

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor.

The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between June 2021 and February 2025.

The moderate scenario occurred for an investment between January 2018 and January 2022.

The favourable scenario occurred for an investment between June 2021 and February 2025.

What happens if Hermes Fund Managers Ireland Limited is unable to pay out?

You may face financial loss should the Manager or the Depositary default on their obligations to the Fund. In the event you suffer any such loss, there is no compensation or guarantee scheme in place which may offset all or any of such loss. In the event of insolvency of the Manager or the Depositary, the Fund's assets are segregated from the assets of the Manager and the Depositary and will not be subject to a claim by the liquidator of the Manager or the Depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 4 years
Total costs	199 EUR	980 EUR
Annual cost impact(*)	2.0%	2.1% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.6% before costs and 4.6% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
