation, either between the unit holders or between the unit holders and the asset management company or the Custodian, are subject to the jurisdiction of the competent courts.
