# Report of the Board of Directors of the Company to the shareholders

## For the six months ended 30 June 2018

The following pages contain the unaudited financial reports for the six months ended 30 June 2018 for the 19 funds that comprise Capital International Fund (CIF).

The outlook for the global economy remains positive despite a challenging period where stocks barely rose. Signs of slowing economic growth in Europe and Japan, deteriorating trade relations between the US and China, mounting inflationary pressures and rising US interest rates all played their parts in sparking renewed bouts of volatility in the financial markets.

Nevertheless, solid US economic growth, powered by tax cuts and resurgent manufacturing activity, along with strong earnings growth among select companies continued to help drive overall improvements in the outlook for the global economy.

And while Europe and Japan showed a slight slowing trend in the first quarter, many economists believe growth will pick up substantially throughout the rest of the year. Escalating trade disputes could derail these expectations; however, the actual threat to global economic growth so far has been muted.

While keeping an eye on macroeconomic developments, managers continue to construct the portfolio one investment at a time, through bottom-up fundamental research. Managers remain focused on finding growth-oriented companies that are dominant players in their industries and generate substantial free cash flow.

In this environment, eight of the funds under the CIF umbrella delivered positive absolute returns, while 10 recorded negative absolute returns. One fund remained flat during the period<sup>1</sup>.

### Assets and cash flow

During the period, CIF's combined total net assets increased to €8,251 million, up from €7,021. This increase was driven by net inflows of €1,039 million and market movement. Changes in the total net assets for each fund are shown in the Historical Data table on pages 20 to 26.

### Significant activity during the reporting period:

- Capital Group Global Corporate Bond Fund (LUX) was launched on 13 February 2018.

The table on pages 11 to 19 gives an overview of the funds' results in their accounting currency. Results in other currencies can be found on our website, [capitalgroup.com/international](http://capitalgroup.com/international).

Thank you for your investment and we look forward to reporting to you again in our annual report at the end of 2018.

## Summary information

	<b>Capital Group Global Absolute Income Grower (LUX) (CGGAIGLU)</b>	<b>Capital Group Global Allocation Fund (LUX) (CGGALU)</b>	<b>Capital Group Global Bond Fund (LUX) (CGGBLU)</b>																																																																																																						
<b>Fund objective</b>	Provide current income (expressed in USD) and grow that income over time by investing in equities of companies which offer a combination of current dividend income and dividend growth, as well as in fixed income securities from around the world. A long-term global equity-like total return with relatively low volatility should also be a long-term outcome of meeting these objectives.	Balanced accomplishment of three objectives: long-term growth of capital, conservation of principal and current income by investing in equities and bonds as well as other fixed-income securities from around the world.	Over the long-term, a high level of total return consistent with prudent investment management by investing globally in investment grade bonds of governmental, supranational and corporate issuers as well as other fixed-income securities.

### Why do different share classes have different returns?

Each share class is designed to support the needs of different investor types and has a different total expense ratio that affects the investment returns for that share class. For example:

- Class A4, A7, A9, A11, C shares and their equivalent classes, where available, are only available to institutional investors who qualify for the reduced Luxembourg tax of 0.01% (rather than 0.05%).
- Class B, N, T, Z and ZL shares and their equivalent classes, where available, are primarily designed for distribution to individual investors. The management fee for class B, N, T shares and their equivalent classes, where available, is higher than for the other share classes to allow for compensation to distributors and other intermediaries for day-to-day services to investors or similar services in relation to investments made with their assistance.
- The management fee for class C shares and its equivalent classes, where available, is charged to shareholders outside the fund by specific separate agreement. Actual returns to shareholders of class C and its equivalent classes, where available, will be lower than those published.
- In addition, the returns of hedged equivalent classes and dividend distributing hedged equivalent classes are impacted by the passive currency-hedging overlay programme (see note 7 to the financial statements).

<sup>1</sup> Returns are with net dividends reinvested for unhedged share classes.

<sup>2</sup> Launch date is the date as of which shares are first issued by a fund, and hence the date on which the fund or share was first priced. Prior results back to the launch of the fund relate to the older share classes, adjusted where necessary to reflect the management fee of the recipient share class.

<sup>3</sup> Investment results are shown in the currency referred to in the relevant class's designation. Lifetime returns are from launch date to 30 June 2018.

<sup>4</sup> Shown for indicative purposes only.

<sup>5</sup> Lifetime returns relate to a period of less than a year and are not annualised.

<sup>1</sup> Bank overdraft could be the result of fund accounting cash settlements that do not appear to be duly covered by an available cash balance. The fund is typically sufficiently covered with cash held in the JPMorgan Liquidity Funds and overdraft balances are the consequence of a delay of the accounting records to reflect a net positive cash and cash related holdings as at any given value date.

