WHAT IS THIS PRODUCT?

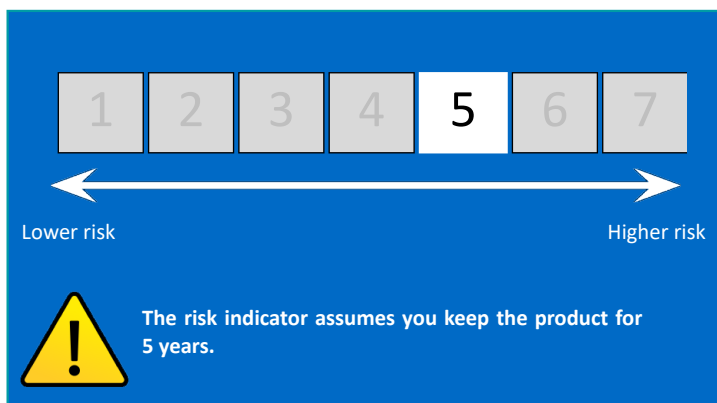

The Class is a share class of the Fund which is a sub-fund of the Company, an open-ended umbrella investment company with variable capital and segregated liability between Funds incorporated with limited liability in Ireland under the Companies Act 2014 with registration number 522617 and established as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (S.I. No. 352 of 2011), as amended (the "UCITS Regulations").

Subject to the conditions set down in the Prospectus, investors may switch their shares in the Fund or Class for shares in a different class of the Fund or another Fund or Class. Please refer to the section entitled "Conversion of Shares" in the Prospectus and Fund Supplement for further details. The Prospectus of the Company and the periodic reports are prepared for the entire Company. There is no fixed term for this Fund.

The Fund's objective is to achieve long term growth of capital. The Fund will invest primarily in a focused portfolio of high quality shares of large capitalization companies (primarily greater than USD 10 billion) that are listed on recognised exchanges in the United States of America. The Fund may also invest in American Depositary Receipts where deemed appropriate by the Investment Manager in order to achieve the investment objective of the Fund. These stocks are selected by the Investment Manager on the basis that they operate with a sustainable underlying competitive advantage with high barriers to competition. For example, the Investment Manager will select securities which it feels have consistent and sustainable high returns on capital, vibrant earnings growth, robust free cash flow generation, strong balance sheets and competent and shareholder-oriented management teams. Where an appropriate investment opportunity is not available, the Fund may also hold and maintain ancillary liquid assets, including cash and cash equivalents (such as certificates of deposit) and Money Market Instruments (such as commercial paper, bankers acceptance and other short-term debt securities). The Fund may also invest up to 10% of its Net Asset Value ("NAV") in aggregate in other open-ended collective investment schemes. The Fund may use a limited number of simple derivative instruments for hedging purposes (such as currency swaps and currency forwards). It is not intended that the Fund will be leveraged as a result of its use of derivatives. The Fund is considered to be actively managed in reference to the Russell 1000 Growth Index and the S&P 500 Index (the "Benchmarks") by virtue of the fact that it uses the Benchmarks for performance comparison purposes. Certain of the Fund's securities may be components of and may have similar weightings to the Benchmarks. However the Benchmarks are not used to define the portfolio composition of the Fund or as a performance target and the Fund may be wholly invested in securities which are not constituents of the Benchmarks. The Shares that you will hold in the Fund are accumulating Shares. This means that income from the Fund's investments will be included in the value of your shares rather than being paid to you as a dividend. You may sell shares in the Fund by submitting an application to the Fund's Administrator before 2 p.m. (Irish time) on any Business Day and/or such other day or days as may be determined by the Directors of the Company. The Company's depository is The Bank of New York Mellon SA/NV, Dublin Branch. Further information about the Company including the Prospectus, latest annual and half-yearly reports are available on www.polencapital.com and these may be sent to shareholders on request and are also available from the Investment Manager, the Manager, or the Administrator free of charge. The Company's documentation is available in English. Other practical information including where to find the latest prices of shares is available on www.bloomberg.com. The latest prices of shares will also be available from the Administrator and the Investment Manager during normal business hours.

The intended retail investor is those who are seeking long-term capital appreciation, have a long-term investment horizon, are willing to accept a moderate level of volatility and are willing to invest through a complete market cycle.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will

lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

Be aware of currency risk. You may receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the product which are not taken into account in the summary risk indicator are: operational risk, counterparty risk and securities risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

WHAT HAPPENS IF AMUNDI IRELAND LIMITED IS UNABLE TO PAY OUT?

You may lose some or all of your investment due to the default of the Fund and/or the Company. The Company is not a guaranteed UCITS and as a result there is no guarantee scheme in place which provides a guaranteed rate of return. There is no investor compensation scheme available to investors in the Company.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed

- In the first year you would get back the amount that you invested (0% annual return)
- For the other holding periods we have assumed the product performs as shown in the moderate scenario
- 10,000 USD is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	USD 99	USD 694
Annual cost impact (*)	1.0%	1.0% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 12% before costs and 11% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you.
