What is this product?

Type

CT (Lux) Sustainable Outcomes Global Equity (the "Fund") is a sub-fund of Columbia Threadneedle (Lux) II (the "SICAV"), an open-ended investment fund with variable capital. The SICAV is authorised under Luxembourg law and qualifies as an UCITS.

Term

The Fund does not have a maturity date. The Directors of the SICAV may decide to unilaterally liquidate the Fund with notice to the investors. Please refer to the Prospectus for more information.

Objectives

The Fund aims to increase the value of your investment over the long term by investing in companies that are delivering positive sustainable outcomes for the environment and/or society through their products and services, and display strong environmental, social and governance (ESG) practices. It looks to outperform the MSCI ACWI Index over rolling 5-year periods, after the deduction of charges. The Fund invests a minimum of 90% of its assets in shares of companies worldwide, including shares of companies in emerging markets which may represent a core part of the Fund's investments. The Fund may use derivatives (complex instruments) for hedging purposes and may also invest in asset classes and instruments different from those stated above. The fund manager only selects companies that align with at least one of the Fund's environmental or social themes, which are directly linked to the UN Sustainable Development Goals (SDGs), as outlined in the Fund's Sustainable Outcomes Investment Guidelines. The fund manager also ensures that the companies it invests in follow good governance practices. The Fund excludes companies that derive certain levels of revenue from industries or activities that the fund manager considers are contrary to the goals of making positive contributions to society and/or the environment. It also excludes companies determined to have breached international standards and principles. The fund manager engages with companies to encourage positive sustainable outcomes. Columbia Threadneedle Investments is a signatory to the Net Zero Asset Managers Initiative and has committed to an ambition to reach net zero emissions by 2050 or sooner for a range of assets, including the Fund. The fund manager uses its proactive engagement to assist with progressing this and may disinvest from those not meeting the minimum standards. The Fund is actively managed in reference to the MSCI ACWI Index. The index is broadly representative of the companies in which the Fund invests and provides a suitable target index against which Fund performance will be measured and evaluated over time. The index is not designed to measure whether the Fund attains the sustainable objective. The fund manager has discretion to select investments with weightings different to the index, and that are not in the index, and as a result of its sustainable investment objective, the Fund will display significant divergence from the index. Further information on the Fund's investment guidelines and its sustainable investment objective is available in the Sustainable Outcomes Investment Guidelines and the SFDR RTS Annex of the Prospectus, both available at www.columbiathreadneedle.com. The Fund is considered to fall within the scope of Article 9 of SFDR.

Income from investments in the Fund will be added to the value of your shares.

You can find more details on the Investment Objective and policy of the Fund in the Prospectus. For more information on investment terms used in this document, please see Prospectus and Glossary available at www.columbiathreadneedle.com.

Intended retail investor

This Fund is intended for investors who should have at least a basic level of knowledge and experience of investing in funds. It is designed for investors looking for capital growth and a sustainable investment objective, who can invest their money for at least 5 years. Your capital is not guaranteed which means that investors could lose up to 100% of the amount invested. The fund invests in company shares, the prices of which tend to fluctuate more than other asset classes, as investors directly participate in underlying companies and their profits and losses.

Additional Information

Depository: Citibank Europe plc, Luxembourg branch.

Fund currency is USD. Share class currency is EUR.

Shares in the Fund can be bought and sold on any Luxembourg Business Day. Such days are published on www.columbiathreadneedle.com. You have the right to exchange into shares of another sub-fund or into shares of another share class of the Fund (eligibility requirements apply). Subject to conditions noted in the Prospectus, the Directors of the SICAV may decide to suspend the issue, redemption and exchange of shares.

The assets of the Fund are segregated by law and cannot be used to pay the liabilities of other sub-funds of the SICAV. Further information about the Fund, the Share-Class and the SICAV can be obtained from the Prospectus, the annual and semi-annual financial reports. The above documents and the latest price per share are available free of charge at www.columbiathreadneedle.com in English, French, German, Portuguese (Prospectus only), Italian (Prospectus only), Spanish and Dutch (no Dutch Prospectus). This document is prepared for a specific share-class of the Fund. The Prospectus and the annual and semi-annual financial reports cover the entire SICAV.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for 5 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the value of your investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 06/2024 to 07/2025

Moderate scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 07/2017 to 07/2022

Favourable scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 10/2016 to 10/2021

Recommended holding period: 5 years		Example Investment: EUR 10,000	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	4,050 EUR	3,310 EUR
	Average return each year	-59.46%	-19.83%
Unfavourable	What you might get back after costs	8,140 EUR	10,170 EUR
	Average return each year	-18.63%	0.33%
Moderate	What you might get back after costs	10,950 EUR	17,210 EUR
	Average return each year	9.47%	11.47%
Favourable	What you might get back after costs	14,670 EUR	20,410 EUR
	Average return each year	46.74%	15.34%

Be aware of currency risk. You may receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The risks currently identified as applying to the Fund are set out in the "Risk Factors" section of the prospectus.

Other risks to be considered are: Currency, Portfolio Concentration, Emerging Market, Derivatives, Volatility, Sustainable Investment Criteria and Style Bias.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

What happens if Threadneedle Management Luxembourg S.A. is unable to pay out?

Losses are not covered by an investor compensation or guarantee scheme. The assets of the Fund are held in safekeeping by the Depositary. In case of default of the Manufacturer, the Fund's assets in the safekeeping of the Depositary will not be affected. There is a potential default risk if the assets of the Fund held by the Depositary are lost. However, such default risk is limited as the assets and liabilities of the Depositary are segregated from those of the Fund, and the Fund would not be liable if the Depositary or any delegated service provider were to fail or default.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	106 EUR	936 EUR
Annual Cost Impact*	1.06%	1.19%

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 12.66% before costs and 11.47% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you.