<sup>1</sup> Bank overdraft could be the result of fund accounting cash settlements that do not appear to be duly covered by an available cash balance. The fund is typically sufficiently covered with cash held in the JPMorgan Liquidity Funds and overdraft balances are the consequence of a delay of the accounting records to reflect a net positive cash and cash related holdings as at any given value date.

# Notes to the financial statements

As at 30 June 2018

## 1) Capital International Fund (CIF)

### a. Legal structure

CIF is an investment company (the “Company”) organised as a Société d’Investissement à Capital Variable (SICAV) in the Grand Duchy of Luxembourg and is established as an Undertaking for Collective Investment in Transferable Securities (UCITS) under Part 1 of the amended law of 17 December 2010. CIF has been converted from a self-managed SICAV into a SICAV managed by a management company, namely Capital International Management Company, Sàrl (the “Management Company”), on 1 February 2013. CIF commenced operations on 30 December 1969.

### b. Funds

CIF has adopted a multiple-compartment (or “umbrella”) structure. CIF currently comprises the following funds (the “funds”): Capital Group New Perspective Fund (LUX), Capital Group Global Equity Fund (LUX), Capital Group Global Growth and Income Fund (LUX), Capital Group World Dividend Growers (LUX), Capital Group New World Fund (LUX), Capital Group Japan Equity Fund (LUX), Capital Group European Growth and Income Fund (LUX), Capital Group AMCAP Fund (LUX), Capital Group Investment Company of America (LUX), Capital Group Global Absolute Income Grower (LUX), Capital Group Global Allocation Fund (LUX), Capital Group Global Bond Fund (LUX), Capital Group Global Intermediate Bond Fund (LUX), Capital Group Euro Bond Fund (LUX), Capital Group Global Corporate Bond Fund (LUX) (launched on 13 February 2018), Capital Group Euro Corporate Bond Fund (LUX), Capital Group US Corporate Bond Fund (LUX), Capital Group Global High Income Opportunities (LUX) and Capital Group US High Yield Fund (LUX).

### c. Share classes and currencies

Shares of each fund may be divided into class A4, A7, A9, A11, A13, A15, B, C, N, T, Z and ZL shares. In addition, some classes of some funds may be further broken down into equivalent classes.

The funds publish net asset values (NAVs) and offer dealing and reporting in various payment currencies, except hedged equivalent and dividend-distributing hedged equivalent classes for which the funds publish NAVs and offer dealing in the currency referred to in the relevant class’s designation only. A detailed list of all active share classes as at 30 June 2018 is disclosed on pages 11 to 19. Furthermore, the list of all active share classes, available payment currencies and other details can be found online on the Management Company’s webpage at [capitalgroup.com/international](http://capitalgroup.com/international).

The accounting currency of the funds, i.e. the currency in which the financial accounts are prepared, which may be different from the base currency, is euro except for CGNPLU, CGGELU, CGGGILU, CGWDGLU, CGNWLU, CGEGILU, CGAMCAPLU, CGICALU, CGGAIGLU, CGGALU, CGGBLU, CGGIBLU, CGEBLU, CGGCBLU, CGECBLU, CGUSCBLU, CGGHIOLU and CGUSHYLU which are expressed in US dollars and CGJPELU which is expressed in Yen. The base currency is the currency in which the fund holds cash for investment purposes.

The combined statement of net assets and the combined statement of operations and changes in net assets are the sum of the statement of net assets, the statement of operations and changes in net assets of each fund converted into the Company’s accounting currency using an exchange rate as at 30 June 2018.

### d. Dividend policy

- Classes A4, A7, A9, A11, A13, A15, B, C, N, T, Z, ZL and hedged equivalent classes, where available: it is not at present intended that dividends be distributed to shareholders of these classes in any fund.
- Dividend-distributing equivalent classes and dividend-distributing hedged equivalent classes: the Board of Directors of the Company intends to recommend that dividends be distributed to shareholders of all these classes.

**Dividend-distributing equivalent classes and dividend-distributing hedged equivalent classes marked with a “d” or a “dh”**

The dividend will generally represent all of the net investment income (i.e., investment income net of withholding taxes less expenses) of such classes. A given class may not actually pay a dividend in any given accounting period if it has no or no significant net investment income.

**Dividend-distributing equivalent classes and dividend-distributing hedged equivalent classes marked with a “gd” or a “g�”**

The dividend will generally represent a substantial part of the gross investment income (i.e., investment income net of withholding taxes but gross of expenses) of such classes. A given class may not actually pay a dividend in any given accounting period if it has no or no significant gross investment income.

