The Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising Vontobel Asset Management S.A. in relation to this Key Information Document. This Product and its management company Vontobel Asset Management S.A. are authorized in Luxembourg and supervised / regulated by the CSSF. Vontobel Asset Management S.A. is part of Vontobel Group.

This Key Information Document is accurate as at 14 November 2025.

What is this product?

Type

The Fund was incorporated as a société anonyme, an open-ended fund formed under the amended law of 17 December 2010 on undertakings for collective investment. It is an umbrella fund with multiple compartments, the Sub-Fund being one of these compartments. The Shares are a class of shares in the Sub-Fund.

Objective

The Sub-Fund aims to achieve capital growth and to contribute to a more efficient and sustainable use of water. It has a sustainable investment objective within the meaning of Article 9 SFDR. More details can be found in the prospectus.

The Sub-Fund invests more than three quarters of its net assets in participation certificates from issuers worldwide, active in the water sector. Less than one quarter of its net assets can be invested (i) in convertible bonds and bonds with warrants denominated in a freely convertible currency and (ii) directly or indirectly in equity-like securities of companies that do or do not operate in the water sector and (iii) directly or indirectly in participation certificates of companies that do not operate in the water sector.

Type of approach: The Sub-Fund invests in securities issued by companies that offer products, services or solutions with a positive contribution to the UN Sustainable Development Goal 6 - Clean Water and Sanitation. **Threshold:** The Sub-Fund invests at least 80% of its net assets in sustainable investments. **Main methodological limits:** Deficient ESG third-party data and internal analyses may result in inaccurate assessments of securities or issuers. Also, relevant ESG criteria may not be applied correctly and there may be indirect investment exposure to issuers who do not meet the relevant criteria.

The Sub-Fund may use derivatives for hedging purposes.

Redemption of shares: daily when banks in Luxembourg are open for normal business (see prospectus for details and exceptions).

Any income generated will be reinvested and included in the value of your Shares.

The portfolio manager has full investment discretion within the predefined investment limits.

Taking into consideration the minimum recommended holding period, the return will depend on the performance of the underlying investments.

The Fund's depositary is State Street Bank International GmbH, Luxembourg Branch.

This Sub-Fund is part of an umbrella fund. The various sub-funds are not liable for one another, i.e. only the gains and losses of this Sub-Fund are relevant for you as an investor.

You can find the sales prospectus, up-to-date semi-annual and annual reports, share prices as well as other practical information on the fund in English and German free of charge at: www.tareno.ch.

Intended Retail Investor

The Sub-Fund is intended for retail investors with knowledge and/or experience of these types of products, that have medium to long-term investment horizon and that have the ability to bear losses up to the amount they have invested in the Sub-Fund.

Term

The Shares do not have a maturity date. The Product Manufacturer can terminate the Shares unilaterally. The Shares, the Sub-Fund and the Fund can be terminated early and liquidated in the cases set out in the prospectus and the articles of incorporation of the Fund.

What are the risks and what could I get in return?

The summary risk indicator (the “SRI”) is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the SRI.

Other risks not captured in the SRI: liquidity, operational, legal or sustainability risks. Further details in the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

The Product offers no capital guarantee against credit risk.

◀ Lower risk

Higher risk ▶

The risk indicator assumes you keep the product for 5 years. We have classified this product as 4 out of 7, which is a medium risk class.

Performance Scenarios

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavorable, moderate, and favorable scenarios shown are illustrations using the worst, average, and best performance of the product, a suitable benchmark and/or a proxy over the last 10 years.

Recommended holding period:		5 years	
Example Investment:		EUR 10,000	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	EUR 5,190	EUR 4,260
	Average return each year	-48.09%	-15.67%
Unfavourable	What you might get back after costs	EUR 9,500	EUR 8,750
	Average return each year	-4.98%	-2.64%
Moderate	What you might get back after costs	EUR 10,660	EUR 15,520
	Average return each year	6.56%	9.18%
Favourable	What you might get back after costs	EUR 11,320	EUR 21,000
	Average return each year	13.20%	15.99%

The stress scenario shows what you might get back in extreme market circumstances.

This type of scenario occurred for an investment between: (Favourable: March 2020 - March 2025, Moderate: September 2020 - September 2025, Unfavourable: October 2024 - November 2025).

What happens if Vontobel Asset Management S.A. is unable to pay out?

The investor may not face a financial loss due to the default of the Product Manufacturer.

The assets of the Fund are held in safekeeping by its depositary, State Street Bank International GmbH, Luxembourg Branch (the “Depositary”). In the event of the insolvency of the Product Manufacturer, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. This risk is mitigated to a certain extent by the fact that the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations as set out in the agreement with the Depositary).

Losses are not covered by an investor compensation or guaranteed scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	EUR 435	EUR 1,121
Annual cost impact (*)	4.7%	2.1% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 11.24% before costs and 9.18% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	3.00% of the amount you pay in when entering this investment. This is the maximum that might be taken out of your money before it is invested.	Up to EUR 300
Exit costs	There is no exit fee charged on this product.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.32% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 128
Transaction costs	0.07% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 7
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	EUR 0

Conversion costs: instead of exit + entry costs, you may be charged 1.50% in case you switch your investment to another Product in the Fund.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

Based on the investment policy and the risk profile of the Sub-Fund, a holding period of 5 years is recommended. Investors can sell the investment at any time, irrespective of the recommended holding period, without additional cost. Shares can be sold daily (on business days). Exit costs are presented above.

How can I complain?

If you have a complaint about the product or the person advising on or selling the product you will need to provide the details to the person who advised you or sold you the product. Complaints about the management company or the Key Information Document should be sent to Vontobel Asset Management S.A., 18, rue Erasme, L-1468 Luxembourg or luxembourg@vontobel.com. You can also visit www.vontobel.com/vamsa for more information.

Other relevant information

The information contained in this Key Information Document is supplemented by the articles of incorporation and the prospectus, which will be provided to retail investors before subscription. Further information about the Fund, including a copy of the prospectus, latest annual report and any subsequent half-yearly report can be found in English and/or German at www.tareno.ch free of charge. The Key Information Document is available on the Product Manufacturer's website at www.vontobel.com/AM. A paper copy of the Key Information Document is available upon request, free of charge, from the Product Manufacturer.