**Dividend-distributing equivalent classes and dividend-distributing hedged equivalent classes marked with an “ad” or an “adh”**

The dividend will generally represent all of the net investment income (i.e., investment income net of withholding taxes less expenses) plus all realised foreign exchange gain and/or loss of such classes. A given class may not actually pay a dividend in any given accounting period if it has no or no significant net income.

**Dividend-distributing equivalent classes marked with a “fd”**

The dividend will generally represent a substantial part of the gross investment income (i.e. investment income net of withholding taxes but gross of expenses) of such classes. The Board of Directors of the Company intends to recommend that dividends be distributed every month to shareholders of such classes. The amount paid out as dividends may exceed that of their net investment income and may include capital gains, as well as partially be paid out of capital.

Details of actual distributions from this period can be found in note 4 to the financial statements.

**e. Accounting year**

The accounting year of CIF begins on 1 January and terminates on 31 December in each year.

**2) Significant accounting policies**

**a. General**

These financial statements are prepared in accordance with Luxembourg laws, regulations and practices relating to investment funds.

**b. Valuation of investments**

- i. Except as otherwise provided in (v) below, securities which are listed on an official stock exchange or traded on any other regulated market are valued at the last traded or otherwise available price at the time the NAV is calculated on the principal market on which they are traded, as published by such market or furnished by a pricing service approved by the Board of Directors of the Company; and other securities are valued at prices furnished by, or yield equivalents obtained from, one or more dealers or such pricing service.
- ii. Securities issued by UCITS or UCIs will be valued at their last available NAV on the relevant valuation date; they may be valued in accordance with item (i) above where such securities are listed.
- iii. Money market instruments will be valued at nominal value plus any accrued interest or using an amortised cost method, provided that this method of valuation ensures that such assets will be valued at their fair value as determined in good faith pursuant to the procedure established by the Board of Directors of the Company.

- iv. The liquidating value of OTC derivatives shall be determined based on information provided by pricing services approved by the Board of Directors of the Company.
- v. If a price representative of a security's fair value is not readily available from the pricing sources described under (i) through (iv) above, or if the accuracy of a portfolio's valuation, as established pursuant to (i) above, is materially affected by events that occur prior to the NAV being calculated, the relevant security or securities will be valued at the fair value, as determined by or under the direction of the Board of Directors of the Company. Use of such fair valuation procedures is intended to result in more representative NAVs and to eliminate or substantially reduce potential arbitrage opportunities at the expense of shareholders that might otherwise be available to short-term investors.

**c. Foreign currencies**

Assets and liabilities in currencies other than euros have been translated into euros at the prevailing exchange rates as at 30 June 2018. Transactions during the period in currencies other than euros have been translated at rates prevailing at the time of the transaction. The variation of the net unrealised exchange gains or losses on open forward currency exchange contracts and on other assets and liabilities between 31 December 2017 and 30 June 2018 is disclosed in "net change in unrealised appreciation/(depreciation) on foreign currency transactions". The net realised gains or losses on exchange, including on open forward currency exchange contracts expired during the period, are disclosed in "net realised gain/(loss) on foreign currency transactions".

The principal exchange rate applied as at 30 June 2018 is 1 EUR = 129.292977326 YEN for Capital Group Japan Equity Fund (LUX) and 1 EUR = 1.167800003 USD for all funds was applied.

**d. Income**

Dividends are taken into income on the date upon which the relevant securities are first listed as ex-dividend. Interest income is accrued on a daily basis.

Premiums and discounts on convertible bonds, sinkable bonds, sinkable-callable bonds, index-linked assets, inflation linked assets, dirty priced bonds and unitised bonds are amortised using an effective interest rate (EIR) methodology. Premiums and discounts on all other fixed income securities are amortised on a straight-line basis.

**e. Realised gain or loss on sale of investments**

The realised gain or loss on sale of equities is determined on the average cost basis and the methodology of calculating gains or losses on disposal of fixed income securities is first-in-first-out (FIFO).

**f. Mortgage related securities - To Be Announced securities contracts (TBAs)**

TBA contracts are forward contracts on agency mortgage pass-through securities issued by agencies such as Fannie Mae, Freddie Mac and Ginnie Mae. The particular securities (i.e., specified mortgage pools) to be delivered or received are not identified at the trade date, but are "to be announced" on the notification date which is two days before the settlement date. However, securities to be delivered must meet specified criteria, including face value, coupon rate and maturity, and be within industry-accepted "good delivery" standards. TBAs settle once each month based on a calendar published by the Securities Industry and Financial Markets Association.

TBA positions are disclosed in the schedule of investments. The purchase of this type of security has not been settled and as a consequence, the amount corresponding to the payable due when the transaction is settled, is disclosed under "Payable for To Be Announced contracts" in the statement of net assets.

Negative positions in the schedule of investments reflect the fund's sale commitments of TBAs. The amount corresponding to the receivable due when the transaction is settled, is disclosed under "Receivable for To Be Announced contracts" in the statement of net assets.

The realised gain/(loss) on TBAs and changes in unrealised appreciation/(depreciation) are disclosed in the statement of operations and changes in net assets respectively under the headings "Net realised gain/(loss) on sale of investments" and "Net change in unrealised appreciation/(depreciation) on investments".

**g. Swing pricing adjustment**

A fund may suffer dilution of the net asset value as a result of large subscriptions, redemptions or switches. Such dilution would arise from shareholders buying or selling shares at a net asset value which would not accurately reflect the dealing and other costs incurred when securities are traded to accommodate cash inflows or outflows. In order to counter such dilution impact, the Company adopts a swing pricing mechanism as part of its valuation policy. If on any valuation date, the net aggregate amount of subscriptions or redemptions in shares of a fund exceeds a pre-determined threshold expressed as a percentage of the net asset value of that fund, the net asset value may be adjusted upwards or downwards to reflect the costs attributable to the underlying trade in securities undertaken by the Investment Advisers to accommodate inflows or outflows as the case may be.

Any swing pricing adjustment to such net asset value will be applied systematically and consistently based on predefined factors. The price adjustment may vary from fund to fund and will normally not exceed 2% of the original net asset value. The Company may decide to suspend the application of any swing pricing adjustment to the net asset value of any particular fund or increase this price adjustment limit in exceptional circumstances to protect the interests of shareholders. Such price adjustment is available on the Management Company's webpage at [capitalgroup.com/international](http://capitalgroup.com/international) concomitantly with the publication of the relevant net asset value. The Company, relying on the Management Company and its Conducting Officers' ongoing review, will reassess on a periodic basis the price adjustment factors to reflect an approximation of current dealing and other costs.

The total net assets as at 30 June 2018, as disclosed in the statement of net assets, exclude the swing price adjustment. The net asset value per share as at 30 June 2018, as disclosed in historical data, include the swing price adjustment.

Capital Group Euro Bond Fund (LUX) has adjusted the net asset value per share as at 30 June 2018. The swing pricing subscription factor applied was 8bps.

The net asset value per share excluding the swing pricing adjustment as at 30 June 2018 is as follows:

### 3) Fees and expenses

#### a. Management fee

CIF pays the management fee at the annual rates specified below. This fee is used to compensate the Management Company which can in turn use it to compensate the Investment Advisers for their investment advisory services and the distributors and other intermediaries, as applicable, for services to investors or similar services in relation to investments made with their assistance.

**b. Depositary fee, custody fee and fund administration fee**

The Company has appointed J.P. Morgan Bank Luxembourg S.A. as Depositary, Custodian and Administrative Manager.

The depositary, custody and fund administration effective fees may vary with the total assets of the funds and, for the custody fee, with the country breakdown in the portfolio. CIF paid fund administration, depositary and custody fees at the approximate effective annual rates specified below. Rates are calculated based on the average net assets during the period:

**c. Related party transactions**

Professional services in the statement of operations and changes in net assets include an amount of €695,901 charged by the Management Company for administrative services rendered during the period ended 30 June 2018.

**d. Reimbursement of expenses**

Each share class is designed to support the needs of different investor types and has a different total expense ratio that affects the returns to shareholders. The CIF prospectus, available on the Management Company's webpage at [capitalgroup.com/international](http://capitalgroup.com/international), explains further the differences between share classes.

The Management Company established a reimbursement threshold so that each fund's total expense ratio (excluding management fee) did not exceed the annual rates specified below:

**CGNPLU, CGGELU, CGGGILU, CGNWLU, CGJPELU, CGAMCAPLU, CGEGILU, CGICALU, CGGAIGLU, CGGHIOLU, CGUSHYLU**

										0.10%

Effective 1st April 2018, the expense reimbursement threshold for classes B, N and T shares and their equivalent classes have been decreased to 0.15% for CGNPLU, CGGELU, CGGGILU, CGWDGLU, CGNWLU, CGJPELU, CGAMCAPLU, CGEGILU, CGICALU, CGGAIGLU, CGGHIOLU, CGUSHYLU and CGGALU.

Effective 1st April 2018, the expense reimbursement threshold for classes B, N and T shares and their equivalent classes have been decreased to 0.10% for CGGBLU, CGGIBLU, CGEBLU, CGGCBLU, CGECBLU and CGUSCBLU.

Effective 1st January 2018, the expense reimbursement threshold for classes Z shares and their equivalent classes has been increased to 0.15% for CGWDGLU, CGGALU and 0.10% for CGECBLU.

As a result, for the period ended 30 June 2018, the amounts of the reimbursement accrued daily in the funds and to be paid by the Management Company were as indicated hereafter.

This reimbursement policy may be changed or withdrawn at any time at the sole discretion of the Management Company.

## 5) Taxation

### a. Taxe d'abonnement

In Luxembourg, CIF is subject only to a tax ("taxe d'abonnement") at the annual rate of 0.05% of the total net assets of each share class in each fund. However, as provided by the relevant Luxembourg laws in respect of share classes wholly held by institutional investors, a reduced rate of 0.01% per annum was applied in respect of class A4, A7, A9, A11, C and equivalent share classes, where available, for the period ended 30 June 2018. It should be noted that there can be no guarantee that the benefit of such reduced rate will not be denied or that, once obtained, it will continue to be available in the future. Such tax is accrued daily, payable quarterly and calculated on the total NAV of each share class at the end of the relevant quarter.

### b. Foreign taxes

Capital gains and income on securities may be subject to respectively capital gain taxes and withholding taxes. CIF is not expected to recover such taxes in full, but may have the possibility to reclaim a portion of the withholding taxes in accordance with the tax relief provided for in the double tax treaties in place between Luxembourg and some foreign countries.

It is CIF's policy to accrue for withholding taxes and any other significant liability for foreign capital gain taxes.

Under certain circumstances, CIF may file claims with the tax authorities of some foreign countries, when the tax treatment it has been subject to could be considered as contestable or discriminatory. The nature of these claims is complex and subject to each jurisdiction's local procedural rules and case law. In such cases, in view of the uncertainty of success, and in accordance with the accounting principle of prudence applied in Luxembourg, CIF does not accrue for the potential tax refund. When a claim is successful, any withholding tax or capital gain tax reimbursement is only recognised as "other income" or "net realised gain on sale of investments" respectively upon notification of the final judgment.

For the period ended 30 June 2018, no amount was earned by the funds as a result of these claims.

## 6) Forward currency exchange contracts

In order to achieve the most appropriate currency distribution, the funds enter into forward currency exchange contracts aiming to reduce the risk of the depreciation in the value of specific currencies. The funds do not intend to systematically hedge currency exposures back to any currency, except in the case of hedged equivalent classes, as described in note 7 to the financial statements.

Forward currency exchange contracts are valued on the basis of forward currency exchange rates prevailing on the relevant reporting date and the resulting net change in unrealised gain or loss is included in the statement of operations and changes in net assets.

## 7) Hedged equivalent classes<sup>1</sup>

The hedged equivalent classes seek to limit the exposure of their shareholders to currencies other than the currency referred to in the relevant class's designation, through a systematic passive currency-hedging overlay performed by J.P. Morgan Chase Bank, N.A. on a significant part of the assets of the relevant fund attributable to these classes.

<sup>1</sup> In this note, "hedged equivalent classes" include "dividend-distributing hedged equivalent classes" as well.

In the case of a net asset flow to or from such a class or fluctuation in the net asset value of the class, the passive currency-hedging overlay may not, or not immediately, be adjusted, unless the flow or fluctuation is significant. Passive currency-hedging overlay will not completely eliminate the exposure to currency movements, and proxy hedging may, for instance, be used when the underlying currency is not liquid or is closely linked to another currency. Shareholders of hedged equivalent classes should note that returns of hedged equivalent classes may be significantly different over time than those of unhedged classes and that passive currency-hedging overlay may limit their ability to benefit from the currency diversification undertaken within the portfolio (including partially offsetting the currency hedging undertaken at the level of the fund's portfolio). The cost of passive currency-hedging overlay and gains/losses from hedging transactions are borne by the relevant hedged equivalent class(es).

These classes are marked by a "h" and a reference to the currency being hedged into.

The actual passive currency-hedging overlay methodology varies from fund to fund, as described hereafter.

#### **Capital Group New Perspective Fund (LUX)**

CGNPLU hedged share classes aim at hedging with a reasonable margin of tolerance the main currency exposures of the fund back into the currency referred to in the relevant class's designation. It is expected that the resulting effective hedge ratio will typically be in the range of 80% to 100%.

#### **Capital Group New World Fund (LUX)**

The Class will aim at hedging 100% (with a reasonable margin of tolerance) of its total net assets, from USD (regardless of the underlying current exposure of the portfolio to USD) into the currency referred to in the relevant class's designation.

#### **Capital Group Japan Equity Fund (LUX)**

CGJPELU hedged share classes aim at hedging 100% (with a reasonable margin of tolerance) of the main currency exposure of the fund, back into the currency referred to in the relevant class's designation.

### **Capital Group US High Yield Fund (LUX)**

CGUSHYLU hedged share classes aim at hedging 100% (with a reasonable margin of tolerance) of the main currency exposure of the fund back into the currency referred to in the relevant class's designation.

## **8) Credit Default Swaps contracts**

In order to obtain exposure to a diversified portfolio of credits or to hedge against existing credit risks, the funds may invest in credit default swap indices contracts ("CDXs"). A CDX is based on a portfolio of credit default swaps with similar characteristics, such as credit default swaps on high-yield bonds. In a typical CDX transaction, one party – the protection buyer – is obligated to pay the other party – the protection seller – a stream of periodic payments over the term of the contract. If a credit event, such as a default or restructuring, occurs with respect to any of the underlying reference obligations, the protection seller must pay the protection buyer the loss on those credits. The fund may enter into a CDX transaction as either protection buyer or protection seller.

The unrealised gain/(loss) is disclosed in the statement of net assets under "Unrealised gain/(loss) on swap contracts". Realised gain/(loss) and changes in unrealised gain/(loss) as a result thereof are included in the statement of operations and changes in net assets respectively under "Net realised gain/(loss) on swap contracts" and "Net change in unrealised appreciation/(depreciation) on swap contracts".

## 9) Interest Rate Swaps

An interest rate swap is a bilateral agreement in which each party agrees to exchange a series of interest payments for another series of interest payments (usually fixed/floating) based on a notional amount that serves as a computation basis which is usually not exchanged.

Interest rate swaps are marked to market at each NAV calculation date. The market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models. The unrealised gain/(loss) is disclosed in the statement of net assets under "Unrealised gain/(loss) on swap contracts." Realised gain/(loss) and changes in unrealised gain/(loss) as a result thereof are included in the statement of operations and changes in net assets respectively under "Net realised gain/(loss) on swap contracts" and "Net change in unrealised appreciation/(depreciation) on swap contracts".

## 10) Futures contracts

Futures contracts provide for the delayed delivery of the underlying instrument at a fixed price or for a cash amount based on the change in the value of the underlying instruments at a specific date in the future.

Upon entering into futures contract, the sub-fund is required to deposit with the broker, cash or securities in an amount equal to a certain percentage of the contract amount which is referred to as the initial margin account. Subsequent payments, referred to as variation margin, are made or received by the sub-fund periodically and are based on changes in the market value of open futures contracts.

The unrealised gain/(loss) on future contracts is disclosed in the statement of net assets under "Unrealised gain/(loss) on financial futures contracts". Changes in the market value of open future contracts are recorded as unrealised gain/(loss) in the statement of operations and changes in net assets under "Net change in unrealised appreciation/(depreciation) on financial futures contracts". Realised gains or losses, representing the difference between the value of the contract at the time it was opened and the value at the time it was closed, are reported at the closing or expiration of futures contracts in the statement of operations and changes in net assets under "Net realised gain/(loss) on financial futures contracts".

## 11) Collateral

As at 30 June 2018, the collateral received or paid which is composed of cash and non-cash collateral granted to or received from brokers and counterparties for the purpose of transactions in OTC derivatives is as follows:

	Sub-fund Currency	Counterparty/ Broker	Type of Collateral	Collateral Amount received	Collateral Amount paid
<b>Capital Group Global Bond Fund (LUX)</b>	USD	Citigroup	Bond	–	129,000

## 12) Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect

Some funds may invest via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect (collectively "Stock Connects"). The Shanghai-Hong Kong Stock Connect is a securities trading and clearing linked program developed by Hong Kong Exchanges and Clearing Limited ("HKEx"), Shanghai Stock Exchange ("SSE") and China Securities Depository and Clearing Corporation Limited ("ChinaClear") and the Shenzhen-Hong Kong Stock Connect is a securities trading and clearing linked program developed by HKEx, Shenzhen Stock Exchange ("SZSE") and ChinaClear, both aiming to achieve mutual stock market access between the People's Republic of China ("PRC") and Hong Kong. Hong Kong Securities Clearing Company Limited (HKSCC), a wholly-owned subsidiary of HKEx, and ChinaClear will be responsible for the clearing, settlement and the provision of depository, nominee and other related services of the trades executed by their respective market participants and/or investors.

The Shanghai-Hong Kong Stock Connect comprises a Northbound Shanghai Trading Link and a Southbound Hong Kong Trading Link. Under the Northbound Shanghai Trading Link, Hong Kong and overseas investors, through their Hong Kong brokers and a securities trading service company established by the Hong Kong Stock Exchange ("SEHK"), may be able to trade eligible China A Shares listed on the SSE by routing orders to SSE. Under the Southbound Hong Kong Trading Link under Shanghai-Hong Kong Stock Connect, investors in the PRC will be able to trade certain stocks listed on the SEHK. Under a joint announcement issued by the SFC and China Securities Regulatory Commission ("CSRC") on 10 November 2014 the Shanghai-Hong Kong Stock Connect commenced trading on 17 November 2014.

The Shenzhen-Hong Kong Stock Connect comprises a Northbound Shenzhen Trading Link and a Southbound Hong Kong Trading Link. Under the Northbound Shenzhen Trading Link, Hong Kong and overseas investors, through their Hong Kong brokers and a securities trading service company established by SEHK, may be able to trade eligible China A Shares listed on the SZSE by routing orders to SZSE. Under the Southbound Hong Kong Trading Link under Shenzhen-Hong Kong Stock Connect investors in the PRC will be able to trade certain stocks listed on the SEHK. The Shenzhen - Hong Kong Stock Connect was launched in December 2016.

The trading is subject to rules and regulations issued from time to time. Trading under the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are both subject to a daily quota ("Daily Quota"). Northbound Shanghai Trading Link and Southbound Hong Kong Trading Link under the Shanghai-Hong Kong Stock Connect as well as Northbound Shenzhen Trading Link and Southbound Hong Kong Trading Link under the Shenzhen-Hong Kong Stock Connect will be subject to a separate set of Daily Quota. The Daily Quota limits the maximum net buy value of crossboundary trades under the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect each day.

## 13) China Interbank Bond Market

Some Funds may invest on the China Interbank Bond Market. Market volatility and potential lack of liquidity due to low trading volume of certain debt securities in the China Interbank Bond Market may result in prices of certain debt securities traded on such market fluctuating significantly. The relevant Fund investing in such market is therefore subject to liquidity and volatility risks. The bid and offer spreads of the prices of such securities may be large, and the relevant Fund may therefore incur significant trading and realisation costs and may even suffer losses when selling such investments.

To the extent that a Fund transacts in the China Interbank Bond Market, the Fund may also be exposed to risks associated with settlement procedures and default of counterparties. The counterparty which has entered into a transaction with the Fund may default in its obligation to settle the transaction by delivery of the relevant security or by payment for value.

Since the relevant filings and account opening for investment in the China Interbank Bond Market have to be carried out via an onshore settlement agent, the relevant Fund is subject to the risks of default or errors on the part of the onshore settlement agent.

The China Interbank Bond Market is also subject to regulatory risks. The relevant rules and regulations on investment in the China Interbank Bond Market are subject to change which may have potential retrospective effect. In the event that the relevant Chinese authorities suspend account opening or trading on the China Interbank Bond Market, the Funds' ability to invest in the China Interbank Bond Market will be limited and, after exhausting other trading alternatives, the relevant Fund may suffer substantial losses as a result.

Reforms or changes in macro-economic policies, such as the monetary and tax policies might affect interest rates. Consequently, the price and the yield of the bonds held in a portfolio would/could also be affected.

#### **14) Bond Connect**

Some Funds may invest via the Bond Connect. Bond Connect is the historic opening up of China's Interbank Bond Market (CIBM) to global investors through the China-Hong Kong mutual access program. The program allows foreign and Mainland China investors the ability to trade in each other's bond market through a connection between the Mainland and Hong Kong based financial infrastructure institutions.

Bond Connect aims to enhance the efficiency and flexibility of investing in the China Interbank Bond Market. This is accomplished by easing the access requirements to enter the market, the use of the Hong Kong trading infrastructure to connect to China Foreign Exchange Trading System (CFETS), removal of the investment quota and Bond Settlement Agent, all which are required to invest in the CIBM directly.

Market volatility and potential lack of liquidity due to low trading volume of certain debt securities in the CIBM may result in prices of certain debt securities traded on such market fluctuating significantly. The relevant Fund investing in such market is therefore subject to liquidity and volatility risks. The bid and offer spreads of the prices of such securities may be large, and the relevant Fund may therefore incur significant trading and realisation costs and may even suffer losses when selling such investments.

#### **15) Cross-Investment**

As at 30 June 2018, the total cross-investment between Sub-Funds amounts to 5,928,356 EUR. The total combined Total Net Assets as at period-end without cross-investment would amount to 8,245,071,760 EUR.

The details of the cross-investment between Sub-Funds are disclosed in the following table:

<b>Sub-Fund</b>	<b>Cross-Investment</b>	<b>Currency</b>	<b>Market Value in USD</b>
Capital Group Global Absolute Income Grower (LUX)	Capital Group Global High Income Opportunities (LUX)	USD	6,923,134.00

#### **16) Calculation method of the risk exposure**

The methodology used by all sub-funds in order to calculate the global exposure resulting from the use of financial derivative instruments is the commitment approach in accordance with the CSSF Circular 11/512.

# General information

## Annual General Meeting

The Annual General Meeting of the shareholders of Capital International Fund (CIF) is held at the registered office of CIF in Luxembourg on the last Tuesday of April in each year at 11:00 am or, if such day is not a Luxembourg business day, on the next business day. Notices of all general meetings are sent to shareholders at their addresses in the register of shareholders by post at least eight days prior to the meeting.

## Information available to investors

The Prospectus, Key Investor Information Document (KIID), Articles of Incorporation, audited Annual Report, unaudited Semi-annual Report and a Statement of changes in the investment portfolio for each fund for the period ended 30 June 2018 are made available free of charge at the registered office of CIF or at the authorised representatives of CIF in various jurisdictions in accordance with Luxembourg law and with the laws of all relevant jurisdictions – see Authorised Agents and Country Paying Agents on pages 269 and 270. In addition, for investors in the Federal Republic of Germany, the above documents may be obtained free of charge in paper form from the German paying and information agent.

The net asset value per share can be obtained from the registered office of CIF. In addition, information about the funds is available on the Management Company's webpage at [capitalgroup.com/international](http://capitalgroup.com/international).

## Presentation of results information

### ■ Pre-merger funds

Some of the funds are a consequence of the merger of pre-existing SICAVs into Capital International Fund in 2002. For these funds, lifetime results relate to the pre-existing SICAVs.

### ■ The euro

The euro came into being on 1 January 1999. Historical results in euros for Capital Group Global Equity Fund (LUX) and Capital Group Global Bond Fund (LUX) relating to time periods prior to 1 January 1999 are calculated using the ECU composite and are shown for illustrative purposes only.

## The Investment Adviser disclosure

The Investment Adviser and Affiliates (the "Affiliates") will place trades with brokers who provide certain brokerage and/or investment research services to the Affiliates, but only when in the Affiliates judgement the broker is capable of providing best execution for that transaction. For the period ended 30 June 2018, there were no transactions through connected brokers and hence no commissions were paid to connected brokers since none of the Affiliates operate any brokerage activity. These services permit the Affiliates to supplement their own research and analysis, which contributes to the efficient management of investment portfolios by Affiliates for the benefit of investors. Although Affiliates may enter into arrangements with brokers with the expectation that these services will be provided, Affiliates do not incur any obligation with any broker to pay for research by generating trading commissions. Affiliates also pay cash for certain third-party research they receive. In addition, Affiliates' employees are governed by a global Code of Ethics, which includes rigorous personal investing and gifts and entertainment policies. Affiliates may also provide the Company with other services to support its business development, including, but not limited to, product development, fund registration and any other similar support as may be required, for which they receive a reasonable compensation.

## Remuneration related information

The Management Company (“Capital International Management Company”) has implemented a Remuneration Policy that is designed not to encourage taking excessive risks.

The details of the up-to-date Management Company remuneration policy, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits, including the composition of the remuneration committee, are available on the website [https://www.capitalgroup.com/eu/remuneration\\_policy](https://www.capitalgroup.com/eu/remuneration_policy).

A paper copy of the remuneration policy will be made available free of charge upon request.

As per UCITS V Directive as regards depositary functions, remuneration policies and sanctions, it is confirmed that

- the remuneration policy is consistent with and promotes sound and effective risk management and does not encourage risk taking which is inconsistent with the risk profiles, rules or instruments of incorporation of the UCITS that the management company manages;
- the remuneration policy is in line with the business strategy, objectives, values and interests of the Management Company and the UCITS that it manages and of the Shareholders in such UCITS, and includes measures to avoid conflicts of interest;
- the assessment of performance is set in a multi-year framework appropriate to the holding period recommended to the Shareholders of the UCITS managed by the management company in order to ensure that the assessment process is based on the longer-term performance of the UCITS and its investment risks and that the actual payment of performance-based components of remuneration is spread over the same period;
- fixed and variable components of total remuneration are appropriately balanced and the fixed component represents a sufficiently high proportion of the total remuneration to allow the operation of a fully flexible policy on variable remuneration components, including the possibility to pay no variable remuneration component.

The Management Company paid a total of EUR 0.6m to 5 beneficiaries during the year ending 30 June 2018. This figure is comprised of fixed remuneration of 0.5m and variable remuneration of 0.2m\*. The total amount paid to senior management was 0.4m and to other members having a material impact on the risk profile of the fund was 0.1m.

Fixed remuneration consists of salaries paid, pension contributions and other benefits such as health insurance. Variable remuneration consists of annual bonuses paid in the period in accordance with remuneration policy. For staff that perform roles for other group companies, only the proportion of remuneration that is attributable to the Management Company or the UCITS funds it manages is included in these amounts.

\* Figures may not add up to the total due to rounding
